Gladioli and Dahlias

"LADY EMMA"

Grown and for Sale by
GLAD-IRIS GARDENS
Gladiolus, Iris and Dahlia Specialists
Growers and Originators - - - Beltsville, Maryland

GREETING TO OUR FRIENDS AND CUSTOMERS

It is with pleasure that we hand you our 1925 Gladiolus Catalogue. We wish to thank you for your liberal patronage this past season. It has given us great pleasure to receive the many fine reports of your success with our bulbs and roots.

Our policy is to grow the choicest varieties of gladioli, irises and dahlias, discarding those that do not meet the highest standard of quality.

We wish to call your attention to the five new gladiolus and three new dahlia novelties, originated by R. B. Piper, being offered in this catalogue for the first time. All are of high merit and should have a place in your collection. There are many more fine seedlings growing in our test gardens, the best of these will be introduced as soon as stocks have increased to sufficient size.

It is our plan this season, to enlarge our gardens and increase our working force so that we can give our patrons better service in the future. Our plans also call for a Show Garden to be located on Washington-Baltimore Boulevard, west of St. John's Church at Beltsville, Md.

The climate and soil in this section is ideal for the production of strong, vigorous bulbs and roots. Our stock is of the highest quality and will grow and bloom in any section if cultural directions are followed.

Visitors are always welcome and those interested in gladioli, irises and dahlias can select varieties when in bloom. We are located twelve miles from Washington, D. C., and twenty-eight miles from Baltimore, Md., on the main line of the Baltimore and Ohio Railroad. Our gardens are one-half mile south of Washington-Baltimore Boulevard at B. & O. R. R. Station and adjoin the U. S. Government Experimental Farm. Visitors are also welcome at our Test Gardens at the home of F. J. Piper, West Main Street, Townsend, Massachusetts.

Your orders, whether large or small, will receive our best attention and we are confident that you will be pleased with our fine stock and liberal business methods. We are always glad to give information and we solicit your correspondence. Be sure and read our guarantee.

Sincerely yours,

GLAD-IRIS GARDENS,

Ralph B. Piper, Proprietor.

TERMS OF SALE

Five Beautiful Novelties For 1925.

Originated by R. B. Piper

FREDERICK

(Anna Eberius X. Sentinel)

This magnificent variety is of the highest merit and will be welcomed by lovers of fine red gladioli. Color, a deep velvety crimson self. The flowers are wide open, $4\frac{1}{2}$ inches in diameter and well arranged on tall graceful spike, five or more open at one time. Tall and vigorous grower. Stock limited. Price, \$25.00 each.

Swatara (Left) Frederick (Right)

LADY EMMA

A magnificent variety of clear salmon color with yellow throat. Flowers of excellent form with ruffled edge, $4\frac{1}{2}$ inches and over in diameter, well placed on graceful spike. An ideal variety as to color and form. Strong and healthy grower. Stock limited. Price, \$25.00 each.

POMPEIA

This is an odd but most beautiful variety of deep Pomein red. Flowers wide open, 4 inches or more in diameter which are well placed on tall spike, five or more open at one time. Strong grower and good multiplier. Stock limited. Price, \$20.00 each.

SCARAMOUCHE

(Anna Eberius X. Sentinel)

Another very beautiful red variety of the same parentage as Frederick. Color, bright velvety scarlet with deeper throat. Flowers $4\frac{1}{2}$ inches across, of good form and well placed on graceful spike. Strong, vigorous grower and good multiplier. Stock limited. Price, \$15.00 each.

SWATARA

(Anna Eberius X. Sentinel)

The flowers of this charming variety are wide open, $4\frac{1}{2}$ inches in diameter and are borne on tall straight spike. The color is a pleasing shade of Liseran purple with magenta throat. Strong, vigorous grower and good multiplier. This is also of the same parentage as Frederick. Stock limited. Price, \$20.00 each.

ROSE BEAUTY

(Piper)

This variety was introduced last year for the first time. A tall and very beautiful primulinus hybrid. The color is geranium pink to deep rose dove, throat shading from rose red to pomegranate purple. Flowers wide open and four inches or over in diameter. A strong, vigorous grower and liberal producer. Price, \$1.00 each.

MRS. FISHER

(Blake)

We have grown this new variety of Mr. Blake's for two years and find it one of high merit. In color it is an odd but pleasing combination of deep Chate-nay pink with throat markings of Rocel-lin purple. The flowers large, good form, wide open and well arranged on spike. Price, \$1.00.

Three Beautiful Dahlia Novelties For 1925.

Dusky Maiden

Juniata

Originated by R. B. Piper

DUSKY MAIDEN

This very attractive decorative dahlia is of a beautiful shade of bright, velvety Bordeaux. The blooms are large, very double, excellent form, and borne on stiff stems of good length. The plants are strong, vigorous and profuse bloomers. This dahlia has been much admired by all that have seen it in bloom. Price, \$10.00 each.

JUNIATA

A large decorative dahlia of deep velvety ox-blood red. The blooms are well rounded, full to the center, and are borne on strong stems of good length. A vigorous grower and profuse bloomer. This is a very beautiful dark red variety. Price, \$5.00 each.

PRIDE OF MARYLAND

This is a magnificent and exceptional decorative-cactus dahlia. Pride of Maryland has appealed to all that have seen it in bloom and there can be no question or doubt but what it will receive a warm welcome by all lovers of fine dahlias. In color it is a wonderful shade of deep scarlet red. The large well formed flowers have considerable depth, the outer petals are rolled, while the inner ones broaden out. Flowers freely on stems that hold the blooms up firmly. Strong bushy plants with dark green foliage add much to its attractiveness. Stock limited. Price, \$15.00 each.

G. H. R., Rocky River, Ohio, says:

"I wish to let you know the bulbs you mailed me reached here in first-class shape. I never was any happier in my life than when I opened your box of bulbs. I wish to thank you many times for the selection of bulbs and also the very liberal count."

CULTURAL DIRECTIONS GLADIOLUS

The gladiolus is easy of culture and thrives in most any good garden soil, if given full exposure to the sun. With rich soil and the best of culture the gladiolus responds, giving blooms of the finest quality. The soil should be well prepared and if it needs enriching a good grade of potato fertilizer, bone meal or pulverized sheep manure should be applied. Fresh manure should never come in contact with bulbs and if used should be applied the season before planting.

Bulbs one inch or more in size should be planted from three to four inches deep and four to eight inches apart. Plantings can be made from the time soil becomes workable in spring up till the middle of June.

Keep the soil well cultivated, never allowing ground to become baked. When cutting blooms always leave at least three good leaves to ripen and give strength to the bulbs.

Dig bulbs in fall before they become too ripe. Cut stocks close to bulb. Cure in sun or cool airy place, then clean and store in dry, cool frost proof cellar.

IRIS CATALOGUE

Our 1925 Iris Catalogue will be published July 1. In it will be found several new novelties in both Bearded and Japanese Irises, the originations of R. B. Piper, as well as standard and other fine new varieties. If you are interested in Irises for spring delivery ask for our Special Iris Price List, which is now ready.

NOTE—If you should receive an extra catalogue please hand to some friend or neighbor. Kindly send us the name and address of a few of your flower-loving acquaintances when sending your bulb order and for your trouble we will send you one or more blooming size bulbs of some choice variety of gladiolus.
