59TH ANNIVERSARY COLLECTION of 12 Beautiful Shrubs, for \$5.00

ALL 2 YEARS OLD - WELL ROOTED - BUSHY

MAKE YOUR GROUNDS AS ATTRACTIVE AS YOUR HOUSE

See Next Page for List of Varieties

GLEN BROTHERS, Inc., GLENWOOD NURSERY

Established 1866

FIFTY-NINTH YEAR

ROCHESTER, N. Y.

When better trees are grown, Glen will grow them. (*Apologies to Buick*)

GLEN BROTHERS May 7th, 1925

Dear Sirs: You ought to prosper. Any firm sending out such splendid goods will never be forgotten. The trees are planted and I will guarantee that 5 of the 5 will grow.

ANDREW S. ZIMMERMAN, Minister
Memorial Presbyterian Church
NEWARK, N. J.

PLANT MORE FLOWERING SHRUBS

12 Shrubs—all different

One plant each of the following list for \$5.00

Order at once for fall planting.

Planted this fall they will bloom next summer.

Butterfly Bush: (*Summer Lilac*). The name Butterfly Bush was applied to it because it seems to attract the large, gorgeously colored butterflies that swarm about it as though vieing with it in brilliancy of color. A single plant the first season will throw out as many as 50 flower spikes.

Golden Barked Dogwood: Conspicuous bright yellow bark, handsome green foliage and immense clusters of large white waxy berries.

Forsythia: (*Golden Bell*). Rich golden yellow flowers are borne in great profusion along the branches before the leaves appear.

Smooth Sumac: Brilliant crimson foliage topped with prominent clusters of showy seeds in Autumn. One of the most brilliant plants in Autumn.

Deutzia Crenata: Flowers double white, tinged with rose. One of the most desirable flowering shrubs in cultivation.

Yucca: (*Adam's Needle*). A handsome evergreen plant with swordlike foliage, with spikes of fragrant drooping bellshaped creamy white flowers during June and July, making a tropical effect.

Tartarian Upright Honeysuckle: Bears a profusion of bright pink flowers in the spring, followed by orange scarlet berries.

Golden Spirea: A variety of golden yellow foliage and double white flowers in June. Effective in shrubbery or for planting along banks or as screens.

Snowberry: Bushy shrubs 3 to 5 ft. with slender spreading branches; loose racemes of pinkish flowers in summer are followed by waxy snow-white berries.

Sweet Syringa: Popular ornamental deciduous shrub that will add attractiveness and fragrance to the home gardens.

Deutzia Pride of Rochester: A shrub that delights the eye with its large double white flowers which are tinged with pink in the bud.

Spirea Opufolia: Large, vigorous growing shrub that bears an abundance of fragrant white flowers along the stem in June. Very desirable for mass planting or screen purposes.

One each of these 12 flowering Shrubs only \$5. Order now.

Large Clusters of White Berries on Golden Bark Dogwood

It Pays to be Particular

May 1, 1925

Dear Sirs:

Many thanks for favor. Everything arrived fine shape. Trees I got from you last year are coming fine.

Thank you for replacing the Wealthy.

Yours truly,

Ida Thomas
110 E. Jackson St.
Battle Creek, Mich.

Make Your Garden A Riot of Color From June Until Frost

OUR selection of 25 best perennials for fall planting. One plant of each variety—25 plants in all—only \$5.00. For choice flowers next summer plant this fall. Following are the 25.

Anemone Queen Charlotte: Large semi-double silvery pink. Blooms October. 1 ft.

Anemone Whirlwind: Very large double white. Blooms October. 1 ft.

Aquilegia Canadensis: Scarlet and yellow. Blooms April to June. 2 ft.

Campanula Media: (*Canterbury Bells*). Large cup shaped flowers, rose. Blooms June to July. 2-3 ft.

Chrysanthemum Maximum: (*Shasta Daisy*). Large snow-white flowers, blooming all summer. 3-4 ft.

Chrysanthemum Hardy Pompom: Bronze. Blooms September. 3-4 ft.

Coreopsis Lanceolata: Rich golden yellow flowers nearly all summer. 2 ft.

Helenium Riverton Gem: Old gold, changes to red. Very beautiful plant. Blooms August to October. 2 ft.

Heliopsis Scabra: Golden yellow Zinnia-like flowers. Useful for cutting. Blooms August. 2 ft.

Hemerocilis Flava: (*Lemon Day Lily*). Fragrant golden yellow flowers in large clusters. Blooms in June and July. 2 ft.

Liatris: (*Kansas Gay Feather*). Flowers purple, in dense-like spikes. 4-5 ft. high. Thick grass-like foliage. Blooms July.

Lupinus: Long spikes of pea-shaped flowers on long stems. Attractive colors. Blooms May. 3 ft.

Platycodon: (*Bellflower*). Large bell-shaped flowers. Blooms August to September. 2 ft.

Physalis: (*Chinese Lantern Plant*). Very large. Orange red fruits. Suitable for winter decorations. 2 ft.

Oriental Poppy: The showiest of the poppies with great silky scarlet and red flowers on long stems. Blooms in May. 2 to 3 ft.

Pyrethrum Roseum: Finely cut foliage and daisy-like flowers on long stems. Blooms June. 1½ ft.

Salvia Azurea: Meadow sage. Pretty spikes of tall blue flowers in August and September. Profuse bloomer. 3 ft.

Funkia: (*Plaintain Day Lily*). Handsome broad foliage and fragrant lily-like flowers in late summer. 1 ft.

Digitalis: (*Fox-Glove*). Stately plants bearing long spikes of tubular flowers in July and August. 2 to 3 ft.

Delphinium Belladonna: Clear turquoise blue flowers. Blooms July to August. 4-5 ft.

Delphinium Chinese Alba: A dwarf species producing spikes of white flowers. Blooms July to August. 2 ft.

Dianthus Barbatus: (*Sweet William*). An old time favorite that is hardy, beautiful and free flowering. In various tints and shades. Blooms all summer. 1½ ft.

Gaillardia Grandiflora: A fine large flower, brown center surrounded with crimson rings and yellow border. Blooms all summer. 2-3 ft.

Gypsophila Paniculata: (*Baby's Breath*). Mist-like sprays of minute white flowers. Fine for bouquets. Blooms continuously. 2 ft.

Perennials are the thing

One Each of These 25 Best Perennial Plants only \$5.00

The flowers that bloom in the Spring. Tra! la!

Yellow Darwin.

King Harold: Purple-red, with white base.

Massachusetts: Vivid pink, white center, large.

High Quality Darwin Tulips (Long Stemmed)

Fresh Fall Importation Direct From Grower To Us

TALK about your luck! Due to a fortunate spot cash purchase of Darwin tulips from Messrs. P. Byvoet, Limited, famous bulb growers, Schoten-Haarlem, Holland, we are able to offer several hundred thousand superior quality regular size bulbs at

\$3.50 per 100—\$30.00 per 1000

Act quick as this is a ridiculously low price and our stock will soon be exhausted. These bulbs will reach this country about October 1st and shipments will be made promptly thereafter and in rotation—The first orders received will be the first orders shipped. Order at once.

VARIETIES

Anton Roozen: Bright rosy pink.

Glory: Brilliant red, easy forcer.

Dream: Beautiful soft lilac.

Glow: (*Claude Gillot*). Vermillion scarlet, showy.

Mrs. Potter Palmer: Deep purple, handsome form

The Sultan: Rich maroon black, blue base.

Painted Lady: Creamy white, tinted heliotrope.

CHOICE LILIES (For Fall Planting Only)

SPECIAL collection of six varieties best hardy lilies \$3.00. No class of plants capable of being cultivated out of doors possesses so many charms. Rich and varied in color—stately and handsome in habit—profuse in variety and delicious fragrance. They thrive best in dry rich soil where water will not stand in winter. After planting they require very little care and should not be disturbed for several years.

Madonna Lily: The old fashioned pure white garden lily. One of the hardiest.

Auratum Lily: (*Gold-banded lily of Japan*). Flowers very large, delicate ivory white color thickly dotted with rich chocolate crimson spots with the bright golden bands through the center of each petal. The finest of all lilies.

Tiger Lily: Bright orange scarlet with dark spots. A strong growing, showy variety and entirely hardy. Succeeds well everywhere.

Superbum: Averages from 3 to 6 ft. in height. Its nodding crests adding to the general brilliancy of July with from 5 to 40 handsome orange red blossoms.

Speciosum Album: Pure white with a green band traversing the center of each petal.

Henryi: (*Yellow Speciosum*). One of the finest hardy lilies of strong, vigorous growth with flower stalks 3 to 5 ft. long. Deep apricot yellow, light and spotted brown.

This splendid collection of six large size bulbs only \$3.00

What is as fair as a lily? Another lily.

Roses are red, violets are blue, plant this collection and they will bloom for you.

10 Choice Hardy Roses

This Magnificent Assortment Including One Los Angeles For \$10.00. All Strong, 2 Year Old Field Grown Plants Planted this Fall should Bloom Next Summer.

1 Los Angeles: A 1917 Rose which is said to be one of the finest ever introduced. In color it is a luminous flame-pink, toned with coral and shaded with translucent gold at base of petals. The buds are long and pointed, expanding into enormous, intensely fragrant flowers which retain their color until the last petals drop.

1 Gruss An Teplitz: (*Crimson Hermosa*). The clusters of fine long buds are magnificent bright crimson flowers, with fiery red shading, make a brilliant show all summer, and its beauty is still further enhanced by the lovely green foliage, which in the young growth is a dark, rich bronze. It is very fragrant, free-blooming, hardy and vigorous.

1 Killarney Pink: The buds are very long and pointed; the flowers are a lovely flesh, shaded with white, suffused pale pink, and are deliciously perfumed. Vigorous. A lovely and distinct Rose of great merit.

1 Geo. Ahrens: This is a wonderful pink American Beauty. The growth and makeup of the plants is superb, while the delicate pink color is unapproachable. One of the showiest Roses in our collection.

1 J. B. Clark: Robust in growth with clean heavy foliage, flowers of large and superable construction; deep scarlet over-layed crimson.

1 Frau Karl Druschki: The buds are handsome, long-pointed, opening to very large, cupped flowers of pure, snowy white and great substance. A very vigorous grower and exceptionally hardy; very free and continuous bloomer.

1 John Hopper: Bright rose with carmine center; large and full. Very profuse bloomer.

1 Persian Yellow: A beautiful deep golden yellow Rose of large size and fairly full. Vigorous grower.

1 Prince Camille de Rohan: One of the best and most useful dark Roses. The flowers are large, full, well-formed, of a deep, velvety crimson, shaded with maroon. Very free flowering and vigorous.

1 Magna Charta: Large, full, well-formed flowers of bright pink; very fragrant. Exceedingly vigorous.

This is unquestionably the finest assortment of Roses we have ever offered or have ever seen offered for \$10.00.

Our 10 Best Hardy Chrysanthemums

PLANT them outdoors this fall and enjoy their exquisite blooms next October and November after all other outdoor flowers are gone. When in bloom are a perfect mass of flowers.

Boston: Bronze.
Belden's: White.
Red Button: Red.
Firelight: Carmine, shaded garnet.
Harvest Home: Golden bronze.

Marie Antoinette: Rose.
Normandie: Early large light pink.
Petite Jean: Pinkish white.
Excelsior: Yellow.
White Dotte:

Hardy Chrysanthemum—Are a joy forever

Plant Your Hedge this Fall

Beautiful Chrysanthemums on a cool fall morning.

Barberry Thunbergii Japanese Barberry

ONE of the most ornamental and valuable new shrubs; remarkable for its dense spreading growth, its hardiness and attractive appearance throughout the year. One of the earliest to start in the spring; before most other plants have awakened from their winter sleep it is covered with the greenness of its dainty little leaves and a few weeks later with myriads of small, pale yellow flowers, followed by an abundant crop of fruit, ripening into scarlet berries which remain to make the bush a conspicuous and attractive object all winter. The brilliant autumn coloring of the leaves, which assume the brightest shades of orange, scarlet and crimson, is not the least of the attractions of this interesting bush. It is one of the best plants for shrubbery borders, for edging and for hedges. By trimming it can be kept of any size or shape desired, or if allowed to grow without interruption it will make a defensive hedge four or five feet high, and six or eight feet broad. Its thorns though not long are very sharp, and severe enough to bar all but the most determined intruders. Set one foot apart.

Prices: 12-18 inch, \$3.00 per 12; \$20.00 per 100.
 18-24 inch, \$4.50 per 12; \$35.00 per 100.

Barberry Thunbergii makes the best hedge. Set plants 1 foot apart.

SIX SHOWY LILACS—*The Famous Highland Park Varieties*

Lilacs grow everywhere—Anyone can have lilacs—Plant more lilacs, but plant the choice varieties

OUR collection is admirable. We were helped in the selection by Mr. John Dunbar, famous as the assistant-superintendent of Highland Park, Rochester, N. Y., containing one of the finest collections if not the finest in the whole world. In the last five years, we have sold at retail nearly 25,000 plants, shipping to nearly every state in the Union. We have selected the following six choice varieties, which we have named "Highland Park Collection." We offer the collection, composed of one each of the varieties described, to a limited number of customers. Planted this Fall, they should bloom next season as ours are strong plants, two to three feet high, well rooted and branched. Order now before stock is exhausted.

De Miribel: Single, large panicles of bluish violet color; very dark and rich, extra.

Pasteur: Single, vinous red turning to black red, one of the best dark sorts.

Rai Albert: Late flowering sort—of great value for cut flowers—buds purple, shaded mauve when expanded.

Chas. Joly: The opening flowers are of a deep wine red and change to a light purple red. One of the best double, dark flowering lilacs.

Mme. Abel Chatenay: Double; sweetly scented pure white flowers in large panicles.

Pres. Loubert: Large double flowers, purplish red—a distinct shade.

PLANTED THIS FALL, SHOULD BLOOM NEXT MAY

Special price for this collection \$10.00. Single plant \$2.00 each.

Glen Brothers,
Rochester, N. Y.

Cincinnati, Ohio, April 24, 1925.

Gentlemen:

The shipment of the English Walnut Tree received and I wish to thank you for the manner in which you adjusted this claim. We are well pleased with the entire shipment. All of the plants are exceedingly robust. The lilacs have been planted about ten days and are showing bloom and buds. I would like to know whether it would be best to let these blooms develop this year. The trees and shrubs have started nicely just as though they had never been taken out of the ground.

Again thanking you, I remain, with best wishes

Sincerely yours,
Geo. E. Smith.

Fragrant of many colors, they are most adorable

Three Beautiful Dwarf Flowering Trees For The Lawn

Planted in a Group Produces a Charming Effect

ORDER NOW FOR FALL PLANTING

Dwarf ornamental trees lavishly bedecked with flowers

tree's chief beauty, are double, of a delicate pink color, and delightfully fragrant; produced early in spring in such profusion that, at a distance, the tree seems literally covered with them.

These 3 for \$4.00

3 Delightful Hardy Vines, \$2.00

Ornamentals of this class are so hardy, so easily grown, and so beautiful that they deserve greater attention than they receive. No artist can produce pictures equal to the wealth of beauty displayed by the elegant wisteria, the graceful kudzu vine or the charming and magnificent evergreen bittersweet. They are indispensable for screening porches and summer houses, for covering tree trunks and trellises. Many varieties when in flower fill the summer air with their fragrance. Planted generously, they will in a year or two transform a new place. Give them a fine rich soil and they will require little attention.

Wisteria: Picturesque climber with great clusters of pale bluish violet, pea-shaped flowers that make a handsome showing when a vine has been properly trained over a porch or arbor. After becoming established, the vine makes an enormous annual growth.

Kudzu Vine: The most rapid-growing vine in cultivation, attaining, after once being established, a height of 50 feet or more in one season. Its foliage is large and furnishes dense shade; it bears small racemes of rosy-purple, pea-shaped

blossoms, towards the close of August. Exceedingly valuable for covering porches, pergolas and trellises.

Evergreen Bittersweet: A beautiful, low-trailing evergreen with aerial rootlets which cling to any support. Forms a lovely decoration on walls or trees, with its masses of red berries in winter. As an evergreen, absolutely hardy wall cover this plant is unequalled.

Order now for fall planting.

Purple-Leaved Plum: Small, compact-growing ornamental trees that will prove effective as a part of any planting scheme. The foliage is dark crimson, changing to purple as it matures, retaining that color until late in November.

Double-Flowering Almond: Low-growing and bushy, in early summer delighting the eye with its double white and rose-colored flowers that appear in great profusion. One of the most beautiful of the genus.

Bechtel's Double-Flowering Crab: All the Flowering Crabs are fine specimens of ornamental trees and shrubs, but this variety is the finest of the lot, forming a low, bushy tree that is sturdy, hardy, and blooms young.

The flowers, wherein lies the

Great clusters of light bluish-violet pea-shaped flowers give the Wisteria a distinctive ornamental value.

SIX BEAUTIFUL HARDY AZALEAS

For Outdoor Planting

All Colors of the Rainbow

Deep Pink—Shell Pink—White—Orange—Canary

A wonderful collection for lovers of these exquisite shrubs.

The plants we offer are blooming plants, shipped to you with ball of earth burlapped to roots and will transplant easily.—Plant this fall, mulch with plenty of leaves and they should bloom next summer.

We offer the following six plants 12-18 in. high for \$10.00.

A GREAT BUY.

Clumps of Azaleas in bloom are resplendent in their contrasting colors of green and red, yellow, or orange. Fine for lawns.

Azalea Arborescens: Flowers fragrant white—foliage brilliant red in autumn.

Azalea Canescens: Beautiful pink flowers in spring—a rare and very fine species.

Azalea Lutea: (*Flame Colored Azalea.*) Gorgeous flame colored azalea varying from orange to canary—a free bloomer.

Azalea Nudiflora: Very handsome free flowering shrub, deep pink; early and profuse—very showy.

Azalea Vaseyi: Delightful shell pink, blooms in early spring—wonderful colored foliage in autumn.

Azalea Viscosa: A late white blooming species—extra fine for borders.

FALL PLANTING PREFERABLE

Stock is completely dormant in the fall, therefore can be easily and safely handled, while in the spring the weather often comes off warm so early as to start the buds before the customer can receive and plant.

Stock planted in the fall gets the benefit of the late fall and early spring rains, which is of vital importance; while on the contrary, stock set in the spring frequently has to worry through a dry summer, which it is unprepared to do after having been so recently transplanted.

THREE CLIMBING ROSES

THESE THREE BEAUTIES FOR \$2.00

All Strong 2 Year Old Plants, Field Grown

The Hardy Climbers not only climb, but they afford a great burst of bloom upon trellises, over fences and hedges, against the porch or house, and, with their attractive foliage, make charming plants for any location. They are hardy and vigorous and make a splendid show with little care.

Climbing American Beauty: Hundreds of perfect blooms at one time; large, rich rosy crimson, and very fragrant. Hardy.

Dr. W. Van Fleet: Buds long, pointed, deep pink; when fully expanded, the outside petals are faintly suffused with pink, the center a rich shell-pink. Deliciously fragrant.

Tausendschon: Well merits the name "Thousand Beauties," for the large clusters of flowers vary in color from pink to white. Magnificent foliage.

PLANTED THIS FALL WILL BLOOM NEXT SUMMER

Juliet Rose—Old Gold and Rosy Red

Exquisite—A Perfect Beauty—Fragrant

We describe it from observation as follows: Buds coral red, shaded with yellow at the base. The open FLOWERS ARE LARGE SIZE, VERY DOUBLE, and are of SUPERB CORAL-RED, shaded with the most beautiful sulphur-yellow about one-half the length of each petal. It blooms in great profusion, the flowers are of exquisite form and substance. JULIET

has become instantly popular and we extend a cordial invitation to those visiting Rochester during the summer season to visit our nurseries at Fairport and see for themselves this magnificent rose in bloom. **PRICE—For extra strong 2-year blooming plants, \$1.50 Each; \$15 00 Per Dozen.**

Beckley, W. Va., Box 117, June 20.

I want two, 2 year old Juliet Roses. I got one this spring and it is a beautiful thing, just been in about 7 weeks and full of buds. If you think it is too late to put them in now, hold my order and send them when you think best to plant them. Send parcel post, C. O. D. and oblige.

MRS. C. A. DAVIS.

Our roses are hardy, field grown

Peonies are deservedly popular with old and young.

6 Great Peonies for \$4.00

NO longer is this beautiful flower, equaling the Rose in brilliant color and perfection of bloom, neglected. It has risen in public demand until it now has first place, and deservedly so.

Among the most hardy, showy, and easily grown of all garden flowers; the plants are practically immune from the attacks of insects or diseases; the flowers are the largest of all double-flowering perennials, and each succeeding year adds to the vigor of the plant and to the abundance and perfection of the blooms. The varieties that we name below we have selected with great care as being excellent specimens of the types and colors they represent.

Edulis Superba: Bright mauve-pink; large, rather flat, crown type; strong, upright grower, free bloomer; fragrant; early.

Queen Victoria: Milk-white guards tinted flesh; the center creamy-white with crimson spots; bomb type; free blooming; fragrant; mid-season.

Rubens: Very dark crimson; large, semi-double type; fragrant; early. Extra fine variety.

Canari: Yellowish; globular bomb type; fragrant; late.

President Roosevelt: Semi-Rose type; color, deep rich, brilliant red; mid-season, fine.

Festiva Maxima: Pure white, flecked with carmine; very large rose type; free-flowering; fragrant; medium early.

Good strong divisions with 3 to 5 eyes. This collection of 6 all different as described \$4.00.

Peonies are splendid for cut flowers.

A Satisfied Customer is Our Best Advertisement

Glen Brothers, Inc., Rochester, N. Y.

Medina, N. Y., May 30.

Dear Sirs:—

I wish to express my hearty appreciation of the pains you took in filling my order of May 26 for Japanese Anemones, Delphiniums, and Rudzu Vine. I have not had as good plants from any other nurseryman this year, nor have I had plants that were as carefully dug up and packed. I set them out myself in specially prepared soil, and I am sure they will do well. Anyhow, they were in fine condition when they left your hands as any plants could be, and I feel as if I ought to pay double price for them. The least I can do is to return the postage you paid on them and I do so with sincere thanks. You shall have all my plant and shrub orders hereafter, and I will throw as much other business in your direction as I can.

Sincerely yours,
(Signed) GEORGE KENNAN.

Irises produce flowers of extraordinary size

THERE is wealth of beauty in this little-cultivated class of plants. The sorts offered below are quite hardy, and succeed best in a partially shaded position in a deep, moist soil composed of equal parts of loam, leaf-mould and sand.

Moccasin Flower: Flowers rose-purple—showy.

Large Yellow Ladies Slipper: Large showy bright yellow.

Showy Ladies Slipper: Cluster of beautiful white and pink flowers.

Rattlesnake Plantain: Flowers white, foliage white.

Yellow Fringed Orchis: Beautiful yellow flowers—fine.

Purple Fringed Orchis: Purple flowers—fine for moist location.

The Six Varieties Described Above for \$5.00

ONE MILLION IRISES

(The Rainbow Flower)

WE couldn't retail 'em all at regular prices in five years but we can move them quickly by giving them away. This is practically what we are doing when we offer them to our customers at the following ridiculously low prices:

10 Strong Clumps, only \$ 1.00

100 Strong Clumps, only 9.00

1000 Strong Clumps, only 75.00

Each order will contain an assortment of varieties and colors.

Order generously—plant them in shrub borders, along the walks and driveways, on the banks of streams, small lakes and ponds—plant them anywhere and everywhere. One dollar, ten dollars, one hundred dollars spent for these Irises will give you heaps of real pleasure and satisfaction.

Plant them this Fall and enjoy their Exquisite beauty next June.

SIX HARDY NATIVE ORCHIDS

As dainty as they are lovely

SPECIMEN SUPER-SIZE FRUIT TREES

APPLES—PEARS—PLUMS—CHERRIES

Trees 4 years old, seven to nine feet tall, beautifully rooted, handsomely branched, splendidly balanced.

Never before have we sold super-size fruit trees for so little money. Our big stock is the reason. We must move them. Hence these prices:

\$2.00 Each; \$18.50 per 10; \$150.00 per 100

Order one tree or one thousand. Our 59 years experience is back of every tree we sell.

APPLES

Red Astrachan: Large; deep crimson; juicy. August.
Yellow Transparent: Medium size; pale yellow; good. July and August.
Fameuse (Snow): Medium size; bright red; flesh white. Juicy. October.
Gravenstein: Large; yellow overlaid with red; juicy, productive. September to November.
Twenty-Ounce (Cayuga Red Streak): Very large, yellow splashed with red. October.
Baldwin: Large; deep red; crisp and juicy; vigorous grower; heavy bearer. November to March.
Delicious: Ranks high as a variety for commercial or home orchards. Large; brilliant dark red; flesh fine-grained, crisp, juicy. November to February.
McIntosh: Large; deep red; flesh crisp, tender, juicy. October to December.
Northern Spy: Large; bright red; spread with delicate bloom; flesh tender, rich, delicious. November to March.
Rhode Island Greening: Large; greenish yellow; flesh tender. December to April.
Wealthy: Medium to large; deep red, juicy. October to January.

PEARS

Bartlett: Large; waxen yellow with red blush; buttery, very juicy and high-flavored.
Anjou (Beurre d'Anjou): Large, handsome; greenish yellow, with a dull red cheek on the exposed side, flesh fine grained.
Clapp's Favorite: Very large; yellowish; green to full yellow, rich.

CHERRIES

Dikeman: Large; black.
Governor Wood: Large, light yellow, shaded and mottled with light red.
Lambert: Very large; dark purplish red, turning to almost jet black when full ripe.
Napoleon: Very large; pale yellow, spotted and shaded with deep red.
Black Tartarian: Very large; black; tender.

PLUMS

Bradshaw: Very large; dark violet-red.
German Prune: Large, oval; dark purple.
Yellow Gage (Prince's Yellow Gage): Large, oval; golden yellow, slightly clouded; flesh deep yellow, rich, sugary, melting.
Lombard: Medium size; violet-red.
Burbank: Large, nearly globular; clear cherry-red, sweet, meaty and quite firm.
October Purple: Large, round; purple.
Red June: Professor Bailey says, "By all odds the best Japanese Plum." Large; brilliant red.

Many Varieties Produce Fruit Soon After Transplanting

One of our Dwarf Apples 2 years after transplanting

SIX BEST DWARF APPLES

An All Season Dwarf Apple Collection

Come into bearing immediately, producing same quality and size fruit as standard trees. Excellent for planting where area is limited—may be planted as close as 8 feet apart. Trees reach height of about 15 feet at maturity. **One each of the following six varieties for \$6.00**

Red Astrachan. Large; deep crimson; juicy, rich, acid; productive. August.

Yellow Transparent. Medium size; pale yellow; pleasantly acid, good. July and August.

Baldwin. Large; deep red; crisp and juicy; vigorous grower; heavy bearer. November to March.

Delicious. A relatively new apple, ranking high as a variety for commercial or home orchards. Large; brilliant dark red, flesh fine-grained, crisp, melting, juicy, with a delightful aroma; splendid keeper and shipper; tree bears heavy crop, annually, a profitable sort to grow. November to February.

Northern Spy. Large; bright red spread with delicate bloom; flesh tender, rich, delicious; bears well. November to March.

Wealthy. Medium to large; deep red, juicy. October to January.

PLANT THIS FALL AND YOU SHOULD GET SOME FRUIT NEXT SEASON

BLUE RIBBON APPLE COLLECTION

**3 Choice Varieties
For \$2.00**

**2 year old trees 5-6 feet
in height**

***A Wonderful Assortment
for the Home Garden***

King David. "This apple is a cross between Jonathan and Arkansas Black, resembling both parents in one or more characters. The trees are equal to either in hardiness, productiveness, vigor and

health. The apples are about the size of those of Jonathan and even better colored, as beautiful as any in the orchard; for added to the deep, solid, red color are rotundity in shape and uniformity in size; these three qualities give the fruits an almost perfect appearance. The apples hang long on the tree, all the while deepening in color, but for late keeping should be picked as soon as overspread with red and before the seeds are well ripened. The flesh is firm, fine, crisp, tender, spicy and juicy."—*From Cyclo-pedia of Hardy Fruits.*

Delicious. A relatively new Apple, ranking high as a variety for commercial or home orchards. Large; brilliant dark red; flesh, fine-grained, crisp, melting, juicy, with a delightful aroma; splendid keeper and shipper; tree bears heavy crops annually; a profitable sort to grow. November to February.

Russet (Roxbury or Boston)—A staple export variety. One of the best shippers and keepers. Medium size, dull green nearly covered with russet. Skin tough, flesh mild and appetizing. Good in all markets and maybe all apple districts. As hardy as the Greening. Season January to June. Origin, Massachusetts.

EXTRA LARGE, EXTRA OLD, EXTRA FINE 3-Year Old Grape Vines (*Super Size*)

*Planted this fall should
produce fruit next autumn*

Best Varieties for Making Grape Juice and Red Wine

Concord (black) Large and handsome, very hardy, productive and reliable; succeeds well over a great extent of country, and is one of the most popular market grapes

Ives (black) Bunch extremely large, shouldered compact, handsome; Berry—large tender, juicy, sprightly vinous, rich, sweet without pulp. Vine is vigorous, healthy, hardy.

Moore. Bunches larger; berries large, round, black with a heavy bloom; pulp of good quality; vine notably resistant to disease, very hardy, withstanding temperatures of 20° below zero without injury.

Best Varieties for Eating Fresh

Campbell's Early (black) Clusters large and handsome; berries large, nearly round, black, with light purple bloom; flesh rather firm, but tender; quality rich, sweet, slightly vinous; a strong and vigorous grower.

Brighton (red) Flesh rich, sweet, and of the best quality, equal if not superior to Delaware; ripens early. Productive and vigorous.

McPike. Bunches large and compact, like its parent, Worden; berries very large, black; pulp tender and very juicy. Healthy and hardy.

Green Mountain. Bunches long, compact and shouldered; berries oval, greenish white; pulp tender, juicy, very sweet and rich; vine hardy, vigorous, healthy, and very productive. Ripens three weeks earlier than Concord.

Niagara (white) Bunch medium to large, compact, occasionally shouldered; berry large, roundish, uniform; skin thin but tough, pale green, changing to pale yellow, with a thin whitish bloom; flesh slightly pulpy, tender, sweet; ripens with the Concord.

Prices for these Super-size Super-age Plants \$1.00 each; \$10.00 per 12; \$75.00 per 100

York State's Best Strawberries

New York State is noted for its fine strawberries

We Offer You the Best Varieties

JUMBO is just what its name implies—a mammoth plant and a whale of a berry. 64 quarts picked Nov. 7, 1924 sold at 50c per quart. Jumbo is not classed as an ever-bearer but an enormously productive variety of the regular season. We regard it as the best strawberry on the market today.

SUNSET—Plant extremely robust, will grow on all soils and delights in heavy clay. The blossoms come late and resist frost. Berries, deep red, good fresh or cooked. Very productive.

TABLE QUEEN—A high class berry for any purpose. For dessert it charms and satisfies the palate; it is delicious and appetizing for the sick room; adds a delicate relish to meats, cereals, and white bread; unrivalled as a short cake berry. It is the one berry for those with weak digestion, Bright red, medium to large, vigorous vines and production.

Just add cream and a very little sugar.

50 of each variety of these real quality and high yielding plants **50 Jumbo—50 Sunset 50 table Queen for \$5.00.** Plant this fall and pick berries next June.

Burbank Giant Crimson Rhubarb

A Luther Burbank Creation

Extra large, of fine bloom, and crimson clear through, this new variety of appetizing “pie-plant” should be in every garden, and will be when known. Plant a few this fall along beside that you now have growing in your garden and note the difference. **Burbank Giant Crimson** is superior in size and quality to any variety we have ever tested. It is an early variety, without being in the least tough or stringy, with a mild sub-acid flavor. Largest and best of all for market or home use.

Plant this Fall in good garden soil, manure well, and have delicious pie and sauce next Spring.

PRICE—For strong roots, 2 year old, 50c each, \$3.00 per dozen.

Second to Blueberry pie, Rhubarb, the pie of heart's desire.

One quart of fruit sufficient for one big juicy pie.

Ye Old Fashion Blueberries

DELICIOUS THREE TIMES A DAY

With Sugar and Cream for Breakfast—Blueberry Dumplings for Luncheon—Blueberry Pie for Dinner.

The annual Blueberry crop sells for millions of dollars, yet there are comparatively few people who have ever tried growing Blueberries in their gardens.

Try a Dozen of our Large Bushy, Collected Plants, this Fall. Fruiting Season Early July 'till Late Summer.

Nor should the ornamental value of Blueberries be overlooked. Prof. Bailey says: "In the Spring the young shoots and leaves are a rich bronzy red, later the clusters of long, white flowers, followed by clusters of dainty pink buds. In winter the red bark creates a charming tracing of red twigs against the snow. Rarely does a plant or shrub combine such exquisite beauty with a fruit than which there is none more delicious. It is one of the most valuable species both for fruit and as an ornamental shrub. It thrives in the garden and is readily susceptible to improvement by cultivation."

Strong, bushy plants, 2 to 3 feet

PRICE \$2.00 each, \$20.00 per dozen

The Best is the Cheapest

April 15, 1925.

Glen Brothers,
Rochester, N.Y.

Dear Sirs:

This is to inform you that the Laurel Willow trees arrived promptly in fine condition, and are planted, showing no signs of the journey.

We appreciate the fine quality and the size of these trees. Thank you!

Sincerely,
Mrs. Wm. C. Marsh,
511 McKinley Ave.,
Dunkirk, N.Y.

CULTURAL DIRECTIONS

Blueberries require an acid soil to produce the best results. This is prevalent in many sections of the country. Where your soil is not acid, we suggest the following method to get the most from your plants. Choose a well-drained location, easily supplied by water during the dry summer months. Blueberries do best with full sun, although they will grow and produce fruit in partial shade. In order to get the proper acid condition to your soil, mix partly rotted leaves with the soil of your garden. A heavy mulch each fall of partly rotted leaves will maintain the acidity of the soil. Do not remove this mulch, but let it remain throughout the year. Another easy method to obtain acidity to the soil is to obtain partly rotted sawdust or wood chips. This makes excellent material and produces an acid condition very beneficial to the plants. Acid fertilizers can be used if the above two methods are not possible. The Department of Agriculture recommends as the best chemical fertilizer aluminum sulphate, which is an effective and inexpensive method of changing neutral soil to acid, half a pound per plant may be advantageously applied. Never use manure or compost near a blueberry plant. No pruning is necessary except as a branch may become damaged or stop bearing. Water your plants well the first year, soaking the ground two or three feet away from the roots.

Plenty of fruit from plants like these.

HONEYSWEET BLACK RASPBERRY

The sensation of the fruit world. Do not fail to include in your order for our Dependable Trees and Plants a few at least of the Honeysweet. The berries are just about the most delicious fruit you ever tasted. Ripens in July—sweet and delicious—unlike any other Black Raspberry.

The Honeysweet is extremely hardy, passing through the severe fruit tree killing winter of 1919-1920 without injury to a single twig on any plant in a four-acre patch. Bears every year—has never been a slacker.

Large Size—Glossy Black—Delicious. The world's greatest Black Raspberry.

The many clusters of big Black Raspberries literally cover the bushes. Twelve of our vigorous nursery grown plants will produce many quarts of fruit, next summer when you are hungry for berries. Twelve or more plants will fit into your garden nicely—no garden should be without Honeysweet.

As a dessert berry, in pies, as a canned sauce, as a jam, you never tasted anything like it before or since. It has been called "The most delicious Black Raspberry."

Price,

\$2.00 per 6;
\$3.00 per 12;
\$12.00 per 50;
\$20.00 per 100.

Large, jet black, luscious fruit.

IMPROVED THORNLESS DEWBERRIES

Larger, finer and better flavored than blackberries and the real dewberry flavor. Absolutely thornless. The fruit is easy to gather, neither gloves nor courage needed. Fruit is jet black, of large size, sweet and borne profusely. Should be planted in every home garden and is very profitable grown for market. Set plants 5 ft. apart in rows 5 ft. apart, or 1742 plants to the acre.

CULTURE DIRECTIONS—Use short, stout stakes, driven at the end of each row of canes, with a cross-piece 18 inches long nailed to each stake, 2½ to 3 ft. from the ground. On the top, near each end of these cross-pieces, drive a stout nail, slanting toward the stake, upon which to catch a wire. Two lines of No. 14 galvanized wire, one on each side of the row, are fastened to one end of the stakes and run on the ground between the rows to the other end stake. These wires are now drawn as taut as possible and securely fastened to the other end of the row. The wires are now raised and caught in the nails, thus holding all the canes closely together in the row.

Price, Strong plants \$5.00 per 12, \$30.00 per 100, \$200.00 per 1000.

Extra Heavy 3 Year Old Washington Asparagus

For Quick Cutting

The new rust resisting variety developed by the United States Department of Agriculture.

**FOR QUICK RESULTS PLANT
THESE EXTRA HEAVY
ROOTS—3 YEAR OLD**

Asparagus is one of the earliest and most wholesome vegetables that can be grown in every home garden. Asparagus freshly cut and promptly served is one of the most delicate, wholesome and appetizing products of the home garden. Its early appearance in the spring together with the fact that an asparagus bed when once established will produce for many years, makes it of special importance in the home as well as in the market garden and on the truck farm.

Why pay fancy prices for asparagus—Grow your own.

The simplest thing in the world is to make an asparagus bed. Prepare a place of fine, loamy soil, to which has been added a liberal dressing of rich manure. Set in rows, eighteen to twenty inches apart with the plants ten to twelve inches apart in the rows. Make a small mound of the soil, over which the roots should be spread and then cover the plants with about three inches of soil. Cover the whole bed before winter sets in with 4 or 5 inches of coarse stable manure.

PRICES—\$7.00 per 100; \$30.00 per 500; \$55.00 per 1000

Remember—you risk nothing. If upon receipt of shipment you find that the plants are not the finest and largest 3 year asparagus roots you have ever seen, wrap them up and return to us, and we will refund your money without question, quibble or controversy.

A bearing apple tree is a lifelong investment.

Purple, thin skin, golden flesh, juicy, sweet, tender

A real California plum—100% perfect. **Your first taste will be a revelation.** "Cyclopedia of Hardy Fruits" by Prof. U. P. Hedrick, Vice-Director and Horticulturist of the N. Y. Agricultural Experimental Station, describes it as follows:

"The fruits of Imperial Epineuse are not surpassed in quality by those of any other plum; moreover, they are most pleasing in appearance, being large, beautiful in shape, and made further attractive by a handsome reddish-purple color which is lighter or darker according to the exposure of the sun. The tree-characters are exceptionally good; the crop is so borne on the main limbs as to be protected from the sun; and the tree is particularly large and vigorous, its strong growth being a striking characteristic of the variety. The variety is much grown in California, and should be grown in all plum regions. Wherever tried in the East, fruit and tree are liked, and the variety is certain to grow in popularity in eastern orchards for both home and market plantations."

PRICE—Strong 2-year-old trees, 5-7 ft., \$2.00 each, \$20.00 per 12

The New Cortland Apple

For fall planting we offer this new and grand variety. Prof. Hedrick describes it as follows:

"The fruits of Cortland are so similar to those of McIntosh that the two varieties are certain to be confused, but each is distinct and the differences are all in favor of Cortland so that the apple is better than that of McIntosh, impossible as it may seem. The fruits of Cortland ripen a little later than those of McIntosh, keep longer, are larger, and brighter in color. The shape, taste, and flesh-characters of the two are almost identical. The trees are much the same. Cortland is an improved McIntosh and as such is sought for in New York and New England where McIntosh is chiefly grown. The variety is a cross between Ben Davis and McIntosh made at the New York Agricultural Experiment Station."

We offer beautiful top worked trees at \$2.00 each, \$20.00 per 12, \$150.00 per 100.

Imperial Epineuse Plum

"Glenwood Grown"

(One-half actual size). Large size, delicious flavor.

ERSKINE PARK EVERBEARING RASPBERRY (*Brilliant Red*)

It Bears and Bears—then Bears Some More

Its delicious fruit may be picked every day from June until frost. Think of it! Large, red, luscious raspberries on your table every day during four months of the year and from your own garden. Discovered on the beautiful estate, "Erskine Park" owned by Mr. George Westinghouse of Lee, Mass., in the Berkshire Hills, a locality where winter temperature is occasionally forty degrees below zero, proves its hardiness beyond question.

Mr. Thos. E. Covington, St. Paul, Minn., writes as follows:

"It may be of some interest to you to know that the Erskine Park Raspberry plants ordered from you in April, 1920, withstood one of the worst winters that we have had for years. We had very little snow and an alternating freezing and thawing February and March, and many of our local shrubs and plants succumbed. At the present time, there is an elegant display of young Erskine Park Everbearing Raspberry plants shooting up.

I planted these in sandy loam, and on the opposite side of a dead furrow, I planted at the same time 2 La France Everbearing Raspberries which showed equal development during the summer and fall, but this spring every one is dead, not a live root to be found."

As late as November 20th, we have cut branches from plants growing in the nursery, with blossoms, green fruit and ripe fruit upon them.

The Erskine Park is destined to be the "DESSERT BERRY OF THE NATION". We predict that it will be planted in every garden in America. Order your plants now for fall planting. We are headquarters for Erskine Park Everbearing Raspberry Plants, and offer for shipment this season HEAVY 2 YR. FRUITING PLANTS, ONCE TRANSPLANTED, AT \$3 PER DOZEN, \$20 PER HUNDRED, \$150 PER THOUSAND

CUP-O-NECTAR PEACH (New)

Apples make cider, but peaches make money.

Our Own Introduction First Time Offered

Pronounced by Mr. John Davy, famous tree surgeon, as the finest peach he had ever tasted. The fruit is large, averaging $3\frac{3}{4}$ inches in diameter. It ripens about September 15th. Color: creamy white with delicate pink blush, flesh white, dainty in texture and extremely juicy; pit small, leaving flesh unusually thick. We regard it as the finest peach we have ever grown, seen or tasted. We have introduced many fine fruits during our experience but never a variety that we would rather put our name and reputation back of as the introducers than CUP-O-NECTAR PEACH.

PRICES

Strong trees 4-5 feet. \$1.50 each,
\$15.00 per 12, \$125.00 per 100.

This Most
Delicious
of all the
Choice
Fruits

New Champagne Grape

A sterling variety of greatest merit. Color a beautiful copper red, berries very large—immense bearer. Champagne is hardy, never having been known to winter kill, always producing an immense crop of fruit even during seasons when many other varieties fail to fruit. Champagne is a very strong grower, 15 to 20 feet or more a season being common. It is one of the handsomest and most attractive grapes we have ever seen. The flesh is tender, extremely juicy and sweet with a rich aromatic flavor. Its keeping qualities are superior. A *truly wonderful grape*, fine for eating fresh, grape juice or wine. Order now for Fall planting as stock is limited.

PRICES

No. 1—2 yr. extra strong \$1.50 each, \$15 per 12, \$100 per 100

No. 2—1 yr. extra strong \$1.00 each, \$10 per 12, \$75 per 100

Blood Leaf Peach—Brilliant Red Bark, Dark Red Foliage

Small trees with blood-red foliage make a charming contrast planted in shrubberies

*Handsome pink blossoms in profusion in early Spring
Plant as an ornamental, also for its fine fruit*

OF this remarkable variety "PEACHES OF NEW YORK" by Professor U. P. Hedrick, Vice Director and Horticulturist of the New York State Agricultural Experiment Station says "Blood leaf is a handsome ornamental, its beet-red leaves in early Spring and its pink blossoms born in great profusion entitle it to esteem for both foliage and flowers. It is worth growing as well as for its fruits. Plant it on the lawn, in your shrub border or in the garden.

Legend

Several stories are told of the origin of this peach. One is that on the battlefield of Fort Donelson, Kentucky, a southern general, fatally wounded, sucked the juice of the peach and threw the stone into the little pool of blood which flowed from his side. From this pit in its bloody seed-bed sprang the tree with its blood-red leaves.

**Prices—Strong Trees, 4-5 feet, \$1.50 each
\$15.00 per 12**

PLANTING PLANS AND HORTICULTURAL QUESTIONS

We are pleased to answer inquiries from friends or patrons concerning what to plant, how to plant, and when to plant. Our experience is at your command. Not only are we prepared to give advice, supply names of trees, shrubs and plants, either cultivated or wild, or to prescribe for plant diseases or attacks of insects, but we will gladly undertake, at small cost, to prepare plans for beautifying the home surroundings, showing a pleasing arrangement of paths and drives combined with an artistic grouping of trees and shrubs.

Hardy English Walnut Trees for Fall Planting

8 Year Old Bearing English Walnut at Glenwood Nursery

English Walnut. Every English Walnut tree we sell was started from seed produced from a bearing tree growing in this locality—every tree is guaranteed to be a “Glenwood Grown” tree, hence our trees are very hardy. Such trees are the only safe trees to plant in Northern latitudes. Neither our young nursery trees nor our six and seven year old bearing trees have ever shown the slightest evidence of injury from winter temperatures of eighteen to twenty degrees below zero.

Plant a few of these trees this Fall. In your available space a few hardy, vigorous English Walnut trees will prove valuable for decoration, shade, and allow a household supply. The smooth bark is light gray in color, and the leaves are long, deep green and waxy. The English Walnut is a rapid grower.
