PRICE LIST OF THE BETTER CLASS OF PEONIES

INCLUDING MANY STANDARD VARIETIES

In presenting the following list of Peonies I have made the prices as low as consistent with the size and quality of roots.

All plants are guaranteed true to name and in offering roots the sizes will range from three to five eyes. Orders for Peony roots will be accepted at any time; shipping will begin about September 1st and continue until October 15th.

Terms are cash with order, or satisfactory reference from your bank. All orders will be filled in the order in which they are received. If stock is exhausted when order is received, your money will be promptly returned. No obligation to fill orders after stock is exhausted will be assumed.

I am also growing some of the more recent introductions. If interested, write me.

Time to plant for best results is during the month of September, the earlier in the month the better. This will give the roots a chance to grow and develop eyes for the coming year. If the weather is dry a weekly watering helps to start the roots. When watering, water thoroughly. Do not plant Peony roots where fresh manure has been recently applied. There is nothing better to use than well rotted manure and ground bone well mixed with the soil before planting. A slight mulch for the first wintering is beneficial. This prevents the heaving of the roots by alternate freezing and thawing.

My success is measured by my ability to please. If you are pleased your next order will show it, so tell your friends about my collection.

Correspondence solicited on larger quantities.
