CAROLINA FOSTER

HUMCO Improved Delfos

(Mississippi Seed)

Our 6102 Delfos selected to eliminate “off-
type” stalks. Increased and handled by us
—all fields carefully worked over.

Very early—open type—thin foliage—1924 gin-
nings have turned out better than 33 $\frac{1}{3}$ %
Lint—Our seed only the best.
Staple, 1 $\frac{3}{16}$ inches.

FOR PRICES SEE INCLOSED PRICE LIST

HUMCO
Webber Elite-8
(Carolina Seed)

Our New Strain of Elite Webber Averages 76 pounds seed cotton per acre more than parent plant. It is of the fruiting-branch type, with very few vegetative branches, making the foliage lighter and its adaptability to Boll Weevil conditions much better.

Staple, 1 $\frac{5}{16}$ –1 $\frac{3}{8}$ inches.

Excellent Character of Lint.

32–34% Lint.

59 Bolls per Pound Seed Cotton.

Bolls—fluffy—easily picked.

Early blooming and opening.

PEDIGREED WEBBER ELITE

(Mississippi or Carolina Seed)

This cotton has produced best samples brought to Greenwood market this fall—It always finds ready sale and commands top prices.

Bred and grown under weevil conditions to combat the weevil in the Delta and other weevil infested territory.

Early—Open, Fruiting Branch Type—

Staple, 1 $\frac{5}{16}$ in.—Character Excellent.

33% Lint—65 Bolls per Pound Seed Cotton.

FOR PRICES SEE INCLOSED PRICE LIST

HUMCO Webber 49-10

(Mississippi Seed)

A Strain of Webber 49 bred and grown in Mississippi—Has led all strains of Webber 49 in our Mississippi Variety Tests for four years. We recommend this cotton highly for growers of Staple Cotton in Mississippi and Arkansas.

Excellent yielder—Strong Vitality—Thin foliage and rapid fruiting—

Staple, 1 1/4 in.—Character Excellent—33.6% Lint.

PEDIGREED WEBBER 49 SPECIAL

(Mississippi or Carolina Seed)

Early—Open Type—Easily Picked

HUMCO Webber 49-10

Staple—1 3/16 to 1 1/4 in.

Character—Excellent.

Lint—32–33%.

Bolls per Pound—65.

A cotton worth planting at a price ridiculously low for first-class seed. Why not take a new start?

FOR PRICES SEE INCLOSED PRICE LIST

HUMCO CLEVELAND--12

Our 1 1/16 in. Strain

A NEW STRAIN OF CLEVELAND BIG

BOLL—Superior in Staple and Yield—

Very early—open type—

Staple, 1 1/16 in.—Excellent Character.

Per Cent Lint, 37.5.

(Only a limited amount of this seed for sale)

HUMCO CLEVELAND-20

Our Cleveland-20 is making a fine record
wherever planted. Our tests show large
increase per acre over parent plant.

Staple, 1 in.—Excellent Character.

Bolls per Pound—65.

Per Cent Lint—40.

Early—Open, fruiting—branch type.

Cleveland-12

A promising row in our 1924 Cleveland Progeny Test

HUMCO Dixie No. 14

Wilt Resistant

This Strain is descended from Dixie-Triumph Cotton and has all the good qualities of the Parent Plant, with additional yield and lint percentage.

Staple, 1 to 1 1/16 in.—Lint, 42%—Bolls, 65 per pound. Medium growing
—Open Type Plant—Very Early.

(Only a limited amount of this seed for sale)

NOTICE

Don't plant Wilt Resistant Varieties of Cotton on lands heavily infested with Root-knot and expect all the plants to live. Plant such land to crops not affected by Root-knot for at least three years.

Dixie Triumph

Wilt Resistant

Medium sized, open growing—Has made splendid showing in South Carolina and Mississippi Tests—A splendid cotton for land infested with wilt. Recommended by the Department of Agriculture and Southern Experiment Station as **Earliest and Best Wilt Resistant Cotton.**

Staple, 1 in.—Lint, 38 to 40%. Bolls—Large, fluffy, easily picked.

Pedigreed Cleveland Big Boll--1

A **Leader** among short staple varieties wherever grown—Staple 7/8 in. to 1 in.—Lint 38%. Large Bolls—Easily Picked—Open Type. Early and Rapid Fruiting.

NO SEED OF THIS VARIETY FOR SALE—STOCK EXHAUSTED
