Our New Introductions For 1925

Here are a few of our wonderful new introductions. You will find each and every one of special merit and fully worthy of your esteem if you want something extra fine. No tubers will be sent out before April 15th, 1925.

A short description follows:

- Buddy, P**—A massive flower on long stem and very free-blooming. Color, a deeper tone than "King of Autumn," making it ideal for the season; tubers, each \$1.50
- Golden Giant, P**—Monstrous in size, exquisite in shape, wonderful in color which is a pure Gold; very free on long stem. Considered by many as one of the very finest ever introduced. Tubers, each..... \$10.00
- Golden Veil**—In a class to itself, having the form of a Paeonia, the petals are long, narrow, twisted and waved. The color is soft, creamy sulphur, and is exceedingly free-blooming on long stems. Admired by all. Tubers, each \$2.50
- Halo, Dec.**—The exact shape of "Jersey Beauty," with the color of "Break O' Day;" on extra long stems, is one of the finest Giant Cutflower varieties. Will keep a week when cut. Tubers, each \$3.50
- Hearts' Desire, P. Dec.**—Very large and beautiful Salmon Rose shade. Tubers, each \$2.50
- Kallikrates, P.**—Very large and much more brilliant than "Geisha," the marking is absolutely regular, each petal being Gold from the base to about half way to tip, then changing abruptly to the most brilliant Red. Is very free and (unlike Geisha) is very easy to grow and keep. Fine stems. Tubers, each \$2.50
- Mary Joyce, P.-C.**—Picture a clear yellow "Attraction" and you have an exact description of this Dahlia, except growth is more dwarf and stem not as heavy. Very large and free-blooming. Tubers, each \$2.50
- Oh, Boy! P.**—Massive and out of the ordinary in type, having the appearance of being a tree loaded with large Golden fruits. When first opening is clear yellow, changing to deep Gold. Tubers, each \$3.50
- Square Deal, Dec.**—This has been pronounced by all whom we have supplied with the bloom and those who have seen it in our fields, as the finest Cutflower variety ever originated, being large in size, very early in season, very prolific and a wonderful long straight stem. The color is all that can be desired, being Salmon Pink with Creamy center. Habit is dwarf and very bushy, having many flowers at all times in season. Tubers, each \$2.50
- Sun Glow, Dec.**—Large, brilliant, clear Red, on long cane-like stems. Very lasting cutflower. Tubers, each \$1.50
- The Aristocrat, D.**—Somewhat variable in habits, but a wonderful color. Soft light Rose Pink, shaded Dove. Very large, on good stem, but the growth is often not what it should be. Tubers, each \$1.50

We do not make a practice of exhibiting in competition, but our many unsolicited testimonials prove the worth of our Dahlias. In creating new varieties we strive for beauty of coloring and shape, also large size; but our main aim is to produce varieties which are also especially desirable in stem, health and growing habits. Try one or more of each; if not pleased return roots in fall in good shape and receive **YOUR MONEY BACK!**

If you want to succeed with Dahlias, follow our Cultural Directions to the dot.

Visit our Farm next Fall and see the largest Assortment of Dahlias in the U. S. A., in bloom.

Note our surprising special offers on back cover. If you are doubtful as to what varieties to order, order some of the Special Collections, there.

Read Carefully

We want only satisfied customers, and if at any time you are not pleased, let us know; we will adjust the matter satisfactorily.

This little Catalog will present to you the names, and as near as possible in a few words, the descriptions of the best Dahlias to be had anywhere. Lengthy, flowery descriptions take Space, and Space is Expensive in Catalogs today. We endeavor to save this Expense and give it to you in better values for your money.

This list covers about one-half of the varieties we grow; our stock of the others is too limited to catalog, but could spare a few of any. Should you not find what you want listed here, write us.

We cannot guarantee the growth, but we guarantee healthy, vigorous tubers with at least one Eye, and that they shall be true to name; if otherwise, the Exchange will cost you nothing. Should any tubers fail to grow, these must be reported before July 15th of same Season, and will be replaced the following Season at one-half price.

If, on receipt of tubers, you are not ready to plant, cover them with soil or sand to protect from drying air.

Tubers will be sent postpaid, at prices herein, on orders amounting to \$2.00 or more; less than amount 10c extra for postage and packing; 25 per cent of purchase price may be sent with order and balance paid C. O. D.

If choice of varieties is left with us, will send at least 20 per cent additional value, and varieties which would probably be better than you could choose unless acquainted with the different Sorts.

In the enclosed list "S." after the name of variety stands for Ball or Show variety, shaped like a ball and more or less quilled; "C." for Cactus type; "Cent." stands for Century; "P." for Peony-flowered; "D." for Decorative; "Coll." for Collarette; "Pom." for Pompon, the miniature Dahlia. A combination of letters such as "P-C." stands for a combination of two types, or Hybrids.

Many varieties are running low in Stock and would advise ordering at once; can hold roots till May 10th if wanted. Varieties marked Net are without any discount whatever.

We are situated so centrally that we can save you much money in Express charges, Parcel Post, etc., and our roots are ideal.

Dahlia Manual, New! Giving names, originator, class and color for all known Dahlias (7,000) to date. By Prof. J. S. B. Norton, the noted Dahlia Authority. \$2.00 each.

If you grow Flowers or bulbs for Sale, send Card or letterhead for Trade Discount.

Send us orders from your friends and we will reward you liberally with extra Tubers.

Money Back Guarantee—Any stock not proving satisfactory can be returned at once and money will be refunded.

Have You Ordered

King of Commerce Dahlia?

We believe this to be the forerunner of a new, superior race of Dahlias, owing to its exceptionally perfect growth, stem, color and habits in general.

Size: 5 to 6 inches, on 18 to 36 inch stem, without disbudding.

Color: Tango with Golden suffusion, most appropriate to Autumn.

Habit: Medium height, branching, robust and healthy always; free.

This Dahlia received the Certificate of Merit from the American Dahlia Society.

ONLY 75 CENTS EACH

—FREE—

We will donate, as long as we have them, a quantity of Tubers to any worthy persons or organization unable to buy them (who will furnish reference as to their worthiness) for growing flowers to decorate their church or meeting place.

Other Combinations, of Extra Values

Each Spring, after main deliveries, we find we have a surplus of some splendid Dahlias, which rather than plant more than allotted amount, we will Sacrifice, so we will send, after May 1st:

12 good Dahlias, each different, labelled, for.....	\$1.50
12 fine Dahlias, each different, labelled, for.....	2.50
12 Novelties and finest, each different, labelled, for	5.00
12 unlabelled, some very fine ones in this, for	1.00
50 unlabelled, some very fine ones in this, for	3.50
12 very fine Iris, assorted colors, for	1.25
5 Peony Roots, some very fine ones in this, for	1.50

(Last 3 items not postage prepaid.)
