Meadow Brook Nurseries Inc.

Englewood

New Jersey

DMF

Our Ideals

The ideals of the Meadow Brook Nurseries are:

First—To grow and handle only the best nursery stock.

Second—To execute every order the way it should be executed, using the utmost care in the selection and digging of the stock.

Third—To complete every transaction in such a manner that all who deal with us will immediately become our friends and remain our friends.

Our Facilities

The Meadow Brook Nurseries consists of eleven acres located on Grand Avenue, Englewood, N. J., and eighty-five acres on the County Road, Norwood, N. J.

The stock which is listed on these pages is being grown by men who are experienced in their departments. The greatest care is exercised to produce only the best type of material; plants which will thrive and bring pleasure to all who purchase them.

The principals in our firm are always ready to give you their advice as to what to plant and when conditions are such that a planting plan is essential, our Landscape Department is prepared to furnish you with complete plans and estimates.

Guarantee

We guarantee to replace at one-half of the original price paid any of our plants which may die within the period of one season from date of planting, provided the account be paid within thirty days from date of invoice. (By a season, we mean that if plants supplied in the Spring are dead in the Fall, or those supplied in the Fall are dead in the following Spring, they will be replaced at one-half price.) If a plant lives through a season it must necessarily have been in good condition when planted.

Deliveries of Nursery Stock will be made to these towns and localities on the following days

If any day's deliveries are interfered with by rain, these deliveries will be made on the following Saturday.

MONDAY—Englewood.

TUESDAY—Leonia, Palisades Park, Morsemere.

WEDNESDAY—Ft. Lee, Palisade, Grantwood, Woodcliffe, etc.

THURSDAY—Tenafly, Cresskill, Bergenfield, Dumont, etc.

FRIDAY—Teaneck, West Englewood, Hackensack, Ridgewood.

SATURDAY—Englewood.

Shipping of Nursery Stock

Within a radius of ten miles we ship everything by our own trucks free of charge. When plants have to be packed for freight or express, packing is charged at cost, which usually amounts to about ten per cent of the value of the plant. When so shipped our responsibility ceases with our delivery to the forwarders.

Planting and Planting Charges

In the case where a customer has no facilities for planting, we supply thoroughly competent men at the rate of \$1.00 per man per hour. The minimum charge for planting any order is \$1.00. Orders for large trees or a quantity of stock should be planted by our men.

In the case of small orders it is advisable that customers plant them themselves as it may often cost as much to plant a few vines or one or two fruit trees as the plants themselves are worth.

THE PRICE of our Evergreens and Evergreen Flowering Shrubs has been increased for Fall, 1925. This increase varies greatly, and we would suggest that you inquire from us the correct prices before ordering.

An appropriate planting of evergreens around the house. These trees have been trimmed yearly, thereby causing the much desired dense, symmetrical growth.

EVERGREENS

Suitable for Foundation or Group Planting

Evergreens of this type include the Arborvitæ, Junipers, Cypress, Yews, Dwarf Pines and Hemlocks, which are slow growing or can be sheared to keep them from growing too large. There is no more attractive feature of home ground planting than groups of low growing evergreens around the foundation of the house, in beds by the driveway, or as a background for the flower garden.

The Arborvitæ

One of the most useful of all evergreens, unexcelled for group and foundation plantings and for formal effects. Also very effective for screen and hedge planting.

American Arborvitæ. Pyramidal in growth. In color a pleasing shade of medium green. Grows quite rapidly but is readily adaptable to shearing.

18 ins.	\$1.50
2 feet.	2.00
3 feet.	3.00
4 feet.	4.50
5 feet.	6.00

Pyramidal Arborvitæ. Similar to the above, only more compact in habit.

3 feet.	\$4.50
--------------	--------

Globe Arborvitæ. Similar to American Arborvitæ, only globe-shape.

15 inches.	\$2.50
18 inches.	4.00

Golden Arborvitæ. Biota. A golden variety of Arborvitæ, pyramidal in form. A very ornamental evergreen.

15 inches.	\$3.00
-----------------	--------

Retinispora plumosa, 4 feet high, which sells for \$1.00 One of the best low growing evergreens for use in foundation planting

EVERGREENS—Continued

The Cypresses, or Retinispora

Light green, dark green, silver and gold are the colorings of these most desirable evergreens. They develop to the best advantage when occasionally sheared. Mostly used in group or foundation plantings, but also suitable for specimens or as backgrounds for formal gardens.

Retinispora pisifera. Pyramidal grower with delicate, light green foliage.

18 inches.....	\$2.50	3 feet.....	\$6.00
24 inches.....	4.00	4 feet.....	8.00

Retinispora pisifera aurea. Similar to the above, with golden foliage.

18 inches.....	\$2.50	3 feet.....	\$6.00
24 inches.....	4.00	4 feet.....	8.00

Retinispora plumosa. More light and airy than pisifera, otherwise very similar.

18 inches.....	\$2.00		
24 inches.....	3.50		
3 feet.....	5.00		
4 feet.....	7.00		
Larger specimens.....	\$25.00-\$50.00		

Retinispora plumosa aurea. The golden variety of the above.

18 inches.....	\$2.50	24 inches.....	\$4.00
3 feet.....	6.00		
4 feet.....	8.00		
Larger specimens.....	\$25.00-\$30.00		

Retinispora squarrosa. *Veitch's Silver Cypress.* Silver, steel gray, delicate foliage, forming a compact, bushy specimen.

18 inches.....	\$2.50	24 inches.....	\$4.00
3 feet.....	6.00		
7 to 8 feet, large specimens.....	25.00

Successful transplanting of evergreens depend so much on digging them with a good ball of earth. A tree dug as illustrated is sure to flourish

The Red Cedar (*Juniper virginiana*) is dense and bushy in growth and is effectively used both in foundation plantings and screens.

The Junipers and Cedars

Very diverse in form, habit of growth, color and size. There are varieties of Junipers adaptable for individual, group and mass planting. They are extremely hardy growers when once established.

Juniper Pfitzeriana. Vase-shaped with very graceful, bluish-green foliage. Very hardy under almost any condition.

18 inch spread.....	\$3.50
24 inch spread.....	5.00
30 inch spread.....	7.00

Horizontal Juniper. Very desirable for rock gardens, and for ground cover on banks and terraces. Similar to the above in foliage.

18 inch spread.....	\$3.00
24 inch spread.....	4.50
30 inch spread.....	6.00

Juniper virginiana. *Red Cedar.* Pyramidal in growth, with dense, deep green foliage. Excellent as specimens or in groups.

6 feet.....	\$6.00
7 feet.....	8.00
9 feet.....	10.00
Larger specimens, prices on application.	

Juniper stricta. One of the most ornamental of all Junipers. Very compact, pyramidal growth.

12 inches.....	\$2.50
15 inches.....	\$4.00

Evergreen planting of Retinisporas, Juniperus and other suitable low growing evergreens. By a careful selection of varieties excellent color effects, blending with the architecture and color of the house, can readily be obtained

EVERGREENS—Continued

Japanese Yew—Taxus

Taxus cuspidata capitata. The hardiest of all the Yews. Upright in growth, with deep green foliage. Very effective as a low hedge in front of a brick wall or brick porch.

2 feet.....\$6.00 3 feet.....\$9.00

American Hemlock

Tsuga canadensis. Splendid, native trees, which, although fast growing, can be kept in shape by shearing. Due to the fact that they tolerate partial shade they can be used in practically every group or foundation planting. Also admirable for screens and borders

2 feet.....\$2.50 4 feet.....\$6.00
3 feet..... 3.50 5 feet..... 8.00
6 feet.....10.00

Mugho Pine

Pinus Mughus. A low, spreading type. Very hardy. Compact in habit. Extensively used for rock gardens and foundation plantings.

18 inches.....\$4.00
24 inches..... 6.00

American Hemlock. Very graceful. Rapid growing evergreen which is used extensively for hedges and screens due to the fact that it can be sheared to any desired height. The one illustrated sells for \$8.00.

Evergreen and Azalea planting for a small residence. The brilliant colorings of these Azaleas contrast to excellent advantage against the various shades of green in the Spruces, Arborvitae and Juniperus

Spruces and Pines

Tall growing, stately trees which form magnificent specimens for lawn planting. The Spruces and Pines are the hardiest of all evergreens, and for this reason are extensively planted as windbreaks or screens. The fragrance of a Pine grove is familiar to all of us.

THE SPRUCES

Norway Spruce. *Picea excelsa*. A very hardy tree, symmetrical in shape, which attains great height in practically any soil. A few of these trees planted on the lawn add immeasurably to its all-year-round beauty.

18 inches.....	\$1.00	5 feet.....	\$7.00
2 feet.....	1.50	6 feet.....	9.00
3 feet.....	2.50	7 feet.....	11.00
4 feet.....			4.50

White Spruce. *Picea alba*. Similar to Norway Spruce. Of a very dense bushy spread and growth. The needles are shorter than the Norway and have a more bluish tint. Excellent as a lawn specimen, windbreak or screen.

3 feet.....	\$4.00
4 feet.....	5.00

Colorado Blue Spruce. *Picea pungens glauca*. Most attractive because of its grayish-blue foliage. Widely used as sentinel trees.

2 feet.....	\$7.50	3 feet.....	\$9.00
-------------	--------	-------------	--------

Koster's Blue Spruce. *Picea pungens glauca Kosteri*. Most decorative of all the Spruces. Clear blue foliage, compact in growth, forming a perfect, symmetrical specimen.

2½ feet.....	\$15.00
6 to 8 feet.....	\$35.00-\$50.00

The Spruces grow symmetrically and quickly. The one illustrated above is a Norway Spruce about 5 feet high

EVERGREENS—Continued

THE PINES

Austrian Pine. *Pinus austriaca*. Massive tree with spreading limbs and stiff needles. Thrives under practically any conditions. The best of the Pines.

2 feet.....\$3.00 3 feet..... \$5.00
4 feet.....\$7.00

White Pine. *Pinus Strobus*. The most graceful of the Pines. Long, grayish-blue needles, borne on long, swaying branches.

2 feet.....\$3.00 3 feet.....\$4.50
4 feet..... 6.00

Scotch Pine. *Pinus sylvestris*. Rapid, sturdy grower, with heavy, fleshy needles. Does well under any condition.

2 feet.....\$2.50 4 feet.....\$5.50
3 feet..... 4.00 5 feet..... 7.50

Red Pine. *Pinus resinosa*. Two Needle Pine, of good color and large stature. Very desirable as lawn specimens.

3 feet.....\$4.00 4 feet.....\$6.00

EVERGREEN GROUND COVERER

Pachysandra terminalis. A prostrate evergreen perennial with dense glossy foliage; excellent ground coverer under trees or shrubs. Also very attractive in the rockery.

Each 10 100
Two-year-old plants.....\$0.25 \$2.00 \$17.50

Pines are among the sturdiest of our evergreen trees for screens and windbreaks.

EVERGREENS FOR WINDOW BOXES

After the Geraniums, Petunias, and vines have been killed by the frost, small evergreens are very attractive in window boxes. We carry in stock several varieties, such as Cypress, Arborvitae and Spruce, 7 to 10 inches high, which are ideal for this purpose. They vary in price from \$1.00 to \$2.00.

An appropriate and pleasing planting of an apartment house court in New York City. This was executed by us last fall and the subjects used include Koster's Blue Spruce, Norway Spruce, Firs, Cypress and Rhododendrons. Centerpiece and window boxes by Treecraft Co., 480 Lexington Ave., New York City

Rhododendron maximum. These two illustrations show a 3-foot Rhododendron maximum which sells for \$4.00—the first as it is dug in the nursery, and the second in full bloom on your grounds. Rhododendrons bloom the same year in which they are planted. They are not only valuable for the beauty of their bloom, but also for the attractiveness of their evergreen foliage.

Flowering Evergreen Shrubs

The all-year-round decorativeness of foliage and striking beauty of their bloom have for years established Rhododendrons and kindred shrubs as excellent material for ground decoration.

The Mountain Laurel is covered with white and flesh-pink flowers. Where a shady spot is to be planted, Mountain Laurel, Rhododendrons and Azaleas are the most suitable subjects. The plant illustrated sells for \$4.00.

Rhododendron

Rhododendron maximum. Best of American, broad-leaved evergreen shrubs. Large wax-white or delicate pink flowers in July. This variety requires partial shade for best development.

2 to 3 feet.....\$4.00
 3 to 4 feet..... 5.00

Rhododendron carolinianum. The smallest Alleghanian species. Dark green thick-set leaves. Flower clusters of rose-colored blossoms appear in May.

18 to 24 inches.....\$4.00
 24 to 30 inches..... 5.00

Rhododendron catawbiense. Rich, lasting green foliage which does not rust. Blooms in May, with large trusses of reddish-purple flowers. This variety does equally well in the sun and shade.

18 to 24 inches.....\$3.50
 24 to 30 inches..... 5.00

Mountain Laurel

Kalmia latifolia. Excellent native evergreen shrub, with thick, shiny leaves and pure white or bluish-pink flowers. Blooms May to June. Prefers the shade.

18 to 24 inches.....\$3.00
 24 to 30 inches..... 4.00

Deciduous Azaleas are extremely effective when planted in masses. This woodland planting bordering a path leading from the garden, is particularly beautiful during the Spring months

FLOWERING EVERGREEN SHRUBS—Continued

Leucothoe Catesbaei

Leucothoe catesbaei. Thick, shiny green leaves, graceful branches, with dense racemes of white bell-shaped flowers. Rapid grower.

1 to 2 feet.....	\$2.50
2 to 3 feet.....	3.50

Imported Azaleas

Azalea amœna. Purple-red flowers in great profusion. Requires heavy mulching.

15 inches.....	\$3.00
18 inches.....	4.00
24 inches.....	5.00

Azalea Hinodegiri. Similar to the above, with bright, flame-colored flowers. The most striking of all the Azaleas.

12 inches.....	\$3.00
15 inches.....	4.00
18 inches.....	5.00

Azalea mollis. Another imported variety with various colorings. Larger leaves than either of the above.

12 inches.....	\$3.00
15 inches.....	4.00

Deciduous Azaleas

Azalea nudiflora. Very showy Azalea, blooming in June with white or white and pink flowers.

2 to 3 feet.....	\$3.00
3 to 4 feet.....	4.00

Azalea arborescens. Fragrant white flowers in profusion in June. The leaves offer striking shades of red in Autumn.

2 to 3 feet.....	\$3.50
3 to 4 feet.....	4.50

Azalea viscosa. Exceedingly fragrant white flowers in July. Foliage bronze in Fall.

2 to 3 feet.....	\$3.50
3 to 4 feet.....	4.50

Flame Azalea. *Azalea calendulacea.* Brick-red, orange-yellow and cream-colored flowers blooming in late May and early June.

2 to 3 feet.....	\$3.50
3 to 4 feet.....	4.50

Azalea rosea. Profusion of deep pink flowers in May. Very fragrant.

2 to 3 feet.....	\$3.50
3 to 4 feet.....	4.50
5 to 6 feet specimens of all of the different varieties.....	\$12.00 to \$15.00

For large plantings of Rhododendron, Laurel or Azalea, it is advisable to order in carload lots. Carloads consist of from 300 to 500 plants, and it is possible to order these in mixed quantities; that is, so many Rhododendron, so many Laurel and so many Azaleas.

The price of the above plants in carload lots is greatly reduced.

Tall Growing Shade and Street Trees

Tall growing, wide spreading trees which afford shade and beauty to the lawn and street. Every property owner should realize that a suitable number of these trees planted on his property adds not only to its attractiveness but also to its value as real estate. The expense of setting out shade trees is inconsequential.

Maple

Norway Maple. *Acer platanoides*. Without question one of the best of all large growing shade trees. Symmetrical broad head, foliage deep green turning golden orange and red in the Fall.

8 to 10 feet high, 1¼ inch diam.....	\$3.50
10 to 12 feet high, 1½ to 2 inch diam. ...	5.00
12 to 14 feet high, 2 inch diam.....	6.00
14 to 16 feet high, 2 to 3 inch diam.....	9.00
16 to 20 feet high, 3 to 4 inch diam.....	15.00
Large specimens.....	\$25.00 to \$75.00

Silver Maple. *Acer dasycarpum*. Rapid growing tree with deeply cut foliage, silvery underneath. A native tree of great worth.

10 to 12 feet high, 1½ to 2 inch diam. ...	\$3.00
12 to 14 feet high, 2 to 2½ inch diam. ...	5.00
14 to 16 feet high, 3 to 3½ inch diam. ...	7.00
Specimen trees.....	\$10.00 to \$25.00

Schwedler's Red Maple. *Acer platanoides Schwedleri*. The young foliage is a deep red, turning later in the season to green and in the Fall to orange. One of the most decorative of all shade trees.

10 to 12 feet high, 1½ to 2 inch diam.....	\$7.00
--	--------

Plane Tree

Oriental Plane, or Sycamore. *Platanus orientalis*. A fast growing tree with large, deep green foliage and drooping fruit. Bark mottled in appearance. Grows well in both city and country.

8 to 10 feet high, 1¼ inch diam.....	\$2.50
10 to 12 feet high, 1½ to 2 inch diam.....	4.00
12 to 14 feet high, 2 to 2½ inch diam.....	6.00
14 to 16 feet high, 2½ to 3 inch diam.....	8.00
Specimens.....	\$10.00, 20.00

Norway Maple, 2 inches in diameter, 12 to 14 feet high, which sells for \$6.00.

Norway Maple transplanted by us a year ago. You will note that the tree is in full leaf at the present time.

Shade tree commissions of various cities, towns and boroughs usually choose for street planting either the Norway Maple or Oriental Plane. We have during recent years planted most of the street trees of this vicinity of New Jersey and will be pleased to quote quantity prices to shade tree commissions on any of the trees suitable for this purpose

Meadow Brook Nurseries, Inc.

TALL GROWING SHADE AND STREET TREES—Continued

Oak

American White Oak. *Quercus alba*. Rapid grower, symmetrical outline. The foliage turns a deep red in Autumn.

8 to 10 feet high, 1¼ to 1½ inch diam. . \$5.00
10 to 12 feet high, 1½ to 2 inch diam. . . 7.50

Scarlet Oak. *Quercus coccinea*. Handsome tree, of particular value because of its wonderful Autumn foliage.

8 to 10 feet high, 1¼ to 1½ inch diam. . \$4.00
10 to 12 feet high, 1½ to 2 inch diam. . . 6.00

Pin Oak. *Quercus palustris*. Large growing, native tree. Foliage is deeply cut. Coloring bright green, turning to red in Autumn.

8 to 10 feet high, 1½ inch diam. \$4.00
10 to 12 feet high, 2 inch diam. 6.00
12 to 14 feet high, 3 inch diam. 8.00

Weeping Willow

Weeping Willow. *Salix babylonica*. Vigorous in growth with bright green foliage and graceful branches. Pendulous in habit.

10 to 12 feet high, 1½ to 2 inch diam. . . \$5.00

Linden

European Linden. *Tilia platyphyllos*. An excellent tree in every respect. Has an immense crown of bright green leaves. Yellow flowers early in the season.

10 to 12 feet high, 1½ to 2 inch diam. . . \$4.00
12 to 14 feet high, 2 to 2½ inch diam. . . 6.00
Specimens \$10.00 and up

The accompanying illustration shows the method by which large, deciduous trees are dug and moved. The tree illustrated is a large Pin Oak which we transplanted during January of this year from our Nursery to the lawn of Mr. William Goodbody of Englewood. You will note how all the roots are carefully wrapped to prevent drying out. If there is a place on your lawn for a large shade tree, we would be glad to give you our price for planting one there

Elm

American Elm. *Ulmus americana*. Native tree of immense height and spread. Some of our most beautiful avenues are planted with this Elm.

10 to 12 feet high, 1¾ to 2 inch diam. . . \$4.00
12 to 14 feet high, 2 to 2½ inch diam. . . 6.00
Specimens \$10.00, 25.00

The Oriental Planes make splendid street trees due to their attractive large foliage and symmetrical heads. These trees prosper under almost all conditions and are excellent trees for city use.

Dogwood Blossoms

Flowering and Other Ornamental Trees

The trees under this grouping serve many purposes in ground decoration. As specimens on the lawn, among groupings of shrubbery, or as sentinels by the path or roadway, they are admirable.

The Umbrella Tree is excellent as a sentinel on each side of the path or driveway.

Chestnut

Horse Chestnut. *Aesculus Hippocastanum*. A very compact, handsome tree growing 30 to 60 feet high. Flowers white, tinged with red in showy panicles. Excellent as a lawn specimen or for planting along a driveway.

12 to 14 feet high, 4 to 5 inch diam. \$12.00
14 to 16 feet high, 5 to 6 inch diam. 18.00

Birch

American White Birch. *Betula populifolia*. A very graceful, white-barked tree. Foliage light and airy. Appears to best advantage when planted in groups on the lawn.

10 to 12 feet, 1½ to 2 inch diam. \$4.00
12 to 14 feet, 2½ to 3 inch diam. 6.00

Clumps of Birches, very handsome specimens. Prices on application.

Umbrella Tree

Umbrella Tree. *Catalpa Bungei*. A very popular dwarf, round-headed tree; useful for formal effects or as a sentinel tree. Should be trimmed each year in late Winter.

4 to 5 feet stems, 1 to 1½ feet heads. \$2.00
5 to 6 feet stems, 1½ to 2 feet heads. 3.00
5 to 6 feet, extra heavy heads. 4.00

FLOWERING AND OTHER ORNAMENTAL TREES—Continued

Dogwood, 6 to 8 feet high, selling for \$4.00.

Thorn

Paul's Double Scarlet Thorn. *Crataegus cocinea*. Beautiful, fragrant scarlet flowers in May. An excellent dwarf tree for lawn or shrub planting.
4 to 5 feet.....\$6.00

Hawthorn

Double White Hawthorn. *Crataegus alba pleno*. Single white flowers, followed by scarlet fruit. Excellent as specimen or hedge plant.
4 to 5 feet.....\$4.00

Beech

Copper Beech. *Fagus purpurea*. The copper-colored foliage forms a distinct note in the landscape. When full grown (30 to 60 ft.) the Copper Beech makes a perfect symmetrical specimen.
6 to 8 feet.....\$8.00

European Beech. *Fagus sylvatica*. Closely branched from the ground up, the European Beech forms a most symmetrical tree. The leaves remain until late in the Winter. A fine lawn specimen.
6 to 8 feet.....\$7.00

Maidenhair Tree

Maidenhair Tree. *Ginkgo biloba*. An ornamental tree with foliage resembling Maidenhair fern. Good for city planting.
6 to 8 feet.....\$2.00
8 to 10 feet.....4.00

Lombardy Poplar

Tall, stately trees. Excellent for screens or wind-breaks.

8 to 10 ft.....	\$2.00
10 to 12 ft.....	3.00
12 to 14 ft.....	4.00

Judas Tree

American Red Bud, or Judas Tree. *Cercis canadensis*. A native tree of medium size, with purplish-red flowers in May. The flowers appear before the foliage and cling closely to the branches.
3 to 5 feet.....\$3.00
5 to 7 feet.....5.00

Dogwood

The blossom of the Flowering Crab Apple

White Dogwood. *Cornus florida*. One of the most beautiful of our native trees. Quantities of large white flowers in early Spring. Excellent as a lawn specimen or in groups.

4 to 6 feet...\$3.00 6 to 8 feet.....\$5.00
8 to 10 feet..... 7.00

Pink Dogwood. *Cornus rubra*. Very beautiful pink variety. Not as hardy as the white.

3 to 4 feet.....\$5.00

Mountain Ash

Mountain Ash. *Sorbus Aucuparia*. Straight growing, handsome tree with graceful foliage bearing clusters of orange and red berries.

6 to 8 feet.....\$4.00

Mulberry

Teas' Weeping Mulberry. A standard weeping tree of great worth. The heavy attractive foliage is suspended from branches forming an umbrella-like structure.

5 to 6 feet.....\$5.00

Japanese Ornamental Trees

BECHTEL'S DOUBLE FLOWERING CRAB.

Shapely, compact, dwarf tree, with double, soft pink flowers, resembling Dorothy Perkins Roses. Blooms in May.

3 to 4 feet...\$3.00 4 to 5 feet.....\$4.00

PARKMAN'S DOUBLE FLOWERING CRAB.

Malus Parkmanii. Single deep pink flowers.

3 to 4 feet.....\$5.00

JAPANESE FLOWERING CHERRY. *Cerasus*.

One of the most beautiful sights in May, is a flowering Cherry in bloom. The flowers adhere closely to the stem and bloom in great profusion.

3 to 4 feet...\$3.00 4 to 5 feet.....\$5.00

DOUBLE FLOWERING PLUM. *Prunus triloba*.

Rapid grower, semi-double, delicate pink flowers in May.

2 to 3 feet.....\$2.00

JAPANESE FLOWERING PEACH. *Prunus persica*.

Very ornamental flowering dwarf tree with double red and double white blossoms in May.

3 to 4 feet...\$1.50 4 to 5 feet.....\$2.50

Birches always appear to best advantage when planted in groups. The above photograph illustrates the group of Birches which border the driveway of Mrs. A. B. Gaines' estate, Englewood, N. J. Both clumps and single specimens were employed to make this attractive planting. In our nursery in Norwood, N. J., we have many clumps of Birches varying in size from 3 to 7 main stems. The individual stems are about 2 to 3 inches. Clumps of Birches are priced from \$7.00 to \$15.00

Foundation planting of *Spiraea Vanhouttei*, *Deutzia gracilis* and other choice shrubs. Such a planting is most inexpensive and takes only a short time to reach maturity.

FLOWERING SHRUBS

Flowering shrubs are readily adaptable to practically every phase of suburban planting.

Around the foundation of the house, in groups or borders, along the driveways, as screens or backgrounds or as individual specimens, flowering shrubs are desirable.

They vary from dwarf varieties to others which grow almost as large as trees. Different varieties bloom or bear berries at all seasons of the year, and furnish striking contrasts both as to color of bloom and foliage. Sizes mentioned designate height at which they are sold.

The Flowering Almond

Double White Almond. Exquisite, medium-growing shrub covered with delicate white flowers in May.

3 to 4 feet.....\$2.00

Double Pink Almond. Similar to above, with pink flowers.

3 to 4 feet.....\$2.00

The Althæas • or Rose of Sharon

Bush Althæa. Compact and erect in habit, bearing large, double blooms of great beauty; white, pink and purple.

2½ to 3 feet.....\$1.00

Tree Althæa. Similar to above, only in tree form. White, pink, purple and red.

3 to 4 feet.....\$2.00

This school is so much more attractive because of the foundation planting of *Spiræas*, *Deutzias*, *Weigelas*, *Althæas*, *Hydrangeas* and *Barberry*.

Buddleia are excellent both for ground decoration and as cut flowers. All Summer long butterflies hover about the Lilac-shaped flowers of this beautiful shrub. The plant illustrated had one year's growth since leaving the nursery.

The Aralias

Aralia pentaphylla. Upright in growth with prickly branches, good for shady places and city conditions.

3 feet.....\$1.00

Aralia spinosa. *Hercules' Club.* Excellent for tropical effects. Flowers in loose clusters, greenish-white in color. Branches thorny and upright.

6 to 8 feet.....\$2.00

BAYBERRY

Bayberry. *Myrica cerifera.* Deep green leaves, small, blue berries, almost evergreen.

3 feet.....\$0.75

BENZOIN

Benzoin, Spice Wood. Tall growing shrub producing yellow flowers close to the stem before the leaves appear. In Autumn it is covered with red berries.

4 to 5 feet.....\$1.00

BUDDLEIA

Buddleia Veitchii. *Butterfly Bush, or Summer Lilac.*

Violet lilac-shaped blooms of exquisite beauty which can be cut and used for house decoration. Blooms from July till early Autumn

2 to 3 feet.....\$1.00

CALYCANTHUS

Calycanthus florida. *Strawberry Shrub.* Chocolate colored, fragrant flowers in June. Large, decorative foliage.

3 to 4 feet.....\$1.00

CLETHRA

Clethra alnifolia. *Sweet Pepper Bush.* Excellent for moist places. Spikes of white flowers in June and July.

2 to 3 feet.....\$0.75

Cornus - The Osier Dogwood

Cornus alba. *Red-Twigged Dogwood.* Rapid growing shrub of value because of its red branches in Winter.

2 to 3 feet.....\$1.00

Cornus lutea. Similar to the above, with yellow branches.

2 to 3 feet.....\$1.00

COTONEASTER

Cotoneaster acutifolia. Very ornamental shrub. Especially valuable for its Autumnal tints and showy black fruit.

2 to 3 feet.....\$1.00

Viburnums and other strong growing shrubs are here used to plant out the neighbor's garage.

FLOWERING SHRUBS—Continued

Hydrangea paniculata grandiflora. One of the best of all late flowering shrubs. Grows readily in practically any soil.

Cydonia

Japanese Quince. *Cydonia japonica.* Very showy shrub blooming in early Spring with brilliant red flowers adhering closely to the stem. The shiny foliage, deep green, tinted with red, is attractive throughout the entire year.

2 feet.....\$1.50

The Deutzias

Deutzia gracilis. Dwarf shrub, graceful foliage, covered with white flowers in May and June.

18 to 24 inches.....\$1.00

Double Pink Deutzia. Tall growing, bears in June, racemes of double pink flowers.

3 to 4 feet.....\$1.00

Deutzia Lemoinei. Low growing, bushy. Extra large flowers in great panicles, in June.

2 to 3 feet.....\$1.00

Deutzia, Pride of Rochester. Strong grower. Large, double white flowers in June.

3 to 4 feet.....\$1.00

ELEAGANUS

Eleagnus longipes. Of especial value for its silver tinted foliage; profusion of scarlet berries in July.

3 to 4 feet.....\$1.00

EUONYMUS

Euonymus alatus. Very interesting because of the cork-like appearance of its bark. Flowers in late Spring, and later in season bears scarlet fruit. Foliage turns scarlet in Autumn.

3 to 4 feet.....\$1.50

EXOCHORDA

Pearl Bush. *Exochorda grandiflora.* Pure white star-shaped flowers in May. The slender foliage has a silvery sheen.

2 to 3 feet.....\$1.00

The Forsythias · Golden Bells

Drooping Golden Bell. *Forsythia suspensa.*

Blooms in April. Golden bell-shaped blossoms precede the leaves and adhere close to the stems. Very hardy, flourishing in the sun and semi-shade. 3 to 4 feet.\$1.00

Dark Green Forsythia. *Forsythia intermedia.* Similar to the above, with upright habit of growth. Foliage a very deep green.

3 to 4 feet\$1.00

The Fringes

Purple Fringe. *Rhus cotinus.* Tall growing shrub with delicate smoke-like flowers in Summer. 3 to 4 feet\$2.00

White Fringe. *Chionanthus virginica.* Small tree covered with mist of white flowers in June. 2 to 3 feet.....\$2.00

ELDER

Golden Elder. *Sambucus aurea.* Creamy white flowers in June. Black fruit. Rapid grower with golden foliage.

3 to 4 feet\$1.00

HAMMAMELIS

Witch Hazel. *Hammamelis japonica.* Tall growing shrub, excellent for screen or background. In Autumn leaves assume a reddish tint and remain on the stems well into the Winter.

4 to 5 feet.....\$1.50

5 to 7 feet specimens.....\$3.00 to \$5.00

Forsythia intermedia. The bright yellow blooms of Forsythia always attract much attention in the Spring. One of the best of all shrubs.

FLOWERING SHRUBS—Continued

Colorful flowering shrubs blooming from April until frost are excellent subjects for foundation planting. The illustration shows a combination of flowering shrubs and Barberry which was carried out very effectively and also very reasonably

The Hydrangeas

Snowball Hydrangea. *Arborescens.* Medium grower; quantities of large white blooms in June. 2 to 3 feet.....\$1.00

Hydrangea paniculata grandiflora. One of the very best shrubs. Large, pointed, double white flowers in August, turning pink toward Fall. The flowers of this shrub may be cut in the Fall and kept in a dry condition in the house many months. 2 feet.....\$1.00

Tree Hydrangea. Similar to the above, but grown as a standard.

3 feet.....\$2.00 4 to 5 feet.....\$3.00

Blue large flowering Garden Hydrangeas. One of the most beautiful of all the ornamental flowering shrubs. Blooms profusely from July to September.

12 to 15 inches.....\$1.50

Pink large flowering Garden Hydrangeas. Same as the above in a delicate shade of pink.

12 to 15 inches.....\$1.50

Hydrangea and other shrubs bordering the flag path which is the approach to a charming old-fashioned garden

Weigela rosea. One of the most popular of the early flowering shrubs

FLOWERING SHRUBS—Continued

Philadelphus. An excellent shrub for foundation planting

Bush Honeysuckles • *Loniceras*

Lonicera tatarica. [Pink and white blooming varieties. Tall, upright growing bush. The flowers blooming in May are followed by red berries, lasting well into the Fall.

3 to 4 feet.....\$1.00

Fragrant Honeysuckle. *Lonicera fragrantissima.* Similar to the above except that the flowers have a distinctly sweet fragrance.

3 to 4 feet.....\$1.00

Upright Honeysuckle. *Lonicera Morrowii.* Pure white flowers in May. Bright red berries from August until Fall.

3 to 4 feet.....\$1.00

The Mock Oranges • or *Philadelphus*

Golden Syringa. *Philadelphus foliis aureis.* Small shrub. Very desirable because of its golden foliage and dwarf habit. It is very suitable for edging.

12 to 18 inches.....\$1.00

Lemoine's Syringa. *Philadelphus Lemoinei.* Sweet scented white flowers in June.

2 to 3 feet.....\$1.00

Mock Orange. *Philadelphus coronarius.* Vigorous, erect grower, bearing fragrant white flowers in May.

3 to 4 feet.....\$1.00

ITEA

Itea virginica. *Virginian Willow.* Native, low shrub with racemes of pure white flowers.

2 feet.....\$1.00

The Kerrias

Kerria japonica. Medium grower, light green foliage. Blooms abundantly with single yellow flowers.

3 feet.....\$1.00

Kerria japonica flore pleno. Similar to the above except that the rose-shaped flowers are double yellow.

3 feet.....\$1.50

The Lilacs • *Syringas*

Common Lilac. *Syringa vulgaris.* One of our most beautiful shrubs, blooming in the early Spring. White and lilac.

3 feet.....\$1.00

Hybrid French Lilacs. We have the hybrid Lilacs in the following varieties. **Marie Legraye**, creamy white; **Michael Buchner**, pale lilac; **President Grevy**, blue; **Charles the Tenth**, reddish-purple.

2 to 2½ feet.....\$2.00

PUSSY WILLOW

Pussy Willow. *Salix caprea.* Small tree, with upright branches. Large catkins in February and March.

4 to 5 feet.....\$1.00

Spiraea Vanhouttei, a dazzling splendor of white in May.

FLOWERING SHRUBS—Continued

Foundation planting of Forsythia, Spiraea and Weigela. Such a planting provides bountiful color from early Spring until late in the Fall

RHODOTYPOS

Rhodotypos kerrioides. *White Kerria.* Single white flowers in May followed by black berries lasting through Winter. Good for shady places.
3 to 4 feet.....\$1.00

Golden Currant. *Ribes aureum.* Very desirable for its golden foliage.
2 to 3 feet.....\$1.00

STEPHANANDRA

Stephanandra flexuosa. Very graceful, low shrub with deep green, dense foliage. One of the best for foliage effect.
2 to 3 feet.....\$1.00

The Snow and Coral Berries

Snowberry. *Symphoricarpos racemosus.* Mostly used because of its showy white berries adhering all Winter. Medium grower, white flowers in July.
3 to 4 feet.....\$1.00

Coral Berry. *Symphoricarpos vulgaris.* Similar to the above, with pink and red berries during the Winter.
3 to 4 feet.....\$1.00

The Spiraeas

Spiraea Anthony Waterer. One of the most useful low shrubs, bearing in July and August a profusion of bright red flowers.
2 feet.....\$1.00

Spiraea Billardii. Medium grower, with bright pink flowers in Midsummer. Good for dry places.
2½ to 3 feet.....\$1.00

Spiraea callosa alba. Dwarf shrub, with clusters of white flowers in June and July.
2 feet.....\$1.00

Spiraea prunifolia. *Bridal Wreath.* Vigorous grower, small leaves and masses of small white flowers in May.
3 to 4 feet.....\$1.00

Spiraea Vanhouttei. One of our very best shrubs. The myriads of small, pure white flowers adhere closely to the twigs. These shrubs add a great deal of beauty to the landscape in May.
2 to 3 feet.....\$0.75
3 to 4 feet..... 1.00

FLOWERING SHRUBS—Continued

When your porch is near the street, privacy and beauty can readily be obtained by a planting of tall growing flowering shrubs such as illustrated

The Snowballs and other Viburnums

Common Snowball. *Viburnum Opulus sterilis*. The old-fashioned Snowball which thrives in any locality and flowers abundantly in May.

2 to 3 feet.....\$1.00

Japanese Snowball. *Viburnum plicatum*. Solid, round flowers in June. An excellent shrub in every respect.

2 feet.....\$1.50

High Bush Cranberry. *Viburnum Opulus*. Single white flowers in May, followed by scarlet berries. Strong, rapid grower.

2 to 3 feet.....\$1.00

Arrowwood. *Viburnum dentatum*. Strong grower with dentated leaves. White flowers in June followed by black berries.

2 to 3 feet.....\$1.00

Sheep Berry. *Viburnum lentago*. Blooming in May and June with white flowers, followed in the Autumn by bluish black fruit which frequently persist until Spring.

3 to 4 feet.....\$1.00

TAMARISK

Tamarisk. Slender, graceful grower with feathery foliage and dainty pink flowers in May.

3 to 4 feet.....\$1.00

The Weigelas

Weigela Eva Rathke. Red, bell-shaped flowers during the entire Summer. One of the best medium growing shrubs.

2 to 3 feet.....\$1.50

Weigela rosea. *Pink Weigela*. Tall growing shrub, with delicate-pink, bell-shaped flowers.

3 to 4 feet.....\$1.00

Weigela variegatus. Similar to above, but of especial interest because of its green and yellow variegated foliage.

2 to 3 feet.....\$1.00

Weigela candida. *White Weigela*. Strong growing shrub bearing quantities of white, bell-shaped flowers in May.

3 to 4 feet.....\$1.00

HARDY PERENNIALS

Old-Fashioned Flowers

There is no time during the whole flowering season when some hardy perennial is not in bloom. With careful selection of these old-fashioned plants you will have a constant supply of flowers for table and house decoration.

They can be planted practically anywhere. In the formal garden they are essential. They are also admirable as a foreground for shrubby plantings, in borders by themselves, and certain varieties in rockeries.

Sizes mentioned in descriptions designate height at maturity. The months represent blooming season. Perennials when shipped should always be sent by express or parcel post.

Prices except where otherwise noted are 25c. each, \$20.00 per 100. Those suitable for rockeries are marked.★

Hardy Asters

ACHILLEA

Achillea, The Pearl. 15 inches. Pure white flowers in great profusion all Summer.

ANCHUSA

Anchusa Dropmore. 3 to 5 feet. Tall spikes of blue flowers in June and July.

ACONITUM

Aconitum Fischeri. *Monk's Hood.* 3 feet. Deep blue, bell-shaped flower on long spikes. September. 50 cts. each.

ANEMONE

Anemone japonica. *Windflower.* 3 feet. White and pink. Good in sun and semi-shade. Large, single rose-like flowers blooming from August until frost. 50 cts. each.

AGROSTEMMA

Agrostemma. *Mullein Pink.* 2 feet. Rich crimson flowers, borne on upright, gray-green foliage. June to July.

ANTHEMIS

Anthemis tinctoria. *Chamomile.* 3 feet. Yellow, Daisy-like flower. June to August.

AJUGA

★**Ajuga genevensis.** *Bugle.* 6 to 8 inches. Blue-spiked flowers. Creeping in habit. May.

AQUILEGIA

★**Aquilegia.** *Columbine.* 2 to 3 feet. Red, blue, white and yellow. One of the best of all perennials, thriving in almost any soil. Foliage delicate and attractive. May to June.

ALYSSUM

★**Alyssum saxatile compactum.** *Rock Madwort.* Bright yellow flowers covering the plant in late April and May.

ARABIS

★**Arabis alpina.** *Alpine Rock Cress.* 6 in. A low spreading plant, bearing myriads of white flowers in April and May.

Agrostemma

ARMERIA

★**Armeria formosa.** *Sea Pink.* 8 to 12 inches. Small heads of pink flowers springing from tufts of small evergreen leaves. April to May.

ASTER

Aster. *Michaelmas Daisy or Hardy Aster.* 2 to 3 feet. Purple and violet Daisy-like flowers blooming in profusion in September and October.

Aquilegia

Hardy Pinks

HARDY PERENNIALS—Continued

AUBRIETIA

- ★ **Aubrietia deltoides.** *False Wall Cress.* 6 inches. Compact, glaucous foliage. Covered with violet and lavender flowers in April and May.

BLEEDING HEART

- Bleeding Heart.** *Dicentra spectabilis.* 2 to 3 feet. One of the old-time favorites. Drooping, heart-shaped flowers of white and old rose. May and June. 50 cts. each.

BOLTONIA

- Boltonia.** 5 to 8 feet. Blooming late in the year, the Boltonias make a very gorgeous showing. Flowers somewhat resemble the hardy Aster.

The Campanulas

- ★ **Campanula carpatica.** *Blue Bells.* 6 to 8 inches. Useful for edging or borders. Blooms profusely all Summer.

- ★ **Campanula carpatica alba.** The pure white variety of the above.

- Campanula latifolia macrantha.** 2 to 3 feet. Bright purple flowers. June to July.

- Campanula Medium.** *Canterbury Bells.* 3 feet. Beautiful, bell-shaped flowers in spreading racemes, pink, purple and white. June and July.

- Campanula persicifolia.** *Peach Leaf Bellflower.* 2 feet. Large white and blue cup-shaped flowers. June and July.

CENTAUREA

- Centaurea montana.** *Cornflower.* 1½ feet. Violet-blue flowers from June until September.

HARDY GARDEN LILIES

The six best varieties are fully described and priced on page 32

Cerastium

- ★ **Cerastium tomentosum.** *Snow in Summer.* 6 inches. Silvery foliage covered with numerous white flowers in May and June.

The Chrysanthemums

- Hardy Early Flowering Chrysanthemums.** 2 to 3 feet.

The following varieties are very hardy and bloom early in the Fall, insuring their not being touched by the early frosts which so often spoil the flowers of these attractive perennials.

- Carrie.** Yellow, large flowering, single.

- Hortense Malcott.** Pink, large flowering, single.

- Mrs. Barham.** Bronze yellow, large flowering single.

- White Normandie.** Large flowering, double.

- Yellow Normandie.** Large flowering, double.

- Skibo.** White with red center, Pompon.

- Chrysanthemum hybridum.** *Shasta Daisy.* 1 to 2 feet. Large, white, Daisy-like flowers with yellow centers blooming from June until September.

COREOPSIS

- Coreopsis.** *Tickseed.* 2 to 3 feet. Continuous bloomer. Yellow flowers, somewhat similar to Cosmos.

Campanula

Chrysanthemums

Veronica

Coreopsis

HARDY PERENNIALS—Continued

The Dianthus

- ★ **Dianthus Allwoodii.** *Hardy Pinks.* 1 foot. Attractive combinations of colors and a long period of bloom make the hardy Pinks one of the most popular of all perennials. June to August.
- ★ **Dianthus latifolius.** 8 inches. More dwarf than the above. Color velvety carmine. Blooms throughout Summer.
- ★ **Dianthus plumarius.** 8 to 10 inches. Single violet-pink, carmine centered flowers, blooming May and June.
- ★ **Dianthus barbatus.** *Sweet William.* 2 feet. A favorite for many years. Flat clusters of red, white, pink, and vari-colored flowers, blooming profusely in May and June.

Delphinium Gold Medal Hybrids. 3 to 4 feet. The most beautiful of all, ranging in colors from blue through violet to purple.

DIGITALIS

Digitalis. *Foxglove.* 3 to 4 feet. Stately biennials with tall spires of drooping bells. Does well in semi-shade. June to July.

Digitalis. *Shirley Giant.* 5 to 7 feet. A new improved variety ranging from purest white to dark rose. Blotched and spotted with brownish crimson and maroon. June and July.

ERYNGIUM

Eryngium. *Sea Holly.* 2 to 3 feet. Blue, thistle-shaped flowers. Stems of steel-blue. July and August.

The Delphiniums

Larkspurs

- Delphinium belladonna.** 2 to 2½ feet. Tall spikes of light blue flowers blooming all Summer.
- Delphinium bellamosum.** 2 to 3 feet. A new variety of an intense deep rich blue. Blooms continuously throughout the Summer.
- Delphinium chinensis.** 1½ to 2 feet. Deep blue, semi-dwarf variety. Continuous bloomer. Foliage lacinated.
- Delphinium formosum.** 2 to 3 feet. Deep blue, white-eyed flowers. All Summer.

The Eupatoriums

Eupatorium ageratoides. 3 feet. Bushy plant, bearing clusters of small, white flowers. August and September.

Eupatorium coelestinum. *Mist Flower.* 2 to 3 feet. One of the best late perennials. Profusion of azure-blue flowers. Excellent, dark green foliage. August to October.

FORGET-ME-NOT

- ★ **Forget-me-not.** 8 to 12 inches. Covered with tiny blue flowers all Summer long, Forget-me-nots are a very attractive feature of the old-fashioned border or rocky.

Delphiniums

Foxglove

Phlox, Miss Lingard. White with pink eye. One of the best varieties

Phlox are in full bloom during the hottest and driest days of the Summer

HARDY PERENNIALS—Continued

FUNKIA

Funkia. *Plantain Lily.* 2 feet. Mostly valuable because of its conspicuous foliage. Excellent for borders. Inconsequential flower spikes of white in August.

GAILLARDIA

Gaillardia. *Blanket Flower.* 1½ to 2 feet. Daisy-shaped flowers, with orange-tipped petals, shaded to scarlet in center. June until frost.

GEUM

★ **Geum coccineum.** 1 foot. Blooms from May to July, with attractive red flowers.

Geum, Mrs. J. Bradshaw. 1½ to 2 feet. A beautiful new variety of intense double orange-scarlet flowers blooming throughout the latter part of Summer and Fall.

GYPHOPHILA

Gypsophila. *Baby's Breath.* 2 feet. Myriads of tiny white flowers borne in feathery panicles in Midsummer. Fine for cutting.

The Heleniums

Helenium. *Sneezeweed.* 4 to 5 feet. Very showy plant for background in the old-fashioned garden. Yellow blooms in September.

Helenium, Riverton Gem. 4 to 5 feet. Similar to the above except that the flowers are vari-colored, yellow bronze and brown. 50 cts. each.

HELIANTHUS

Helianthus. *Hardy Sunflower.* 6 to 8 feet. Blooming in October with large, clear yellow flowers. Fine for shrub border.

HEMEROCALLIS

Hemerocallis. *Orange Lily.* 2 feet. Excellent in moist ground, near streams and partly shaded places. July to August.

HESPERIS

Hesperis matronalis. *Sweet Rocket.* 2 feet. Pink and white flowers of delicate fragrance. May and June.

HIBISCUS

Hibiscus. *Marshmallow.* 4 to 5 feet. Large, single flower in shades of crimson, pink and white. Heavy, attractive foliage. Does well in wet locations. August to September.

HOLLYHOCKS

Hollyhocks. 5 to 7 feet. One of the best known of all the old-fashioned flowers. Especially attractive against the garden wall. July. All colors.

HYPERICUM

Hypericum Moserianum. *Gold Flower.* 2 feet. This shrub-like plant is distinct both as to foliage and flower. The gold of the flower contrasts strikingly with the deep green foliage. July to September. 50 cts. each.

IBERIS

★ **Iberis.** *Candytuft.* 8 to 10 inches. One of the best white flowered, spreading dwarf plants. Ideal for rock gardens and border plantings. May to June.

Gaillardia

Hollyhocks

We all know the glory of the Peony in May and June

Peony, Festiva Maxima. One of the best white varieties

HARDY PERENNIALS—Continued

The Irises

German Iris. *Fleur de Lis.* 2 to 3 feet. Showy flowers in shades of yellow, blue and lilac. May to June. 15 cts. each.

Japanese Iris. *Iris Kaempferi.* 2 to 3 feet. Blooms in late June and July, with flowers of great beauty and generous size. Shades vary from pure white to blue, violet and purple. The most decorative of all the Irises.

★**Dwarf Iris.** *Iris pumila.* 8 inches. An excellent early species, thriving in any situation. Fine for the rock garden or border. Blue, yellow and white. May.

Siberian Iris. *Iris sibirica.* 2 feet. Very different from the other varieties. Long, narrow, dense foliage. Showy violet flowers in May and June.

LATHYRUS

Lathyrus latifolius. *Everlasting Pea.* 3 feet. Large, rose-colored flowers, similar to the annual Sweet Pea.

LA V E N D U L A

Lavendula vera. *Lavender.* 1 to 2 feet. A very attractive, old-time favorite, blooming from July to September. Violet flower, valued for its fragrance.

LIATRIS

Liatris elegans. *Blazing Star.* 4 to 5 feet. Graceful spikes of lilac blooms in July and August. A very striking perennial.

LILY OF THE VALLEY

★**Lily of the Valley.** 8 to 10 inches. Plant in a moist, shady place for the best results. Field grown, heavy clumps. May. 50 cts. each.

LINUM

Linum perenne. *Perennial Flax.* 1 foot. Delicate, light blue flowers borne on slender, erect stems; blooming May to June.

LUPIN

Lupin. *Lupinus polyphyllus.* 2 to 3 feet. Pea-shaped flowers in long spikes. Purple and white. An old-time favorite. June to July.

LYCHNIS

Lychnis chalcidonica. *London Pride.* 2 feet. Brilliant clusters of scarlet flowers. Foliage narrow and hairy. June to July.

★**Lychnis Haageana.** 1 foot. Striking orange-scarlet flowers of large size. May and June.

Lychnis viscaria. 6 inches. Blooming in June with violet-red spikes.

LYSIMACHIA

Lysimachia clethroides. 2 feet. Graceful spikes of white flowers on slender stems. July and August.

LYTHRUM

Lythrum salicaria roseum. *English Loosestrife.* 2 to 3 feet. Graceful spikes of rosy-scarlet flowers. July to September.

MONARDA

Monarda didyma. *Horse Mint.* 3 to 4 feet. Bright red flowers, borne on heavy, green foliage, somewhat resembling ordinary Mint. June to September.

NEPETA

★**Nepeta hederacea variegata glechoma.** 6 inches. Creeping plant; green and white evergreen foliage, blue flowers. May and June.

OENOTHERA

★**Oenothera missouriensis.** *Sun Drops.* 2 feet. Large, yellow, cup-shaped flowers.

The Poppies • Papaver

Papaver nudicaule. *Iceland Poppy.* 1 foot. Yellow and orange, single, cup-shaped flowers, blooming in profusion from May to August.

Papaver orientalis. *Oriental Poppy.* 2 feet. Magnificent showy flowers, often 6 inches across. Pink and scarlet. June and July.

The Peonies

Achille. Early, shell - pink, Each fading to lilac white. 2-year plants.....\$1.00

Adolphe Rousseau. Midseason; purplish-garnet. 2-year plants..... 2.00

Beauté Française. Midsummer. Pale pink and cream. 2-year plants..... 1.00

Buyckii. Midseason. Center salmon, collar deep pink. 2-year plants..... 1.00

Delachei. Late. Violet-crimson. 2-year plants..... 1.00

Duc. de Wellington. Midseason. Pure white, sulphur center. 2-year plants..... 1.00

Duchesse de Nemours. Early, pure white. 2-year plants... 1.00

Festiva maxima. Early. White, with crimson markings. 2-year plants..... 1.00

Unnamed varieties in Pink, Red and White, \$1.00 each, \$10.00 per doz.

Lupinus

Pyrethrum

Sweet William

Rock Garden and steps. Rock garden plants bloom from early Spring until late Fall. It is important to pick the right varieties and also important to place the rocks so that the entire effect is harmonious. May we help you in your selection?

Hardy Phlox

The Phloxes are among the most important of the hardy perennials. They bloom in Midsummer, in dry and wet seasons, under the most difficult conditions. They require very little attention and can be counted upon to bloom profusely. 2 to 3 feet.

Phlox Elizabeth Campbell. A clear pink. 40 cts. each.

Phlox Miss Lingard. White, with pink eye. 35 cts. each.

Phlox Pearl. Pure white. 25 cts. each.

Phlox Antoine Buchner. White, suffused with pink. 25 cts. each.

Phlox Rijnstroom. Magenta. 25 cts. each.

Phlox Thor. Deep pink. 30 cts. each.

★ **Phlox divaricata.** Semi-dwarf Phlox growing to 12 inches. Lavender-blue. Blooms in profusion during May and June.

★ **Phlox subulata.** *Moss or Mountain Phlox.* A creeping variety, blooming in April and May. The foliage, evergreen and mosslike in texture, is completely hidden by flowers during the blooming season. Excellent for rockeries or as a ground cover.

PENTSTEMON

Pentstemon. *Beard Tongue.* 2 feet. Showy panicles of pink-lilac flowers on erect stems. June to July.

Pentstemon Torreyi hybrids. 5 feet. Tall spikes of brilliant scarlet flowers. Unique and effective in a border. July to August.

HARDY PERENNIALS—Continued

PHYSOSTEGIA

Physostegia. *False Dragon.* 3 feet. Tall spikes in pink and white, blooming July to September.

PLATYCODON

Platycodon. *Balloon Flower.* 2 feet. Large, open, bell-shaped flowers of white and violet-blue, blooming continuously from July to September.

PLUMBAGO

Plumbago *Larpenæ.* *Leadwort.* 8 inches. Of low spreading habit, with violet-blue flowers in August and September. Good in the shade. 50 cts. each.

PRIMULA

★**Primula vulgaris.** *English Primrose.* 6 to 9 inches. Fragrant bright yellow flowers in April and May.

PYRETHRUM

Pyrethrum. *Painted Daisy.* 2½ feet. Daisy-like blooms shading from white through pink to deep red. May to June.

The Rudbeckias

Rudbeckia laciniata. *Golden Glow.* 5 to 6 feet. Large, golden double flowers borne on graceful stems. July to September.

Rudbeckia Newmannii. 2 feet. Resembles the Black Eyed Susan with large orange flowers and black eyes. June to September.

Rudbeckia purpurea. *Coneflower.* 2 to 3 feet. Large, Daisy-shaped, purplish-pink flowers during July and August. The flowers last for a very long period.

SALVIA

Salvia azurea grandiflora. 3 to 4 feet. Attractive azure blue flowers on tall spikes. August to September.

SANTOLINA

★**Santolina.** 15 inches. Dwarf, gray foliage, lavender flowers, very aromatic. Midsummer.

SAPONARIA

★**Saponaria ocymoides.** *Rock Soapwort.* Creeping rock plant, with dark, shiny leaves, bright crimson flowers. May to July.

SCABIOSA

Scabiosa. *Cushion Flower.* 2 to 3 feet. Very rare blue and white double flowers, blooming June to August. 40 cts. each.

The Sedums for Rockeries

★**Sedum album.** *White Stonecrop.* 3 inches. White flowers during July and August.

★**Sedum acre.** 2 to 3 inches. Yellow flowers in June and July.

★**Sedum spectabilis.** 1 to 1½ feet. Cactus-like foliage, with flat clusters of light pink flowers. August to October.

SEMPERVIVUM

★**Sempervivum.** *Hen and Chickens.* Fleecy evergreen foliage in form of a rosette. Spreads rapidly by means of small plants which are offshoots from the parent plant.

SPIRÆA

Spiræa astilbe. *Meadow Sweet.* 2 feet. One of the most attractive of all perennials due to the beauty of its plume-like, feathery-pink blooms. Does well in wet locations. June to July. 50 cts. each.

STOKESIA

Stokesia. *Cornflower Aster.* 1½ feet. Large blue and white flowers from June to October.

TRITOMA

Tritoma. *Red-hot Poker.* 2 to 3 feet. Grass-like foliage and stiff stems of orange-red flowers from August to October. 35 cts. each.

TUNICA

★**Tunica saxifraga.** 6 inches. Feathery attractive rock plant. Covered with tiny pink flowers from July to September.

A border of old-fashioned flowers contains numberless delights all season for the flower lover

A perennial garden which is extremely suitable for a suburban property. Not much space is required to insure a quantity of bloom from the ever-popular, old-fashioned garden favorites

VALERIANA

Valeriana officinalis. *Hardy Garden Heliotrope.* 3 feet. Heliotrope-scented flowers in dense clusters. Pink and white. June to July.

The Veronicas

Veronica amethystina. 2½ feet. The showiest of all the Veronicas. Long spikes of amethyst-blue flowers in July and August.

Veronica longifolia. 2 feet. Long, narrow foliage and flower spikes of violet. August to October.

Veronica spicata. 2 to 3 feet. Masses of blue-violet flowers on slender spikes about 6 inches long. August to September.

VINCA

★ **Vinca minor.** *Periwinkle.* Evergreen trailer with attractive blue flowers. Excellent as a ground cover in shady places. 15 cts. each. \$10.00 per 100.

VIOLA

★ **Viola.** *Bedding Pansy.* 4 to 6 inches. Excellent for bordering perennial beds and in a rock garden. Very similar to the Pansy, but very hardy. Blue, white and yellow flowers in Spring and early Summer.

YUCCA

Yucca filamentosa. *Adam's Needle.* 4 to 6 feet. A very reliable plant. Flourishes in any climate or soil. Panicles of creamy-white flowers borne on long stems in June and July. 50 cts. each.

ROSES

Every country residence must have a Rose garden. Some may have room for only one or two plants, others can readily accommodate one hundred.

Everyone knows the Rose, but there is a great difference in Rose plants. Those illustrated below are strong, field grown plants which have never been under glass.

Do not hesitate to plant our Roses from early Spring until late Fall because when the Spring season progresses into Summer our plants, which are in pots, can be transplanted without disturbing the roots. We have planted many a Rose garden in late Summer as well as Spring and Fall with equally good results.

HYBRID TEA ROSES. These are the varieties which bloom from June until frost. They supply the widest range of color and are absolutely dependable in this climate.

Bush Roses

Hybrid Teas, Pernetiana, and Hybrid Perpetuals, \$1.00 each.

HYBRID TEAS

Betty. Copper-rose overspread with golden yellow. Blooms from June until frost.

Columbia. One of the most popular of the recent introductions. Large flowers of intense pink. A very vigorous grower.

Plant a few of these Rose bushes now. You will have cut flowers until frost

Jonkheer J. L. Mock. A great favorite among the Hybrid Teas

Duchess of Wellington. The best yellow of this class ever introduced. Large, full, well formed flowers of an intense saffron yellow.

Etoile de France. Soft velvety-crimson, very large flower. Strong grower.

Florence Pemberton. Creamy white, suffused with light pink. Excellent in Autumn.

Francis Scott Key. Blazing red. One of the very best. Blooms until frost.

General MacArthur. Velvety scarlet. Strong growing, branching in habit. Produces large, full blooms.

H. V. Machin. Scarlet blooms, borne on rigid flower stalks. Flower of great size.

Jonkheer J. L. Mock. Very large, bright cherry-red flowers. Petals silvery white on inside.

Lady Alice Stanley. Pale flesh colored on the inside, deep coral rose on outside. Bears profusely all season.

Lady Ashtown. Pale carmine-pink. Large, globular, well formed flowers. Blooms until frost.

Lady Ursula. Shell-pink. A very pretty Rose with delightful fragrance. Does well in a dry location.

La France. One of the best bright pink Roses. Large, globular flowers. Very vigorous grower.

Laurent Carle. Brilliant velvety carmine.

Los Angeles. A luminous flaming pink. Long-pointed buds opening into enormous flowers. An excellent variety.

Madame C. Testout. Satiny rose petals, darker at the center and carmine-pink on the edges.

Madame Meha Sabatier. Very brilliant, deep crimson. Large, full, globular flowers. An extremely attractive, deep red Rose.

Madame Jules Bouche. White, with center of primrose. Vigorous grower. Develops into well-shaped bush.

Mrs. Aaron Ward. Indian yellow. Buds are long and shapely, cup-formed flowers.

Ophelia. The best Rose of its color. Salmon-pink shaded to yellow at base of petals. Blooms profusely all season.

Pharisaer. Rosy-white, shading to silvery salmon at center. Flowers large, full, elongated in shape. Free bloomer.

Premier. One of the finest of the recent introductions. Stiff stems support large perfectly shaped dark pink flowers of fine form.

Red Radiance. Enormous, deep red flowers carried on long, heavy canes. Blooms the whole season until frost.

HYBRID PERPETUAL

Frau Karl Druschki. Very large, white Rose. Blooms abundantly in June and usually produces many flowers in Autumn.

George Ahrends. Very strong grower. Well-shaped, delicate pink blooms.

Standard or tree-shaped Roses are very effective in the Rose or perennial garden. We carry in stock a number of varieties which sell for \$3.00 each.

Ophelia. The most delicately beautiful salmon-pink among the Hybrid Teas. Both the buds and the full blown Rose are exquisite in form

PERNETIANA

Mme. Edouard Herriot. Coral-red buds opening to semi-double flowers of coral-red shaded with yellow and bright rosy scarlet. An extraordinary Rose, having won in England the \$10,000 "Daily Mail" prize.

Premier. One of the finest Roses which has recently been introduced. Perfect buds are borne on strong stems. When cut, Premier will outlast almost any other Hybrid Tea Rose

Lady Ursula. Another Rose of great merit which thrives well in dry locations

Hardy Climbing Roses

The climbers are not only valuable for the beautiful effect they make when in bloom upon trellises, over hedges and fences, but also because of their attractive foliage which makes an excellent background for the perennial or annual border.

By a careful selection of the varieties listed below you can have climbers in bloom from mid-May until well into July.

Climbing Roses, except where noted, 75c. each, \$8.00 per doz.

Climbing American Beauty. Large, fragrant carmine flower. Vigorous grower, blooming early. Foliage shiny beech green.

Paul's Scarlet Climber. A new Rose which surpasses in brilliance any other climbing Rose. A vivid scarlet shaded with crimson. Does not fade or burn until petals fall. Flowers are produced in the greatest profusion. \$1.00 each, \$10.00 per doz.

Dorothy Perkins. One of the very best climbers. Large clusters of soft blush pink, double flowers. Very hardy, vigorous grower.

Different Ramblers bloom from May well into July. The one illustrated is *Excelsa*.

The Ramblers on the arch, and the Baby Ramblers at the base of the sundial, provide wonderful color to this charming perennial garden

Dr. W. Van Fleet. Large, single flowers measuring 4 inches in diameter. The bud is very long and deep pink in color. Outside petals of the open Rose are a faint pink deepening toward the center to shell pink. Large, glossy foliage, attractive all season.

Excelsa. Brilliant crimson flower. Superior to Crimson Rambler. Flowers borne in large clusters on deep glossy foliage.

Lady Gay. Cherry-pink, spray-like clusters of flowers. Grows quickly and blooms freely.

Silver Moon. Produced by Dr. Van Fleet. Buds long, well shaped, creamy yellow. Rose when open, measures 5 inches across. A pure wax white. Vigorous grower.

Tausendschoen, "Thousand Beauties." Flowers in bud are cherry-pink, gradually changing in color to rosy carmine and then white. Very profuse bloomer.

White Dorothy Perkins. Similar to Dorothy Perkins, only a pure white in color.

Yellow Rambler. Semi-double, yellow flowers, foliage glossy green.

Vines

Climbing vines are essential to every house planting. They mature quickly and soften the outlines of the buildings. They also provide protection from the sun when growing over porches and trellises. Often they are of value on terraces to prevent the washing away of the soil and at other times they are very useful for hiding ugly stones or other unsightly objects. The vines listed below grow quickly and require little attention.

BOSTON, OR JAPANESE IVY

Ampelopsis Veitchii.

The best known Ivy for covering the walls of a building. 2-year-old plants, 75 cts., 10 for \$6.00.

WOODBINE

Virginia Creeper, or Woodbine. *Ampelopsis quinquefolia.* A quick grower with decorative leaves turning a gorgeous crimson in the Fall. 50 cts. each, 10 for \$4.00.

IVY

English Ivy. *Hedera helix.* Evergreen vine with thick, glossy green foliage. Fond of the shade and grows in almost any soil. 50 cts. each.

TRUMPET VINE

Trumpet Vine. *Bignonia radicans.* Striking scarlet flower in bloom from July to September. Somewhat resembles Wisteria in habit of growth. Each 75 cts., 10 for \$6.00.

CLEMATIS

Clematis paniculata. In August this splendid vine is covered with a mist of star-like white flowers, grows quickly and luxuriantly. Each 75 cts., 10 for \$6.00.

Clematis Hybrids. Large flowering, single varieties.

Henryi. Large white.

Jackmanii. Royal purple.

Madame Andre. Wine-red.

\$1.50 each, 10 for \$14.00.

DUTCHMAN'S PIPE VINE

Aristolochia macrophylla. Strong growing vine with large heart-shaped leaves and peculiar pipe-shaped flowers. Good for shady places. \$1.00 each.

EUONYMUS

Euonymus radicans. An evergreen climber which deserves to be better known. The small, glossy leaves are very charming against a brick wall or stone foundation. 75 cts. each, 10 for \$6.50.

Euonymus radicans variegata. Similar to the above, with creamy white markings on the leaf. \$1.00 each, 10 for \$9.00.

Wisteria is the most decorative of all the climbing plants. The flowers are both fragrant and beautiful

Euonymus radicans. An evergreen climber of great worth. The deep green of the foliage is most attractive against either stucco or brick

VINES—Continued

HONEYSUCKLE

Hall's Japanese Honeysuckle. *Lonicera japonica Halliana.* Best Honeysuckle. Fast grower. Very fragrant. 75 cts. each, 10 for \$6.00.

MATRIMONY VINE

Matrimony Vine. *Lycium halimifolium.* Flowers not conspicuous. Noteworthy for great quantities of brilliant crimson berries in Autumn. \$1.00 each, 10 for \$9.00.

POLYGONUM

Polygonum. Desirable hardy climber, with snow-white blooms, somewhat resembling Clematis. \$1.00 each, 10 for \$9.00.

WISTERIA

Wisteria. Most decorative of all climbers. Pea-shaped flowers in dense pendant clusters. Excellent for pergolas. Blue and white. 2-year-old plants, 75 cts. each; 3-year-old, \$1.00 each.

SIX HARDY LILIES

which should have a place in your garden.

Lilium auratum. The Gold Banded Lily of Japan; large, fragrant white flowers, spotted crimson, with a yellow band extending the whole length of segment. July, August. 3 ft. 50c. each, \$4.50 for 10.

Lilium canadense. Bright yellow, red spotted flowers. July. 30c. each, \$2.50 for 10.

Lilium candidum (Madonna Lily) Pure white flowers on strong, stiff stems. July, August. 50c. each, \$4.50 for 10.

Lilium speciosum rubrum. Deep red, fragrant flowers with green stripe at base and red anthers. 2 ft. August, September. 50c. each, \$4.50 for 10.

Lilium superbum. Orange, reddish flowers shaded yellow and spotted with purplish brown at base. June, July. 25c. each, \$2.20 for 10.

Lilium tigrinum. The well known Tiger Lily, brilliant orange flowers spotted in black. 3 to 5 ft. 30c. each, \$2.20 for 10.

Clematis paniculata. A cloud of fragrant white blooms in August

Boston Ivy is the best coverer for brick, stone and stone houses. It grows quickly and densely, is a pleasing shade of green in Summer and a glorious shade of bronze in Fall

Hall's Honeysuckle. Very quick growing vine producing quantities of fragrant flowers

HEDGE PLANTS

California Privet

For formal effects, Privet is the best. It can be clipped to any shape, grows rapidly and is very hardy.

1½ to 2 feet high (requiring 150 plants to 100 feet of hedge).....\$6.00 per 100 plants

2½ to 3 feet high (requiring 125 plants to 100 feet of hedge).....\$10.00 per 100 plants

Sizes designate height of Privet when dug in nursery. It should be cut back to 12 inches when planting the hedge.

Our charge for planting Privet is \$7.50 per 100 feet when soil and digging conditions are normal. This price includes digging the trench, placing the plants, filling in and the initial trimming of the hedge.

SPECIMEN PRIVET BALLS

1 foot diameter...\$2.00 2 feet diameter...\$3.50
3 feet diameter..... 5.00

Barberry

Barberry is also a most excellent hedge plant, especially when informal or natural effects are to be obtained. One of the most attractive features of Barberry is that it carries quantities of red berries during the Winter, adding a most attractive feature to the landscape.

12-18 inches high (requiring 100 plants to 100 feet) \$20.00 per 100 plants

18-24 inches high (requiring 75 plants to 100 feet) \$35.00 per 100 plants.

Our charge for planting Barberry is \$10.00 per 100 feet.

Barberry is also an excellent shrub for planting around the foundations of the house. For this purpose we carry in stock plants 2½ to 3 feet high at 75 cts. each.

A hedge of Rose of Sharon in full bloom during late Summer. These hedges if allowed to grow will reach 8-10 feet and prove an effective screen or garden background. Rose of Sharon plants, 3 feet, \$1.00

Box Barberry. The new hardy edging and dwarf hedge. Box Barberry is the nearest substitute which we have for Boxwood hedging. Its compact growth, dwarf habit, dainty foliage and extreme hardiness commends it as the ideal plant for formal effects in localities where Boxwood is not hardy.

3-year-old plants, 12 to 15 inches, 40c. each,
\$25.00 per 100.

A Privet hedge can be trimmed to any desired height or shape is very hardy and holds its foliage well into the Winter.

Barberry, charmingly graceful in the Spring and Summer. Bears red berries in the Fall which last throughout the entire Winter. The hedge illustrated has been planted three years.

Home Garden Fruits

There is room for a few fruit trees on every suburban or country place.

They combine both utility and beauty and there is no greater satisfaction than in following the growth of a small tree from when it first begins to grow till the ripened fruit is ready to be picked.

The size of all standard trees, except peaches, is 1 to 1½ inch diameter and 4 to 6 feet high. Price is \$2.00 each, \$20.00 per dozen, \$150.00 per 100.

Peach trees ⅝ to ¾ inch diameter, 4 to 6 feet high, \$1.00 each, \$10.00 per dozen, \$75.00 per 100.

There is so much more satisfaction eating Apples from your own trees

Standard Apples

SUMMER VARIETIES

Sweet Bough. Yellow.

Red Astrachan. Red, tart and juicy.

FALL VARIETIES

Fall Pippin. Yellow, large and delicious.

Gravenstein. Yellow striped with red, fine flavor.

Maiden Blush. Yellow, red cheek, good cooking Apple.

WINTER VARIETIES

Baldwin. Large, deep red, very good Winter Apple.

Rhode Island Greening. Greenish yellow, large fruit.

Delicious. Red and very juicy.

Wealthy. Deep red, very popular.

Winesap. Deep red, medium size, keeps well.

Apricots

Alexander. The best variety for this locality.

Crab Apples

Transcendent. Large yellow and red.

Cherries

Early Richmond. Sour, for preserving and cooking.

Black Tartarian. Sweet, large, dark red, fine flavor.

Gov. Wood. Sweet, large white, shaded with red.

ANCHOR POST

FENCES-GATES

Firm

Because Anchored

Permanent

Because Galvanized

Anchor-Weld Gates will not sag. All members permanently fused by electric welding.

Good Fences

THE illustrations on these pages are of Anchor Post fences which are known the world over for their permanent lasting qualities. They are good through and through, good in materials used and the way they are made, and the manner in which they are erected.

They are

Firm because anchored—

Permanent because galvanized.

Anchor weld walk gates. Dignified and handsome in appearance and of great strength

A chain link lawn fence improves the appearance of your lawn and permits your children to play in safety

Protect Property

The method of anchoring the posts in the ground is a sure way to keep the posts firm and in alignment. Galvanizing protects all parts of the fence from the elements.

An Anchor Post lawn fence is a handsome, durable enclosure for home grounds. Stray dogs, vandals and pedlars are discouraged from intruding or from short-cutting across the lawn. The children play in comfort and in safety, while out of danger from passing traffic. Flowers are not pilfered, shrubbery and lawn are not injured.
