EVERGREENS

Early fall is one of the best times to transplant evergreens. Besides our complete list for landscape work, we are offering the following for lining out in the nursery row or for bedding.

All of our fancy evergreens are grown in pots and transplanted which makes our once transplanted plants compare very favorably with the twice transplanted plants usually sold.

Each (x) indicates "one transplanting".

Rat- ing	Quan- tity	Variety	Per 100	Per 1000
CRYPTOMERIA japonica, 2 to 4 inches				
			\$ 3.50	\$25.00
JUNIPERUS hibernica x 12 to 15 inches				
			50.00	450.00
" sabina x 10 to 12 inches				
			55.00	
" horizontalis x 10 to 12 inches				
			45.00	
PICEA excelsa 3 to 6 inches				
			2.00	12.00
" " x 4 to 8 inches				
			8.00	65.00
" " xx 8 to 12 inches				
			13.00	110.00
" pungens (Large percent blue) 2 to 4 inches				
			3.50	25.00
PINUS montana mughus, xx 4 to 8 inches				
			65.00	600.00
" sylvestris 3 to 6 inches				
			2.50	15.00
PSEUDOTSUGA douglasi, 2 to 5 inches				
			3.50	25.00

			100.00	
" " warreana x 8 to 10 inches				
			50.00	
" orientalis 6 to 10 inches				
			2.50	15.00
MAHONIA aquifolium x 6 to 10 inches				
			25.00	200.00

We shall have a large quantity of the better varieties of shrubs to offer from pots for spring planting and would be pleased to quote you.

YUCCA FILAMENTOSA VARIEGATA

(Variegated Adam's Needle)

A unique addition to the plant world, now being put on the market for the first time.

Identical with the common *Yucca filamentosa* except that the evergreen foliage is broadly margined creamy white. This will be a fast seller and if you are a grower you should procure a good stock for propagation.

Propagation is increased by taking off and planting the ties.
