HOW TO ORDER BY MAIL

Your name and address.—Be sure that your name and address in full are written very plainly on every order or letter sent us.

Cash with order—The proper way is to send remittance in full to cover order. We send orders C. O. D.

Remittances should be made by post-office money order, express money order or by bank draft on San Jose. Coin should not be sent by mail. Checks on local banks may be sent which will be a great convenience to many customers. We do not accept responsibility for orders which never reach us.

Shipping.—We will use our best judgment as to the best way of sending order when specific directions are not given. If special directions in shipping are needed send them explicitly.

Non-Warranty Note—There are so many contingencies to be encountered in growing plants from seed and in setting out plants that are dependent on the weather and other conditions over which we have no control, that success in planting is not altogether dependent on the seed or plant. We will send out only seed which we believe will grow and produce the kind of plant and variety represented, but Kitazawa Bros. give no warranty, expressed or implied, as to description, quality, productiveness, or any other matter of any seeds they send out, and they will not be responsible in any way for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

Seeds Postpaid by Mail.—Deliver free all seeds under 50 pound lots, at price given in this catalogue, everywhere within the Fourth Postal Zone from San Jose, unless otherwise stated.

California Wonder—The best winter variety.	5.00	18.00
Late Pearl—This is the variety that has made California Cauliflower famous throughout the United States. Plant seed in July to harvest during January and February.....	6.50	20.00
Veitch's Autumn Giant—A large, late variety. Large leaves protect the head well. Should head December and January.....	4.50	12.00

CAULIFLOWER

It does not make a good summer crop, however, as it will not head up in hot weather. Cauliflower especially popular as a fall and winter crop.

We have repeatedly advertised in our catalog that we would not be responsible for any crop failures in Cauliflower because of the effect of the weather conditions. We have had very decided experience during past season of this condition. The growers planted seeds of Early Snowball variety in May and again during June. During Aug-

CELERY

	¼ lb.	lb.
