LEE'S SEEDS

FALL 1925

LEE'S
BLOOMSDALE
SPINACH

LEE'S SEEDS have been well and favorably known in the South for 25 years. Each year I receive numerous letters telling of the splendid results obtained from using **LEE'S SEEDS**. If you use Garden or Field Seeds in large quantities be sure to write for Special Quantity Prices.

LOTUS ENG. CO. ATCHISON, KANS.

ARTHUR G. LEE
FORT SMITH Seedsman and Florist ARKANSAS

General Information and Suggestions

The Postage Is Paid On all seeds listed in this catalog in packet, half-ounce, ounce, quarter pound, pound and two-pound quantities, I pay the postage and guarantee safe delivery by mail. The postage is paid on all collections of seeds, bulbs and plants. All plants and bulbs are postpaid except in larger quantities where a "not prepaid" price is named.

You Send the Postage When you order five pounds or more of any kind of seed in this catalog at "not prepaid" prices you pay the postage, express or freight. Quantity lots of bulbs and plants listed at "not prepaid" prices are handled in the same way. If you order seeds, plants or bulbs at the "not prepaid" prices they can be sent to you by express or freight collect and you can pay the transportation charges on delivery. If you want your order to come by parcel post the postage must be paid in advance and you must send the amount of postage with your order. If your order has some items at "postpaid" prices and others at "not prepaid" prices and they are all to come by parcel post, add postage for the "not prepaid" items only.

Cost of Sending Money In all cases where the order for seed amounts to one dollar or more, the cost of postoffice or express money order, or cost of registering the letters from the places that are not money order offices, may be deducted from the amount of the order.

Express Charges When paying express charges be sure you only pay "second

class" rates, which apply to all seeds. Don't let any express agent charge you first class rates.

Prices Subject to Change This catalog goes to press in May and June and the market on many items of garden and field seeds has not yet been established. Therefore I can only indicate the value of some items listed at this time. Orders will be filled, if at all possible, at the prices printed in this book, but all prices are subject to change without notice. If I cannot fill your order at the prices named, I will write you, and if you have sent too much money I will refund you.

About Warranty ARTHUR G. LEE gives no warranty, either express or implied, as to description, quality, productiveness or any other matter, of seeds, bulbs or plants he send out, and will not be in any way responsible for the crop. If purchaser does not accept the goods on these terms, they are at once to be returned, and any money that may have been paid for them will be refunded. Crops are dependent for success or failure on so many things besides seed that it is impossible for me to give any warranty or guarantee. This does not mean that I lack confidence in the seeds I sell, but I have no control over the seeds after they leave my house, especially as to the methods of planting, cultivating and fertilizing, all of which are important factors in the success of the crop. If I should warrant or guarantee seeds in any way, I could be held responsible for the failure of the crop, regardless of cause, and this is a responsibility I cannot and will not accept. NO RESPONSIBLE SEEDSMAN GIVES ANY WARRANTY.

LEE'S SOUTHERN GROWN STRAWBERRY PLANTS

All Plants are Grown on the Best New Land and are

Sure to Please You in Every Respect

My plants are grown at one of the largest growing stations of strawberry plants in the United States, which is located in the best berry section of the South. I have been shipping strawberry plants for years and know that you will be entirely satisfied with my plants. All plants are fresh dug. After the orders are received at my growing station the plants are dug, and nothing but fresh stock is sent out.

I start shipments October 10th. I can ship most any date from that time until May 1st. All plants are guaranteed to reach your express office in good condition if taken out at once upon arrival. By mail I also guarantee safe arrival, when received at once upon arrival and not allowed to lay in your postoffice. Don't fail to plant some Progressive, the best everbearing berry grown anywhere. You will have berries all summer and fall when you plant them.

EXCELSIOR, Per.—This is the very earliest berry grown. A free plant maker and a firm. dark red berry. Does well all over the country—north, south, east or west, and in every section is the king of all early varieties. 25 for 75c. 50 for \$1.00. 100 for \$1.50. Not prepaid:—By express, 250 for \$1.50. 500 for \$2.75. 1,000 for \$5.00.

ST. LOUIS, Per.—The very largest early berry grown. I have grown them so large 12 berries filled a quart box, so you can know by that they are large. The plant is very large, roots well and deep set and the berry is one of the most productive berries grown today. Season about a week later than Excelsior. 25 for \$1.00. 50 for \$1.75. 100 for \$2.00. Not prepaid:—By express, 250 for \$2.00. 500 for \$3.50. 1,000 for \$6.00.

LADY CORNELLIE, Per.—This is a new variety; ripens with the Klondike; is of good size and the shape is the best; very productive and a firm berry. I advise them for long-distance shipments. 25 for 75c. 50 for \$1.00. 100 for \$1.50. Not prepaid:—By express, 250 for \$1.50. 500 for \$2.75. 1,000 for \$5.00.

MISSIONARY, Per.—This berry does fine in Florida and Mississippi and the eastern states. I have a good stock of them; season with Klondike, which is considered mid-season. 25 for 75c. 50 for \$1.00. 100 for \$1.50. Not prepaid:—By express, 250 for \$1.50. 500 for \$2.75. 1,000 for \$5.00.

KLONDIKE, Per.—The old standard variety; one set more than any other variety except Imp. Klondike and Aroma. These three are set more for fruit for carlot shipments than any other grown today. Berry firm, a good plant maker and commands the highest market prices. 25 for 75c. 50 for \$1.00. 100 for \$1.50. Not prepaid:—By express, 250 for \$1.50. 500 for \$2.75. 1,000 for \$5.00.

IMP. KLONDIKE, Per.—I find this berry a better berry than Klondike. The plant is larger, berries larger and seem to be more productive than old Klondike. It is almost impossible to tell one from the other with above exceptions. 25 for 85c. 50 for \$1.25. 100 for \$1.75. Not prepaid:—By express, 250 for \$1.75. 500 for \$3.00. 1,000 for \$5.50.

DUNLAP, Per.—This berry is grown all over the North

and Northwest with great success. I have big demand for them. 25 for 75c. 50 for \$1.00. 100 for \$1.50. Not prepaid:—By express, 250 for \$1.50. 500 for \$2.75. 1,000 for \$5.00.

AROMA, Per.—The most planted berry of any mid-season to late variety grown today. I have them by the millions and can furnish any size order wanted. 25 for 85c. 50 for \$1.25. 100 for \$1.75. Not prepaid:—By express, 250 for \$1.75. 500 for \$3.00. 1,000 for \$5.50.

GRANDY, Per.—Only one variety I have grown is later than Grandy, and it is the Evening Star. I consider Grandy a good late berry. 25 for 85c. 50 for \$1.25. 100 for \$1.75. Not prepaid:—By express, 250 for \$1.75. 500 for \$3.00. 1,000 for \$5.50.

PROGRESSIVE, Per.—The very best everbearing berry grown; none better; a good plant maker average season, bears all summer up to frost, and in all I consider them the best berry grown for a fall bearing sort. 25 for \$1.00. 50 for \$1.75. 100 for \$3.00. Not prepaid:—By express, 250 for \$3.00. 500 for \$5.50. 1,000 for \$11.00.

LEE'S FALL GARDEN COLLECTION

50 CENTS, POSTPAID

THIRTEEN FULL SIZE PACKETS---ALL STANDARD VARIETIES

Plant a Fall Garden--It Will Save You Money

Why not plant a garden in the fall as well as in the spring? Many Southern homes are neglecting the opportunity of having a fine fall garden of delicious vegetables because they do not realize that a fall garden is profitable. Of course, you can't grow as many things in the fall as you do in the spring, but you would be surprised at how many vegetables can be produced in the fall. The Market Gardener finds fall garden profitable and so would you if it is given the same care and attention as the spring garden. Plant a good fall garden and convince yourself.

Lee's Dependable Vegetable Seeds

LEE'S BUSH BEANS

Burpee's Stringless Green Pod Beans

Lee's Extra Early Red Valentine (No. 14)

My Extra Early strain of this famous old reliable green podded bush beans is ready for the table in 32 to 35 days. Pods are tender and of superior flavor and make an ideal snap short bean, one that always sells well in the market. This variety is used extensively by truck growers, as it stands shipping well. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 15 Lbs. (Pk.), \$3.00. 60 Lbs. (Bu.), \$10.80.

Extra Early Black Valentine (No. 15)

This variety is used extensively by market gardeners, both for nearby markets and long distance shipping. It would be difficult to find a variety that would equal this one in handsome appearance and for this reason it is largely grown for market. This variety is also valuable because of its blight resisting qualities and will withstand late frosts that kill other varieties. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 15 Lbs. (Pk.), \$3.00. 60 Lbs. (Bu.), \$10.80.

Tennessee Green Pod (No. 7)

This bean is considered the earliest and largest podded dwarf sort. It is very popular in some sections of the South. The plants are large, somewhat spreading, and prolific. The pods are very long, flat, irregular in shape, dark green and of exceptionally fine flavor. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 15 Lbs. (Pk.), \$3.50. 60 Lbs. (Bu.), \$13.20.

Sure Crop Stringless Wax (No. 20)

This variety is very thrifty and hardy, will resist blight and stands a remarkable amount of dry weather. It is early, perfectly stringless, yellow podded bean, and a sure cropper. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 15 Lbs. (Pk.), \$3.25. 60 Lbs. (Bu.), \$12.00.

Lima or Butter Beans

Henderson Bush Lima (No. 23)

A dwarf form of the small White Lima, valuable on that account, and because of its extreme earliness, hardness and productiveness. The pods, which are about 3 inches long, are medium dark green and flat. They contain two to four beans, which are of excellent quality either green-shelled or dry. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 15 Lbs. (Pk.), \$3.90. 60 Lbs. (Bu.), \$14.40.

Jackson Wonder Bush Lima (No. 25)

This variety is generally known as "calico" or "speckled" butter bean. The seed is sort of a brownish color. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 15 Lbs. (Pk.), \$3.90. 60 Lbs. (Bu.), \$14.40.

Small White Pole Lima (No. 26)

This very early and reliable small seeded pole lima is especially adapted for planting in the South. The pod usually contains four beans, which are of excellent quality either green-shelled or dry. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 15 Lbs. (Pk.), \$3.90. 60 Lbs. (Bu.) \$14.40.

Culture: Continuous crops may be grown through the entire summer, as bush beans are sown from March to September. Rows may be made 2 feet apart, and the beans planted a few inches apart in the drills, covering 2 inches. One pound will plant 75 feet of row; about 90 pounds (1½ bushels) per acre.

Burpee's Stringless Green Pod (No. 12) This variety has become very popular because of its hardness and productiveness. It is the only absolutely stringless green, round podded bean which is stringless in all stages of growth. It ripens earlier than the Valentine and remains tender and crisp a long time after maturing. It surpasses all other bush beans in crisp, tender qualities and flavor. The plants have a spreading habit of growth, and produce large quantities of pods which are very uniform both in size and shape. Pods are pale green, long and straight, round and meaty. Through the South this variety has been proven to be without an equal. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 15 Lbs. (Pk.), \$3.85. 60 Lbs. (Bu.), \$14.40.

Mammoth Stringless Green Pod (No. 13) An absolutely stringless Giant Podded Bush Bean, which matures a few days later than Burpee's Stringless Green Pod. The pods are round, and dark green in color, measuring between 6 and 7 inches in length. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 15 Lbs. (Pk.), \$3.85. 60 Lbs. (Bu.), \$14.40.

Rust Proof Golden Wax (No. 21)

This is one of the earliest dwarf sorts and is remarkably free from spot or rust. The pods are of medium length, about 5 inches, nearly straight, broad, flat and of a golden yellow color. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 15 Lbs. (Pk.), \$3.25. 60 Lbs. (Bu.), \$12.00.

Pencil Pod Black Wax (No. 22)

A medium early variety which is very productive. The beautiful yellow, straight pods are well rounded, meaty and deeply saddle-backed. They are always solid, brittle and entirely stringless. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 15 Lbs. (Pk.), \$3.25. 60 Lbs. (Bu.), \$12.00.

Climbing or Pole Beans

Kentucky Wonder (No. 28) This variety, without question, is the most widely planted of all the pole beans. It is an early, very prolific sort. The pods are medium light green, very long, often reaching 9 to 10 inches, curved and twisted, nearly round, and very crisp when young. The pods are meaty, tender and practically stringless and of the highest quality. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 15 Lbs. (Pk.), \$3.25. 60 Lbs. (Bu.), \$12.00.

McCaslin Pole Bean

(No. 29) A bean of great merit that bids fair to equal the Kentucky Wonder in popularity. It has, aside from being an excellent green snap bean, the advantage of being a high quality dry bean for winter use. It produces large, quick growing vines which soon cover the poles, bearing a very heavy crop of handsome green pods. These pods are about 8 inches in length, well filled, meaty, stringless, and of delicious flavor. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 15 Lbs. (Pk.), \$3.00. 60 Lbs. (Bu.), \$10.80.

Kentucky Wonder Wax Pole Bean

(No. 32) A fine variety, just like the old Kentucky Wonder, only that it is a wax or yellow podded bean. The pods are very fleshy and stringless as snaps and are of excellent quality. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 15 Lbs. (Pk.), \$3.25. 60 Lbs. (Bu.), \$12.00.

Kentucky Wonder Beans

LEE'S BEET SEED

Culture: For table use sow in drills 18 inches apart, and thin to stand 3 or 4 inches apart in the row. Young beets are used extensively for "greens" and are superior to both spinach and turnips. Cover the seed about one inch in sandy soils and not over one-half inch in stiff or clay soils. One ounce of seed will sow 50 feet of row; 6 to 8 pounds per acre.

Lee's Improved Early Blood Turnip Beet (No. 35)

An extra selected stock which is superior in every way to the Early Blood Turnip. The roots are dark red and nearly round or slightly flattened. The flesh is deep red, zoned with lighter shades, crisp and tender. A fine, even form, very uniform in growth, and medium early, productive, sweet and free from stringiness. This is an excellent market and home garden sort for summer and autumn use. **Packet 10c. Oz., 15c. ¼ Lb., 40c. Lb., \$1.00.**

Detroit Dark Red (No. 36)

The best deep red turnip beet, not only for the market gardeners, but for home use. Its small top, early maturing, and the splendid shape and color of the root makes it popular with everyone who plants it. Tops small, upright-growing, so that the rows may be close together; leaf, stem and vines dark red; blade green; root globular and very smooth; color of skin dark red blood; flesh deep vermilion red, zoned with a darker shade; very crisp, tender and sweet. **Packet, 10c. Oz., 15c. ¼ Lb., 40c. Lb., \$1.00.**

Crimson Globe (No. 37)

This Beet is remarkable for its smooth skin and good shape. It does not grow large and coarse, and is a second early variety. The matured beets are medium in size and Globe shape. The flesh and skin are both very dark and quality fine, being sweet and tender. The tops are small and dark in color. This is a variety of exceptional quality. **Packet, 5c. Oz., 15c. ¼ Lb., 35c. Lb., 90c.**

Crosby's Egyptian (No. 38)

On account of its earliness and being especially desirable for bunching, this beet is very popular with the market grower, considered by some the best in its class. Almost globe shaped, very smooth, sweet and tender, and of excellent quality. The flesh is bright vermilion red, zoned with a lighter shade. This variety is excellent for home garden use. I offer French grown seed of the very best quality. **Packet, 10c. Oz., 15c. ¼ Lb., 40c. Lb., \$1.00.**

Early Eclipse (No. 39)

This variety is especially desirable for home garden and for bunching. It is noted for earliness, good shape, quality, and small tops. The roots are bright deep red, zoned with pinkish white. They are very sweet, crisp and tender; maturing in about 50 days. For home gardens it is one of the best. **Packet, 10c. Oz., 15c. ¼ Lb., 40c. Lb., \$1.00.**

Long Smooth Blood Beet (No. 40)

A standard long late variety of good quality which keeps

Crosby's
Egyptian
Beet

well through the winter. The beets grow about eight inches long and, being well down into the ground, they withstand drought and heat. They are smooth and slender, having very few side roots. The flesh is tender and sweet and is excellent for making pickles. They mature after the round varieties have gone, and for this reason a few should be planted in every garden. **Packet, 5c. Oz., 15c. ¼ Lb., 35c. Lb., 90c.**

Swiss Chard or Sea Kale (No. 41)

This desirable vegetable is increasing in popularity each year. It is grown for its leaves only, which are of excellent quality. The stalks are delicious when crisp and tender, which are cooked like spinach or turnip greens. It is not necessary to separate the leaf portion unless desired, as the entire leaf can be cooked as greens. As the outer leaves are cut, more come from the center. It is well worthy of a place in the home garden. **Packet, 10c. Oz., 15c. ¼ Lb., 45c. Lb., \$1.25.**

LEE'S CARROT SEED

Danver's
Half-Long
Carrots

Culture: Carrots do the best in sandy loam made rich by manuring the previous year, but any good land, if thoroughly and deeply worked, will produce a satisfactory crop. It is a good idea to make several sowings, about two weeks apart. Sow in shallow drills 16 to 18 inches apart, and when the plants are well started thin out to four inches apart in the row. One ounce sows 100 feet of drill.

Danver's Half-Long (No. 68)

I sell more of this variety than any of the others listed. This is because it is well adapted to all soils and sections and an excellent carrot. It is a second early variety which is very popular with the market gardeners and in the home garden. The tops are of medium size, the mature roots being about six inches in length. The flesh is a rich orange, sweet, crisp and tender. This is a most excellent variety for the home garden. **Packet, 5c. Oz., 10c. ¼ Lb., 30c. Lb., \$1.00.**

Chantenay (No. 69) A good, medium early half-long variety which is unequalled in quality and productiveness. It is a beautiful, rich, orange color and the flesh is fine grained and tender. The mature roots are thick, five to six inches in length, smooth and slightly tapered. A fine variety for the home garden. **Packet, 5c. Oz., 10c. ¼ Lb., 30c. Lb., \$1.00.**

Oxheart or Guerande (No. 70) A good variety which is especially adapted to stiff and hard soils where the longer growing varieties do not grow well. It is between the half-long and scarlet horn varieties, being about four inches at the top and tapering to two inches at the bottom. Length from five to six inches. Roots are very free from hard core and of the finest quality for table use. The flesh is bright orange, fine grained and sweet. Where the long varieties often have to be dug, this variety, being short, pulls easily from the ground. **Packet, 5c. Oz., 10c. ¼ Lb., 30c. Lb., \$1.00.**

Improved Long Orange (No. 71)

This old, well-known variety is a heavy cropper and a good keeper. The roots are of large size, smooth, fine grained, and a very deep orange color. On account of being a heavy yielder, and large, it is used for both table and stock feeding. It is medium to late maturing. **Packet, 5c. Oz., 10c. ¼ Lb., 30c. Lb., \$1.00.**

WRITE FOR SPECIAL PRICES ON SEEDS IN QUANTITY LOTS

If you are in the market for garden or field seeds in quantity lots, make out a list of what you will want, and mail it in. I will make you prices that will save you money.

WHAT MY CUSTOMERS SAY

I just want to tell you how pleased we were with your seeds and plants. They are the best and most for the money we have ever got from anywhere. Our order came so quickly, too. Sincerely,—Mrs. H. A. Cain, Arkansas, February 17, 1925.

LEE'S DEPENDABLE CABBAGE SEED

Lee's Selected Late Flat Dutch Cabbage

plant can be depended upon to produce a fine large head. It makes a slow growth, but is a sure heading sort. The quality is fine and the flavor excellent, the heads being white when cut and inside leaves crisp and tender. It is a most reliable winter keeper. Packet, 10c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 75c. Lb., \$2.50.

Early Dwarf Flat Dutch (No. 63)

One of the best known second Early varieties. The plants are short stemmed, compact and upright with comparatively few outer leaves. The heads are flat, very large for the size of the plant, and a good keeper. They mature in about 110 days; are crisp, tender and of excellent flavor. This is a very desirable variety for the market gardener and for the home garden. It is a reliable cropper and a dependable header. Packet, 10c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 75c. Lb., \$2.50.

All Seasons (No. 64) A good variety for summer or fall use. The heads are nearly round and somewhat flattened, very solid and of excellent quality. It is remarkable for its ability to stand the hot sun and dry weather, remaining an exceptionally long time in condition for use. Packet, 5c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 75c. Lb., \$2.50.

Lee's Copenhagen Market (No. 54)

This is the earliest round headed cabbage yet produced. It has the two desirable qualities of being both early and large, maturing the same time as the Early Jersey Wakefield. It produces fine, large, globe shaped heads with well developed outside leaves. It is short-stemmed, the heads being produced almost on the ground, and matures all at practically the same time. Packet, 10c. ½ Oz., 20c. Oz., 30c. ¼ Lb., 90c. Lb., \$3.00.

Lee's Genuine All Head Early (No. 58)

This variety, as the name implies, is all head and few outer leaves. It has proven itself to be adaptable to a wide range of both soil and climate; a money maker for the market gardener and favorite in the home garden. It is desirable for planting late as a fall and early winter cabbage. It is the earliest of the large cabbages, the head being a third larger

Culture: For late summer or fall sowing, the seed is generally sown in drills six to eight inches apart with about five seeds to the inch. Cover seed about ½ inch and water beds well. Transplant to open field when plants are about six inches high, and set them deep. For fall sowing one ounce of seed usually produces about 1,000 plants. From ½ to ¾ pound of seed per acre.

Lee's Selected Early Jersey Wakefield (No. 52)

This excellent variety is the earliest and surest heading of first early cabbage. For those desiring the earliest pointed cabbage for shipping and for the home garden this variety is unequalled. The plants are exceedingly hardy, not only in resisting cold but other unfavorable conditions. They are compact and erect, with few outer leaves. The heads are of medium size, very solid, uniformly pointed and of excellent quality. Packet, 10c. ½ Oz., 20c. Oz., 30c. ¼ Lb., 90c. Lb., \$2.75.

Charleston or Large Wakefield (No. 53)

This is a fine variety to follow the Early Jersey Wakefield on account of its earliness, exceeding hardness and size of head. The heads are more blunt, about twice the size, and mature about a week later than the Early Jersey Wakefield. Packet, 10c. ½ Oz., 20c. Oz., 30c. ¼ Lb., 90c. Lb., \$2.75.

Lee's Selected Late Flat Dutch (No. 59)

After years of careful selecting I now have a strain of Late Flat Dutch Cabbage that is surpassed by none. This variety is one of the best main crops of late cabbages that grows. The heads of Lee's Selected Large Flat Dutch are very large, heavy, solid, flat on top, and of bluish green color. It is the most dependable sort I know and nearly every

than Early Summer. The heads are deep, flat and uniform in shape, size and color. Packet, 10c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 75c. Lb., \$2.50.

Danish Ball Head (No. 65) Very hardy, handsome, very solid, of fine quality and is one of the very best keepers. Exceedingly hardy in resisting cold and dry weather; leaves large, thick, bluish green, covered with whitish bloom. Head medium sized, round and very solid. Packet, 10c. ½ Oz., 20c. Oz., 30c. ¼ Lb., 90c. Lb., \$3.00.

Succession (No. 61) Matures in about 110 days, but heads are ready for use long before it has fully matured. Suitable for early and late sowing, as it is one of the best for withstanding extremes of weather. The heads are round but slightly flattened. Packet, 5c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 75c. Lb., \$2.50.

Lee's Genuine Surehead (No. 62)

This variety is noted for its sureness in heading, regularity in growth, and its adaptability to soils and climates. It is a dark blue-green, hard headed, medium sized cabbage that has retained its reputation as the greatest and most profitable cabbage ever introduced. I consider this variety the best main crop sort I sell and each year my order for seed is larger, which shows the steady increase in the planting of this sort. It is a good variety to plant in the late summer; a good keeper and an excellent shipper. Packet, 10c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 75c. Lb., \$2.50.

Pe-Tsai or Chinese Cabbage (No. 66)

This is often called Celery Cabbage. It grows rapidly and matures heads in less time than other varieties and requires no transplanting. The leaves, when young, are crimped and of a light green color. The plant, as it becomes older, grows more upright and forms heads much like Cos Lettuce. The inner leaves blanch an attractive light yellow or creamy white with very white midribs. It has a distinctive flavor, very mild and pleasant. It can be served as a salad like lettuce or cooked like other cabbages. Packet, 10c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 75c. Lb., \$2.25.

LEE'S FROST PROOF CABBAGE PLANTS

There is a constant growing demand for field grown cabbage plants, known as Frost-Proof. My plants are grown from the best strains of seed, in the South where the soil and climatic conditions are just suited for growing rough, hardy, frost-proof cabbage plants. For the home garden these frost-proof plants are especially desirable for two reasons. First, because of their earliness of maturity and, second, because they do away with all the trouble of cabbage seed sowing and the necessary protection of early sown seeds and plants. Lee's Frost-Proof Cabbage Plants may be planted from November 15th to May 1st. Plants are ready for shipment any time after November 15th, provided weather conditions are agreeable.

VARIETIES: Early Jersey Wakefield, Charleston Wakefield, Succession, and Early Flat Dutch.

PRICES: By parcel post, in lots of 100, 200, 300 or 400 plants, at 50c per 100 plants; 500 plants for \$1.60; 1,000 or more at \$3.00 per 1,000 plants, postpaid.

Orders are filled by the 100, not 250 or 350. These prices are for even quantities of one variety to a package; if you ordered 200 of one variety and 300 of another variety, you would remit at the 100 rate.

PRICES: By express, customer paying express charges. In lots of 1,000 to 3,000 plants at \$2.00 per 1,000; 3,000 to 5,000 at \$1.50 per 1,000. Plants packed for express shipment, 1,000 or 2,000 plants of a variety to a package, weight about 25 pounds, per 1,000 plants, packed for shipment.

LEE'S CUCUMBER SEED

Culture: Cucumbers can be planted in June and July in this section and make good fall crops. Farther south they can be planted in August. Cover seed $\frac{1}{2}$ inch and put eight to ten seed to the hill. The hills should be 4 to 6 feet apart. After the danger from striped beetles has passed, thin to four plants to the hill. It requires one ounce to seed to sixty hills and about two pounds per acre.

Lee's Klondike White Spine (No. 86) In Lee's Klondike White Spine you have the ideal cucumber for market and for home garden. It is a medium early, white spined cucumber of handsome, very dark green color. Its uniform size and shape, together with its splendid color, makes it most desirable. The dark green color is retained much longer and is affected less by the hot sun than any other sort that I know. The mature fruits, when grown under favorable conditions, are often about eight inches in length. They are crisp and tender and retain their fresh, plump appearance long after being gathered. **Packet, 10c. Oz., 15c. $\frac{1}{4}$ Lb., 40c. Lb., \$1.25.**

Improved Long Green (No. 83) The fruit is 12 to 16 inches in length, uniformly slender and of beautiful dark green color. It is crisp, tender and of excellent quality, being free from bitterness. The vines are very vigorous and produce an abundance of fruit. When small, the fruit is used for pickling. The full-sized fruit is used extensively for making sweet pickles and for slicing. **Packet, 10c. Oz., 15c. $\frac{1}{4}$ Lb., 40c. Lb., \$1.25.**

Early Short Green Pickling (No. 88) This variety is known also as Early Frame. It is a good, standard sort of the medium sized varieties, used extensively for slicing. The flesh is crisp, tender and of excellent quality.

Davis Perfect (No. 84) One of the best shipping cucumbers on the market. Fruit is rather long, averaging 10 inches, and very dark green in color. It is almost seedless one-third of its length from the stem and the seeds are so small and tender, when it is large enough to slice, that they are unnoticed. **Packet, 10c. Oz., 15c. $\frac{1}{4}$ Lb., 40c. Lb., \$1.25.**

Lee's Klondike White Spine
Cucumber

Packet, 5c. Oz., 15c. $\frac{1}{4}$ Lb., 40c. Lb., \$1.25.

Early Green Cluster (No. 89) Largely used for a pickling cucumber as well as for slicing. It is an early and productive sort, the vines bearing the fruits in clusters of two or three. **Packet, 5c. Oz., 15c. $\frac{1}{4}$ Lb., 40c. Lb., \$1.25.**

Everbearing (No. 87) This is a very early variety. If the fruits are kept gathered, vines will continue in bearing throughout the entire season. The fruits of rich dark green color average from 4 to 5 inches in length by $1\frac{1}{2}$ inches in diameter. **Packet, 10c. Oz., 15c. $\frac{1}{4}$ Lb., 40c. Lb., \$1.25.**

LEE'S DEPENDABLE LETTUCE SEED

Prizehead (No. 93) A fine variety for the home garden, and probably the easiest grown of all lettuces. It is a large, clustering, non-heading variety; exceedingly crisp, tender and of good flavor. The leaves are finely curled and crumpled, of bright green color tinged with brownish red. **Packet, 10c. Oz., 20c. $\frac{1}{4}$ Lb., 50c. Lb., \$1.75.**

Big Boston (No. 95) This lettuce is the standard market garden and shipping variety. It is grown extensively in the South for the nearby markets and for shipping to northern markets. It will head up under cold weather conditions better than any other variety and stand shipping exceedingly well. It does well in all climates, being of very hardy and vigorous growth. The leaves are broad, comparatively smooth but wavy at the edge. It makes an extra large, round, firm head, which sells well in the market. The special strain of seed that I offer of this variety is the best that can be obtained, regardless of price. **Packet, 10c. Oz., 20c. $\frac{1}{4}$ Lb., 75c. Lb., \$2.50.**

New York Head (No. 98) A fine new lettuce of unusual merit. Since its introduction a few years ago it has become very popular, being an excellent variety for the home garden and a wonderful shipper. It does well planted in all seasons of

New York Head Lettuce

the year and in all sections of the country. It is noted for its large sized heads, they frequently weighing two to three pounds, for its compact and tight heading qualities, and for its ability to stand long distance shipping. It is very popular in the South, being a great heat resister, forming large, compact heads which resemble cabbage in their solidity. **Packet, 10c. Oz., 25c. $\frac{1}{4}$ Lb., 90c. Lb., \$3.00.**

Paris White Cos (No. 100) A Romaine or Celery Lettuce having long, narrow leaves which are crisp, tender and of delicious flavor. **Packet, 10c. Oz., 20c. $\frac{1}{4}$ Lb., 50c. Lb., \$2.00.**

Lee's Improved Hanson (No. 97) Lee's Improved Hanson Lettuce is, without exception, the best lettuce for late spring and mid-summer crop. It is especially resistant to heat and disease and particularly resistant to the ell worm, which often shows up where least expected. It is a lettuce of excellent quality, being entirely free from any bitter taste, having a sweet and rich flavor, even to the outer leaves. It forms a large, compact head, the outer leaves are bright yellowish green, somewhat crimped and frilled at the edge. A perfect lettuce for outdoor growing and one of the best varieties for the home garden. **Packet, 10c. Oz., 20c. $\frac{1}{4}$ Lb., 65c. Lb., \$2.00.**

Lee's Black-Seeded Simpson (No. 91) The finest curled or loose leaved lettuce for sowing outdoors. It is exceedingly popular throughout the entire South and is a lettuce of exceptional merit. The color is an attractive light yellowish green. The leaves are ruffled and blistered and even the outer leaves are very tender. It is very crisp, resists heat and drought, and remains a long time in good condition. It is also used for growing under glass. Where an exceedingly tender, thin-leaved, bunching lettuce for sowing outdoors is desired, this variety is unsurpassed. **Packet, 10c. Oz., 20c. $\frac{1}{4}$ Lb., 50c. Lb., \$1.75.**

Grand Rapids (No. 92) This superb lettuce is especially adapted for greenhouse culture, being the best variety of its kind for this use. It is also a good sort to sow outdoors early in the spring in the home garden, but it does not stand hot weather as does the Lee's Black-seeded Simpson. It makes a large, compact bunch of light, attractively curled and fringed leaves. It grows very rapidly and keeps in good marketable condition for a long time after cutting. **Packet, 5c. Oz., 20c. $\frac{1}{4}$ Lb., 65c. Lb., \$2.00.**

Lee's Iceberg Lettuce (No. 99) A handsome hard heading variety which is very popular for either open ground growing or for forcing under glass. The outer leaves are light green in color and their habit of growing closely up around the head hold the head tightly together, which blanches the heart a beautiful white. The heads are of large size and of excellent flavor. In the large lettuce growing sections, hundreds of carloads of Iceberg Lettuce are being shipped when no other varieties are available. **Packet, 10c. Oz., 20c. $\frac{1}{4}$ Lb., 90c. Lb., \$3.00.**

Lee's Prizetaker Onion

onion for the home garden as well as for the market. Packet, 5c. ½ Oz., 10c. Oz., 20c. ¼ Lb., 45c. Lb., \$1.50.

Lee's Large White Globe (No. 135)

This is one of the most beautiful onions grown. The skin is clear, waxy white; the flesh fine grained and mild flavored. These large globe shaped onions bring the highest price on the market. Packet, 10c. ½ Oz., 15c. Oz., 30c. ¼ Lb., 85c. Lb., \$2.75.

Lee's Large Yellow Globe (No. 136)

Large, uniform globe-shaped onions of rich yellow color, slightly tinged with orange. Flesh is creamy white, mild and of very fine quality. A good keeper. Packet, 10c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 60c. Lb., \$1.75.

LEE'S ONION SEED

Lee's Prizetaker Onion (No. 132) Lee's Prizetaker Onion seed is the best obtainable. I have supplied the largest growers in this section for years with my special strain of Prizetaker, and nowhere have I seen onions that show up any better than those grown from my seed. The seed I offer is the best American grown, which is superior to the imported seed of this variety. The Prizetaker is a light straw-colored onion of globe shape. The flesh is creamy white, with a mild and agreeable flavor. The onion grows to a large size, frequently measuring 12 to 18 inches in circumference, and fine bulbs have been raised weighing 4½ to 5 pounds each. It has a small neck, ripens up hard and will keep any reasonable length of time. It does well planted in all sections and is an exceptionally fine variety. Packet, 10c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 60c. Lb., \$2.00.

Large Red Wethersfield (No. 134) This variety is the most widely planted red onion in the South. It is an old and well known sort which has given complete satisfaction in the South for years. It is almost round in shape with skin of deep red color. The flesh is white, tinged with pink, and of excellent quality. It is a sure and heavy yielder especially adapted to dry soils. It is a good keeper and when grown for market finds ready sale. The special strain of seed that I offer of this variety is the same I have sold here with such excellent results for the past twenty years. Packet, 10c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 50c. Lb., \$1.60.

Australian Brown (No. 133) (The Long Keeper). The Australian Brown onion has been known to keep for one solid year from the time it was pulled from the ground and, except for a little shrinkage or loss of weight, was in perfect condition. It is a handsome onion, round in shape with a thick skin of a beautiful rich brown color. The flesh is always white, extremely solid, and mild in flavor. It is an extremely hardy variety, yielding an enormous crop in both weight and bulk, a desirable

Lee's Large Red Globe (No. 137)

A handsome globe-shaped onion of rich purplish crimson color. Aside from the white varieties, it brings the highest market price. It is a good keeper and of excellent quality. Packet, 10c. ½ Oz., 25c. Oz., 40c. ¼ Lb., 60c. Lb., \$1.75.

Lee's Silver Skin Onion (No. 142)

White Portugal. A splendid pickling onion with mild flavor and silvery white skin. It is extensively used for raising sets, as the little bulbs are very uniform. The onions usually mature about ten days earlier than White Globe and are fine for fall and early winter use. Onions are of good size, nearly round, being somewhat flattened. Packet, 10c. ½ Oz., 15c. Oz., 30c. ¼ Lb., 85c. Lb., \$2.75.

Lee's Three Best Onion Collection (No. 138) 25 Cents, Postpaid

So many folks want an onion collection that will give them a selection that will last them practically the whole year. Lee's Three Best Onion Collection (No. 138) fills this want. It consists of one packet each of Lee's Prizetaker, Red Wethersfield and Yellow Bermuda onion seed. Isn't this a fine selection, and just what you want? 25c. postpaid.

LEE'S BERMUDA ONION SEED

There is no vegetable crop more profitable than Bermuda Onions. This is a broad statement, but it has been proven many times. The only time it has failed is where the crop is grown with the same careless cultivation as is given cotton, melons or beans. Onions cannot be grown successfully and profitably in this manner. They require careful and thorough cultivation, and the grower willing to give them

Africa. Due to their mild, sweet flavor, the Bermuda Onions are fast replacing other varieties in the South, and every gardener should grow them either for market or home use.

Owing to the severe shortage in the Bermuda Onion Seed crop this year the price is somewhat higher than usual.

Yellow Bermuda Onion (No. 139) This is the most widely planted of the Bermuda varieties. It is the kind used mostly in Texas, where most of the big commercial crops of Bermuda Onions are grown. It is a light yellow, or straw colored, onion. The flesh is a clear, sparkling white. It is without question one of the finest varieties of onion that grows, and especially adapted to the South. It is very early and a heavy yielder. Due to its extreme mildness it is the most popular onion on the market. It finds ready sale, bringing the highest market price. If you have never grown this desirable onion be sure to try some this year. You can buy no better seed than those I offer you, at any price. Packet, 10c. ½ Oz., 25c. Oz., 40c. ¼ Lb., \$1.00. Lb., \$3.75.

Lee's Crystal Wax Bermuda (No. 141) That this is the most beautiful onion grown is an undisputed fact. It is clear, waxy, pure white, and most attractive. The flesh is white, fine grained, tender, exceedingly mild and sweet. In fact, it is identical with the Yellow Bermuda except in color. This one difference, however, is a big thing in the market, as this onion on account of its handsome appearance sells faster and brings a better price than any other variety. The eastern markets pay 25 to 50 cents a crate more for this variety and the demand is never filled. It will pay you to grow this fine onion either for market or home use. You cannot afford to take a chance with just any seeds. Send to Lee's and know you are getting dependable seeds. Packet, 10c. ½ Oz., 30c. Oz., 50c. ¼ Lb., \$1.75. Lb., \$6.00.

this will reap a handsome profit from his crop. Growers using Lee's Bermuda Onion seed have secured better prices than those that did not, and therefore made larger profits. My extra selected strain of seed produces onions of superior quality which are free from Reds, Pinks, Doubles and Splits. These important facts should not be overlooked in the purchase of seed. My seeds are grown with the utmost care in the Canary Islands, located off the coast of

Lee's Bermuda Onion

ONION SETS FOR FALL PLANTING

One of the most profitable vegetables grown in the fall garden are onions. I will have plenty of choice sets in both the Bermuda and American varieties from about September 1st to November 15th. Where a large commercial crop is to be planted I do not recommend the use of sets, as they do not produce as large and uniform onions as the seed, but where onions are grown for the early market, both for bunching green and for large onions, the sets cannot be beaten. They are ready for use in the home and for the market at just the right time, and every garden should have a good space in onions.

BERMUDA ONION SETS

These sets are grown from the best imported Teneriffe Seed for us by the most experienced and reputable growers. If you are in the market for a quantity of these sets, write me, as I am not in position to make a definite quantity price at this time.

Yellow Bermuda Sets

This is the most widely planted of the Bermuda varieties. It is the yellow, or straw colored, variety that produces the big commercial crop in Texas. In the set form they often have a rather reddish color, but on maturity they are of a light straw color. Lb., 30c. 3 Lbs., 75c. 5 Lbs., \$1.00, postpaid. Not prepaid: 8 Lbs. (Pk.), \$1.00. 32 Lbs. (Bu.), \$3.50.

Crystal White Wax Sets

A pure white Bermuda Onion that is unsurpassed for quality. The flesh is white, fine grained, tender and exceedingly mild and sweet. It is identical with the Yellow Bermuda except in color. Lb., 35c. 3 Lbs., 90c. 5 Lbs., \$1.25, postpaid. Not prepaid: 8 Lbs. (Pk.), \$1.25. 32 Lbs. (Bu.), \$4.50.

Red Onion Sets

A fine keeper, of good quality. One of the most popular of the red varieties. Pound, 25c. 3 Lbs., 60c. 5 Lbs., 85c, postpaid. Not prepaid: 8 Lbs. (Pk.), 90c. 32 Lbs. (Bu.), \$3.00.

Yellow Onion Sets

A good, medium sized, globe shaped yellow onion of good quality. Lb., 25c. 3 Lbs., 60c. 5 Lbs., 85c, postpaid. Not prepaid: 8 Lbs. (Pk.), 90c. 32 Lbs. (Bu.), \$3.00.

Silver Skin Sets

A fine white onion grown extensively in the South. Pound, 30c.

LEE'S CHOICE ONION SETS

3 Lbs., 75c. 5 Lbs., \$1.00, postpaid. Not prepaid: 8 Lbs. (Pk.), \$1.00. 32 Lbs. (Bu.), \$3.50.

White Multipliers

If you want green onions three or four weeks before any of the other varieties are ready, plant the White Multipliers. The sets are pure white and very productive, often producing 10 to 15 bulbs in one season. Lb., 35c. 3 Lbs., 90c. 5 Lbs., \$1.25, postpaid. Not prepaid: 32 Lbs. (Bu.), \$6.50. 100 Lbs., \$18.00.

Winter Top Sets

This variety does not produce a big onion. Will stand the severest weather. It is used for green onions and for salad. These sets produce a large amount of tops and is sometimes known as "Salad Onion." Lb., 30c. 3 Lbs., 75c. 5 Lbs., \$1.00, postpaid. Write for quantity prices.

LEE'S GARDEN OR ENGLISH PEAS

Culture: For a fall crop, peas should be sown from July 15th to September 15th. In planting early, peas should be sown deeper than usual and the soil worked up around the stalks. Peas planted in this way will stay in bearing about twice as long. Two pounds of peas plant 100 feet of row.

Lee's Extra Early (No. 143)

It is the earliest and most even strain of white extra early peas that grows, maturing so well together that sometimes a single picking will secure the entire crop. It grows 2½ to 3 feet in height. The vines are hardy and vigorous, bearing three to seven straight pods of good size, about 2½ inches long, each containing five to seven medium sized, smooth peas of good quality. Packet, 10c. ½ Lb., 20c. Lb., 35c. 2 Lbs., 65c. Not prepaid: 15 Lbs. (Pk.), \$3.00. 60 Lbs. (Bu.), \$10.80.

Alaska Extra Early (No. 144)

This is the best extra early variety you can plant in the home garden. It is the heaviest bearer and the best quality of all the round-seeded extra early sorts. It is a variety of strong, robust growth and large yields. Vines are from 2 to 3 feet high, of light green color, with pods of slightly lighter color. The pods are about 2½ inches in length and blunt at the apex. They have four to six peas in a pod. Buy Lee's and be satisfied. Packet, 10c. ½ Lb., 20c. Lb., 35c. 2 Lbs., 65c. Not prepaid: 15 Lbs. (Pk.), \$3.00. 60 Lbs. (Bu.), \$10.80.

Nott's Excelsior (No. 145)

The best extra early dwarf wrinkled peas. The vines grow about 12 inches. For the home garden where brush or sticks are not available, and for those who desire a nearly dwarf pea of long bearing qualities, this is probably the best sort in cultivation. It is mostly noted, however, for its delicious flavor, which is unsurpassed. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c.

Not prepaid: 14 Lbs. (Pk.), \$3.10. 56 Lbs. (Bu.), \$11.20.

Gradus, or Prosperity (No. 147)

A fine, extra early variety that is very hardy and can be planted almost as early as Alaska. It is a wrinkled pea, growing about 40 inches high; vigorous, hardy and productive. Pods are large and well filled with peas of the finest quality. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 14 Lbs. (Pk.), \$3.10. 56 Lbs. (Bu.), \$11.20.

Thomas Laxton (No. 146)

An early, wrinkled variety of great merit. The vines are vigorous, of medium height, about 3 feet, similar to those of Gradus but darker in color, hardier and more productive. The pods are large and about 4 inches long. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 14 Lbs. (Pk.), \$3.10. 56 Lbs. (Bu.), \$11.20.

Bliss Everbearing (No. 149)

The most popular second early or main crop variety for home garden or nearby markets. This excellent wrinkled variety grows about 2 to 2½ ft. high, maturing its pods in about 65 days, and is especially adapted to summer and autumn cropping. It will do well without sticks or brush, and is especially noted for its continuance of bearing. Repeated pickings may be made, for the vine continues to produce a successional crop of pods through a long season. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 14 Lbs. (Pk.), \$3.10. 56 Lbs. (Bu.), \$11.20.

Lee's Improved Telephone (No. 150)

One of the best tall-growing wrinkled varieties. It grows about 4 feet high, is vigorous and a great bearer, maturing in about 70 days. The pods are of large size, containing 8 to 10 peas each, which are bright green color and sugary flavor. Packet, 10c. ½ Lb., 20c. Lb., 40c. 2 Lbs., 70c. Not prepaid: 14 Lbs. (Pk.), \$2.75. 56 Lbs. (Bu.), \$9.00.

MUSTARD

Culture: Sow in July, August, September and later for early winter greens. Mustard should be watered freely. One ounce of seed plants 200 feet of row.

Southern Giant Curled Mustard (No. 124)

A fine large variety that is planted extensively in the South. The leaves are large, light green with a much crimped and curled edge. The plant is upright or slightly spreading in growth. It is very hardy and grows well in any good garden soil. It produces extra large leaves which are slightly pungent, crisp and tender and can be eaten like lettuce or boiled for "greens." Packet, 5c. Oz., 10c. ¼ Lb., 35c. Lb., \$1.00.

Large Smooth Leaved Mustard (No. 216)

ALSO KNOWN AS CABBAGE MUSTARD. An excellent sort, with very large, light green, plain or comparatively smooth leaves, borne well above the ground. The plant is of very quick growth, fairly upright when young, becoming somewhat spreading at maturity. This sort is preferred by many, as it is more easily prepared for the table than the rougher leaved varieties. Packet, 5c. Oz., 10c. ¼ Lb., 35c. Lb., \$1.00.

Brown or Black Mustard (No. 125) A small, smooth leaf mustard that is very pungent. The leaves are oblong, broad and cut. The seed is small and of reddish-brown color. This variety when cut early makes a good smooth-leaf, pungent salad. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.

PARSLEY CHAMPION MOSS CURLED (No. 128) A vigorous, compact growing variety, excellent for garnishing and flavoring. The leaves are very finely cut and so closely crisped or curled as to resemble bunches of moss. One of the most popular sorts for the home garden. Packet, 10c. Oz., 25c. ¼ Lb., 35c. Lb., \$1.00.

Plain Leaved Parsley (No. 130)

A variety having flat, very dark green leaves which are not curled. It is grown almost exclusively for seasoning. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.

Lee's Southern Giant Curled Mustard

BORECOLE OR KALE

Kale is more hardy than cabbage and is improved by frost. It makes fine greens and is planted in the spring and fall.

Siberian (No. 11) One of the best known and most largely used varieties of Kale. It is sometimes called Sprouts or German Greens. The bluish green leaves are very large and comparatively plain in the center, but coarsely cut and distinctly frilled on the edge. The plant is low but spreading and very hardy. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c. postpaid.

LEE'S DEPENDABLE SPINACH SEED

For years I have supplied the largest growers and shippers in the Southwest with spinach seed. My specially grown spinach seed is far superior to that obtained from a great many sources and it gives satisfaction. It has a stronger and better germination, the growth is larger, more vigorous and hardier. It is easily grown, requires little cultivation and any quantity not used at home finds ready sale on the mar-

ket. Under favorable conditions the leaves may be large enough for eating in eight weeks. It should be planted in rich soil, the richer the better. Spinach can be sown in drills 18 inches apart, or it can be sown broadcast. Can be sown in September and October for late fall and early spring use. One ounce of seed will plant 100 feet of row; 10 pounds broadcast will plant an acre.

Lee's Bloomsdale Spinach (No. 195)

This is the best known and most widely used variety by market gardeners and in the home garden. The plant is of upright growth, with thick, glossy, dark green leaves of medium size, which are more or less crumpled or blistered. It grows quickly to a suitable size for use and is slow to seed. It is the earliest, hardiest and most productive variety I know of. Excellent for either spring or fall planting. Packet, 5c. Oz., 10c. ¼ Lb., 20c. Lb., 60c. 5 Lbs., \$2.50. Not prepaid:—10 Lb. lots or over, 35c per Lb. 50 Lb. lots or over, 25c per Lb. 100 Lb. lots or over, 20c per Lb.

King of Denmark (No. 196) The plants of the variety are of rapid growth. Resemble the Long Standing in type, but leaves are more crumpled or blistered and are of darker green color. Although the plants are ready for use almost as soon as the medium early sorts they remain in good condition from a week to two weeks after all other varieties have gone to seed. The leaves are thick, stand well after cutting and are of good quality. One of the leading varieties for both the home and market gardener. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c. 5 Lbs., \$3.25. Not prepaid:—10 Lb. lots or over, 60c per Lb. 50 Lb. lots or over, 50c per Lb. 100 Lb. lots or over, 40c per Lb.

Long Standing (No. 240) This sort matures comparatively late in season, but after reaching maturity it remains in condition for use much longer than most sorts. The plants are very large and of excellent quality. The leaves are usually very broad, arrow-shaped or rounded, comparatively smooth and dark, rich green. Packet, 5c. Oz., 10c. ¼ Lb., 20c. Lb., 60c. 5 Lbs., \$2.50. Not prepaid:—10 Lb. lots or over, 35c per Lb. 50 Lb. lots or over, 25c per Lb. 100 Lb. lots or over, 20c per Lb.

New Zealand Spinach (No. 197)

A variety of spinach which grows luxuriantly all summer, even in the hottest weather. It produces an abundance of the finest flavored "greens" all summer. A few plants furnish enough for an average family. Packet, 10c. Oz., 15c. ¼ Lb., 40c. Lb., \$1.25.

Lee's Bloomsdale Spinach

LEE'S FINEST RADISH SEED

Early Scarlet Turnip, White Tipped (No. 172)

The most popular radish for forcing as well as for open ground growth. Market gardeners and shippers prefer it to all other varieties, finding it a quick selling sort at good prices, always above ordinary sorts. It is an excellent variety for the home garden. It is perfectly round, or globe shaped, deep scarlet at top, blending to pure white at the bottom. The flesh is white and of splendid quality. The top growth is very small. It is extremely quick to mature, being ready for use in 18 to 20 days from the time of sowing the seed. Remains very tender and crisp until very old. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 85c. 5 Lbs. or over, not prepaid, 65c per Lb.

Lee's Selected Scarlet Globe (No. 173)

It is an attractive sort, with skin of rich scarlet color, while the flesh is pure white and always tender, mild and sweet. It has a small, short top, and is well adapted to open ground sowing or to forcing under glass. It is crisp and brittle. Used extensively by market gardeners and shippers. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.

Crimson Giant (No. 174)

An exceptionally

Early Scarlet Turnip White Tipped Radish

large, round radish, nearly globe shaped and of an attractive crimson color. It often grows from 1½ to 1¾ inches in diameter before becoming pithy. Packet, 5c. Oz., 10c. ¼ Lb., 30c. Lb., \$1.00.

French Breakfast (No. 175) It is an early half-long radish of bright red color with white bottom, grown extensively in the South for home and market use. It is a quick grower, maturing in 18 to 20 days. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.

Long White Icicle Radish (No. 176) The earliest and finest of the long, white varieties. The Icicle is perfectly white in color; about 3 inches long and ½-inch in diameter, with small tops and few leaves. It quickly grows to market size, is crisp and brittle, and of mild, sweet flavor. It remains tender during the entire growing period. It is ready for use in about 25 days; used for forcing under glass or sown in open ground. An excellent variety for both home garden or market. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 85c. 5 Lbs. or over, not prepaid, 65c per Lb.

Lee's Early Long Scarlet (No. 177) This is the best long, red radish and is widely planted in the South both for home use and market. It is of brightest scarlet color; has rather small tops, roots long and tapering to a decided point. The beautiful radishes mature in 25 to 30 days from the sowing of the seed. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.

Chartier (No. 178) A good variety for planting outdoors for early summer use in the home garden and for market. The roots are rather long, averaging 7 to 8 inches when matured. Bright scarlet rose in color, shading into white at the tip. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.

Cincinnati Market (No. 179) This variety is sometimes called Glass or Red Icicle. A splendid sort for forcing or open ground, growing about 6 inches long. It grows straight and smooth and of handsome, bright red color. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.

White Strasburg (No. 180) An excellent all-around variety and especially desirable for summer use. It is an oblong, tapering shape with skin and flesh of pure white. It is brittle and tender, retaining its crispness even when the roots are old and large. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.

California Mammoth White (No. 182) This is the largest of all the winter radishes. They grow 10 to 12 inches long and from 2 to 3 inches in diameter. The skin and flesh are pure white, crisp and solid, decidedly pungent but well flavored. Packet, 5c. Oz., 10c. ¼ Lb., 30c. Lb., 90c.

China Rose Winter (No. 183) An excellent winter radish of deep scarlet color. The flesh is white, firm, crisp and pungent. Stump rooted, 4 to 5 inches long and 2 inches thick. Packet, 5c. Oz., 10c. ¼ Lb., 30c. Lb., 90c.

Black Spanish Winter (No. 184) Best variety of black skinned winter radish. Roots, when matured, at 7 to 9 inches by 2 to 3 inches. Packet, 5c. Oz., 10c. ¼ Lb., 30c. Lb., 90c.

Lee's Long White Icicle Radish

LEE'S SUPERIOR TOMATO SEED

Gulf State Market—The New Tomato

Culture: Tomatoes should not be planted in over-rich soil, as it will cause an over-growth of foliage and few fruits. Sow the seed in hotbeds or boxes in the house in rows four to six inches apart, covering the seed with one-half inch of soil. Transplant to open ground, setting the plants three feet apart each way, and cultivate frequently. To obtain best results the plants should be tied up to stakes and leaves thinned out as the plants grow, so the sun can penetrate and ripen the fruit quicker. One ounce of seed makes about 1,500 good plants. Plant about four ounces of seed per acre.

Gulf State Market (No. 202) It is earlier than any other good purple tomato. The fruits are almost true globe shaped and are entirely free from cracks or blemishes about the blossom end. From the fact that the fruits on the same cluster ripen uniformly, it is an economical variety to pick. On account of the exceptionally hardy vines this tomato is less susceptible to blight than other varieties, therefore produces a heavier crop than other varieties in years that the weather is unfavorable. While this tomato is a wonderful shipping variety, it is an excellent sort for the home gardener or the grower for local markets. Packet, 10c. ½ Oz., 25c. Oz., 50c. ¼ Lb., \$1.50. Lb., \$5.00.

Earliana (No. 198) This is an excellent large fruited tomato and especially valuable because of its extreme earliness. The fruits are bright deep scarlet, medium to large, nearly round and exceptionally smooth for a variety that is so early. This variety remains in bearing about four weeks. Packet, 5c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 90c. Lb., \$3.00.

Chalk's Early Jewel (No. 199) A fine second early variety, being ten days later than the Earliana. It is a large, smooth, fine flavored, deep scarlet-red, nearly round or apple shaped. Packet, 5c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 90c. Lb., \$3.00.

Livingston Globe (No. 209) A fine sort, producing an abundance of globe-shaped, purplish pink tomatoes. It is of large size, smooth, firm, and has very few seeds. The blight-proof and long-distance shipping qualities of this variety make it a very profitable and desirable sort. Packet, 10c. ½ Oz., 20c. Oz., 35c. ¼ Lb., \$1.00. Lb., \$3.50.

John Baer (No. 201) Early, good sized tomato which is very popular with market gardeners and in the home garden. The color is a deep, glossy red and in shape is similar to the Earliana. The vines are strong and vigorous, with just enough foliage to handle the immense load of fruit which is furnished for a longer period than any other early sort. Packet, 10c. ½ Oz., 20c. Oz., 35c. ¼ Lb., \$1.00. Lb., \$3.50.

The Stone (No. 205) An extra large, smooth, bright red tomato used extensively for canning and slicing. It is a first class main crop sort and a splendid variety to furnish late tomatoes. The vines are large and vigorous, producing an abundance of fruit which is exceptionally smooth and uniform in size. Packet, 5c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 90c. Lb., \$3.00.

Ponderosa (No. 210) The Ponderosa is, without a doubt, the largest fruited, meatiest and heaviest tomato in cultivation. The vines are of strong, rather open growth and for this reason they have the power to resist hot, dry weather to a remarkable degree. The fruit is largely oblong in form, deep through, generally ridged or ribbed and of attractive deep purple color. The flesh is very solid or meaty, the tomato having very small seed cells and very few seed. Packet, 10c. ½ Oz., 25c. Oz., 40c. ¼ Lb., \$1.25. Lb., \$4.50.

Norton (Wilt-Resistant) (No. 212)

A new variety that has been developed by the Department of Agriculture to resist the Tomato Wilt. Spraying does not seem to control this wilt, therefore the necessity of a wilt-

resisting tomato plant. The Norton is very similar to the Stone, being somewhat larger. It produces a heavy yield of large, smooth, solid, red fruit, which ripens medium early. Packet, 10c. ½ Oz., 30c. Oz., 50c. ¼ Lb., \$1.50. Lb., \$5.50.

Early Detroit (No. 208) The vines of this variety are better yielders and more vigorous than those of the Acme. Not only are more fruits produced, but they are more nearly globe-shaped, are heavier and are equally as firm, smooth and suitable for shipping. The fruits are of good size throughout the season, which is unusual for so early a variety. Packet, 5c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 90c. Lb., \$3.00.

Acme (No. 206) The Acme is one of the best early tomatoes that I list. The vines are large, hardy and productive, ripening its first fruit very early and continuing to bear abundantly until cut off by the frost. Fruit is purplish pink in color and is borne in clusters of four or five. It is round, smooth and of good size, free from cracks, and stands shipping well. Packet, 5c. ½ Oz., 15c. Oz., 25c. ¼ Lb., 90c. Lb., \$3.00.

Lee's Beefsteak Tomato (No. 204)

Lee's Beefsteak Tomato is the best, great big, main crop tomato for the home garden that grows. It is an exceptionally smooth tomato to be of such large size, and does not crack and have the hard cores that are so frequently found in tomatoes of this size. Its fine meaty flesh and delicious flavor with its extra large size make it a wonderful variety for home use. Packet, 10c. ½ Oz., 25c. Oz., 40c. ¼ Lb., \$1.25. Lb., \$4.50.

Squash for Summer and Fall Planting

Lee's Mammoth White Bush (No. 217)

An improved variety of the well known White Bush Scalloped, being more regular in shape and about twice the size. It grows from ten to twelve inches in diameter, nicely flattened and scalloped, and of a beautiful clear white color. It is early, being ready for use in 50 days, and is very prolific. Packet, 5c. Oz., 10c. ¼ Lb., 30c. Lb., \$1.00.

Early White Bush (No. 218) This is the earliest of all squashes. It is also known as White Scalloped or Patty Pan Squash. It is similar to the Mammoth White Bush except finer grained and not so large. The vines are vigorous and productive. An excellent variety for the home garden and nearby markets. Packet, 5c. Oz., 10c. ¼ Lb., 30c. Lb., \$1.00.

Yellow Summer Crookneck (No. 220)

The largest and earliest of the crookneck squash. It is of dwarf, bushy habit and very productive. The fruits when fully grown are about one foot long, with uniformly crooked neck and surface densely warted. The flesh is deep golden yellow, dry and of excellent flavor. Packet, 5c. Oz., 10c. ¼ Lb., 30c. Lb., \$1.00.

Improved Hubbard (No. 222) One of the best of the winter squashes. The fruits are large, heavy and warted; they have very hard shells. The skin is dark bronze-green; the flesh is bright orange-yellow, fine grained, very dry, sweet and richly flavored. An excellent keeper. Packet, 10c. Oz., 15c. ¼ Lb., 40c. Lb., \$1.25.

	From \$60.01 to	\$75.00-----	25 cents.
	From \$75.01 to	\$100.00-----	30 cents.

Memoranda of Issuing Postmaster:

If order is purchased through Rural Carrier, he will fill spaces below:

Carrier's receipt No. -----

-----, Carrier.

NOTE.—The maximum amount for which a single Money Order may be issued is \$100. When a larger sum is to be sent additional Orders must be obtained. Any number of Orders may be drawn on any Money Order office on any one day.

Applications must be preserved at the office of issue for three years from date of issue.

Turnips Grow Best in the Fall

LEE'S PURPLE TOP GLOBE TURNIP

Lee's Early Market (No. 224) This is a new variety introduced by me last year and has proven to be a Turnip of exceptional merits. It is flat in shape and matures quickly. It is pure white; the flesh is fine grained, sweet and of excellent quality. A fine variety for the home garden and especially recommended for the market... Packet, 5c. Oz., 15c. ¼ Lb., 40c. Lb., \$1.25.

Extra Early Milan (No. 225) Earliest of all turnips. A fine flat, purple-topped variety similar to the purple top strap leaved, but ten days to two weeks earlier. The flesh is sweet and fine grained. Packet, 5c. Oz., 15c. ¼ Lb., 30c. Lb., \$1.00.

Lee's Improved American Rutabaga (No. 236) This is the best rutabaga for the South. It is the finest and most profitable of all yellow, purple top rutabagas, being the heaviest, hardiest, best shaped and most productive. The roots are better keepers than most sorts. The flesh is of a beautiful yellow color, of the choicest quality and full of nourishment. Rutabagas differ from turnips only in that they have a firmer flesh, which makes them better keepers. They take longer to mature, and are used more for stock feeding. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.

MARKET GARDENERS, ATTENTION

If you are in the market for garden or field seeds in quantity lots make out a list of what you will want, and mail it in. I will make you prices that will save you money.

Culture Turnips are the most popular fall vegetable. The roots make a fine table dish and the tops furnish delicious greens. Turnips are hardy and keep well all through the winter months. They do best on new ground or ground that has not been cultivated for several years. One ounce of seed sows 200 feet of row; 2 to 3 pounds per acre.

Purple Top Globe This is also known as Red Top Globe. (No. 227) It is the most popular variety grown. The roots are large, medium early and globe-shaped; purple or dark red color above the ground and white below. The flesh is white, fine grained and of excellent quality. Packet, 5 cents; ounce, 10 cents; ¼ pound, 25 cents; pound, 75 cents; postpaid.

White Globe (No. 228) A very heavy yielder. The roots are large, frequently growing to twelve pounds in weight. They are globe-shaped with a very white and smooth skin. A very good variety. Packet, 5 cents; ounce, 10 cents; ¼ pound, 25 cents; pound, 75 cents; postpaid.

Early White Flat An early, flat turnip of medium size.

Dutch (No. 229) Flesh and skin pure white, fine grained, sweet, and excellent for table use. Packet, 5c. oz., 10c; ¼ lb., 25c; lb., 75c; postpaid.

Extra Early White Egg An excellent quick (No. 230) growing variety with skin and flesh of pure white; solid, fine-grained and sweet. Packet, 5c; oz., 10c; ¼ lb., 25c; lb., 75c; postpaid.

Yellow Globe (No. 231) The best of the yellow varieties. The roots are smooth, medium sized and of a light yellow color. The flesh is fine grained, sweet and of excellent quality. A good keeping sort. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.

Long White or Cowhorn (No. 226) This variety is a clear shade of green at the top of the root. The flesh is fine grained, sweet and well flavored. The roots are long and carrot-shaped. Packet, 5c. Oz., 10c. ¼ Lb., 25c. Lb., 75c.

Southern Prize (No. 232) A fine variety planted extensively in the South for the tops, which furnish an abundance of greens and for the turnips, which are excellent for feeding stock. Packet, 5c. Oz., 15c. ¼ Lb., 40c. Lb., \$1.25.

Seven Top (No. 233) Does not produce a good root, but is extensively grown in the South for the tops, which are used as greens. Very hardy grow all winter. Packet, 5c. Oz., 15c. ¼ Lb., 40c. Lb., \$1.25.

Purple Top Strap An excellent variety, having flat, medium sized roots, which are a purple or dark red color above ground and white below. The flesh is white, fine-grained, sweet and of excellent flavor. Packet, 5 cents; ounce, 10 cents; ¼ Lb., 20c; Lb., 60c; postpaid.

Lee's Mixed Turnips (No. 235) A fine mixture of all varieties of turnips and rutabagas listed by me. This mixture will give you a variety of turnips and "turnip greens" from one sowing. Packet, 5c; Oz., 10c. ¼ Lb., 25c. Lb., 75c.

OFFER LISTED ON PAGE 3
5 OUNCES, 5 VARIETIES, 25 CENTS, POSTPAID**

LEE'S GENUINE WINTER RYE

THE SOUTH'S HARDIEST AND BEST WINTER PASTURE

For the past twenty years I have been supplying Southern planters with Lee's Genuine Winter Rye. It is a good crop to grow whether wanted for the grain, for grazing, for green feed, for turning under to improve the soil, and for growing as a cover crop to prevent winter leaching of plant food from the land. It is a very hardy variety and will thrive on poorer soil and stand more freezing than any other grain. It makes an excellent fall, winter and early spring pasture, and if the stock is taken off early, the grazing can be had without materially reducing the grain crop. Dairy cows may be well fed and giving a good flow of milk, yet when turned on rye for a few days the increase in milk will be astonishing. For feeding green, rye will furnish green food earlier in the spring than most other forage plants. Rye can be sown early or late, really adapting itself to your convenience as to time of sowing. It is harder than wheat and can be sown up to a few weeks before freezing weather comes on. On poor, light land, early sowing is recommended in order that the crop may get well established before winter sets in. Order Lee's Genuine Winter Rye for a successful rye crop. **Lb., 15c. 5 Lbs., 50c, postpaid. Not prepaid:—Pk., 60c. Bu., \$1.90.** Write for quantity prices when ready to buy.

LEE'S GENUINE WINTER RYE

ABRUZZI RYE

Abruzzi Rye is easy to plant, grows on all kinds of soil, thrives in the poorest sandy soils where other crops fail, requires no inoculation, and makes a heavy early growth. Abruzzi makes a vigorous growth with well filled heads that mature earlier than common rye. It stands from five to six feet high, with fairly stiff straw of average size; the heads average about six inches long and are well filled. For winter and spring grazing on light lands no rye is the equal of Abruzzi. In one government test covering five years, Abruzzi Rye averaged 36 bushels to an acre, produced large heads and tall, vigorous growing, large straw. If sown on good land in September it will be ready for grazing in about six weeks and will furnish grazing for several months if not grazed too close. Unless wanted for grazing, do not sow as early as September as it may go to seed during the winter or early spring; late October is early enough to sow for a grain crop. **Lb., postpaid, 25c. 5 Lbs., \$1.00. Not prepaid:—Pk., \$1.00. Bu., \$3.50.** Write for quantity prices when ready to buy.

WHEAT FOR FALL PLANTING

Red May (Smooth Wheat) I consider the Red May the best smooth-headed wheat for planting in the Southwest. It stools freely and is hardy against winter killing and its stems are crowned with compact heads of great attractiveness, full of beautiful round grain of good milling quality. This variety has a stiff straw, and is unusually free from rust. It is a fine variety for sowing for hay, being practically free from bearded heads. **Lb., 20c. 5 Lbs., 80c, postpaid. Not prepaid:—Pk., 75c. Bu., \$2.50.** Write for quantity prices.

Fulcaster (Bearded Wheat) This is the standard bearded wheat grown in the Southwest. It is a heavier yielder than the smooth-headed sorts, and the grain is much larger. It is one of the hardest wheats, stands adverse weather remarkably well, and so far has been rust-proof. A thoroughly reliable wheat and a good yielder, producing large, well filled heads. **Lb., 20c. 6 Lbs., 90c, postpaid. Not prepaid:—Pk., 75c. Bu., \$2.50.** Write for quantity prices when ready to buy.

Native Wheat for Pasture There is a large amount of good wheat produced in this section which I buy and re-clean and sell for pasture purposes. It differs only from the fancy Missouri Red May and Fulcaster, listed above, in that it is mixed to some extent, being mostly bearded wheat with a sprinkling of smooth heads. **Lb., 15c. 5 Lbs., 75c, postpaid. Not prepaid:—Pk., 60c. Bu., \$2.25.** Write for quantity prices.

ABRUZZI RYE

LEE'S EARLY FULGHUM OATS

LEE'S EARLY FULGHUM OATS

WINTER TURF OATS

Before the Fulghum Oats were introduced in the South the Winter Turf Oats were the most widely planted variety for fall sowing. If you can get them in early, say in September or October, they are fine for fall sowing. Probably the best reason for the wide popularity of the Winter Turf Oats is their extreme hardiness, for there is no other oat that will stand more extreme cold. It is claimed that they stool more than any other oat. They have an advantage in weight, for no oat will outweigh them to the measured bushel. It is not unusual to have them weigh 35 to 40 pounds to the bushel. When sown early they make a good

growth before winter sets in and furnish excellent grazing without affecting the yield of grain if not grazed too late. They are especially desirable for grazing purposes because of their strong turfing and stooling characteristics. There is one objection to Winter Turf Oats. If they are pastured too closely, or if the weather is too severe in the fall, they sometimes run to cheat. For this reason I advise the sowing of Winter Turf Oats for pasturage. Pound, 20c. 5 Lbs., 50c, postpaid. Not prepaid: Peck, 45c. Bu. \$1.50. Write for quantity prices when ready to buy.

BEARDED WINTER BARLEY

Each year there is more Barley sown in the South. It has a particular value in the South because of the fact that it furnishes fine grazing during the fall, winter and spring, and makes a hay that in feeding value is equal to Timothy. The grain contains more protein than either corn or oats; for grazing, the abundant growth of fine leaves is succulent and tender as green feed, or if cut when in the milk stage and cured for hay it is excellent. Barley can be sown in corn and cotton at the last working, no other preparation being necessary; the entire cost would be only the cost of the seed. There are many places where grass cannot be successfully grown, but where barley can be grown as a hay crop. Sow only Lee's Southern Grown Barley, 1½ to 2 bushels broadcast sows an acre. Pound, 25c. 5 Lbs., 85c, postpaid. Not prepaid: Peck, 60c. Bu., \$2.00. Write for quantity prices when ready to buy.

GENUINE WINTER VETCH (No. 271)

The planting of Vetch in the South is growing rapidly, as its merits and value are becoming better known. When planted with rye, oats, wheat or barley so as to support it, Vetch will make a heavy hay crop in the spring. It is very early and comes in ahead of everything else except possibly alfalfa. The fact that it can be sown in corn and cotton at the last working, covers the ground during the winter, preventing washing; affords splendid grazing in the spring, and can then be cut for hay or turned under in time to put in another crop of corn or cotton on the same land, should commend it to every farmer in the South. It is eagerly relished by all kinds of stock. It furnishes splendid grazing during the early spring, and if not grazed too long will produce a heavy crop of hay. It is very fattening and is shown by analysis to show better than 15 per cent of protein. The United States Department of Agriculture estimates that a ton of Vetch hay contains about 50 pounds of nitrogen and the roots and stubble about 25 per cent more nitrogen than is contained in a ton of cow pea hay. The vines are four to five feet long and as many as twenty vines have been noted growing on a single root, which accounts for the heavy yield of several tons per acre. Vetch should be sown at the last working of corn or cotton or during September or October, covering 1 to 1½ inches deep. Vetch reseeds itself, coming year after year from a single sowing. Grows surprisingly well on poor, thin land; will stand extremes of cold, heat and drought. I have never known it to be winter killed if an early stand is secured. It does best sown with oats to give the vines support. Sow 25 to 30 pounds of Vetch and ¼ bushel oats to an acre. Genuine Winter or Hairy Vetch by mail, postpaid: Lb., 35c. 5 Lbs., \$1.50. 10 Lbs., \$2.50. Not prepaid: 15 Lbs., \$3.00. 25 Lbs., \$4.75. 50 Lbs., \$9.00. 100 Lbs., \$17.00.

WINTER VETCH

LEE'S RELIABLE GRASS SEEDS

RED TOP, OR HERD'S GRASS

Red Top is sometimes known as Herd's Grass. It makes excellent pasture and good crops of fine quality hay. Is especially valuable as a mixture with Clover, Timothy or Blue Grass. It flourishes everywhere. A very hardy maturing grass, probably the most permanent grass we have. I regard Red Top as the best of all tame grasses for the South. There are few farms but what have some land adapted to this grass, and you will find it a big investment to have a few acres on your farm. It thrives best on moist land, attaining a height of from 2 to 2½ feet. It is of slender growth, rather fine foliage and throws out slender, spreading heads. Sow ten pounds per acre.

RED TOP, LEE'S EXTRA FANCY (No. 258). The best grade of re-cleaned, solid seed Red Top that you can buy. All of the dirt and chaff have been removed. This grade is of the highest purity and germination. **Lb., 35c. 10 to 25 Lbs., not prepaid, about 22c per Lb. 100-Lb. lots or over, not prepaid, about 19c per Lb. Write for quantity prices when ready to buy.**

RED TOP FANCY (No. 302). A good grade of re-cleaned, solid seed Red Top that is not as high in purity and germination as the Extra Fancy, but worth the money. **Lb., 30c. 10 to 25 Lbs., not prepaid, about 21c per Lb. 100 Lbs. or over, not prepaid, about 18c per Lb. Write for quantity prices when ready to buy.**

Lee's Bermuda Grass (No. 257) Its great drought resisting ability to withstand our extreme summer heat makes this the most desirable grass for lawns in the South. It is also very valuable for pasture, succeeds well on dry, arid lands where other grasses fail. It is the most valuable pasture grass, in my opinion, that I sell. There is probably more land seeded to Bermuda in the Southern States than any other grass. It is very fattening and liked by stock. Will not thrive in the shade and is not usually found growing in places where cotton cannot be grown successfully. In other words, it winter-kills when grown north of the cotton belt. The seed is somewhat slow to germinate, takes about three weeks to come up after planted. One pound will sow a plot 50 by 50; 5 pounds will seed an acre. **Packet, 10c. Lb., 75c. 2 Lbs., \$1.40. 5 Lbs., \$3.25. Quantity lots, not prepaid, about 60c per Lb. Write for quantity prices.**

Orchard Grass (No. 259) An exceptionally valuable grass for pastures or hay lands, and, on account of its earliness, very valuable for permanent pastures. It furnishes green grass very early in the spring until late in the fall. It is very hardy and will withstand drought better than most varieties. It succeeds well in

RED TOP OR HERD'S GRASS

shady places such as orchards and groves. Sow 28 pounds per acre. **Pound, postpaid, 35c. Not prepaid: 15 Lbs., \$3.65. 25 Lbs., \$5.75. 50 Lbs., \$11.00. 100 Lbs., \$21.00.**

Kentucky Blue Grass (No. 264)

Where Blue Grass can be sown successfully the hay crop is of such excellent quality that all cattle relish it and fatten. It grows best on good, rich, light and dry land, and is especially valuable as a pasture grass. It is a hardy perennial, improving every year. If sown by itself for a meadow or pasture use 28 pounds per acre. **Pound, postpaid, 50c. Not prepaid: 15 Lbs., \$5.25. 25 Lbs., \$8.50. 50 Lbs., \$16.50. 100 Lbs., \$32.00.**

Timothy (No. 260) The most valuable of all the grasses for hay, especially in

the North. Thrives best on moist, light soil. It should be cut just when the blossom falls. Sow early in the spring or fall. 15 pounds per acre. **Pound, postpaid, 25c. Not prepaid: 15 Lbs., \$2.25. 25 Lbs., \$3.50. 50 Lbs., \$6.25. 100 Lbs., \$12.00.**

Johnson Grass (No. 261) There is a great demand for the hay, as it is eagerly relished by all kinds of stock, and especially horses. Johnson Grass is very hardy, and no matter how close it is grazed it will give you an excellent quality of hay on most any kind of soil. Sow at the rate of 15 pounds per acre. **Pound, postpaid, 30c. Not prepaid: 15 Lbs., \$3.15. 25 Lbs., \$4.75. 50 Lbs., \$8.75. 100 Lbs., \$17.00.**

DWARF ESSEX RAPE

THE QUICK-GRAZING PLANT

(No. 270) The economical pasture crop, fattens sheep without grain. A thick and cheaply grown pasturage for sheep, hogs, cattle and poultry. Ready in 6 to 8 weeks from sowing. Formerly Rape was grown especially for sheep and lambs, but in recent years it has been found equally good for providing pasture for all kinds of stock. It has been estimated to yield more than 10 tons of green forage per acre that, for fattening, is claimed to be worth, pound for pound, double the value of clover. It is often recommended sown in corn at the rate of 3 to 4 pounds of seed per acre at the last working. An acre of Rape will easily pasture twenty hogs for two months. Do not turn stock into a rape pasture when they are hungry, nor when the rape is wet, as it may induce bloating; allow them to remain a short while the first day, and increase the time each succeeding day. Give stock access to salt while feeding on Rape. They should also have hay or straw convenient in case of bloat.

Rape can be sown any time during late summer, fall or winter. Sow either broadcast or in drills 18 inches to 2 feet apart; when grown in drills and cultivated occasionally, the leaves will cover the intervening space; this method is a fine weed killer. Allow 8 to 10 weeks for it to attain its maximum growth. I consider Rape one of the most inexpensive and most profitable crops that can be raised. The seed I offer is the Dwarf Essex, which I import direct from England, where Rape seed of this variety is best produced. **Packet, 10c. Lb., 30c. Not prepaid: 10-Lb. lots, 16c per Lb. 100 Lbs., about 12c per Lb. Write for quantity prices when ready to buy.**

DON'T FORGET TO ASK FOR OUR SPECIAL PRICES ON SEEDS IN QUANTITY LOTS. MAKE OUT A LIST OF WHAT YOU WILL WANT, AND MAIL IT IN. AT THE TIME THIS CATALOG IS PRINTED THE PRICES ON FIELD SEEDS ARE NOT FULLY ESTABLISHED, SO BE SURE AND WRITE FOR MY BEST PRICES WHEN YOU ARE READY TO BUY.

DWARF ESSEX RAPE

BURR CLOVER (No. 251)

A VALUABLE WINTER CLOVER FOR GRAZING AND SOIL BUILDING

For the Southern States this is a most valuable soil-improving and winter-grazing crop, growing luxuriantly all through the winter and until summer. After once being seeded it re-seeds itself and improves in growth and appearance each succeeding year. It is admirably adapted for use with Bermuda Grass, and the combination of the two makes a splendid all-the-year-round pasturage. It is often asked if cattle will eat Burr Clover. It has been the experience of many that cattle or hogs can be more profitably grazed on it than on any other pasture, winter or summer. It is also excellent for horses and mules. When sown for pasture I recommend thorough preparation, which insures a stand the first year. When sown on old pasture sod without preparation, often the seed will not sprout for several years. A field of Burr Clover in February or March looks mighty good when little else is green. One of the main values of Burr Clover is its soil building qualities. A good stand of Burr Clover will almost double the yield of any field, without the aid of commercial fertilizer, in one year. When used for soil building it should be plowed under in February, March or April. You may sow Burr Clover in your corn middles in July, August or September, and after sowing continue the cultivation of the corn or other crops without jeopardizing the probability of a stand. If your clover comes up, plow it up—no danger—more will come. Burr Clover will grow on any type of soil, but makes best growth on strong red land or kindred soils. Seed can be sown from April 1st to December 1st. I advise early sowing for pasture. It requires from 50 to 80 pounds of seed to sow an acre. Prices: Lb., postpaid, 35c. 3 Lbs., \$1.00. Not postpaid: 15 Lbs., \$2.85. 25 Lbs., \$4.50. 50 Lbs., \$8.50. 100 Lbs., \$16.00.

CRIMSON CLOVER (No. 252)

This is an annual leguminous forage plant, possessing much value as a fertilizer of soil, and also affords valuable green forage throughout the winter and spring. It is of extraordinary value to sow with winter grain when it is to be either pastured or made into hay. It furnishes plant food to the soil, keeps ground from washing, and gives an excellent pasturage during winter. Under fair conditions it will yield 8 to 10 tons of green feed per acre, 1½ to 2 tons of hay, besides being valuable as a fertilizer crop. It does well on almost all kinds of soil except the very poorest, but is especially valuable on light sandy or loamy soils. Crops can be grazed during the winter and if stock is taken off in March a full crop will be made. Crimson Clover can be sown in staple crops like cotton or corn at the last working and is also used extensively in seeding down orchards. Best results are obtained where the seed has been inoculated. Crimson Clover is an annual, does not grow out from roots the second year, but must be planted every fall. Still, if allowed to ripen seed it will reseed itself. Sow seed any time from August to November, 20 to 25 pounds to the acre. Pound, postpaid, 30c. 4 Lbs., \$1.00. Not prepaid: 15 Lbs., \$2.49. 25 Lbs., \$3.75. 50 Lbs., \$7.25. 100 Lbs., \$14.00.

Alsike Clover (No. 246) Alsike is exceptionally leafy, frequently producing as much hay as Mammoth Clover. Alsike is the most hardy of all clovers. It withstands the severest cold and does not readily winter kill or heave out of the ground with frost, and readily reseeds itself. It is apparently the only clover that will thrive on moist soil. It grows about two or three feet high. The stems are thinner than those of Red Clover, the leaves are numerous, making hay of a finer texture. The blossoms are purplish pink. The feeding value of the hay fairly equals that of Alfalfa. Pound, postpaid, 30c. Write for my best prices when ready to buy.

Red Clover (No. 248) A perennial clover lasting for several years. Would not advise sowing this variety on low southern lands; however, it seems admirably adapted to hill land. Sow seeds either in fall or spring, using 12 to 15 pounds per acre. The seed I offer you is new crop, re-cleaned and of high germination and purity. Pound, postpaid, 45c. Write for my best prices when ready to buy.

Sweet Clover or Melilotus (No. 250)

Also known as Bokhara Clover. It resembles Alfalfa, both as to appearance and habit of growth when young. However, it grows much larger than Alfalfa, often 4 to 6 feet high. Its feeding value is high, about equal to Alfalfa. Valuable as a pasture and, in spite of its bitter taste, stock soon learn to like it. Sow early in the spring or fall at the rate of 15 to 25 pounds per acre. Lb., postpaid, 30c. Write for my best prices when ready to buy.

PLEASE Write for special prices on quantity lots. At the time this catalog goes to press the prices on field seed are not fully established. Get my best prices when ready to buy.

LEE'S SOUTHERN SPOTTED BURR CLOVER

ALFALFA CLOVER

The plant has a deep root and does especially well on bottom land, but will not thrive on hillside land where the land is thin and the roots are unable to secure sufficient moisture to produce a good crop. The fact that Alfalfa is a deep rooted clover puts it in position to withstand excessive heat; that is the reason the crops in the South are so successful and sure. Once established, it lasts for years. Requires but little attention and is one of the farm's most profitable crops. It thrives well where the soil is deep enough for the feeding roots to penetrate. Can be sown in the fall or spring. Should be sown on land that has already been inoculated for Alfalfa, or the seed should be inoculated before sown. Alfalfa is just about as nutritious hay as you can grow, and once well established and cared for it's there to stay; that is, on land where water is not too near the surface. Sow broadcast in September and October at the rate of 20 to 25 pounds per acre.

ALFALFA, LEE'S EXTRA FANCY (No. 245). This is the very best grade of American grown Alfalfa seed that I can buy. It generally runs 99 per cent pure and about 98 per cent germination. You can not buy any better seed at any price. Lb., 40c. 10 to 25 Lbs., not prepaid, about 30c per Lb. 100-Lb. lots or over, not prepaid, about 23c per Lb. Write for my best prices when ready to buy.

ALFALFA, FANCY (No. 301). A good average grade of American grown seed. Not as high in purity and germination as my Extra Fancy, but a satisfactory grade. Lb., 35c. 10 to 25 Lbs., not prepaid, about 28c per Lb. 100 Lbs. or over, not prepaid, about 21c per Lb. Write for my best prices when ready to buy.

SELECTED SPRING FLOWERING BULBS

Dutch Hyacinths

LEE'S DUTCH HYACINTHS

CROCUS

Among the earliest to bloom in spring is this beautiful little flower, lifting its head almost before the snow has disappeared. Good for outdoor or pot culture. I offer them in the following colors: Yellow, White, Blue, and Striped. Price: Dozen, 35c. 25 for 65c. 100 for \$2.25, postpaid.

FREESIAS

One of the most charming bulbs known for winter flowering and cut flowers. The blossoms are grown on long, graceful stems and are white. Price: 35c per dozen. 25 for 65c. \$2.50 per 100, postpaid.

JONQUILS

The Jonquil is a miniature Narcissus and is a general favorite with all. It is a slender, graceful flower with rather small, bright yellow, sweet-scented flowers, abundantly produced on stems about a foot long, each bearing a cluster of florets. Fine for indoor and outdoor planting.

SINGLE, SWEET-SCENTED JONQUILS—50c per dozen. \$3.25 per 100, postpaid.
DOUBLE, SWEET-SCENTED JONQUILS—60c per dozen. \$4.50 per 100, postpaid.

CHINESE SACRED LILY

The Chinese Lilies are usually grown in bowls or dishes of water. Put an inch or two of sand and gravel in a dish, set the bulbs on this and put pebbles around them to keep them from falling over; fill the dish with water and set in a dark place until the roots have started. Extra large bulbs, 20c each. 3 for 50c. \$2.00 per dozen, postpaid.

The Hyacinth is the most popular, beautiful and fragrant of all bulbs for fall planting in the South. It is of almost every imaginable shade of color and is suitable alike for house and garden culture. **POT CULTURE**—Plantings may be made at any time from September to December, though October is the best time. A 5-inch pot filled with light, rich soil is most suitable, with the top of the bulb just below the surface of the soil. After setting the bulb, thoroughly firm the soil and give it a good watering. The pots should then be set away in a dark place for three or four weeks; they may then be brought, as wanted, for a succession of flowers, into a moderately warm, light room.

OUTDOOR CULTURE—The bulbs may be planted any time after the beginning of October and before the winter frosts set in. Any good, well drained garden soil will answer. Dig deep and mix in a little decomposed manure; set the bulbs from four to five inches below the surface and about six inches apart; after the ground becomes frozen give a good covering of stable litter.

FIRST-SIZE SINGLE HYACINTHS

LA GRANDESSE—Extra fine, pure white, splendid bells of great substance. A fine sort for forcing or bedding.

QUEEN OF THE BLUES—One of the best of the light blues. A heavy, compact spike of pale, azure blue. A beautiful sort.

GRAND MAITRE—A deep lavender-blue with darker blue shading. Splendid coloring, most useful for bedding or forcing.

MARCONI—Splendid bright rose-pink, large bells and fine spike. An excellent forcer and bedder.

LA VICTOIRE—A glistening bright scarlet, very fine spike, being one of the best of its class.

YELLOW HAMMER—A beautiful pure yellow, considered by many the best early yellow.

PRICES ON THE ABOVE: First-size, single Hyacinths, each 18c. 6 for 85c. 12 for \$1.50. Not prepaid: \$9.50 per 100.

FIRST-SIZE DOUBLE HYACINTHS

PRINCESS ALICE—Clear white, with tall spikes and large bell. A good double white hyacinth.

GARRICK—An early, bright blue with large spikes of double bells.

PRESIDENT ROOSEVELT—Large, very double, deep rose, a good early forcer and one of the best of its class.

BOUQUET ROYAL—A fine light pink with deeper shading. Bells very large and double, good forcer and bedder.

MINERVA—Buff-yellow, very double bells, compact spike. A good forcer and bedder.

DELICATA—A fine pale blue, with good spikes. A good variety for forcing.

PRICES ON THE ABOVE: First-size Double Hyacinths, each 18c. 6 for 85c. 12 for \$1.50. Not prepaid: \$9.50 per 100.

BEDDING-SIZE SINGLE HYACINTHS

L'INNOCENCE—Early, large, open spike, very large bells, bluish turning to pure white. A leading forcer and a very good bedder.

JOHAN—A fine, light blue of exceptional merit. A good early sort, having very large bells.

KING OF THE BLUES—A beautiful, rich dark blue, with compact spike and medium large bells. A fine forcing or bedding variety.

GERTRUDE—One of the best of the rosy-pinks, having large, compact, attractive spikes. A good early bedder.

LA VICTOIRE—A glistening bright scarlet, very fine spikes, being large and well filled. A splendid bedder.

YELLOW HAMMER—A beautiful, pure yellow, considered by many the best early yellow.

PRICES ON THE ABOVE: Bedding-size Single Hyacinths, each, 15c. 6 for 75c. 12 for \$1.25. Not prepaid: \$8.50 per 100.

BEDDING-SIZE DOUBLE HYACINTHS

PRINCESS ALICE—Clear white, with tall spike and large bell. A good double white hyacinth.

DELICATA—A fine pale blue with good spike. A good variety for forcing.

GARRICK—An early, bright blue with large spikes of double bells.

PRESIDENT ROOSEVELT—Large, very double deep rose. A good early forcer and one of the best of its class.

BOUQUET ROYAL—A fine, light pink with deeper shading, bells very large and double, good forcer and bedder.

MINERVA—Buff-yellow, very double bells, compact spike. A good forcer and bedder.

PRICES ON THE ABOVE: Bedding-size Double Hyacinths, each, 15c. 6 for 75c. 12 for \$1.25. Not prepaid: \$8.50 per 100.

TULIPS

It is difficult to conceive of anything more brilliant in color than a bed of good tulips. Their great variety of color, intense brilliancy and beautiful shading make them universal favorites. Another consideration in their favor is the ease with which they can be cultivated, only requiring good common garden soil to grow them to perfection. There are no bulbs which make such a rich and gorgeous display of blossoms with so little care and cultivation.

EARLY SINGLE FLOWERING TULIPS

PROSPERITY—A beautiful rose pink tulip of exceptional merit.
CRIMSON BRILLIANT—A fine, deep crimson scarlet, produced on a long stem.
PRINCESS HELENE—Large, elongated flowers of the purest white.
YELLOW PRINCE—A lovely yellow, sweet scented tulip.
KEIZERSKROON—Scarlet red, with broad yellow margin, very large flower.

Prices on the above named varieties of Single Tulips: 6 for 35c. 12 for 60c. Per 100, \$4.25, postpaid.

EARLY DOUBLE FLOWERING TULIPS

MURILLO—A fine white shaded rose.
WILLIAM THE THIRD—A bright red, producing large flowers.
L'INNOCENCE—A beautiful, double, pure white tulip.
TEAROSE—Pale yellow, flushed salmon, quite a distinct shade in tulips.

Prices on the above named varieties of Double Tulips: 6 for 40c. 12 for 70c. Per 100, \$4.50, postpaid.

POPULAR DARWIN TULIPS

For the border, massed in clumps along the edge of shrubbery, or as cut flowers for vases, these are conceded to be the superior of all the tulips. The maddening craze for the Darwin Tulip is not due to fad or popular fancy, but rather to an awakened sense of appreciation of their majestic beauty. The rich, bright colors of the blooms, their somber tones, their many pale and more lovely colors, produced on strong, gigantic stems from 2 to 3 feet.

CLARA BUTT—A large flower of remarkable beauty; coloring, an exquisite shade of soft salmon pink shaded rose, the finest pink Darwin.

FRA ANGELICO—A very early Darwin Tulip, of deep maroon black.

OUIDA—A beautiful Darwin Tulip of fiery scarlet red, pale blue base.

PAINTED LADY—Creamy white, faintly tinged heliotrope when opening; a very beautiful flower resembling a water lily.

PRIDE of HAARLEM—A beautiful old rose colored Tulip. Fine for cutting.

REV. EWBANK—A fine, silvery heliotrope shading to lavender violet at the base.

LEE'S SELECT TULIPS

INGLESOMBE—A beautiful canary yellow Tulip having large cup-shaped flowers. Fine for borders and cutting.

Prices on the above listed varieties of Darwin Tulips: 6 for 40c. 70c a dozen. 25 for \$1.25. \$4.50 per 100; postpaid.

LEE'S SELECTED DARWIN MIXED—A properly balanced mixture, producing a mixture of brilliant colors. 6 for 35c. 65c a dozen. \$4.25 per 100; postpaid.

NARCISSUS OR DAFFODIL

One of the finest flowers for fall planting in the South. Can be planted anywhere and, whether given careful cultivation or not, they just naturally do well. Every bulb blooms and multiplies so you have more each year. The new Giant trumpet varieties are rich in color, beautiful and graceful in appearance and very desirable for cut flowers.

EMPEROR—One of the finest of the Giant Yellow Narcissus, having a golden yellow trumpet and broad primrose yellow perianth. Early and splendid for forcing or planting out of doors. Price, 10c each. 6 for 50c. 12 for 90c. \$7.00 per 100; postpaid.

GOLDEN SPUR—A good sort for pot or garden culture. Large, spreading, deep yellow perianth and wide trumpet of golden yellow, very early and free flowering. One of the very best for cutting. Price, 10c each. 6 for 50c. 12 for 90c. \$7.00 per 100; postpaid.

BICOLOR VICTORIA—A bicolor Narcissus delicately perfumed, having a deep yellow trumpet with a broad, creamy white perianth. A lasting bloomer and a splendid forcer. Price, 10c each. 6 for 50c. 12 for 90c. \$7.00 per 100; postpaid.

EMPERESS—One of the best of the two-colored varieties. A very large, pure white with yellow trumpet sort, bold and erect, being very desirable for cutting. Price, 10c each. 6 for 50c. 12 for 90c. \$7.25 per 100; postpaid.

VON SION—The best double yellow Narcissus on the market. A rich golden yellow, fine for forcing, cut flowers and planting in borders. Price, 10c each. 6 for 50c. 12 for 90c. \$7.00 per 100; postpaid.

ALBA PLENA ODORATA—A double, pure white Narcissus with exquisitely scented flowers. An excellent outside planting sort, but cannot be forced. Price, 10c each. 6 for 45c. 12 for 85c. \$6.00 per 100; postpaid.

NARCISSUS FOR FORCING IN WATER

PAPER WHITE GRANDIFLORA—Also known as Paper White Narcissus. Will bloom in water and rocks from six to eight weeks from time of planting. Are superior to Chinese Lilies or any other Narcissus for growing in water. The flowers are larger, more attractive in color, and very fragrant. A very unique, simple and novel way to grow this variety of Narcissus is to place six to eight bulbs in shallow glass or china bowl with water; support the bulbs with pebbles or gravel as you would the Chinese Lily, and place the bowl in the dark until the roots have started, when you should bring them to the light. The water requires changing occasionally to keep it pure. Planted any time in September or October, can be easily brought into flowers by Christmas. Price, 10c each. 6 for 45c. 55c a dozen. \$6.00 per 100; postpaid.

GRAND SOLEIL D'OR—This variety is planted in water and rocks like the Paper White Grandiflora, the only difference being in the bloom, which is a charming rich flower with deep reddish cup. Price, 15c each. 6 for 70c. \$1.25 per dozen.

PAPER WHITE NARCISSUS

LEE'S SUPERIOR FLOWER SEED

LEE'S SUPERIOR SWEET PEAS

COUNTRESS OF SPENCER (No. 571). A lovely clear pink, shading deeper at the edges. A wonderful variety. **Packet, 10c. Oz., 35c. ¼ Lb., \$1.00. Lb., \$3.50.**

DOBBIES CREAM (No. 651). The finest and largest primrose-yellow of the Spencer varieties. **Packet, 10c. Oz., 35c. ¼ Lb., \$1.00. Lb., \$3.50.**

KING EDWARD SPENCER (No. 568). A fine variety of bright crimson scarlet of largest size. **Packet, 10c. Oz., 35c. ¼ Lb., \$1.00. Lb., \$3.50.**

ROSABELLE (No. 569). An extra fine, large, finely waved, bright rose. **Packet, 10c. Oz., 35c. ¼ Lb., \$1.00. Lb., \$3.50.**

WEDGEWOOD (No. 567). A popular color, being a bright silvery or wedgewood blue. **Packet, 10c. Oz., 35c. ¼ Lb., \$1.00. Lb., \$3.50.**

WHITE SPENCER (No. 570). A pure, waxy white of enormous size, on long, strong stems. **Packet, 10c. Oz., 35c. ¼ Lb., \$1.00. Lb., \$3.50.**

ROYAL PURPLE (No. 653). A distinct variety of rich Royal Purple. **Packet, 10c. Oz., 35c. ¼ Lb., \$1.00. Lb., \$3.50.**

STERLING STENT (No. 654). A beautiful Spencer of deep metallic salmon suffused with orange. **Packet, 10c. Oz., 35c. ¼ Lb., \$1.00. Lb., \$3.50.**

LEE'S MIXED SPENCERS (No. 566). All colors. The finest mixture of Spencer Sweet Peas ever offered. **Packet, 10c. Oz., 20c. ¼ Lb., 60c. Lb., \$1.75.**

PANSIES To obtain the best results with Pansies, plant in cool, moist, rather rich soil. If the seed are sown early they will produce flowering plants by fall. If given slight protection they will usually stand the winter perfectly, blooming early the following spring. Pansies are now produced in an almost indefinite variety of colors and markings. Their long season of blooming and long keeping qualities make them general favorites.

FINE MIXED PANSIES (No. 579). A mixture of the more common varieties. Flowers are of wide range of colors and markings. **Packet, 10c. ¼ Oz., 50c. Oz., \$1.75.**

LEE'S GIANT MIXED PANSIES (No. 578). In Lee's Giant Mixed Pansies you receive the finest assortment of sizes and colors that are produced. I have spared neither pains or expense to perfect a mixture that would measure up to the highest standard and contain an almost indefinite variety of colors and markings. The seed in this mixture are from the greatest pansy specialists in Europe and are only the finest of the large size. **Packet, 15c. Two for 25c. ¼ Oz., 75c. Oz., \$2.50.**

LEE'S FINE SWEET PEAS SEED

Sweet Peas can be sown from December to April in rows where they can be run on wire netting, strings or bushes. The seed should be planted in a furrow 6 to 8 inches deep and covered about 2 inches. When the plants are 2 or 3 inches high, thin out to 3 or 4 inches apart. Keep drawing in earth until the trench is filled level with the ground, always leaving the top of the plant above the soil.

EARLY FLOWERING SWEET PEAS

A desirable new class of Sweet Peas that is rapidly becoming popular for winter flowering indoors. The flowers are large, of the same form as the Spencers and are beautifully waved or frilled. When planted out of doors they will commence blooming about a month earlier than the later flowering varieties planted at the same time.

EARLY SNOWSTORM, WHITE (No. 645). Enormous flowers of fine forms. The finest of all early flowering white Spencers. **Packet, 10c. Oz., 50c. ¼ Lb., \$1.50.**

EARLY ENCHANTRESS (No. 646). A bright rose pink, becoming deeper at the edges. Large flowers on long stems. **Packet, 10c. Oz., 50c. ¼ Lb., \$1.50.**

EARLY LAVENDER KING (No. 648). A fine free flowering, rich, true deep lavender. Large flowers, well waved on long stems. **Packet, 10c. Oz., 50c. ¼ Lb., \$1.50.**

EARLY ILLUMINATION (No. 647). A fine salmon-cerise, with slight orange shading. Usually four large size blooms on a stem. **Packet, 10c. Oz., 50c. ¼ Lb., \$1.50.**

LEE'S EARLY FLOWERING MIXED (No. 649). All colors. A fine mixture of selected early flowering varieties giving a large range of colors. **Packet, 10c. ½ Oz., 25c. Oz., 40c. ¼ Lb., \$1.25. Lb., \$4.00.**

SPENCER SWEET PEAS

A new type of Sweet Peas which have become very popular. The flowers are of extraordinary size, usually measuring two inches across, with wavy or frilled-edge petals, which with their rich coloring has gained for them the name of Orchid-flowered Sweet Peas. The stems are long and strong and usually have four of these immense blossoms. It is true that they require more careful cultivation than the other type, but you will be more than repaid by having Sweet Peas of exceptional beauty, and a superior variety for cutting because of the longer and stronger stems.

ASTA OHN (No. 650). A beautiful lavender or tinted mauve. An early sort. **Packet, 10c. Oz., 35c. ¼ Lb., \$1.00. Lb., \$3.50.**

FIERY CROSS (No. 652). One of the latest and best fiery-scarlet varieties. **Packet, 10c. Oz., 35c. ¼ Lb., \$1.00. Lb., \$3.50.**

COLUMBINE (No. 633) **AQUILEGIA.** An easily grown, very desirable, old fashioned flower for borders, forming large, permanent clumps. Blooms profusely early in the season and remains in bloom for a long time. In beds, plants should be a foot each way. Perennial. **Packet, 10c. ¼ Oz., 30c.**

DIGITALIS--Fox Glove (No. 517)

A showy border plant, producing many flowers of different colors. Mixed colors. **Packet, 10c. ¼ Oz., 25c. ½ Oz., 40c.**

GYPHOPHILA (No. 619) -- Baby's

Breath A delicate, free flowering plant, covered with star-shaped flowers. Used a great deal for hanging baskets and edgings and is fine for mixing in bouquets. Makes good dried flower. **Packet, 10c. ¼ Oz., 30c. Oz., \$1.00.**

Double Hollyhocks Of all the flowers used for a background in the flower garden, none can equal the Double Hollyhocks. The strain I offer of this tall-growing, old-fashioned flower is unsurpassed. Sow the seed early in the spring in a box and transplant to open ground when it is warm. They grow and bloom freely for years after once started. Perennial.

DBL. HOLLYHOCKS, Mixed (No. 534). **Packet, 10c. ¼ Oz., 25c. ¼ Oz., 40c.**

DBL. HOLLYHOCKS, White (No. 529). **Packet, 10c. ¼ Oz., 30c. ¼ Oz., 50c.**

DBL. HOLLYHOCKS, Yellow (No. 530). **Packet, 10c. ¼ Oz., 30c. ¼ Oz., 50c.**

DBL. HOLLYHOCKS, Crimson (No. 531). **Packet, 10c. ¼ Oz., 30c. ¼ Oz., 50c.**

DBL. HOLLYHOCKS, Maroon (No. 532). **Packet, 10c. ¼ Oz., 30c. ¼ Oz., 50c.**

DBL. HOLLYHOCKS, Pink (No. 533). **Packet, 10c. ¼ Oz., 30c. ¼ Oz., 50c.**

Sweet William A well known, attractive, sweet-scented flower, easily grown. The flowers are densely formed, round topped heads or clusters often 3 to 4 inches across. The colors are exceedingly varied, ranging from white through many shades of rose, lilac, red, crimson, and maroon, there being usually two shades to each plant. Perennial.

DOUBLE MIXED (No. 599). Double flowers in a great variety of colors. **Packet, 10c. ¼ Oz., 25c. ¼ Oz., 40c.**

SINGLE MIXED (No. 600). Large, handsome flowers, all colors mixed. **Packet, 5c. ¼ Oz., 25c. Oz., 75c.**

Special Metal Sprayer

No. 323

No. R 324

No. 323—MYER'S BRASS SPRAY PUMP (See Cut). A convenient and inexpensive pump for use where a larger pump is not required. Each, not prepaid, \$4.25.

No. R 324—MYER'S COG GEAR BUCKET SPRAY PUMP (See Cut). With agitator. Is made of brass with ball valves, complete with hose and graduating Vermorel fine-coarse spray and solid stream nozzle. Especially adapted for light orchard work and for whitewashing. Each, not prepaid, \$7.00.

No. R 318B—MYER'S COG GEAR BARREL SPRAY PUMP (See Cut). Complete with one lead of 15 feet of 1/2-inch 5-ply discharge hose, graduating Vermorel nozzle. Each, not prepaid, \$16.00.

No. R 308B (See Cut)—This Pump is capable of doing extra heavy work. Full description on application. Price, not prepaid, \$28.00 each.

No. 330—MYER'S KNAPSACK SPRAY PUMP (See Cut). This Pump is their regular brass Spray Pump, brass ball valves, solid plunger and agitator. Fitted with 5 feet of 1-inch hose, pipe extension, Bordeaux or graduating Vermorel spray nozzle, which can be graduated from a fine mist spray to a solid stream, or shut off entirely. Tank holds 5 gallons. Price, not prepaid, \$12.50.

No. 331—Same as No. 330, except with copper tank. Price, not prepaid, \$20.00.

No. 296 (See Cut)—MYER'S COMPRESSED AIR SPRAYER—Made of heavy galvanized iron, with brass tube cylinder. The nozzle is one of the special features of the sprayer. By means of a small lever the spray can be adjusted from a broad fine spray, covering the ordinary distance, into a complete long-distance spray, throwing water 25 feet, by means of which the top of any small fruit tree can be reached. Price, not prepaid, \$6.75 each.

No. 297—Same as No. 296, except with brass tank. Price, not prepaid, \$10.00.

Insect Destroyers and Fungus Remedies

The insecticides and fungicides listed are a poison and cannot be sent by mail. The prices given are at Fort Smith and customer to pay express or freight charges. They cannot be sent by parcel post.

Garden Guard A convenient and practical garden insecticide and fungicide. It requires no sprinklers, sprayers or water. It is ready for application; just sift on plant from shaker top carton late in the evening or early in the morning while the dew is on. Garden Guard is effective against many of the chewing insects that prey upon the house and garden plants, shrubs, vines, melons, tomatoes, cabbages, currants, vegetables and flowers. It is less harmful to vegetation than many other forms of insecticides and, in addition, acts in a measure as a fungicide. It does its intended work thoroughly and at the same time is of little enough poison content so as to be without danger to human or plant life if ordinary care is used. By express or freight, not prepaid: Pound carton (sift top), 25c. 5-Lb. bag, 75c. 100-Lb. drums, \$10.00.

Dry Arsenate of Lead Arsenate of Lead kills leaf-eating insects such as attack trees, shrubbery, flowers and vegetables. It can be used as a powder or mixed with water and used as a spray. By express or freight, not prepaid: Pound box, 50c. 4-Lb. bag, \$1.20. 100-Lb. drums, \$19.00.

Paris Green Paris Green is used for potato bugs and other leaf-eating insects. While it is nearly always used as a spray it can be used as a powder by mixing with Land Plaster. One pound makes 50 gallons of spray. By express or freight, not prepaid: Pound box, 50c. 4-Lb. bag, \$1.60. 14-Lb. kit, \$5.00. 100-Lb. keg, \$26.00.

Dry Bordeaux Mixture The best preparation on the market for blight, mildew, rust and fungus diseases. It used to be sold in paste form up until a few years ago, but now it is made

almost exclusively in the dry powdered form. It can be applied in the powdered form or by mixing with water. Use 4 to 6 pounds to 50 gallons of water when a spray is desired. By express or freight, not prepaid: Pound box, 40c. 4-Lb. bag, \$1.20.

Dry Lime-Sulphur Lime-Sulphur is a scale and fungus destroyer for fall, winter and early spring spray. It destroys San Jose Scale, Peach Leaf Curl, Bud Moth, Apple Aphid, Blister Mite and any scale insect or bark lice. It dissolves immediately in cold water, making a solution that adheres to foliage for the longest possible time. For spraying when the trees are dormant, 12 to 15 pounds dry lime-sulphur should be used to 50 gallons of water. By express or freight, not prepaid: Pound box, 40c. 5-Lb. bag, \$1.50. 10-Lb. bag, \$2.50. 25-Lb. drum, \$4.25. 50-Lb. drum, \$7.50. 100-Lb. drum, \$13.00. 200-Lb. drum, \$24.00.

Black Leaf 40 Black Leaf 40 is truly a contact insecticide. The "sucking" insects feed by inserting their sharp, slender beaks into the interior of the leaf, blossoms, etc. They cannot eat plant tissue, and, therefore, cannot eat poisons, hence must be destroyed with a preparation which kills by coming in contact with their bodies—in other words, by a "contact" insecticide. The most common sucking insects, with soft bodies, are the aphid "plant lice," thrips and leaf hoppers. They may be effectively controlled with "Black Leaf 40," a concentrated solution of nicotine sulphate guaranteed to contain 40 per cent of nicotine by weight. By express or freight, not prepaid: 1 Oz., 35c. 1/2 Lb., \$1.25. 2 Lbs., \$3.50. 10 Lbs., \$13.50.

LEE'S DIXIE ROSE COLLECTION for 1925

12 OF THE FINEST EVER
BLOOMING ROSES THAT
GROW

3 White, 3 Red, 3 Yellow, 3 Pink
Postpaid Anywhere, \$6.00

Lee's Dixie Rose Collection includes the finest and best varieties. All of the varieties in this collection will do well whenever planted, and no two varieties are alike. Lee's Dixie Rose Collection is changed every year so you can buy it each year and always get altogether different varieties. This collection is truly a bargain. Be sure and order it every year.

The Bride Flowers white, large and double, on long, stiff stems. During extreme hot weather becomes pinkish-white. A fine rose for summer blooming, being large and double and very fragrant.

Double White Killarney The finest white rose in cultivation. Flowers very large; beautifully formed; of creamy-white tint; most refined looking. A first class cut-flower variety, at the same time growing and blooming grandly out of doors.

Angelus Large full flower; high center; lasting. Color white, cream tint at center. Very fragrant. Strikingly beautiful. The flowers, which are of large size, remain perfect on the bushes for a long time, and are produced very freely.

Hoosier Beauty Wonderful shade of glowing shadings of velvety crimson-scarlet with darker shadings of velvety texture. Deliciously fragrant. Acknowledged to be one of the best high colored varieties. Fine, well shaped, long buds and good sized full flowers.

Crusader A big, strong, growing variety, robust and rugged in every characteristic; the growth is heavy and the flower stems strong and heavy. It is free flowering and the blooms are big and double; in color a rich, velvety maroon.

Lady Alice Stanley Absolutely perfect in every way; form, color, size, freedom of bloom and fragrance are fully developed. It is a beautiful shade of coral-rose, the inside of the petals shading to flesh-pink with deeper flushes.

Alexander Hill Gray The respect of all Rose lovers warrants the issuing of a champion Rose, and a Tea at that, to pay due homage to one of the world's greatest Tea Rose growers. It is wonderfully floriferous, every shoot being crowned with a flower bud which develops into a bloom of very large size. The best and largest pure yellow Tea Rose yet introduced. Gold Medal, N. R. S.

Sunburst This magnificent giant flowering Rose stands head and shoulders above all other Roses of its class. It is a constant blooming variety, producing fragrant blooms of an especially deep color throughout the summer. It has all the good points of merit; a fine, long-pointed bud, long stems, extraordinarily vigorous and healthy, and belongs in the class of big Roses. The color is a beautiful orange-copper, golden orange and golden-yellow; large, intense shades and brilliant in effect.

Md. C. Martinette Color rich coppery-orange. Blooms full and very fragrant, with distinct and beautiful shades. The buds open cup shaped and expand fully to a large and finely formed flower. Beautiful in coloring; a vigorous growing variety.

Beautiful Peach-Blow Pink Everblooming ("Monthly")
Garden Rose, Columbia

and a great favorite with all Rose lovers.

Lady Hillingdon A deep shade of yellow which does not easily fade. Everybody can grow it, and have it in quantity. Pretty narrow foliage. Buds very slender and graceful. Very free in the production of flowers.

Columbia The color effect of this great novelty is really marvelous, representing a shaded electric light. A perfect peach-blow pink, which deepens as it opens. The blooms are very large and full, of perfect shape and form, with enormous petals and grand general character. Its glossy foliage is mildew-proof. Flowers freely and continuously throughout the season. Very sweetly scented; superb.

Premier A new variety. A cross between Ophelia and Russell. Truly a big Rose that is ideal among the ever-bloomers; stiff stems, flowers upright, and what is more remarkable, the stems are almost free from thorns. Flowers large, broad petaled, glorious rose-pink. Foliage large, dark green. Deliciously fragrant. Claims the Premier place among American Roses.

SPECIAL OFFER Any six of your selections, 1-year plants, \$1.25. Any six in 2-year plants, \$3.25. The complete 1925 Dixie Rose Collection of 12 varieties, 1-year size, \$2.00; 2-year size, \$6.00. If you prefer to order them separate from the Collection they are 30c each, \$3.00 per dozen, postpaid. 2-year size, 70c each, \$7.50 per dozen.

ARTHUR G. LEE SEEDSMAN AND FLORIST FORT SMITH, ARK.

SHRUBS FOR PERMANENT PLANTINGS

Hydrangea Paniculata Creamy-white flowers, changing to pink, and borne freely in immense panicles. Flowers from June to November. Strong plants, 30c. Extra strong plants, 60c and \$1.00.

Hydrangea Arborescens The foliage is almost entirely hidden by beautiful sprays of immense snowy-white blooms from early June through August. Unexcelled for shady places, but does equally well in open. Strong plants, 30c. Extra strong plants, 60c and \$1.00.

Summer Blooming Lilac The fragrant, lilac-colored spikes have a remarkable attraction for butterflies. Strong plants, 20c. Extra strong plants, 40c.

Deutzia PRIDE OF ROCHESTER. Large, white flowers. Splendid for planting near the house. Strong plants, 30c. Extra strong plants, 70c.

Sweet-Scented Shrub The flowers when fully open are about the size of a silver dollar, of a mahogany brown color. Strawberry scented. Hardy. Strong plants, 30c. Extra strong plants, 60c.

Snowball Pure white flowers in dense clusters looking like balls of snow. Very attractive. Strong plants, 50c. Extra strong plants, 75c.

Single Mock Orange A hardy shrub with upright, often arching branches, attaining a height of six to eight feet. Leaves ovate, bright green, two to four inches long. Flowers creamy-white and deliciously fragrant. 35c each. Three for \$1.00.

Hardy Hibiscus Quite attractive as a single plant on the lawn, planted along the walk, or as a bushy hedge, producing, from June until fall, a show of beautiful flowers six inches and over across. Withstands the coldest winters. We offer three shades WHITE, PINK and CRIMSON. Each, 30c. Three for 85c.

Weigela One of the most conspicuous shrubs that we cultivate; flowers pink, dwarf, admirably adapted to small lawns. 35c each. Three for \$1.00.

Weigela The most distinct and one of the most attractive varieties. Flowers are deep carmine-red. Strong plants, 40c each. Four for \$1.14.

BRIDAL WREATH (SPIREA VAN HOUTTEI)

Bridal Wreath SPIREA VAN HOUTTEI. Beautiful foliage, and in May and June a fountain of arching, snowy-white bloom. Strong plants, 30c each. Extra strong plants, 60c and \$1.00 each.

Spirea Billardii Grows 3 to 5 feet, flowers in summer. Tall growing, with plume-like spikes of deep rose-colored flowers. Strong plants, 35c. Extra strong plants, 75c.

Japan Barberry Valuable for hedges or as specimen plants. Drooping yellow flowers, followed by bright red berries. Foliage changes to fiery crimson in autumn. This variety, unlike the common Barberry, does not harbor wheat rust and may be planted anywhere. \$1.50 per Doz. \$10 per 100. Stronger plants, \$2.75 per Doz. \$20 per 100.

California Privet Cheaper than fences, far more beautiful. The most popular ornamental hedge plant. Nice young plants, \$1.25 per dozen. \$8.00 per 100. Stronger plants, \$1.00 per dozen. \$12 per 100.

VINES

Sweet Honeysuckle A showy vine with purplish evergreen foliage. Flowers white, changing to yellow. 25c each. Larger plants, 50c.

Hardy Purple Wistaria For covering porches, verandas, a tower of beauty. Will make a porch or clusters of rich violet-blue flowers. Price, 30c each.

Clematis Paniculata A quick growing green foliaged climber, bearing fragrant white flowers from August until through the fall. Will make a porch or veranda a tower of beauty. Nice plants, 25c each. 3 for 75c. Larger plants, 75c and \$1.00 each.

Boston Ivy (CAMPLOPSIS VIETCHII). This climbing vine will cling firmly to the smoothest surface of rock or wood. The handsomest vine possible for growth on houses. The glossy leaves assume the most beautiful tints and colorings in the autumn. 25c each. 6 for \$1.35. Heavy plants, 65c.
