BULLETIN NO. 1

February 1, 1925

Mount Arbor Nurseries

E. S. WELCH, President

SHENANDOAH, IOWA

We offer one of the largest and most complete lines of General Nursery stock in the United States. Everything offered is young, thrifty, well-grown stock and graded to the highest standard. : : : : :

FOR TERMS AND CONDITIONS
REFER TO FALL 1924 TRADE LIST

STORAGE—Our modern Storage Buildings are especially designed for handling Nursery Stock in the best possible manner, enabling us to get the stock to our customers in prime condition. You should consider this in buying.

SEND US YOUR LIST OF WANTS. We can often quote lower than our published rates.

CAR-LOT SHIPMENTS—During the period from early December until about April 1st; we are usually able to make up combination car-lots for central distributing points, such shipments being made in proper season, for the class of stock sold.

HEIGHT AND CALIPER—Height given of fruit trees is approximate and represents average height of most varieties. Slow growing kinds will fall short of height specified as it is intended that **THE CALIPER SHALL GOVERN**.

ROOT GRAFTS

Ever since the Mount Arbor Nurseries were established in 1875, growing Apple Seedlings, Apple Trees, and making Apple Grafts for the trade and our own planting has been one of our specialties. For this work we employ only skilled labor and select the best material. We use orchard scions as far as possible and vigorous, healthy seedlings, carefully selected when grading our blocks of seedlings.

Our piece root grafts are made with a six inch scion and three and one-half inch root, the same style that we make largely for our own planting. For whole root grafts we use the entire seedling, either a straight or branched root as the customer may select.

Orders for grafts are made up special, and packed separately for each customer. They are repacked and inspected as often as necessary to insure their shipment in prime condition.

We get best results in our planting of grafts by plowing our land deep in the fall, and planting just as early in the spring as the condition of the soil will permit. Owing to the perishable nature of grafts, early planting nearly always produces best results.

Any Style Grafts Made to order

Prices quoted are for 100 and multiples of 100 of a variety.

FRUIT TREE STOCKS

American Grown

We have an exceptionally good lot of Apple Seedlings, which have made up strong, were grown on new land, kept thoroughly sprayed throughout the growing season, are vigorous and healthy, and are free from insects and diseases. They were not dug until November when well ripened, and will be graded to the highest standard. We guarantee them to give satisfaction.

When possible we forward shipments in car lot to central distributing points, so as to give our customers the benefit of car load freight rates.

FRENCH GROWN

We import our stocks direct from the best French Growers of Fruit Tree Stocks.

Upon arrival of our import shipments, which come in car load lots, all stock is carefully examined by a Government Inspector and only clean healthy stock allowed to pass. All stock is carefully regraded, hence customers can depend on getting stock of best quality without the risk of importing direct, which is an important item to consider in buying.

DECIDUOUS TREES

Our shade and ornamental trees are first-class, well-shaped, young and vigorous nursery grown trees, with good roots. They have been grown from seedlings, transplanted in nursery row especially for this purpose.

All calipers taken six inches above the collar:

AILANTHUS GLANDULOSA

ORNAMENTAL SHRUBS

Our shrubs are well grown, bushy stock, most of them twice transplanted; grown on rich land, with plenty of room to develop well furnished plants. Will compare favorably with any stock on the market.

PERENNIAL PLANTS

We are growing one of the most complete lines of Perennials in the Middle West. Our stock is twice transplanted, hardy field grown under overhead irrigation.

Color indicates bloom. Month period of blooming season. (") inches high when in bloom. (') Feet high when in bloom.

*This star indicates in addition to the regular Field grown stock we are offering Potted Plants. These varieties available only for spring delivery after April 15th. These plants are ideal for landscape work, immediate effect being obtained as they are growing and in full leaf when planted. This class of stock can be furnished at \$10 00 per 100.
