FALL CATALOGUE
"Hardy Perennials"
FOR 1925

DELPHINIUM (LARKSPUR)

West Hill Nurseries, Inc.
M. E. ROESCH, President
FREDONIA :- :- :- NEW YORK

INTRODUCTION

Dear Friends and Customers:

This year we take great pleasure in presenting to you at this time, our special catalogue of Perennial Plants. SEPTEMBER AND EARLY OCTOBER are the very best months to transplant all kinds of these old fashioned, but ever new and beautiful, flowers.

What delight it is to watch these hardy plants pushing their buds out just as soon as the sun commences to melt the snow and drive away Jack Frost. You see them develop into beautiful plants and flowers that give an abundance of bloom all summer long. What a saving of time for the busy man or woman, who loves flowers, but does not have the time to plant a lot of seeds each spring. Once these Perennials are planted very little care need be given them through the summer.

The glory of such a garden is in mass effects, which brings out the different shades of color, and cannot be obtained in any other way. We had this in mind when making our prices, reducing the ten and hundred rates considerably, which will help you to buy in larger quantities and thereby secure the better results.

Set plants from eight to twelve inches apart, giving them a little protection with straw or old leaves. While these plants are very hardy still a mulch of old leaves each Autumn will be beneficial, which will be reflected in the results attained each summer.

A selection of plants from this catalogue will give you a maximum of pleasure with a minimum amount of labor. We hope that you will find it of interest and that we may be favored with your valued order.

Yours truly,

WEST HILL NURSERIES INC.

M. E. ROESCH, President.

Garden of Iris and Hardy Plants

IMPORTANT TO PURCHASERS

HOW TO ORDER: An order blank is inserted in this catalogue for your conveniences. Please use it. Write plainly and enclose remittance in full for the amount of the order.

PRICES: All perennial plants quoted in this catalogue at each and 10 rates are delivered by mail, charges paid. Plants at 100 rates by express or mail, charges collect. Five plants of one kind at 10 rates. Twenty-five plants of one kind at 100 rates.

OUR GUARANTEE: We warrant all our stock to be true to name, of quality represented and to arrive in good condition, but are not responsible for continuing growth. Should stock not arrive in good condition report fully to Carriers and to us immediately.

Signed; WEST HILL NURSERIES, INC.

SPECIAL PREMIUM OFFER

On orders for Perennial plants amounting to \$8.00 or more you may select additional plants to the value of 10% of your order.

For example: If your order amounts to \$9.00 you may select additional plants to the value of 90c.

Send for Our Free GENERAL DESCRIPTIVE CATALOGUE

We carry a complete line of nursery stock including fruit and ornamental trees, bushes, vines and shrubs. A request by post card will bring a descriptive catalogue of our entire line to your door.

Hardy Perennials

ACHILLEA (*Yarrow*) **THE PEARL** — A handsome plant attaining a height of 2 feet, producing pure white flowers in the greatest profusion the entire summer. One of the best varieties for cut flowers.

ROSY MILFOIL—Foliage is deep green, finely cut. Flowers appear in large, flat heads in great profusion from June to late fall, and are a bright cherry-red. Very showy. Prices, 15c each, \$1.25 per 10, \$10.00 per 100.

ACONITUM, NAPELLUS (*Monkshood*)—Flowers in July and August, bearing bald spikes of large dark blue, hood-shaped flowers, thriving in either sun or shade. 3 to 4 feet. The roots are poisonous and should not be planted where the tubers might be mistaken for vegetables. Price, 15c each, \$1.25 per 10, \$10.00 per 100.

ANCHUSA, ITALICA (*Alkanet*)—This beautiful plant has attained the front rank among tall-growing perennials. They form much-branched specimens 3 to 5 feet high, each branch terminating in a large, pyramidal, graceful spike of brilliant blue flowers. It is considered by many as the most brilliant blue in all Nature. During May and June the rich blue tones of the flowers fill a vacancy not reached by any other flower, and should be planted liberally

Anchusa

in every garden. It is of easy culture and should be planted in a sunny position. Price, 20c each, \$1.60 per 10; \$12.00 per 100.

Anemone

ANEMONE - JAPONICA

(*Windflower*)—Anemones are valuable plants suitable for massing or single specimens. They grow rapidly and are profuse in bloom, gaining strength

and beauty each year. The flowering season extends from August until November, furnishing abundant supply for cut flowers as well as producing a brilliant field display. We offer the four leading varieties as follows:

JAPONICA ALBA—White.

JAPONICA RUBRA—Rosy red.

QUEEN CHARLOTTE — Semi-double pink.

WHIRLWIND—Double white.

Prices, 20c each, \$1.60 per 10, \$12.00 per 100.

Achillea

Prepaid at Single and Ten Rates

Campanula Medium

AQUILEGIA (*Columbine*) — The Columbines are justly called one of the most graceful and elegant of hardy plants. They produce their graceful spurred flowers on stems rising two feet or more above the beautiful divided foliage. The colors are of the most delicate hues. They are not at all particular about soil or drainage, but seem to thrive in any garden soil. Flowers are in bloom from May to July.

CAERULEA—Very large blue and white flowers.

CANADENSIS—Bright red and yellow.

CHRYSANTHA—Golden yellow with long spurs.

NIVEA GRANDIFLORA—Pure white.
Prices, 15c each, \$1.25 per 10, \$10.00 per 100.

LONG SPURRED HYBRIDS—This mixture is one of the most desirable and satisfactory, as they exhibit a wide range of colors. Price, 20c each, \$1.60 per 10, \$12.00 per 100.

BOLTONIA, ASTEROIDES (*False Chamomile*)—This is a native hardy perennial that has been propagated extensively for many years. It grows 4 to 5 feet very rapidly, producing large, aster-like flowers. Blooms during the summer and autumn. Price, 15c each, \$1.25 per 10, \$10.00 per 100.

CAMPANULA MEDIUM (*Canterbury Bells*)

—Very imposing hardy bi-annuals, profusely covered with large bell shaped flowers. Very showy. Height 3 feet. Mixed colors only in blue, rose and white. Price, 20c each, \$1.60 per 10, \$12.00 per 100.

CHRYSANTHEMUMS, HARDY When you think of late fall-flowering plants your mind naturally turns to the Hardy Chrysanthemums. They are universally popular for outdoor bedding, and considering their many good qualities, it is no wonder that they are cultivated so extensively. They produce a lavish display of bloom in October and November. Ordinary frosts do not seem to harm them in the least, and when the shrubs and trees have mostly lost their foliage, the Chrysanthemums are most welcome, producing an abundance of flowers for the table and can usually be cut until late November. Thrive anywhere. Can supply in red, rose, white and yellow. Price, 20c each, \$1.60 per 10, \$12.00 per 100.

With a liberal planting of flowers each year you will soon have a garden more beautiful than anything imaginable, and flowers the entire summer.

Hardy Chrysanthemums

Coreopsis, Lanceolata Grandiflora

CONVALLARIA (*Lily-of-the-Valley*) —

After the long cold winter of the North it is pleasant to see the Lily shoots coming through the ground, one of the earliest signs of spring. In fact they are frequently seen out of the ground in February as the winter cold and frost do not seem to harm them in the least. The leaves quickly appear and before we hardly realize that summer is here, the little racemes of bell-shaped flowers, which are so intensely fragrant can be gathered in quantity. A small cluster in the library will perfume the entire home with a fragrance that is both rare and elegant in nature. There is not a home where it is not possible to find a place for one or two clumps of roots of this choice plant. Sold in clumps of 8 to 10 pips. Price, 20c each, \$1.60 per 10, \$12.00 per 100.

COREOPSIS, LANCEOLATA GRANDI-

FLORA (*Golden Marguerite*)—This is one of the most satisfactory hardy plants for steady bloom in great profusion. Flowers are of a rich golden yellow, of good size, and the main crop comes in June. If cut every day they will continue to bloom the entire summer in a very satisfactory manner. It is a strong grower, the clumps increasing in size each season. Price, 15c each, \$1.25 per 10, \$10.00 per 100.

DAISY, SHASTA One of the finest plants for the hardy garden. The pure white flowers which are borne in great numbers are 3 to 4 inches across and very desirable for the table. They are of a glistening white, and are produced all summer and fall. It is best to keep them cut often, so new shoots will constantly be produced. It is a vigorous grower and one of the most satisfactory plants. Price, 20c each, \$1.60 per 10, \$12.00 per 100.

DELPHINIUM (*Larkspur*)—The tall English Larkspur are among the most beautiful hardy plants in cultivation. They come in several shades and increase in size and beauty each year. The spikes are immense in size and of the most delicate shades of blue. They begin to bloom in June, and if the flowers are cut off near the ground as soon as they fade, a second and third crop will bloom. It is a good plan to stake the stalks when they attain a height of 3 feet as a heavy wind will mutilate them.

BELLAMOSA—A dark blue variety.

BELLADONNA—Very delicate blue.

GOLD MEDAL HYBRIDS—A select strain containing beautiful shades of blue and purple.

Prices, 20c each, \$1.60 per 10, \$12.00 per 100.

Remember that orders amounting to \$8.00 or more entitle you to select additional plants to the value of 10 per cent of your order.

Convallaria (*Lily-of-the-Valley*)

Prepaid at Single and Ten Rates

DIANTHUS (*Hardy Pinks*)—Under this family name are two of our beautiful and well known hardy plants and yet so different in their appearance as to appear of no relation whatever.

BARBATUS (*Sweet William*)—One of the most satisfactory old fashioned plants. Flowers produced in large flat clusters on stems from 12 to 15 inches high. Wonderfully effective in early summer. We furnish them in mixed colors only as they are practically always grown in that way. The different colors and combinations in the individual flowers are almost endless. Price, 15c each, \$1.25 per 10, \$10.00 per 100.

PLUMARIUS (*Garden Pink*)—The old familiar garden pink. Look very much like dwarfed Carnation. Of spicy fragrance. Grows to a height of about 12 inches. Splendid for cut flower purposes. May-June. 20c each, \$1.60 per 10, \$12.00 per 100.

DICENTRA (*Bleeding Heart*)—Everyone loves the old-fashioned Bleeding Heart that our grandmothers always grew in their hardy gardens. For many years they were imported from Holland, but when the government stopped the shipments by embargo, they became very scarce. The long racemes of heart-shaped, pink flowers are always attractive. Comes up early in the spring and flowers immediately. Price, 70c each, \$6.00 per 10, \$50.00 per 100.

DIGITALIS (*Fox Glove*)—The grand display of thimble-shaped flowers in immense spikes, during July and August are just as popular today as they were a hundred years ago. We love these flowers and they are easy to sell. The

Digitalis (Fox Glove)

Dianthus (Barbatus)

strong stems attain the height of three to four feet, rising from rich masses of leaves which give the appearance of strength to the hardy border, and during their period of flowering frequently dominate the whole garden. The leading shades are white, rose and purple. Sold only in mixed colors. Price, 15c each, \$1.25 per 10, \$10.00 per 100.

FUNKIA (*Day Lily*)—Funkia are very suitable plants valued as much for their conspicuous foliage, as for their flowers. They are also among the very few really choice perennials which do well in shady locations.

SUBCORDATA—A handsome showy plant with large broad leaves and producing pure waxy white flowers borne in large trusses during August and September. Very fragrant and attractive. Price, 25c each, \$2.00 per 10, \$15.00 per 100.

UNDULATA VARIEGATA—A plant valued for its low growing habits and of beautifully variegated yellow and green leaves, making it an excellent plant for borders. Price, 20c each, \$1.60 per 10, \$12.00 per 100.

GAILLARDIA (*Blanket Flower*)—One of the showiest hardy plants, attaining a height of 2 feet and succeeding in any soil in a sunny position. It begins to flower in June and continues the entire season. A very profuse bloomer if cut often. The flowers are of gorgeous coloring. The center is dark red-brown, while the petals are strikingly ringed with brilliant crimson, orange and vermillion, and often a combination of all in one flower. Price, 20c each, \$1.60 per 10, \$12.00 per 100.

Gaillardia (*Blanket Flower*)

GEUM. MRS. BRADSHAW (*Avens*)—A splendid new variety with large double flowers of fiery red, resembling carnations on long slender upright stems blooming nearly all summer. Peculiarly attractive. An elegant bouquet flower. Price, 20c each, \$1.60 per 10, \$12.00 per 100.

GYPSOPHILA. PANICULATA (*Baby's Breath*)—This plant has made a place for itself in the hardy garden principally because of its effectiveness in making up bouquets. A branching slender stemmed plant rapidly forming a 2 to 3 ft. mound. The white flowers are so minute but in such quantities and with very little foliage, that it gives a misty effect. No one's garden should be without a number of these plants, which give a finished effect to all borders. No other plant can take its place. Price, 20c each, 1.60 per 10, \$12.00 per 100.

Gypsophila

HARDY ORNAMENTAL GRASSES

The Ornamental Grasses can be used with telling effect in borders and as individual specimens, as they are very hardy and rapid growers. An individual bed made of these plants is indeed beautiful and very attractive. We offer five varieties.

ERIANTHUS RAVENNAE (*Plume Grass*)—Resembles Pampus grass but is very hardy. Will grow 10 to 12 feet high, throwing up quantities of flower spikes.

EULALIA GRACILLIMA UNIVITTATA—(*Japan Rush*)—Of graceful habit with very long, narrow foliage of bright green color with silver mid-rib. 4 feet. A very attractive addition to the lawn or border.

EULALIA JAPONICA VARIEGATA—Similar to the above but larger and the stripes are lengthwise of green and white. 6 feet.

EULALIA JAPONICA ZEBRINA (*Zebra Grass*)—Very striking and distinct. Unlike most variegated plants the stripes of yellowish green bands run across the leaves instead of lengthwise. It also produces beautiful plume-like flowers at a height of 6 feet. A very popular species of the ornamental grasses.

PHALARIS ARUNDINACEA VARIEGATA

(*Ribbon Grass*)—Leaves striped lengthwise with white. Very ornamental. 18 inches. Excellent for borders or around trees where other things fail to grow. Prices, 20c each, \$1.60 per 10, \$12.00 per 100.

HELIANTHUS, SOLIEL D'OR (*Hardy Sunflower*) — Do

not confuse these plants with our common sunflower. They should always be planted in masses where they may have plenty of room. The flowers are large, very double, dahlia-like blossoms produced in abundance on strong stems 5 to 6 feet high. Especially desirable for cutting. Price, 20c each, \$1.60 per 10, \$12.00 per 100.

HEMEROCALLIS (*Lemon Lily*) — Lemon

lilies have long been favorites in our gardens and are always included in any list of the most popular hardy plants. The tall, graceful, grass-like foliage is very handsome and sets off the charming lemon yellow, lily-like flowers very effectively. They thrive most luxuriantly in partial shade. Price, 15c each, \$1.25 per 10, \$10.00 per 100.

HIBISCUS (*Mallow*)—The Hibiscus are a wonderful group of plants extending over the whole of North and South America. The perennial varieties

Hibiscus (Mallow)

Ornamental Grass

are all vigorous growers, usually attaining the height of 4 to 5 feet. They produce large flowers often 6 to 8 inches across on strong semi-woody stems, which should be cut back to the ground each fall, preparing the plant for growth the following spring. We offer the two old sorts as well as the new Marvels.

CRIMSON EYE—Large white flowers with crimson centers.

MOSCHEUTOS—Pink flowers with a dark eye. Prices, 15c each, \$1.25 per 10, \$10.00 per 100.

MALLOW MARVELS—Flowers of these new sort often attain the size of 10 to 12 inches across and with the bright colors of pink and red are very striking indeed. Can furnish in separate colors. Price, 20c each, \$1.60 per 10, \$12.00 per 100.

HOLLYHOCKS (*Double Flowering*). These stately, majestic plants are as old as the country, but the choice double varieties are not so well known. They grow 6 to 8 feet high and are an essential part of every old-fashioned garden. There is no other plant that takes the place of the Hollyhock. The flowers begin to open at

German Iris

(HOLLYHOCKS CONTINUED)

the bottom of the stalk and are in bloom for several weeks. We offer strong double flowering plants in the following colors: crimson, maroon, pink, yellow and white.

MAMMOTH FRINGED—This class of Hollyhocks is very beautiful indeed. Flowers are extra large with petals finely curled and fringed. Are in bloom over a long period of the summer. Offered in mixed colors only. Prices, 20c each, \$1.60 per 10, \$12.00 per 100.

IBERIS SEMPERVIRENS (*Evergreen Candytuft*)

These are very desirable dwarf plants used mostly as an edge for beds or in rock gardens. They attain a height of 8 to 10 inches with evergreen foliage which is completely hidden with dense heads of pure white flowers early in the spring. Very fine for cemetery planting. Price, 25c each, \$2.00 per 10, \$15.00 per 100.

IRIS, GERMAN The rainbow flower of the hardy garden. In its different classes and varieties the Iris has become one of the most popular of all perennial plants and is one of the standard kinds needed to complete the hardy flower garden. They are of the easiest culture and succeed everywhere. The plant rapidly spreads, forming large clumps throwing up innumerable spikes of delicately made and richly colored flowers. There are an endless variety of colors and when grown in a mass produce a wonderful display. We offer the following varieties. The letter "S" refers to standards or upright petals, "F" stands for the fall or drooping petals.

CANARY BIRD—S. canary yellow, F. white.

CELESTE—Clear light blue.

CUBEO—S. rich yellow-orange, F. heavy penciled maroon.

FLORENTIA ALBA—White free-flowering and sweet scented.

FULDA—S. satiny white, F. lilac, feathered yellow.

HER MAJESTY—S. lavender rose, F. crimson over white.

HONORABILIS—S. golden yellow, F. crimson.

MADAM CHEREAU—S. white edged and veined blue. Beautiful.

MRS. DARWIN—White veined and penciled crimson.

PARISIENSIS—Earliest, showiest. Deep purple. Beautiful.

Prices, 15c each, \$1.25 per 10, \$10.00 per 100.

IRIS, JAPAN A bed of these plants when in bloom is beyond description. While they do not multiply as rapidly or send up as many flower stalks as the German Iris, still the magnificent coloring of the very large flowers, more than make up for the lack in numbers.

GOLD BOUND—Pure white; one of best.

Japanese Iris

Prepaid at Single and Ten Rates

*(JAPANESE IRIS, CONTINUED)***HO-O-MUJA**—Pale pink, lavender veined.**HATSU-GAVE**—White, spotted purple.**KOMOCHI-GUMA**—Violet, double and blooms in clusters.**MT. HOOD**—Light blue, shaded darker.**PARAGON**—Rich, velvety purple.**PYRAMID**—Lilac blue, veined, white center on each petal.

Prices, 25c each, \$2.00 per 10, \$15.00 per 100.

LIATRIS (*Blazing Star*)—Popularly known in Kansas as Grey Feather. Nothing can be planted that will attract more attention on account of its unusual appearance; but it is beautiful as well as odd, throwing up long narrow spikes of rich purple flowers in mid-summer which last a long time. Peculiarly attractive to butterflies. Price, 15c each, \$1.25 per 10, \$10.00 per 100.

LYCHNIS (*Campion*)—A plant of easy culture, bearing large heads of brilliantly colored flowers, that brighten up borders during summer and early Autumn.

CHALCEDONIA (*Maltese Cross*) — A most desirable plant; heads of vivid scarlet flowers, blooming a long time. Grows 2 to 3 feet high. Price, 15c each, \$1.25 per 10, \$10.00 per 100.

VISCARIA SPLENDENS (*Lamp Flower*) — A bushy plant of almost evergreen foliage, fairly ablaze with close spikes of

Lychnis

fragrant crimson flowers, during June and July. Price, 20c each, \$1.50 per 10, \$12.00 per 100.

PEONIES There is no need of our giving a long description of the Peony as it is by far the most popular of all hardy plants. In no other is found so many desirable qualities with so few objections. They are easy to grow, hardy everywhere and free from diseases and insect pests. There are many hundreds of varieties but we only offer a few of the best, in the different colors from white to dark red. Many of these rival the rose in delicacy of fragrance. Blooms in May and June.

ALBA SULPHUREA (*Mont Blanc*)—Light sulphur yellow changing to white.

ANEMONEFLORA—Delicate rose, with bluish white center. Very fine.

CANARY—A strong, healthy grower; very prolific. Large and very double. In color a creamy yellow.

DORCHESTER (*Richardson*)—Quite dwarfish and late. Flowers very double. Delicate pink.

DUCHESSE D'ORLEANS—Large and compact. Deep rose-color, center changing from buff to silvery rose.

Duc de Wellington

We will send free upon request our General Descriptive Catalogue.

(PEONIES, CONTINUED)

duc de Wellington—Very large and double. Creamy white, bleaching to pure white.

edulis superba—Early and very fragrant. Deep pink.

Festiva alba—One of the best white varieties. Quite prolific.

Festiva maxima—Probably the largest and most popular of all the Peonies. Pure white, center petals tipped carmine.

Henri Demay—Very large, double, fragrant. Late; violet-purple.

Hercules—Of immense size. Color a bright rose to blush white, deep yellow center.

L'Éclatant—Large, full flower, purplish crimson, best of that color.

Modeste Guérin—Broad flowers of cherry rose with light center, changing to light rose. Keeps well.

Officialis rubra fl. pl.—Rich deep crimson and very early. The old red peony. 75c each.

Queen Victoria—Large, blush white.

Richardson's Perfection—Large, light flesh white center.

Rubra triumphans—Early. A very beautiful, satin-finished and intense crimson variety of rich fragrance.

Tenuifolium—Fringed-leaved. The earliest. Of intense crimson-scarlet color. Single. Very desirable.

Prices of all varieties, except as noted, 55c each, \$4.50 per 10, \$35.00 per 100.

Phlox We consider the Phlox as one of the great groups of hardy plants. There is none other that will produce such a dazzling display of all colors and shades from early July until frosts as the perennial Phlox. The plants grow larger and better each year and if the first flowers are cut off as soon as faded

the plant will throw up new flower stalks, giving a succession of bloom until very late in the fall. The varieties that we offer below are all strong growers producing large flowers and very adaptable to cutting for bouquets.

Anton Mae—Large flowers, lavender with white eye. Beautiful.

August Revere—Salmon red, dark eye.

Bridesmaid—Flowers very large, white with deep red eye.

Coquelicot—A brilliant orange-red with violet eye.

Rhinlander Phlox

Henry Munger—Big as a dollar, white with a large carmine center.

Miss Lingard—Blooms from the ground up. Waxy white with lavender eye.

Peachblossom—Low growing and bears a perfect mass of delicate pink flowers.

Rhinlander—A rare shade of salmon-pink, intensified by a distinct claret-red eye. Flowers and truss of unusual size.

Rosenberg—Extremely large flowers in a loose truss; bright reddish violet or wine color, with blood-red eye.

R. P. Struthers—Rosy salmon, crimson eye. Very showy.

Ryndstrom—A lively Paul Neyron shade of rose-pink.

The Pearl—Pure white. A standard.

Prices, 20c each, \$1.60 per 10, \$14.00 per 100.

Hardy perennials, planted in borders or masses, are one of the most effective means of supply color to lawns, landscapes or turfs. They are perpetual growers and bloomers.

PHLOX SUBULATA (*Moss or Mountain Pink*) — An early

spring flowering type with pretty moss-like, evergreen foliage, which, during the flowering season, in April and May, is hidden under the masses of bloom. An excellent plant for the rockery, for edging the border, and invaluable for carpeting the ground or covering graves.

SUBULATA ROSEA—Rose pink.

SUBULATA ALBA—Pure white.

Prices, 20c each, \$1.60 per 10, \$12.00 per 100.

PAPAVER (*Poppy*)—For splendor and

gorgeous effect nothing surpasses the hardy Poppy. It is of the easiest culture and does well anywhere, although when planted in deep rich loam it flourishes best. A few plants of the *Bracteata* variety in the garden will add mightily to the attractiveness on account of their wonderful rich red color.

BRACTEATA—An improved type of the Oriental Poppy, of a deep blood-crimson color; mammoth flowers with black centers, often growing 7 to 8 inches across on 3 ft. stems. Price, 25c each, \$2.00 per 10, \$15.00 per 100.

Oriental Poppy

NUDICAULE (*Iceland Poppy*)—This little plant is desirable on account of the bright green fern-like foliage, from which springs throughout the entire season a profusion of slender leafless stems 1 ft. high, graced with charming cup-shaped flowers. You will be delightfully surprised at the early and continuously blooming habit of this plant. Offered in mixed colors only of white, yellow and orange. Price, 15c each, \$1.25 per 10, \$10.00 per 100.

A Poppy bed should be the pride of every home owner.

PLATYCODON (*Balloon Flower*)—These plants form neatly branched bushes of upright habit that grow 2 ft. high, producing their attractive blue and white flowers from July to October. It is a very popular plant and is well liked. Can furnish in separate colors, white and blue. Price, 15c each, \$1.25 per 10, \$10.00 per 100.

PYRETHRUM ROSEUM Bears a profusion of large single flowers of a very bright pink and rose color. Its foliage also is finely cut and attractive. Splendid for cutting.

Flowers in June and July. Price 20c each, \$1.60 per 10, \$12.00 per 100.

RANUNCULUS**REPENS, fl. pl.**

(*Double Buttercup*) Pretty, double-flowering, bright golden yellow Buttercup. Masses of flowers in May and June. 2 ft. Price, 20c each, \$1.60 per 10, \$12.00 per 100.

RUDBECKIA

(*Golden Glow*)—One of the brightest and showiest of hardy flowers and easiest to grow. It produces a mass of double yellow flowers from July until frost. Excellent for cutting. 6

feet. Price, 15c each, \$1.25 per 10, \$10.00 per 100.

SPIREA (*Meadow Sweet*)—An elegant border plant with feathery plumes of flowers and neat attractive foliage. Successful in all locations. 2 feet. June.

JAPONICA—Flowers creamy white, of great beauty. Especially desirable to plant with shrubbery.

PALMATA—Flowers purplish-crimson. Flowers in late summer.

Prices, 20c each, \$1.60 per 10, \$12.00 per 100.

STOKESIA CYANEA (*Stokes Aster*)—A most charming and beautiful hardy plant that we cannot recommend too highly. It is a most profuse bloomer, with size and habit much like the Aster that is grown from seed. It is 18 inches high, well branched and the right lavender-blue flowers are produced from June to September. It is of the easiest culture, succeeding in any open, sunny position, but it can be used in masses with telling effect. Price, 20c each, \$1.60 per 10, \$12.00 per 100.

STATICE LATIFOLIA (*Sea Lavender*)—A most valuable plant either for the border or rockery, with tufts of leathery leaves and immense candelabra-like heads, frequently 1½ feet high and 2 feet across, of purplish blue, minute flowers during July and August. These, if cut and dried, last in perfect condition for months. Price, 25c each, \$2.00 per 10, \$15.00 per 100.

TRITOMA PFITZERI (*Red Hot Poker*)—The free and continuous blooming qualities of this plant have made it a great favorite among plant lovers. Its curious cone-shaped blossoms are grown on strong 3 ft. stems, flowering from August to October. Its brilliant orange-scarlet coloring attracts wide attention and when massed they are very beautiful indeed. Should receive protection during the winter. Price, 25c each, \$2.00 per 10, \$15.00 per 100.

Tritoma Pfitzeri

Yucca Filamentosa

VERONICA (*Bluebird Flower*)—This is one of the very handsomest hardy flowering plants of blue color. Its flowers, which are produced in great profusion from July to September, reminds you of blue birds perched in the foliage, when seen from a distance. It is perfectly hardy and grows in strength and beauty from year to year. 2 feet. Price, 15c each, \$1.25 per 10, \$10.00 per 100.

YUCCA FILAMENTOSA (*Adams Needle*)—The list of hardy evergreen plants is not large and this variety with its distinctly tropical aspect is a welcome addition. Its broad, sword-like evergreen foliage and spikes of drooping creamy white flowers raising to a height of 3 or 4 feet, make it bold and handsome wherever placed. A few evergreen plants in the garden relieves the dead aspect of winter and presents a good appearance. Price, 25c each, \$2.00 per 10, \$15.00 per 100.

Hardy Perennials furnish flowers every year and do not have to be replanted.
