A STATEMENT

All About a Catalogue

THOUSANDS of names are on a waiting list for our 1925 catalogue, and hundreds of requests are arriving weekly. As President of this gigantic project, I am eager to care for each individual request, for you represent my future business growth and prosperity.

Therefore, my statement is a personal one to you, and I seek your patience and friendly co-operation. I should like to be able to picture to you the extraordinary and beautiful catalogue that is in the making for our introductory bow as the Ohio Seed and Products Company, and which you will receive, but it must be postponed, and it will be our 1925 and 1926 combined Big Book.

There is greater regret in this delay, for me, than for you as naturally I want you to know all about our remarkable 5,000 acres, and our new, especially illustrated catalogue gave me just that opportunity. You know the Ohio Seed and Products Company is a Million Dollar Company, which has combined the recently-purchased Wing Seed Company, its assets, good will, seed stocks, etc., with Wisteria Farms, comprising some 5,000 acres, and with this consolidation we are able to serve your every want in our lines to your fullest satisfaction. You may be assured that the splendid reputation for quality, accuracy and honesty as established by the late Joseph Wing, shall at all times be maintained.

Full information and pictures a-plenty to help the wonderful story, are contained in our forthcoming fine catalogue, which will be in your hands before the end of 1925.

We have stocks of Seeds, Bulbs and Nursery Products in abundance and of supreme quality, the purchase of which will surely add you to our list of satisfied customers. We aim to keep in the 100 per cent class in every division of our great plan of operation, and each request or order, whether large or small, shall receive individual, careful attention. If you will make a list of your requirements and submit same, I will deem it a privilege to extend special information and quotations. Knowing positively that our well-organized company can meet all your requirements, especially as to prices, I ask your interest and orders.

We wish you might visit Wisteria Farms, for a warm welcome awaits you, and you will be repaid in every way. Yes, this spring there will be 400 acres of Iris, 150 acres of Gladioli, 125 acres of Peonies, 150 acres of Dahlias and hundreds of acres of endless varieties of flowers. Just think of 2,500 acres planted to our Pedigreed Seed Corn!

These are just high lights, for you will richly enjoy going through our greenhouses and over our large nursery areas of flowers and shrubs.

Then comes the Dairy Division, with its famous Pure Bred Holstein Cattle. As for Hogs, well, I wish you could see the happy families of Pedigreed Hampshires and Durocs that really exceed the congestion of our large cities. So I make you this statement that you may realize in some slight degree what a busy lot of people we are here on Wisteria Farms, all happy and busily engaged in bringing into full fruition one of the greatest Seed and Nursery Farms in the entire world. There has been so very much to do that my co-workers and I feel you will all understand the delay of our catalogue when you appreciate the magnitude of our efforts on Wisteria Farms.

You know I feel as if I were kin to every one interested in growing things in Mother Earth, as my whole life has been spent with the greatest Seed and Nursery concerns, as were those of my ancestors since P. Therkildson raised his first Nursery and Seed Products in Denmark as far back as 1640. The cumulative experience of these many, many years, coupled with modern machinery, modern methods, and an area and equipment unsurpassed anywhere, is the service we shall offer our friends and customers of the future.

May our progress and success carry on, with your name on our books. Awaiting your commands,

Sincerely,

THE OHIO SEED AND PRODUCTS CO.

W. F. Therkildson

President.
