LATE FLOWERING
DOUBLE CRESTED COSMOS

TERMS: F. O. B. California terminal; flower and vegetable seeds, 60 days net or 2 per cent discount for cash within 30 days from date of invoice.

NON-WARRANTY. We exercise the greatest care in growing and harvesting our seeds, roguing our crops under personal supervision, to the best of our ability, true to name, and sending out nothing but what we believe will give satisfaction. It must, however, be expressly understood that we warrant neither growth, description nor productiveness of any seeds we deliver, nor will we hold ourselves responsible for the crop raised from any of the seeds we grow.

If our goods are not accepted on these terms, we should be notified at once.

ASTER—CALIFORNIA GIANT—PEACH BLOSSOM

ASTERS

NEW ASTERS OF OUR OWN PRODUCTION

We have noted with pleasure the steadily increasing popularity of the Beauty Aster as a florist's flower. The colors are good, and their keeping qualities unsurpassed. They are excellent shippers.

LATE BEAUTY TYPE

Plants about 2 to 3 feet high, of branching habit, commencing to bloom in early September and lasting until destroyed by frost. Flowers large, borne on long and stout stems, from 18 to 24 inches. This applies to all of the Beauty Class, making them most desirable for cut flowers.

	Per oz.	Per ¼ lb.	Per lb.
Azure Fairy, pleasing light blue....	.75	2.50	8.00
Carmine Rose (original Beauty introduced)	.75	2.50	8.00
Crimson	.75	2.50	8.00
Lavender, light grayish lavender....	.75	2.50	8.00
Peach Blossom, very desirable.....	.75	2.50	8.00
Purple	.75	2.50	8.00
Rose, pleasing bright rose.....	.75	2.50	8.00
September Beauty, delicate flesh pink	.75	2.50	8.00
White Beauty, Giant white.....	.75	2.50	8.00
Finest Mixed	.75	2.50	8.00

EARLY BEAUTY TYPE

This type has all of the characteristics of the Late Beauty Type, and is valuable for locations where the season is too late to flower the late type before frost, and for early forcing.

We wish to emphasize, however, that this is not an Early Aster as compared with Early Express or Queen of the Market, but earlier than the late Beauty Type which is the latest of all Asters. Planted at the same time this type flowers with the Crego and American Branching. Please note we have added three colors to this type.

	Per oz.	Per ¼ lb.	Per lb.
Carmine Rose	1.00	3.50	12.00

White	1.00	3.50	12.00
Finest Mixed	1.00	3.50	12.00

A NOVELTY OF MERIT

California Giants

Since introducing the Beauty Type we have frequently received inquiries for a Crego with the robust habit of growth and length of stem that characterizes the Beauty Type. After several seasons of hybridizing and selection we now take pleasure in offering a type characterized by the Beauty's vigorous growth and the Crego or Ostrich Feather type of flower. A true non-lateral type.

The flowers are much larger and more substantial than the Improved Crego. They measure 5 to 6 inches in diameter, and stand up well when shipped as cut flowers. Their immense size and beauty, as well as their long and sturdy stems make them very attractive when arranged in floral work, and they well deserve their name. They show a great improvement over previous years and are proving a novelty of merit, and has received many prizes and Awards of Merit, wherever exhibited, throughout the world.

ZINNIAS**BODGER'S GOLD MEDAL DAHLIA FLOWERED**

In July, 1924, the Royal Horticultural Society of England granted an "Award of Merit" for the strain, and a Gold Medal for the group of Dahlia Flowered Zinnias exhibited in the London Show. This official recognition of the strain meant much to its originator, our late president, John Bodger, who had put forth the best efforts of his last years in perfecting this type. In 1925 this novelty was granted two more awards of merit.

The large size, fullness of petals, extraordinary color range, and good keeping qualities of this flower have all contributed to its popularity. It is easily grown, and keeps well when cut. It is at present immune from disease. Equally

good as a garden flower and as a florist's specialty, its popularity should increase with years. It has been truthfully called "A NEW FLOWER FOR THE PEOPLE."

A Florist's Moneymaker

This type is proving a good forcer among the florists. Polar Bear is forced and used extensively as a bunching flower for Mother's Day, while Exquisite, Old Rose, Golden State, Crimson Monarch and Canary Bird are specially recommended to force as desirable colors for florists for early spring trade.

To assist in visualizing the true color, we have inserted, parenthetically, Ridgeway's Color Chart descriptions.

We offer all varieties as follows:

ZINNIAS—Continued

Per oz. Per ¼ lb. Per lb.
3.00 10.00 35.00

- EXQUISITE**—By far the most pleasing of our collection. Truly DAHLIA flowered as regards form and size. Color light rose with center a deep rose. (Tyrian Rose.)
- OLD ROSE**—This is adequately described by its name, as it is of the real Old Rose Shade; it is large, and for charm and beauty we consider it ranks next to Exquisite.
- ILLUMINATION**—Similar to Exquisite, but a striking self color of deep rose. (Tyrian Rose.)
- GOLDEN STATE**—A very rich orange yellow (Cadmium). Yellow in the bud, turning to an attractive orange when in full bloom.
- CRIMSON MONARCH**—By far the largest and best of the red shades. Flowers often eight inches in diameter. Plants very vigorous. A marvelous production of extraordinary merit.
- GIANT ATTRACTION**—A distinct shade of brick red (Spectrum Red) which carries its color well from the bud, and forms into an immense ball of color when in full bloom.
- SCARLET FLAME**—A large, beautiful, bright scarlet, with a delightful blending of orange throughout the petal. This is not a bicolor.
- METEOR**—A rich, glowing deep red (Spinel Red) and the darkest of all the red shades. Fine form, with good depth of petal. Very large and more floriferous than other reds.
- LEMON BEAUTY**—This is next to Crimson Monarch in size and form. It may be described as a golden yellow on brown. Decidedly a pastel shade, and should be in every collection. (New.)
- ORIOLE**—We consider this the most beautiful of its class. It is an immense orange and gold bicolor, changing slightly as it ages, but at all times worthy of the beautiful bird for which it is named.
- DREAM**—A fine, deep lavender, turning to purple (Mallow Purple) a new, desirable shade in Zinnias.
- PURPLE PRINCE**—A fine, deep purple (Rhodanthe Purple) large and well-formed. (New.)
- POLAR BEAR**—A very large pure white, the best white yet seen in Zinnias. True Dahlia form.
- BUTTERCUP**—An immense deep creamy yellow. A very desirable flower, which should be included in every collection.
- CANARY BIRD**—A delicate shade of primrose—very large and holds its color well until out of bloom.

SPECIAL GOLD MEDAL MIXTURE—

Per oz. Per ¼ lb. Per lb.

- A well blended mixture containing all the above novelties. 1.50 4.50 15.00
- ALL COLORS MIXED**—While this mixture may not contain such a variety of colors as the Special Mixture, its color range is very good; it has been thoroughly rogued in the field for type and size of flower. 1.00 3.00 10.00

THE FOLLOWING ARE A FEW BRITISH PRESS COMMENTS

Few gardeners grow the Zinnia for greenhouse and conservatory decoration; but after the magnificent spectacle we were treated to at last week's meeting of the Royal Horticultural Society, it will not be surprising if this flower achieves a *vogue*. The group which Messrs. Dobbie & Co. set up was remarkable for the vigour of the plants, the size of the flowers, and the brilliance of the colours. They are the strain known as the Giant Dahlia-flowered, raised in America by Bodger's and introduced to this country a year or two ago. To say that these flowers are an advance on the ordinary type of Zinnia is to put it very mildly. They were in many cases over four inches across, as fully double as a Decorative Dahlia, and carried on remarkably stout

stems. For the summer garden this half-hardy annual has long enjoyed a measure of popularity which should increase by leaps and bounds as the new type becomes known. Their adaptability for pot culture was made plain on this occasion, for they had been sown in gentle heat early in the year and grown in pots throughout. The flowers stand well when cut and the various shades of pink, rose, orange and yellow blended nicely together. An Award of Merit was given for the strain and a gold medal for the group.—"Garden Life," August 2, 1924.

An unusual exhibit was that of Giant Zinnias shown by Messrs. Dobbie & Co., of Edinburgh. These had large double flowers, some 4 inches or 5 inches in diameter, of all shades of yellow, orange, scarlet and magenta. The plants were exceptionally well grown and received the Gold Medal of the Society.—"The Times," July 23, 1924.

Zinnia, Dobbie's Giant Dahlia Flowered.—In this fine strain of an annual which once enjoyed great popularity for summer bedding, the flowers are of unusually large size and excellent shape. The colors are varied, ranging from pale pinkish buff, through rose, yellow and scarlet to rich crimson. Some of the blooms were so much as five inches across and three inches deep. A very handsome strain. Shown by Messrs. Dobbie & Co.—"Gardeners' Chronicle," July, 26, 1924.

Annuals—Messrs. Dobbie were alone in this section with a grand exhibit of the new Dahlia-flowered Zinnias (Bodger's). There were some 400 plants in pots (weighing 1½ tons), making a gorgeous show. The strain is new, still needing a little selection, but the majority of the blooms were huge, well formed, and of every shade of scarlet, orange, etc., etc. The Committee showed their approval of an unique exhibit by granting a gold medal as well as the award.—"Horticultural Advertiser," July 30, 1924.

PICOTEE TYPE

The Picotee Zinnia, introduced by us in 1919, differs from other types in that each petal is outlined by a contrasting color which harmonizes with the body of the flower. The form and color range are similar to the Giant type, but the size is between the Giant and Pumila types. They are useful to provide variety in that portion of the garden devoted to Zinnias, but they are especially adapted for use as cut flowers. They reproduce about 70% true.

Per ¼ lb. Per lb.

- Golden Pheasant—Gold ground tipped with maroon 3.00 10.00
- All colors mixed, including new colors from white to scarlet 2.50 8.00

QUILLED TYPE

Per ¼ lb. Per lb.

- Victory Choice Mixed—including several new colors; this variety has been greatly improved in size and range of color this year 2.50 8.00
- Achievement, Mixed 2.50 8.00

GIANT MAMMOTH TYPE

- Orange King 2.50 8.00
- Orange Queen 2.50 8.00
- Purity 2.50 8.00
- Rose Queen 2.50 8.00

In presenting the above type we offer a rare collection of striking and desirable colors. We have overcome the objectionable feature of the old Giant type; that is, the conical shape, our new Giants having smaller centers and more loosely placed petals, while the size of the flower has been notably increased over the Giant Plenissima. The petals are decidedly imbricated and the flower from bud to full bloom presents a graceful appearance.

ORANGE KING is a striking shade and can be compared favorably with the color of the Calendula from which it takes its name.

DAHLIA FLOWERED ORIOLE

ZINNIAS—Continued**Giant Mammoth Type**

LEMON QUEEN is of immense size and a color that is most pleasing. The petals are light canary on the upper and cerise on the lower side, the two shades blending as the flower develops, making a variety of lemon tints. It is also unique inasmuch as it carries a pleasant odor. This characteristic is not to be found in other Zinnias. In short, it is "delightfully different" and worth listing.

ORANGE QUEEN, while not so dark an orange as Orange King, is a very striking shade quite different from any orange offered by us before and quite indispensable for a complete collection.

PURITY, like the Polar Bear, Dahlia Flowered type, is a clean white. It has lost the greenish tint that has made white Zinnias unpopular in the past.

ROSE QUEEN: This flower opens first as bright rose with a deep rose red center and gradually develops into a warm deep rose when in full bloom. Unquestionably this is the most pleasing of the set for size and form as well as color and has been a favorite with all visitors in the past season.

Mammoth Early Branching Nice

This variety is now recognized as the most valuable of all Stocks for cutting purposes and the most popular for general use.

If sown early, they come into flower as early as Dwarf Ten Week varieties; the flowers are larger, and the branching habit renders them invaluable for florists.

In Separate Colors	1.25	4.00	12.00
ABUNDANCE, pale crimson rose
