R. 1, Mt. Carmel, Ill.

Phone No. 21-5,
Lancaster, Ill.

We want to grow and build up
and the building material we
want to use is satisfied cus-
tomers.

Quality Grape Vines and Berry
Plants our specialty.

Descriptive price list of better varieties of grapes and berries. Our grape vines and berry plants are most carefully packed in damp packing and wrapped in waterproof paper. Our aim is to deliver to our customers in the very best growing condition. Nursery stock that is the cream of varieties grown at the present time.

GRAPES

CONCORD—The leading commercial grape of today. Bunch and berry, large, juicy and sweet. Vine healthy, vigorous and productive. Ripens medium early. The best all 'round grape for canning or grapejuice. Popular for general planting. Each, 10c. Doz., \$1.00—1 year old. Strong 2-year-old vines, 15c each; doz., \$1.50.

Skin thin, tough, melting and sweet to the center. Usually a little earlier than Concord.

WOODRUFRED—Bunch and berry large and handsome, sweet and of good quality. A strong vigorous grower of ironclad hardness. A long keeping grape.

WORDEN—The very finest of the black grapes. Bunch and berry very large, superior flavor, ripening before Concord.

All the following varieties of grapes 1 year old, 15c each, dozen \$1.50; 2-year-old, 20c each, dozen \$2.00.

NIAGARA (White)—A strong grower and very hardy. Bunch large, compact and uniform.

CALIFORNIA RED—An excellent grape of long keeping qualities; berry slightly oval; vine strong, stocky, short-jointed grower; a good one to grow on the home arbor.

RASPBERRIES

HAYMAKER—I head the list with this one as being the most productive and the best for canning. It begins to ripen with the last of the black caps and continues in bearing much longer than any black cap. Berry conical shape, good quality; dark red to purple; vigorous and hardy cane. Doz., 35c; 100, \$2.50.

GEORGIA BLACK CAP—The strongest grower and hardiest cane of any black cap; berry jet black, fine quality, firm and very productive. Doz., 35c; 100, \$2.50.

WINFIELD—One of the largest early berries that has much to recommend it; good quality, productive and easily picked. Doz., 35c; 100, \$2.50.

LUCRETIA DEWBERRY—Berries are larger and better than any blackberry; hardy; productive without hard core; ten days earlier

than blackberries; a good money-maker; 25c dozen; 100, \$1.50.

NOTICE—Orders for \$1.00 or more can be sent by parcel post, C. O. D.; collection fee, 10 cents extra. Certificate of Nursery Inspection with all orders.
