FALL 1926 CATALOG OF

BULBS, SEEDS, SHRUBS, TREES AND SOME BETTER SEED WHEAT FOR FALL PLANTING

A LITTLE PERSONAL TALK

Our aim in sending you this catalogue is to help you to have House Flowers blooming next winter, and make your garden and Lawn more beautiful next Spring and Summer. Also we say "Plant another Tree and Plant More Shrubs and Vines." If the people where this catalogue comes are growers of Winter wheat, then, pages 17 to 24 should be of much interest.

Will the ladies of this home please look over our lists, pages 2 to 16, and, while doing so have in mind that they represent the BEST qualities and we sell many things for LESS than is usually asked. There is hardly a home in the country that cannot select something from this catalogue, and at an expense not to be considered, when set off against the pleasure, satisfaction and profit that will follow. If you have "GROUNDS" then practically all the lists may contribute to your selections. But if you have only a "HOUSE" or an "APARTMENT" or only a "ROOM" then you can make your HOME more cheerful in the dark and dreary days of winter by planting the lovely HYACINTHS, TULIPS, NARCISSUS, LILIES, etc., in dirt, fiber or water. Also think what satisfaction and profit you can have in the future from some FRUIT TREES, and FRUIT PLANTS set out now, or what satisfaction from our HARDY PLANTS, VINES and SHRUBS planted this Fall.

TERMS OF SALE All bulbs, plants, shrubs and seeds in this catalogue will be delivered at prices unless stated to the contrary. Some exceptions are Fruit Trees, Fruit Plants, Seed Wheat and Clover and Grass Seeds. The same terms apply in Canada, but purchasers must pay the customs charges on delivery. Canadian customers, please do not order perishable things.

ABOUT GUARANTEE We guarantee safe arrival, in good condition and when there is any loss or damage we must be notified at once. We do not however, agree to replace any plants, bulbs, trees etc., that perish after planting or by the winters nor guarantee the crops from anything we sell because of so many conditions that may arise over which we can have no control.

227 W. Washington St.

INDIANAPOLIS, IND.

5 N. Alabama St.

HYACINTHS

One of the most universally admired flowers for the house, lawn and garden. They have been called "Queen of Spring." They are grand for bedding and they can also be grown indoors. They never fail to bloom if the simple directions are followed.

CULTURE INDOOR—Plant in pots with light, rich soil. Mix with it one-third well rotted cow manure. Or plant in our prepared Jap Bulb Fibre in dishes. Use a 4 or 5 inch pot for single bulb and 7-inch for 3 bulbs. Fill pot one-half full of compost, place bulb in and cover. Don't force bulbs down, but have soil loose under. Water and set in dark place. Keep moist. When lower part of pot is full of roots bring to light as wanted to bloom. Don't put in full sunlight at once.

FOR GROWING IN GLASSES—Fill Hyacinth glass with water so the base of bulb only touches. Then place in cool, dark cellar or closet for 10 days. After this time place in a light, airy place. Don't have near gas light. Change water to keep pure. Don't allow to freeze. When blooms are well advanced, shower water on them each day.

OUTDOORS—Plant from September as late as ground will permit. Fine blooms will come if planted in February. Light, rich soil with one-third well rotted cow manure is best. Dig bed a foot deep and to raise it 4 to 6 inches will be beneficial. Plant 6 inches deep and 5 to 6 inches apart. Don't press bulbs down, put in position and fill ground over them. Covering with litter over winter will help some.

GOLD MEDAL HYACINTHS (Top Size)

The largest bulbs and highest quality, particularly recommended for growing indoors.

- 1—City of Haarlem—Deep Yellow Flowers on enormous spikes.
 - 2—Moreno—Waxy Pink, Large Bells and Spikes.
 - 3—Myosotis—Pale Blue, Very beautiful. A novelty.
 - 4—White Lady—Pure white flowers in immense spikes.
- Price, each, 30c; ½ doz., \$1.50; doz., \$2.50; 25 for \$4.75.

GOLD MEDAL QUALITY HYACINTHS (First size)

Only a little smaller than the Top-Size. Suitable for indoor growth and for high grade bedding.

- 5—America, Beautiful Dark Pink.
 - 6—Beauty, Brilliant Dark Rose. A novelty.
 - 7—Captain Boyton, Bright Lavender Blue, Large Flower very early.
 - 8—Gertrude Deep Rosy Pink, Fine Compact Spike, very popular.
 - 9—Grand Vainqueur, Deep Rose, Fine truss, Early
 - 10—Yellow Hammer, Deep Golden Yellow, Fine Large Spike.
- Price, each, 23c; ½ doz., \$1.25; doz., \$2.25; 25 for \$4.25.

GOLD MEDAL QUALITY HYACINTHS (Second Size)

For beds and borders these are better than the larger bulbs, because the spikes, while beautiful are not quite so heavy and hold up better.

Myosotis

- 11—Ball of Gold, Pure Yellow, Ball-shaped truss.
- 12—Dr. Lieber, Dark Porcelain Blue, Fine Truss, Early Forcer.
- 13—Electra, Light Blue. Very large truss.
- 14—L'Innocence, Beautiful Pure White, Large Bells, Very popular.
- 15—Nimrod, Deep Rose, small truss, very pretty and early.
- 16—Pink Perfection, Light Pink, Large spike.
- 17—Queen Marie Sophie, Red, Very Early.
- 18—Victor Emanuel, Brilliant Dark Pink; Large truss, Fine forcer.
- 19—William I. Purplish Black Fine Spike, Very Early.

Price, each 20c; ½ doz., \$1.25; doz., \$2.00; 25 for \$4.00.

GOLD MEDAL QUALITY HYACINTHS, Mixed, In Separate Colors

These, in separate colors, are well adapted where solid colors are wanted; or color designs are to be worked out. We have the following colors:

20—Dark Blue Mixed.	24—Red, Mixed.
21—Light Blue Mixed.	25—White, Mixed.
22—Dark Pink, Mixed.	26—Yellow, Mixed.
23—Light Pink, Mixed.	

Price, each, 15c; ½ doz., 80c; doz., \$1.50; 25 for \$3.00; 50 for \$5.75; per 100, \$10.00.

JAP BULB FIBRE

If you want the best results from your bulbs in the house, plant them in JAP BULB FIBRE, the perfect compost for growing bulbs in the house. Cleanly to use. Always sweet. Odorless. Complete in itself.

The following named bulbs can be planted in it: Hyacinths, Paper White Narcissus, Chinese Narcissi, Daffodils, Crocus, Tulips, Ixia, Jonquils, Grape Hyacinths and even Lily of the Valley.

Directions for Use on Each Package.

J. B. F. makes bulbs grow faster than water or ground, and with greater profusion of blooms. It is the ideal potting compost for the amateur who can't get soil or stones, or who objects to the dirtiness of soil and the need of pots with drainage.

Price—One quart in carton, 15c; 2 qts. 25c; 4 qts., 40c; 8 qts., 75c; with an order for bulbs delivered at these prices. Without bulbs, add 7c. 10c, 15c and 20c per package, respectively.

TULIPS-Are Glorious in the Spring

Everybody knows and loves the beautiful Tulips. There is nothing more gorgeous than a bed of their brilliant blossoms. Can be grown in the house, on the lawn and in the garden. Can be bloomed in the house and then planted next autumn out doors. When planted out doors, last for years. Plant 5 inches deep, 5 to 6 inches apart. After the tops mature and die annuals may be planted in the bed. The lists that follow contain the cream of the varieties. Not a poor one amongst them.

CULTURE—GIVE SAME TREATMENT AS HYACINTHS, EXCEPT THEY CANNOT BE GROWN IN GLASSES.

In the following list of Tulips, D. means dwarf, M. medium and T. tall. We have put the classes in the order of their season of bloom, the earliest first and so on to Double Late, the latest.

GOLD MEDAL QUALITY SINGLE EARLY TULIPS

These are the first to bloom in the Spring. The colors are bright and varied.

		Doz.	25	100

Homes, Churches, Schools

A NOVELTY DARWIN TULIP BED OF WM. PITT, PRINCESS ELIZABETH, MADAME KRELAGE AND BARTIGON

WHY NOT BEAUTIFY YOUR GROUNDS?

How lovely is a bed of Tulips in the Spring! What could be more beautiful and educational than the planting, cultivation and realization of a bed of Tulips in the school yard? For the pupils to actually plant the bulbs; think of them under the cold ground and snow during the winter and then see the shoots break forth in the Spring and to watch them to their full development will be worth a hundred times a class room lesson with dried specimens or pictures. A TULIP BED, that can be planted and repeat itself for several years in every school yard, is the thought.

These are new varieties, and have been classed as Novelties at very high prices. We were fortunate to secure a supply at prices low enough to make this offer. Wherever this collection is planted it will be the premier show of the whole community. All these varieties grow tall with long stems. We do not price them outside of this collection, except the Bartigon, is in our list.

WM. PITT—This is the earliest of Darwin Tulips. Flower crimson-scarlet with blue and white base. New and not found in usual collections.

PRINCESS ELIZABETH—Also an early variety and the best bright pink. This variety will not be found in usual collections.

MADAME KRELAGE—A deep rose, margined with soft rose. Very fine variety that will not be found in usual collection.

BARTIGON—The best red Tulip. Large, fiery-red bloom, with white base edged blue. A very strong grower.

OUR OFFER

Select the collection according to the planting you want to make. Delivered.

6 of each, 24 bulbs.....	\$1.25
12 of each, 48 bulbs.....	2.25
24 of each, 96 bulbs.....	4.00

When ordering say "A Novelty Darwin Tulip Bed".

Bartigon

CROCUS

This lovely early Spring flower is perfectly hardy and continued for years, if not disturbed. A good way to plant them is to lift bits of sod all over the lawn and place one or two bulbs underneath. The tops can safely be cut along with the grass in the Spring. Also make pretty beds and borders. For house culture, plant 6 or 8 in a 6-inch pot or bulb dish.

	Doz.	25	100	1,000
90—Blue Albion. Dark purple	\$0.30	\$0.50	\$1.75	\$15.00
91—Golden Yellow—Mammoth	.30	.50	1.75	15.00
92—Miss Nightingale Striped	.30	.50	1.75	15.00
93—White Levianthan Large White	.30	.50	1.75	15.00
93A—Yellow	.20	.35	1.25	10.00
93B—Mixed—White, blue purple and yellow, Doz. 30c; 25 for 35c; 100 for \$1.25; 1,000 for \$10.00.				

GRAPE HYACINTHS

(Muscara)—Early Spring flowering bulb. Grows about 6 inches high and bears several bunches of blue flowers resembling a small bunch of grapes, fragrant. Plant in grass, in shade or sun. Once planted they will multiply rapidly and make hundreds of blooms each year.

Twelve bulbs in a 6-inch pot or dish make a pretty house-plant to bloom about Easter. Treat same as Hyacinths.

	Doz.	25	100
101—Deep Blue	\$0.25	\$0.50	\$1.50
102—Carneus, Rose	1.10	2.10	8.00
103—Albus—Snow white	.65	1.25	4.75

NARCISSUS OR DAFFODILS

AMERICAN GROWN BULBS

Narcissus are entirely hardy and succeed almost anywhere. We suggest almost any vacant corner or strip; among the hardy border plants and shrubs; along banks of streams; and even among the grass; in sun or semi-shaded places, and for naturalizing. But they are not limited to the open, and many of them are wonderful for flowering in the house, where treat the same as hyacinths. By planting different classes, the flowers can be had from Easter, or before, over a period of two months. Plant 4 inches deep and 5 to 6 inches apart. In the house, 3 to 5 bulbs in a 5 to 6 inch pot or dish.

Price of each unless priced different.

First Quality—Each 15c; 6 for 85c; doz. \$1.60.
Second Quality, Each 10c; 6 for 60c; doz. \$1.00.
Delivered.

BICOLOR-EMPRESS (Single Long Trumpet Class) For planting in open ground or indoors. If indoors treat like Hyacinths. Strong, robust plant. Flower yellow trumpet and perianth of snow-white petals.

EMPEROR (Single Long Trumpet Class) For outdoors and indoors. Has very large trumpet of pure yellow with primrose perianth. A magnificent sort. First and second quality. Same prices as Empress.

SIR WATKINS (Large Cup Class) Out doors or indoor. Perianth light yellow, cup somewhat deeper yellow, edged with orange. About the most satisfactory of this class. First and second quality same prices as Empress.

VON SION (Double, Class) Outdoor and indoor. This is the beautiful old-fashioned type. Large, pure yellow trumpet and perianth. One of the best for indoor growing, but entirely hardy out. First and second quality same prices as Empress.

LAURENS KOSTER (Poetaz Class)—Perianth white, cup light orange-yellow.

CHOICE MIXTURE FOR NATURALIZING

This mixture is composed of the very best types and varieties for borders, groups and amongst the shrubs, where an April display of

IXIAS

Charming house blooming bulbs, of easy culture. The flowers are long, graceful spikes, varied in colors, beautiful. Plant 1 inch deep, 8 to 10 bulbs in a 6 inch pot or dish. Treat the same as Hyacinths, except do not water until growth starts then water sparingly until the flowers come. While flowering, water freely. Let plants mature and the old bulbs may be planted again.

For outdoors, put the bulbs in late—say November last. Set 3 inches deep and cover with 3 inches of leaves or hay. Remove this in early Spring. Outdoors they bloom in June and make a greater show than Tulips!

Fine Mixed, doz. 25c; 25 for 40c; 50 for 75c; per 100 \$1.50.

OXALIS

Plant 4 to 5 bulbs in a 5-inch pot, or in hanging basket, in good light, loamy soil. Put in dark, like Hyacinths. After which hang or set in a sunny window. Plant in September should bloom by Christmas and continue most of the winter.

White, pink and red. Mixed, 6 for 30c; doz., 50c; 25 for 75c.

SNOWDROPS

The charming little snowdrop is the first of Spring Flowers. It frequently is in bloom when snow covers the ground. It can also be grown in pots or dishes of Jap-Bulb-Fibre in the house. A dozen bulbs can be put in a 5 inch pot or dish.

	Doz.	25	100
94—Double	\$0.65	\$1.25	\$4.50
95—Single	.40	.75	2.75

Flowers is desired. Considering the very high prices for Narcissus our price on this lot is very moderate and one that you should not overlook when sending your order. Price Doz. 75c; 25 for \$1.35; 100 for \$5.00.

PAPER WHITE GRANDIFLORA (Polyanthus Class) For indoor growing. Plant in water supported by pebbles, or in Jap-Bulb Fibre. Nearly everyone knows this wonderfully popular flower for blooming in the house. By planting at intervals blooms can be had from November until May. Flowers are pure white, borne in large clusters and very fragrant. **First quality**, each 10c; 6 for 50c; doz. \$1.00; 25 for \$2.00. **Second quality** each 7c; 6 for 30c; doz. 50c; 25 for \$1.00. Delivered.

SOLEIL D'OR (Polyanthus Class) For indoor growth. A rich yellow flower with orange cup, borne in large clusters. Quite like the paper Whites except color. Treat same way. **First quality**, each 15c; 6 for 75c; doz. \$1.40; 25 for \$2.75. **Second quality** each 10c; 6 for 50c; doz. \$1.00; 25 for \$2.00.

CHINESE SACRED LILY—

This is a magnificent form of Narcissus, bearing beautiful silvery white flowers with golden cup. Very fragrant. The bulbs are very large. Requires a warm, humid room. Indoors only. Treat same as Paper White narcissus. Each 15c; 6 for 75c; doz., \$1.40.

BEAUTIFUL LILIES

No border or wild garden is complete without these charming flowers. They are stately and beautiful in form and flowers, matchless in colors, and exquisitely fragrant. Plant 6 to 8 inches deep in loose, well manured soil with some sand under the bulb to insure drainage. Effective when planted between peonies. Cover them with leaves or litter over winter. Some kinds are easily grown in the house. Our list shows. When three or more are ordered they may be made up of more than one variety at the prices.

Regale Lilies

NEW CHINESE REGALE LILY (Myriophyllum) Outdoors and indoors—This wondrous beautiful lily was discovered in Northwestern China and brought to this country a few years ago. Bailey's Cyclopaedia of Horticulture, the highest authority on such subjects, say of it; "One of the most beautiful of all known lilies." "The large trumpet shaped flowers are pure white with a rich canary yellow throat and orange stamens. The buds and outside of petals are delicate pink. Cannot be recommended too highly and is sure to succeed for all. Height, 3 to 4 feet. Blooms in July. Every Lily lover will have the Regale. Then why not order now from this circular? Each, 50c; 3 for \$1.25; 6 for \$2.25; doz., \$4.25.

CANDIDUM—(Known the world over as Easter, Annunciation or Madonna Lily)—Indoors and outdoors. One of the most popular. Flowers snow white on long stems. Very fragrant. Each 40c; 3 for \$1.15; 6 for \$2.00; doz., \$3.75.

BERMUDA EASTER LILY (Lilium Harrissi) Indoors only—Probably the easiest grown and most satisfactory lily for house culture. It comes into bloom in a short while, and can have the flowers at any desired time. Each, 40c; 3 for \$1.15; 6 for \$2.00; doz., \$3.75.

IMPROVED TIGER LILY Outdoors—Produces large clusters of flowers, orange red, spotted with black. Blooms in August. Single or double. Each 20c; 3 for 50c; doz., \$1.75.

We will offer a longer list of Lilies in our Spring catalogue.

CALLAS

(Calla Lily)—These are for growing indoors. Give them rich soil and plenty of water and warmth.

GODFREYS (White) Dark green leaves and pure white flowers. Plant one bulb in a pot 6 to 8 inches. Price, Large bulbs, each 30c; 4 for \$1.00.

ELLTONIA (Yellow)—Flowers of a rich, lustrous golden yellow. Foliage dark green with white spots. Plant same as above. Large bulbs. Each 30c; 4 for \$1.00.

LILY OF THE VALLEY—This flower is well known and appreciated by all. We sell field grown clumps that will give immediate effect. Some of the roots can be taken up and bloomed in pots in the house. Clumps, each 35c; 3 for \$1.00; doz., \$3.50.

AMARYLLIS

Valuable for the garden, but most generally grown as a house plant. These are the most magnificent and gorgeous bulb and bulbous plants grown. The flowers are very large and remarkably colored, striped and blotched. For pot culture use any rich soil. Set the bulb two-thirds above the soil. Water moderately at first and increase. A 6 to 8 in. pot is usually large enough. Some growers put them in dark until the flower stems grow 4 to 5 in. and then bring to light.

NEW HYBRIDS AMARYLLIS—These new types run through the colors and shades of red and rose to white making a delightful range of colors. Mammoth bulbs, each, 50c; 3 for \$1.25; dozen \$4.50. Delivered.

German Iris (Fleur-de-Lis)

The German Iris is one of the most desirable May flowering plants. The flowers are of large size and exquisite colors. For the best results plant in a well-drained sunny position, barely covering the roots. Avoid fresh manure in preparing the bed. If planted reasonably early will bloom next spring.

Price unless quoted differently, each 20c; 3 for 50c; doz. \$1.50; 25 for \$2.50.

CAPRICE—Cerise pink, Falls a deeper shade. Has a grape juice fragrance. 30 in.

KOCHI—Standard and fall rich claret purple. Very handsome. Tall. Each 30c; 3 for 75c; doz., \$2.50; 25 for \$4.50.

SHERWIN WRIGHT—Golden yellow flowers without shading or marking. 24 in.

DR. BERNICE—Olive shaded red.

HELGE—Pale yellow shaded green.

KHEDIVE—Soft Lavender. One of the finest. Each 25c; 3 for 60c; doz., \$2.25; 25 for \$4.00.

HER MAJESTY—Standard pinkish violet; fall deeper shade, heavily veined. Sturdy. 30 in. Each 25c; 3 for 60c; doz. \$2.25; 25 for \$4.00.

LOHENGRIN—Standard and falls, pinkish silvery mauve, shading to near white. 33 in.

LORELY—Standard color of breast of wild canary fall creamy white with purple blendings. 30 in.

VESUVE—Blue.

FAIRY—Standard and falls resemble snow with sun shining on it. This is the tallest white. Gorgeous, 36 in. Each 25c; 3 for 60c; doz., \$2.25; 25 \$4.00.

PURPLE KING—Intense shade of reddish purple.

PEONIES

There is nothing more beautiful in the Springtime than Peonies in bloom. Like roses, they are indispensable in the flower garden. They may be combined with Phlox and make a permanent, everblooming bed, or row, or plant Dahlias or Annuals between the Peonies for Summer flowering. Our list comprises only the very best kinds. Each one is a "Gem" and has its own particular merit. We recommend selecting Early, Midseason and Late varieties. Note that we have four splendid red or crimson varieties which are so much sought after.

Price all Peonies, unless priced different, one for 50c; 3 for \$1.25; 6 for \$2.25; doz. for \$4.25. delivered. Three or more may be of different kinds.

ALFRED DE MUSSETT (Mid Season)—White with bluish center and crimson flecks. Large compact. Always pleases.

FESTIVA MAXIMA (Early)—White as paper with center flecked crimson. Extra large, globular. Very popular. Each, 75c; 3 for \$2.00; 6 for \$3.75; doz., \$7.00.

LA ROSIER (Mid Season)—Straw yellow center shading to creamy white border. Large flat, fine variety.

MARIE LEMOINE (Very late)—Flowers are very large, massive and borne in great profusion. Specimens frequently measure 8 to 10 in. across. Color ivory-white with a few narrow carmine tracings. The great blooms are on stout erect stems with occasional smaller flowers to side. This variety is indispensable to any collection.

MADAME CAMILLE BANCEL (Mid Season) Glossy lilac pink, center shade to salmon. Very fine.

MONS. JULES ELIE (Early)—Satiny pink with amber yellow tints. Very brilliant coloring. One of the finest pinks of all. Each, \$1.00; 3 for \$2.75; 6 for \$5.25; doz. \$10.00.

KARL ROSENFELD (Early) Dark, velvety crimson. Brilliant clear color. Great size. Splendid variety. Each, \$1.25; 3 for \$3.25; 6 for \$6.00; doz., \$11.00.

SOUVENIR DE GASPARD CALOT (Late) Large size. Lilac rose. Strong grower. One of the best late ones.

FELIX CROUSSE (Mid Season) Bright ruby red, strong grower with graceful bush, one of the best reds.

GROVER CLEVELAND (Late)—Dark Crimson, large, showy flowers. Another splendid red.

RUBRA SUPERBA (Very late)—Large flower. Deep, brilliant crimson. A strong grower. Should be in all collections because of its beauty and late bloom.

PERENNIAL FLOWER SEEDS

If sown in open ground fairly early will bloom next spring. If sown late should be sown in boxes in house or in coldframe.

ALYSSUM (Saxatile Compactum) Pkt. 5c.
Double Flowering, Mixed Pkt. 5c.

AQUILEGIA (Columbine)
Single Flowering. Mixed Pkt. 5c.

CHRYSANTHEMUM—Pink, red, white, yellow Pkt. each, 10c.

COREOPSIS—Pkt. 5c.

DAISY—Shasta Pkt. 10c.

DELPHINIUM (Larkspur)

Formosum Pkt. 10c.
Belladonna Pkt. 10c.

RUDEBECKIA (Golden Glow) Pkt. 10c.

SWEET WILLIAM—Scarlet Beauty—Newport Pink, white Beauty, Single mixed, double mixed. Pkts; each, 10c.

TRITOMA (Red Hot Poker) Pkt. 10c.

Everitt's Hardy Perennials

PLANTED IN THE FALL WILL BLOOM NEXT SEASON

With the plants offered in this list the most beautiful and interesting permanent gardens may be made—Gardens that increase in beauty each year, and because of the multiplications of the plants, larger gardens, or other gardens can be made from a small beginning.

Prices unless otherwise given: One, 20c; 6 for \$1.00; doz. (may be of one or more kinds), \$1.75; per 100, \$12.00.

The Prices quoted include delivery.

BLEEDING HEART—An old fashioned favorite. Its long racemes of graceful, heart-shaped flowers are very attractive. It is perfectly hardy and does well even when planted in shade. Each, 60c 3 for \$1.75.

CHRYSANTHEMUMS (Hardy October Rose)—The development of the Hardy Chrysanthemum has made it possible to have color, life and beauty in the garden when the other hardy plants have passed. Fine for cut flowers. Large flowering varieties in these colors.

Pink, Red, White, Yellow, Brown.

COREOPSIS (Tickseed)—The flowers are a rich golden yellow of slender graceful form. 2 ft. high Single Golden Yellow.

DAISY, SHASTA—A much improved hardy daisy, bearing a great profusion of large white flowers from early summer until late in the Fall. Fine for cut flowers. 2½ feet high.

DELPHINIUM (Larkspur)—It is almost impossible to convey anything like an adequate description of the improved Delphiniums. Their greatest charm lies in the wonderful stateliness of growth, and the rich colors and tints of their striking flowers. Nothing in blue can compare with Delphinium, and for their value in hardy borders are unsurpassed.

Light Blue and Dark Blue.

DIGITALIS (Fox Glove)—One of the most popular perennials. Throws a flower spike, tall and stately, to a height of 4 to 6 feet. July-August Choice Mixed.

GAILLARDIA—The most glorious of our true "Old Fashioned Flowers." Flowering constantly from June till October in many rich, brilliant colors of orange, crimson, red. Fine as a cut flower.

Grandiflora Mixed.

GYPHOPHILIA (Baby's Breath)—Masses of minute flowers produced throughout the summer, very fine for cutting and drying.

Paniculata Grandiflora—Pure White.

HOLLYHOCKS—A very desirable plant. 4 to 6 feet. Separate colors.

Double Red, Rose, Maroon, Yellow.

Single Red, Rose, Maroon, Yellow.

Allegheny—Flowers seldom less than 5 inches across and fringed, constant bloomers. Each, 30c; 4 for \$1.00, doz. \$2.50.

LATHYRUS (Hardy Sweet Pea)—Pink Beauty, Red and Mixed.

PHLOX—Beauty and usefulness bring these hardy border plants among those of greatest importance. For massing they are very effective and their great variety of colors add a brilliancy to the landscape. Their flowering season begins in July and if the bloom spikes are removed, the blooming period may be prolonged until Fall.

Bright Rose, Yellow, Brilliant Rose, Dark eye, Scarlet, Mixed, pink, white, red and Salmon.

PLATYCODON (Japanese Bell Flower)—One of the finest hardy plants. Produced from July until frost. Very showy violet blue flowers and almost rivalling the charming Jackmanii Clematis. 1 to 2 feet high, Each 25c; 5 for \$1.00; doz. \$2.25

POPPIES ORIENTAL—Nothing in the hardy plant line can compare with this for beauty and brilliancy of their large, fiery-scarlet flowers. 3 to 4 feet. May-June. Plants scarlet and salmon pink, separate colors. Each 30c; 6 for \$1.25; doz. \$2.00.

Delphinium

Iceland—Bright green foliage from which arise stems about a foot high bearing brilliant flowers all season if seed pods are not allowed to form.

Yellow, Orange and White separate. Each, 30c; 6 for \$1.25; \$2.50 per dozen.

RUDEBECKIA (Golden Glow)—An old fashioned free-flowering plant that is unequaled for cutting. Colors range from pure white to most brilliant scarlet. Bloom practically all summer. Single and Double mixed.

SWEET WILLIAM (Dianthus Barbatus)—Certainly one of the most popular old fashioned garden plants. Their freedom of blooming, striking color and pleasing fragrance make them a favorite of all flowers. Fine for cutting.

Scarlet Beauty, White Beauty, Single mixed, Double mixed, Newport Pink.

TRITOMA (Red Hot Poker or Flame Flower)—A beautiful late-flowering plant, having a handsome red-like foliage. Flowers are of a rich orange-scarlet color 3 feet high. Blooms Sept. Nov. Each, 25c; 6 for \$1.25; Doz. \$2.00.

Phlox

Ornamental and Flowering Shrubs

A few dollars invested in shrubs now will soon make your home a beauty spot and a greater joy to live in, and if you should later desire to sell it you will find it worth several hundred dollars more. So plant hardy flowering and ornamental shrubs without further delay. All of our shrubs are well developed, not seedlings. Add for postage and packing 10c for one, 20c for three, 50c a dozen.

ALTHEA (Rose of Sharon)—One of the most beautiful of tall flowering shrubs. They always attract attention when in bloom, Aug. and Sept., particularly when the different colors are planted in a row or group. Height 6 to 12 feet. Every place should have them. In separate colors, White, Red, Pink and Purple. Each 50c; 3 for \$1.25.

BARBERRY THUNBERGII—One of the most desirable shrubs for hedge or other purposes. Foliage always beautiful turning to crimson in Fall when the plant also becomes covered with red berries. 12 to 18 inches, Each 30c; 3 for 75c; dozen, \$2.75. 18 to 24 inches, Each 40c; 3 for \$1.00; dozen \$3.50.

CALYCANTHUS (Sweet Shrub)—Flowers purple, double deliciously fragrant. Foliage rich, dark green. Very desirable. Each 60c; 3 for \$1.50.

Althea, Rose of Sharon

DEUTZIA PRIDE OF ROCHESTER—Large white flowers tinged with rose. Profuse bloomer and one of the earliest hardy plants to bloom, following right after Spirea Van Houttei. Succeeds everywhere. Each 50c; 3 for \$1.25.

DOGWOOD (Cornus)—Grows 6 to 10 feet tall bears clusters of small white flowers in early summer, followed by whitish blue berries. Each 50c; 3 for \$1.25.

GOLDEN BELL OF FORSYTHIA—This is the shrub which when it blooms very early in the spring everybody admires and many people seek for the name of it. Small bell-shaped, beautiful, bright-yellow flowers appear before the leaves. One of the most ornamental. Succeeds everywhere. Each 50c; 3 for \$1.25.

HONEYSUCKLE, Tartarian—An excellent specimen of hedge plant. Should be planted 18 in. apart. Their fragrant blossoms in the Spring and masses of bright berries make them worth while. They may be pruned as low as three feet or will make a hedge or screen eight to ten feet high if left unpruned. Each 50c; 3 for \$1.25.

Hydrangea P. G.

HYDRANGEA, Aborescens—Large white flowers, dwarf. The best shrub for Northside, shady positions. July to September. Each 65c; 3 for \$1.50.

—**Paniculata Grandiflora**—The well known hydrangea, grows 8 to 10 feet, or may be kept cut back. Each 60c; 3 for \$1.50.

—**Paniculata Grandiflora**, (Tree Form)—This type is most valuable for specimen planting because of its form which is a stem with bushy top and height which is 7 to 8 feet. Each \$1.50.

LILAC—An old favorite loved by all. We offer them in the following colors; Red, White, and Purple. Each 75c; 3 for \$2.00.

PRIVET, California—1 year, dozen \$75; 50 for \$3.00; 100 for \$5.00; 2 year, dozen, \$1.25; 50 for \$4.00; 10 for \$6.50.

—**Amoor River**—This is the hardest of all privets. Just as pretty as the California but never winter kills. 1 year, dozen \$1.25; 50 for \$6.00; 100 for \$10.00. 2 year, dozen, \$2.00; 50 for \$7.00; 100 for \$13.00.

Deutzia Pride of Rochester

Spirea Van Houttei

Charming Climbers

Without climbing vines many homes would lack much of their beauty. Then if follows that many homes that are still dull and unattractive can be made beautiful from early spring, when the tendrils of hardy climbers take on new life, till Winter comes again.

If by mail add 10c for one; 20c for three.

AMELOPSIS, Veitchii (Boston Ivy)—Clings to any wall, no matter how hard or smooth. The leaves change in Fall to a vivid autumnal tinge. Each 50c; 3 for \$1.00.

CLEMATIS—Paniculata—(White flowers) 2 years. Each, 75c; 3 for \$2.00.

—Jackmanii (Blue Flowers) 2 years. Each 75c; 3 for \$2.00.

CHINESE WISTARIA—Purple flowers are borne in large drooping clusters. Grows to great length and dense foliage. Each 60 cents, 3 for \$1.50.

HONEYSUCKLE, Hall's Japan—Pure white and creamy yellow. Very fragrant. Each 50c; 3 for \$1.00.

KUDZU VINE—One of the best hardy climbers, will run 30 to 40 feet in one season. Profuse rose-purple, flowers in small racemes in August. Makes dense shade. Each 35c; 3 for \$1.00.

MATRIMONY VINE—Flowers from June to September. Pink to purple; very fine for trellises and fences. Each 35c; 4 for \$1.00.

TRUMPET VINE (Bigonia Radicans)—A very strong growing shrubby vine with rich foliage profusely set with trumpet-shaped flowers that are bright red. Blooms a long time. Entirely hardy. Each 50c; 3 for \$1.25.

BITTERSWEET (Celastrus Scandens)—A rapid growing vine, which has yellow flowers in early summer that produce bright, orange colored fruits by autumn which remain on the stems all winter unless eaten by the birds. They are useful for bringing bright orange and scarlet to the home in winter. Each 65c; 3 for \$1.50.

EVERGREEN BITTERSWEET (Evonymus Radicans) Said by some authorities to be "the best vine in the world." Here are some of its merits.

PHILADELPHUS (Mock Orange)—Grows 8 to 10 ft. high. Creamy white flowers in May. Each 50 cents; 3 for \$1.25.

SNOWBALL (Viburnum)—This class of shrubs includes the well known Snowball seen on many lawns.

—Opulus Sterile—The well known favorite SNOWBALL bush which is loaded with large white balls in clusters in May. It is found on nearly every lawn or should be. Grows 6 to 8 feet. Each 60c; 3 for \$1.50.

—Japan Snowball—Of even better habit than the old form. Flowers whiter and in clusters followed by red fruit. Each 75c; 3 for \$2.00.

—High Bush Cranberry—Still another form of Snowball. Grows 8 to 10 feet high, white flowers in May followed by scarlet berries which hang on until in winter. Each 60c; 3 for \$1.50.

SPIREA, Anthony Waterer—Blooms in early Spring and sparingly to late Fall. Has pink blooms. Each 50c; 3 for \$1.25.

—Thunbergia—This variety is spreading in growth, with slender arching branches, that bear a perfect mass of white flowers followed by yellowish green foliage. Each 50 cents; 3 for \$1.25.

—Van Houttei (Bridal Wreath) Heavy plants. Each 30c; dozen \$3.25; 2 to 3 feet, Each 50c; dozen \$4.50.

—Frobeli—About one foot taller than Anthony Waterer, blooms profusely early and lightly all summer, rosy pink flowers. One 40c; 3 for \$1.00; per doz \$3.50.

WEIGELA (Rosea)—Blooms profusely in June and scattering through the summer. Deep pink, trumpet like flowers. Each 75c; 3 for \$2.00.

Judge for yourself: (1) Evergreen, therefore beautiful 365 days in the year; (2) easy to grow, trailing on the ground or climb to 30 feet; (3) harder than ivy; (4) its beautiful red fruits which redeem our winters from their bleak and cheerless moods; (5) it will climb on almost any wall, be it stone, concrete or brick, smooth or rough, if it is first helped to start up. Water liberally the first year and protect over first winter. Each, 75c; 3 for \$2.00.

Hall's Japan Honeysuckle

Fruit Trees, Grape Vines and Berry Plants

Plant in the Fall and Gain a Year.

If Fruit Trees are to be sent by parcel post add 15 cents for one, 30c for 3. Dozen must go by express.

APPLE TREES, Size 4 to 6 ft.

EARLY SUMMER VARIETIES.

PRICE—All Apple Trees, 75c each; 3 for \$2.00; per dozen \$7.00.

Early Harvest—Pale yellow.

Yellow Transparent—White to pale yellow.

LATE SUMMER VARIETIES

Maiden Blush—Yellow with red blush.

Fall Pippin—Large yellow rich.

WINTER VARIETIES

Baldwin—Bright red, sub-acid.

Delicious—Bright red, sub-acid.

Delicious—Large, bright red, blending to golden yellow.

Grimes Golden—Golden yellow.

Jonathan—Beautiful, clear light yellow.

McIntosh—Deep Crimson, highest quality, sub-acid.

Rome Beauty—Large yellow, shaded bright red, juicy.

Winesap—Dark red, sub-acid. Splendid.

CRAB APPLES

PRICE—Each 75c; 3 for \$2.00; dozen \$7.00.

Hyslop—Large yellow to crimson.

Yellow Siberian—Medium yellow.

PEACHES

PRICE—4 to 6 ft., 60c each; 3 for \$1.60; per doz., \$6.00.

Champion—White flesh, free, August.

Carman—White flesh, free, August.

Elberta—Yellow flesh, free, September.

J. H. Hale—Mammoth size, yellow flesh, free. Be sure to plant a Hale, September.

Heath's Cling—If you want a clingstone peach,

Crawford Early—A magnificent, large, early, yellow peach, early September.

Crawford Late—Same as the early, but some larger. Late September.

St. John—One of the earliest yellow peaches. August. Nearly as large as Crawford.

St. John, the two Crawfords and Heath's Cling make a splendid succession.

Delicious

PEARS, 4 to 6 Feet

PRICE of all Pear Trees—Each, 85c; 3 for \$2.25; dozen, \$8.00.

Bartlett—Yellow with blush.

Clapp's Favorite—Yellow, about 1 week earlier than Bartlett.

FALL VARIETIES

Seckel—Small, crimson cheek.

Sheldon—Yellow with shaded cheek, juicy, first quality.

Kiefer—Yellow and crimson, with russet. Will keep until January.

CHERRIES, 4 to 6 ft.

PRICE—Each, 85c; 3 for \$2.25; dozen, \$8.00.

Black Tartarian—Late sweet, June.

Early Richmond—Sour, July.

English Morillo—Reliable bearer. Dark red, acid. August.

Napoleon—Sweet, yellowish red, juicy, productive. July.

Montmorency—Late, tart. Late June.

Windsor—Large, liver color; late; very valuable for family or market. July.

PLUMS, 4 to 6 ft.

PRICE—Each, 85c; 3 for \$2.25; doz., \$8.00.

Green Gage—Greenish yellow. August.

German Prune—Large, long, oval, purple; flesh sweet. Does not cling to stone. September.

Abundance—Red. August.

Burbank—Reddish purple. August.

Lombard—Violet red. August.

"Reine Claude"—Large green, red cheek, hang long on the tree, one of the best. Late September.

Shropshire Damson—Dark Purple. Very prolific, fine for preserves. October.

QUINCES

PRICE—Each \$1.00; 3 for \$2.75; dozen \$9.00.

Champion—Greenish yellow.

Meeche's Prolific—Bright yellow.

APRICOTS

PRICE—Each 85c; 3 for \$2.25; dozen \$8.00.

Superb—Early.

Champion

FRUIT PLANTS

If Fruit Plants are to go by mail add 15c per dozen; 50 cents per 100 for postage and packing.

RASPBERRY

PRICE of all Raspberries—3 for 25c; 25 for \$1.00; 100 for \$3.50.

Columbia—Red.

Cuthbert—Red.

Plum Farmer—Black, large berries, one of the best early sorts for home and market.

Gregg—Black, well known market sort, large and very productive.

St. Regis—Crimson.

BLACKBERRY

PRICE of all Blackberries—3 for 25c; 25 for \$1.50; 100 for \$5.00.

Blower—Jet black, large size, best quality. Home or market.

Eldorado—Very large, fine.

Snyder—The hardiest.

Gooseberries and Currants.

On account of federal and state embargoes we cannot conveniently ship these two berry bushes.

PARTICULAR NOTICE—If you live in Georgia, Oklahoma or West Virginia don't send us any orders for any kind of Nursery Stock as your State Laws make it impractical to deliver it to you. This does not refer to Perennials and Bulbs, which we can send.

You Can Own a Grape Arbor

There is scarcely a country or city yard or garden so small that space cannot be found to plant from 1 to 12 or more grapevines. When once planted they will last a lifetime with very little care and bear freely of the healthiest, most delicious, most profitable and most satisfactory fruit.

BLACK GRAPES

Concord—Black, large, very yieldy. Most popular of all grapes.

Moore's Early—Black, early. Like the Concord, as large and good but earlier.

Worden—Resembles Concord, but larger. Ripens earlier.

Ives—Black. Best for red wine.

RED GRAPES

Catawba—Red, late; a great wine grape.

Delaware—Red, exquisite little grapes, highest quality. Best for white wine.

Lutie—(New) Catawba is the latest red grape, and this is the earliest. If you have room to plant both you can at once see the advantage. Lutie is new. Large bunch and berry; flesh tender, juicy, sweet, sprightly flavor. Very hardy vine, very productive. One of the best for jelly and juice. Each 40c; 3 for \$1.00; doz. \$3.50.

WHITE GRAPES

Niagara—White. The standard white grape, as large as Concord.

Winchell—Comparatively new. One of the earliest of all, hardy, productive. Each, 40c; 3 for \$1.00; doz. \$3.50.

PRICE—2 year old vine, each, 25c; 5 for \$1.00; 12 for \$2.25; unless priced otherwise. Delivered.

Fertilizers

For Gardens, Lawns and House Plants.

If by mail, add Parcel Post

NURTO BRAND SHEEP MANURE—10 lbs. 50c; 25 lbs. \$1.00; 50 lbs. \$1.75; 100 lbs. \$3.00; 500 lbs. \$10.50; Ton \$40.00.

BONE MEAL—Fine ground, 10 lbs. 50c; 25 lbs. \$1.00; 50 lbs. \$1.75; 100 lbs. \$3.25; 500 lbs. \$15.00; ton \$57.50.

NITRATE OF SODA—5 lbs. 50c; 10 lbs. 75c; 100 lbs. \$5.00.

Big 8 All Summer Blooming Shrub Collection

Every home maker wants flowers every day in the Spring, Summer and Fall, but few know what to select. So here is a solution of the problem. Plant these eight shrubs and you need give no further thought to the matter of flowers and bouquets every day in the year from frost to frost for many years. (See our list of Hardy Shrubs for prices and descriptions. (The time of bloom is in latitude of Indianapolis).

	Height	Blooms
Forsythia or Golden Bell	5 to 6 ft.	April
Deutzia	3 to 4 ft.	May
Spirea, Van Houttei	4 to 5 ft.	May-June
Spirea, Frobeli	3 to 4 ft.	June-July
Philadelphus (Mock Orange)	6 to 7 ft.	May-June
Weigela Rosea	4 to 5 ft.	June
Honeysuckle (Red Tartarian)	5 to 10 ft.	May-July
Hydrangea, Paniculata Grandiflora	3 to 4 ft.	Aug.-Oct.

OUR OFFERS:—To purchase one of each of these shrubs would cost \$4.35. But we will send, prepaid, one of each for only \$3.25.

If you do not care for eight you may take your choice of six for \$2.50.

A PROMISE OF SPRINGTIME

French Pussy Willow

You probably are acquainted with the wild PUSSY WILLOW that you delighted to gather very early in the Spring. Well, this is not the wild one, but a cultivated French variety that makes a sensation wherever it is seen. Succeeds on any good ground.

YOU CAN HAVE IT ON YOUR LAWN

and enjoy the dainty, silvery "Pussy" flowers every winter. It grows into a beautiful round shrub or small tree 8 to 15 ft. high and is a handsome little willow tree all summer. Plant one or more this Fall. Wherever there is space for a Lilac or Snowball you have room for a Pussy Willow. Fine for background. In January or February cut the ends of the branches off, bring indoors, put in a vase or dish of water and watch them unfold their flowers. As interesting in their unfolding as gladiolus. Especially interesting in school rooms and as bouquets to sick people. In a commercial way the branches sell in city markets at \$1.00 up per dozen. Reach full growth in 4 years. A well grown tree will make 400 to 600 cuttings each winter.

ORDER NOW—No matter how many trees or shrubs you have you should try to be the first one to have this French Pussy Willow. Prices 3 to 4 ft., 60; 2 for \$1.00; 6 for \$2.25; per dozen \$4.00, delivered.

Rainbow Carnations.

Blooms early in Spring and will bloom continuously—every day you can cut flowers 'till frozen. Hardy, will stand the hardest winters in the North, or can be potted in the house in Fall and have carnations in winter.

Don't you want carnations for buttonhole and house bouquets? Each plant of the Rainbow Carnation will give you open flowers each day. The form is as refined and the fragrance as exquisite as the hot house carnations. Can be grown with the greatest ease. Will be one of the most prized plants in your garden. Colors, red, pink, white and yellow, and shades of the same.

PRICE—Run of colors—Or all colors mixed. One plant 30c; 4 for \$1.00; \$2.50 per dozen. If bought by the dozen we recommend the mixed.

Separate Colors—These are difficult to produce and consequently come higher. Colors, Red, Pink, White or Yellow—40c each; 3 for \$1.00; per dozen \$3.50. All delivered at prices.

French Pussy Willow Bouquet. Cut branches, place in water and they develop like these; As interesting as Gladiolus.

Giant Flowering Marvel Mallow

Giant Flowered Marvel Mallow

foot to a plant. Price, 2 year old field grown; one 40c; 3 for \$1.00; per doz., \$3.50, delivered.

Red Leaved Japanese Barberry

(New)—In habit of growth this barberry is like the popular Japanese variety. But in its difference, and its greater beauty. For

Red Leaved Japanese Barberry

This wonderful perennial grows 5 to 7 ft. high, clump several feet around base, top 3 to 4 ft. across. Loaded with giant flowers, Red, Pink or White, 5 to 8 in. across, in Aug. and Sept. Absolutely hardy in U. S. and Canada. No other hardy perennial or shrub surpasses it for size of plant and brilliance and profusion of flowers. Tall, strong, robust, erect growing. Planted now will bloom next summer and last always. Don't fail to plant some of these and you'll have no flower or shrub that you will prize higher. Effective as a single plant, but extremely attractive in a bed or a row. We have in mind a row about 60 feet long along a much traveled street that excites more favorable comment than any other object for miles. Colors—Red, Pink and White.

Run of colors—1 for 40c; 3 for \$1.00; 6 for \$1.75; doz. \$3.00.

Choice of colors—1 for 50c 3 for \$1.25; 6 for 2.25; doz. \$4.00.

Spirea, Frobeli

FRABELI SPIREA—Planted in the Fall will bloom next June and be established for years. A handsome, round

shrub that grows 2 to 3 feet high. Planted in Fall will flower in June and more or less during the summer. Or, if cut back after first flowers fade will make another full bloom later. Fine as a single plant, but most effective as a border and in front of taller shrubs. Particularly fine in front of your porch. Give about one

Frobeli Spirea

grows 2 to 3 feet high. Planted in Fall will flower in June and more or less during the summer. Or, if cut back after first flowers fade will make another full bloom later. EVERITT'S BETTER VARIETIES OF

With Selected and Cleaned Grass and Clover Seed, etc.

What are You Going to do to INCREASE YOUR PROFITS ON NEXT YEAR'S WHEAT CROP?

WHEN WHEAT SOLD FOR \$2.00 TO \$3.00 PER BUSHEL.

A small yield afforded a profit. But with the market price \$1.25 or under you've got to get a good yield or be forced out of business. It is the TOP BUSHELS that make the profit. Strive for a lot of "Top" bushels. The purpose of the following pages is to introduce to you varieties that will be very sure to increase your yields, thus increase your profits.

The big idea is. Change your Wheat; Get New Blood in Your Crop.

CONDITIONS AND TERMS

All of our seed wheat is cleaned and graded and ready to sow when you receive it. Bags are furnished free. Cash or check should accompany order, or we will send payable on arrival with permission to inspect, if preferred. Don't order shipments to "stops" or stations where there are no agents unless you send money to prepay the freight.

EGYPTIAN OR PERENNIAL ONIONS

Have Green Onions. By planting these now you can have green onions any time in the Winter when the ground is not frozen too hard to pull them and in the Spring before bottom sets can be put in the ground. This onion is a perennial so when once planted you have them year after year. It is a profitable market crop.

PRICE—One lb. (about one quart), postpaid 25c; 5 lbs., \$1.00. Not postpaid, 10 lbs., \$1.25; 20 lbs., \$2.00.

BLUE STEM FULTZ WHEAT

The Old Favorite Brought Back
to Its Original Purity

The Farmer's Friend—The Miller's Choice

May Again Become the King of the Wheat Field As It Was Years Ago

Hand Selection of Blue Stem Fultz Wheat. The Man on the Right in the Picture Is Mr. Posey.

Who, amongst the older farmers, does not remember the good, old FULTZ wheat? How many times have they thought, or remarked, "I wish I could get some of the genuine, old Fultz Wheat again." Well, one farmer, Mr. A. H. Posey, fitted action to the thought and several years ago made careful, hand selections of the genuine, old-fashioned Blue Stem Fultz Wheat. See the reproduction of a photograph of the work of selection under way, above, and another picture, on the next page, of the wheat so carefully selected and just before the grain was "scutched." Scutched board hanging on the next page. This wheat was not risked on any threshing machine or separator, but the most extreme care was exercised to keep it pure to the last grain. The same care has been exercised to keep it pure ever since.

The difference between the man who orders some Blue Stem Fultz this year and the one who does not, is that the former will have one year the start on the latter in getting the extra yields in his crop. Every winter wheat grower is very sure to grow it, sooner or later, so why put off the start?

DESCRIPTION OF BLUE STEM FULTZ

Blue Stem Fultz, the original strain, is one of the earliest varieties of wheat. It grows at a medium height with stiff straw. Where the ground is rich and it has been difficult to get a variety to stand, this Fultz wheat should be sown. The wheat is very hardy to stand the winters. Heads are smooth, rather short, white chaff, but compact and well filled. It is so well filled that by some it has been called "Four Rowed Wheat." The grain is medium size, short, plump and firm. Color yellowish red. For milling, no wheat is more sought after, and it used to take more prizes as a milling wheat than all other kind.

BLUE STEM FULTZ WHEAT (Continued)

The first selection of Blue Stem Fultz Wheat ready to be threshed out. From this original lot all of the present stock has sprung and by our methods of wide distribution we expect to soon see it grow again in every community.

MILLERS PARTICULARLY SHOULD BE INTERESTED

As a milling wheat the Genuine Blue Stem Fultz is hardly equaled. We invite millers who want to have it raised in their locality again and will exert themselves to introduce it, to write to us for prices.

Mr. Posey introduced this wheat first in his own county to the very great benefit of its farmers as these extracts from sworn statements will show:

Extract from sworn statement by Richard Crafton:

I, Richard Crafton, being one of the largest wheat growers in my county, take great pleasure in stating that I have grown under contract for Mr. A. H. Posey, the wheat, Blue Stem Fultz. My yields have been from 6 to 10 bushels more since I have been growing it and I feel that any farmer will be well justified in growing it. I am making this sworn statement for the benefit of my fellow farmers."

Extract from sworn statement by H. H. Farmer:

"I, the undersigned, H. H. Farmer (Ex-County Judge), being one of the largest land owners and wheat growers of my county take great pleasure in recommending Mr. A. H. Posey's seed wheat to any one wanting a better variety of wheat to sow. A short time back I sowed a field of his wheat and threshed 51 bushels per acre. In another field, I sowed part of his wheat (Imp. Blue Stem Fultz), and the balance my old wheat. Mr. Posey's wheat made a big yield while the remainder of the field was not worth cutting. In fact, I did not cut it because it was no good at all."

We are pleased to announce to wheat growers that we have a fine lot of this rejuvenated wheat, but probably not enough to equal the big demand that is sure to develop as rapidly as growers and millers learn of it. The Fultz Wheat, formerly was grown over a very large extent of territory. For a fact it was well suited to practically all of the soft winter wheat district. Naturally, then, farmers over a wide territory will be interested in this announcement of the Genuine Blue Stem Fultz Wheat coming back. It is early, therefore suited to the Southern States where early kinds succeed the best; while its past record leaves no opening for an argument about its adaptability to the Central Wheat belt.

PRICE OF BLUE STEM FULTZ WHEAT

To develop a superior variety of wheat usually requires years of labor and patient waiting with no certainty at the start of a successful outcome. Even after a start is obtained, then the variety must be propagated until sufficient stock is obtained to warrant offering for sale. Even then comes the heaviest expense of all—advertising. Without advertising no person would know of the seed outside of the community where grown. Considering all these things our prices are low, while the cost to the farmer wanting to improve his crop, over the value of common wheat, is inconsiderable.

By Parcel Post, 5 lbs., \$1.00. By Freight or Express, ¼ bu., \$1.00; ½ bu., \$1.75; 1 bu., \$3.00; 2½ bu. (1 bag), \$7.25; 5 bu., \$14.00; 10 bu., \$27.00; 25 bu., \$65.00; 50 bu. or more at \$2.50 a bu. Bags free. Sow 1 to 1½ bu. to acre.

PURKOFF WHEAT

This new wheat originated in Indiana from a cross of the Michigan Amber, a smooth wheat, with Malakoff, a Russian bearded wheat. The result is a smooth head wheat of unusual length, white chaff and stiff straw. The grain is dark red color, medium size and firm texture. It is the class of soft red winter wheat. Tests have shown that Purkoff is extremely hardy. In some cases where other kinds almost completely winter killed, Purkoff came through with scarcely any winter killing. Owing to its extreme hardness, very long heads, crowded with grains, the wheat has proven probably the heaviest yielding sort ever originated. In the matter of yield, it is really sensational. The reports of yield this year as printed on this circular will show. In addition to all the good qualities already mentioned, Purkoff also tests high in weight, rarely testing under No. 1 and has exceptional high flour and bread making qualities, as have been proven. The flour is finely suited to both home and commercial baking. On the market, it grades soft red winter wheat of high protein contents.

Read the reports we print for the Purkoff Wheat and you must conclude that it is the poorest kind of economy to continue to sow weak, 'run-out' varieties. An occasional investment in new Seed Wheat will keep any grower right up to date and make him hundreds of extra dollars. A field sown to Purkoff, or even a bag full of seed, will start any wheat grower on the way to make many extra dollars.

PURKOFF WHEAT IS NEW

One grower says: "The Wheat Sensation of the Country."

It is sure to make a great stir among all Winter Wheat Growers.

The Farmer Who Gets Big Yields Is The Only One Making Money

60 BU., 51 BU. AND 37 BU. TO ACRE—"The new Purkoff Wheat raised by me this year yielded as follows: 1.6 acres, 60 bu. to acre; 10 acres, 51 bu. to acre; 15 acres (a clay field of rather low fertility), 37 bu. to acre. This wheat has made an excellent record for yield in this section since introduced. In 1924, when most of the standard winter wheat was badly winter killed, Purkoff came through with very little injury and made good crops."—A. G., Ind.

33 BU. TO 60 BU. TO ACRE—"The Purkoff wheat is out-yielding all other varieties in this country. I am just now threshing and my Purkoff is yielding 33 bu. to 60 bu. per acre. Some of my neighbors have small pieces of Purkoff and in every instance, it is giving heavy yields."—P. L. J., Ind.

YIELDED TWICE AS MUCH—"My Purkoff Wheat in 1925 made just twice the yield of another variety grown under same conditions. It is very hardy, and stools heavily. It is the most satisfactory wheat I ever grew."—E. E. M., Ind.

PURKOFF 27 BU., RUDY 16 BU.

"My Purkoff Wheat yielded 27 bu. per acre this year (1926) against Rudy Wheat yielding 16 bu. per acre. It is all spoken for for seed by my neighbors. This variety of wheat is in much demand for seed where raised."—R. T., Ind.

AVERAGE 43 BUSHELS

"I have just threshed a field of Purkoff Wheat that made an average of 43 bu. per acre. The highest yield of other kinds around here, to date, is 36 bu. per acre. Last year my Purkoff made 28 bu. to the acre while the highest yield of any other wheat in this locality was 17 bu. I believe the Purkoff Wheat is going to prove the wheat sensation of the country on account of its enormous yielding qualities, due to its long head. Last year I sold it up to \$5.00 a bushel for seed

and did not have enough. Also, there will not be enough to supply the demand this year."—C. V. McK., Ind.

BEST WHEAT WE CAN GROW

"Purkoff Wheat has been tested out in this neighborhood and I think without a doubt it is the best wheat we can grow here. It stands the winter better than any other variety. The straw is also very strong and will stand up where most other kinds will go down."—H. C. B. Ind.

PURKOFF WHEAT

Has been grown chiefly on heavy soils where it has yielded $\frac{1}{2}$ more to twice as much as old-line wheats.

We believe it is equally well suited to black and sandy soils.

Purkoff Wheat has extra long well-filled heads.

50.3 BUSHELS

"A striking example of the wheat growing possibilities in Indiana was demonstrated in Wells County where, on a 9.9 acre tract, was threshed an average of 50.3 bushels per acre. Such a yield was unheard of in that section before by old residents who, for their satisfaction measured the ground. The variety of wheat was the Purkoff."—Indianapolis News.

THINK ONE OF THE BEST

"My Purkoff Wheat is not threshed yet, but I estimate the yield 25 to 30 bushels per acre. I think it is one of the best varieties for this section of country."—B. F. Fisher, Ind.

YIELDED 10 BU. MORE

"I have not threshed my Purkoff wheat this year, but last year it yielded 10 bu. per acre more than Poole grown in the same field."—Wm. E. Baker, Ind.

IT WILL NOT WINTER KILL

"One good point about Purkoff Wheat is that it will not winter kill. On account of bad weather last Fall, I sowed so late that it did not show growth until Spring. Now, as I am starting to harvest it is a fine field of wheat."—Lewis V. Gant, Ind.

25 BU. AGAINST 15 BU.

"My wheat this year is all Purkoff, so I cannot make any comparison, but last season I had another kind grown under exactly the same conditions. The Purkoff averaged 25 bu. to the acre, while the other made 15 bushels. The quality was good, testing better than 60 lbs."—Wm. L., Ind.

Testimonials are genuine. We do not give the full addresses here but they are on file in our office.

This picture of a 1½ acre field of Purkoff Wheat raised in Western Indiana, was sent us by the grower, Mr. Arthur Goss, who said the ground was measured and the yield was 60 bu. to the acre, test weight 61 pounds. He also had 51 bu. per acre on 10 acres and 37 bu. per acre on 15 acres, less fertile soil.

Classification of Purkoff Wheat and Flour

By Arthur Goss, (one of our growers).

"Purkoff Winter Wheat was originated in 1912 from a cross of Michigan Amber and a hard wheat, Malakoff. It is a smooth wheat, with moderately stiff straw of about average height. The head is unusually long, white chaff and medium size grain.

"Numerous tests have demonstrated that Purkoff is an extremely hardy wheat. In the winter of 1923-4 for example, when much wheat was almost completely killed, Purkoff came through with scarcely any winter killing at all. Owing to its extreme hardness, extra long heads and other inherent characteristics, Purkoff has proven to be one of the highest yielding varieties of wheat yet discovered. In 1924 this wheat was sown by seven farmers in my county, under field conditions. Of these four reported yields ranging from 38 to 43.6 bushels per acre and the other three reported around 25 bushels per acre from very late sowing. In addition to its extreme hardness and high yielding power, Purkoff also tests high. In a number of tests it has varied from 57 lbs. on un-

fertilized soil to 61 lbs. on soil sufficiently fertile to make good yields.

MILLING TEST

The following report was made to our grower, Mr. Goss, by one of the well equipped mills of Indiana. The quantity ground was 30 bushels:

"Test weight per bu.,	60 lbs.
Grade of wheat, soft.	
Amt. of flour per bu.....	42½ lbs.
Amt. of bran and shorts.....	16½ lbs.
Loss in grinding	1 lb.

Total	60 lbs.
-------------	---------

"We consider the yield of flour is about the same as produced from the average soft wheat of this section.

"We found by a home baking test of the flour from Purkoff Wheat that it made a good quality of both biscuits and light bread."

NOTE—The growth of Purkoff Wheat has been practically limited to Indiana up to this time, but we cannot conceive of any reason why it will not be as valuable in other states in the Central Wheat belt, also in Wisconsin, Michigan and Canada where winter wheat is grown. In the South we recommend trying it in a small way this season.

PRICE OF PURKOFF WHEAT

By Parcel Post, 5 lbs., \$1.00. By Express or Freight, ¼ bu., \$1.00; ½ bu., \$1.75; 1 bu., \$3.25; 2½ bu. (1 bag), \$7.25; 5 bu., \$14.00; 10 bu., \$27.00; 25 bu., \$65.00; 50 bu. or more at \$2.50 a bu. The grain of Purkoff is small and 1 bu. to acre of our nearly 100 per cent germination wheat will make a good seeding, but sow varying quantities and test for yourself.

MORE WHEAT

Can be raised on the same ground, and at practically the same cost for labor and fertilizer if farmers knew the hardiest and most yieldy kinds, and would sow them. The extra dollar invested in better seed, better seed bed preparation and for fertilizer is the dollar which you can borrow, if you have not got it, at 6 per cent interest and on which you make 50 to 100 per cent. So if you should change your seed, then buy the variety offered on this circular. The difference between your grain check and your cost of production represents your profit or loss. We submit this circular of seed wheat and if you want to get right, financially on the wheat crop, order some of the Marvelous.

Three-Pecks or Marvelous Wheat

This picture shows part of a 100-acre field of Three Pecks or Marvelous Wheat. This Wheat is in our house for all enterprising farmers to get a share of it. The grower says as follows:

"Everitt's Seed Store. Gentlemen: The seed with which this field was sown was directly descended from seed obtained from you several years ago. The variety has always done better for us than any other kind. In fact, it is the only kind we are now growing, having discarded all other varieties. This field yielded 30 bu. per acre, seeded 1 bu. per acre. Two years ago, we sowed 3-4 bu. to acre, and harvested 31.3 bu. to the acre. On one of our farms in another county, we had this year 42 bu. per acre, seeded 1 bushel. We have discarded all other kinds, as we find in our extensive wheat growing operations, the Three Pecks or Marvelous is the most dependable and makes us the most money."—H. J. McGinnis, Ind.

DESCRIPTION The Marvelous Wheat is one of the hardiest and most vigorous growers of all.

It is a variety well suited to sow on loose, black loam soil where wheat often fails; also on poor ground, it will do better than most varieties, but it does well on any wheat ground. If the Marvelous Wheat suffers winter damage, and there is a moderate stand left in the spring, it usually will make a good crop on account of its ability to stool and thicken up. The straw grows medium high and strong for a bearded wheat. The heads are bearded, white chaff, large and splendidly filled. No other bearded wheat equals the Marvelous for the size and "fatness" of the heads. It holds its grains well when ripe. The grain is large, long, red, hard and heavy. It makes a flour that millers call "Strong." It is one of the heaviest in test and very superior for milling and bread making. Analysis and baking tests have proven it at the top amongst the soft red winter wheats for quantity and quality of flour. It ripens early—is one of the earliest. In the important matter of productiveness it is rarely excelled.

From Virginia to Colorado Wheat Growers find the Three-Pecks or Marvelous Wheat an Improvement over others.

Marvelous is The Universal Wheat

Space prevents us printing complete letters, but following are extracts from letters received from nearly every state in the country:

ALA.—"Yields four times others."
 ARK.—"Beats everything in wheat I ever saw."
 COLO.—"Yielded 40 bu. to acre. Will put out 200 acres."
 IDAHO—"Beats everything else."
 IOWA—"Best in the country. Beats other kinds."
 KANSAS—"Going to be the leading wheat of this country. I think Marvelous is the greatest wheat ever introduced in this country."
 KY.—"It certainly is 'Marvelous.' 'Yield 50 bu. per acre.' 'Makes two to one.' 'Yields so much more.' 'I am proud of the results.'"
 LOUISIANA—"Far superior to any other variety I ever saw."
 MD.—"45 to 50 bu. per acre." "Better than any other kind." "Sold all for seed and will sow whole crop."
 MICH.—"I recommend Marvelous as the wheat to sow." "Neighbors opened their eyes." "Better than any other wheat."
 MONT.—"35 to 40 bu. per acre."
 NEB.—"Stands the winter well and looks fine." "10 to 15 bu. more than others." "Resists the fly, yields 20 to 30 bu. to acre. You should advertise it more."
 N. J.—"It surpasses other varieties."
 N. Y.—"Best ever grown here." "The wheat we want." "Always ahead of others."
 N. C.—"Yields one-half more than others." "Best wheat I ever tried." "Great demand for seed." "40 bu. to acre. Doubles yield of others." "Yields one-third more." "One acre yielded 55 bushels." "Will sow whole crop."
 PA.—"I will sow Marvelous on all the ground I put out." "Marvelous finest wheat out." "One-third better than Fulcaster." "Away ahead of others." "Surpassed all expectations." "All that see it praise it." "Far better than other kinds."
 TENN.—"Marvelous beats them all." "Marvelous better than Fulcaster." "Every farmer should sow Marvelous." "Will sow only Marvelous." "Beats every variety ever seen." "It's the wheat for Tenn." "Yields 4 times other kinds." "Yields ½ more than others." "Yields twice as much as others." "Marvelous ahead of others." "Far ahead of my expectations." "Finest wheat ever seen."
 TEXAS—"Sorry I did not sow my whole crop with Marvelous." "My neighbors are begging for seed."
 VA.—"Marvelous produced double other varieties." "Best wheat we ever sowed." "Lots of farmers speak for seed." "It beats everything

You can buy 3-Pecks or Marvelous Wheat from us and sow a field, or your crop, at no more to less cost than your own wheat will sell for on the market.

Fifteen plants of Three-Pecks or Marvelous Wheat, each plant produced over 1,000 grains. That is, over 1,000 grains from one grain. This explains why less seed can be sown of this variety.

in this valley." "Marvelous, all you claim." "Yields nearly double others."

W. Va.—"Yielded double Fulcaster." "Marvelous the perfect wheat." "Marvelous is without doubt the greatest wheat there is." "Marvelous expectations in yield." "Marvelous is the very wheat our farmers need." "Marvelous did more than we expected gave perfect satisfaction."

PRICE OF THREE-PECKS OR MARVELOUS WHEAT

By Parcel Post, 5 lbs., \$1.00. By express or Freight, ¼ bu., \$1.00; ½ bu., \$1.75; 1 bu., \$3.00; 2½ bu. (1 bag), \$7.25; 5 bu., \$14.00; 10 bu., \$27.00; 25 bu., \$65.00; 50 bu. or more at \$2.50. Sow 3-4 bu. to 1 bu. per acre.

JONES' CLIMAX WHEAT

One of the
Hardest
Handsomest
in Growth

If you **MUST** sow
some Wheat very late,
select Jones' Climax.
It is the best for real
late seeding.

This is the most beautiful appearing wheat of all as it grows in the field. Tall, strong straw, even height, very large, smooth heads, white chaff, clean and bright. A field of this wheat is easily distinguished from all others and always attracts attention. The grain is large, light red and of good texture. One of its strong features is its great hardness. It is perfectly suited to sow early, but for sowing late it is probably the best variety. If sown early one bushel on good ground is sufficient per acre, if late, sow one to one and one-half bushels. In productiveness Jones' Climax is rarely surpassed.

Space will not permit printing the many splendid letters for Jones' Climax Wheat that we have received, therefore, we must content ourselves with giving brief extracts from some of them.

MO.—“One acre had 58 shocks and threshed 43 bushels. This was twice as much as the Russian Wheat that I raised.” “I will sow my entire crop of Jones' Climax, which will be about 100 acres.” “Have grown Jones' Climax Seed Wheat for two years and it out-yields all others.” “Jones' Climax turned out the best of any wheat in my neighborhood, and frequently yielded from two to four times as much.”

MICH.—“Jones' Climax is the banner variety for Southern Michigan.” “One bushel is a great abundance of seed to sow.”

OHIO.—“I have three different varieties of wheat growing, and Jones' Climax is the best of all. It is the best wheat I ever raised.” “We have tried several kinds of wheat in the last 30 years, and Jones' Climax is the best wheat we have ever raised.” “Jones' Climax is yielding 25 to 30 bushels per acre, while the yield of other kinds in this community is about 15 bushels per acre.” “Everybody who has seen the Jones' Climax Wheat says that it is the best that they ever saw. It can't be beat.” “I sowed my Jones' Climax Wheat through the middle of a field with Poole Wheat on both sides. The Jones' Climax I estimate at 35 to 40 bushels per acre, and the Poole at 20 per acre.” “I have three different varieties of wheat and Jones' Climax is the best of all. It is the best wheat I have ever raised.” “Jones' Climax is as fine a wheat as I ever saw.”

IND.—“It is a wonder.” “Most remarkable wheat.” “Myself and the whole neighborhood are surprised at the phenomenal crop that I have just shocked.” “Out-yields other kinds 15 bushel to the acre.” “I sowed the Jones' Climax wheat one bushel to the acre, and the shocks stood one-half to one-third more numerous than anybody else's wheat. Many farmers came to see it.” “Jones' Climax is out-yielding every variety about 15 bushels to the acre. It is the best wheat I ever raised.” “I sowed Jones' Climax wheat one bushel to the acre, and I think it is the greatest wheat I have ever raised.” “Jones' Climax wheat is attracting the attention of the farmers both far and near.” “I have been cutting wheat for the public, and find that the Jones' Climax wheat is the best wheat of any that I have cut.” Jones' Climax is a wonder.” “My 14 acres of Jones' Climax is the best wheat I ever saw.”

KY.—“Jones' Climax wheat is the best

variety I raised this season.” “I will sow my entire crop of Jones' Climax this season.”

ILL.—“Jones' Climax certainly is the best wheat for growth in Southern Illinois. I believe that it is the only kind to grow.” “My wife thinks the Jones' Climax is the grandest wheat. Three of our neighbors have spoken for seed.” “Jones' Climax wheat has the best reputation of any wheat in this section.” “Jones' Climax has certainly proved to be the finest wheat I ever saw. All who have seen it since it was ripe wants some for seed.” “Unfavorable seasons did not affect it.” “Through a mistake I sowed my Jones' Climax with less seed than I intended to, and put four bushels on seven acres. From the seven acres I raised 224 bushels.”

W. VA.—“I am overly pleased with the Jones' Climax Wheat.” “Several people have seen my wheat and they remarked, ‘I never saw the beat.’” “I have 14 acres of Jones' Climax wheat, and it is the best wheat I ever saw.”
