SPRINGFIELD - NEW JERSEY

Wm. Flemer's Sons - Prop. also
PRINCETON NURSERIES - PRINCETON, N. J.

Conditions of Sale

We have 700 acres devoted to the business; our methods of growing and handling stock are up to date.

References—Any leading nurseryman in the United States, Dun and Bradstreet's Agencies.

Prices—This list is intended for nurserymen and dealers only, and supersedes all previous editions. The prices are for the quantities named; 250, 25 and 5 will be furnished at the 1000, 100 and 10 rates respectively.

Terms—We are glad to grant 30 to 60 days time for payment of bills to all responsible parties, but parties we do not know, who have no commercial rating, must send remittance with order, or guarantee signed by someone of known responsibility. If references are sent, we will confer with them and after hearing favorably, if goods selected are still unsold, we will enter them as requested.

Trees selected by the customer at the nursery will be charged in accordance with their value.

Packing—A charge is made sufficient to remunerate for the cost of material only. Trees packed in bulk at no extra charge.

Complaints—Should there be any reason for complaint, we must be notified on receipt of goods, otherwise we cannot entertain it.

Orders—Are accepted on condition that they shall be void should any injury befall the stock from frost, or other causes over which we have no control.

Standardized Plant Names—With few exceptions, the plant names used conform to "Standardized Plant Names" as adopted by the Joint Committee on Horticultural Nomenclature.

Guarantee of Genuineness—While we exercise the greatest care to have all our trees and plants genuine and reliable, and hold ourselves prepared to replace on proper proof, all trees that prove untrue, we do not give any warantee, express or implied; in case of any error on our part it is mutually agreed between the purchaser and ourselves that we should not at any time be held responsible for a greater amount than the original price of the stock.

We guarantee all our stock to be in good condition on leaving our hands, but we do not guarantee it to grow under all conditions, nor do we make up any loss whatever due to climate effects or after culture.

To Our Customers—On all orders placed with us, stock is sold at the nurseries without freight allowance. The plants become your property upon delivery of them to the Transportation Co., and we cannot be responsible for loss, damage or delay in transit. If plants arrive in bad condition, before receipting for them, require the Station Agent to note same on the freight or express receipt, then make your claim on the Transportation Co. If you accept shipments short of what is enumerated on your invoice or in bad condition without proper notation on freight or express receipt, the loss will be yours. Every assistance in our power will be cheerfully rendered you to trace and recover lost goods.

Boxing—Boxing cost is charged on the following basis:

12x 15 in. x 8 ft.	\$1.75	23x28 in. x 8 ft.	\$3.00	17x20 in. x 10 ft.	\$3.50

An Open Invitation

The best and really only way to become acquainted with the methods by which we grow nursery stock to maintain our slogan "*QUALITY FIRST*" is to visit our nurseries. We are only seventeen miles from New York City, and Millburn station on the D., L. & W. Railroad is within walking distance from us. If the Pennsylvania Railroad is more convenient, get off at Elizabeth station and call us up at Millburn 152 and we can meet you there. Street cars pass our office every half hour, giving direct communication with Elizabeth, Newark, Millburn and Summit. The auto roads are splendid in every direction, and we shall always be glad to show you around the nurseries—so come whenever you can.

Deciduous Trees, Shrubs and Vines

NOTE—The figures in italics, following each variety, indicate in feet the approximate height of that plant when mature. It must be understood, however, that many varieties in their native habitat greatly exceed this height, but soil and climatic conditions modify their growth and character to a variable extent, and allowance for this has been made in the heights given here.

An Open Invitation

The best and really only way to become acquainted with the methods by which we grow nursery stock to maintain our slogan "QUALITY FIRST" is to visit our nurseries. We are only seventeen miles from New York City, and Millburn station on the D., L. & W. Railroad is within walking distance from us. If the Pennsylvania Railroad is more convenient, get off at Elizabeth station and call us up at Millburn 152 and we can meet you there. Street cars pass our office every half hour, giving direct communication with Elizabeth, Newark, Millburn and Summit. The auto roads are splendid in every direction, and we shall always be glad to show you around the nurseries—so come whenever you can.

An Open Invitation

The best and really only way to become acquainted with the methods by which we grow nursery stock to maintain our slogan "*QUALITY FIRST*" is to visit our nurseries. We are only seventeen miles from New York City, and Millburn station on the D., L. & W. Railroad is within walking distance from us. If the Pennsylvania Railroad is more convenient, get off at Elizabeth station and call us up at Millburn 152 and we can meet you there. Street cars pass our office every half hour, giving direct communication with Elizabeth, Newark, Millburn and Summit. The auto roads are splendid in every direction, and we shall always be glad to show you around the nurseries—so come *whenever you can*.
