New Dahlias

- Ellinor Vandever** (Sea) (Dec.). Great size, having every desirable quality; habits excellent. Satin rose pink. One of the earliest to bloom..... **7.50**
- Eliza Clarke Bull** (Boston) (Dec.). Pure white. Very large and regularly formed. Stood extreme heat and drought of last season without burning a single petal. Bushes of medium height. Profuse bloomer. **7.50**
- Eva Williams** (F. & M. (Dec.). Amethyst (197) with silver shadings. Excellent exhibition flower. Full center at all times. Stems very rigid. Free bloomer **3.00**
- Florence Michell** (Root) (Dec.). Cream white with a faint suffusion of shell pink. Full centered all season. Petals are long and pointed. Bush growth excellent. Wonderful exhibition flower..... **7.50**
- Jersey's Beauty** (Waite) (Dec.-Peo.). Spinel pink slightly tipped gold; habits fair; stiff 24-inch stems. Seven inches in diameter. A prize-winner everywhere exhibited **3.00**
- Maid of Mist** (Slocombe) (Dec.). Deep cream, shading to a salmon pink. Outer petals rolled back to a depth of $\frac{1}{4}$ inches, pointed and twisted. Easily grown to ten inches **2.50**
- Meadow Lark** (Seal) (Dec.). Buff and straw, with the reverse side of petals darker. Large flowers on long, straight stems. Tall plant..... **3.50**
- Our Country** (Stillman) (Dec.). Deep purple and florets heavily tipped white. Very deep bloom with a closed center **5.00**
- Peacock** (Peacock) (Dec.-Show). Finest variegated maroon purple, edged white. Wide petals. Dwarf bush; full deep centers..... **5.00**
- Rory O'Moore** (McWhirter) (Dec.) Violet purple, heavily tipped white, petals being violet and edged white. Blooms are very large and plants are very free flowering **3.50**
- Mrs. Charles Smithers** (Dec.). Magenta purple suffused white. Large size with rounded form..... **3.50**
- G. S. Harvey** (Dec.). Purplish magenta suffused white. Can easily be grown to ten inches. Very deep blossoms. Extra fine for exhibition work..... **4.00**
- Eleanor Grant**. Cameo pink while the center is a seafoam green, overlaid with a silvery sheen. Tall grower. Very large flower on long, stiff stems.... **2.00**
- Paradise Found** (Doolittle) (Dec.-Peo.). Deep lemon yellow. Giant double flower with fluted petals. Free in bloom and on good stems. Blooms ten to twelve inches and with a depth of seven inches.. **5.00**
- Uncle Sam** (Peo.). Orange buff at base of petals shading to bitter-sweet pink at tips, all overlaid golden sheen. Center petals mustard yellow streaked with deep rose pink. Petals are curled and twisted. Immense blooms easily grown to 10 inches without disbudding. Stiff stems over 3 feet long **3.00**

- Calvin Coolidge, Jr.** (Root) (Dec.). Rose pink suffused salmon shading deeper toward the center while the petals are distinctly edged gold. Flowers are immense and never show an open center..... 7.50
- Eastern Star** (Maytrott) (Dec.). Soft saffron yellow with old gold shadings. Flowers are of great substance and good keeping qualities. Full center. Excellent bush growth and free flowering. Easily grown to 10 inches without disbudding.....10.00
- Jersey Beacon** (Waite) (Dec.). Brightest of all so-called reds, with a tan reflex. A Dahlia without a fault. Grows to 12 inches.....10.00
- Elite Supreme** (Kennedy) (Dec.). Metallic amber, center shading to orange and salmon on outer petals. Size, stem and vigorous growth puts it in the highest class 7.50
- Sunny Jersey** (Maytrott) (Dec.). Lemon yellow suffused gold. Especially free bloomer. Petals are broad and flat and are inclined backward. Large flower 5.00
- Sunshine** (Hy. Cac.). Flaming red with golden tips. Large, loose artistic flowers on strong stems. Very prolific 3.50
- Vineland** (Maytrott) (Dec.). Russet orange suffused apricot. Petals curl and twist; bloom is of immense size. Similar to Mrs. G. W. Elkins, but heavier and better color. Good keeping qualities..... 3.00

General List of Dahlias

DECORATIVE

- Aibonita** (Seal). Lavender or violet pink, shading white with golden yellow at base of the petals. Immense flower. Formation is very unusual. Long, graceful, stiff stems. Very early and very free flowering 2.00
- Alaska** (Tyler). Pure white. Very free flowering on good stems 1.00
- Alex Waldie** (Broomall). Creamy ground color overlaid with pure salmon pink. Very large flowers on fair stems 1.50
- Al Koran** (Davies). Yellow suffused with goldenrod and amber. Petals have the Marcelle wave. Very large flower, easily averaging 6 inches, on exceptionally stiff stems 2.00
- Amanda M. Houghton** (Slocombe). Lilac pink, changing to a soft pink toward the center, the center petals fading to pink white, tipped and suffused rose. Exceptionally large flowers of perfect form on long, stiff stems. Ideal for exhibition work..... 5.00
- Amun Ra** (Seal). Center petals are shades of copper and orange shading to gold and amber, deepening to a rich reddish bronze with a metallic lustre. Immense blooms easily grown to 8 inches on erect, stout stems. Blooms keep very long when cut.... 1.50
- Augusta Nonin** (Bruant). Fiery red, fair size bloom. Good cut flower25
- Aurora B** (McWhirter). Royal purple dusted with silver, filled with contrasting collarette petals. Flower averaging 5 inches on an excellent stem. Blooms freely and lasts well when cut..... 1.00
- Ayesha** (Maytrott). Sulphur yellow. Medium to large size blooms. Extra long, stiff stem. Profuse bloomer. Tall plant35
- Azalea** (Bruant). Soft creamy yellow, outer row of petals tinted pink creamy yellow, more or less suffused salmon, shaded to old rose. Bloom is formed of many rows of long, narrow florets. Average size of bloom is 6 inches..... .75
- Baltimore** (Vincent). Lemon yellow. Broad petaled medium size flower on good stems. A profuse bloomer50
- Bashful Giant** (Marean). Apricot with golden shadings. Enormous flower easily grown to 9 inches. Stiff stem but pendant head. Ideal for exhibition.. 2.00
- Beau Brummell** (Boston). Pure royal purple. Does not fade or burn on the hottest day. Huge blooms on remarkably erect stiff stems. Low spreading bush.. 4.00
- Ben Wilson** (Murphy). Rich velvety red with each petal tipped yellow. Easily grown to 8 inches without disbudding. Excellent growing habits. Medium size plant 1.00

- Berchuse** (Boston). Salmon without a touch of yellow, changing to salmon suffused gold. Petals of medium width with a slight inward roll. One of the earliest to bloom. Very profuse. Flowers are about 6 inches on excellent stems..... .75
- Biltmore** (Stillman). Ground work is carmine and the petals are more or less tipped white. Flowers average 6 inches without disbudding. Very stiff stems.... .75
- Black Top** (Superior)). Dark velvety crimson with a darker center. Habit of growth, shape of flower and stem is identical to Millionaire. Easily grown to 9 inches 2.00
- Bonnie Brae** (Broomall). Cream shaded blush pink. Blooms are about 7 inches and very deep. Stems a little pendant at times because of the weight of flower. Ideal cut flower with us..... 1.00
- Breezelawn** (Maytrott). Vermillion. Perfect form with good full centers. Bloom averages 8 inches. Stems are inclined to be short at first..... .75
- Cadiz** (Boston). Reddish orange shading to chrome yellow at the base of the petals with a reflex of pale gold. Petals twist and turn. Profuse bloomer on splendid stems 4.00
- Cambria** (Burrell). Light rose pink changing to white at the center. Full massive blooms with very broad petals. Perfect stem 1.25
- Carmencita** (Boston). Buttercup yellow striped sunset red. Huge blooms on stiff stems. Excellent keeper when cut. Sometimes all yellow..... 1.00
- Catherine Wilcox** (Marean). White tipped reddish pink. Heavy massive bloom being very full with thick petals. Blooms average 7 inches..... 1.25
- Chanson** (Boston). Deepest lilac with a bluish sheen. Petals are very numerous, broad and flat. Tremendous blooms on satisfactory stems..... 1.00
- Charm** (Marean). Golden ochre, shading to burnt umber at tips. Large, perfect blooms on stout, wiry stems. Very free bloomer. Tall bushes..... 1.25
- Chickahominy** (Bosher). Maroon copper. Plant habit excellent. Good keeper. Profuse bloomer on long stems. Dark green foliage. Blooms average 7 inches 5.00
- Chieftain** (Slocombe). Light red, heavily streaked, splashed and marked with canary yellow. Some flowers are all red. Good size blooms on long thin but wiry stems. Very profuse bloomer..... .75
- Chinquepin** (Archer). Maroon shaded to purple. Blooms carried in same manner as Insulinde, but a stiffer stem. Flowers are large and full to the center at all times. Excellent cut flower..... 1.50
- Clarissa Blanco** (Doolittle). Deep claret wine, often with white markings. A great many of the blooms are self-colored. One of the largest, being easily grown to 9 inches. Stems are inclined to be short at first. Great depth of flower..... 3.50
- Dakota** (Marean). Deep tone of coral red suffused copper. Six-inch blooms on stiff, strong stems. A very vigorous bloomer 1.00

- Dardenella** (Vavra). Scarlet red and golden yellow, base and larger part of petals are red and the tips are shaded to yellow. One of the best. Average size of flower is 7 inches, but it can be forced to 10 inches. Stems are long and very thin. Profuse bloomer 2.00
- Darkeye** (Boston). Flesh pink with the petals, especially the center ones, heavily edged lavender. Lavender color nearly disappears in the late season. Huge thick blooms on very stiff stems. Petals are sometimes slightly quilled. Six-inch blooms..... 1.00
- Delice** (Charmet). Rose pink. Ideal florist flower, but a very slow bloomer..... .35
- Don Williams** (Doolittle). Lavender with each petal tipped snow white. A seedling of Earl Williams. Fine stem. Low growing plant. If heavily disbudded and grown for size will produce wonderfully large blossoms 3.50
- Dorothy Robbins** (Finger). Ochraceous buff with a carrot red center. Very free flowering. Excellent habits. Flowers measure 6 inches. Good keeping qualities. Holds its own against all of its color... 1.00
- Dorothy Wooten** (Hathway). Rose pink. Medium size blooms on fine stems. Very good cut flower. Free bloomer75
- Dream** (Hornsveld). Peach pink with an amberlike glow. Perfect form, standing erect on long stems. Ideal for cutting. Very broad petals..... .50
- Dr. H. L. Tevis** (Pelicano). Salmon rose suffused old gold and shaded to apricot. Flowers are easily forced to 9 inches. Excellent cut flower on good stem60
- Eagle Rock** (Bromall). Creamy white, shaded apple blossom pink. Large massive flower. In some localities it approaches the show type in form. Plants very dwarf..... 1.00
- Earl Williams** (Doolittle). Crimson scarlet with each petal marked and tipped white. One of the largest without disbudding. Very early and very prolific. About the best of the fancy type..... 2.00
- Ed Lachmann** (Boston). Cream tan and yellow blended. Very thick, 5-inch blooms. Stiff, wiry stems. Excellent cut flower. Good keeper..... 1.00
- Emperor** (Marean). Deep royal purple. Long, flat petals. Color does not spot under adverse weather conditions. Enormous blooms on extra stiff stems. Perfect form and habit. Very tall bushes..... 2.00
- Epworth Glory** (Bosher). Canary yellow, more or less tipped white. A lighter yellow than Exmouth Glory, of which it is a sport. Large flowers on very long stems. Bushes tall. Great many blooms come pure white50
- E. T. Bedford** (Marean). Purple, shaded lighter on edges of petals. Blooms easily measure 10 inches without forcing. Very profuse flowering..... 2.00
- Eveque** (Bornsveld). Bright shade of purplish violet. Medium size bloom held very erect on long, stiff stems75

Flamingo (Ansorge). Violet rose, overlaid tyrian rose. Very free flowering and very early. Blooms average 5 inches and generally has about 50 blooms to a plant each season	.35
Freckles (Maytrott). Buttercup yellow, streaked and penciled garnet. Some flowers are all garnet. Very early bloomer and very prolific. Long, small stems but very stiff. Excellent keeper when cut. Flowers average 5 inches	.75
Giant Ruby (Grienberg). Vivid red. Enormous flowers with full centers and on a good stem. Classed as the best red	2.00
Glorieux (Mastick). Deep golden yellow, deepening to gamboge bronze in the center, each petal tipped white. Long, stiff stems. Flower is very full and deep, and is a free bloomer. Huge blooms. Foliage is olive green	2.00
Glory of New Haven (Slocombe). Orchid lavender. Eight-inch blooms with broad, twisted petals on long, stiff stems	1.00
Goodby Delice (Broomall). Pink. Good size flower produced in utmost profusion. As a cut flower it is without a rival	1.00
Grace Marie (Vavra). Alzarine pink, shading to eosine pink. Center petals are rose with cadmium yellow showing through the rose. Large, fine flower on good stems. Very profuse bloomer.....	.75
Grenadier (Boston). Purple maroon with a reverse of pale silver. The petals quill and turn back. Monster flower and very thick. The very lengthy, heavy stems are grown without leaves. An entirely new type	7.50
Grizzley (Burns). Dark velvety maroon. Immense flowers are composed of broad petals, a little twisted at tips and slightly reflexed. Stem is over 24 inches long. Best of its class.....	1.25
Halvella (McWhirter). Old rose with a golden sheen. Great size and substance with good keeping qualities. Free bloomer on an excellent stem.....	2.00
Henry F. Michell (Root). Blending of scarlet and red. Habits late. Blooms 7 inches wide by 3 inches deep. Unusually tall bush, reaching a height of 8 feet with center cut out	2.00
Hercules (Marean). Tangarine and deep yellow, reverse of the petals shaded tangarine. Quilled and of enormous size. Long, stiff stems. Exceptionally free bloomer	3.00
Jean Kerr (Burpee). Pure white. Thick, short petals and very close. The best cut flower of its color. Very prolific and one of the earliest.....	.50
Jeanne Charmet (Charmet). Violet rose margined tyrian rose. Good bloomer on long, wiry stems. Free flowering. Blooms average 5 inches.....	.25
Joan of Arc (Vincent). Pink of a violet and lilac combination. Large flowers. One of the most profuse bloomers grown	—
John Lewis Childs (Boston). Yellow suffused and striped and generally tipped white. Eight-inch blooms on stiff stems. Excellent keeper. Self-colored blooms are red tipped white.....	.75

- Judge Marean** (Marean). Salmon pink, orange, yellow and pure gold. Very large flowers. Perfectly true type. A most profuse bloomer. Long, straight stems. About the best bloomer in our field with one exception 1.25
- Katherine** (Hodgens). Mulberry with a reflex of silver white. Large well built flower. Blooms freely and the late flowers will be equal in size with the earlier ones —
- Kitty Dunlap** (Boston). Shade of American Beauty rose. Blooms freely all season. Excellent keeping qualities. Long, firm stems. Immense blooms of good substance. Petals have a tendency to curl and are very broad. Long stems are practically without leaves 1.50
- Kiwanis** (Vincent). Pale green yellow. Incurved and twisted petals. Large, free blooming flower..... 1.50
- Laddie** (Broomall). Sulphur yellow at center, shaded old rose and tan. Large well formed flowers on rigid, erect stems. A very prolific bloomer..... .75
- Le Grand Manitou**. Bishop's violet, splashed French purple. Free bloomer on short but extra stiff stems. Low grower. Good size flower. Self-colored blooms are French purple..... .35
- La Mascotte** (Boston). Front of petals are silver white while the reverse is a deep violet..... 1.50
- Laura M. Starke** (Bosher). Soft red with a white tip, the white extending part way down the center of each petal. Some blooms are pure scarlet. Blooms measure 6 inches as an average and are grown in great numbers on a medium size bush. Petals wide and flat. Center keeps closed all season. 1.50
- Le Toreador** (Marean). Crimson. Exceptionally free bloomer. Strong, wiry stems. Excellent keeper. Unrivalled for shipping..... 1.50
- Liberty Bond** (Bromall). Buff bronze and salmon. Very large flower on long stems. Extra vigorous grower. Must have extra good cultivation for exhibition blooms 1.00
- Mabel Thatcher** (Marean). Pale yellow deepened to gold. Flowers average 8 inches on a strong, stiff stem. Very profuse bloomer..... 2.00
- Marcella** (Gill). Seashell pink. One of the earliest to bloom. Medium size flowers on dwarf plants. Stems are small but extra long and wiry..... .35
- Marion Christine** (Howell). Cadmium yellow, tipped begonia rose. Excellent in every respect. Average size of blooms 6 inches..... 1.50
- Mary Lair** (Vavra). Clear pink. Large flower and a very profuse bloomer. Excellent for cut flower purposes50
- Meritorius** (Bennett). Lemon yellow, shaded to scarlet and each petal tipped white. Excellent bloomer. Blooms average 7 inches and are very thick..... 1.00
- Mary Widow** (Marean). Clear yellow, suffused red at edges of the petals. Enormous blooms produced on top of the stems. An extraordinary shaped flower 2.00

Millionaire (Stillman). Lavender, overcast with pink, sometimes tinted with white. Largest of its kind, being easily grown 8 inches without forcing. Very deep flower. Slow bloomer. Good root maker, but a very poor sprouter. Wide, flat petals. Never shows a center	1.00
Mina Burgle (Burgle). Geranium red. Petals are broad and flat. Excellent under artificial light....	.35
Mohammed (Davies). Clear, soft yellow. Many of the flowers come peony in this climate. Blooms average 6 inches.....	1.00
Mordella (———). Bright apricot buff. Flowers average 9 inches. Petals are slightly pointed at the tips, making it look like a Hybrid in some localities. Excellent under artificial light. Long, graceful stems. Profuse bloomer.....	5.00
Mr. C. H. Dresselhuis (Groot). Mixture of deep rose and white, forming a general tone of rose pink. Flowering habit profuse. Stems 12 inches long, stiff and erect. Flowers set at end of stem. Blooms average 6 inches. Tall plant.....	.75
Mr. Crowley (Broomall). Salmon pink, shading to a bright yellow, overlaid violet. Excellent keeper. Dwarf plant. Flower averages 6 inches. Must be heavily disbudded to make good flowers.....	1.50
Mrs. Carl Selbach (Selbach). Mallow pink, shaded lighter in center with each petal outlined with deep mauve. Seven-inch flowers on strong, stiff stems. One of the best of its color.....	1.00
Mrs. Caroline Bruner (Peacock). Crimson, shaded maroon. Large flower. Early free and a continuous bloomer	1.00
Mrs. Eleanor Martin (Pelicano). Crushed mulberry, suffused gold and marked with two lines rose. Blooms average 9 inches on perfectly stiff stems over 2 feet long. Very free flowering.....	3.50
Mrs. E. P. Judd (Weigand). Carmine and rose suffused cream. Ends of petals slightly rolled. One of the largest. Very profuse bloomer.....	5.00
Mrs. H. W. Struck (Slocombe). White. Medium size flower. Profuse bloomer	.50
Mrs. I. Devere Warner (Marean). Mauve pink or orchid. Large perfectly formed flowers. Good stems. Profuse bloomer	1.50
Mrs. J. G. Cassett (Vincent). Dark pink. Medium size bloom	.35
Mrs. John T. Sheepers (Marean). Center of clear canary yellow, gradually changing to a shade of pink on the outer edges. Huge blooms on very stiff stems	2.00
Mrs. J. R. Howell (Darnell). Lavender with a purple lavender reverse. Deep full center. Excellent keeper. Can be forced to any reasonable size.....	2.00
Mrs. Milosi (Babylon). First blooms red, then white with red center. Huge blooms on very stiff stems. Excellent for cut flower work.....	2.00
Mrs. Oppenheim (———). White base, heavily edged and shaded mauve. Very profuse bloomer. Medium size flower	1.00
Mrs. T. B. Ackerson (Childs). Carmine tipped and shaded with white pearl. Very prolific.....	.50

- Mrs. Thomas Bush** (Peacock). Reddish salmon, shaded to primrose and tipped rose. Exceptionally long stems. One of the most profuse bloomers grown. Excellent cutting flower..... .50
- Natoma** (Doolittle). Tawny shaded of golden yellow and orange. Number of types may be expected upon one plant, being at times both double and semi-double, or duplex. Immense size blooms. A most artistic flower75
- Nina** (Maytrott). White with a lilac blush. Petals are slightly cleft. Flowers when full open form a perfect ball. Blooms too large for the bush..... .35
- Nobilis** (Doolittle). White with crimson markings. A sport of Earl Williams and in our opinion a better keeping Dahlia 2.00
- Osam Shudow** (Boston). Delicate old rose, slightly suffused lilac and shaded to yellow at the center. Big, heavy loose petals resembling a rose rather than a Dahlia. Blooms average 9 inches. Bush is very tall 1.50
- Pahaska** (Wilmore). Apricot and fawn shaded pink. Immense size blooms; petals are long and curved. 2.00
- Patrick O'Mara** (Vincent). Orange buff, tinted neyron rose. Huge stiff bloom on good stems. Splendid cutting and shipping flower..... 1.00
- Paul Micheal** (Micheal). Gold or orange buff shaded to old rose. Average size of blooms 9 inches. Petals curled, twisted and pointed. One of the most prolific of all Dahlias..... 1.50
- Penatiquit** (Babylon). Golden bronze. Perfect in form, growth and color. Eight-inch flower on long, wiry stems. Free bloomer..... 2.00
- Perfect Beauty** (Stillman). Bright light scarlet, outer ends of petals heavily tipped white. Colors are divided about equally. A most beautiful flower of large size 1.00
- Pink Perfection** (Peacock). Silver pink. Good size bloom on excellent stems. Very thick flower..... .75
- Polaris** (Bromall). White. Flowers are of immense size. Perfect form. Dwarf plants. Strong and vigorous 1.00
- President Wilson** (Jones). Vermillion scarlet tipped white. Some flowers are self-colored. Petals are long and pointed. Huge blooms on fair stems. A poor root maker and poorer root keeper..... 2.00
- Pride of California** (Lohrman). Crimson red with a darker center. Huge flowers on long, straight stems. Free grower. One of the best reds for all purposes. An excellent keeper50
- Pride of Connecticut** (Alling). Amaranth pink, blending tyrian pink, edge of each petal rose pink. Plants are of medium height. Stems are 12 inches long in clear. Flowers average 7 inches and 2 inches deep. An excellent keeper..... 2.00
- Pride of San Francisco** (McWhirter). Golden salmon pink. Six to 7-inch flower on stout stems. Habits excellent. Requires no staking or disbudding..... 2.00

- Prince Imperial** (Vavra). Pansy purple, shading to carmine and amaranth purple, center dahlia purple. Flowers average 9 inches and are loose in formation with broad, wavy petals..... 1.00
- Princess Pat** (McWhiter). Old rose deepening at center. Stems are extra long and straight. Large flowers. Very free blooming..... 1.00
- Proxie** (Murphy). Rich velvety crimson. A very large flower on long, splendid stems. A better all-around flower than Pride of California..... 1.50
- Queen Mary** (Cannell). Rose pink, medium size flower on good stem. Fine for cutting..... .50
- Red Devil** (Finger). Carmine and nopal red, tipped and suffused golden yellow. Large thick bloom on heavy, medium length stem. All blooms in 1925 were solid color 1.25
- Red Wing** (Kirby). Scarlet. Exceptionally good growth and stem. Fine cut flower. One of the best large reds 1.00
- Robert Treat** (Mueller). Brilliant American Beauty shade. Giant exhibition type. Stiff, upright stems. Plants are strong growers of wide spreading habit. Produces on an average of 16 perfect blooms per season 3.50
- Rookwood** (Boston). Cerise rose, without the faintest touch of magenta. Flowers are immense with good depth on straight stems. Bushes grow low and are always covered with bloom..... 3.00
- Rotary** (Vincent). Velvety maroon. Large curled and twisted petals. Profuse bloomer. Erect good habit of blooming and growth. Form is like the emblem of that name 1.50
- Sammie** (Maytrott). Primrose yellow. Excellent form on extremely long, stiff stems. Petals slightly reflexed. Six-inch flower..... .50
- Sanhican Bluebird** (Fisher & Masson). Outer petals at maturity are bright violet blue, while the center ones retain the violet tint, making it the nearest to a blue Dahlia. Blooms are of gigantic proportion and are perfect in form. Strong, wiry stems..... 3.50
- Sanhican Gem** (Fisher & Masson). Old rose thickly suffused with amber in its young state, at maturity it is clear old rose. Giant flower. Petals are large and thickly placed being a true staghorn type of flower 3.50
- San Mateo** (Boston). Deep yellow, striped and splashed scarlet. Good stem. Tremendous blooms. Tall plant. Excellent keeper 1.50
- Sequoia Gigantea** (Burns). Yellow, shading deeper toward the edges. Immense blooms on good stems... 1.00
- Serpolette** (Boston). Lavender with blue instead of pink prevailing, extra fine stems. Flowers are of great size and depth. Blooms most profusely..... 3.00
- Shadow's Lavender** (Boston). Silvery lavender, slightly shaded toward white. Stem is absolutely perfect, being long and stiff and holds erect the tremendous blooms. Very constant 2.50

- Snowdrift** (Broomall). White. Immense deep flowers. Very broad and wavy petals. Blooms open quickly and remain for a week. It never sunburns and when the last petal drops it is as white as when it first opens 1.00
- Sou De G Doazon** (Bruant). Orange red. An old established favorite. Huge blooms always full to center. Plant is tall with heavy dark green foliage. Long, stiff, upright stems..... .25
- Stanley** (Maytrott). Carmine purple, shaded deep tyrian rose. Perfect blooms of very large size. Profuse flowering plant50
- Sulphuria** (West). Sulphur yellow. Large, long petals half quilled upward and bent backward. Dwarf plant. Huge blooms..... .75
- Sunbeam** (Slocombe). Scarlet, shaded to amber. Large, free blooming flowers..... .75
- Susan Coe** (Burpee). Rose pink suffused lilac. Large flower on a good stem..... 2.00
- Theodore Vail** (Boston). Old gold, shaded to apricot. Stem is long and very straight. Very large and heavy flowers75
- Tommy Atkins** (Boston). Flaming metallic scarlet (No. 85) shades (4). Large, deep blossoms. Center remains closed all season. Stems stiff as cane. Blooms freely, is very free and continuous..... 2.00
- Trentonian** (Fisher & Masson). Indian skin, a blending of old gold, amber and copper bronze with a center of reddish bronze. Giant blooms. Petals are broad and have the appearance of velvet and the consistency of leather..... 7.50
- Tryphinnie** (Estes). Bright shell pink, shading lighter at the tips of the petals, bright golden yellow at the base of the petals. Perfect bloom on very long, wiry stems 1.50
- Uncle Henry of Oz** (Doolittle). Cerise rose. Very tall sturdy plant. Good size bloom on long stems..... 2.00
- Venus** (Marean). Creamy white with a lavender suffusion. Large flowers. Pointed and incurved petals. Profuse bloomer 1.00
- W. Darcy Ryan** (Boston). Violet purple, heavily shaded white. Never has a self-colored bloom. Large flower on a good stem. Very free bloomer..... 1.00
- Winifred Slocombe** (Slocombe). Mustard yellow at tips and shaded to mikado yellow at center. Blooms average 7 inches by 2 inches deep. Dwarf plant.. 2.00
- Wizard of Oz** (Doolittle). Amber pink or soft salmon pink. Easily grown to 10 inches and can be forced to 14 inches. One of the finest grown. Apparently has no fault..... 3.00
- Yale** (Alling). Base is for the most part deep violet purple with a deep and distinct edging of pure white. Stem is very long and has tendency to droop. 1.50
- Yellow Prince** (Broomall). Rich golden yellow. Late in the season the flowers are too heavy for the stem. Plant medium weight..... 1.50

HYBRID

- Allannah** (Mastick) (Cac.-Dec.). Deep rose pink, shaded into picric yellow at base of the petals with a satin sheen. Size color and form are unusually attractive. Stem is slender and erect. Curly petals are reflexed. Compact medium height bush. Flowers keep a long time and the foliage is remarkably free from insect pests. 3.00
- Ambassador** (Broomall) (Cac.-Dec.). Soft yellow center with salmon, amber and pink shadings, gradually deepening toward the tips. Flowers easily average 8 inches and are set stiff on the best of stems. Strong grower and free bloomer from early to late. Originator says, "It stands supreme as the best and most artistic" 2.50
- Boston White** (Murphy) (Cac.-Dec.). White. Immense blooms. Can be forced to almost any reasonable size. Duplicate of Polar Bear, but has a better stem 2.00
- Break O' Day** (Maytrott) (Dec.-Cac.). Delicate clear sulphur yellow, shaded to light green yellow. Full high centers with back petals coming through the front ones. Excellent cut flower. Average size 5 inches. The center bud must be taken out instead of the two side ones.50
- Cordova** (Mastick) (Dec.-Peo.). Pale lavender with a piccote edge of heliotrope around each petal. Seedling of Bodeka, which it resembles in size, shape and habits. Long, strong stems, but more horizontal than upright. Good keeper and a free bloomer... 1.00
- Dr. L. C. Boshier** (Boshier) (Dec.-Cac.). Reddish salmon pink, the so-called Henna. Heavy petals are slightly twisted. Excellent for cutting. Blooms average 7 inches. 1.00
- Ebenezer** (Vincent) (Peo.-Dec.). Amaranth purple, blended to tyrian rose, reverse of petals mallow pink. Habits are excellent. Stem is 13 inches in clear, bent a little to one side. Blooms over 7 inches and two inches deep. Tall plant. 45 blooms to one plant in our field. 3.00
- Etandard De Lyon** (Ferard) (Cac.-Dec.). Royal purple. Blooms average 6 inches. One of the most prolific. Very stiff but slender stems.50
- Frances Lobdell** (Waite) (Cac.-Dec.). Pale amaranth pink with center white, changing to marguerite yellow. Habits excellent. Stems are rigid and very long. Blooms average 6 inches and 3 inches deep. Tall plant. Good keeper. Very free flowering.... 2.00
- Gee Whiz** (Broomall) (Cac.-Dec.). Soft buff, shaded salmon. Seven-inch blooms 2 inches deep. Never shows an open center regardless of the weather. Good long stems. 1.00
- Geo. Walters** (Carter) (Cac.-Dec.). Pink salmon, suffused old gold. Excellent flower in every respect. Six-inch bloom freely produced on an extra long stem. Some blooms become Peony in this locality.. .75

- Gladys Sherwood** (Bromall) (Cac.-Dec.). White. Blooms are huge, being easily grown to 8 ins. without disbudding. Finely formed blooms on cane-like stems. Weather has no effect on the flowers..... 1.00
- Insulinde** (Kriest) (Cac.-Dec.). Dull old gold, suffused bronze and dusted gold. Outer petals are twisted, showing the mauve tint on the reverse of the petals. Flowers grow erect on top of the stems..... 1.50
- Islam Patrol** (Davies) (Dec.-Cac.). Very dark velvet scarlet tipped and flushed with pure gold. Stands very upright on cane-like stems. Huge bloom..... 4.00
- Ismalia** (Davies) (Cac.-Dec.). Velvet maroon shaded to red. A very large flower with a perfect form on a perfect stem 2.00
- Joppa** (Vincent) (Dec.-Cac.). Dark salmon rose. Tall grower. Habits excellent. Seven-inch bloom on cane-like stems. Easily keeps a week when cut.. 2.00
- J. Otto Thilou** (Root) (Cac.-Dec.). Cardinal red. New formation in a Dahlia. Six-inch blooms on a fair stem. Petals are long and pointed, being arranged in a regular manner, reminding one of a double poinsettia 1.00
- Kalif** (Englehardt) (Dec.-Cac.). Pompeian red. Perfect form, being very deep and full. Large blooms on wiry stems75
- Kohinoor** (Boston) (Dec.-Cac.). Deep maroon and at times almost black. An immense deep bloom of true type. Petals roll closely and form a magnificent incurved flower. Blossoms very freely from early to late 5.00
- Lavalle** (Mastick) (Cac.-Dec.). Light lavender. Petals are crinkly. Stem is long, strong and wiry. Cannot be surpassed as a cut flower, for it blooms with exceptional freedom and stands up when used for decorative purposes 1.00
- Leota Cota** (Broomall) (Cac.-Dec.). Buff cream and pink. Enormous size. Can be grown to ten inches. Height of plant 3 feet..... 1.00
- Lida J. Smith** (Root) (Cac.-Peo.). Center a deep maroon, almost black, outer petals magenta shading lighter toward the tips and striped a velvety brown. Large blooms, easily measuring 8 ins., and are held erect on strong but slender stems. Very early and free bloomer..... —
- MacGregor** (Mastick) (Dec.-Cac.). Spectrum red, base of petals lemon yellow. Flowers are large and full and are carried on long, straight, upright stems. One of the few that are not affected by pests. Excellent keeper. Plants average 85 blooms each season 2.00
- Mariposo** (Boston) (Dec.-Cac.). Pink intensified by violet. Long, narrow, incurved petals that twist and curl. Absolutely long, stiff stems over 3 feet. Blooms very early 2.50
- Maybelle Eckland** (Doolittle) (Peo.-Dec.). Maroon and wine shades. One of the finest of the dark shades. Tremendous flower. Unusually hardy variety of rich velvety texture 1.00

- Merrick** (Albright) (Cac.-Dec.). Light maroon, tipped mahogany, reverse mahogany. Very large and a free bloomer on a fine stem..... 3.50
- Mme. Butterfly** (Maytrott) (Dec.-Cac.). Violet rose shading darker at tips and blending to golden yellow at base. Long, rather narrow, pointed petals, twisted at ends, showing a magenta reflex. Bloom on top of the stalk. Dwarf plant..... 1.00
- Mrs. Edna Spencer** (Spencer) (Cac.-Dec.). Lavender pink, shaded lighter. Great blooms on fine stems. Excellent keeper when cut..... .75
- Mrs. E. F. T. Smith** (Broomall) (Cac.-Dec.). White with a lemon center. Largest of its kind. Profuse bloomer on strong stems..... 1.00
- Mrs. Leo Neissen** (Peacock) (Cac.-Dec.). Yellow base, suffused and tipped bronze. Profuse bloomer on excellent stems. Plant spread out..... 2.00
- Mrs. Warnaar** (Hornsveld) (Cac.-Dec.). White shaded faint pink. Petals irregular, wavy and slightly incurved. Ideal stiff stem. Habits perfect..... 1.00
- Oregon Beauty** (Gill) (Dec.-Peo.). Oriental or geranium red. Free flowering on slender but wiry stems. Outer petals reflex to stem. Excellent cutting flower. .35
- Queen Zenobia** (Archer) (Cac.-Dec.). Pansy purple with a lavender reverse. Petals twist showing the two colors. Tall grower with scant foliage. Seven-inch bloom or over..... 3.00
- Red Cross** (Anderson) (Dec.-Cac.). Scarlet and gold. Petals twisted and pointed at the ends. Good, strong stems. Large flowers. The logical successor to Geisha 1.00
- Red Flamingo** (Ballego) (Cac.-Dec.). Crimson red. Broad, wavy petals. Flowers shaped exactly like Insulinde and are set on top of the stalk. Very stiff formal stems..... .75
- Robert Laurie Black** (——) (Dec.-Show). Pure white, a flower of wonderful depth. Splendid keeper. Huge flower for its type..... 3.00
- Rodman Wanamaker** (Peacock) (Dec.-Peo.). Buds are pale lemon yellow as it first expands, but it quickly develops into a golden yellow bronzy salmon pink and finally into a beautiful shade of ochraceous salmon with a reflex of spinal pink. Originator says, "It is the largest Dahlia grown." Blooms here average 9 inches without disbudding. Plant is a giant, strong sturdy and vigorous. Lacelike foliage. 5.00
- Ruth Van Fleet** (Stillman) (Cac.-Dec.). Light canary yellow. Large flowers on an extra good stem. Vigorous bloomer 1.00
- Sagamore** (Bedetty) (Dec. to Peo.). Golden yellow on the outside petals and shading to a golden salmon. Flowering habit free. Ships well. Blooms average 8 inches by 3 inches deep. Strong, wiry stems.. 5.00
- Senorita** (Lohrmann) (Dec.-Cac.). Dark maroon; giant flower; dwarf plants. Stems are long and very stiff..... 1.00
- Shirley Brown** (McWhirter) (Dec.-Cac.). Old gold, tinting salmon; very large flowers, on long, wiry stems. Excellent for exhibition purposes..... 2.00

Siskiyou (Broomall) (Dec.-Cac.). Pink, tinted mauve. Plants are sturdy and vigorous and flowers are held erect on extra long and sturdy stems. One of the largest of all, easily grown 11½ inches in this locality	5.00
Southward Ho (Babylon) (Dec.-Cac.). Carmine, tipped white. A duplicate of Kalif in every respect, except in color	.75
Syria (Davies) (Dec.-Cac.). May rose and canary, striped and splashed with dark cardinal. An absolutely true Hybrid type. Large blooms on good stems	.75
U. S. A. (Stillman) (Dec.-Cac.-Peo.). Deep salmon orange. Blooms average 7 inches. Petals are twisted slightly and the back rows are pushed through the front ones. Excellent formation on extra good stems	1.50
Violetta (Rivori) (Cac.-Dec.). Petunia violet. Large flowers on upright stems.....	3.50
War Dance (Gill) (Dec.-Cac.). Color is similar to Geisha, except it is scarlet tipped and marked golden yellow. Gigantic flowers, often 10 inches, being very heavy and massive; carried on good stems. Strong, vigorous plants, producing an abundance of fine flowers.....	1.00
Whiffestan (Doolittle) (Dec.-Peo.). Pure white. One of the best of its color. Often grows over 10 inches, being an average of 7 inches.....	5.00
Yellow King (Hornsveldt) (Dec.-Cac.). Light yellow. Exact shape as Attraction, but different color. Large elegant flowers on long, wiry stems. Excellent cut flower. Clumps hard to divide in the spring	.35

CACTUS

Attraction (Hornsveldt). Clear lilac rose or orchid. Large elegant flowers. Habits are perfect. Long, strong stems. Early and a very profuse bloomer. Bushy plants. Roots are rough looking and keep very poorly	.75
Ballet Girl (Boston). Orange with white edge; white shading to orange; white edged orange and other variations on the same bush at the same time. Very large flowers, averaging 7 inches. Stem long but pendant. Very free flowering. Full center all season.	1.00
Chocolate Soldier (Doolittle). Chocolate maroon. Blooms average 7 inches on extra stiff stems. Shape of flower and growing habits like Insulinde.....	1.00
Cigarette (Boston). Creamy white, heavily edged orange, but no two alike. More vividly colored than Ballet Girl. Petals are long and narrow and are inclined to curl slightly. Bloom is very large and of good substance. Fine stems.....	2.00
F. W. Fellowes (Stredwick). Orange. Blooms larger than usual for a Cactus type, growing in our field this season over 9 inches. Very sharp pointed petals	.75

Geo. L. Stillman (Stillman). Deep carmine. Form is exquisite. Size is enormous having been easily grown to 11 inches. Stem averages 26 inches long.	.50
Jean Chazot (Cayeux). Golden bronze, heightened with a suffusion of nasturtium red. Faultless flower on a good stem. Free bloomer and an excellent keeper. Averages 8 inches.	1.00
Judge Preston (Vincent). Bronze. Narrow petals. Good free bloomer.	.75
Justice Bailey (Wilmore). Shell pink, shaded to white. Good size bloom. Flowers are in great profusion	.50
Lacemaker (Peacock). Carmine red with each petal distinctly tipped white. A very profuse bloomer.	.35
Medusa (Peacock). Rose red, tinting lighter at tips. Long narrow buds. Entirely new type. Narrow petals unroll with a twist. Petals reflex down. Flower easily grown to 8 inches.	1.00
Milton Howard (Stredwick). Clear pink, tipped white. Good size bloom on long stems.	.35
Model (Stredwick). Clear yellow passing to rose. Good size blooms	.35
Nancy Mae (Babcock). Carmine, shading rich reddish purple. Fine, large flowers. Good, erect stems. Excellent for cutting.	.35
Papillon (Boston). Old rose, tinted gold. An incessant bloomer. Stems long and very stiff. An improved Geo. Walters. Flowers average 7 inches without disbudding	2.50
Picotte (Dreer). Crimson carmine, reverse of silver white. Petals fluted at ends. Flowers average 5 inches	.75
Pierrot (Stredwick). Deep amber, distinctly tipped white; sometimes solid amber. Immense size with very long, incurved petals.	.75
Pink Rosebud (Peacock). Pure pink, tinting lighter toward the center and tips of the petals. Buds are long, pointed and the petals unfold like a rosebud, one petal at the time. Buds are carried erect and when cut early can be shipped. Stems are long, straight and rigidly stiff.	1.50
Sheba (Peacock). Petals tipped white, a broad band of white along the middle toward the base, both edges cardinal, darkest on opening petals. Fluffy, loose and stylish. Petals recurved, twisted and whorled. Some half spiral edges, some inrolled trowel like, the tips acuminate, none of them cleft. Blooms facing on perfect stems well above the foliage	1.00
Verdun (Cazeon). Yellow, tipped and edged white. Exceptionally stiff stems. Large size bloom.	1.00

PEONY

Albert Ward (Meachen-Sherman). Light rosaline purple at tips of petals, shading darker at base. Free bloomer. Exceptionally large flowers, on a very fine stem	1.50
---	------

- Ann Duskin** (Peacock). Maroon, shading to jet black at the center as the flower opens; maroon instead of a yellow center. Very dark green foliage. Free flowering. Good size bloom on very slender stems.. **.75**
- Aurore** (———). Orange salmon. Semi-double flowers of fair size on strong stems. Very free bloomer. **.75**
- Chancellor** (Wilmore). Copper bronze with a reverse or Oriental red. Petals are loosely arranged, curved and twisted. Easily grown to 8 inches without dis-budding heavily. Stems are very long and somewhat pendant. Should be heavily staked..... **———**
- Christine Evers** (Meachen-Sherman). Lavender rose, reverse of petals showing rhodamun purple, shading lighter at tips. Ends of petals curl, showing the two colors. Huge blooms. Stems 2 to 3 feet long **1.50**
- City of Portland** (Gill). Deep nut yellow. It has every good quality. Immense flowers. Long, strong upright stems. Plants are strong and vigorous and produce blooms very freely..... **1.00**
- Dominique** (Gill). Two-thirds of each petal is garnet maroon, the rest of petal is white. Stem is long and slender but erect. Petals are long and slightly quilled. Very free flowering..... **1.00**
- Drum Major** (Dreer). Fiery red, which is intensified by a lemon yellow center with which the petals are more or less tipped and marked. One of the largest of the peony type. Under ordinary field cultivation grown to 8 inches. Very early..... **1.00**
- Edith Wooster** (Boston). Tea rose, blend of red and yellow; yellow is overlaid and suffused sunset red. Very large, thick blooms. Free flowering with excellent habits **1.00**
- Geisha** (Hornsveld). Buttercup yellow at base of petals, shading to scarlet toward the center of petals and passing lighter at tips. Petals are broad, loose and twisted snake fashion around the center. A very poor root producer and keeper. Huge flower on a long, slender but slightly pendant stem..... **1.00**
- Geo. H. Mastick** (Mastick). Dark maroon with currant tips to outer row of petals. As the flower opens it shows a yellow disc which changes to crimson. Large flowers made up of many rows of wavy petals of strong stems. Very free bloomer at all stages.. **1.00**
- Gorgeous** (Boston). Yellow, shading to bright scarlet. Tremendous size blooms, great depth of bloom; stiff, long stem; free bloomer; late blooms are as large and perfect as the early ones. Ten-inch blooms on 3-foot stems with little disbudding..... **1.50**
- Hong Kong** (Doolittle). Deep buttercup yellow toward the center; outer petals are shaded a deep tomato red. Immense blooms on very long and satisfactory stems **2.00**
- Howitzer** (Boston). Yellow striped and splashed scarlet. An immense fancy type. Huge blooms of perfect formation. Bush is tall and always in full bloom **1.25**

- James C. Gill** (Gill). Golden orange marked scarlet. Appears to be salmon pink under artificial light. Extra long, strong stems. Free bloomer. Giant blooms. Medium sized plants. Five rows of large broad petals 1.00
- Jessie von Tilford** (Doolittle). Bronzy copper with blooms sometimes marked white. Giant flowers on an excellent stem 1.00
- Kakadee** (In Scotland). Lemon yellow, changing to white tips. Very erect stems. One of the first to bloom and one of the last to quit. Good size blooms. 1.00
- Madonna** (Ware). Pale blush white. Blooms average 4 inches. Very profuse. Early bloomer. Especially good for cutting35
- Mary Jane Warner** (Mastick). Bright golden yellow. Stems 18 inches in clear. Very large with broad and slightly reflexed petals. Wonderful as a cut flower 1.00
- Meyerbeer** (Nonin). Dark cardinal with a purple center. Poor root maker and a poor root keeper. One of the largest, easily measuring 10 inches. Blooms keep well. Long, stiff stems..... .50
- Mme. J. Coissard** (Charmet). Crimson carmine shaded white. Flowers are large and very showy. Dwarf plants50
- Mme. Von Bijstein** (Wouters). Lilac mauve. Tall plant with a stiff stem. Petals are very curly. Medium size blooms50
- Mrs. C. E. Trower** (Seal). Salmon rose pink, shading to lighter pink at tips and to golden yellow at base. Many tiny florets cluster around the center. Large flower on long, stiff stems..... 1.00
- Mrs. Jessie Seal** (Seal). Old rose with golden suffusion and shadings. Largest of its coloring. Long, stiff stems. Sturdy plants. Free flowering. Profuse bloomer 1.00
- Mrs. Robert B. Stiles** (Peacock). Light tyrian pink, tipped lighter with a reflex of true pink. Blooms average 7 inches and 3 inches deep. Cane-like stems 20 inches long. Strong, vigorous, sturdy grower. Remarkable shipping flower 1.00
- Oh, Mi** (Bosher). Scarlet and gold blended. Large blooms on long, stiff stems. Wonderfully formed. .75
- Old Sol** (Maytrott). Primrose yellow, shaded copper red. Seven-inch blooms on 20-inch stems. Bloom when open forms a soft, full ball and does not show its center till the petals start to drop. Immune to bad weather50
- Oregon Sunset** (White). Golden yellow, heavily suffused bronzy crimson. Long, stout stems. Free bloomer. Flowers easily average 8 inches..... 2.00
- Pacific Glow** (Burns). Soft, light pink. Seven-inch blooms. Petals are long and slightly twisted. Strictly an exhibition flower, being too big for shipping purposes 1.00
- Pride of Wayne** (Greinburg). Plum purple. Flowers are of enormous size on excellent stems. Fine for exhibition purposes 1.00

- Queen Elizabeth** (Peacock). Rosy mauve, curled center petals completely cover the disc. Average size of flowers 6 inches, on a long, slender but stiff stem. Plant is very clean. Strong grower. Free bloomer. .50
- The Oriole** (Burns). Burnt orange, red and yellow; many of the flowers shading to white at the tips. Flowers are large. Good stems. Very prolific.... 1.50

SHOW

- Deelighted** (Childs). White. Exceedingly large flowers for its type. Center is slightly elongated. Very profuse bloomer50
- Emil Panuski** (Rodeck). Light lavender ground striped maroon, occasionally sporting to a solid maroon. Form is perfect and of the largest size. Grown on vigorous bushes on stiff stems..... .75
- Glory of Argonne** (Maytrott). Persian lilac, shading to a white center. Perfectly formed 6-inch blooms on an 18-inch stem. Ideal cut flower..... .50
- Golden Opportunity** (Doolittle). Buttercup yellow, shaded orange toward the center. Good, strong stems; very large for a Show Dahlia..... 1.00
- Helen Hollis** (Alexander). Deep scarlet. Huge flowers on long stems. Petals turn back, forming a perfect ball75
- J. K. Alexander** (Alexander). Violet purple. Large flower on a good stem..... .75
- John Tozar** (Maytrott). Bishops violet. Large perfectly formed flowers on extra long stems. Profuse bloomer all season..... .35
- Melvin Pellister** (Darnell). Yellow with every petal tipped white. Good size flowers on long cane-like stems. Profuse bloomer 1.00
- Mrs. C. D. Anderson** (Slocombe). Purplish crimson. Large blooms. Petals reflex forming a perfect ball. Excellent stems50
- Mrs. J. P. Smith** (Howell). Red with a cherry flush. Largest of its kind, very profuse bloomer; long, stiff stems50
- W. W. Rawson** (Rawson). White flushed and shaded amethyst, center amethyst. Stems are erect and very heavy. Good size flower. Excellent for cutting purposes35

POMPON

- Alewine** (Cannell). Lavender pink. Very profuse.. .35
- Ariel** (Brown). Buff, tinted orange..... .35
- Bobby** (Alexander). Plum50
- Brunette** (Gardener's Chronicle). Crimson, showing white35
- Catherine** (Vick). Primrose yellow..... .35
- Clara Harsh** (White). Yellow, tipped cream..... .35
- Cyril** (Cheal). Dark crimson, nearly black..... .50
- Fascination** (Alexander). Pink lavender..... .35
- Gretchen Heine** (Alexander). White, tipped rose.... .35

Joe Fette (Boston). White. Best and smallest of its color	.50
Nerissa (Turner). Silver pink.....	.35
Prince Charming (Sheffield). Lavender, tipped purple.	.35
Pure Love (Turner). Violet.....	.35
Rosalie (Ketnes). Yellow, edged crimson.....	.35

**List of Singles, Collarettes and Miniatures
Sent on Request.**

Remittance must accompany order. All retail orders for \$2.00 or over sent prepaid; on orders for less, add 10c for postage and packing.

GUARANTEE

All Dahlia Roots are guaranteed true to name as grown by us and free from disease.

Only the best and strongest root divisions are used in filling orders, and the utmost care exercised. But should an error occur, we will gladly rectify it if notified. Most failures in starting roots are due to improper planting or because of attacking insects. **No guarantee is given that roots will grow and bloom or will not rot in the ground, as that depends largely on soil, climatic conditions and attention.**

Remember that the size of the tuber makes no difference, as a small tuber will give as fine flowers as a large one and in most cases better.
