HORTICULTURAL SERVICE

For the beautification of your home grounds you are invited to consult our experienced staff of nurserymen who are at your service to give information regarding desirable plants, trees and shrubs, together with cost estimates.

If you are contemplating planting an orchard or only a few trees for your own use, we offer you the advantage of our experience of thirty years in this section, concerning best varieties and care of stock.

Our methods of digging and packing assure safe delivery of your order

Do You Have Our 1926 General Planting Guide?

It includes evergreen and deciduous
nursery stock, seeds, etc.

Mailed free on request

1927 Spring planting guide
ready for mailing January 1

MAIL ORDERS

For those who are unable to call at our sales yard or nursery to make personal selection of the stock desired, we offer the service of our mail order department. Its staff of experienced nurserymen and seedsmen, will make the selection for you with the same care as if acting under your immediate personal supervision. We realize that the satisfied customer is the essential factor in the business growth that has made us the largest nursery mail order establishment in the Northwest.

HOW TO ORDER—Kindly fill out order sheet carefully, sending in same as soon as convenient after receiving this catalog. Nursery Stock, Seeds and Bulbs should have the desired quantity written distinctly in the column provided for that purpose, with price after each item.

Packing and Shipment—We are especially equipped for packing Nursery Stock and Seeds for long distance shipping. We have had thirty years experience in handling goods of this class and pack to insure arrival at destination in good condition regardless of distance.

Freight—On Nursery Stock orders of \$10.00 or more we prepay freight charges to any point within 50 miles of Seattle. On orders for less than \$10.00 add enough to cover transportation.

Parcel Post. Parcels weighing 8 oz. or less, containing seeds, cuttings, bulbs, roots, scions and plants, 1 cent for each 2 oz. or fraction thereof, regardless of distance.

Other parcels of fourth class matter are chargeable according to distance zone as follows:

Domestic Parcel Post Rates			For First Pound Allow	For Each Additional Pound Add
Within the U. S. and Possessions, zones from Seattle, Wash.				
First Zone	within 50 miles		\$0.07	\$0.01
Second "	" 50 to 150 "		.07	.01
Third "	" 150 to 300 "		.08	.02
Fourth "	" 300 to 600 "		.09	.04
Fifth "	" 600 to 1000 "		.10	.06
Sixth "	" 1000 to 1400 "		.11	.08
Seventh "	" 1400 to 1800 "		.13	.10
Eighth "	over 1800 miles		.14	.12

The limit of size of a package that will be accepted by parcel post is 84 inches in length and girth combined. Larger packages must be forwarded by express or freight.

TERMS—Cash with order. Send remittances by Money Order, Draft or Registered Letter.

We exercise the greatest care to furnish seeds, bulbs, plants, shrubs and trees that are pure and reliable, but owing to the various conditions of climate, soil and cultivation attending success, we do not warrant in any way, express or implied, the description, purity, productiveness or any other matter of any seeds, bulbs, plants, shrubs or trees sold by us, and we will not be in any way responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof and the goods must be returned to us at once and the money will be refunded.

References—The National City Bank or any bank or wholesale house in Seattle.

LOCAL CUSTOMERS

You may order by telephone. Shopping from your home is facilitated by our telephone order department. It provides you with a quick and efficient method of placing your order which will receive the same careful and prompt attention by our experienced nurserymen and seedsmen as if you were present.

SELECTED NURSERY STOCK

WHEN AND HOW TO PLANT

Special attention is called to the superior quality of Nursery stock which we supply. Our experience in growing and transplanting Nursery stock in the Puget Sound climate covers over thirty years. This climate is particularly well adapted to a wide range of varieties of Nursery stock that heretofore have been successfully grown only in certain parts of Europe. The varieties range from the hardest to semi-tropical plants. Evergreens thrive especially well in our climate, obtaining better growth and color than in any other part of the world.

Evergreens may be successfully transplanted the year round providing sufficient water is used, but the best time to transplant is early in the fall or late in the spring. Ornamental deciduous trees and shrubs and all kinds of fruit trees and berry bushes may be set out any time after the rainy season commences (generally some time in November) until the first of April. The early

planting, however, is much preferable as it gives the trees and plants a chance to establish a new root system before the dry season commences. Plants or trees of any size may be transplanted successfully providing they have been properly cared for in the Nursery. Our stock is transplanted every two or three years, thereby producing a root system on the Evergreens that will hold firmly to a ball of soil, and a mass of fibre roots on the deciduous trees, insuring full success in transplanting.

We make a specialty of large size fruit trees in varieties best adapted to this climate. These are transplanted every year in our nursery to insure a perfect root system and can be set out by the planter as safely as smaller trees. Many of these trees are highly ornamental, producing fruit as well as beautifying the home. Our stock is large and complete. We invite requests for estimates on planting of orchards.

GUIDE FOR THE PLANTING AND CARE OF FRUIT TREES

ORCHARD AND GARDEN

The State of Washington ranks among the first in fruit production. With proper care given to varieties suitable for Western Washington, fruit may be as profitably grown in the Puget Sound section as in the celebrated fruit districts of Eastern Washington.

The Puget Sound climate is adapted to the growing of both sweet and sour cherries, pears and many varieties of apples, including Yellow Transparent and Gravenstein. Western Washington is unexcelled in its production of prunes and plums.

Where one has not sufficient space for an orchard, a few fruit trees in the garden or back yard may be made to yield a high return for the space occupied. Such planting need not exclude the vegetable garden, which may be planted between the trees, and the soil made, with the addition of proper fertilizers, to accomplish double duty production.

The first requisite for the successful growing of trees is proper preparation of the soil. The

ground should be plowed or spaded very deeply and thoroughly as the roots will soon gather food from the whole orchard area.

PLANTING

Trees should be heeled in only in a cool shady place. If the trees have, for any reason, before planting, become dried out, they should be buried, tops and all, in a trench which should be filled with water every day for three or four days, or at least soaked in water for a few hours, until the bark is restored to a healthy, plump condition.

The holes should be staked out and dug before exposing the trees. The roots must be protected carefully from the sun and drying winds, as either will very soon wither up the fibrous roots which are necessary for quick and vigorous growth. The holes should be dug from six to twelve inches larger around than the roots of the trees, to allow for filling in a few inches of loose soil, on top of which the tree should be planted to the depth it formerly stood in the nursery row.

Malmo Bearing-Size Fruit Trees

WE specialize in the production of large, bearing-size fruit trees, to meet the ever increasing demand from the home orchardist who wishes to have fruit from one to three years earlier than by planting small trees.

This stock has been properly transplanted to insure a good root system and properly trained each year through pruning.

All of these trees are strong and vigorous, and can be strongly recommended. Prices are in accordance with size and development, which are the factors influencing early bearing, rather than age only.

Ready-to-Bear Lambert Cherries

PRUNING

The first object is to establish a balance between the top and the roots, cutting off all bruised and broken branches. The second is to shape the top so as to make a good foundation for a well-shaped tree. Of course, this cannot all be done at one time. It is necessary each year to look after the shape of the tops, selecting such branches as are most desirable for the building of the tree; then cutting off the surplus. This applies especially to fruit trees. For apple trees, it is a general rule to cut back each year one-half of the previous season's growth. Shade trees and other ornamental stock, including shrubs and evergreens, are pruned only for desired shape.

The best time for pruning fruit trees, in the Puget Sound country, is the month of January, and not later than the end of February. On the east side of the Cascades, it may be done one month later. All winter pruning and spraying should be done at the time the trees are dormant.

SPRAYING

The spraying of fruit trees has proven to be an absolute necessity. Lime and sulphur is effective as a dormant spray to eliminate all pests. Generally the first summer spraying of fruit trees is applied by the time the blossoms are dropping, being followed by a second and third spraying, according to the pest to be eliminated. See spraying table, page 113.

FRUIT TREES

(Ask for Prices in Large Quantities)

APPLES

PRICES.

One year or light two year old.

4 to 6 feet:

Each, \$0.75; 10 for \$7.00; 100 for \$60.00.

Lighter grade:

Each, \$0.60; 10 for \$5.00; 100 for \$45.00.

Large size two year old.

Each, \$1.00; 10 for \$9.00; 100 for \$75.00.

Selected heavy two and three year old.

Each, \$1.25; 10 for \$11.00; 100 for \$100.00.

Big three year old, specimen trees.

Each, \$1.50 to \$2.00.

SUMMER AND FALL

Red Astrachan. Deep crimson; large.

Yellow Transparent. Yellow; very early; best quality.

Duchess of Oldenburg. Red and yellow streaked. Fameuse (Snow). Deep crimson streaked. Flesh snowy white.

Gravenstein. Bright red and yellow. One of the best for this climate.

Red Gravenstein. (New.) Bright red. Same good quality as Gravenstein, a little later and better keeper.

Waxen. Rich yellow. Crisp, tender and juicy.

Wealthy. Yellow shaded with deep red.

Yellow Bellflower. Rich yellow, highly flavored.

WINTER

Arkansas Black. Rich flavor. Very good keeper. Strong, healthy grower.

Delicious. Thrifty grower. Quality and flavor unsurpassed. Very sweet.

Grimes Golden. Golden yellow. High quality.

Jonathan. Red. Fine for table or market.

King of Tomkins Co. Yellowish shaded with red.

Mammoth Black Twig. Red. Large. Late keeper.

Northern Spy. Greenish, brown ribbed. Good keeper. Fine quality.

Oregon Red Winter. Large red. Called Winter Gravenstein. Good keeper.

R. I. Greening. Greenish yellow. Rich and tender.

Rome Beauty. Yellow with red. Aromatic taste.

Spitzenburg Esopus. Splashed red.

Stayman Winesap. Improved Winesap.

Wagener. Deep red. Flesh firm, sub-acid. Early and continuous bearer.

Winesap. Dark red. Medium size, excellent. Late keeper.

Winter Banana. Golden yellow, shaded red. Large, excellent flavor.

Yellow Newtown Pippin. Fine flavor. One of best keepers.

CRAB APPLES

Prices Same as Apples

Florence. Large red.

Hyslop. Dark crimson.

Red Siberian. Red cheek on yellow ground.

Transcendent. Red cheek.

Yellow Siberian. Small, golden yellow.

One Year Old Montmorency Cherry

CHERRIES

PRICES.

One year or light two year old.

6 to 8 feet, extra heavy (sweet cherries only).

Each, \$1.50; 10 for \$14.00; 100 for \$125.00.

4 to 6 feet:

Each, \$1.25; 10 for \$11.00; 100 for \$100.00.

Lighter grade:

Each, \$1.00; 10 for \$9.00; 100 for \$75.00.

Large size two and three year old.

Each, \$2.00; 10 for \$17.50; 100 for \$150.00.

Extra large specimen trees.

Each, \$2.50 to \$3.50.

Ask for prices on quantity.

SWEET

Bing. Very large. Black with solid meat.

Black Republican. Black, medium size.

Black Tartarian. Medium black. Very early.

Lambert. Very large, dark red. Fine shipper.

Royal Ann. Light red on yellow ground.

SOUR CHERRIES

Early Richmond (Kentish). Red. Medium size.
 English Morello. Medium to large. Blackish-red.
 Late Duke. Very large. Dark red.
 May Duke. Medium size. Dark red.
 Montmorency. Large. Bright red, of semi-dwarf growth. All branched trees.

Extra large selected two year: 4 to 6 ft.

Each, \$1.50; 10 for \$14.00; 100 for \$125.00.

Selected one and two year old: 3 to 4 feet:

Each, \$1.00; 10 for \$9.50; 100 for \$90.00.

2½ to 3 feet:

Each, \$0.80; 10 for \$7.50; 100 for \$65.00.

PRICES.**PEARS**

One year or light two year old.

4 to 6 feet:

Each, \$1.00; 10 for \$9.00; 100 for \$75.00.

Lighter grade:

Each, \$0.75; 10 for \$7.00; 100 for \$60.00.

Large size two and three year old.

Each, \$1.25; 10 for \$11.50; 100 for \$100.00.

Extra large specimen trees.

Each, \$1.50 to \$3.50.

Ask for prices on quantity.

Bartlett. Large. Blush cheek. August.

Buerre Bosc. Deep yellow russet. September.

Beurre d'Anjou. Late. Best late pear. Oct.-Nov.

Beurre Clairgeau. Late. Large.

Clapp's Favorite. Earlier than Bartlett, very large.

Comice. Yellow. Oct. and Nov.

Flemish Beauty. Extra large, good keeper.

Fall Butter. Good fall pear.

Louise Bon de Jersey. Large, greenish yellow,

reddish brown cheek. September.

Seckle. Small. Reddish cheek. Nov.

Winter Bartlett. Large. Good quality.

Winter Nellis. Medium size. Good winter pear.

PRICES.**PLUMS**

One year or light two year old.

4 to 6 feet:

Each, \$1.00; 10 for \$9.00; 100 for \$75.00.

PERENNIALS**Plants that bloom from year to year**

Complete list of popular perennials and peonies in general catalog

While all plants that bloom every year are perennial (per annual) the common meaning refers to hardy garden flowers which die down to the ground at frost, coming up again in the spring and blooming again each year. The growing popularity of this class is not surprising when it is considered they give such an ever changing array of color in the garden without the yearly replacement that annuals require. Most varieties, moreover, remain green all winter in our mild climate.

Perennials of suitable habit may be used to brighten the shrub group or used by themselves in a border in an unlimited number of color combinations according to individual taste.

In nearly all cases better results will be secured if deep rich soil is supplied that is well drained and that is kept continually moist, especially until the plants have become well established. A longer period of blooming is possible if flowers are removed before the seed pods form.

Field of Peonies in Bloom in Our Nurseries at Georgetown

*Large Evergreens Being Dug and Packed for Delivery
at Our Nurseries*

"Evergreens from the Evergreen State"

IT IS OUR AIM to propagate and furnish only high grade dependable nursery stock.

Up to a short time ago the greater amount of ornamental stock used in the United States had been imported from France, Holland, Japan, and other foreign countries where it could be produced at lower labor costs. The recent Federal embargo against importation will necessitate the production of all such nursery stock in this country. No place in the United States is so favored for growing evergreens as is the Puget Sound region, the humid temperate climate of this section affording all the

requirements of the most productive areas of foreign countries. The extremes of temperature in the eastern and middlewestern states preclude the growing of young stock of many varieties except in greenhouses at great expense, thus giving Puget Sound a natural advantage in producing evergreen ornamentals for country-wide distribution, the local advantages in growing far outweighing the freight differentials on young stock shipped to Eastern markets.

Over Half a Million Young Evergreens in the Propagating Houses at Our Nurseries in Georgetown

A Section of a Field of Cypress Erecta Viridis at Our Nurseries, a Variety Fast Growing in Public Favor

The production of nursery stock, unlike most other produce, requires planning several years in advance to supply future demand. It involves continuous propagation through seeds, cuttings, grafts, layers, etc., in season, and requires the carrying of a large stock of hundreds of varieties in various ages and sizes to insure a continuity of supply of mature stock as fast as the same is sold each year. Toward this end we have been adding land, stock, and equipment in developing one of the most complete nursery establishments in the country to render the largest measure of service through the furnishing of reliable products abreast the latest improvements in horticulture.

A Portion of the Georgetown Nursery on Ellis Avenue

Such Evergreens as are in large demand for creating immediate landscape effects.

ROSES

ROSE MARIE

cool. Never sprinkle the roses in the heat of the day. Keep the surface well cultivated around the plants, allowing no weeds to rob the rose of its food or sunlight. Fertilizer should be applied two or three times during the season unless the soil is exceptionally rich.

Our Roses are of the choicest, two and three year old full grown stock. We have over two hundred varieties of the most select—new introductions as well as old favorites.

Each Doz.

Rose Marie. H. T. Buds long and pointed, bloom large and well formed. One of the most attractive roses of a delightful shade of pure rose pink-----	1.00	10.00
Sensation. This beautiful new rose is a pleasing bright, yet deep, velvety red that does not fade; long pointed buds, of most perfect shape when open; borne on long stems with heavy, glossy foliage-----	2.50	25.00
Shot Silk. (Alex Dickson and Sons 1924.) One of the most charming new roses awarded the Gold Medal of the N. R. of England. Color orange-rose overlaid with yellow and flushed with soft rose. Buds beautiful and long with reflexing outer petals; fine foliage-----	2.50	25.00
Souv. de Claudius Pernet. Pern. (New) Winner of the International Gold Medal at Paris in 1920. The best yellow rose ever introduced for garden culture. Clear shining yellow with no tinge of orange and without the faded or white edges so common to many yellow varieties. Beautifully formed, elongated buds open flowers very double—a vigorous grower with clean shining foliage -----	2.00	20.00
Souv. de George Beckwith. Per. New. Shrimp-pink shaded to chrome and deeper yellow; of vigorous habit and free blooming. A great improvement on the Lyon-----	1.50	15.00
Souv. de Georges Pernet. Per. Oriental red tipped cochineal-carmine. Entire flower faintly shaded yellow. Very large and full on long, strong stems -----	1.50	15.00

SENSATION

ROSES—Continued

SUNBURST

Souv. De H. A. Verschuren. Color two-tone cadmium yellow deepening orange at center. Perfect form. Fragrant and productive.....	2.00	20.00
Sunburst. H. T. Color a rich chrome yellow overlaid and shaded orange-copper with a metallic sheen.....	1.00	10.00
Sunstar. H. T. Deep orange and yellow, edged, veined and splashed crimson and vermillion. Vigorous grower; free bloomer	2.50	25.00
Sweet Briar	.75	7.50
T. F. Crozier. H. T. Large, well-formed canary-yellow flowers, produced freely and continuously.....	1.25	12.50
The Queen Alexandra Rose. H. T. One of the most unique and striking color effects in roses, the petals being deep vermillion with conspicuous orange base—reverse side richly shaded old gold. Free bloomer and fragrant.....	1.50	15.00
Tipperary. New Irish rose, bright yellow long, slender, shapely pointed buds	1.00	10.00
Ulrich Brunner. H. P. Cherry red....	.75	7.50
William F. Dreer. Per. This rose of the same parentage as the Los Angeles is similar in shape and, like that variety, beautiful in all stages of development. The flowers are a silvery shell-pink suffused golden yellow	1.50	15.00

Each Doz.

Willowmere. H. T. Color rich shrimp pink shaded yellow at center edges of petals bright rosy carmine about the same as Lyon, except it is a strong, robust grower.....	1.00	10.00
---	------	-------

ROSA RUGOSA AND OTHER BEDDING ROSES

Rosa Rugosa and their hybrids are very hardy, they will stand the coldest climate and do well under most trying conditions, the seashore, mountains or Alaska; are excellent for covering steep banks and for planting among native shrubbery. They make well-branched, dense, compact bushes from 4 to 8 feet high, with a shiny, dark green, thick, leathery foliage which is oddly wrinkled. Some bloom all summer, others but once; however, the flowers are followed by a profusion of orange, red and crimson fruit. They are remarkably free from insect pests and disease.

Austrian Copper. Austrian Briar. Strong erect grower of stately appearance—excellent for planting in borders, alone or with other shrubs. Flowers single bright coppery red, reverse of petals golden yellow....	.75	7.50
Belle Poitevine. H. Rug. Large double flowers of clear magenta-pink. Vigorous and free flowering.....	.75	7.50
Conrad F. Meyer. Rugosa Tea, very large, double, hardy, color clear, silvery pink	.75	7.50
Rosa Hugonis. This spectacular rose blooms very early. The gracefully arching branches of the previous years growth become lined to the very tip with closely set wide open, single flowers like dainty yellow hollyhocks, bending over with the weight of the blooms. For planting among shrubbery this unique rose has few equals, the growth is symmetrical, being about six feet in height and the same in diameter when fully matured.....	1.50	15.00
Rosa Rugosa Alba. Pure white, single	.75	7.50
Rosa Rugosa Rubra. Bright red, single	.75	7.50
Rosa Wichuraiana. W. White memorial rose, very hardy, creeping, single	.75	7.50

MOSS ROSES (BUSH)

Crested Moss. Pink, free from mildew	.75	7.50
Glorie of Mosses. Beautiful blush, large	.75	7.50
Red Moss	.75	7.50
White Bath. Pure white, very mossy	.75	7.50

STANDARD ROSES

These Are Good, Well-Formed Heads on 4 to 5-Foot Stems. For description see general list of Roses.

Crimson Rambler. Red, cluster-----	.50	5.00
Dorothy Perkins. Pink, fine foliage, will not mildew-----	.50	5.00
Dr. Van Fleet. Pink-----	.75	7.50
Duchess de Auerstaedt. Improved Marechal Neil-----	1.00	10.00
Excelsa (Wich.) (Red Dorothy Perkins). Brilliant red, free bloomer-----	.75	7.50
Flower of Fairfield. Red-----	.75	7.50
Glorie De Dijon. T. Rich amber yellow-----	.75	7.50
Hiawatha. T. Single, ruby crimson, large single flowers-----	.50	5.00
Lamarque. N. White shaded lemon, early free bloomer, large and sweet scented-----	.75	7.50
Marechal Neil. T. Yellow-----	1.00	10.00
Mme. Alfred Carrier. White-----	.75	7.50
Paul's Scarlet. W. No other rose can compare with this for brilliancy of color, which is a vivid scarlet. The flowers are semi-double and produced in clusters. It is of strong climbing habit and perfectly hardy-----	1.00	10.00
Silver Moon. Pure white, cluster-----	.75	7.50
Wm. Allen Richardson. Chrome yellow with orange center-----	.75	7.50

FLOWERING BULBS FOR FALL PLANTING

There are no flowers which will give more pleasure and satisfaction than the Winter and Spring Flowering Bulbs. Their culture is so simple and easily understood that anyone can have splendid success with them by exercising a little care and forethought. On the Pacific Coast most bulbs may be planted from October to February. Bulbs planted in October or November will give better results than if planted later. By planting early flowering bulbs, it is possible in our mild climate to have a continuation of flowers the year round.

TULIPS

The climate on the Pacific Coast is ideal for the growing of Tulips. They may be left in the ground from year to year, otherwise the directions for culture are the same as for hyacinths, except that tulips cannot be grown in water.

EARLY SINGLE TULIPS

The following list is made up entirely of the best varieties, all of which are suitable for either forcing or bedding. We import only the highest grade first size bulbs which always give the best results. Malmo pays the postage.

EARLY TULIP—De Wet

	Doz.	100
Couleur de Cardinal. Velvety crimson, inside glittering scarlet.....	1.00	7.50
Cramoisie Brilliant. Bright vermilion; large flower.....	.75	5.50
Cullinan. (New) Opening white changing to delicate pink; extra large flower; long stem.....	1.00	7.50
De Wet. (New.) The finest of the yellows. A brilliant orange shaded golden at base of petals; very large; sweet scented. Each 25c.....	2.50	20.00
Fred Moore. Deep apricot orange; very early.....	.75	5.50
Gold Finch. Yellow; sweet scented....	.75	5.50
Herman Schlegel. (Primrose Queen) Sulphur yellow.....	.75	5.50
Ibis. Clear deep unfading pink; long erect stems. Extra fine.....	1.25	9.50
Keizerskroon. Scarlet; heavily edged with golden yellow. Very large flower, long stem.....	1.25	9.50
Lady Boreel. (Joost Van Vondel White.) Pure white; large.....	.75	5.50
La Reine. White, suffused with rosy blush on edge.....	.60	4.50
La Reine Maximus. Same color as La Reine, but very much larger.....	.75	5.50
Pink Beauty. Bright pink, slightly shaded white; fine heavy texture....	1.25	9.50
Prince of Austria. Bright orange vermillion; large, fragrant.....	.75	5.50
Prosperity. (Reine des Reines.) Deep clear pink.....	.75	5.50
Rising Sun. Brilliant golden yellow....	1.25	9.50
Rose Grisdelin. A delicate pink.....	.75	5.50
Rose La Reine. Exquisite clear pink; very large.....	.75	5.50
Rose Luisante. Fine deep brilliant rose; large; excellent.....	1.00	7.50
Vermilion Brilliant. Dazzling vermilion scarlet; large.....	1.25	9.50
Yellow Prince. A golden yellow; sweet scented.....	.75	5.50
All colors, mixed.....	.60	4.50

	Doz.	100
Albion. (White Hawk.) One of the finest pure white. Large.....	\$0.75	\$5.50
Artus. Deep brilliant scarlet, dwarf....	.60	4.50
Belle Alliance. Brilliant scarlet; sweet scented.....	.75	5.50
Brilliant Star. Glowing scarlet, large flower, long stem.....	1.00	7.50
Cottage Maid. Soft pink, suffused with white.....	.75	5.50
Chrysolora. Pure golden yellow; large	.75	5.50

EARLY DOUBLE TULIPS

The double varieties are a little later in blooming than the single. Their large peony-like flowers in brilliantly contrasting colors are excellent for bedding and they also force well.

	Doz.	100
Boule de Neige. (Snowball.) Large, pure white, peony-like flower.....	\$1.00	\$7.50
Couronne d'Or. Yellow, tinged orange. Best yellow.....	1.00	7.50
Imperator Rubrorum. Bright scarlet....	1.00	7.50
Murillo. Extra fine blush pink.....	1.00	7.50
Rubra Maxima. Rich deep red.....	1.00	7.50

	Doz.	100
Tea Rose. (Brimstone Beauty or Yellow Murillo.) Saffron yellow.....	1.00	7.50
Tournesol. Red, yellow bordered; very showy.....	1.00	7.50
Vuurbaak. Bright vermillion; large flower.....	1.00	7.50
All colors, mixed.....	.75	5.50

MAY FLOWERING OR COTTAGE TULIPS

The May Flowering Tulips, like the Darwins, flower late. Many of the varieties are used extensively for late bedding and are magnificent for this purpose. The pale primrose, deep yellow, and splendid white varieties are often planted with the Darwins for effects of contrast. The following list contains the best varieties. Malmö pays the postage.

	Doz.	100
Ambrosia. (New.) Large flowers on long stems. Inside salmon orange, outside shaded rose lilac. Each 35c	3.50	27.50
Avis Kennicott. Rich yellow, large	1.50	11.00
Bouton d'Or (Golden Beauty) golden yellow, long stems	.65	5.00
Caledonia. Orange scarlet	.65	5.00
Fairy Queen. Lilac, yellow	.65	5.00
Gesneriana Lutea. Yellow	.65	5.00
Gesneriana Lutea Pallida. Primrose yellow; very large	.75	5.50
Gesneriana Spathulata Major. Dazzling scarlet, bluish base	.75	5.50
Inglescombe Pink. Salmon pink	.65	5.00
Inglescombe Scarlet. Bright scarlet	.65	5.00
Inglescombe Yellow. Glossy canary yellow, shape resembling Darwin	.65	5.00
Moonlight. Sulphur yellow, large	.85	6.50
Mrs. Moon. Deep yellow	1.00	7.50
Picotee. White with pink margin	.65	5.00
Siren. (New, lily flowered.) Cerise pink with reflexed petals. Each 15c	1.25	9.50
Snowdon. Pure white	.75	5.50
Sunset. Red and gold	.75	5.50
The Fawn. Dove or fawn color; large	.75	5.50

A SECTION OF A FIELD OF TULIPS IN THE TRIAL GROUNDS AT OUR GEORGETOWN NURSERIES

GIANT DARWIN TULIPS

Darwins are the most popular Tulips for outside planting. They flower in May, are of giant size and have a majestic beauty distinctively their own that is invaluable for garden and landscape effects. They come in the most varied and brilliant colorings, and their immense flowers of perfect form and satiny, wax-like texture, long stems and lasting qualities, make them ideal for both bedding and cutting. Malmö pays the postage.

DARWIN TULIP—Farncombe Sanders

	Doz.	100
La Tulipe Noire. Nearest to black-----	.75	5.00
Lenotre. Beautiful clear pink, strong stem-----	1.25	9.50
Mme. Krelage. Pink, margin pale silver rose-----	.75	5.00
Massachusetts. Vivid pink toning to soft pink on edges; white center-----	.75	5.00

Faust. Very deep purple violet; one of the finest black tulips-----	1.00	7.50
Gretchen. (Margaret.) Very fine delicate flesh pink-----	.65	4.50
Harry Veitch. Rich mahogany color-----	.65	4.50

REMBRANDT TULIP

BREEDER TULIP—Louis XIV

PARROT TULIPS

The petals of these tulips have peculiarly feathered and fringed edges giving them a very odd ragged appearance. This characteristic, together with the showy striped and shaded coloring and long stems make them unlike any other tulips and a striking and lasting effect in the garden.

	Doz.	100
Admiral of Constantinople. Large; red tipped with orange.....	\$0.65	\$5.00
Cramoise Brilliant. Deep crimson....	.65	5.00
Lutea Major. Pure yellow.....	.65	5.00
Markgraaf. Inside orange, outside scarlet and yellow.....	.65	5.00
Perfecta. Yellow, scarlet feathered....	.65	5.00
Mixed. All colors	.60	4.50

REMBRANDT, BYBLOEM AND BIZARRE TULIPS

These flower at the same time and are somewhat similar to the Breeder and Darwin Tulips, but do not grow so tall and are quaintly and very attractively striped and feathered in contrasting colors. They appear especially to advantage in clumps among shrubs or in a border.

	Doz.	100
Rembrant Tulips. All colors mixed....	\$0.75	\$6.00
Bizarre. Choice mixture of varieties....	.85	6.50
Bybloem. All colors mixed.....	.75	6.00

BREEDER TULIPS (May Flowering)

The Breeder Tulips are a most attractive class; the "art colors" are in dull or soft tones of buff, bronze or purple; they are unusually large, of excellent form and borne on tall, sturdy stems. Because of their great lasting qualities they are very popular. Malmö pays the postage.

	Doz.	100
Bacchus. Dark violet blue, grape color, large egg shaped with tall strong stems	Each 25c	\$2.50
Bronze King. Bronze and yellow....	1.00	7.50
Bronze Queen. Outside petals soft bronze, inside golden bronze.....	1.00	7.50

Jaune d'Oeuf. Heliotrope changing to yellow; forcing	1.00	7.50
La Singuliere. White, changing to wine red	1.00	7.50
Louis XIV. New. Royal purple flushed golden-bronze; globular flowers....	Each 35c	3.50
Panorama. Mahogany red, forcing....	1.00	7.50
Yellow Perfection. Bronze yellow with golden edge	1.25	9.50
Breeder Mixed. All colors.....	.75	5.50

PARROT TULIP—Lutea Major

HYACINTHS

CULTURE

Outdoor Culture.—The bulbs may be planted any time from October to February. They succeed in any good, well drained garden soil. Dig deep and mix in a little fertilizer. Set the bulbs so that the tops will be between two and three inches below the surface and six to ten inches apart, with a little sand under and above them if it is convenient, being careful that none of the fertilizer comes in direct contact with the bulbs. Early planting brings the best results.

Pot Culture in the House.—Plant from September to December in rich, sandy loam, inserting the bulb (base downward) so that the top is just above the surface. Do not pack the soil in the pots, as the bulbs will be much less liable to push out when the root growth commences if the soil is not packed. Water thoroughly and set the pots away in a cool, dark place for three weeks. This will allow the roots to grow and become firmly fixed in the soil. The plants can then be brought into the light and will at once commence the top growth. Keep near the light, and at a temperature of 50 to 70 degrees. Water frequently.

Water Culture.—Fill the glass with water until the base of the bulb rests on the water. Set away in the dark for three weeks. Fill up the glass with water as fast as it evaporates. If the water becomes impure it should be changed and the roots well cleaned before putting in again. A small piece of charcoal put in the glass will keep the water pure much longer. Give as much fresh air as possible without a direct draught, plenty of light and keep the glasses full of water. If moved out of the direct rays of the sun, flowers will last longer.

SINGLE HYACINTHS

Single Hyacinths are more desirable than the double. They are better for forcing, more vigorous in growth and are more beautiful than those of the double sorts.

Customers at a distance will find it convenient to order Bulbs by mail. Malmö pays the postage.

CROCUS

This is the earliest bulb to blossom in spring. Although most showy when massed in large beds, or when planted in lines of distinct colors, a very desirable effect is produced by setting Crocus here and there over the lawn.

Crocus will care for themselves, blooming very early amid the grass and dying down to the bulb in ample time to be entirely out of the way of the lawn mower. The Crocus should be planted in the autumn, in any good garden soil, about three inches deep and about two inches apart, if in beds or borders.

Malmö pays the postage.

JONQUILS

Slender, graceful, rather small, bright yellow flowers. Very fragrant, borne in clusters on slender stems. The leaves are round and dark green. They force well and are perfectly hardy out of doors.

The Campernelle class are much taller and have larger flowers than the common Jonquils.

Malmö pays the postage.

GIANT TRUMPET VARIETIES

The flowers of the Giant Trumpet varieties are of large size; the "perianth" or wing-like petals, according to the variety, measure from 2 to 4 inches across, and the "trumpets" or central funnel-like tubes vary from 2 to 4 inches in length. Flowers are borne on strong, stiff stems, which vary in height from 12 to 18 inches.

NARCISSUS INCOMPARABILIS—Lucifer

POLYANTHUS NARCISSUS

The Polyanthus Narcissi are very fragrant, borne in large heavy clusters (not suitable for growing outdoors). They are extra early and may be forced indoors either under glass for cut flowers or in pots for blooming as early as the Christmas holidays. After planting they should be kept in a dark place from two to four weeks to make roots, then gradually brought to the light for blooming at whatever time desired. They may also be grown in bowls filled with gravel and water.

POETICUS AND POETAZ NARCISSUS

The Poeticus Narcissus are probably the best known of the short trumpet or cup class. They have only one flower on a stem but are very hardy and multiply rapidly in the ground. They also force well. The blossoms of the Poetaz class are somewhat similar to the Poeticus and borne in clusters of three to eight flowers on a stem.

Customers at a distance will find it convenient to order by mail. **Malmo pays the postage.**

LILY OF THE VALLEY

One of the most charming spring flowering plants, producing in profusion its delicate bell-shaped, delightfully fragrant white flowers. They thrive best in a rich sandy soil and a shady situation—are perfectly hardy and can be left undisturbed in the open ground, where they will increase from year to year, and are very attractive in beds or borders. For outdoor planting and winter forcing pips are ready December to March.

Selected Pips, for forcing indoors or planting outside -----Doz., 75c; 100, \$5.00

White -----	.10	1.00
Mixed -----	.10	1.00

Plant Bulbs now for best results
Early planting produces long stems and large blooms

JAPANESE LILIES

Lilies planted outdoors during the fall or early spring, flower each year from June to October. After bulbs are set out they should remain undisturbed for five or six years. They will increase in size, beauty and number of flowers; our Coast climate being perfectly suited to their requirements. They may be planted in open ground or in beds and are very effective when planted in a border either alone or among perennials or shrubbery. Malmö pays the postage.

Heavenly Blue. New. Beautiful pure delphinium blue with no trace of violet. Flowers of immense size, well placed on long stiff stems-----Pkt. 25c; Oz., \$1.25

SPENCER SWEET PEAS GIANT WAVED ORCHID FLOWERING

This group includes the largest and most beautifully formed Sweet Peas. The Spencers have very large waved flowers which are produced abundantly on long strong stems, making the blossoms most desirable for cutting. They attain their great perfection on the Pacific Coast where they are grown extensively for seed, furnishing the greater part of the supply for the entire country.

CULTURE. Sweet Peas require good soil and plenty of water. On Puget Sound they may be planted from October till Christmas, for early Spring flowering. Most seasons they come through without any protection, but a few inches of straw placed on the row will insure sufficient protection against the frosts usually experienced here. Plant in the Spring as early as the ground can be worked.

The best method of planting is to dig a trench 12 to 18 inches deep. If the soil is not good, remove the poor soil and supply a good quality, using plenty of fertilizer, which should be well mixed with the soil, filling up the trench to within three or four inches of the top. On top of this mixture of soil and fertilizer, place about one inch of good mellow soil without any manure or fertilizer in it, on which to sow the seed. Cover the seed one-half to one inch with soil, a half inch being preferable. The trench should always be kept open an inch or two from the top in order that water used will lead to the plants. Sweet Peas require more moisture than most other plants, and whenever it is necessary to water them, soak them thoroughly. When the seeds are well up, thin them out and when grown to one or two inches, fill in some more soil around them.

When the Peas are in bloom they should, unless grown for seed, be cut every day. If this is done they will produce better blooms on longer stems and blossom profusely all through the season. One ounce will plant a 15 to 20 foot row.

Malmo's Mixed Spencer Sweet Peas

This is made up from standard varieties named Spencers, properly blended, and is an ideal combination for those who want a variety of color.

Pkt., 10c; oz., 25c; ¼ lb., 75c; 1 lb., \$2.50 (Postpaid)

ALSO NAMED VARIETIES SPENCER SWEET PEAS (SEE GENERAL CATALOG)

HOW TO MAKE A HANDSOME VELVETY LAWN

The best time to make a lawn, we consider, is either in late summer or spring.

Spade the soil deep and cultivate well. If the soil is sour use hydrated lime, about 100 lbs. to 1000 sq. ft., applying it preferably two to four weeks before seeding. Commercial fertilizer should be scattered on evenly and well raked in just before the seed is sown. In sowing the seed be careful to spread it evenly. The best method is to take half of the seed and sow it walking across the lawn, then take the other half and sow it walking lengthways. After the seed is on do not rake, but roll it in. If a roller is not available, tamp the seed into the ground with the back of the shovel. Sprinkle lightly, being careful not to float the seed.

While the seed is germinating and the grass is young extra care should be used, especially during dry weather, that the ground be kept moist. It should never be allowed to dry out but cannot be soaked, so it is necessary to watch it very closely and sprinkle whenever necessary, sometimes as often as three times a day.

Commence cutting as soon as the grass is long enough, and cut often. This will both thicken the grass and make it finer. If cut often the clippings may be left on the ground for fertilizer. They will not be noticeable unless the grass is allowed to grow too long between cuttings.

After the lawn is established it should be thoroughly soaked about once a week during the dry weather. When watering, saturate the ground thoroughly and it will not be necessary to do it so often.

WASHELLI LAWN GRASS

This is the grass that is used exclusively at Washelli Cemetery and has produced all of their beautiful lawns. It is the best mixture of grasses for the purpose of quickly producing a fine, lasting lawn. Each variety of grass is there for a special purpose and nothing but the very highest grade of clean seed is used. It makes a rich, velvety, dark green turf that, when properly cared for, improves with age and stands almost any amount of wear. It starts quickly and makes a good lawn the first season. Sow 1 lb. to every 200 square feet. Subject to market change.

WASHELLI LAWN GRASS (Ask for price on large quantity. Postage extra) --- 1 lb. 65c; 10 lbs. \$6.40; 100 lbs. \$63.00.

EVERGREEN LAWN GRASS

A special blend of deep rooted, fast growing, turf forming grasses, somewhat coarser than Washelli. It starts quickly and grows well, even on poor soil and for those who want a quick permanent lawn at a minimum price this is the best. Sow 1 lb. to every 200 square feet.

EVERGREEN LAWN GRASS (Subject to market change. Postage extra) --- 1 lb. 35c; 10 lbs. \$3.45; 100 lbs. \$34.00.

SHADY LAWN GRASS

It is usually quite hard to obtain a good lawn under trees or in other shady places. This grass, however, will grow well and make a thick green turf in places where ordinary grass will not thrive for want of light. Sow 1 lb. to every 150 square feet. Ground that is densely shaded is very apt to be "sour" and as a rule the best results are obtained when an application of Hydrated Lime of about 100 lbs. to 1000 square feet is made before seeding.

SHADY LAWN GRASS (Subject to market change. Postage extra) ----- 1 lb. \$1.00; 10 lbs. \$9.50; 100 lbs. \$94.00.

MALMO'S GOLF LINKS LAWN MIXTURE

This mixture is composed of Creeping Bent and other high grade, fine-bladed grasses best adapted to withstand the frequent close cutting and hard usage required for the Fairways. White Clover not being suitable for this purpose is not included in the mixture. It is of the greatest importance that only such grasses as will fulfill all requirements are used and by a careful study of this subject we are able to offer a superior mixture for golf grounds. Subject to market change.

MALMO'S GOLF LINKS LAWN MIXTURE (Ask for price on large quantity; postage extra).
1 lb., 75c; 10 lbs., \$7.00; 100 lbs., \$62.50.

LAWN MIXTURES—Continued

MALMO'S SPECIAL PUTTING GREEN MIXTURE

By close observation we have found the Bent Grasses to be particularly well adapted for use in establishing the Putting Green, owing to the smooth, thick turf they form which withstands the constant close cutting and trampling. This mixture of Seaside Bent and various other Bent Grasses is made up of seeds of the highest grade only. Subject to market change.

MALMO'S SPECIAL PUTTING GREEN MIXTURE (Ask for price on large quantity. Postage extra.)
1 lb., \$2.00; 10 lbs., \$19.50; 100 lbs., \$175.00.

CULTURES FOR LEGUMES

Alfalfa, Clover, Field Peas, Vetch, Beans, Peas, Sweet Peas
HUMOGERM—Garden Size 25c; ¼ bushel 35c; ½ bushel 60c; 1 bushel \$1.00

COMMERCIAL FERTILIZERS

Prices are f. o. b. Seattle docks, railroads, or delivered in the city on regular delivery routes, and are subject to market changes without notice. (Ask for prices in quantity.)

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

MALMO'S GARDEN FERTILIZER

Analysis: 2% to 3% Nitrogen as Ammonia, 10% to 15% Phosphoric Acid, 3% to 4% Potash.

The most complete fertilizer for vegetables, fruit, flowers and berries, prepared for the gardener who cannot give the time and labor necessary to treat each individual kind of plants separately. **MALMO'S GARDEN FERTILIZER** is made principally of pure, ground bone meal, dried and pulverized sheep manure, to which is added phosphate, potash and nitrogen, thus containing the necessary ingredients to supply the average percentage of available plant food required by the greatest number of crops at the least expense. It yields this plant food only as the plants require it and is therefore effective and lasting.

5 lbs., 25c; 10 lbs., 45c; 20 lbs., 85c; 50 lbs., \$1.75; 100 lbs., \$3.25.

HIGH GRADE FISH FERTILIZER

Analysis: 8% to 10% Nitrogen as Ammonia; 10% to 15% Phosphoric Acid.

A high quality ground and dried fish fertilizer, the best for quick results in the growing of roses, or the making and renewing of lawns or other uses where production of luxuriant foliage is desired. Its wonderful rapid action is due to the availability of its high nitrogen content, which is yielded to plant life as fast as it can be assimilated without the danger of over-stimulation or burning attending the use of nitrate of soda. For use on Flowers and Vegetables: Spread evenly over the ground as far out as the roots extend. Cultivate well; keep from stems of tender plants. For LAWNS, apply broadcast and rake in well, 100 lbs. for 1,500 sq. ft.; on old lawns use 100 lbs. to 3,000 sq. ft. Pulverize all lumps, wet with coarse spray.

5 lbs., 35c; 10 lbs., 60c; 20 lbs., \$1.10; 50 lbs., \$2.75; 100 lbs., \$4.75.

FERTILIZERS—Continued

Prices are f. o. b. Seattle docks, railroads, or delivered in the city on regular delivery routes, and are subject to market changes without notice. (Ask for prices in quantity.)

SEA-PRO-CO**GRASS FOOD FISH FERTILIZER**

Fish Fertilizer. Good for lawns, roses, etc.

Analysis: 7% to 10% Nitrogen as Ammonia, 2% to 3% Phosphoric Acid.

5 lbs., 35c; 10 lbs., 60c; 20 lbs., \$1.00; 50 lbs., \$2.50; 100 lbs., \$4.50.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

PURE ANIMAL BONE MEAL

Analysis: 2½% to 3% Nitrogen as Ammonia, 22% to 45% Phosphoric Acid.

A white meal made from fresh animal bone. Valuable as a fertilizer where a large amount of phosphoric acid is required, combining also the advantage of a nitrogen content. It releases plant food continually through slow decomposition, making it desirable for use in rose beds and other permanent plantings.

5 lbs., 30c; 10 lbs., 50c; 20 lbs., 90c; 50 lbs., \$2.25; 100 lbs., \$3.75.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

BONE MEAL, STEAMED. A meal of lower analysis than above, 100 lbs., \$3.25.

BLOOD AND BONE

Analysis: 4% to 6% Nitrogen as Ammonia, 7% to 9% Phosphoric Acid.

Blood and Bone is composed of waste animal matter, yielding its plant food quickly when spread over the soil. It is, therefore, valuable for quick growing foliage crops, 500 to 1,000 lbs. per acre.

5 lbs., 30c; 10 lbs., 50c; 20 lbs., 90c; 50 lbs., \$2.00; 100 lbs., \$3.50.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

SHEEP MANURE

Analysis: 1½% to 2% Nitrogen as Ammonia, 1% Phosphoric Acid, 2% to 2½% Potash.

The sheep manure we offer and recommend is kiln dried and finely ground, practically free from germinable seeds and moisture.

20 lbs., 50c; 50 lbs., \$1.25; 100 lbs., \$2.00; 500 lbs., \$9.00; 1000 lbs., \$16.00; per ton, \$30.00.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

MURIATE OF POTASH

Analysis: Potash 52%.

This is a very strong, quick acting fertilizer and is the best form of Potash available for ground that is lacking in this element. It is packed 200 lbs. in a bag and is generally used at the rate of about 1 bag to the acre.

5 lbs., 35c; 10 lbs., 60c; 20 lbs., \$1.00; 50 lbs., \$2.00; 100 lbs., \$3.50; 1 sack (200 lbs.), \$7.25.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

NITRATE OF SODA

13% Nitrogen.

Nitrate of Soda is entirely soluble, like salt and should be used frequently in light dressings for best results; 150 to 200 lbs. per acre.

4 lbs., 25c; 10 lbs., 50c; 20 lbs., \$1.00; 50 lbs., \$2.15; 100 lbs., \$4.00; 200 lbs., or more, \$3.75 per 100 lbs.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

SUPER-PHOSPHATE

17% to 22% Phosphoric Acid.

Super-Phosphate furnishes a quickly available supply of phosphoric acid and is especially desirable as a top dressing for grain and fruit.

300 to 500 lbs. per acre.

10 lbs., 30c; 20 lbs., 50c; 50 lbs., \$1.10; 100 lbs., \$1.75.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

GYPSON OR LAND PLASTER

For sweetening the soil, freeing plant food and supplying sulphur. 50 lbs., \$1.00; 100 lbs., \$1.75.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery.

HYDRATED LIME

Pure hydrated lime, best adapted for general use, including lawns, neutralizes the acid of the soil making it possible for fertilizer to accomplish maximum results. This form is quick and efficient. An application will attain the same results as twice the quantity of Ground Lime Rock.

20 lbs., 50c; 50 lbs., \$1.00; 100 lbs., \$1.75.

An allowance of 25c per sack of 100 lbs. or 50 lbs. may be deducted for call at store, yard or nursery. Less than 50 lbs. are at call prices. Ask for quantity price.

GROUND LIME ROCK

Used for sweetening the soil, but on account of slower action must be used in larger quantities than Hydrated Lime. One ton or more per acre required, according to extent of acidity of the soil. Indispensable to success in growing Alfalfa on the west side of the Cascade Mountains.

100 lbs. sack, \$1.25.

An allowance of 25c per sack of 100 lbs. may be deducted for call at store, yard or nursery.

"TORO" AGRICULTURAL SULPHUR

No plant can grow to maturity without the element of sulphur. "Toro" Brand is especially prepared to make these elements available for the plants and to act upon other chemicals naturally in the soil, transforming them into plant food. Applications of from 100 to 500 lbs. of "Toro" Sulphur per acre have, in many cases, doubled the yield.

3 lbs., 25c; 5 lbs., 40c; 10 lbs., 75c; 20 lbs., \$1.25; 50 lbs., \$2.75; 100 lbs., \$5.00.

STIM-U-PLANT

A concentrated fertilizer in tablet form, especially convenient for potted plants, window boxes, etc. May be used either in tablet form or dissolved in water.

30 tablets in pkg., 25c; 100 tablets in pkg., 75c.

PERNETTYA

NEW EVERGREEN NOVELTY

THIS evergreen, which is ever growing in use and popularity, is of dense, compact habit, doing well in any location but preferring a rich, humus soil. The leaves are small, dark, glossy green; white flowers in spring. Most valuable for its attractively colored and profusely produced berries in fall and winter. Moderately dwarf growing and can be trimmed compactly.

Pernettya alba. White berries.
Pernettya atropurpurea. Bright red berries.
Pernettya lilacena. Lilac berries.
Pernettya nigra. Very dark red berries.
Pernettya rosea. Pink berries.

Well berried, trimmed plants.

(EDITION JUNE, 1924)

GOVERNMENT PRINTING OFFICE

TO ENCOURAGE FALL PLANTING

we are issuing this Certificate

Good for *One Dollar* [\$1.00]

**Toward Payment of An Order of Nursery Stock
of \$5.00 or More, Placed by December 31, 1926**

Evergreens, planted now—in the Fall—not only lend their beauty value during the coming season, but become firmly established in their new environs during the rains of winter, and reward the Fall planter with vigorous root growth and luxuriant foliage.

Deciduous nursery stock, including Roses, Fruit Trees, and the Flowering Shrubs, should likewise be planted in Fall, as soon as they are dormant. Thus with the undisturbed roots firmly in contact with the soil, they are ready to put forth continuous, unchecked strong growth at the earliest call of Spring.

Our 1926 Planting Guide—120 illustrated pages—contains complete information and descriptions of Malmo Superior Evergreen Ornamentals. If you do not have this garden book, we will gladly mail it to you upon request.

A Landscape Setting for Your Home

THE HOME is not quite complete, not wholly inviting, without the soft varying frame of an evergreen setting about the building and grounds. And it is an investment which increases in both intrinsic and beauty value with the passing of years.

The artist who conceives and paints a masterpiece has no greater problem than he who creates and effects a beautiful landscape setting for the home. Both require specialized knowledge.

The landscape department of MALMO & COMPANY is comprised of men skilled in creating a harmonious ensemble—being experienced in designing, expert in the proper method of planting and versed in the knowledge of horticulture.

This service is extended to our patrons to facilitate the effective planting and care of MALMO superior ornamentals, thereby assuring maximum effect with minimum expenditure.

“A Third of a Century of Satisfaction”
