A. D. Field Bulb Gardens

Eatontown, N. J.

1926 Edition

To Our Flower Loving Friends:

Again, both Dahlias and Gladioli have stood out as the first flowers in their respective classes. This last season, more than ever before, the Dahlia and Gladioli shows have brought forward to the notice of the public their value as cut flowers for indoors and out. In the garden they stand supreme.

In accordance with the demand, our entire planting this past spring has been much larger than ever before. Our storage arrangement is still better, and our packing department equipped to give more prompt and pleasing service, along with the best bulbs that is possible to grow.

The thought, "Bulbs Create Beauty", created the A. D. Field Bulb Gardens. That our bulbs may "Create Beauty" in your garden this year, and in the years to come is the goal toward which we are striving, by using better bulbs, better varieties, better service and reasonable prices.

Yours for more beauty in the home and garden,

A. D. Field

In presenting this our 1926 catalogue we are offering both Dahlias and Gladioli that were not listed last year. These have been growing in our trial plots and have proved worthy of a place in gardens where only the best is desired.

PINK WONDER (Kemp)

The most popular Glad in our gardens, and blue ribbon winner wherever exhibited. It is a strong grower, attaining a height of $4\frac{1}{2}$ feet, producing 17 to 19 blooms to the spike; many of them measure $6\frac{1}{2}$ inches in diameter. The color of this beautiful Glad is light pink, yellow shading at base of lower petals overlaid with rose.

WHITE WONDER (Kemp)

This magnificent white is a descendant of the well known and justly popular variety FRANCIS KING, and is endowed with all its good qualities. The flowers are pure white without any markings in the throat, wide open, and often $5\frac{3}{4}$ inches in diameter, well placed on the spike, five and six flowers open at one time. This Glad is fine for forcing as well as out-door culture.

ALBANIA (Kemp)

This is the most pleasing white variety we have yet seen. The color is a pure glistening white, the flower wide open, 4 inches and over in diameter, petals are broad with well rounded tips, and the finely ruffled edges give the individual flower an artistic finish which is seldom seen in the Gladiolus. The flowers are correctly placed on the spike and close enough together to close up the intervening spaces, making an ideal flower, and the best white for floral designs. Five flowers open at one time, and a splendid keeper when cut. A gladiolus without a fault.

Let us help you to make this your most successful gardening year. By planting our Gladioli Bulbs from ten days to two weeks apart, from April until June will insure a continuation of glorious blooms from July until frost.

SISKIYOU (H. C.)

Tourmaline pink tinged mauve. Capucine orange at base of petals. Plants, \$3.75 only.

ROBERT TREAT

(THE NEW AMERICAN BEAUTY DAHLIA)

(The outstanding variety for 1925)

Robert Treat is a pleasing American Beauty Rose color. Flowers 9 to 11 inches across, 4 inches and over in depth. Plants are strong healthy growers of wide spreading habit, producing from 12 to 16 perfect blooms to the plant. Flowers are held on strong stems well above the foliage. Robert Treat has a great future, and a well kept dahlia garden will not be complete without it. It already has the following honors to its credit; American Dahlia Show 1924, Garden Magazine "Sweepstakes" prize for the best dahlia never before exhibited at the A. D. S. Show, a Special Medal at the Penn Hort. Society Show 1924, the one-year-old seedling prize at the 1923 New Jersey State Show, and Special Merit and Honorable Mention at the Trenton Fair 1924. Tubers \$5.00. Plants \$2.50.

A. C. LAWRENCE (H. C.)

Large flowers of a flesh pink color, held on good stems well above the foliage. Very free flowering. Tubers \$3.00. Plants \$1.50.

ADA PATTERSON (H. C.)

The best white that we have yet seen of its class. Flowers 7 to 8 inches in diameter borne on long, strong, stiff stems well above the foliage. Splendid for cut flowers and exhibition. Bulbs, \$10.00. Plants, \$5.00.

ALTAMONT (Dec)

Another distinctive dahlia of rich amaranth pink; a bright colored flower of splendid habit. Though it must be classed as a Decorative, it has the long, twisted petals that make it lean toward a graceful Hybrid-cactus. It already has many prizes to its credit, winning in both Mid-Western and Eastern shows. Plants only, \$5.00

AGNES HAVELAND (Dec)

Rose pink, slightly suffused with yellow. A striking flower. Tubers \$1.00.

AMBASSADOR (Dec)

Flowers of true cactus type, and borne on long stiff stems well above the foliage: flowers are very large, often eight inches and over in diameter. Colors soft yellow buff, shading to salmon pink. Tubers, \$2.00. Plants, \$1.00.

AMUN RA (Dec)

Flowers are of mammoth size, borne on long stiff stems, and the color is of the entrancing shade of glorified coppery-bronze that instantly attracts and holds the attention. The plant is unusually strong and healthy. Tubers, \$1.50.

ABBREVIATIONS

(C) Cactus. (Dec) Decorative. (H P) Hybrid Cactus. (H P) Hybrid Peony. (P) Peony.

MORDELEE (Dec)

One of the outstanding Dahlias of this year's New York Show, especially at night under artificial light. It is a real Art Dahlia of a beautiful apricot buff. Flowers nine inches in diameter, and held well above the foliage. A very free bloomer. Tubers \$5.00. Plants \$2.50.

BASHFUL GIANT (Dec)

One of the largest dahlias, a great attractive exhibition flower. Color apricot with golden suffusion and shading. Tubers, \$2.00. Plants, \$1.00.

CHARM (Dec)

A very free blooming much admired variety. In color, burnt orange shading to yellow, held on good stems. Tubers, \$1.00.

CANADA (Dec)

low, held on good stems. Tubers \$1.50.

A good free blooming pure white flower, held on stiff stem. Tubers \$.75.

CHAMPAGNE (Dec)

Chamois, with pink suffusion. Very large, attractive flower. Tubers \$4.00. Plants \$2.00.

CRYSTOL (Cactus)

A splendid exhibition variety. Large, well-formed flowers of a fine silvery pink, shading to the center to an ivory white. The petals are fluted or tubular. Tubers, \$1.00.

ELITE GLORY (Dec)

The most sensational dahlia of the 1924 and 1925 seasons. This gigantic flower is not at all awkward, but is both pleasing and spectacular. The color is a brilliant rich red without any apparent purple or maroon. Bulbs, \$25.00. Plants, \$10.00.

ELSIE DANIELS (H. C.)

The color of this extra large Hybrid-cactus is a pale orchid on outer petals, shading to white center. Petals long and shaggy, and full to center. The habit of this plant is all that could be desired. Bulbs, \$5.00. Plants, \$2.50.

EMPERIOR (Dec)

This distinguished Dahlia should be in every fine dahlia collection. A strong grower, producing very large blooms of bright maroon that does not fade. Tubers, \$2.00. Plants, \$1.00.

EASTERN STAR (Dec)

Even finer than in 1924. A fine bloomer on good stiff stems. Medium large flowers of bright golden yellow, and this year the deeper salmon shadings at the center of the petals gave an added tone of charm, and beauty. Bulbs, \$7.50. Plants, \$3.75.

EARL WILLIAMS (Dec)

A verigated variety, very large, splendid formation of a brilliant crimson scarlet; each petal tipped white. Tubers \$2.00. Plants \$1.00.

F. W. FELLOWS (Cactus)

One of the best Cactus dahlias, flowers of unusual size of the long narrow petaled type. It is an intense coral red, deeper at the center. Should be in every collection. Tubers \$.75.

JERSEY'S BEAUTY (Dec)

Very fine true pink. Flowers large and of perfect shape, produced on long, straight, stiff stems. Very free bloomer. This flower has taken many prizes. Certificated A. D. S. 1923. Tubers, \$3.50. Plants, \$1.75.

GLADYS SHERWOOD (H. C.)

Pure glistening white, held on strong, stiff stems; flowers often nine inches and over in diameter. Tubers \$1.00.

GLORIEUX (Dec)

A wonder flower with wavy petals that are deeply cleft at the tips. This flower is greatly admired by all who see it. The color is a beautiful shade of golden yellow, some times each petal is tipped white. Beautiful either way. Tubers \$.75.

GLORY OF MONMOUTH (Dec)

A new shade in rich deep pink with the peculiar trait that, though it fades in full sunshine, it still holds its beauty. It is one of the richest colored of the season's novelties. The flower is true Decorative, medium large, with great depth. The petals are dusted with golden sheen. An excellent keeper. Plants only, \$5.00.

FRANCIS LOBDELL (H. C.)

This variety is especially adapted to garden culture; it is of semi-dwarf habit and grows so sturdily it needs no pinching or staking. The large flowers are of the cactus type, and of a most pleasing mellow pink, shading to white in the center. Certificated A. D. S. 1922. Tubers, \$3.00. Plants, \$1.50.

GEORGE WALTERS (Hybrid Cactus)

One of the most popular favorites of the large flowered Californians. Producing freely blooms of a Salmon color with shrimp pink shading. Tubers \$.75.

HORTULANUS FIET (Dec)

A most delicate shade of shrimp pink, the tips of each petal barely touched with gold. Tubers \$1.00.

INSULIENDE (Hybrid Dec)

Is held upright on its stem as a Zinnia. The flower is very large of a curled and twisted petal formation, in color a beautiful golden ochre with salmon red suffusion. Tubers \$1.00.

JERSEY KING (Dec)

Pleasing carmine red, strong grower, and holds its flowers on good stiff stems. Fine cut flower variety. Certificate A.D.S. 1922. Tubers \$2.00. Plants \$1.00.

JERSEY QUEEN (Dec)

Coral Pink. Flowers of medium size, but of splendid form, and on good stiff stems. Certificated A. D. S. 1922. Stock very scarce. Tubers \$5.00. Plants \$2.50.

JUDGE ALTON B. PARKER (Dec)

A wonderful exhibition variety of true decorative form, very large flowers growing freely on strong stems; color golden buff. Tubers \$2.50. Plants \$1.25.

JUDGE MABEAN (Dec)

Perfect decorative shape, in color a combination of glowing salmon, pink, orange, yellow and gold. A very free bloomer. Tubers \$1.50.

LIBERTY BOND (Dec.)

A blending of buff, bronze and salmon shades. Very large flowers held on long stiff stems. Very free bloomer. This variety attracted more attention, and more orders were booked for it in our exhibits this summer than any other Dahlia. This was due to its beauty, lasting qualities as a cut flower, freedom of bloom, and the very reasonable price for which it is listed. Tubers \$1.00.

MRS. I. de VER WARNER (Dec)

Enjoys being one of the greatest dahlias of the day with many medals to her credit. In color a pleasing shade of Deep Mauve pink, a color loved by all. Flowers early, freely, and on good stems. Should be in every collection. Tubers, \$1.50. Plants, 75c.

MABEL THATCHER (Dec)

Large pure yellow, very fine. Tubers, \$2.00
Plants, \$1.00.

MILLIONAIRE (Dec)

A most delicate lavender with a faint pink cast overshadowing it. The immense flowers of unusual depth stand erect on their stems. Tubers \$1.00.

MR. CRAWLEY (Dec)

An exquisite shade of salmon-pink. Flowers of large size and come on stout stems on plants of very compact habit. Very free. Tubers, \$2.00 Plants, \$1.00.

MRS. C. H. BRECK (Dec)

A splendid all around variety. Flowers of a soft yellow, deeply suffused with carmine. Very free bloomer. Tubers \$.50.

MRS. OLIVE G. BARNET (H. C.)

One of the outstanding new commerical dahlias. This flower has exceptional keeping qualities when cut and of the proper size to make it very valuable to the commerical grower, or for house decoration. Color salmon pink, flower held on long graceful, stiff stems well above the foliage; free bloomer.

Bulb, \$6.00. Plant, \$3.00

MRS. R. R. STRANGE (Dec)

Burnished copper with tracings of old rose and gold, a splendid autumn color, flowers large. Tubers \$1.00.

MYRA VALENTINE (Dec)

Very large golden bronze flowers held on good stems. One of the best Autumn tinted varieties. Tubers, \$3.50. Plants, \$1.75.

ORIGON BEAUTY (Dec)

Large Oriental red with garnet suffusion. This variety is more ball shaped that decorative. Tubers \$.75.

PRIDE OF CALIFORNIA (Dec)

An old favorite that stands in the front ranks. Brilliant Cardinal Red flowers, supported on stiff stems. A fine keeper after its cut. Tubers \$.50.

ROSE MARIE FRIDOLIN (H. C.)

This dark garnet-red Hybrid-cactus of true type is a thoroughly great dahlia. Its color is pure, no trace of purple, and it will produce as many flowers as any variety we know. Bulbs, \$10.00. Plants, \$5.00.

ROSA NELL (Dec)

The best decorative dahlia of its color. The flowers borne on long stiff stems are of the brightest rose pink. Tubers. \$1.00.

SAGAMORE (Dec)

Voted by many as the most beautiful dahlia. Its rich golden tones blending to a salmon center make a strong appeal to all who see it. Sagamore has many prizes to its credit in the Eastern shows.

Bulbs, \$7.50. Plants, \$3.75.

TRYPHINIE (Dec)

Bright shell pink; very beautiful. Tubers \$2.00. Plants \$1.00.

GREEN PLANTS.

There seems to be much doubt in the minds of many dahlia growers as to the value of green plants, or rooted cuttings of dahlias. When a plant is properly propagated and grown from good healthy stock, we have little choice.

A plant ready for packing

Green Plants are rooted cuttings from bulbs or clumps of bulbs started early January in a greenhouse. After the young shoots are started on the clumps they are potted and there continue to grow. Around the first of May they are put in coldframes to "harden off" before they are sent to our customers or planted in our gardens.

Plants do make clumps of bulbs and bloom the first season as readily as bulb stock. The reason that plants are always cheaper than bulbs is that they can be produced much quicker and cheaper.

PACKING: We believe that we have the very best system of packing plants. That we have never had a complaint leads us to that decision..

USE OUR BETTER GROWN PLANTS
FOR SUCCESS.

GLADIOLUS CULTURE

Gladioli are not exacting as to soil and culture. They will grow and bloom under the most unfavorable conditions, yet like everything else grown, they do their best in a good soil, supplemented with good care, and will respond wonderfully to good nourishment and culture. Planting every ten or twelve days, covering the bulbs about four inches deep, from early April to the latter part of June will give a succession of flowers from the middle of July to October.

In the fall, when the foliage turns brown, they should be lifted, the tops cut off close to the bulb, and laid in a dry, airy place two or three weeks to cure. Then the old bottoms can be removed and the bulbs put in paper bags or shallow boxes, and stored in a dry, cool, frost-proof place for the winter.

DAHLIA CULTURE

Dahlias will grow and bloom in most any location, but do their best in a light soil where they can get the full day's sun. After preparing the soil by spading deeply and well pulverizing it, dig a hole about six inches deep and put the dahlia tuber in it laying it FLAT, not on end, then cover with about two inches of dirt and gradually fill in the hole as the plant grows; in this way the tuber is placed deep, so that it will always have moisture. Do not plant too early—about June first is a good time.

Keeping the soil clean, that is, free from weeds and well pulverized at all times is the most essential factor of Dahlia success.

When the plants have developed from four to six leaves, pinch out the center, thus making the plant branch out, which will make it more sturdy and able to withstand heavy wind.

Flower buds usually appear in threes; pinch out the two smallest, in this way much larger flowers will be the result. When the plants first show buds, a heavy mulch of good stable manure all around the plant will insure larger and better blooms. If possible, give the plants plenty of water during blooming season.

When frost kills the plants in the fall, cut them off close to the ground. Dig the clumps and store in a dry, cool, frost-proof place for the winter.
