IRONDEQUOIT GLADIOLUS GARDENS

HARRY L. DAVIS, Proprietor

ENGINEERING BLDG.

ROCHESTER, N. Y.

Dear Glad Friends:

This folder is somewhat out of the ordinary for a gladiolus list. Instead of paying the printer the price of a good automobile for catalogs this year, I am going to give it to you in bulbs therefore you will find this sheet more valuable than a high priced catalog.

Here is the idea: on orders up to \$10, add 10%; above \$10, add 15% of the amount of your remittance for additional bulbs. In other words if the total value of the bulbs selected is, for example, \$8.00 you may order \$8.80 worth; if it amounts to \$16.00 you send the \$16.00 and order \$18.40 worth and so on. Get your friends to order through you and take advantage of the larger discount.

REMEMBER--Every bulb I send out is guaranteed true to name; I will give two for every one found untrue. That was my guarantee last year and not once was I called on to make good.

You want flowers in your garden next summer of which you will be proud--then you need good bulbs,--bulbs from Irondequoit Gladiolus Gardens. Letters from customers prove that my bulbs are good and give the utmost satisfaction from Florida to California.

For insurance against "glad" disappointment, use the enclosed order blank.

Your glad friend,

Harry
