CONDENSED CATALOGUE

Home Nursery Co.

LIBERAL, MO.

P. E. COOK, Owner

I pack and ship trees and plants to your postoffice, express or freight office at these prices.

All trees, plants and shrubs are first class stock of their grade; no culls or defective trees are sent out, but piled and burned as dug.

Entomologist certificate furnished with every package, bundle or bale

All plants, shrubs or any other nursery stock sent out by me are guaranteed true to label; any that prove otherwise will be replaced with good stock or purchase price refunded.

I do not grow as large a variety as some nursery men do, but after 18 years experience growing, fruiting and experimenting with fruits I have decided that this list about covers what will give general satisfaction.

What age trees are best to plant? I would plant the best grade one year old trees every time, but I leave it to you to plant whatever you think you wish, small trees have less wood or tops for roots to support while they are getting established and start new rootlets.

I am offering trees and plants as cheap as any reputable grower can and justify himself and the public, and at the same time guarantee trees true to name.

I do most of my propagating, consequently have pretty good idea what each variety is. Most items are propagated from bearing trees, vines or plants.

Remember when you buy trees from me, you are not paying 85c for hot air and 15c for trees; I aim to have every deal a satisfactory one. If for any reason you are not satisfied with what I give you

for your money just write me and state what the grievance is, I am ready to adjust it to your satisfaction. If your trees please you please speak a good word to your neighbors for me.

I do not employ salesmen, but will put in extra trees or plants in your order for names and addresses of land owners.

Please write your order on clean white paper and write name plainly, as I sometimes get letters not signed at all and have to do a lot of guessing.

I will appreciate your orders large or small, but please do not send orders for less than 50c as packing and handling are more than the profit on these small orders.

Please bear in mind when comparing prices with other nurseries that these trees and plants are prepaid by me in orders that call for each rate on trees, 25 rate or less on grape, blackberry, dewberry, raspberry, rhubarb, currants, gooseberry, or small shrubs; trees over 4 feet high will have to go by express, smaller ones by parcel post.

I like parcel post shipments as they are most convenient as I am out on R. F. D., from town and it saves the hauling by me.

I am always glad to consult with prospective planters and give them suggestions.

I am located in Barton county, 140 miles south of Kansas City, Mo. Have ideal nursery land, high sandy, brown loamy land. Are located near the small town of Hannon, from which place I make most express and freight shipments.

I aim to grow all my plants, trees and vines but sometimes am compelled to call on other nurseries for stock, but the cost is the same to you.

If you have any special sorts of varieties of fruits you wish propagated I will do this for you or tell you how; write me for any information you wish on fruit culture as we have accurate information on this.

I will now give a list of what I have, leaving off the descriptions, but if you wish description or anything in particular, tell me what it is and I will send descriptions.

Varieties of Apples

Early Harvest	Golden Sweet	Hyslop Crab
Red June	Staymen Winesap	Delicious
Red Astrachan	Wealthy	Mammoth Blacktwig
Yellow Transparent	Jonathan	Ark. Black

Spirea Van Houttei, 12 inches high	.08	1.75	6.00

Have you signed your order? Have you included Concord grape, Early Harvest blackberry, apple trees or strawberry plants in your order? I have thousands of these in nice stock.

Please reread this list before sealing your order; I give premiums for names of land owners. 10 names and addresses will draw 3 Concord grapevines, 1 year old, or 25 Dunlap Strawberry plants, or 2 apple trees, 1 year old, 2 feet high. State which you wish. Remember I give satisfaction or exchange back every cent you are out for the trees or plants I sent you.
