BY WAY OF INTRODUCTION

We are propagating the surplus stock from the large private collection of H. S. Jackson. This collection has been developed by its owner primarily for study and breeding purposes. Most of the European stock has been imported direct from the introducers. We are listing herewith the entire collection, about 500 varieties, with prices affixed to those which we can supply in 1926.

In many cases we can spare from one to two divisions of those not priced. Should you find that the varieties which you wish are among those, let us know.

A descriptive catalog and handbook giving personal comments on about 250 of the varieties listed here is in preparation and will be ready in June just after the blooming season. We are delaying the publication of this in order to give our friends the benefit of our 1926 observations.

PLEASE READ CAREFULLY BEFORE ORDERING

Guarantee: We believe our stock true to name; every effort is made to check the varieties with authentic descriptions each year. Should an error occur we will be glad to adjust the matter if notified promptly on first blooming.

Quality: We always send out the best blooming size roots we have. It should be noted, however, that while we firmly believe in early summer planting the rhizomes are not as large in July as in September. Some varieties never develop large rhizomes. We guarantee to satisfy. Let us know if any item should prove unsatisfactory. We will make it right.

Delivery: We begin to fill orders about July 15th and prefer not to deliver after September 15th. Orders will be filled in rotation as received unless a special date is specified. We send all retail orders **prepaid**, but do not ask us to accept orders for less than \$1.00. Large quantities are shipped by express, others by parcel post.

Terms: Cash with order, please.

Discounts: No further discount on collections or quantity offers. On orders for single plants amounting to

\$10 or over	10%
\$25 or over	15%
\$50 or over	20%

Except that no discount can be applied on varieties priced \$5.00 or over. We already have these as low as the availability of stock will justify.

Quantity Offers: We can not dig single roots for less than 25 cents except at a loss. On some standard varieties we offer special discount for two or more roots making the single root price as low as 15 cents each. For details see Group I, headed "Iris for the beginner."

On all those listed in Group II and those not underscored in Group I we will furnish six for the price of five, three or twelve at the same rate.

Mixed seedlings at \$5.00 per 100, carriage collect.

Named varieties for landscaping at \$10.00 to \$15.00 per 100. Write for information.

IRIS FIELDS,
115 Lutz Avenue,
West Lafayette, Ind.

GROUP I

Iris for the Beginner

Believing that the larger number of people who receive this list will be most interested in the cheaper standard varieties, we have segregated these for their benefit. These are all good standard sorts, not a poor one among them, as will be noted by the rating figure preceding each variety.

It should be noted, however, that there are many fine inexpensive varieties which, on account of limited stock, we have listed only in the novelty group. At the prices given in this list there is no longer any reason why every collection should not contain some of the super varieties such as Ambassadeur, Ballerine, Lent A. Williamson, Lord of June, Magnifica, Queen Caterina, etc. We are including in Group I, however, only varieties which can be sold for 50 cents or less per division.

The figure before the name is the rating of the American Iris Society based on a score of 100 as perfection. Please note that we carry very few varieties which rate below 70 and these few are retained because there are no others of their color except among the higher priced novelties. Those not preceded by a figure have not been rated.

Special Quantity Offer: Varieties not underscored are offered at six for the price of five. Those underscored (Group I only) may be obtained at the following discount in so far as stock is available.

Varieties priced at.....	\$0.25	\$0.35	\$0.50
2- 4 of a kind @.....	.20	.25	.35
5-24 of a kind @.....	.15	.20	.30
25-50 of a kind @.....	.10	.15	.20

If larger quantities are needed for landscaping, write for special quotations.

GROUP II

Novelties or Rare Varieties

This list, with Group I, includes all the tall bearded Iris which we are growing at present. On account of small stocks it is not possible to price all of these for 1926 delivery. They are included, however, in order that our friends may know what we will have available for the future. Except in a few cases, we can furnish 6 divisions for the price of 5, or 3 for 2½ times the single root price.
