Armour's Big Crop Fertilizers

FERTILIZERS ARE PLANT FOOD CARRIERS

Nitrogen, referred to as Ammonia, is directly associated with the formation of leaves and stems in plants, promoting a quick and vigorous growth which is accompanied by a deep, rich green color of foliage—a sign of health and activity.

Phosphorus, known as Acid Phosphate or Phosphoric Acid, hastens germination and favors rapid development of young seedlings, increasing the root growth, thus giving the young plant a good start. The formation of grain and fruit begins sooner when applications of soluble phosphorus are freely made. Phosphorus fills out the grain and fruit, increasing the proportion of grain to straw.

Potassium, commonly called potash, has a marked influence upon the development of leaves and stems. When potash is lacking, stems are apt to be weak and brittle. Potash enables the plant to produce sugar and starch, and helps to plump and fill the grain. It is also necessary in developing the fleshy parts of fruit.

O. Machholz Wholesale List for 1926

All Previous Price Lists Are Hereby Cancelled

Prices Subject to Change Without Notice

I HAVE again the pleasure of presenting to you my catalogue for the coming season, and hope you will be induced by the extremely low prices to favor me with your orders which shall have my careful and prompt attention.

All my seeds have been selected with the utmost care and attention, therefore I am sure of their superior quality. No complaint can be entertained unless made on receipt of the goods and invoice, and no warranty or guaranty is given either as to description, quality, productiveness or any other matter of any seeds I send you, nor will I be responsible for the quality or value of the crops produced therefrom. Nevertheless I will certainly pay attention to any founded complaint, but a restitution of any article can never exceed the amount charged for in the invoice.

Being able and ready to meet all respectable competition, I would be glad to be informed if you are offered any article lower than these prices, and in such cases, I will if possible, give you other quotations.

A new and adequate Parcels Post law now applies to shipments of seeds, bulbs, tools, plants and garden supplies to all of the United States; Packages are subject to a limit of maximum weight in the first and second zones of 50 lbs.; and in all other zones, third to eighth, of 20 lbs. The maximum size of a package is 72 inches for combined length and largest girth. Insurance will be effected only when asked for and remitted for as follows: Parcels to the value of \$25.00 or under for 5 cents; to the value of \$25.00 to \$50.00 for 10 cents. Postage must be remitted in addition to the price of seed.

References as to quality of seeds sold by me: any of the leading market gardeners in the vicinity.

Respectfully,

O. MACHHOLZ.

ALL LEADING VARIETIES OF FLOWER SEEDS

All Orders Promptly and Carefully Executed

NOVELTIES

CARROT—"Market Favorite"

This variety deserves being strongly recommended, being very early, cylindrical stumprooted shape of fine scarlet color, and almost without core. It has but small top, but sufficient for bunching. For first early marketing the finest variety existent.

CAULIFLOWER—"Gilt Edge"

A few days later than the Early Erfurt, but produces heads the size of the Danish Giant.

CABBAGE—"The Bugner"

A winter variety bred yellow resistant by means of continual selection on yellowish soil near Chicago.

CORN—"Early Surprise"

One of the earliest white cob Sweet Corns. Produces twelve-rowed pure white ears on four foot stalks.

PEPPER—"Early Giant"

Early Giant is the earliest large green pepper, about 5 inches high by $3\frac{1}{2}$ inches thick. The flesh is thick and of mild flavor, turning a bright red when ripe.

PEPPER—"Yellow Antibes"

An early yellow pepper about 16 inches high bearing numerous sweet pendent fruits of a fine orange yellow when ripe. The shape is triangular with rounded angles about $5\frac{1}{2}$ inches long by 1 inch at top.

LEGGETT'S

"Champion" Dusting Machine

Reg. U. S. Pat. Office

FOR DISTRIBUTING

Dry Insecticides and Fungicides

Paris Green, Hellebore, Sulphur, Lime, Dry Bordeaux Mixture, Bordeaux and Paris Green Compound, Tobacco Dust, Etc.

In general use many years.

Thousands sold annually.

Adjustable to any width of row, wide or narrow planting.

Will Green two Rows of Potatoes at once as fast as a man walks.

The length of the CHAMPION is such that the poison is kept at a safe distance from the operator.

Weighs about 6 lbs. Without tubes is 27 inches long. Each machine is packed in a case complete, as above, comprising 4 16-inch tubes, 6 nozzels and 2 straps. Cased for shipping, weighs 16 lbs. The reservoir holds 4 lbs. Paris Green (or over a quart of powder). Machine is made in best manner of tin, iron, steel and brass.

The stock of the Duster contains a fan which is made to revolve rapidly by means of a crank.

When all the tubes are attached and held in position, the distance from the ground to the end is ten feet, and the powder is thrown out several feet beyond.

Here is a garden tractor that we can guarantee to our friends. We have sold many BOLENS outfits to Milwaukee County gardeners and they report that the tractor does fine work, is easy to operate and makes money every time it is in the field.

BOLENS is different from other garden tractors,—patented arched axle, tool control instant hitches, power turn, etc., attachments for seeding, cultivating and lawn mowing.

BOLENS TRACTOR

RED POWER CULTIVATOR

Does work of four men or one horse, seeds, weeds and cultivates harrow row crops, does light plowing in garden-land, turns over soil in poultry yards, prepares beds in greenhouses, weeds, cultivates, discs, harrows, pulverizes and mulches between wide row crops, mows the lawn, does

stationary power work and hauls light loads.

Sturdily built and perfectly balanced—with 4 H. P., 4-cycle Air-cooled engine, Bosch Magneto, Automatic Lubrication and complete Dust protection. Many parts interchangeable with well-known low-priced auto. Uses Planet Jr. Wheel Hoe and One Horse Tools—all easily attached or detached. Throttles to slower speed than any other power cultivator. Turns easily

30-INCH LAWN MOWER

The RED-E equipped with our 31 inch lawn mower is ideal for mowing lawns, parks, cemeteries, estates and golf courses. The mower can be attached in a few moments, and once on, furnishes an outfit that will take the place of six men with handmachines.

20-INCH POWER LAWN MOWER

Beautiful lawns, to look their best must be constantly trimmed. This requires dependable equipment.

RED-E Power Mowers contain highest quality units and have these exclusive features: cushioned handle, motor air cleaner, extra high reel clearance, protected gas tank, self-adjusting reel bearings, disc clutch control and other worthwhile ad-

vantages. One man can cut from 3 to 6 times as much grass in a day as with a hand mower. You are further assured of a better kept lawn, at less expense.
