LITTLEFORD NURSERIES 19 CO.

F. J. Littleford, Pres.
Richard Theidel, V.-Pres.

Main Nurseries and Office
Downers Grove Illinois

Branch: Vincennes, Indiana

PRICE LIST NO. 75

We invite those contemplating the purchase of trees and shrubs to visit our grounds and see with what care we grow our stock. We give our stock the best fertilizing, pruning, cultivation, transplanting, etc. This puts vigor into the plants and makes them the most satisfactory stock for your needs.

Downers Grove is a suburb of Chicago, 21 miles out on the C. B. & Q. R. It is quickly and conveniently reached, there being about 40 trains each way per day.

The Nurseries are one mile north of the depot on the Ogden Avenue cement highway and three miles south of Roosevelt Road on the Downers Grove road. They are easily reached by auto. Visitors are welcome.

We carry a general line of Shade, Fruit, Evergreen and Ornamental Trees, Shrubs and Vines that our observation and experience has shown are hardy and adapted to this climate.

Prices listed herein include the packing and delivery to express or railroad company.

PLANTING SERVICE

So far as possible on orders amounting to \$25.00, or more, we will for a moderate additional charge plant the stock (if suitable soil and drainage conditions are provided,) and furnish a written guarantee to replace stock that dies during the first season. A copy of the guarantee will be gladly furnished on application.

LANDSCAPE WORK

Refer to Page 8.

TERMS AND CONDITIONS OF SALE

TERMS: Cash with order, or on large orders we will ship if one-fourth cash is remitted with order, balance to be paid on arrival. On landscape or planting contracts of sufficient size, if desired, we will extend terms, which are a matter of agreement at time of ordering.

SPECIAL QUOTATIONS-ESTIMATES:

We make special prices on large orders. Write for estimate; give list of requirements, varieties, sizes, etc.

NON-WARRANTY: In the event that any nursery stock sold by us should prove untrue to name under which it is sold, we hereby agree to replace that portion of the order proven untrue to name, or refund the purchase price thereof. Except for such liability, and in respect to all nursery stock sold by us, we give no warranty, express or implied, as to description, quality, growth, productiveness, or any other matter.

NURSERY INSPECTED

Our nurseries are inspected once each year by an accredited representative of the State Department of Agriculture to see that no dangerous insects or plant diseases become established; a copy of the Department's Certificate of Inspection is attached to each shipment.

LARGE TREES

We have large trees especially in the American Elm to give immediate results. These are moved in the winter time. We are fully equipped for this work. Prices on application.

TREES—SHADE AND ORNAMENTAL

Where trees are priced on basis of diameter, the point where measured is the distance of the diameter from the ground line, i. e. a 6-inch tree is measured six inches above the ground line.

ACER dasycarpum—Silver Maple (or Native White)

	Each
2 inches dia.	3.00
2½ inches dia.	4.50
3 inches dia.	6.00

dasycarpum wieri—Wier Maple (Cutleaf)

8-10 feet	2.50
1½ inches dia.	3.50
2 inches dia.	5.00

ginnala—Amur Maple

18-24 inches B-B	2.50
2-3 feet B-B	3.00
3-4 feet B-B	5.00

Landscape Gardening

It is with pleasure we call your attention to this department. We believe that almost everyone has a deep appreciation of that which is beautiful in nature, but usually have not the training to compose, as they would. This work of laying out of ground is often entrusted to the gardener who understands the details, but, generally, lacks in his knowledge of the composition, its underlying principles. He does not appreciate the demands of unity, variety, character, propriety and finish. How often we see homes with fine houses, but with the shrubs and trees dotted here and there in a promiscuous manner, with neither unity nor harmony.

The grounds should, generally speaking, form a framework or setting for the house, harmonizing with its architectural features.

Many people carry the impression that "landscape work" is only for the wealthy, but this is not so. One hundred dollars, or more, expended on a 50-100 foot lot often increases the value of the property to double and triple the amount of the expenditures, and is surely a source of great satisfaction to the owner.

We are prepared to do work of this kind from the modest city lot to the large country estate. Sometimes, for convenience, the work extends over several seasons, each planting being done with regard to the unity of the ultimate composition.

We will be pleased to consult with you regarding this or any other branch of our business.
