Extra Early Round

This new cabbage is very early, heads are solid as a rock, weight from 5 to 8 lbs. It is surely the earliest of all Round Cabbage, and will stand long after being ready to cut without splitting. Give Extra Early Round a trial for your first early crop. Some of my customers have grown this cabbage in 60 days for car-load shipments as early as Aug. 2nd. None earlier, none better.

Danish Ball Head short stem new strain, is a Danish cabbage, the outer leaves having a purple tint and the small veins showing a very rich color, an extra fine strain and the produce dealers favorite cabbage.
