.: PLANT APPROVED PEONIES NOW .:

Peonies may be successfully planted in October and November any time before the ground freezes. We are now digging peony roots of fine quality and can make prompt shipments of most of the desirable varieties described and priced in our catalogue recently mailed. If you would have beautiful peonies growing next spring, mail us your order now.

Approved Peony Roots are all selected, strong divisions, having 3 to 5 eyes, and cut from mature plants, 3 or 4 years old. They will produce a reasonable amount of blooms next spring, if planted now.
