GREETINGS

To Our Friends and Patrons:

We thank you for your kind interest in our behalf and for your generous patronage, which resulted in our most successful season.

We extend once again our sincere wishes that the year 1926 will be for you, in every way, "The best of all."

Yours for better Dahlias,"

THE SEVEN ACRES.

INFORMATION

The different varieties of Dahlias we have abbreviated as follows: Decorative, D.; Peony, P.; Cactus, C.; Hybrid Cactus, H. C.; Show, S.; Pom Pom, P. P. Where the variety favors two different types, both are mentioned.

We guarantee all bulbs and plants true to name and to arrive in good condition. If not satisfactory when received, notify us at once.

Cash with order or in advance of shipment. No C. O. D. Orders.

SATISFACTION GUARANTEED

GROWING THE DAHLIA

Location: Open, sunny or partial shade. Cultivate the soil thoroughly. Plant from May 1st to June 20th. Dig a hole one foot deep. Put in shovel of manure or other plant food. Cover with an inch of soil. If stake is to be used, set in. Plant bulb four inches deep, horizontally, and cover. Cultivate at least once a week. Do not water until the plants are well above the ground. When the buds appear water the plants thoroughly once or twice a week. Apply any good fertilizer, stirring the soil lightly after. To obtain extra large flowers, disbud freely, leaving only a few buds and branches on each plant.

Green plants should be planted TWICE AS DEEP as they were grown in pots or 4 or 5 inches deep. They should be watered and shaded for a few days after planting.

1926 INTRODUCTION

Mrs. Frank Dunbar, D.—This beautiful new Dahlia is a most charming shade of clear lavender. The flower is large, with uniform petals, making the formation perfect. The stems are long, strong and straight, holding the flower well above the foliage. It has been the admiration of all our visitors, and we feel it will please the most discriminating dahlia grower.Bulb \$5.00

1925 INTRODUCTIONS

Seven Acres No. 44 H. C.—This Dahlia won a Certificate of Merit at the American Dahlia Society Trial Garden, 1924. The flower is of unusual formation, with long and twisted petals. The color is a shade deeper than Jack Rose. The plants are covered with blossoms on long, strong stems all the season. It is a good Dahlia for massing in the garden and for a cut flower, it is unsurpassed, especially in basket and other exhibition workBulb \$1.00

Seven Acres No. 37 D.—Visitors to our gardens pass by many of the standard varieties to get a closer look at this huge decorative. The vivid orange red seems a magnet to focus the eye and closer inspection brings forth exclamations of delight. The reverse of the orange red petal is gold, the whole flower being brilliant and colorful. A large heavy flower, with great depth, bound to win popularity.Bulb \$1.00

Jean Ames H. D.—This is a magnificent hybrid of unusual formation. The petals are broad, ending in a point. The color is a blending of lavender and pink. Good for exhibition or garden purposes. This is another flower that attracts a great deal of attentionBulb \$2.00

Seven Acres No. 6 P.—Beautiful mammoth flower on the popular autumn shade of amber and gold. The flower is very heavy for a peony, the tall plants are covered with blooms on long, strong stems, which hold the flowers erect. It is exceptionally good as a garden variety, and splendid exhibition flower also.Bulb \$1.00

Cushing D.—Scored 84 as an exhibition flower at American Dahlia Society Trial Garden, 1923. It is hard to describe this Dahlia, it is so different in color and formation from the average. The seven inch flower, on good stems, is a blending of cerise, old gold and yellow. The foliage is beautiful.Bulb \$1.00

The Five\$5.00

Bulbs Plants

Ambassador, C. —This was originally a \$50.00 bulb. The best cactus to date. Very large, soft yellow buff, shading to salmon pink, long, stiff stems. Wonderful for cut flower and exhibition	\$2.00	\$1.00
