LOCATION

Springtime Garden is located on the second mountain of the Watchung Range, in what is known as the Washington Valley. It lies north of Bound Brook about four miles, two miles west of Warrentonville and about the same distance east of Martinsville. To reach our place from Plainfield follow Somerset Street to Watchung, turn to the left and continue past Pedeflous' Hotel to the end of the macadam road at Warrentonville. Here turn to the left, then to the right at next turn and continue straight ahead about two miles. To find us from Bound Brook follow the Mountain Avenue road up the long hill to crest of first mountain, take left fork of the road and keep on until road again forks. Once more turn to the left and about one mile straight road brings you to Springtime Garden.

Garden Planning

A deep rooted love for Gardens, and an understanding of the little Green People who live in them, has been responsible for the establishment of SPRINGTIME GARDEN. To bring some slight conception of the glories and possibilities of this comparatively unexplored Art is her aim, and to give out the joy and contentment which comes to those who understandingly take the Flower World to their hearts. Gardening is for all. A universal gift. Whether it be expressed by the pink geranium in an attic window or by the fair and gracious sweeps of coloring of the well cared for American estate, the vision is there and the ideal is the same—the vision of expressed beauty, and the love of green, growing things.

SPRINGTIME GARDEN makes a specialty of planning and directing the making of Gardens, and whether the Garden be one small bed, or the arranging of many acres, the same interest and care are shown to each and every one. Prices of plans and blue-prints, or personal visit to your Garden to advise you, will be furnished if requested by mail. Also references, if desired. SPRINGTIME GARDEN is always glad to see friends and visitors, but Tuesday and Saturday are the best days for finding the writer home.
