PRICE LIST OF Standard, New and Rare Gladiolus

GROWN BY

C. C. THAYER

321 Wallace Ave., New Castle, Pa., U. S. A.

The following is a list of the varieties of which I have a surplus, and desire to dispose of at the very low prices quoted below.

While I might spare a limited number of other varieties, to those making their wants known, this list covers the most I have for sale at the present time, and which I have thoroughly tested and can recommend as being of superior merit.

The prices quoted are per dozen. For prices per hundred, multiply dozen prices by eight. These prices are made low to close out my surplus stock. Are for first class bulbs, guaranteed true to name, and include packing and free transportation to all points in the U. S. and Canada, providing the order amounts to one dollar or more. I guarantee safe arrival of bulbs in the U. S. and Canada. Customers in Canada should give number of their import permit with their order.

Parties wanting large orders of planting stock should write for just what they want, as a liberal discount will be allowed on such orders. All orders will be filled in rotation, subject to previous sales, and no substitution will be made without the consent of the purchaser. In case of inability, from any cause, to fill orders, the purchaser's money will be refunded.

TERMS: Cash with order. Remit by any negotiable paper. Unused postage stamps will be acceptable for amounts up to \$2.00. Orders booked for spring delivery must be accompanied with at least 25% of the order, the balance before goods are delivered. Five per cent. of extra bulbs will be given when cash accompanies the order.

Get your order in early before your favorites are all sold.

Unnamed Seedlings	.50	.50					

I wish to call special attention to Mrs. Austin's new creations "Golden Swallow and Tycko Zang." Mr. Gersdorff has tested these new varieties and gives the following description of them: Golden Swallow in color, is a beautiful clear soft yellow with no throat markings. Petals are finely ruffled giving the bloom an artistic effect; one of the most beautiful types offered. Score, 95 points.

Tycko Zang blooms are of a beautiful shade of clear salmon pink with a brilliance unsurpassed under electric light. The petals are of good substance, very broad and rounded at the tips. The flower usually measures five inches in diameter, has white throat faintly dotted deep cerise. Blooms are well placed on a straight spike four feet high and many open at a time. The foliage is broad and heavy, is a good propagator, and we predict a great demand for it as soon as it is better known.

Get your start now in these two new creations, originated by our Supervising Judge.

Write me for just what you want. I will please you in quality and in count. Be sure to write your name and address plainly and I will gladden your home with beautiful Glads.
