EVERGREENS

Our potted evergreens are extra strong, having been grown from large cuttings rooted last winter and potted in the early summer. They have made a splendid, bushy, top growth and are in fine shape to plant now or as early in the spring as you wish.

However, we can root special this winter the varieties listed below and a good many other sorts, at a price somewhat under the price for this year-old stock. This stock could not be delivered until June or July. Advise us the quantity you wish to contract and we will quote you the special price.

Some of our transplanted stock growing in our irrigation plot, Norway Spruce in the foreground. Note the character of these plants. And—not least of all—our soil produces a wonderful fibrous root system.

Quantity	Variety	Per 100	Per 1000
500	CRYPTOMERIA japonica , 2¼ in. pots, 8-10 in.-----	\$12.00	\$100.00
