Why We Can Serve You Well

We have over 400 acres of healthy, weather-hardened Fruit Trees, Flowering Shrubs, Ornamentals, Roses and Perennials under cultivation in the heart of the famous Finger Lakes Region.

Picture, if you can, in this wonderful region of growing things, an organization fortified with nearly a half century of "knowing how" in the raising of nursery stock of the better grade—knowing how to propagate and develop fruits and flowers with the vigor necessary to stand digging, packing, shipping and transplanting.

Such stock repays the planter a thousand fold in richness of bloom among the ornamentals and in wealth of fruit yield for the market or home.

Be sure to give the name of Express Office if desired by Express; or Freight Station if desired by Freight. Also name your Post Office Address. IF NO EXPRESS OFFICE AT YOUR PLACE GIVE NEAREST EXPRESS OFFICE.

Shipping Point if different from Post Office

Quan.	Names of Trees or Plants Ordered	Size	Price

RATES—Less than 10 at each rate; 10 to 50 at 10 rate; 50 or more at 100 rate. At 100 rate, no less than 10 of any one variety.

CLUB ORDERS—If your order is small, get your neighbor to join you in ordering. We will tag each person's order separately but ship them in one bundle to address specified. This may save you shipping charges. Always keep a copy of your order for comparison. Claim for error must be made within FIVE days after receipt of goods.

GUARANTEE—All goods are guaranteed to reach you in good condition, up to size specified and with strictly A No. 1, healthy, thrifty roots; mistakes, if made, will be promptly rectified. We use the greatest precaution to have everything we send out true to name, but if through any fault of ours, any stock proves untrue to label, we will on proper proof, replace DOUBLE the number of trees, not true, or we will refund the purchase price, plus 6 per cent per annum, and also replace stock.

SPECIAL ONE YEAR FRUIT TREES—For the commercial grower—extra strong, well branched, heavily rooted Apple, Pear, Cherry and Plum Trees. Budded on imported French seedlings that will transplant without setback and start growing immediately. Write for special price on quantity lots.

TRANSPORTATION—We do not charge for packing, boxing, or delivery to freight offices or express companies. Our prices this year do not include transportation charges, unless goods are to be delivered to a prepaid station. If there is no agent at your place, and shipment has to be prepaid, notify us and we will prepay charges and bill you for same after shipment is made.

OUR LOCATION—Finger Lakes Nurseries located right in the center of the leading Nursery section of the country; on the main road from New York City to Buffalo, on the New York Central and Lehigh Valley Railroad (main line); 40 miles from Watkins Glen, 120 miles from Niagara Falls. The New York State Experimental Station is located here in Geneva and co-operates in every way possible with the Nurseryman and planter. Visitors always welcome at our Nurseries.

THE FINGER LAKES NURSERIES, GENEVA, N. Y.

At Right—400,000 California Privet growing on the Finger Lakes Nursery Farms.

Below—Acres of Barberry.

At Right—50,000 Two-year-old Finger Lakes Hydrangea P. G.

Above—Deep digging of young trees to preserve every root fibre, on one of the Finger Lakes Nursery Farms.

Above—300,000 Apple and Pear Trees.

At Right—50,000 Young Plum Trees.

The large and commodious packing and shipping building of The Finger Lakes Nurseries, covering more than two acres of ground, enables us to do our grading, sorting, packing and shipping under cover, so that our stock is not exposed to sun or wind.

Apple Trees

Plant strong, heavily rooted fruit trees grown in the famous Finger Lakes region. Hardy specimens that take hold at once, mature earlier and yield heavier crops of better quality fruit than ordinary trees, so often set out by the inexperienced planter.

THE Apple is the King of Fruits and it is a fact that it is the most important orchard fruit of the country, and the apple orchard is the farmers' greatest asset. A recent census of the United States Department of Agriculture shows that the demand for good apples is increasing faster than the supply, due to the fact that old trees are dying out faster than new ones are being planted.

Our apple trees are propagated on genuine imported French Seedlings. This insures varieties true to name, free from disease, and of the heaviest bearing strain. We specialize in growing apples with an abundance of good fibrous roots, which means a fast, vigorous growth and early bearing.

We have listed only such varieties as have distinctive characteristics, and which are of value, either for home use or from a commercial standpoint. New varieties are never added to our list unless we are convinced that they possess qualities which make them worthy of cultivation. With a well selected list of varieties one can have fruit the year round. Apples will do well on any good soil that will produce a good crop of corn or potatoes. Plant 35 feet apart each way.

Mr. Dunton of the Finger Lakes Nurseries is shown holding a 3 foot parcel-post size apple tree. Note heavy root growth, straight stem and well formed head. Price 35 cents each, postpaid.

Baldwin Apple

Apple Trees

See page 7 for prices on apple trees

Summer Varieties

RED ASTRACHAN—The very best early, red summer apple. Excellent for cooking and eating out of the hand. Fruit, tender, juicy, crisp and sub-acid flavor. Very attractive and good for local market. Tree is moderately productive, very hardy and bears the fourth year. Ripens in July. Keeps until September.

SWEET BOUGH—Acknowledged by all the best early variety. Fruit large, smooth, pale greenish yellow, good table apple. Excellent for home orchard and local market. Tree bears young and abundantly. August and early Sept.

YELLOW TRANSPARENT—One of the best early cooking apples. Skin is smooth and yellowish white in color. Flavor, slightly acid, good quality. Tree is hardy and a reliable annual cropper. Bears third or fourth year. Owing to its extreme hardness, can be planted in northern localities. Ripens late July.

Autumn Apples

DUCHESS OF OLDENBURG—A profitable commercial variety and excellent for home use. Tree is unusually hardy and succeeds well all over the country. Very reliable cropper. Fruit hangs well to tree, until ripe. One of the best cooking apples in our list and excellent for eating out of the hand if allowed to ripen well on tree. Fruit averages above medium, skin smooth and red striped, slightly sub-acid in flavor. Ripens September.

GRAVENSTEIN—Fruit lovers value this variety because of its tender, juicy and crisp flavor. Unexcelled for culinary purposes. Recommended for the home orchard, but not considered profitable in a commercial orchard. Skin thin and slightly rough, and of an orange-yellow color. Trees grow large, bear early, quite productive and pretty reliable croppers. Ripens in September to late November.

Winter Apples

BALDWIN—The leading variety in the commercial orchards in New York, New England, Southern Canada, Ohio and Southern Michigan, the so-called "Baldwin-Belt." The fruit is large, deep red, crisp and juicy, thick skin stands handling well, of fine flavor, slightly sub-acid. Delightfully aromatic. Is an excellent shipper and one of the leading apples used for export trade. The trees are large, vigorous, long lived and bear abundantly. Quality excellent. Ripens in November and lasts until April.

BEN DAVIS—One of the best keeping and cooking apples known, but a poor eating apple. Comes into bearing at an early age, bearing abundantly and annually. It is the most important apple known in the apple districts stretching from the Atlantic to the Pacific. The trees are hardy, healthy and vigorous. Its late blossoming period in the spring is a great advantage in some sections, as the weather is then more apt to be favorable during the pollinating period and in such cases the Ben Davis often bears good crops when other varieties are more or less of a failure. The fruit is thick skinned and does not easily show bruises, handsomely colored red and makes a fine appearance when packed. December to March.

An indication of healthy, vigorous stock—a branch from a Young Finger Lakes apple tree well laden with full sized, juicy fruit. Trees that have not had the proper cultivation and development in the Nursery before transplanting cannot approach this even halfway in yield or quality.

Apple Trees

See page 7 for prices on apple trees

Winter Apples—Continued

CORTLAND—A new variety originated here in

Geneva at the New York State Experiment Station by crossing the Ben Davis and McIntosh. From Ben Davis it takes its ability to hang to the tree and also to stand handling. From McIntosh it gets its high quality, resembling it in taste and appearance, altho Cortland is somewhat larger in size. In color it is a beautiful red blushed with darker red. It comes into bearing about three weeks later than McIntosh. The trees are large, vigorous, of upright spreading habit, hardy, healthy and very productive. Professor U. P. Hedrick of the New York Agricultural Experiment Station states that the Cortland cannot be surpassed by apples grown anywhere in the world and apple growers have an opportunity to specialize in a distinctive variety that will bring renown and profit to the apple industry.

PRICES OF CORTLAND APPLE

Grade	Age	Height	Each	Per 10	Per 100
XXX	2 yr.	5 to 7 ft.	\$1.00	\$8.00	\$60.00
XX	2 yr.	4 to 6 ft.	.75	6.50	50.00
X	2 yr.	3½ to 5 ft.	.60	5.00	35.00

DELICIOUS—A truly delicious apple with a rich, distinctive flavor. Successfully grown in any apple section; conically shaped, large, beautifully striped with red and yellow. A good keeper and shipper and a good money maker. A handsome apple that brings fancy prices on fruit stands. Tree is hardy and vigorous, bears young and abundantly. Every orchard should contain at least a few of these trees. November to May.

*Read what experts say about
the New Cortland.*

CORTLAND
APPLE

DELICIOUS APPLE

FAMEUSE (Snow)—Well known dessert apple, beautiful in appearance and of medium size. Flesh is very white, tender and juicy. Fruit hangs well to the tree. Skin bright red. Tree is very hardy; succeeds well in cold sections. The apples which are too small for market use are excellent for sweet cider. Ripens in November and keeps until mid-winter.

GRIMES GOLDEN—One of the best yellow, winter apples. Excellent for dessert and culinary uses. Fine for commercial as well as the home orchard. Fruit medium in size, of a golden yellow color with crisp, tender, moderately juicy flesh. Moderately vigorous grower and good cropper, and a biennial bearer. November to February.

JONATHAN—One of the most desirable for fancy trade at Holiday season. Almost completely covered with red. Flesh is very crisp and tender.

KING (Tompkins County)—Large size, beautifully colored red and yellow. Excellent in quality for dessert or cooking. Not adaptable to all sections and not a heavy producer. In good demand for special and general trade. December to March.

McINTOSH RED—This fruit has a splendid early winter market, brings higher prices in all the Eastern markets. Fruit bright red in color with tender white flesh. Very juicy and agreeably aromatic, sub-acid, becoming mild and nearly sweet when very ripe. The tree is vigorous grower and a good reliable bearer. We especially recommend it to the Eastern growers. Much used as a filler. A valuable tree. November to February.

Apple Trees

Winter Apples—Continued

N. W. GREENING—Hardier than the Rhode Island Greening and valuable in districts where the climate is too severe for that variety. Fruit is medium to large, smooth skin somewhat waxy, clear pale yellow or greenish, oftentimes faintly blue blushed. Juicy with slight aroma, mild sub-acid. A strong grower in the orchard and reliable cropper. November to May.

NORTHERN SPY—When well grown this apple is superior to either the Baldwin or R. I. Greening in both flavor and quality and easily ranks among the very best of the winter apples. The fruit is large and attractive, bright red color. The flesh very juicy, crisp and tender. It has a well established reputation in market and because of its size, beauty and fine flavor and high quality it often sells at more than average prices. Blossoms quite late. Trees hardy and vigorous. December to March.

RHODE ISLAND GREENING—A constant and hardy bearer in any section where apples are grown. Fruit large, greenish yellow, flesh yellow and fine grained, tender, juicy and sub-acid. Ranks as the best cooking apple on the market. Excellent in

combination with Baldwin for commercial purposes. A good shipper, well known in domestic and foreign markets. Tree grows to be strong, vigorous and wide spreading. November to March.

ROME BEAUTY—Red mingled with yellow. Flesh moderately fine grained, rather crisp, juicy, agreeable, mild sub-acid. Likes fertile sandy or gravelly loams. Bears early and good cropper. Especially recommended for New Jersey and along the Ohio River. Not hardy along the Canadian border. December to May.

STARK—Is regarded as a good variety for the commercial orchard because the tree is thrifty, hardy and very productive. Fruit is large to medium, pale green, becoming yellow and mottled with red. Flesh yellow, firm, juicy, sprightly, mild sub-acid. January to May.

STAYMAN'S WINESAP—This is a good commercial variety for all apple districts outside of New York and New England. Fruit rich, dark red, striped with yellow and green. Flesh firm and fine grained. Exceedingly juicy and tasty. A reliable annual cropper alternating heavy with light crops. This is easily the best of the Winesap group. A good keeper. December to May.

WAGENER—A beautiful bright red with some contrasting yellow. Fine texture, high flavor and excellent quality. October to February.

WINTER BANANA—A comparatively new apple, very flashy in appearance and large in size, deep yellow striped with red; tender and delicious with a distinctive banana perfume and flavor. Tree comes into bearing very young—is almost an annual bearer and yields moderate to rather heavy crop. Is used to advantage commercially to follow Maiden Blush. November to January.

McINTOSH APPLE

Every home owner should plant a tree or two of McIntosh for a supply of excellent eating and cooking apples throughout the winter.

PRICES OF ALL VARIETIES OF APPLE TREES (Except Cortland)

Grade	Age	Height	Each	Per 10	Per 100
XXX	2 year	5 to 7 ft.	\$.75	\$ 6.50	\$50.00
XX	2 year	4 to 6 ft.	.70	6.00	40.00
X	2 year	3½ to 5 ft.	.65	5.50	30.00

SPECIAL PARCEL POST SIZE—First-class strong, 3 ft. trees, with plenty of good fibrous roots, can be sent by Parcel Post at 35c, postpaid.

RATES—Less than 10 at single rate; 50 at 100 rate.

See page 7 for prices on apples

Winter Apples—Continued

WEALTHY—Valuable commercial variety, especially for cold climates as the tree is very hardy. The fruit is bright red and good in quality for either dessert or culinary use and sells well. Ripens unevenly and more than one picking is often necessary. It is largely used in orchards as a filler between stronger trees. October to January.

Crab Apples

HYSLOP CRAB—Fruit large, brilliantly colored dark red. Tree is a good grower and hardy. October.

TRANSCENDENT—Fruit medium to large. Color, brownish yellow with blushes of carmine. Flesh firm and crisp, yellowish, fine grained, very juicy, acid. Tree is a hardy and vigorous grower. Comes into bearing early. Immensely productive. Season, September to October.

A group of vigorous young pear trees being developed in the Finger Lakes Nursery row. Trees like these are bound to grow if you follow the simple planting instructions furnished with every order.

Pear Trees

STANDARD PEARS

THE home orchard is not complete without pears and they are a very profitable commercial crop in nearly all parts of the country. Pears will do well on almost any good soil, but thrive best in rather heavy clay or loam. The quality of the pear is much improved by picking before maturity and by proper ripening indoors.

PRICE LIST OF STANDARD PEAR TREES

Grade	Age	Height	Each	Per 10	Per 100
XXX	2 year	5 to 7 ft.	\$.90	\$ 8.00	\$60.00

Dear Sirs:

My order came in fine condition, and I am much pleased with it. Kindly send me peach collection No. 150.

Yours truly,
G. Groves.

Billerica, Mass.
May 11, 1926.

Pear Trees

Standard

BEURRE D'ANJOU—The standard market pear for late fall and early winter. Large greenish-yellow fruit tinged with dull red and russet, flesh white, buttery, fine grained and richly flavored. Looks and keeps well until mid-winter. Tree is straight and vigorous grower, long lived and productive. October to January.

BEURRE BOSC—One of the best of the russet varieties, having distinctive long neck. Highly flavored and well suited for storage and marketing. Tree is reasonably strong but not especially straight grower. October to December.

BARTLETT—The most popular pear on the American market. A general favorite both for home use and market; the leading variety for canning; fruit always commands top prices. Fruit is large and attractive; yellow tinged with red, buttery, juicy and high flavored. Trees are very vigorous and erect; bears young and abundantly and is easily managed in the orchard.

CLAPP'S FAVORITE—This is a very large, long yellow pear, tinted with crimson and russet. Flesh is fine grained and white, juicy and exceptionally tasty. Tree is hardy variety, good grower and producer. It can be planted extensively for commercial purposes. Ripens about ten days ahead of Bartlett. August to September.

DUCHESS D'ANGOULEME—Attractive for its enormous size. Bears early, often fruiting the season after planting. Fruit is bright golden yellow, with white juicy flesh and excellent flavor. The most popular market variety as a Dwarf. October and November.

FLEMISH BEAUTY—Has long been considered an old and highly esteemed variety. Its color a greenish yellow and brown; is very juicy and sweet. Ripens early in season. Tree vigorous and productive. September to October.

KEIFFER—Its large size, handsome appearance and remarkable keeping and shipping qualities make it a very profitable market variety. In great demand as a canning pear, as it retains its light color well and possesses a rich, vinous flavor. Commands the highest price on the market. Fruit is large, golden-yellow, tinged with red; trees are strong, vigorous and very healthy. Bears young and heavily and makes a large tree. October and November.

SECKEL—Its small size and exceptionally rich, juicy, buttery flavor make it most desirable for pickling and preserving. Always commands a fancy price. Should be in every home orchard. A very prolific bearer. September and October.

SHELDON—Large, round, greenish-yellow in color, covered with light russet. It is very juicy, and has a tasty flavor. The tree is a fine grower and a good bearer. October to November.

VERMONT BEAUTY—Of medium size, good quality, hardy and very productive. October.

WORDEN SECKEL—Fruit is medium size, borne in clusters, very juicy and buttery. Ripens late. Will keep in good condition until December. Color yellow with light red. Tree is hardy and enormous bearer. September and October.

SHELDON PEAR

"I wish I had ten thousand trees of Bartletts," said one enthusiastic grower when his entire Bartlett crop was snapped up at top prices.

BARTLETT PEAR

Dwarf Fruit Trees

Branches bending under the weight of fine quality Kieffer pears.

DWARF Fruit trees are especially valuable for the city or village garden where space is limited. They can be planted closer together than Standard trees, and come into bearing much sooner, usually the second season after planting. Their color, quality and flavor are identical with that of Standard trees, but as a rule, the fruit is much larger. These trees can be easily picked from the ground instead of using ladders, on account of their dwarf habits. You can plant Dwarf fruit trees for a hedge along your garden or through your garden, requiring very little space. Used as a filler in an orchard, they are of great commercial value.

Order Your Nursery Stock To-day

Plant now and you will be enjoying Nature's Bounty while the man who puts off until tomorrow is still coming to a decision. You know from the appearance of so many of your friends' homes that Nursery Stock pays big dividends in added attractiveness. Make your home a Bower of Beauty from this catalog, *right now*.

PRICES OF DWARF PEAR TREES

Budded on Quince Stock

Grade	Age	Height	Each	Per 10	Per 100
XXX	2 year	4 to 5 ft.	\$.75	\$6.50	\$45.00
XX	2 year	3 to 4 ft.	.65	5.50	35.00
X	2 year	2 to 3 ft.	.50	4.00	30.00

The X Grade of Dwarf Pears can be sent by Parcel Post.

Varieties: Bartlett, Beurre D'Anjou, Clapp's Favorite, Duchess D'Angouleme and Seckel.

PRICES OF ALL VARIETIES OF DWARF APPLE TREES

Budded on Doucin Stock

Grade	Age	Height	Each	Per 10	Per 100
XXX	2 year	4 to 5 ft.	\$.80	\$7.00	\$60.00
XX	2 year	3 to 4 ft.	.70	6.00	40.00
X	2 year	2 to 3 ft.	.50	4.00	30.00

The X Grade of Dwarf Apples can be sent by Parcel Post.

Varieties: Baldwin, Duchess, Gravenstein, Red Astrachan, Wealthy, Yellow Transparent and McIntosh.

BEURRE D'ANJOU

Dwarf trees bear large, full sized fruit the same as standard trees but a greater number can be planted in a given space and the crop is more easily gathered.

Plum Trees

THE market for Plums is rarely overstocked. They are easy to grow and will do well on any land that is not too wet and will withstand the most severe winter. Being generally free from disease, the plum is commercially profitable and most desirable for family use. Plums require very little pruning, but regular thinning will improve the size of the fruit. The following selected list of varieties we consider are the best for size, flavor and hardiness of trees. Our Plums are budded on imported Myrabolan Plum Seedlings and are well rooted and exceptionally hardy. Plant 20 feet apart each way.

PRICE LIST OF PLUM TREES

Grade	Age	Height	Each	Per 10	Per 100
XXX	2 year	5 to 7 ft.	\$.75	\$ 6.50	\$50.00
XX	2 year	4 to 6 ft.	.70	6.00	40.00
X	2 year	3½ to 5 ft.	.65	5.50	30.00

SPECIAL PARCEL POST SIZE—First-class, strong, 3 ft. trees, with plenty of good fibrous roots, can be sent by Parcel Post at 35 cents postpaid.

ABUNDANCE—The chief asset, which has given the variety its great popularity, is its name, abundance in fruit. Tree bears early, a pinkish red changing to a darker red mottled with thin bloom. August.

BRADSHAW—The trees grow large and well formed, bear regularly and heavily. The plums are large, attractive in appearance, being a light purplish red changing to dark reddish at maturity. Keeps and ships well. August.

BURBANK—Most profitable variety for the market. The most popular Japan sort. A good keeper and an excellent shipper. Valuable for canning and market. Fruit is large, excellent quality, juicy, tender and fine flavored. Skin is dark red, over a yellow ground, thick bloom. Can be picked before ripe and will color perfectly. The tree is vigorous, very productive and needs close pruning. July.

GERMAN PRUNE—Large, dark blue, rich and agreeable flavor; well thought of for drying and therefore commercially desirable. September.

LOMBARD—Probably the most widely planted in America, medium size, violet-red in color, hardy and productive, having a good market value. Adapts itself to any soil and will thrive in any climate. A healthy, productive and regular bearer. Extremely hardy. Excellent for canning and preserving. August.

RED JUNE—Closely follows Abundance and Burbank in popularity. The color is a mottled garnet-red overlaid with thin but very distinct and delicate bloom. Ripens early in July.

REINE CLAUDE—For the qualities that gratify the sense of taste, richness of flavor, consistency and texture of flesh, the Reine Claude is unsurpassed. The trees are very productive and bear regularly. Fruit ripens in September and is of yellowish-green.

SHIPPER'S PRIDE—Bears late in season, very attractive color, being brownish drab with a red tinge. Quite popular with growers in the East. A good shipper. Trees hardy and productive. September.

SHROPSHIRE DAMSON—Is the best known of the Damsons, being found not only in nearly all commercial plantations but in the smallest home collections as well. Shropshire is enormously productive, bearing its load of fruit year after year until it is a standard among fruits for productivity and reliability in bearing, which is late in season. October.

WICKSON—The largest of the oriental plums, if not the largest of all plums. Its handsome color of red and distinct form make it very attractive. A good market variety. September.

YORK STATE PRUNE—Originated in Western New York. Large, blue with rich, juicy flesh, well thought of by big fruit growers, profitable to handle. Strong grower and productive bearer. August.

REINE CLAUDE PLUM

A characteristic cluster of this popular variety. Large, firm, easy to gather and always sure of a ready market

WE OFFER A SPECIAL PARCEL POST SIZE ON FRUIT TREES

Peach Trees

ELBERTA PEACH—The Leading Commercial Variety

THE peach ranks next to the apple for commercial importance and for home use. Beginning with the blossoms, it is most attractive. The trees are quick to come into bearing and with a right selection of varieties, the fresh fruit may be enjoyed for three or four months every summer and fall. Owing to its many uses, for desserts, preserves, jellies, etc., the peach is canned most extensively.

Peaches will thrive in any soil that will produce an average yield of corn or potatoes, but thrive on good sandy loam. Peaches are very successfully planted as fillers in apple orchards, for they make ground space that is practically idle, pay well until the apples come into bearing. Plant our healthy, well rooted peach trees and realize handsome returns on your investment. All varieties described have been thoroughly tried and tested and are the kinds most generally selected by most successful, experienced peach growers. Peaches are planted 15 feet apart each way.

PRICES OF ALL VARIETIES OF PEACH TREES

Grade	Age	Height	Each	Per 10	Per 100
XXX	1 year	4 to 5 ft.	\$.60	\$ 5.00	\$35.00
XX	1 year	3 to 4 ft.	.50	4.00	30.00
X	1 year	2 to 3 ft.	.40	3.00	20.00

X Grade of Peach Trees can be sent by Parcel Post.

BELLE OF GEORGIA—Elicits praise from all who know it because of the great beauty of its fruits. At its best, it is one of the glories of the peach orchard, the fruits being large, creamy-white with a beautiful crimson cheek. Is an excellent shipper. August. Freestone.

CARMAN—A general favorite in nearly every peach region on this continent. There is much merit in the fruits, especially for a peach ripening so early. It is a brilliant red, splashed with a darker red on a creamy-white background. Fruit matures early. August. Freestone.

CHAMPION—This is the best of the white freestone varieties. Skin creamy-white with red flush. This is also a desirable variety for commercial orchards. It is extremely hardy and of uniform good quality. Late August. Freestone.

CRAWFORD'S EARLY—This peach has all of the characters that gratify the taste. Besides being one of the very best in quality, it is one of the hand-somest peaches. Color, rich red splashed and mottled with darker red and golden yellow. The flesh is beautiful and perfectly free from the stone. Matures in mid-season. Tree is vigorous and productive. First of September. Freestone.

Peaches—Continued

CRAWFORD'S LATE—Fruit is unsurpassed in appearance and scarcely equalled in texture of flesh and richness of flavor. Color, tints of red and yellow. Fruit matures late. Used extensively in commercial orchards. Last of September. Freestone.

CROSBY—Is noted for its hardiness and bud so marked, is often called the "Frost-Proof" Peach. The quality is excellent. The rich, yellow, freestone flesh is delicious to the taste, either as a dessert or as a culinary fruit. Matures late in season. Last of September.

ELBERTA—Leads all peaches in quantities planted, the most popular in the market. It is grown with profit in every peach growing state in the Union. Being hardy in budding and a consistent yielder of good crops, adaptable to almost any soil and climate,

HALE—This is a new peach combining the most desirable qualities of the other varieties. Brilliantly colored with deep golden yellow and red. Flesh deep yellow, firm and fine grained. Stone is exceptionally free. Tree is enormously productive, good keeper and shipper. Late August. Freestone.

HILL'S CHILI—Medium sized, yellow peach. Skin yellow, shaded with dark red. Very rich and sweet. First of September. Freestone.

ROCHESTER—It recommends itself for commercial purposes and home consumption. It is of good size, yellow, freestone and among the best shippers. Fruit golden yellow and red, highly flavored. Juicy and delicious. The tree is a hardy and young producer. Middle of August. Freestone.

FAVORITE PEACH COLLECTION No. 150

5 BEST VARIETIES FOR THE HOME GARDEN

4 to 5 ft. high, 5 for **\$2.25**

(Regular catalogue price \$3.00)

1 Champion

1 Ea. Crawford

1 Rochester

1 Hale

1 Elberta

Any 3 of these varieties for **\$1.35**

enables Elberta to hold undisputed supremacy. Fruit is large, golden-yellow with bright red cheek, firm, well flavored and juicy. Highly prized for dessert, canning and culinary use. Tree an early bearer. Early September. Freestone.

GREENSBORO—One of the leading early, white-fleshed peaches. It takes high place because of its showy fruits, and its large, vigorous, early bearing, prolific trees. Adapted to a great variety of soils. Good shipper. Bears early. Color, creamy white, blushed with red; flesh white, very juicy, tender and melting; mild, sprightly flavor. Freestone.

SALWAY—A yellow fleshed freestone peach of attractive appearance and of good quality; one of the best for canning, preserving and evaporating. The trees are hardy, healthy and very productive. Fruit matures very late. October. Freestone.

YELLOW ST. JOHN—This peach has maintained great popularity for home orchards and in many peach regions is grown for the markets. Fruit matures early. Color, deep yellow, blushed and splashed with carmine. Middle of August. Freestone.

ORANGE QUINCE

Quince Trees

No Finer Fruit for Jellies, Preserves and Canning

PRICES OF ALL VARIETIES OF QUINCE TREES

Age	Height	Each	Per 10	Per 100
2 year	4 to 5 ft.	\$1.00	\$9.00	\$65.00
2 year	3 to 4 ft.	.85	7.50	50.00

PARCEL POST SIZE—First-class, 3 ft. trees, sturdy buds, can be sent by Parcel Post at 50 cents each, postpaid.

CHAMPION—A beautiful large quince of a golden yellow color, bears abundantly quite late in season. Last of October.

MEECH'S PROLIFIC—Ripens earliest of all quinces. Quality unsurpassed and quince itself is very large, of a yellowish color.

ORANGE—This fruit, of a bright golden yellow, is considered one of the best for its quality. Ripens in October.

REA'S MAMMOTH—Like all quinces is a bright yellow; ripens early and its fruit is very large.

AVOID DISAPPOINTMENT—BUY DIRECT FROM OUR NURSERY

Cherries

NAPOLEON BIGARREAU OR ROYAL ANN

PLANT cherry trees for big returns on your investment. The rapidly increasing demand for cherry juice is making cherry orchards more profitable every year. Like the grape, cherries succeed where many other fruits fail. Although cherries thrive on sandy, gravelly loam, they do well in most any good soil and bear annually. Cherries are very prolific, easily grown, and very little pruning is necessary.

Every garden should have a few sweet cherries and some sour varieties. Sour cherries are hardier than sweets, but are of slower growth. Commercially, they are more profitable than sweets. Plant sour varieties 15 ft. apart each way and sweet varieties 20 ft. apart. The following are most desirable varieties in many respects.

PRICES OF ALL VARIETIES OF SWEET CHERRY TREES

Grade	Age	Height	Each	Per 10	Per 100
XXX	2 year	6 to 7 ft.	\$1.00	\$ 9.00	\$70.00
XX	2 year	5 to 6 ft.	.80	7.00	50.00
X	2 year	4 to 5 ft.	.60	5.00	40.00

PARCEL POST SIZE—First-class, 3 ft. trees, well rooted, can be sent by Parcel Post for 35 cents each, postpaid.

Sweet Cherries

BLACK TARTARIAN—Is widely known as the favorite dooryard and roadside sweet cherry. It has a very sweet, rich flavor and is earlier than most sweet cherries, bearing in June. Excellent quality.

GOVERNOR WOOD—Heart shaped and large. Light yellow and red. Tasty and sweet. We highly recommend this variety on account of its earliness, beautiful appearance and delicious flavor. Tree is a strong grower. Last of June.

LAMBERT—Among the best in quality, deep red in color. Flesh firm and rich. Especially successful

in the Pacific Northwest. The tree is rugged, a strong grower and bears abundantly. Well worth growing wherever sweet cherries can be grown.

NAPOLEON BIGARREAU—Leads in the firm fleshed sweet cherries. It takes its place by virtue of its large size, handsome appearance and high quality of the fruit. The flavor is rich and sweet, which with the abundant juice and firm, cracking flesh, makes this a most delicious and refreshing cherry for dessert. Tree is an upright grower and a heavy bearer, recommended generally for commercial purposes. June.

Sweet Cherries—Continued

SCHMIDT'S BIGARREAU—Holds a high place as a money-maker; large size, unsurpassed in this respect by any other black cherry in this region. Its round, plump form and glossy black color which tempt the eye; crisp, firm, juicy flesh and sweet rich flavor, dark ruby red color under the skin, makes it as pleasing inwardly as outwardly. Ripens in early July.

WINDSOR—The leading late sweet variety and one of the most profitable of the hard fleshed cherries. Both fruit and trees deserve the approbation of cherry growers. In color the cherries meet the market demand, buyers preferring a dark color sweet cherry. This variety stands well for shipping. July.

Sour Cherries

EARLY RICHMOND—Has long been the leading sour cherry of its season, the first of its kind in the markets. It is a very good culinary fruit and when well ripened may be eaten out of the hand. It is very vigorous, healthy and fruitful. Early Richmond is indispensable in every home and commercial orchard for an early cherry maturing in July.

ENGLISH MORELLO—Is the best of all its group and is the standard late sour cherry in North America. The fruit is handsome in appearance, bears harvesting and shipping well. Excellent for culinary purposes. Ripens in August.

MONTMORENCY—The most popular sour cherry grown in North America. Its supremacy is un-

BLACK TARTARIAN

questioned. It leads in the demand for this fruit in the markets, for the cannery and for home use as a culinary cherry. Cannot be surpassed by any other sour cherry for vigor, health and productiveness. Less susceptible to brown rot than any other variety, because of its firm flesh and thick skin. It stands shipping well. Best money maker in the cherry orchard. Fruit is beautiful, large, red, acid. Last of June.

PRICES OF ALL VARIETIES OF SOUR CHERRY TREES

Grade	Age	Height	Each	Per 10	Per 100
XXX	2 year	5 to 6 ft.	\$.80	\$ 7.00	\$60.00

1 Stark Apple	1 Elberta Peach	3 Niagara Grape Vine
1 Bartlett Pear	1 Gov. Wood Cherry	3 St. Regis Raspberry
1 Reine Claude Plum	3 Concord Grape Vine	3 Columbian Raspberry

Plant this group and have fresh fruit for the whole year from your own garden

Apricots

THE apricot has a distinct flavor and is one of the best of market fruits. The trees bear young and most profusely, and it is a most welcome fruit, ripening between the cherry and the peach, which explains the reason for its great demand and high price. Like the peach in appearance but resembles the plum in quality and texture. For drying and canning it has no superior. Note our special price.

PRICES OF APRICOT TREES

Grade	Age	Height	Each	Per 10	Per 100
XXX	2 year	4 to 5 ft.	\$.75	\$ 7.00	\$60.00
XX	2 year	3 to 4 ft.	.65	6.00	50.00

PARCEL POST SIZE—First class, 2 to 3 ft. trees, well rooted, can be sent by Parcel Post for 35 cents, postpaid.

J. L. BUDD—Ripening in August; is a very vigorous grower and profuse bearer. Fruit large, white with red cheek; sweet, juicy. The best variety.

EARLY MOORPARK—Is a deep orange or brownish-red; flesh firm and juicy; ripens in early August.

Grape Vines

NIAGARA
GRAPE

THE grape is another plant whose future, from a money making standpoint, cannot be fully estimated. The increase in the domestic production of beverages from the grape juice has already created a demand far in excess of the supply. Therefore, for commercial reasons alone, grape vines are a very lucrative investment. Besides, there is scarcely a yard so small in the city or country that from one to a dozen grape vines cannot be grown. They will grow in almost any unused corner of your property, can be trained over arbors, and they do admirably well along a wall to cover unsightly places or along garden fences, furnishing an abundance of the healthiest fruit. A crop of grapes is just as reliable as a corn crop and as staple on the market as wheat. When a vineyard is once established it will be productive for a life time with ordinary care, and the income from it can be counted on with as much certainty as the changing of seasons. A few dollars invested will "grow into money" without any further expenditure. Plant grapes 8 feet apart each way.

AGAWAM—Red in color; skin thick and berries large. Ripens early and is very vigorous. Late September.

BRIGHTON—This is an almost seedless variety of good quality; clusters are exceptionally large and almost seedless; vines are hardy. Middle of September.

CAMPBELL'S EARLY—One of the best of the early varieties; a comparatively new grape; especially successful for market purposes; flavor rich and sweet; clusters are large and handsome, black with light purple bloom; vine strong and vigorous grower.

CATAWBA—A good, long-lived market variety; much in demand for wine and champagne; large berries, copper-red and purplish. Requires a long season. Excellent keeper. Late September.

PRICES OF ALL VARIETIES OF GRAPE VINES Except Concord and Caco

	Each	Per 10	Per 100
Strong 2 year No. 1, extra size	\$.30	\$2.50	\$20.00

SPECIAL GRAPE VINE COLLECTION, NO. 180

5 Extra strong 2 yr., well rooted vines for **\$1.00**

2 NIAGARA

2 CONCORD

1 CATAWBA

Grape Vines—Continued

CONCORD—Leading commercial grape. It can be produced cheaper than any other grape on the market, owing to its adaptability to any soil and its high degree of fruitfulness. Exceptionally hardy and healthy. Grape Juice is made almost entirely of Concord. Bunches, large and compact, berries large, glossy black with a rich bloom; good quality. Very reliable and profitable. Requires long season.

DELAWARE—Small bunches and small berries; juicy and sweet, a highly satisfactory table grape; skin is thin. Vine grows freely and is perfectly hardy.

MOORE'S DIAMOND—Leading early white grape with yellowish tinge; bunches large, very few seeds juicy and free from pulp. Vine vigorous in growth, bears early September.

MOORE'S EARLY—A large, purplish-black berry; sweet and of good quality, ripening about ten days earlier than Concord. Vine vigorous and hardy.

NIAGARA—A leader among the white varieties; a highly profitable market grape; both the berry and bunch are large, greenish-white tinted with pale yellow when ripe. Skin is thin, but tough; plant is hardy and a good yielder.

SALEM—Coppery red berries, large; flesh juicy and of fine quality. Very productive. Ripens in September.

THE NEW CACO—Red; has a most delicious flavor of the highest quality. Cross between Concord and Catawba. The vines are very strong growers, hardy, healthy and prolific. Ripens early.

WORDEN—Bunches large and almost black when fully ripe; berries large and thin skinned; juicy and highly flavored; about ten days ahead of Concord.

1 Yr. No. 1 Vines, 1000 for \$50.00

Strictly first class, well rooted vines

Currant Bushes

Due to a Federal Quarantine, Currants or Gooseberries cannot be shipped into the following States: Arizona, California, Colorado, District of Columbia, Delaware, Georgia, Idaho, Kansas, Maine, Maryland, Massachusetts, Nevada, New Hampshire, New Mexico, North Carolina, Rhode Island, South Carolina, South Dakota, Tennessee, West Virginia, Washington, Wyoming, and Canada.

PRICES OF CURRANT BUSHES, ALL VARIETIES, EXCEPT PERFECTION

2 yr. No. 1 Plants: 10 for \$1.50; 100 for \$10.00; 1000 for \$75.00.

CHERRY—This is a standard variety of red currant; of good quality and medium season. Fruit is very large and has a good market value.

RED CROSS—This is a strong growing, medium season variety; clusters are long and of medium size; berries are large in size. Probably the sweetest of all varieties.

PERFECTION—In color it is a beautiful bright red, a size larger than the Fay. Clusters average longer and the size of berries is maintained to the end of the bunch. It is one of the most productive currants we have ever known; quality is superior to any-

thing in the market. Price of the Perfection is as follows: Each, 40c; per 10, \$3.50; per 100, \$30.00.

FAY'S PROLIFIC—This ranks among the most popular of the red currants. As its name indicates, it is very productive and hardy. The fruit itself is of excellent quality. Fruit is easy to pick.

WHITE GRAPE—Medium season variety. Very best quality of the white variety, immensely productive and commercially successful.

WILDER—It is one of the strongest growers and very productive. Bright, attractive red color and hangs on bushes longer than any other variety.

Blackberries

BLACKBERRIES will yield as high as 4000 quarts per acre, if thoroughly cultivated, and the fruit will sell right out of the field. Planted between the rows of young trees, they will not only pay for themselves, but pay for the trees as well. A liberal use of berries and other good fruits will save doctor's bills. Will do well on land where other fruit could not succeed.

Price, per 10, \$1.35; per 25, \$2.00; per 100, \$5.50; per 1000, \$45.00.

BLOWERS—"The giant of all blackberries." An upright, mammoth grower; very hardy and enormously productive. A single plant produced over 2000 berries. It commences to ripen about the middle of July and bears about two months.

EARLY HARVEST—A variety of great promise, being exceedingly early in time of ripening and always reliable. An enormous bearer. Berries sweet and of the highest quality.

ERIE—Ripens earlier than any other sorts. A strong grower and great bearer, producing larger, sweeter berries.

ELDORADO—A strong growing, hardy type. Berries are large and exceptionally black. Sweet and well flavored and almost entirely free from hard core. Keep well after picking.

RATHBUN—A sweet, luscious, high flavor fruit; very large with small seeds. Plant strong and erect. This variety carries well to market.

SNYDER—Medium size. Plants hardy, healthy and vigorous. This blackberry bears well and is considered a profitable berry.

Strawberries

FOR the home garden or for commercial planting, Strawberries come first among small fruits. If planted for home use, a very small bed will yield a large amount of berries. Commercially, they rank among the highest money-makers. Strawberries are the fruit for big profits on small space. Plants should be kept moist until ready to plant. Our plants are taken from young beds, fresh dug before shipment; plants are well rooted. Buy strawberry plants now and start growing one of the best and most profitable crops to be grown.

Planted very successfully between rows of trees, as they will bring good money until such time as the orchard bears well. The following varieties are perfect flowering and do not require any certain variety planted near them to make them productive. You will not go wrong in planting the varieties we catalog. For home gardens plant 1 ft. apart in rows 2 ft. apart; for field culture, plant 1 ft. apart in rows 4 ft. apart.

Price, per 25, \$1.00; per 100, \$2.00; per 1000, \$12.00 (Except Everbearing).

BIG JOE—Berries are large, brilliantly red, exceptionally fine in appearance, therefore have a good market value. Very good shipper, equally good in quality. Ranks with the best in productivity. Perfect.

BRANDYWINE—Mid-season; produces large, bright crimson berries of high quality. Succeeds best on deep, rich soil. Perfect.

EVERBEARING (Fall Bearing)—Yield fruit continuously from May or June until frost. Have only recently become popular and commercially estab-

lished. We offer the two best of this class and heartily recommend them. They are practical croppers, and coming out of ordinary season, bring very profitable prices for market. **CAUTION:** To obtain the largest size and finest quality of fruit in the fall, keep flowers picked off until about the first of August. Varieties, Superb and Progressive. Price, 10 for \$1.00; 25 for \$1.85; 100 for \$3.00.

GIBSON—Begins to ripen early and continues to produce until late; berries extra large and vines are generally well filled. It is a strong grower, withstanding adverse weather well. Perfect.

GLEN MARY—Still retains its popularity because of its tremendous productivity. It is without doubt one of the most satisfactory varieties to grow. Perfect.

GANDY—Handsome deep red, firm fruit of good quality and late season, reaching the market at the very close of the season. It is a splendid fruit for canning or culinary purposes. In character of growth it is unsurpassed in foliage by any other variety. A very profitable market sort. Perfect.

SENATOR DUNLAP—A fruit of real merit and well thought of by careful buyers. Large, regular and attractive; dark red in color. Ripens early and can be counted on to bear nearly a month. Perfect.

TANGY IN FLAVOR AND HIGHLY PROFITABLE

Strawberries can be sent by Parcel Post

Raspberries

OUR raspberries have been inspected by the Department of Agriculture, State of New York, and found to be free from injurious diseases, infecting the raspberry, commonly known as Mosaic, leaf-curl and rosette (or Eastern blue stem). Raspberries succeed best in a rich, mellow soil. They should be planted four feet apart in rows five or six feet apart. They are easily cultivated, only requiring manuring and cutting out of dead wood and suckers. Old canes should be removed after bearing season is over. If the location is much exposed, plants may be protected from severe cold by raising the earth between the hills into a bank or mound. Then bend down the plants to meet, fasten them and cover them with earth or coarse litter. In the spring uncover and tie to stakes.

PRICES OF RASPBERRY BUSHES

No. 1 Plants: 10 for \$1.10; 25 for \$1.25; 100 for \$4.00; 1000 for \$30.00.

Red Raspberries

CUTHBERT (Queen of the Market)—A remarkably strong, hardy variety; stands the northern winters and the southern summers better than any other variety. Berries very large, conical, rich crimson, very handsome, and so firm, that they can be shipped anywhere successfully; the flavor is sweet, rich and luscious. Season medium to late.

KING—A bright crimson, moderately firm and of excellent quality. This is the earliest red raspberry.

ST. REGIS—This everbearing red raspberry bears the first season. One of the greatest ever introduced. Plants of the St. Regis put out in the fall or early April gave ripe berries on the 20th of June. For four weeks thereafter the yield was heavy. The St. Regis is the only Raspberry, as far as known, that is practically sure to produce a crop of fruit the season planted.

Purple Raspberries

COLUMBIAN—For canning purposes it is undoubtedly the best raspberry in cultivation, yielding as high as 8000 quarts per acre. Perfectly hardy and grown largely for evaporating. Fruit is firm and adheres to the bush well; very large, reddish purple, juicy and delicious; wonderfully prolific. Should be planted 2 ft. further apart than any other variety.

ST. REGIS (Red)

Black Raspberries

CUMBERLAND—An early season, high quality berry; largest of all the black raspberries; possesses shipping qualities as good as any; a good variety for the market.

GREGG—Large black raspberry of good quality. A hardy vigorous grower and prolific bearer.

PLUM FARMER—Hardy grower, good for all berry sections. Thick meated with a dark and brilliant bloom. Ripens early and commands a big price.

Gooseberries

THE interest in and demand for this fruit is constantly growing. It is cultivated more and more extensively both for home use and market. Good plants should produce 200 bushels per acre the third year after planting; 300 to 400 bushels the fifth year.

CHAUTAUQUA—Very sweet and highly flavored. Has a thick skin and fruit is large and smooth. Quality is excellent. 2 year old bushes 50c each; 10 for \$4.50; 100 for \$40.00.

DOWNING—Large, handsome, pale green gooseberry of splendid quality. Soft and juicy; excellent for family use and profitable for market. 35c each; 10 for \$3.00; 100 for \$25.00.

HOUGHTON—A very productive, hardy berry of pale red; sweet and juicy. A vigorous grower and abundant bearer. 2 year old bushes, 30c each; 10 for \$2.50; 100 for \$22.50.

JOSSELYN (Red Jacket)—An American seedling of large size, prolific and hardy; of best quality. Vigorous grower and productive. 2 year old bushes, 50c each; 10 for \$4.50; 100 for \$40.00.

Due to a Federal Quarantine, Currants or Gooseberries cannot be shipped into the following States: Arizona, California, Colorado, District of Columbia, Delaware, Georgia, Idaho, Kansas, Maine, Maryland, Massachusetts, Nevada, New Hampshire, New Mexico, North Carolina, Rhode Island, South Carolina, South Dakota, Tennessee, West Virginia, Washington, Wyoming and Canada.

Asparagus

THE earliest and finest of spring vegetables, very profitable, rich and delicious flavor; very healthy. A bed once planted suffers no deterioration for thirty years or more, if it is properly attended to and well manured. Every home garden should have a patch of Asparagus.

PRICES 2 YEAR OLD STRONG PLANTS

Per 25, \$1.25; per 100, \$3.00; per 1000, \$16.00.

PALMETTO—An early and great yielder, and very regular and even in its growth. Has been tested both North and South and has proved entirely successful in every instance. Particularly delicious in flavor.

WASHINGTON—Newest variety. Rust proof. Every farmer should set one-half to one acre; pays big; easily kept and brings in money early in season.

CONOVER'S COLOSSAL—This is the standard of high quality; can be recommended without hesitation. Remarkable tender and fine flavored.

GIANT ARGENTEUIL—This is one of the earliest, one of the heaviest producers and one of the largest in stalk. Makes an excellent appearance and has exceptionally good market value.

CONOVER'S COLOSSAL ASPARAGUS

10 % Discount on Cash Orders Received before March 1st
6 % Discount on Cash Orders Received before April 1st
3 % Discount on Cash Orders Received after April 1st
Orders shipped C.O.D. but no discount allowed.

Rhubarb

FOR family or market. Earliest available material in the spring for pies and sauce. Its health-giving qualities make it very beneficial as a spring tonic. Should be in every home garden.

PRICES 2-YEAR STRONG ROOTS

Each, 20c; per 10, \$1.85; per 25, \$3.50; per 100, \$12.00; per 1000, \$100.00.

MYATT'S LINNAEUS—Early, tender and very large. Known as the sweetest pie plant.

VICTORIA—Remarkably productive variety, stock strong, thrifty and tender.

Horseradish

Will stand a great deal of hardship and exist in same soil year after year.

Price, per 10, 85c; per 25, \$2.00; per 50, \$3.25; per 100, \$5.00.

Gentlemen:

The Spirea Van Houtte bushes and Hydrangeas P. G. we received from you are worthy of much praise. We were more than pleased and as we are using them in foundation planting around our new porch, know they will add greatly to the attractiveness of our place.

*Yours very truly,
Harold J. Johanssen.*

MYATT'S LINNAEUS

Ornamental Hedges

HEDGES, often called "live-fences," beautify as they serve. Grown high, they form wind-breaks and perfect seclusion, and unlike fences, never have to be replaced; grown thick, they outline in an artistic manner all or a portion of one's private domain, screen the vegetable garden and form a magnificent background for Shrubs, Rose or Per-

ennial beds, and make an admirable setting for an attractive home.

Hedges are ideal when neatly trimmed for outlining lawn and formal gardens and imply a privacy that cannot be overlooked. For a 2 to 3 ft. hedge we suggest the Japanese Barberry; 3 to 4 ft., the Privets; 4 to 6 ft. high, flowering Shrubs; 6 to 8 ft. high, Japan Quince, Am. Arbor Vitae and Norway Spruce.

Barberry trimmed like insert makes a decorative foundation planting or untrimmed like illustration a pleasing hedge.

SPECIAL OFFER No. 230

Fifty-Foot Barberry Hedge, \$6.35—50 Japan Barberry (Thunbergii) 12-18 in.

(Regular Catalogue Price \$7.50)

These twice transplanted, fine little Barberry hedge plants will make a charming hedge for a fifty-foot front if planted a foot apart. Some planters set them one and half feet apart, making a hedge half again as long. Carefully packed and delivered in first-class condition.

BARBERRY THUNBERGII (Japan Barberry)—

A dwarf grower of thick, compact habit, graceful drooping branches, stands pruning well. Its brilliant red fruit clings through most of the winter. Leaves light green changing to a beautiful copper red in the fall. Also valuable for foundation planting, facing taller shrubbery or for planting singly on the lawn. Perfectly hardy. Prices: 1 to 1½ ft., 25c each; \$2.00 per 10; \$4.50 per 25; \$15.00 per 100. 1½ to 2 ft., 35c each; \$3.00 per 10; \$6.50 per 25; \$22.50 per 100. 2 to 3 ft., 50c each; \$4.50 per 10; \$10 per 25; \$35 per 100.

HONEY LOCUST—A fast growing native with powerful spines and delicate foliage. Very useful as a defensive hedge plant. Prices: 1½-2 feet, \$1.00 per 10, \$7.50 per 100, \$55.00 per 1000.

JAPAN QUINCE—Glossy, dark foliage with reddish tints. Large, deep, scarlet flowers in profusion in early spring. Prices: 1½ to 2 ft., 50c each; \$4.00 per 10; \$35.00 per 100. 2-3 ft., 70c each; \$6.00 per 10; \$50.00 per 100.

PRIVET, IBOTA—A beautiful Japanese shrub, spreading and tall growing, very hardy. Fragrant white flowers followed by blue-black berries. Prices: 1½ to 2 ft., 20c each; \$1.50 per 10; \$10.00 per 100. 2-3 ft., 25c each; \$2.00 per 10; \$13.50 per 100.

PRIVET, AMOOR RIVER NORTH—Very similar to California Privet, but much hardier. Will stand the coldest winters. Prices: 1 to 1½ ft., \$1.00 per 10; \$8.00 per 100. 1½ to 2 ft., \$1.50 per 10; \$10.00 per 100. 2-3 ft., \$1.75 per 10; \$13.50 per 100.

PRIVET LODENSE (L. Nanum Compactum)—

This is a new, dwarf and distinct form of privet of extremely compact and low growing habit. The foliage is rich, dark green and of extreme hardiness. It is particularly useful for low hedges and borders, as it stands shearing very well. Prices: 10-15 inch, 35c each, \$3.00 per 10, \$25.00 per 100.

PRIVET, CALIFORNIA—The best of all hardy hedge plants and is easily kept at any height desired. Has no thorns, does not sucker from the roots and is not objectionable in any way. A universal favorite. Prices: 1 to 1½ ft., \$1.00 per 10; \$7.50 per 100; \$40.00 per 1000. 1½ to 2 ft., \$1.35 per 10; \$7.00 per 100; \$50.00 per 1000. 2 to 3 ft., \$1.75 per 10; \$10.00 per 100; \$60.00 per 1000. 3 to 4 ft., \$2.00 per 10; \$15.00 per 100; \$75.00 per 1000.

For Flowering Hedges use Spirea Van Houttei, Hydrangea, Althea or Lilacs.

Shade and Ornamental Trees

BY all means plant shade trees. They are effective ornamentally from the time they are set out and soon their spreading growth will create a sheltered environment for the home that will be a pride and joy with the passing years. Contrast the heat and glare of downtown streets on a hot summer day with the inviting coolness and beauty of a well shaded residential avenue. Shade trees make the difference and the nominal outlay for planting is returned a hundredfold in greater property value and the enjoyment of pleasant surroundings.

AILANTHUS (Tree of Heaven)—A native of Japan. A rapid growing tree with feathery, tropical foliage. Will thrive in poor soil. Excellent for city planting. Price: 5-6 ft., \$1.50 each.

BIRCH, CUT-LEAVED WEEPING—This noble tree is not only the most popular of the weeping trees, but it is indeed a picture of delicacy and grace. Its tall, slender yet vigorous growth, graceful branches, silvery white bark and delicately cut foliage present a combination of attractive characteristics rarely met with in a single tree. Prices: 3-4 ft., \$2.00 each; 4-5 ft., \$2.50 each.

CATALPA SPECIOSA—A highly desirable tropical appearing tree with large, fragrant, purple and white flowers. Flowers abundantly in June. Prices: 5-6 ft., 60c each, \$5.00 per 10; 6-7 ft., 75c each, \$6.00 per 10.

CRAB, BECHTEL'S DOUBLE FLOWERING—A medium size, ornamental tree of great beauty, covered in early spring with double pink fragrant flowers that look like roses at a distance. Price: 3-4 ft., \$1.50 each; 4-5 feet, \$1.75 each.

BECHTEL'S DOUBLE-FLOWERING CRAB

CATALPA BUNGEI (Umbrella Tree).—

Grafted on stems 4 to 7 ft. high it makes an umbrella shaped top without pruning; perfectly hardy and flourishes in almost all soils and climates. Leaves large, glossy, heart-shaped, deep green; always making a symmetrical head. A very unique tree. Very desirable for formal effects, or for lawn, park and cemetery planting. Attractive in pairs along driveway. Prices: 4-5 ft., \$1.50 each, \$12.50 per 10; 5-6 ft., \$1.75 each, \$15.00 per 10; 6-7 ft., \$2.00 each, \$17.50 per 10. (See color cut on inside back cover.)

ELM, AMERICAN—One of the noblest and most picturesque of American trees. Easily distinguished by its wide arching top, vase like form and pendulous branches. Used extensively for street planting, forming perfect Gothic arches over the streets. A rapid and vigorous grower. Prices: 6 to 8 ft., \$1.00 each, \$8.50 per 10; 8 to 10 ft., \$1.50 each, \$12.50 per 10; 10 to 12 ft., \$2.50 each, \$20.00 per 10; 12 to 14 ft., \$3.50 each, \$32.50 per 10.

ELM, CAMPERDOWN WEEPING—One of the most picturesque of the weeping trees. Usually grafted high, the top spreads outward and downward. Leaves are large, dark green and very dense. Very popular for the lawn. Price \$3.00 each.

HORSE CHESTNUT (White Flowering). A well known variety. Its magnificent spikes of white flowers make it very attractive. Fine for street planting. Price: 4-5 ft., \$1.65 each; 5-6 ft., \$1.80 each.

JAPANESE WEEPING CHERRY (Subhirtella Pendula)—One of the most beautiful and distinctive weeping trees. Has slender pendulous branches hanging nearly to the ground. In early May before the leaves appear, the branches are covered with showy, single flowers, rose-pink in bud, pale-pink when fully opened, forming a veritable cascade of pink. On a green lawn with a blue sky overhead, this tree is a feast of beauty. Grows to a height of 6 to 10 ft. Price 1 year heads, \$5.00 each.

LINDEN AMERICAN or Basswood—A stately rapid growing tree with large showy leaves and fragrant flowers. Very desirable on account of its fine, luxuriant foliage. Valuable for its beautiful white wood. Prices: 5-6 ft., \$1.50 each; 6-8 ft., \$2.00 each.

LINDEN EUROPEAN—Pyramidal in form. Its abundant foliage forms a dense shade. Flowers fragrant. Valuable for street and lawn planting. Prices: 5-6 ft., \$1.50 each; 6-8 ft., \$2.00 each.

MAPLE, ASH-LEAF or Box Elder—A fine, rapid growing variety with handsome light green foliage and spreading head; very hardy, desirable for street planting and succeeds in many places where other varieties do not thrive. Prices: 6-8 ft., 75c each, \$6.00 per 10; 8-10 ft., \$1.00 each, \$8.00 per 10; 10-12 ft., \$1.25 each, \$10.00 per 10.

Shade and Ornamental Trees—Continued

MAPLE, NORWAY—Most beautiful shade tree.

Perfect in form; free from disease. Sturdy, compact and vigorous grower, forming a rounded head of stout branches of clean, broad, deep green foliage. Perfectly hardy. Excellent for street planting or for shade on lawn. Prices: 6-8 ft., \$2.25 each, \$20.00 per 10; 8-10 ft., \$3.00 each, \$27.50 per 10; 10-12 ft., \$4.00 each, \$37.50 per 10.

MAPLE, SILVER-LEAF—If a quick growing tree for immediate shade is desired, we recommend the Silver-Leaf Maple. Forms a large, spreading head; foliage bright green above, and silvery beneath. Excellent for street planting. Prices: 6-8 ft., 85c each, \$7.50 per 10, \$60 per 100; 8-10 ft., \$1.25 each, \$10 per 10, \$80 per 100; 10-12 ft., \$1.50 each, \$12.50 per 10, \$100 per 100.

MAPLE, SUGAR or ROCK—A magnificent well proportioned and long-lived tree, producing maple sugar. Its stately form and vigorous growth make it a desirable ornamental tree. Prices: 6-8 ft., \$2.50 each, \$22.50 per 10; 8-10 ft., \$3 each, \$27.50 per 10.

MAPLE, WIER'S CUT-LEAVED—A beautiful variety with delicately cut leaves and graceful, drooping branches. Vigorous grower. While it makes a large tree if undisturbed, it will bear any amount of pruning and may be easily adapted to small lawns. Price: 6-8 ft., \$1.75 each, \$15.00 per 10.

MOUNTAIN ASH—A favorite, erect growing lawn tree of medium size, producing white flowers early in the spring followed by clusters of bright red berries which remain on the tree through the winter months. Price: 5-6 ft., \$1.50 each.

MULBERRY, DOWNING—The beauty of this as a street or lawn tree is quite enough to commend it, in addition yields an abundant supply of large berries for about three months. Price: 5-6 ft., \$1.25 each, \$11.00 per 10.

MULBERRY, RUSSIAN—A hardy, rapid growing tree. Foliage abundant; valuable for windbreak. Fruit black and medium size. Price: 5-6 ft., 75c each, \$6.50 per 10.

MULBERRY, TEA'S WEEPING—The most graceful and hardy weeping tree in existence. Wholly unlike anything heretofore introduced. Forms perfect umbrella-shaped head with long slender willowy branches, droop-

ing to the ground. All who have seen it agree that in light, airy gracefulness, delicacy of form and motion, it is without a rival. One of the foremost among the weeping trees; has beautiful foliage and is wonderfully vigorous and healthy. Safe and easy to transplant. Admirably adapted for ornamenting large or small grounds and also for park and cemetery planting. Price: 2 year old heads, \$2.75 each; \$25.00 per 10.

OAK, ENGLISH—A spreading long-lived tree, with dark green leaves. The Royal Oak of England. Well adapted for lawn and public grounds. Prices: 4-5 ft., \$1.50 each; 5-6 ft., \$2.00 each.

OAK, SCARLET—Valuable for its brilliant fall coloring. Its showy leathery leaves turn to a bright scarlet in autumn. Rapid, strong grower. Perfectly hardy. Pyramidal in form. A good street tree. Price: 6-8 ft., \$2.50 each.

ORIENTAL PLANE—Very popular for street growing. A rapid, upright, clean grower and long lived; beautiful, dense foliage. It is not affected by the air of cities or by insects. The bark peels off the trunk and branches in autumn, leaving the whole tree of a creamy white color all through the winter. Price: 6-8 ft., \$2.00 each; \$18.00 per 10.

PURPLE LEAVED PLUM (Prunus Pissardi)—The smallest purple leaved small shrub of recent introduction. The young branches are a very dark purple. Leaves when young are a lustrous crimson, changing to dark purple, and retain this beautiful tint until they drop late in the autumn; no other purple-leaved tree or shrub retains its color like this. Flowers small, white, single, covering the tree. Price: 3-4 ft., 75c each; 4-6 ft., 85c each.

PRUNUS TRILOBA (Double-flowered plum)—A charming shrub of vigorous growth. Very early in Spring, before its leaves appear, the whole tree is decked in a fleecy cloud of very double, light-pink blossoms. Its effect on a still, leafless landscape is very bright. Blooms in May. Price: 3-4 ft., \$1.00 each; \$8.50 per 10.

POPLAR, CAROLINA—A remarkably rapid, luxuriant grower. Very large leaves, very glossy, deep green. Will grow in any kind of soil. For a quick-growing shade tree there is none that equals the Carolina Poplar. Also useful for planting as a screen to hide unsightly buildings or as a windbreak for

NORWAY MAPLE

AMERICAN ELM

AMERICAN LINDEN

SUITABLE TREES FOR STREET PLANTING

Shade and Ornamental Trees—Continued

orchard or garden plot. Prices: 6-8 ft., 50c each, \$4.00 per 10, \$40.00 per 100; 8-10 ft., 75c each, \$6.00 per 10, \$50.00 per 100; 10-12 ft., 85c each, \$7.50 per 10, \$60.00 per 100.

POPLAR, LOMBARDY—Well known for its erect, rapid growth and spike-like form; used for screens and formal plantings. Prices: 6-8 ft., 85c each, \$7.00 per 10, \$55.00 per 100; 8-10 ft., \$1.00 each, \$8.00 per 10, \$65.00 per 100.

THORN, PAUL'S DOUBLE SCARLET—Flowers bright carmine red. Superior to any of its color. Very fine for small grounds. Fruit very ornamental. Will thrive in any soil. Price: 3-4 ft., \$2.25 each.

TULIP TREE (Whitewood)—A grand native tree of tall pyramidal habit, with broad, glossy, fiddle-shaped leaves and beautiful tulip-like flowers. Price: 5-6 ft., \$1.50 each.

WILLOW, BABYLONICA—Our common, well known weeping variety, with branches of olive green color, forms a large round-headed, graceful tree; requires plenty of room and where space can be spared is very desirable. Attractive near water. Price: 6-8 ft., \$1.25 each.

WILLOW, GOLDEN—For winter effect the Golden Willow is unsurpassed. Its yellow branches very conspicuous; light green leaves. Price: 6-8 ft., 85c each; \$7.50 per 10.

WILLOW, KILMARNOCK—A distinct variety, having reddish shoots and large, glossy foliage. Grafted at a proper height, about five feet from the ground, it makes a very desirable small lawn tree, having a perfect umbrella-shaped head with the branches drooping gracefully to the ground. Price: \$3.00 each.

WHITE FLOWERING DOGWOOD (Cornus Florida)—One of the most valuable dwarf Ornamental trees. Has beautiful double white flowers 3 to 3½ inches in diameter about the middle of May, before the leaves appear, making it a very conspicuous tree in any planting. Grows to a height of fifteen to twenty-five feet. Flowers are abundant; foliage dark green, changing to a gorgeous red in the Autumn. Fruits following the blossoms are a brilliant red in the Fall and hang well into Winter. The tree is spreading in habit. A beautiful tree for the lawn; a good tree with which to line driveways in large estates but too small for a street tree. Price 3 to 4 ft. specimens for \$1.75 each.

Trees for Street Planting and Lawns

For City Street and Avenue—Sugar Maple, Norway Maple, American Elm, American Ash, Pin Oak, Red Oak, American Linden, Oriental Plane.

Quick-growing Street Trees—Silver Maple, Ash-leaved Maple, Poplar, Carolina Poplar, Lombardy Poplar.

Best Lawn Trees—Norway Maple, European White Birch, Cut-leaved Weeping Birch, Catalpa Speciosa, Tulip Tree, European Mt. Ash, the Oaks, Lindens.

Nut Trees

Plant your waste land to nut trees. Will thrive where other stock fails. The wood is exceedingly valuable and the nuts are always in demand.

BLACK WALNUT—The common well known variety, the wood of which is most beautiful and valuable. Very productive in nuts. Price: 6-8 ft., \$1.25 each.

BUTTERNUT—A fine native, rapid growing, lofty-spreading tree. Unique tropical appearance. Valuable for its beautiful wood and large crops of nutritious nuts, prized for their home use and big demand by confectioners and bakers. Bears early. Price: 4-5 ft., \$1.00 each.

AMERICAN SWEET CHESTNUT—A native of the Atlantic Coast States but is widely planted in the North Western States with success. Valuable as a nut producing tree, timber and ornamental purposes. The most popular variety of chestnut. Price: 4-5 ft., \$1.25 each.

ENGLISH WALNUT—One of the largest, most delicious meaty nuts, always in demand at a good price. Can generally be grown in any climate where peaches are grown. Price: 3-4 ft., \$1.50 each.

JAPAN WALNUT—Perfectly hardy; a rapid grower, handsome leaves, bears young and abundantly. One of the finest ornamental trees. Nuts produced in clusters, the shell a little thicker than the English Walnut. Worthy of extensive planting. Prices: 3-4 ft., \$1.00 each; \$8.50 per 10.

MULBERRY, TEA'S WEEPING

THORN, DOUBLE WHITE—Has small, white flowers. A highly ornamental variety on account of both foliage and flowers. Makes a very striking contrast when planted with double scarlet. Strong trees. Price: 3-4 ft., \$2.00 each.

Evergreens

STRIKINGLY ornamental in either its tall, stately groups or in the dwarf varieties for lawn decoration or landscape work. The smaller varieties when used for foundation planting seem to blend the house and lawn into a pleasing suggestion of permanency and well-being. Tastefully arranged, they unquestionably enhance realty values.

Our Evergreens are carefully grown at good distances for symmetrical development, and are root and top-pruned into shapely specimens. All Evergreens will be carefully dug with a ball of earth tightly burlapped around the roots and will stand transportation and transplanting with little risk of loss. The price of Evergreens depends upon the height and spread. All Evergreens are balled and burlapped.

FINGER LAKES COLLECTION OF 5 EVERGREENS AS ABOVE

OFFER NO. 270

1 American Arbor Vitae 3 ft.
2 Globosa Arbor Vitae 1½ ft.

1 Savin Juniper 2 ft.
1 Pyramidal Arbor Vitae 3 ft.
Our Special Price \$18.00

\$18.00

ARBOR VITAE AMERICAN (White Cedar)—A

well known variety of great value; it forms an upright, conical tree of medium size, stands trimming well and is considered a fine evergreen for screens, being hardy and more easily transplanted; very dense and impervious to the sight. This evergreen will adapt itself to all locations, but does especially well in moist soil. For a compact hedge or screen, plant about 15 inches apart. Price: 1½ to 2 ft., \$1.50 each, \$12.50 per 10; 2 to 3 ft., \$2.00 each, \$17.50 per 10.

ARBOR VITAE PYRAMIDAL—An extremely

compact grower, narrow, pyramidal-shaped evergreen with spray-like foliage. Retains its deep, rich green color all winter. Stands severe shearing and can be kept to any desired height. Requires little space, which makes it desirable for planting near the house in foundation plantings. Plant as a single specimen or in groups of two or three at either side of the entrance or at the corners of a lawn or building. It breaks the sharp outline and the ornamental effect is most pleasing. Price: 1 to 1½ ft., \$2.75 each; 1½ to 2 ft., \$3.50 each; 2 to 3 ft., \$4.50 each.

ARBOR VITAE SIBERIAN—Dwarf-conical shaped

with a broad globe shaped base tapering to a rather blunt point. The foliage is dark green, heavy and deeply crested. Hardy in any climate and will retain its dark green color in any weather. Very desirable for foundation planting as a specimen tree

on lawn or for screens and hedges. Price : 1½-2 feet, \$3.50 each.

ARBOR VITAE GLOBOSA—Without doubt the

best globe-shaped evergreen. Maintains its natural globe-shape without trimming. Especially fine for low borders, for foundation groups, or for tubs. Beautiful green, feathery foliage. Retains its color all winter. Prices: 1½-2 feet, \$4.00 each.

ARBOR VITAE TOM THUMB—Very dwarf and

compact. Very popular for border or foundation planting. Price: 1-1½ feet, \$3.50 each.

BALSAM FIR—A broad, regular pyramidal-shaped

tree. Foliage is sweet scented and dark green above, silvery beneath. Retains its color throughout the severest winters. Rapid grower and very desirable for specimen on lawn, or for foundation planting. Prices: 1½-2 feet, \$3.85 each; 2-3 feet, \$5.00 each.

DOUGLAS FIR—Another well known sort. Up-

right, symmetrical branched tree, branches spreading 12-18 feet in old trees. Will grow 60 feet and more in height. Price: 1½-2 feet, \$3.50 each.

IRISH JUNIPER—A very pretty little tree or shrub,

forming a neat tapering column of deep green foliage. Very hardy and desirable for planting on lawns, foundation groups, or in cemeteries where larger evergreens are not admissible. Prices: 1-1½ feet, \$1.25 each; 1½-2 feet, \$3.50 each; 2-3 ft., \$4.75 each.

THERE IS DIGNITY IN THE EVERGREEN

Evergreens—Continued

PLANTING DIRECTIONS

In planting Evergreens, dig a hole large enough to take in all the roots without crowding and the ball of earth with the burlap cut in strips. Protect from wind while planting and *soak* the roots and ground thoroughly after planting and apply a covering of manure to retain the moisture around the tree. Shade the tree from the hot sun with paper or burlap the first two or three weeks until it has had a chance to start growing. Water well two or three times a week the first season. Evergreens are usually planted about 3 ft. apart each way.

JUNIPER, SAVIN—A low, much-branched very attractive evergreen. Its berries are blackish purple in color, some smooth, some shiny, some glaucous or powdery, about the size of small currants. Does well in smoky atmospheres. Very hardy. Price: 1½-2 feet, \$5.00 each.

JUNIPER VIRGINIANA GLAUCA, Blue Cedar—Aristocrat of the smaller evergreens. A very vigorous growing form, conical in shape, branches upright and dark green foliage. Price: 1½-2 feet, \$5.00 each.

PINE, MUGHO—Dwarf globe-shaped evergreen, compact in growth, with dark green foliage, which is retained throughout the winter. Excellent for planting in front of taller evergreens in foundation plantings, borders, etc. Price: 1-1½ feet, \$5.00 each.

PINE, AUSTRIAN—From Central Europe. Remarkably robust with long, stiff leaves and deep foliage. Hardy everywhere and valuable as windbreaks, screens, etc. Price: 1½-2 feet, \$3.50 each.

RETINOSPORA PLUMOSA AUREA—An exquisite dense growing evergreen of conical form, golden, feathery foliage and exceedingly handsome. Very hardy. Thrives in any good soil. Desirable for grouping, or as a specimen or hedge. Price: 1-1½ ft., \$3.00 each; 1½-2 ft., \$4.00 each; 2-3 ft., \$5.00 each.

SPRUCE, COLORADO BLUE—A magnificent evergreen with an abundance of heavy foliage of a rich glistening blue. Its intense steel-blue foliage makes it desirable for specimen planting on lawn and very striking in group planting. Like an Oak it will thrive anywhere. Prices: 1-1½ feet, \$4.00 each, \$30.00 per 10; 1½-2 feet, \$6.00 each, \$50.00 per 10; 2-3 feet, \$9.00 each, \$80.00 per 10.

SPRUCE, DOUGLAS—From Colorado; large, conical form; spreading, horizontal branches. Leaves bright green above, bluish green tinge beneath. Price: 2-3 ft., \$4.50 each.

SPRUCE, NORWAY—A tall, graceful pyramidal-shaped tree with broad, drooping branches at the base. Foliage deep green, with light brown cones 5 to 7 inches long in the fall. Planted universally for Christmas trees. Excellent for windbreaks on farms or as a screen or hedge. Groups well with other evergreens or can be planted singly. Prices: 1-1½ feet, 85c each, \$7.50 per 10; 1½-2 feet, \$1.35 each, \$12.50 per 10; 2-3 feet, \$2.00 each, \$17.50 per 10.

SPRUCE, BLACK HILLS—Is symmetrical, compact and bushy in growth. The foliage shades from green to a bluish tint, and is remarkable for its bright fresh color. Extremely hardy. Price: 1½-2 feet, \$3.00 each.

Hardy Broad-Leaved Flowering Evergreens

They furnish flowers in Spring and evergreen during the entire year

What could be more pleasing than a few Broad-leaf Rhododendrons planted gracefully around the home grounds?

Rhododendrons

The handsomest broad-leaf Evergreens that grow. Coming into bloom in the early summer, the rich green foliage and magnificent flowers surpass anything in grandeur and distinctiveness. The "Aristocrat" of the home grounds. Every garden enthusiast should grow them.

RHODODENDRON CATAWBA (Catawbiense)—

Very hardy, very handsome, medium-sized, late flowering; large round clusters of rosy lavender flowers; rich, dark green, shiny leaves; constant in winter. Invaluable for border, foundations, garden and shady places. Price, 1½ to 2 ft., \$4.00 each.

RHODODENDRON ROSEBAY (Maximum)—

The white or pink-tinged flowers and late blooming habit makes this variety invaluable for planting in drives, on lawns and for the taller part of foundation groups. Its glossy foliage endures frost. Price: 1½ to 2 ft., \$3.75 each.

RHODODENDRON CAROLINA (Carolinianum)—

Unusually clear pink flowers, and pretty dark green leaves. Perfectly hardy and fine for massing on hillsides and rockeries. Perfect for foundation plantings, paths, gardens and shady places. Price: 1 to 1½ ft., \$3.75 each.

Azaleas

"An Uncommon and Distinctive Shrub"

We wish our friends to become better acquainted with these Evergreen Azaleas. Many a corner in the home grounds that has lost its interest can be brightened up into an attractive, cosy corner, the full color of the flowers and the continual green foliage adding that atmosphere of distinction that is very seldom excelled.

We advise planting a few of these flowering Evergreens because they are very uncommon and so far have not found their way into many American gardens.

AZALEA ARBORESCENS—Very fragrant white flowers with pink stamens, appear in profusion in June, lasting for weeks. The foliage is deep green, and often colors striking shades of red in late autumn. Becomes a spreading clump, 3-6 ft. broad; easy culture. Our specimens are heavily budded. Price: 1½ to 2 ft., \$3.50 each.

AZALEA FLAME (Calendulacea)—

This is certainly the most gay and brilliant-flowering shrub yet known. No more striking landscape effect can be produced than a collection of Flame Azalea in full bloom. The flowers range in color from light sulphur-yellow to deep red. Price: 2-3 ft. specimens, \$4.00 each.

KALMIA LATIFOLIA (Mountain Laurel)—

Kalmia is a favorite medium sized evergreen shrub for drive, path and foundation planting. Perfectly hardy on both wet and dry soils; it endures much shade. Large corymbs of beautiful rose-tinged flowers in June. Price: 1½ to 2 ft., \$4.25 each.

Hardy Flowering Shrubs

A FOUNDATION PLANTING OF SPIREA VAN HOUTTEI AND DEUTZIA GRACILIS
This planting can be duplicated, consisting of 15 Spirea Van Houttei and 15 Deutzia Gracilis, for \$10.00. A wonderfully attractive planting at a low cost.

ALMOND, *Amygdalus*—The flowers are very showy, produced in great abundance and useful for their earliness. Fine plants to use in grouping or for lawns. Prices: 2-3 ft., 75c each, \$6.00 per 10; 3-4 ft., \$1.00 each, \$8.50 per 10.

Double Pink—Small, double pink flowers. May.
Double White—Small, double white flowers. May.

ALTHEA or Rose of Sharon (*Hibiscus*)—The Altheas are free growers and not particular as to soil. Large, bell-shaped flowers of striking colors in August and September, when but few other sorts are in blossom. They attain a height of from six to ten feet.

Double Purple Double Pink
Double Red Double White

Very large and double, with reddish-purple center. Prices: 1½-2 ft., 45c each, \$3.50 per 10; 2-3 ft., 65c each, \$5.00 per 10.

TREE ALTHEAS—Flowers are the same as bush form. Grown on a single stem instead of being branched from ground as bush form. Price: 4-5 ft., \$1.00 each.

BUDDLEIA, Everblooming Butterfly Bush—This shrub, from a young plant set out either in the Spring or Fall, will mature to full size the first year; often attains a height of four feet. It produces long, graceful stems, which terminate in tapering panicles of beautiful lilac-colored flowers that are of miniature size and borne by the hundreds on a flower head which is frequently 10 inches long. A single plant the first season will throw out as many as 50 flower spikes, which increase greatly in number during the succeeding years. The foliage and blooms are exceedingly fragrant and attract butterflies. Very desirable as an individual specimen in the lawn and garden or placed promiscuously in the shrubbery border. Price: 2-3 ft., 50c each, \$4.00 per 10.

BARBERRY, JAPANESE RED LEAVED — A novelty among Hardy Flowering Shrubs. Unlike the Barberry Thunbergii, that fades with the advancing season, the Red Leaved Japanese variety grows more gorgeous throughout the fall with its deepening oriental scarlet of branch, leaf and berry. See illustration on back cover.

It is an unusual shrub that never fails to attract attention. Very effective here and there as a specimen

to set off the green background of shrub border, foundation planting or expanse of lawn. Price: \$1.00 each, \$10.00 per 12, \$75.00 per 100.

CLETHRA ALNIFOLIA, Sweet Pepper Bush—A pretty little shrub that blooms freely for several weeks in summer; very fragrant, white flowers. Price: 2-3 ft., 75c each.

CORNUS ELEGANTISSIMA (Variegated)—One of the finest variegated shrubs; of rapid growth, the leaves are broadly margined with white, while some are entirely white. Price: 2-3 ft., 75c each, \$6.00 per 10.

CORNUS RED BRANCHED—Very conspicuous and ornamental, especially in winter when the bark turns to a blood-red. Price: 2-3 ft., 40c each, \$4.00 per 10.

DEUTZIA CRENATA—A hardy, vigorous shrub, free from disease. Covered with showy double white flowers, tinged with rose, produced in racemes, 4 to 5 inches long. Blooms in June. Price: 2-3 ft., 50c each, \$4.00 per 10.

DEUTZIA GRACILLIS (Dwarf)—Slender, branched variety, dwarf habit and very early flowering. Flowers pure white. Prices: 1-1½ ft., 50c each, \$4.00 per 10; 1½-2 ft., 65c each, \$5.00 per 10.

DEUTZIA LEMOINE—Flowers pure white, borne in profusion on stout branches which are of upright growth. Habit dwarf and free-flowering. Prices: 1-1½ ft., 50c each, \$3.50 per 10; 1½-2 ft., 65c each, \$5.00 per 10; 2-3 ft., 75c each, \$6.50 per 10.

DEUTZIA, PRIDE OF ROCHESTER—Produces large, double white flowers in June. The best of the Deutzias; very vigorous growth; profuse bloomer. Prices: 1½-2 ft., 35c each, \$3.00 per 10; 2-3 ft., 50c each, \$4.00 per 10.

ELDER, GOLDEN (*Sambucus*)—Leaves bright green when they first appear, but if planted where they will get the sun, they change to a golden green. Best effect is had when planted with other shrubs, when the foliage will appear more conspicuous. Price: 2-3 ft., 65c each, \$5.00 per 10.

ELEAGNUS LONGIPES (Japan Oleaster)—In July the plant is covered with red berries. The bush is highly ornamental, the leaves remaining fresh till late autumn. Price: 1½-2 ft., 75c each.

(See inside back cover for flowering shrubs in color)

Hardy Flowering Shrubs—Continued

EUONYMOUS (American Burning Bush)—Very conspicuous in the autumn and winter when loaded with scarlet seedpods, from which the orange-colored berries hang on slender threads. Price: 3-4 ft., \$1.00 each.

EXCHORDA GRANDIFLORA (Pearl Bush)—One of the most distinctly ornamental shrubs in cultivation, a leader in its season. It grows vigorously to a height of 6 to 10 feet, and can be trimmed to any desirable shape. Stands our severe winters well. Has never failed to bloom yet. The early buds look like pearls strung on slender threads; May opening them up to long, gleaming sprays of pure white. One of the best. Price: 18-24 in., 75c each, \$6.50 per 10.

FORSYTHIA VIRIDISSIMA—These splendid old shrubs, growing 8 to 10 feet tall, eventually light up the garden with glinting masses of yellow very early in spring before the leaves appear. Their bright, golden flowers, often appearing before the snow is gone, vie with the Crocus as harbingers of spring. Price: 2-3 ft., 65c each, \$5.50 per 10.

FORSYTHIA FORTUNEII—Growth upright; foliage deep green; flowers bright yellow, appearing before the leaves. Very showy.

FORSYTHIA SUSPENSA—Very long, curving branches, superbly adapted to covering arches and trellises.

FRINGE PURPLE (Rhus Cotinus)—The beautiful Mist or Smoke Tree. One of our handsomest shrubs, growing in tree-like proportions. Its loose, graceful, drooping panicles of purple flowers are quite fragrant and borne in fringing clusters above very large, dark green leaves of thick, feathery texture and remain on all summer. In autumn the foliage turns to shades of reddish-brown. Blooms in June. Price: 2-3 ft., \$2.00 each.

FRINGE WHITE (Chionanthus)—A very desirable tall growing shrub; dark green, glossy leaves turning yellow in autumn. Flowers pure white, in loose, drooping panicles, appear in May and June followed by small, plum-like berries of bluish color. Price: 2-3 ft., \$2.00 each.

HYDRANGEA ARBORESCENS—HILLS OF SNOW

HONEYSUCKLE FRAGRANTISSIMA (Upright)—Foliage bright green, almost an Evergreen. A large, spreading shrub with sweet, creamy white flowers, which bloom all summer. Price: 2-3 ft., 65c each.

HONEYSUCKLE RED TARTARIAN (Upright)
Lonicera Tartarica—The best known of all the Bush Honeysuckles. Grows to a height of 8 to 10 feet, with upright, somewhat spreading branches and bright green foliage. The flowers are borne freely in May and June, are of bright pink color, followed by showy red berries, which ripen in mid-summer, and cling to the bush for several weeks. Price: 2-3 ft., 50c each.

HONEYSUCKLE WHITE TARTARIAN (Upright)—About the same as the above except that the flowers are white. Price: 2-3 ft., 50c each.

HYDRANGEA ARBORESCENS, Hills of Snow or Everblooming—Becomes a good-sized shrub to which the name Hills of Snow may well be applied—a profusion of large, snow-white flowers turning green instead of bronze as do other hydrangeas. Easily grown in ordinary garden soil and thrives in partial shade, but does best in full sun. It blooms from June till September. Strong, field-grown plants. Prices: 1½-2 ft., 60c each, \$5.00 per 10; 2-3 ft., 70c each, \$6.00 per 10.

HYDRANGEA PANICULATA GRANDIFLORA—A good variety to follow Hills of Snow, blooming profusely in August and September when few other shrubs are in bloom. It produces the largest flower heads of any of the hardy shrubs. Allowed to grow naturally, it assumes stately proportions, reaching a height of seven feet, and during the hot months is covered with its great pyramidal panicles, white on opening, assuming rose and bronze tints on the sunny side and drooping gracefully of their own weight. Valuable for winter decoration if flowers are allowed to dry on bush. Prices: 1½-2 ft., 50c each, \$4.50 per 10; 2-3 ft., 60c each, \$5.50 per 10.

HONEYSUCKLE TARTARIAN

(See back inside cover for flowering shrubs in color)

Hardy Flowering Shrubs—Continued

HYDRANGEA PANICULATA in Tree Form—

They are very effective for the lawn or park, or planted along the sidewalks or driveways, about 10 feet apart; they make a most beautiful sight when in full bloom. By planting one or more of these beautiful trees you can show to your neighbors and friends something nice and not commonly seen. Prices: 3-4 ft., \$1.25 each.

KERRIA JAPONICA (Japan Corchorus)—A handsome, green-leaved shrub, growing 4 to 5 feet. Graceful, slender, drooping branches, painted with a wealth of rich, dark yellow flowers in June, and to some extent, all summer. Price: 2-3 ft., 75c each.

LILAC ALBA Common White—Prices: 2-3 ft., 70c each, \$5.50 per 10; 3-4 ft., 75c each, \$7.00 per 10.

LILAC White Persian—White shaded with purple. A superb variety. Price: 2-3 ft., \$1.50 each.

LILAC CHARLES X—Deep, purple. Price: 2-3 ft., \$1.50 each.

LILAC FRAU BERTHA DAMMANN—Large and pure white. Price: 2-3 ft., \$1.50 each.

LILAC (Josikaea-Hungarian)—Blossoms late in June, with large panicles of lilac purple flowers. Price: 2-3 ft., \$1.50 each.

LILAC LUDWIG SPAETH—Deep, purplish-red flowers in dense, large panicles. Best of its color. Flowers in May. Price: 2-3 ft., \$1.50 each.

LILAC PERSICA (Persian)—Small foliage and bright, purple flowers. May. Price: 2-3 ft., \$1.50 each.

LILAC PRESIDENT GREVY—Exceptional, large, dense trusses of double, deep blue flowers. One of the finest new double sorts. Blossoms in May. Price: 2-3 ft., \$1.50 each.

LILAC VULGARIS (Common)—Bluish-purple flowers. May. A standard variety. Prices: 2-3 ft., 70c each, \$6.00 per 10; 3-4 ft., \$1.00 each, \$8.00 per 10.

LILAC VILLOSA—Dwarf grower; broad-leaved; pinkish lilac-flowers in long, loose panicles. Resembles tree form. Blossoms in May. Price: 2-3 ft., \$1.50 each.

PHOTINIA VILLOSA (Christmas Berry)—A charming and unique shrub. White flowers in June followed by beautiful red berries. Excellent for Christmas decoration. A strong grower, reaching a height of 5 ft. Add one or more to your collection. Price: 2-3 ft., \$2.00 each.

QUINCE JAPAN (Pyrus Japonica)—Very ornamental in early spring, as its bright, scarlet flowers completely cover the branches before the leaves are formed. The fruits which follow later are quince-shaped and quite fragrant. Has stout branches with fine thorns. Makes a good defensive hedge. Blossoms in early May. Price: 2-3 ft., 75c each, \$7.00 per 10.

SNOWBERRY RACEMOSUS (Symphoricarpus)—Small, rose-colored flowers in June and July, followed by large clustered, milk-white fruits, which remain far into winter. The combination of pink flowers and white berries on the same twig is charming. July and August. Prices: 1½-2 ft., 50c each, \$4.00 per 10; 2-3 ft., 60c each, \$5.00 per 10.

SNOWBERRY VULGARIS (Red Snowberry or Coral Berry)—A low growing, graceful shrub. Its fruits are red, and the small red berries cluster in thick ropes along the weighted-down stems. August. Prices: 1½-2 ft., 45c each; 2-3 ft., 60c each.

SPIREA

Few shrubs lend themselves to every situation or condition as well as Spireas; showy, free flowering shrubs of easiest culture and covering a considerable blooming period from spring to summer. They are valuable for garden, lawn and landscape planting, being graceful, compact and hardy, preferring sunny situations.

SPIREA ANTHONY WATERER—A dwarf, compact-growing shrub. Blossoms in broad flat heads of beautiful deep red color. A perpetual bloomer. July. 1½-2 ft., 70c each, \$6.00 per 10.

SPIREA AUREA (Golden)—The leaves are bordered with golden-yellow, particularly in June, when the branches are covered with small, double, white flowers. Very desirable for group planting. Price: 2-3 ft., 60c each, \$4.50 per 10.

A planting of Hydrangea P. G. and Japan Barberry is always pleasing. A similar group of 10 Hydrangea P. G. and 15 Barberry Thunbergii at our special price of **\$7.95**
(See inside back cover for flowering shrubs in color)

Hardy Flowering Shrubs—Continued

SPIREA BILLARDII—Blossoms nearly all summer; rose-colored; fine, showy. July to September. Price: 2-3 ft., 60c each, \$5.50 per 10.

SPIREA CALLOSA RUBRA—Desirable because it blooms nearly all summer. The flowers are rose-colored, borne in panicles. A very free grower. June and July. Price: 1½-2 ft., 60c each, \$5.00 per 10.

SPIREA PRUNIFOLIA (Bridal Wreath)—Beautiful white flowers, double and very profuse. Blooms in May. Foliage, scarlet in autumn. Price: 2-3 ft., 65c each, \$5.50 per 10.

SPIREA THUNBERG'S (Thunbergii)—A Japanese species of small size with numerous slender branches somewhat drooping, forming a dense feathery bush. Narrow linear leaves, bright green fading to orange and scarlet in autumn. Small white flowers in early May. The first Spirea to bloom. Price: 2-3 ft. 65c each, \$5.50 per 10.

SPIREA VAN HOUTTE—The finest of all Spireas, a most charming and beautiful shrub; resembles a fountain with white flowers in May and June. Extraordinarily profuse in bloom; plant is a vigorous grower and very hardy. Makes an attractive hedge and is very beautiful for mass planting. Prices: 1½-2 ft., 35c

each, \$2.50 per 10, \$20.00 per 100; 2-3 ft., 50c each, \$4.50 per 10, \$30.00 per 100.

SYRINGA AUREUS (Golden Syringa)—A dense growing form, with clear, golden-yellow foliage well retained in color all summer. One of the best golden-foliaged shrubs offered. 2-3 ft., 75c each, \$7.00 per 10.

SYRINGA CORONARIUS (Mock Orange)—Early June. Fragrant, pure white flowers, in dense clusters, so numerous as to bear the branches down when flowering. One of the best. 2-3 ft., 65c each, \$5.00 per 10.

SUMAC, CUT-LEAVED (Rhus Laciniata)—A hardy plant, with beautiful, fern-like leaves, milky white on under side, changing to a brilliant scarlet in autumn. Price: 3-4 ft., \$1.00 each.

TAMARIX AFRICAN (Africana)—Thrives in any soil. The foliage is handsome. The flowers are small, borne in spikes in May. Its habits are upright. Price: 2-3 ft., 65c each, \$5.00 per 10.

TREE FORM SNOWBALL—Have large, well-developed tops. Blossoms May and June. Price: 4-5 ft., \$2.00 each.

VIBURNUM OPULUS (Cranberry, High Bush)—A very decorative shrub, with white flowers in May followed by beautiful, showy clusters of scarlet fruits. Prices: 1½-2 ft., 75c each; 2-3 ft., 85c each.

VIBURNUM OPULUS STERILIS (Common Snowball)—Grows 6 to 8 feet high, the old-fashioned Snowball; its large, globular clusters of pure white flowers are produced in May and June. Prices: 1½-2 ft., 50c each; 2-3 feet, 75c each.

VIBURNUM PLICATUM (Japan Snowball)—A rare and exceedingly beautiful species of Japan; flowers in large, globular heads; pure white, hanging long on the bush, with very beautiful foliage. Blooms in May and June. Prices: 1½-2 ft., 80c each; 2-3 ft., \$1.00 each.

WEIGELIA CANDIDA—Of vigorous habit; flowers pure white and produced in great profusion in June, and continues to bloom at intervals through the summer. 2-3 ft., 65c each, \$5.00 per 10.

WEIGELIA EVA RATHKE—A charming, new Weigelia; flowers, brilliant crimson; a beautiful, distinct, clear shade; mid-summer. Prices: 1½-2 ft., 75c each, \$6.50 per 10.

WEIGELIA NANA (Variegated)—Of dwarf habit; finely variegated foliage which lasts the entire season. Flowers rose-colored. Leaves bordered with yellowish white. June. 2-3 ft., 75c each, \$6.00 per 10.

WEIGELIA ROSEA—An old garden favorite; has beautiful large rose-colored flowers. Distinctive; very hardy. Prices: 2-3 ft., 65c each, \$5.00 per 10.

SPIREA—ANTHONY WATERER

JAPAN QUINCE

(See inside back cover for flowering shrubs in color)

Hardy Climbing Vines

VINES always add grace and beauty. Some are prized for the color and fragrance of their flowers while others are valuable for covering brick or stone walls. Vines rank as the most beautiful plants for training on fences, on old trees, over porches and windows. In spring and summer, their foliage is a mat of green leaves, and turns to rich yellow, gold and bronze in autumn.

AMERICAN IVY (Virginia Creeper)—A very desirable vine for covering walls, verandas, and tree trunks. Leaves are beautiful in summer, turning a rich crimson in autumn. A fast grower. Price: 50c each, \$4.50 per 10.

BITTERSWEET—A rapid climbing plant, with orange-yellow flowers and crimson seeds. Glossy leaves. The cut branches much used for house decoration in the winter. Price: 75c each.

BOSTON IVY (Ampelopsis Veitchii or Japan Ivy)—One of the best climbers for covering walls; clings tenaciously without artificial fastening. The leaves overlap giving the appearance of a solid sheet of green, changing in the autumn to beautiful tints of crimson and yellow. Price: 75c each, \$7.00 per 10.

CINNAMON VINE—A strong, hardy climber from China. 10 to 30 feet. Leaves heart-shaped; flowers small, white, cinnamon-scented. Very fragrant. Impervious to insects and blight. One of the best. Price: 20c each, 4 for 65c.

CLEMATIS (Paniculata)—This is one of the most attractive and effective of the hardy flowering climbing vines. Especially adaptable for covering trellises, fences, walls and pillars. Price 50c each, \$4.50 per 10.

CLEMATIS DUCHESS OF EDINBURGH—One of the double, pure white varieties; deliciously scented. Price 75c each.

WISTARIA (Purple)

CLEMATIS PANICULATA

CLEMATIS JACKMANI—Covered from July to October with a dense foliage of purple flowers. A strong grower and popular variety. Price 75c each.

CLEMATIS MADAME EDW. ANDRE—Flowers bright, velvety red. Large and continuous bloom. Price 75c each.

DUTCHMAN'S PIPE (Aristolochia)—A native species of climbing habit and rapid growth, with magnificent light green heart shaped leaves, 10 to 12 inches in diameter and curious pipe-shaped, yellowish-brown flowers. Price: 2 year old, \$1.00 each, \$9.00 per 10.

ENGLISH IVY—Used extensively for covering brick and stone walls. Price: 75c each.

HALL'S JAPAN HONEYSUCKLE—Vigorous, almost evergreen climber with white flowers changing to yellow. Price: 50c each, \$4.50 per 10.

MATRIMONY VINE—A vigorous climber, branching freely and covered with brightly purple, star-shaped flowers, succeeded by brilliant scarlet berries. Fine for porches. Price: 2 year old, 50c each, \$4.00 per 10.

TRUMPET VINE (Bignonia)—Popular variety with showy orange-scarlet flowers and evergreen leaves. Recommended for arbors, rocks, brightening of hedges or over old trees or logs. A strong, high grower. Price: 60c each, \$5.50 per 10.

WISTARIA WHITE—An attractive and strong grower with a large number of hanging pea-shaped, white flowers. Price: 75c each, \$7.00 per 10.

WISTARIA PURPLE—A beautiful climber of very rapid growth, producing long, pendulous clusters of pale, blue flowers in June, also in fall; is perfectly hardy and one of the most superb climbing vines ever introduced. Price: 75c each, \$7.00 per 10.

Roses

Queen of all Flowers

AMERICAN BEAUTY ROSES

See inside front cover
for color illustration

THE varieties listed below are unquestionably the best that can be selected in the Hybrid Perpetual class, which before the development of the Hybrid Teas, was the most popular type for garden planting, and even now they dare not be overlooked, but should be used extensively in conjunction with the other sorts and especially so in localities where the hardiness of the Hybrid Tea varieties has not been established. The collection here offered embraces as complete a range of colors as it is possible to bring together in such a number of plants, with freedom of flowering, perfect form, fragrance, hardiness and general excellence.

Hybrid Perpetual Roses

(Old Fashioned June Blooming Hardy Bush Roses)

Prices: 2 year old, No. 1, 70c each; \$6.50 per 10; \$15.00 per 25.

AMERICAN BEAUTY—The famous Florists' rose.

A profuse bloomer; very large and full; brilliant pink to red; delightfully fragrant; borne on long, stiff stems, heavily clothed with foliage.

CLIO—A large, globular rose; sweetly fragrant; of satiny flesh color, with a pink center, which, when two-thirds open, is perfectly cup-shaped. The beauty is enhanced by a rosette of foliage about it.

EARL OF DUFFERIN—Very large, full, rich, velvety crimson blooms, shaded maroon and borne on vigorous, free-flowering plants.

FRAU KARL DRUSCHKI (Snow Queen)—An immense, pure white, perfectly double rose, sometimes almost six inches in diameter; and, if flowers are kept cut, continues blooming all summer. Plant robust, vigorous and upright. The finest pure white rose in this class. One of the "favorite dozen."

GENERAL JACQUEMINOT ROSE—Good old

General "Jack" has marched to victory in many lands. His clear red blooms are just as bright today as seventy years ago. The plant is very hardy, but needs quite careful attention in thinning and pruning if the best-formed flowers are wanted, but many people let it grow at will and make a big, brave bush that blazes like a bonfire with its hundreds of bright red flowers in June.

JOHN HOPPER—Rosy red, changing to purple carmine; blooms of large, good form and sweetly scented. Plants are of medium height.

MAGNA CHARTA—An old favorite. Very large, full globular bloom of rosy pink, often tinted carmine, remaining on the plants a long time in good condition. A vigorous grower, producing stout canes with many thorns and abundant green foliage.

THERE IS KEEN RIVALRY IN ROSE GROWING

10 BEAUTIFUL ROSES IN RED, PINK, YELLOW AND WHITE, AS BELOW

ROSE BED COLLECTION—OFFER NO. 380

Plant 18 inches apart each way.

10 Strong, 2 year bushes for

(Regular catalogue price \$7.75)

1 Gruss an Teplitz (red)

1 Killarney (pink)

1 Radiance (red)

1 Mrs. John Laing (pink)

\$5.25

1 Persian Yellow (yellow)

2 Frau Karl Druschki (white)

2 General Jacqueminot (red)

1 Paul Neyron (pink)

(This group can be sent by prepaid parcel post.)

MARGARET DICKSON—One of the most indispensable and highly prized of the Hybrid Perpetuals. A fragrant, white bloom with fresh colored center. The half-opened flowers are very lovely. Plants are vigorous, of compact habit, with large dark green foliage and producing many flowers.

MARSHALL P. WILDER—One of the best in its class. Bright crimson-scarlet, very large, full, globular, with a strong, penetrating fragrance.

MADAME GABRIEL LUIZET—One of the better H. P. roses. Flowers light silvery-pink, shading paler at petal edges, moderately fragrant. A vigorous plant, bearing an abundance of bloom.

MRS. JOHN LAING—Very large, long pointed buds opening to immense, full, moderately fragrant and beautiful, soft pink flowers. A low but vigorous growing plant and a profuse bloomer.

PAUL NEYRON—One of the best for outdoor culture; probably the largest rose in commerce, the flowers sometimes being six inches in diameter. Fragrant, clear pink blooms, shading to rose.

PERSIAN YELLOW—A small, fragrant, double golden yellow flower, borne in great profusion. Desirable for a hedge or for mixing in shrubbery.

ULRICH BRUNNER—Flowers rich red, fragrant, petals broad, round and thick. A vigorous grower and essential in any collection.

Hybrid Tea Roses—Everblooming Bush Roses

Blooms from June until frost

This class of roses is noted principally for its free and everblooming characteristics, and are commonly called "Monthly Roses." They bloom early and continue to bloom throughout the summer. They are not as hardy as the Hybrid Perpetuals, but can be successfully grown in cold climates, if afforded winter protection.

Price, 85c each; \$8.00 per 10; \$17.50 per 25

COLUMBIA—An American rose equally popular and successful under glass and in the garden—something that can be said of very few varieties. Buds and blooms are large, full, well shaped and of a brilliant rosy pink color that deepens as the flowers age. The blooms of Columbia outlast nearly all others. Makes a strong growth, blooms profusely and constantly, and we recommend Columbia highly. (See inside front cover for color illustration.)

DUCHESS OF WELLINGTON—The "Gem" of yellow roses. Large, well-formed buds, opening to semi-double, saffron-yellow flowers, stained with crimson and changing to lighter yellow. Flowers are richly scented and freely produced. Can be depended upon to produce flowers all season. Bush is a good grower and unusually free from insect pests. A necessary rose in any collection. (See inside front cover for color.)

FRANCIS SCOTT KEY—An outstanding variety; extremely large bloom of a rich, crimson-red color; full, very double; borne on long stems of very good lasting quality.

GRUSS AN TEPLITZ—An extremely useful and dependable variety, succeeding well all over the United States. A profusion of beautiful, clear crimson scarlet, fragrant flowers are borne from June until frost on a vigorous and shapely plant. An excellent border and useful also as a hedge, if not cut back.

HERMOSA—An old, but very desirable rose for borders and beds, as it produces a continuous supply of light blush-pink blooms from June until frost. Works well with Gruss An Teplitz as a bedding rose.

J. L. MOCK—A dependable rose; very large, full and fragrant; petals silvery rosy-white inside, outside carmine-pink. A good bedding variety and a continuous bloomer.

KILLARNEY—Flowers intensely fragrant. The buds are large, long and pointed. Color is exquisite—a brilliant imperial pink. A bed of these beauties in full bloom is a sight not easily forgotten. An ideal Rose for cutting.

LA FRANCE—Unusually large, long-pointed buds, on long stems; flowers large, very full; the petals bright pink on the outside, silvery pink inside, a very pleasing combination; fragrance unique and delightful.

LOS ANGELES—One of the new garden roses. Its color is a luminous flame pink, toned coral, shaded translucent gold at base of petals. An upright, sturdy grower, bearing perfect, fragrant flowers on strong stems. Desirable in every garden.

MAMAN COCHET—A famous, dependable rose. Large, full coral-pink blooms flushed with light carmine, mingled with yellow; fragrant; petals broad, thick, shell-like; magnificent, long-pointed buds.

MME. CAROLINE TESTOUT—Blooms all summer on strong, vigorous plants. The large, rounded flowers are bright satiny rose, with darker center, and edges of petals bordered with soft carmine-pink.

MRS. AARON WARD—A most desirable and dependable rose that will probably produce more flowers than any other yellow rose. Semi-double, cup-shaped, deep Indian yellow flowers; fragrant; blooms until frost.

OPHELIA—This highly desirable rose is successful for out-door as well as for greenhouse culture. The beautifully formed, salmon-flesh flowers are borne on long, stout stems and are freely produced until frost. Large, dark green, leathery foliage; plant of vigorous, upright habit.

PAPA GONTIER—A worthy old-timer, having large, bright crimson, semi-double flowers on strong stems. A constant bloomer; vigorous grower. Deservedly popular in the South.

RADIANCE—Pink; vigorous, upright, bushy plants bearing a continuous supply of very large, beautiful, light silvery pink to salmon pink flowers on long stems. A good bedding variety.

SOLEIL D'OR—Beautiful, long-pointed buds, opening to very large, full orange yellow flowers that vary to ruddy gold. A vigorous, upright grower with notable color.

SUNBURST—Bright, glowing orange blooms, paling slightly at edge of petal, gives an excellent imitation of a real sunburst. Leathery, bronzy foliage.

Moss Roses

Prices, 2 year old No. 1, 75c each, \$7.00 per 10.

THE characters of the Moss Roses are caused by the development of an unusual number of glands, and these glands secrete and give off a very delightful odor. The blooms are attractive in themselves, but having the blooms surrounded by fragrant creting or mossaing gives them added attraction.

BLANCHE MOREAU—Large, perfectly formed, pure white, very fragrant double flowers in large clusters. The plants are vigorous growers.

CRESTED MOSS—Rose colored, sweetly perfumed flowers with beautifully crested buds. The plants are moderate growers and free bloomers.

SALET—Large, full crested buds, opening to large, flat, attractive rose pink blooms that are produced by vigorous plants.

OUR FIELD-GROWN ROSES WILL BLOOM THE FIRST SEASON

The Rugosa Rose Hybrids

Prices, 2 year old No. 1, each, 75c; per 10, \$7.00; per 100, \$70.00.

CONRAD F. MEYER—Very large, double, showy, clear silvery rose flowers, strongly fragrant, on long, strong stems. The canes are frequently eight feet in height and if carefully trained, can produce some notable garden effects.

F. J. GROOTENDORST—Beautiful, small red flowers in clusters, with the edge of each petal serrated. The plant is a strong grower and bushy, with leathery foliage, and blooms continuously until frost.

RUGOSA REPENS ALBA—Large, single flowers in clusters on short, strong stems. Vigorous, trailing plants that grow 12 to 15 feet a season.

RUGOSA RUBRA—Large, beautiful, single flowers of clear pink to bright crimson; blooms continuously from June until September, followed by attractive red fruits in autumn.

The Wild Rose or Rose Species

2 year old, No. 1, 40c each, \$3.50 per 10.

MULTIFLORA—Large, pyramidal clusters of small white flowers, with numerous yellow stamens. A vigorous growing plant, with climbing habit, well furnished with lustrous green leaves and an abundance of flower clusters. The small, roundish fruits are red and hang on for a long time.

F. J. GROOTENDORST

WICHURIANA—The Memorial Rose. Beautiful fragrant pure white flowers, with a mass of golden stamens, borne in great profusion on a true trailing plant and having dark green, glossy foliage, almost evergreen. One of the latest roses to bloom.

Climbing Roses

Prices, 2 year old, No. 1, 65c each; \$6.00 per 10.

EXCELSA RAMBLER

Artistically breaks the plainness

CLIMBING AMERICAN BEAUTY—The moderately fragrant, rich carmine 3-4 inch flowers are produced in great abundance. It will succeed in almost any situation and makes a very vigorous growth.

CRIMSON RAMBLER—Great masses of crimson, semi-double flowers are borne by these vigorous plants. Desirable pillar and porch plant.

DOROTHY PERKINS—One of the most notable climbing roses. Clear cherry-pink, slightly fragrant; borne in great profusion and lasts a long time. The plant makes a very strong growth; foliage is glossy, bright green, and persists until cold weather.

DR. VAN FLEET—Probably the best climbing rose in cultivation. Perfectly formed, long-pointed, deep pink buds on long stems, with several in a cluster, that opens a lighter shade of pink. It is a vigorous grower with glossy, dark green foliage. It is a delight to the eye all summer.

EXCELSA—An intense crimson, with the edges of the petals a little lighter, produced in immense clusters. Foliage glossy.

FLOWER OF FAIRFIELD—Carmine-crimson, semi-double to double flowers in large, compact clusters; foliage normal; seldom a heavy bloomer.

MRS. ROBERT PEARY—A beautiful, perfectly shaped climbing rose of waxy white, shading to soft primrose.

PAUL'S SCARLET CLIMBER—The brightest and purest red of all the Pillar Roses. Flowers are borne in clusters that retain their color until they fall, the color being intensified by the numerous yellow stamens. A vigorous grower and a good bloomer.

TAUSENDSCHON—Or Thousand Beauties, vigorous and desirable Hardy Climbing Rose; almost thornless. The buds are cherry pink, opening to softer shades; has glossy, light green foliage. A highly desirable and distinctive rose for covering walls, fences, porches and pergolas.

WHITE DOROTHY—Closely resembles the Dorothy Perkins, except for its immense clusters of pure white flowers. The most valuable white climber of its class.

Hardy Old Fashioned Perennials

BLEEDING HEART
"Ye Olde Time Favorite"

ONE of the most beautiful and cherished pictures one retains on memory's wall is the old fashioned garden at Grandmother's. The delightful fragrance and the many hued flowers entranced and delighted. Now, fashion has again changed and in place of the stiff, conventional garden, the old-fashioned informal garden has again come into its own and we can now bring into reality in our own garden the picture so long carried only in memory.

Perennials and bulbs are easy to grow, require no special care and once planted are permanent and the most satisfactory plants in the garden.

Either as an informal garden, a border or combined with shrubbery the effect is most pleasing. You will have a wonderful mass of color and an unfailing supply for cutting.

ANCHUSA (Dropmore)—Flowers rich blue, growing 3 to 5 feet high. Blooms throughout the summer. Price: 30c each, \$2.50 per 10.

ANEMONE (White)—Large white flowers with yellow stamens. Excellent for cutting. Price: 30c each, \$2.50 per 10.

ANEMONE (Pink)—Semi-double flowers, large, very attractive. Price: 30c each, \$2.50 per 10.

ANEMONE (Whirlwind)—Well shaped double white flowers. Price: 30c each, \$2.50 per 10.

HARDY ASTER (Michaelmas Daisy)—A beautiful tall growing native plant, blooming in the late summer and fall when flowers are scarce. Very showy and of easiest culture, succeeding in any open, sunny position. Colors: pink, white, blue, lavender. Price: 30c each, \$2.50 per 10.

BLEEDING HEART (Dicentra)—An old favorite. Flowers heart-shaped in long, drooping racemes, rose color. Very fine for border plants. Price: 75c each, \$6.00 per 10.

HARDY CARNATIONS—Excellent for planting in garden after danger from frosts is past. Will bloom abundantly from July until late fall. Excellent also for forcing indoors for winter. Colors: red, white. Price: 35c each, \$3.00 per 10.

CAMPANULA (Bellflower)—Pleasing tropical effect. Price: 35c each, \$3.00 per 10.

COLUMBINE (Aquilegia)—An old garden favorite and one of the most desirable of the hardy garden plants. Will thrive well in sandy locations where most plants cannot grow. The peculiar shaped flowers with their long, slender spurs are produced in great abundance on long, graceful stems. A beautiful combination of colors in almost every shade imaginable. Useful for cut flowers. Price: 25c each, \$2.00 per 10.

CANTERBURY BELL—The most beautiful border plant in cultivation. Flowers very large and bell-shaped; blue, white and rose colored. Price: 30c each, \$2.00 per 10.

CANDYTUFT SEMPERVIRENS (Iberis)—A distinctive dwarf plant used in gardens and lawns for border purposes. Foliage almost completely hidden with the white mass of flowers. Price: 25c each, \$2.00 per 10.

CHRYSANTHEMUMS (Grandmother's Hardy Garden Mums)—Bloom profusely late October and November after all tender flowers have been frost killed. Their beautiful bright flowers give the final flame of color to the garden before it is covered with its mantle of snow. Especially good for cut flowers, will last a long time in water. Red, yellow, white and pink, 30c each, \$2.50 per 10.

Easy-to-Make—Perennial Gardens

THE planting of a perennial garden is very simple; once planted these perennials bloom gaily year after year, prospering with little or no attention. Radiant in their bright color combinations, fascinating in form and detail, we suggest common-sense perennial beds that anyone can easily follow, either as a single bed or a combination as shown in the smaller illustration.

The number of perennials under each offer covers the required number for a single perennial bed—if additional beds are required, two, three or four, order additional offers.

PLAN No. 430
3 feet x 3 feet

For an individual corner planting or in pairs on 4 sides of the garden

OFFER No. 430 \$3.35

(14 Perennials)

Hardy Perennials and Old Fashioned Flowers—Continued

DELPHINIUM

DELPHINIUM or LARKSPUR—The hardy Larkspurs are easily among the finest of all our perennial plants. The prevailing colors are rich, clear shades of blue. The taller kinds furnish long spikes of bloom that are strikingly decorative and last a long time as cut flowers. The plants have a long season of bloom, which can be greatly prolonged by keeping the seed stalks cut out and supplying plenty of water. The dark, handsome foliage is neat and attractive throughout the whole season. The plants are perfectly hardy. Bloom from June until frost. Price: 25c each, \$2.00 per 10.

DIGITALIS or FOXGLOVE—The Foxgloves are quite stately and highly ornamental plants when well grown, with flower stems at least three feet in height. They are fine for the mixed border or planted singly in half shady places near a walk or drive. The racemes of the flowers are often two feet in length, containing scores of prettily spotted thimble-shaped flowers. Perfectly hardy. Pink, white and purple. Price: 25c each, \$2.00 per 10.

GAILLARDIA or BLANKET FLOWER—Among the most attractive and effective of our hardy perennial plants. Will thrive in almost any position or any soil. One mass of bloom from June till autumn. The gorgeous flowers, 2 or 3 inches in diameter, dark red, brown in center with bands of crimson-orange and vermilion, are borne on stems 18 to 24 inches long. When used for filling in front of shrubbery, Gaillardia adds a dash of color which is very effective. Price: 25c each, \$2.00 per 10.

"OLD TIME FAVORITES OF THE OLD TIME GARDEN."

COLLECTION NO. 440

3 Delphinium or Larkspur	3 Columbine	3 Hollyhocks
3 Foxglove	6 Gladiolus	3 Germanica Iris
3 Phlox	2 Salvia	3 Shasta Daisy
2 Canterbury Bell	2 Tritoma	3 Coreopsis

Price for the Group, **\$7.50**

COREOPSIS—Yellow. One of the most popular hardy plants. The flowers are of a rich golden yellow, of graceful form and invaluable for cutting; in bloom from June until autumn. It succeeds everywhere. Height 1½ to 2 ft. A group of these plants furnish an unfailing mass of rich, flowering color. Grow vigorously in any sunny situation. Price: 25c each, \$2.00 per 10.

CANNAS—Tall and vigorous, furnishing a wide range of color, fine foliage of fine proportion almost entirely concealing the ground; flower trusses are large and free. Colors: light crimson, deep vermilion, orange-scarlet, yellow. Price: 35c each, \$3.00 per 10.

CHINESE LANTERN PLANT (Physalis)—A highly ornamental plant forming a dense bush about 2 feet high, producing freely, bright orange-scarlet lantern-like fruits which, when cut, will last all winter. Price: 35c each, \$3.00 per 10.

DAHLIA—Long a favorite in the old-fashioned flower garden and again much in favor. No flower garden is complete without its many colored flowers and bright foliage. Of easy culture and requires very little care. Colors: yellow, lavender, purple, red, white, pink, variegated red and white, lavender and white. Order by color. Price: 40c each, \$3.00 per 10.

GOLDEN GLOW—A large, showy plant attaining in good soil a height of 5 to 6 ft. the same season planted. Flowers a deep golden color, resembling yellow chrysanthemums. A profuse bloomer; excellent for cutting. Price: 25c each, \$2.00 per 10.

GYPSOPHILA (Baby's Breath)—*G. paniculata*—A beautiful, old-fashioned plant, possessing a grace not found in any other perennial. When in bloom, during August and September, it forms a symmetrical mass 2 or 3 feet in height of minute, pure white flowers, forming a gauze-like appearance. When cut it is exquisite in connection with other flowers. Will thrive in any soil in a sunny position. Should be in every garden. Price: 25c each, \$2.00 per 10.

Hardy Perennials and Old Fashioned Flowers

GLADIOLUS—No garden is complete without these showy summer-flowering bulbs which can be grown with very little care. Will thrive in any rich light garden soil, exposed to the sun. If your garden is heavy, work in some well rotted-manure. Planting can be done, just as soon as the frost is out of the ground in the spring. Set bulbs 2 to 4 inches deep and 6 to 9 inches apart.

This group contains all colors and types. Bulbs of many high priced varieties are included. In lots of 100, we guarantee to send at least 20 varieties.

GLADIOLUS

DOUBLE HOLLYHOCKS

HELEBORUS (Christmas Rose)—Most valuable hardy plants on account of yielding with utmost freedom in early spring, a season when flowers are scarce, their beautiful, large 2 or 3 inch blossoms. They succeed in any ordinary garden soil in a sheltered, semi-shady situation. Bloom in March and April. Price: \$1.00 each.

HIBISCUS (Mallow)—H. Giant Red—Right in the middle of the summer, the rich glorious red flowers of this wonderful creation are beginning to open, and they continue until frost arrives. Large flowers 6 to 10 inches in diameter. A very desirable specimen. Good as a border plant, succeeding in any sunny position, but doing best in a damp place. Grows 4 feet high, large foliage. 25c each, \$2.00 for 10.

HOLLYHOCKS—Their colossal spikes of bloom, 5 to 8 feet high, produce bold and showy effects which cannot be secured with any other plant. Very effective among shrubbery, in the herbaceous border and along fences and boundaries. Double white, pink, red, purple and yellow. Price: 20c each, \$1.75 per 10.

Hardy Perennials—Continued

Refer to front cover for the Actual Colors of these three specimens

Three Beautiful, Bold and Distinct Garden Orchids

(Iris, Germanica, Fleur-de-lis)

Appearing in Natural Colors on the Front Cover

Top Specimen—	Her Majesty The upper petal delicate rose-pink. The lower petal same color veined darker. Center of the flower flushed yellow.
Center Specimen—	Honorabilis A bright and attractive combination of yellow and brown with a center of flushed yellow.
Bottom Specimen—	Perfection Upper petals lavender, lower petals lavender, velvety blue purple with a center of flushed orange.

In a border planting paralleling the property line, an individual Iris garden bed, or planted in variety with other Perennials, we recommend these beautiful and colorful varieties.

IRIS GERMANICA (Fleur de Lis)—The national flower of France. One of the most beautiful and showy of the early flowering plants, deliciously fragrant and fine for cutting. In beauty they rival the finest orchids. Assorted colors 25c each; named varieties 35c each.

LILIES (Lillium)—There is no garden flower of greater charm and refinement than the lily. Its many distinct varieties cover the entire range of color, with exquisite markings and perfume. Their blooming periods vary from May until November so that one may select a succession covering the entire year.

LILIES AURATUM—(Gold band) very large, delicate ivory white, thickly dotted with rich, chocolate-crimson spots. A bright golden band runs through the center of each petal. Finest of the lilies. Price: 50c each, \$4.50 per 10.

LILIES CANDIDUM—The old-fashioned pure white garden lily. One of the hardiest. Price: 40c each, \$3.50 per 10.

LILIES FLAVA (Lemon Lily)—The best known variety, very fragrant; deep lemon-yellow, flowers in June and July. Price: 30c each, \$2.50 per 10.

LILIES CONVALLARIA (Lily-of-the-Valley)—Large luxuriant foliage; flowers small, bell-shaped, in pretty racemes and very fragrant. Price 20c each, \$1.50 per 10.

MONARDA DIDYMA (Bergamot)—A 2 foot, bushy, coarse-leaved plant, covered with round, full heads of red flowers. The leaves are deliciously fragrant when crushed. 30c each, \$2.50 per 10.

MYOSOTIS (Forget-Me-Not)—Charming, low-growing plants, the bright blue flowers covering the plants late in spring. Hardy and useful in a shady spot in the border. Price: 30c each, \$2.50 per 10.

PINKS (Dianthus)—Among the most esteemed and valuable of hardy plants. Bloom in profusion; great variety of colors. Spicy fragrance. Price: 30c each, \$2.50 per 10.

OFFER No. 461—One of each of the three named varieties \$1.00

OFFER No. 462—Five of each of the three named varieties (15).....\$5.00

OFFER No. 463—Ten of each of the three named varieties (30)\$8.50

OFFER No. 464—Seventy-five Iris, assorted colors\$12.50

See the Front Cover for Colored Iris

A planting of Garden Orchids (Iris) coming into bloom in the early summer, is surely a treat to every garden enthusiast

Hardy Perennials and Old Fashioned Flowers—Continued

PHLOX (Hardy Perennials)—Among hardy perennial plants no class is of more importance than the Phloxes, succeeding in almost any soil and position and flowering through a long season; and, while they will continue in good condition and flower freely for many years without attention, yet they respond quickly to and are improved by liberal cultivation.

Aithis—Tall, bright salmon-pink, violet eye. **Bridesmaid**—White, dark red eye. **Coquilicot**—Bright scarlet. **Pearl**—Pure white. **Panthenon**—Large, salmon-pink flowers. **Rhineland**—A new variety of great beauty; rare salmon-pink with a distinct claret-red eye. **Richard Wallace**—White, violet center. Strong plants 25c each, \$1.75 per 10.

A PLANTING OF PHLOX

SALVIA—Very attractive in August and September with its profusion of sky-blue flowers. 30c each; \$2.50 per 10.

SHASTA DAISY—Flowers white, of medium size borne on long, wiry stems; blossoms when cut remain fresh and in good condition for from ten days to two weeks. A very hardy perennial; continues in bloom during several months. Price: 30c each, \$2.50 per 10.

SWEET WILLIAM (Dianthus)—Popular garden flower showing a wonderful array of vivid colors in fancy patterns. Perfectly hardy. 25c each; \$2.00 per 10.

TRITOMA (Red Hot Poker)—Of perfect form, brilliant scarlet, the opened lower petals merely being trimmed with orange. Bush-like foliage supports smooth, thick flower stalks a yard long with single fiery cone at the top. Tritomas are one of the great bedding plants; free and continuous bloomers, exceptionally fine for massing. Hardy if given protection. Roots winter best when buried in cool cellar. Price: 30c each; \$2.50 per 10.

VERONICA (Blue Bird Flower)—An elegant border plant, producing dense spikes of deep blue flowers. 30c each; \$2.50 per 10.

VIOLETS (Viola)—These old favorites should have place in every garden. Price: 15c each, \$1.25 per 10.

YUCCA FILAMENTOSA (Adam's Needle or Spanish Bayonet)—An impressive evergreen plant with long, blade-like needle tipped leaves, giving a tropical effect. Panicles of bell-shaped cream colored flowers are borne on long stalks 4 to 5 feet high. Entirely hardy and succeeds everywhere. Price: 35c each, \$3.00 per 10.

Peonies

A NOBLE perennial, bearing the largest individual flower in the garden. They are absolutely hardy anywhere and easy to grow, free from all diseases and insects. The blooms increase in size and number with the age of the plant. Excellent for cut flowers, lasting well. Foliage is ample and attractive until frost. Can be planted singly on lawn, in beds or for borders. Nearly all peonies are fragrant and have a wide range of color. We offer them in the following varieties. Prices, 75c each; \$6.00 per 10.

Achille—Delicate shell pink color. **Baron Rothschild**—Outside petals rose color with salmon center. **Duchess de Nemours**—Ivory white with green markings near center. **Duke of Wellington**—Yellow-white turning to pure white when in full bloom. **Festiva Maxima**—Pure white tinged with purplish-carmine near center. **Humei**—Cherry pink tinged with silver. **Jeanne d'Arc**—Soft pink and sulphur white with blush towards center. **Pres. Roosevelt**—Semi-rose type; deep, rich red. **Rubra Superba**—Deep, glossy crimson. **Rubra Triumphant**—Dark crimson leaning almost to purple.

FINGER LAKES MIXTURE—Where separate colors are not required, we offer our own collection of mixed colors, which are very desirable for mass planting. Good strong roots. Price: 50c each, \$4.50 per 10.

PEONY

PEONY COLLECTION No. 470

(Regular catalogue price \$2.25)

Festiva Maxima—Large white

Rubra Superba—Rose red

Jeanne d'Arc—Soft pink, blush center

This group can be sent by prepaid parcel post

A Charming Garden of Hardy Perennials.

An Unusual Color Scheme Garden

Plant only the blue perennials in one bed—light blue, dark blue and the intervening hues as represented by the several varieties classified below—then plant the various yellow perennial collection in another bed—the red in another, and so on with the white and pink varieties.

This massing of individual colors will give you a novel garden throughout the summer with effects considerably more striking than the old fashioned plan of setting out all colors in a single bed. Then, too, you can indulge your fancy within the home in pleasing color schemes in cut flowers, that may be altered from day to day with delightful variation.

RED GARDEN OFFER No. 480

For bright, ruddy, glowing colors, red-flowering Hardy Perennials have no rivals. We offer the following red-flowering kinds:

Chrysanthemum, Red	Hollyhock, Red

Garden or Lawn Planting, Specially Priced for
This group of 2 to 3 foot Shrubs can be sent by Parcel Post

\$4.35

New Japanese Red Barberry

A NEW AND COLORFUL SHRUB FOR THE
HOME GROUNDS

Unlike the green-leaved Japanese Barberry, the foliage, instead of fading or disappearing as the season advances, gets more brilliant in color throughout the summer months, changing in the fall to vivid orange, scarlet, with red berries, remaining on the bush all winter.

The red-leaved Barberry looks well as a single specimen, either trimmed or untrimmed, planted in clumps on the lawn, adding that touch of distinction when worked into the hedge or foundation planting, tastefully blending with the green foliage that surrounds it.

Specially priced on our limited supply
