Terms, Prices and Deliveries

CASH WITH ORDER

Prices quoted are delivery free but no order for less than 50c is solicited.

I grow flowers for the Retail Cut Flower Trade and I also sell Plants, Roots and Bulbs to those who buy in a small retail way at prices consistent with sound, healthy stock.

My success depends upon your satisfaction.

It has ever been my purpose to grow the choicest and best in the different classes of flowers not for my own pleasure alone, but also that I may meet the requirements of discriminating buyers. The plants, roots and bulbs I offer for sale are the parent-stock of the flowers I sell.

Dahlias

The Dahlia is a Fall flower that fills a place in the garden in its season, when nearly all other garden beauties have fulfilled their annual mission.

One general mistake is to plant the tubers too early. Late May or early June plantings usually give best results. However, it is best to order early to secure what you want as stocks of some varieties are sold out before planting time.

Prices quoted are for field-grown tubers delivered to any post office in the United States.

Fisher's New Gladiolus

Fisher's Apricot. Large, wide-open blooms 4 $\frac{1}{4}$ inches across of an apricot and burnt orange with crimson throat. Unusual and attractive \$	.20
Fire Flame. A very tall, slender, straight spike with reflexing blooms of a vivid fire red with darker throat markings. Very striking in the garden and good in make-up work to bring out contrast in colors	.15
Scarlet Tanager. Scarlet color with a very dark chocolate-red throat. Wide open blooms 4 $\frac{1}{4}$ inches across, well placed on strong, straight spike; several open at a time. Good as a cut flower	.20
Adelia Case. A fine sea-shell pink of a shade brighter than the justly popular Wilbrinck; also cleaner in its coloring, being free from the objectionable mottles	.15
Dorlisca Wheeler. Blush-rose, outer edges of petals splashed a darker rose, with a slight creamy tint at base of lower petals shading again to rose in the throat	.20
Ethel Callard. Brilliant, fiery red blooms that are well placed on very tall, strong spikes. The large, well open blooms shade lighter in the throat with occasional splashes of a darker red	.15

Lucille Soule. Very tall with strong, straight spikes that are usually branched; the main spike reaching a height of five to six feet. Flowers a cardinal-red that is good both in the garden and as a cut flower	\$.15
Lemon Lily. Very large, reflexing lily-like blooms of a clear lemon-yellow	.75
Gay Friar. Throat deep purple surrounded by yellow on lower petals tipped violet and white. Upper petals light lavender with darker stripes	.50
Wein Blau. Unique blooms of a blending of rich wine-red overcast blue	.50
Peachblow. Large, well placed blooms of a clear sparkling peachblow pink	.75
Karl Rosenfield. Blooms of the shade of the justly popular Karl Rosenfield peony	.35
Blush Ruffles. Well placed blooms of a rose blush shade. A beauty	1.00

In addition to the foregoing new Gladioli there are hundreds of new named and unnamed seedlings, the individual numbers of which are not sufficient to place them on the open market but prices will be quoted and bulbs sold to visitors selecting them during the blooming season.
