CONTRACT PRICES ON TOMATO SEED ONLY

NEW STONE

TWENTY YEARS

Making A Specialty And Growing Seed For The

WHOLESALE TRADE

We are growing no other seed and handle no other seed but Tomato and Ruby King Pepper.

We have for several years been working for the best interest of the canner, growing tomatoes that ripen as quick at the stem end as the blossom end. The canner can not use any part of green tomato to go in cans and canners today know that our tomato seed will ripen at stem end as quick as the blossom end.

We are not jobbers, commission men or buyers but tomato growing farmers, and we invite our trade to visit us any time in growing and harvest season and inspect our fields.

Our new machine will take the seed out of nine baskets of tomatoes a minute.

Our tomato seed are all tested by our State Board before they are shipped out, so our trade will know that our seed are right in every way.

We are no stranger to the seed trade as most every one has used our tomato seed or know of us as tomato seed specialists. Our 1926 tomato seed is our recommendation.

We will book your contract now for next Fall delivery. All seed grown and harvested this year.

OUR GUARANTEE

We started twenty years ago, we harvested the first year for some of the best Seed Houses in the country, and we are still growing for the same people. We think this is the best guarantee we can give. Each year our desire is to get our stock of tomatoes to ripen all over, when the blossom end is red the stem end will be red also, and not all kinds of shape. If you give us your contract before July first we will guarantee the quality and the price, also full delivery. At this time we do not claim to have the best, but do claim to have as good and a lot better than some. If we have been pleasing a lot of other trade, let us see if we can please your trade. This year we will grow and harvest no other seed but tomato and Ruby King Pepper.
