NEW HAVEN NURSERIES
NEW HAVEN, MISSOURI

JUST ABOUT OURSELVES

OVER fifty-five years have been spent in building up our nursery business at New Haven. It was established in 1872 by Julian Bagby, the father of the present management. Our employees have grown up in the business and are honored citizens of the community, and some have been with us over forty years. We state this fact that our customers may know that their orders are handled by responsible men.

All of the trees we offer are grown on our own land and under our own care. We are proud of our record of the orchards that are growing in every state from the trees we have produced. Some of our customers have been with us for more than forty years, and we expect to keep right on serving a larger circle of new customers every year with Bagby quality trees. This list contains only the standard, time-tried and tested varieties.

Our years of experience in the nursery business have taught us that our customers like our way of doing business, for they know that we do not exaggerate the merits of our varieties. We produce good stock, true-to-name, pack it well, ship it promptly and in good condition, and charge only reasonable prices. Let us fill your order.

The Way We Do Business With You

Terms Cash, unless otherwise agreed upon. All orders to be sent C. O. D. must be accompanied with one-fourth the amount in cash. Remit by Money Order, Registered Letter or Check.

Order Early It is important that you order early. For the benefit of customers who wish to order early, but do not care to spare all of the money when the order is sent, we will accept such early orders if 10 per cent of the amount is sent with order. We will reserve the stock for you. Balance to be sent when you order the stock shipped.

Directions for Ordering Write name and address plainly. Always state distinctly the sizes and grades of stock ordered as per the grades given in this list. When named varieties cannot be furnished, we reserve the right to substitute such varieties as will fill the season as near as possible, unless prohibited in the order. Persons unacquainted with the different varieties will generally get a much better selection by leaving the assortment to us. Keep a correct copy of the order, so that when stock arrives you will know exactly whether you get what you have ordered. If we make mistakes, they are accidental, and we wish to right them.

Prices The prices are for the quantities named, but five, fifty and five hundred will be supplied at ten, hundred and thousand rates respectively—i. e., five at half the price of ten; fifty at half the price of one hundred, and so on.

Packing All goods are packed free. Notwithstanding this fact, we use the utmost care and pack according to the distance and our customers' best interests. **Everything is correctly labeled.**

Our Guarantee The fact that nurserymen, planters and fruit growers of the country have ordered of us year after year, is as good a guarantee as can be given by any other nursery of over fifty-five years' standing. But if a mistake occurs we will cheerfully correct it.

We use the greatest care possible to have our stock true-to-name, and should any prove not true, we stand ready to replace it free of charge, or to refund the purchase price, but it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for any sum greater than the amount originally paid for said stock. We guarantee stock to reach customers in good condition.

All shipments will be accompanied by Certificate of Inspection of the State Entomologist. Good stock, true-to-name, sold direct to the planter at reasonable prices is our aim.

Our Location NEW HAVEN is on the Missouri Pacific Railroad and also on the Missouri River, sixty-seven miles west of St. Louis. Our soil is the very best for producing well ripened stock with splendid roots. Our facilities for prompt shipments are first class.

Free Freight On all orders amounting to \$10.00 or more at the single, ten and hundred rates, accompanied by full remittance, we will **prepay** the freight to your railroad station, if east of Colorado. If you wish the shipment made by express, we will refund you the freight allowance.

We solicit correspondence and personal inspection of our stock, confident that it will compare favorably with the best.

Apples

The first fruit, both in importance and general culture, is the Apple. Its period, unlike that of all other fruits, extends nearly or quite through the year. By planting judicious selections of Summer, Fall and Winter sorts, a constant succession of this most desirable fruit will be obtained. Apple planting can never be overdone.

Our Apples are grown on Missouri River upland, on well branched, whole roots, smooth, clean and well grown in every respect. **No better trees can be found anywhere.**
