Gladiolus Price List OREGON COAST-GROWN BULBS

MORRIS BULB CO., *Waldport, Ore.*

1927-1928

This is the only price list we issue

READ THIS BEFORE ORDERING:

We exercise the greatest care to have everything true to name. We will replace any stock untrue to name or refund the money. We want only satisfied customers.

Terms—Net cash before shipment; 25 per cent deposit will hold orders until March 1st. Orders not fully paid will be sent C. O. D. for the balance at that time.

½ dozen sold at the dozen rate; 25 bulbs at the hundred rate. A single bulb at a tenth of dozen rate except that no single bulb is sold for less than 10 cents.

250 bulblets at thousand rate.

Shipment—We pay transportation charges on orders of \$1.00 or more. Eastern orders will be mailed as soon as danger of frost is passed.

All stock offered, and orders accepted subject to prior sale.

Substitutions—If we are out of size ordered we will send larger quantity of the next smaller size we have in stock, unless you request us not to do so.

We never substitute another variety except in bulblet collections; where one variety listed may be gone, we will substitute a variety of equal or greater value. Stock limited in some varieties and sizes. Worthwhile extras included in each order.

Bank Reference—First National Bank of Corvallis, Oregon.

Where prices have dropped, we protect our early customers by adjusting the prices or adding bulbs.

Sizes—Large (L) 1¼ inch up; medium (M) ¾ to 1¼ inch; small (S) under ¾ inch. We give liberal count and often extras.

Abbreviations—(K) A. E. Kunderd, (D) Richard Diener, (C) Coleman, (Dec) Decorah, (A) Austin, (Z) Zeestraten, (Pf) Pfitzer).

We cannot list many of our foreign varieties this year as they were purchased abroad and are subjected to federal restrictions until next year.

Visitors welcome at our gardens on the Pacific coast during this season.

Why Grow Glads?

1. **Adaptability**—Gladiolus may be used in beds, borders, clumps, singly or in combination with other flowers:

2. **Ease of Cultivation**—Ideal for amateurs, as they respond to good treatment very quickly, yet on the other hand will stay alive and perform even when neglected or under conditions which discourage other flowers:

3.—**Variety**—There is no limit, apparently, to the combinations of colors which may be obtained in this flower.

4. **Hardiness**—This plant is virtually free from pest and disease.

5. **Continuity of Bloom**—Gladiolus blooms will deck your garden from spring until frost, if you select the proper varieties, arrange for successive plantings or use different sizes of bulbs.

6.—**As a Cut Flower**—Is unexcelled for interior decoration and lasting quality.

7. **Utility**—Can be grown for cut flowers, exhibition, landscape or commercially.

8. **Growing Methods**—They may be propagated from bulbs, seed or cormels. Grow a few in your garden and you will want more space for them the next year.

A FEW BARGAIN COLLECTIONS OF BULBLET
