Glorious

GLADIOLI

With their wonderful range of color, nothing is finer for vases than a bunch of Gladioli. Even a single spike of bloom in a vase is a bouquet itself. The flower develops to greater perfection if cut and placed in water than if left on the stem and will last for days. All bulbs guaranteed to bloom the first season.

BARON HULOT. Rich, deep indigo blue; a fine medium flower. 15c each; 12 for \$1.50; 100 for \$10.50.

WAR. Deep blood-red, very showy and popular, strong blooms. 15c each; 12 for \$1.50; 100 for \$10.00.

MRS. FRANK PENDLETON. Beautiful rose-pink, carmine blotched throat. 10c each; 12 for \$1.00; 100 for \$7.25.

SCHWABEN. Rich canary-yellow, red spotted lower petals. 8c each; 12 for 80c; 100 for \$5.50.

CHICAGO WHITE. Large white with faint lavender markings; strong spikes. 8c each; 12 for 75c; 100 for \$5.25.

MRS. FRANCIS KING. Bright scarlet of pleasing shade. One of the most popular varieties known. 8c each; 12 for 80c; 100 for \$5.75.

PANAMA. Deeper pink than America and larger. Very popular. 7c each; 12 for 75c; 100 for \$5.00.

A. LYNN FREE,
PRESIDENT

E. STANLEY BRIDGES,
VICE PRESIDENT

JOHN W. FREE STATE BANK

CAPITAL STOCK \$50,000 SURPLUS \$10,000

PAW PAW, MICH.

Sept. 19th, 1925

To Whom It May Concern:

We are pleased to say that in our judgment the Model Garden Club are financially responsible. This institution has done business with us for several years and we are personally acquainted with the management. The business is being conducted in a businesslike manner.

We believe that no one need hesitate to forward money to this Company, and if they do so, they will promptly receive the goods purchased in return for their money.

Very truly yours,

JOHN W. FREE STATE BANK

By

E. Stanley Bridges
President.

The First National Bank

CAPITAL AND SURPLUS \$100,000.00

PAW PAW, MICH.

Sept. 12, 1925.

TO WHOM IS MAY CONCERN.

We are acquainted with the management of the Model Garden Club and they are considered competent, honorable and reliable. It is a pleasure to recommend it.

Very truly,

E. C. Mack
President.

ETP/AMM

AMERICAN RAILWAY EXPRESS CO.

Paw Paw, Mich.

Sept 22-25

To whom it may concern:

Having had a large volume of business from the Model Garden Club, all of which has been highly satisfactory, I can heartily recommend them to take care of any and all obligations promptly and efficiently.

H. H. Outman,
Agent.

Extra State Post Office PAW PAW MICHIGAN.

September
19th. 1925

To whom it may concern:

Being personally acquainted with the Model Garden Club Company of Paw Paw, Michigan, I have no hesitancy in recommending them to the public. This Company is reliable, responsible and treat their customers with courtesy, honesty and despatch.

Respectfully,

H. C. Mason
Postmaster.

These Suggestions Will Help You in Making Out Your Order

PLEASE USE THE ORDER BLANK

Whenever possible, listing all of the items of nursery stock on one side and all of the items of seed on the other side. Please do not write on the order blank for information, to do so will delay the filling of your order.

GIVE YOUR FULL ADDRESS

The name and address are both so frequently omitted from the order that a good rule to follow is to **WRITE YOUR NAME AND ADDRESS FIRST**, and then make out your order.

HOW TO SEND MONEY

Use a post office order or check whenever possible or an express order. These methods are safe and you are protected in case of loss. Never send coin or currency in the mail unless in registered letter.

We do not send goods C. O. D. Cash must accompany your order.

WE CANNOT SUPPLY ANYTHING NOT LISTED

We have included only those items which have proven worthy in this catalog. We will add to our list in the future as demands may require and our ability to supply additional items increases.

SEEDS AND NURSERY STOCK ARE MAILED SEPARATELY

Seeds require a DRY package, while nursery stock requires MOIST packing. So, we make separate packages of Seeds, Strawberry Plants and Nursery Stock. All seed orders are filled upon receipt of order after which the order is sent to the Nursery Department to be completed, therefore, do not write us just because you receive your seeds, but not your Nursery Stock as this portion of your order always follows the Seeds.

Read Our "Model Garden Club" Guarantee

WE GUARANTEE our Nursery Stock and Seeds to reach the purchaser in vigorous growing condition and will replace any stock or seeds arriving in poor condition upon written statement from the express agent or postmaster, if notified within five days after receipt of shipment, otherwise we will assume that the stock arrived in good condition.

We will replace any tree or plant that dies the first season, at a cost of one-half of the catalog price, provided notice and order for replacement are received by us on or before September 30th, following the date of purchase.

WE GUARANTEE that all Nursery Stock has been inspected by a State Inspector, while growing in the field and that it is free from disease or insect infestation, and that all Seeds have been rigidly inspected and tested for purity and germination. We exercise greatest care in labeling and handling all stock and seeds and it is agreed that we shall not be liable, in case of error, for more than the original purchase price.

M. G. C. GLORIOUS GLADIOLI

The Gladiolus is the most satisfactory flower considering everything, that we know of. The bulbs do not cost much, they are easily planted and anyone can take care of them. As a cut flower they are far superior to any other Summer bloomer, either for lasting qualities or for the various uses for which they can be employed.

MODEL GLADIOLUS MIXTURE.

A mixture of varieties containing some of the most beautiful and showy colors. 50c; 25 for 75c; \$2.50, postpaid.

Part of Our Gladiolus Field in Bloom.

Gladiolus, Niagara.

AMERICA. Beautiful flesh pink, faintly tinged lavender. Large flowers. 6c each; 60c per dozen; \$4.00 per 100, postpaid.
SCHWABEN. Rich canary-yellow, red splotched lower petals. 8c each; 80c per dozen; \$5.50 per 100, postpaid.
WAR. Deep blood-red, very showy and popular, strong blooms. 15c each; \$1.50 per dozen; \$10.50 per 100, postpaid.
NIAGARA. Creamy yellow, slightly mottled; strong spikes and long stems. 9c each; 85c per dozen; \$6.25 per 100, postpaid.
CHICAGO WHITE. Large white, with faint lavender markings; strong spikes. 8c each; 75c per dozen; \$5.25 per 100, postpaid.
PANAMA. Deeper pink than America, and larger. Very popular. 7c each; 75c per dozen; \$5.00 per 100, postpaid.
MRS. FRANCIS KING. Bright scarlet of pleasing shade. One of the most popular varieties to own. 8c each; 80c per dozen; \$5.75 per 100, postpaid.
MRS. FRANK PENDLETON. Beautiful rose pink, carmine blotched throat. 10c each; \$1.00 per dozen; \$7.25 per 100, postpaid.
PRINCE OF WALES. A large, tall growing variety with heavy blooms of bright coral-pink. The massive spikes are particularly handsome and artistic. 15c each; \$1.50 per dozen; \$10.50 per 100, postpaid.
ANNA EBERIUS. Has created a sensation everywhere. Flowers large, slightly ruffled, of a striking dark velvety purple. 15c each; \$1.50 per dozen; \$10.50 per 100, postpaid.
BARON HULOT. The only variety of its color—a rich velvety purple, a royal color. Flowers small, of fine shape and set on a slender spike. Contrasts well with a yellow variety, making attractive and showy bouquets. Plant dwarf; blooms midseason. Each, 15c; doz., \$1.50; 100 for \$10.50, postpaid.

A Bed of Gorgeous King Humbert Cannas.

M. G. C. Brilliant Flowered Cannas

No plant can take the place of the Canna. For a handsome and showy display, they are unrivaled. This is so on a large lawn where an extensive planting is desired, and also on a small plot where there is room for only two or three plants. The rich foliage is a pleasant sight all summer, while the brilliant flowers add just the necessary touch of gorgeous colors. A bed 4 ft. in diameter takes 7 plants, a 7 ft. bed 19 plants, a 10 ft. bed 37 plants, a 16 ft. bed 91 plants. Set plants 18 inches apart.

PRESIDENT. 4 ft. Beautiful red with green foliage. Flower 7 inches across when fully opened. Strong grower. Each, 20c; doz., \$2.00, postpaid.

WINTER'S COLOSSAL. 5 ft. Vivid scarlet. Has been voted one of the most beautiful Cannas. Retains its brilliancy as long as the flowers last. Green foliage. Each, 20c; per dozen, \$2.00, postpaid.

CITY OF PORTLAND. Beautiful glowing pink, fine for edging; green foliage; 3½ feet high. Each, 20c; per dozen, \$2.00, postpaid.

YELLOW KING HUMBERT. 4 to 5 ft. Green foliage. Flowers deep orange yellow, immense and beautiful. Each, 20c; per dozen, \$2.00, postpaid.

FLORENCE VAUGHAN. 5 ft. Pure yellow dotted with red. Green foliage. Each, 20c; per dozen, \$2.00, postpaid.

KING HUMBERT. 4 ft. Shining bronze leaves. Flowers an orange scarlet. One of the most popular and beautiful of all Cannas. Each, 20c; per dozen, \$2.00, postpaid.

WHITE EUREKA. 3 to 4 ft. Green foliage. The best white Canna. Large clusters of creamy white flowers, produced freely. 25c each; \$2.50 per dozen, postpaid.

The SURE TO BLOOM Beautiful Dahlias

Choice
Dahlia
Mixture.

The Dahlia is one of the most showy of our Autumn flowers. Commencing to flower in August, they are a perfect blaze of bloom until stopped by frost in late Autumn. No other plant blooms over such a long period with such a wealth of gorgeous flowers. Our prices are for well developed, plump roots, which are sure to grow. At the prices named, we pay postage to any part of the United States.

Ball-Shaped and Decorative

MRS. J. GARDNER CASSATT. A beautiful mauve-pink, large in size and of fine form; real long stems. One of the best. 30c each; 6 for \$1.60; 12 for \$3.00.

MAID OF KENT. Cherry-red, tipped white; a variegated Dahlia with very unusual markings. 20c each; 6 for \$1.25; 12 for \$2.00.

A. D. LIVONI. Beautiful deep rose; well-formed flowers on long stems. One of the best blooming Dahlias. 25c each; 6 for \$1.25; 12 for \$2.00.

YELLOW DUKE. The finest yellow Dahlia grown; very large, tall stems, fine for cutting. 25c each; 6 for \$1.25; 12 for \$2.00.

SYLVIA. A lovely flower of large size, being an enchanting shade of pink becoming lighter toward the center. It is a strong grower and profuse bloomer. 25c each; 6 for \$1.25; 12 for \$2.00.

Cactus Dahlias

QUEEN OF HEARTS. One of the best white Cactus. Very large, full flowers. A strong, vigorous grower and continuous bloomer. 25c each; 6 for \$1.25; doz., \$2.00.

FLORADORA. The largest and finest dark Cactus; brilliant crimson-maroon; flowers very large and of fine form. 25c each; 6 for \$1.25; doz., \$2.00.

PRINCE OF YELLOWS (Hybrid Cactus). One of the largest of its class. Color is a charming yellow. Blooms are held on nice upright stems. 25c each; 6 for \$1.25; doz., \$2.00.

CHOICE DAHLIA MIXTURE. All colors and containing the above named varieties. We have quite a lot of mixed Dahlias, all colors and kinds, which we sell cheap. They are all double, but cannot promise any special colors. They are good, sound bulbs, all good bloomers, and a bargain at the price. 6 for 75c; doz., \$1.25, postpaid.

New Decorative Dahlia, Mrs. J. G. Cassatt.

Giant Hyacinthus

(HYACINTHUS CANDICANS)

This variety of Hyacinthus is quite different from the kind which is planted in the Fall for Spring blooming. It grows into a stately plant nearly 4 feet tall and produces a lot of dark green Yucca-like leaves, producing a strong, heavy stem bearing on its branches pendant pure white flowers. Well-grown plants quite often carry as many as 60 blooms each. Because of their strong growth the plants should be set not closer than 2 feet apart so that they can develop freely. Blooming size bulbs, 25c each; 3 for 60c; doz., \$2.00, postpaid. Plants grown from seed bloom the second year. Seed, 10c per pkt.

Cineraria

Cinerarias are truly beautiful, with their bright colors and delicate fragrance. If plants are wanted for blooming around Christmas time, the seed should be sown during April. For blooming during early Spring, June or July sowing should be made. Sow the seed in shallow pans or boxes containing a fine, fairly sandy soil. Sow the small seeds thinly and barely cover with very fine soil which should be carefully run through a small meshed sieve. Keep shaded and moist until the seedlings appear. Transplant as soon as they are large enough to be handled. This large-flowered strain of Cineraria is unsurpassed in size of flowers. Contains a wide range of beautiful colors, some with a large white eye. Pkt., 25c; 3 pkts., 65c.

Cineraria, 'Hybrida Grandiflora.'

Hyacinthus Candicans.

Hardy "Model Garden Club" Roses

Our Roses Are POT-GROWN on Own Roots

Everblooming Hybrid Tea Roses

Without question, the most popular Roses today, superseding all other classes for general planting. These Roses are the result of crossing the tender everblooming Tea Roses with the hardy Hybrid Perpetuals or "June Roses." In other words, they inherit the good points of both the Teas and Hybrid Perpetuals, and bloom continually from the beginning of Summer until Fall frosts set in. Both our first size one-year and our two-year-old plants, set out this Spring, will bloom this year. The two-year-old plants should have an abundance of Roses throughout the entire Summer.

AMERICA. Regarded by many Rose growers as the most beautiful Rose in the world. Its beauty will astound you. Buds of great length and pointed, opening into an enormous flower from 4 to 6 inches in diameter, and borne on long stiff stems, making it an ideal cutting variety. Color a rose-pink or peach blow shade, and very fragrant. Bush a healthy grower with dark green foliage, and an exceedingly free bloomer. First size plants, 50c each; 2-yr., \$1.25, postpaid.

AMELIA GUDE. A cross between Columbia and Sunburst. A charmingly beautiful yellow Rose, outer petals reflexing deep yellow, center shading to cream. Buds long and pointed; flower medium size; very fragrant. Vigorous, upright grower and free bloomer. First size plants, 45c each; 2-yr., \$1.10, postpaid.

BESSIE BROWN. Blooms are very large in size, full double and of perfect shape; slender pointed buds with large shell-shaped petals; creamy white, flushed and tinged with pink. Deliciously sweet; vigorous grower; and flowers produced in wonderful profusion all season.

COLUMBIA. A glorious new Rose that blooms all the time, almost thornless, hardy as an oak and thrives in any location. Wonderful, strong shoots four feet or more in length, each producing a magnificent bloom, often measuring six inches across. Color a deep peach pink, deepening into a glowing pink. The fragrance is beyond description, sweeter than the American Beauty. One of the most exquisite Roses we have ever seen. First size plants, 40c each; 2-yr., \$1.00, postpaid.

Columbia.

JONKHEER J. L. MOCK (Giant La France). A true everbloomer with gigantic flowers on stiff, erect stems. Long, pointed buds and very double, full flowers of deep imperial pink. Highly perfumed, and the largest of all hardy everblooming Roses.

LA FRANCE. Silvery-rose, with pink shades and satin-like petals of unsurpassable beauty; large, symmetrical and deliciously fragrant blooms from June until frost.

MRS. AARON WARD. A Rose of unusual individuality and charm, to please the most fastidious taste. Strong, hardy and thrifty in growth; beautiful in shape and foliage. The large, full and perfect flowers are borne without interruption all Summer on rigid upright stems and everyone loves the color, which is coppery orange in the bud, developing to golden orange in the open flower. First size plants, 35c each; 2-yr., 75c, postpaid.

RED COLUMBIA. Deep brilliant red. One of the freest bloomers. No Rose garden is complete without this grand variety. First size plants, 40c each; 2-yr., \$1.00, postpaid.

RHEA REID. Vivid scarlet-crimson; flowers large, bold and of splendid substance. It has a strong, disease-resisting constitution and is always in bloom. As an all-around garden bush Rose it has no superior.

MME. BUTTERFLY. Color a tender pink and gold. One of the best for cutting. Very fragrant. A general favorite. First size plants, 35c each; 2-yr., 75c, postpaid.

Prices: All Roses in this catalog, except where otherwise noted, first size one-year plants, 30c each; 2-year-old plants, 65c each, postpaid.

America.

ETOILE DE FRANCE. (The Gold Medal Rose of France). This Rose has been selected from the unlimited number of hardy Roses as the acme of perfection. A brilliant shade of rich velvety crimson. Very striking. Flowers are extremely large, on strong, stiff stems, and buds are long and pointed.

HELEN GOULD. An incessant grower and bloomer. Long, beautiful buds and full, double flowers of warm, rosy crimson, resembling a red ripe watermelon.

MME. CAROLINE TESTOUT. Brilliant satiny Rose, deepening at center and bordered with silvery rose; immense broad petals and extremely large flowers. An exceptionally free bloomer.

OPHELIA. Brilliant salmon flesh shaded with rose on outer edge of petals, with a great heart of glowing peach pink and orange, yellow blendings, all passing finally to lighter shades; fragrant as Richmond, faultless in form of bud and flower; immune to mildew and black rot.

RADIANCE. Brilliant rosy carmine, shaded with rich opaline pink tints in the open flower, which is large, full, of fine form, with cupped petals. A constant and fragrant forcer, producing strong, upright canes and an excellent keeper in Summer.

SUNBURST. Orange-copper or golden orange and golden yellow, all intense shades, giving an extremely brilliant effect. A giant Rose, long, pointed buds, vigorous, free and healthy, and splendid keeping qualities as a forcer.

WHITE KILLARNEY. A pure white sport from the pink parent, the newest thing in a forcing Rose. A true Waban strain and very popular.

Madame Butterfly.

Hybrid Perpetual or June Roses

AMERICAN BEAUTY. One of the finest Roses grown. Rich glowing crimson, very delicately veined and shaded; of a most exquisite fragrance. First size, 1-yr. plants, 40c each; 2-yr., 85c, postpaid.

DINSMORE. A general favorite on account of its vigor of growth, constant and prolific bloom, which begins early and continues all through the season. Flowers large, perfectly double; rich crimson-scarlet.

GENERAL JACQUEMINOT. The premier hardy crimson Rose. Buds and flowers are considered models of perfection and its brilliant shining color is the standard by which other Roses are judged.

MADAME MASSON. Blooms nearly all the time, bearing numbers of large, full, double flowers of unusual beauty and wonderful fragrance; clear, bright rose; very attractive and striking.

PAUL NEYRON. The largest Rose ever produced, sometimes measuring six inches across. In color, it is a most beautiful clear rose-pink and of delicious distinctive fragrance equal to that of American Beauty. Stems almost thornless and grows very rapidly.

WHITE AMERICAN BEAUTY. This Rose is renowned as the very highest type of its class and the best snow-white Rose ever produced. Each plant produces hundreds of immense pure white flowers 4 to 5 inches across. A vigorous grower and very hardy.

MADAME CHARLES WOOD. Bright, fiery red; a generously large Rose, very double, full and fragrant; handsome, showy, and a constant bloomer throughout the season.

MADAME PLANTIER. A large, double, pure white Rose that can be especially recommended for cemetery planting. A continuous bloomer.

General Jacqueminot.

PAUL'S SCARLET CLIMBER. This new hardy climber was originated in England. It is not a Rambler, but is an entirely distinct hybrid and without question the most important addition to the list of Climbing Roses in many years. Incomparable in brilliancy of color, which is a vivid scarlet maintained without burning or bleaching until the petals drop. Flowers are medium size, semi-double; very freely produced in clusters of from three to six each on large branched canes, the plants being literally covered with flowers from top to bottom. It is strong, perfectly hardy, and has been awarded the Gold Medal by the National Rose Society of England; also the much coveted Gold Medal of the Bagatelle Gardens in Paris, France. Most highly commended by the English horticultural press and the American Rose Society.

Rambler Roses

BLUE RAMBLER. Flowers rosy-lilac when opening and change to a metallic blue. Very showy.

RED DOROTHY PERKINS (Excelsa). The most popular red Rambler. Flowers in large clusters of rich scarlet.

THOUSAND BEAUTIES (Tausendschoen). A mass of bright, double blossoms borne in large clusters; colors of every imaginable shade from white to deep pink, all on one plant.

YELLOW RAMBLER. A grand variety, quite similar to the old Crimson Rambler, with the exception of color. Rich yellow flowers, borne in large clusters, blooms profusely and is as hardy as an oak.

CRIMSON RAMBLER. An old favorite. Large, red flowers.

Price, all Roses in this catalog, except where otherwise noted, first size one-year plants, 30c each; 2-year-old plants, 65c each, postpaid.

Dr. W. Van Fleet.

MRS. JOHN LAING. A beauty in clear, bright, shining pink; immense full blooms on long, stiff stems; sweetly scented. One of the most dependable Fall bloomers.

Hardy Climbing Roses

Climbing Roses are useful for covering arbors, walls, etc.

CLIMBING AMERICAN BEAUTY. A sturdy, vigorous grower immune to insects and disease. Roses from 3 to 4 inches across grow on individual stems and it possesses the same wonderful fragrance of the old American Beauty.

DOROTHY PERKINS. Beautiful shell pink color, which holds for a long time, fading finally into a deep, rich rose; very sweet scented and fully equal to Crimson Rambler in hardiness, habit of growth and blooming qualities, while superior in foliage.

ALIDA LOVETT. Bright shell pink with shadings of sulphur-yellow at the base of petals. Similar in size and form to Dr. Van Fleet.

BESS LOVETT. Clear, bright crimson, double, full cupped, and of notable lasting quality. Resembles Climbing American Beauty, but is brighter in color and more fragrant.

CHRISTINE WRIGHT (Climbing Pink American Beauty). Very large, double flowers of exquisite wild-rose pink, produced on a strong and hardy plant of good habit. Blooms very early.

DR. W. VAN FLEET. This Rose, because of its dainty color and exquisitely shaped buds and flowers, appeals to all. The long pointed buds are of flesh pink borne on stems 12 to 18 inches long. Splendid for cutting.

SPECIAL

Our selection of choice varieties in surplus at shipping time: Strong plants in good assortments, each labeled with name, 6 for 85c; doz., \$1.50, postpaid.

EXTRA SPECIAL

Same, not labeled: 6 for 75c; doz., \$1.25, postpaid.

Climbing American Beauty.

Hardy Ornamental and Flowering Shrubs

Flowers Every Day From Spring to Fall

Subtract from the bareness of your home, add to its attractiveness, and multiply your pleasure and pride in your home, by planting Flowering Shrubs. Plant ornamentals around your house whenever you set out plants in your garden! Select varieties that will provide continuous bloom through the season.

A Home Dressed With Shrubs.

BARBERRY THUNBERGI. An unequalled shrub for hedge planting. Yellow flowers in June with a foliage of dense growth, with gracefully drooping branches. It may be trimmed if desired. Grows three feet. 35c each; 2 for 60c; 4 for \$1.00, postpaid. Special prices in lots of 50 or more.

DEUTZIA (Pride of Rochester). One of the finest shrubs ever introduced. The long, slender branches are bent to the ground with their loads and wreaths of rosy-white, tassel-shaped flowers, through the Summer. Grows four to six feet. Each 35c; 2 for 60c; 4 for \$1.00, postpaid.

3-year, larger shrubs, double price quoted. Finest stock you ever saw. Shipped at your expense.

Deutzia.

CORALBERRY (Symphoricarpos). Through Spring and Summer the Coralberry is loaded first with bright red blossoms and then with glossy crimson berries that remain through the Winter. Grows four feet high. 35c each; 2 for 60c; 4 for \$1.00, postpaid.

HYPERICUM. Bright golden flowers two inches across are borne in profusion during the Summer and Fall. Very hardy and one of the most popular shrubs. Grows four feet. Each, 35c; 2 for 60c; 4 for \$1.00, postpaid.

Lonicera Halleana—Hall's Japan Honeysuckle.

ALMOND, WHITE. Same as the pink except has beautiful white flowers on it. Blooms from roots clear to the tip of the branches. Wonderful show in early Spring. Blooms about the 5th of May. Extremely hardy. Each, 50c; 3 for \$1.25, postpaid.

REDBUD (Cercis Canadensis). Even before the leaves are out in the Spring, every branch and twig is covered with wreaths of rosy red flowers and buds, ushering in early Spring with a riot of crimson color. With its large heart-shaped leaves it affords excellent shade after the flowers are gone. Grows 15 feet. Each, 35c; 2 for 60c; 4 for \$1.00.

Philadelphus—Mock Orange.

ALTHEA (Rose of Sharon). A very hardy shrub of rapid growth. Flowers profusely in the late Summer and Fall, after other flowers are all gone. Not affected by insects. Grows 12 feet high. 35c each; 2, 60c; 4, \$1.00, postpaid.

FORSYTHIA (Golden Bell). Very early in the Spring, often before the snow is gone, this handsome shrub is entirely covered with golden-yellow, bell-shaped flowers. Branches cut off in the Winter and placed in a vase of water in the house will bloom profusely. Grows six feet. 35c each; 2 for 60c; 4 for \$1.00, postpaid.

Althea or Hibiscus—
Rose of Sharon.

BUTTERFLY BUSH. The most perpetual bloomer and one of the finest of all shrubs. Beautiful lilac-colored flowers, attracts a myriad of butterflies which only add to beauty. Grows four to six feet high. 60c each; 3 for \$1.50, postpaid.

CORNUS FLORIDA (Dogwood). A beauty of early Spring. White flowers three inches across, streaked with yellow, red and purple, are borne in profusion before the leaves appear. Grows 15 feet high. 35c each; 2 for 60c; 4 for \$1.00, postpaid.

Forsythia Fortunei—Golden Bell.

Model Garden Club Shrubs Are All Hardy Shrubs

Hydrangea P. G.

PHILADELPHUS (Syringa or Mock Orange), Giant Flowered. Tall, vigorous grower with large foliage and flowers. Valuable for backgrounds, screens, grouping and specimens. Flowers white and very fragrant. Beautiful for cutting. 35c each; 2 for 60c; 4 for \$1.00.

Hydrangea

ARBORESCENS GRANDIFLORA (Snowball Hydrangea). This is a rare beauty, bearing in great profusion immense clusters of pure white flowers that make a beautiful showing in June and July. Each, 60c; 2 for \$1.00; doz., \$6.00.

PANICULATA GRANDIFLORA. One of the most magnificent hardy shrubs, bearing immense panicles of bloom a foot long, white at first, turning to rose in Autumn. Commence blooming in August. Will bloom the same year they are set out. 60c each; 2 for \$1.00; doz., \$6.00.

Spirea

ANTHONY WATERER (Red). Handsome, round bushes three feet high and as wide. Begins to bloom in June and continues until Fall. Rose-red flowers are borne in full flat clusters all over the bush. 50c each; doz., \$5.00, postpaid.

VAN HOUTTEI (Bridal Wreath). A leader among shrubs, and a beautiful ornament at all seasons. Excellent for clump plantings. In May and June the arching branches are covered with masses of little white flowers. Grows six feet. 35c each; 2 for 60c; 4 for \$1.00. Special prices in quantities.

Spirea Van Houttei as a Hedge

Is ideal as a screen, and beautiful as a background.

Spirea Van Houttei Hedge.

Hedge Plants

It takes a hedge to set a yard off right. Either as a partition line, a border, drive, or a screen at the back. For a screen at the back to grow tall, and not be trimmed very much Bridal Wreath (Spirea Van Houttei) can't be beaten. If you want a low hedge to be kept trimmed plant Barberry Thunbergi or any of the three Privets.

	Doz.	25	100
Barberry, Thunbergi	\$3.00	\$5.00	\$20.00
Spirea Van Houttei	3.00	5.00	20.00
California Privet	3.00	5.00	20.00
Amor River Privet	3.00	5.00	20.00

ABOUT SIZES. Our shrubs are all nice, thrifty, 2-year-old plants, 12 to 20 inches high or more, and well rooted. If you want extra large plants, 3 to 4 years old, we can supply them on special order, at double the prices named, not postpaid.

Use **STIM-U-PLANT** and **WIZARD** Sheep Manure if you wish to have beautiful Shrubs and Vines.

Buddleia—Butterfly Bush.

Privet Makes a Beautiful Hedge.

Hardy Climbing Vines

BOSTON or JAPANESE IVY. A grand hardy climbing vine for covering houses, churches, schools, etc. Clings firmly to the smoothest surface of rock or wood. The glossy leaves assume, in the Autumn, the most beautiful tints of scarlet and crimson. The best vine in existence for growth on brick walls. Each, 50c; 3 for \$1.25, postpaid.

CELASTRUS SCANDENS (Bittersweet). A most desirable climber, with bright glossy foliage, and especially prized for its clusters of artistic orange berries, which are borne in profusion in the Fall. Always plant at least three vines to secure good coverings of fruit. 2-yr., 50c each; 3 for \$1.25, postpaid.

HONEYSUCKLE (Hall's Japanese). Fragrant white and creamy yellow flowers bloom the season through, followed by brilliant scarlet "fruits" of arresting beauty. 35c each; 2 for 60c; 4 for \$1.00, postpaid.

TRUMPET VINE. (Bignonia Radicans). A rapid climber that will grow to your roof if you let it. Large clusters of orange-red, trumpet-shaped flowers bloom all Summer long. It is also attractive for its foliage. 35c each; 2 for 60c; 4 for \$1.00, postpaid.

WISTERIA MAGNIFICA. A strong, rapid-growing vine, with foliage of an evergreen nature and purple-lilac, pea-shaped flowers, borne in dense, long racemes before the opening of the foliage. 50c each; 3 for \$1.25, postpaid.

Wisteria.

Giant Washington Asparagus

\$400.00 to \$600.00 Per Acre

Growing the New Rust Resistant Variety

Pedigreed Washington Rustproof, New American Strain.

GIANT WASHINGTON. A wonderful new variety developed by the United States Department of Agriculture. It is the only rust resistant variety of Asparagus grown. It is a fast growing variety with a delicious flavor and tenderness, yielding stalks two inches in diameter, and even when twelve inches long are perfectly tender. Tests in all parts of the country have proven conclusively that the new Giant Washington is superior to any other variety and the best yielder. Pkt., 10c; oz., 30c; $\frac{1}{4}$ lb., 90c; lb., \$3.00, postpaid.

PALMETTO. Another excellent variety and, with the exception of Giant Washington, is the nearest rustproof of any. It is a wonderful yielder, producing large, thick, dark green shoots, nearly as large as Giant Washington. Pkt., 5c; oz., 10c; $\frac{1}{4}$ lb., 30c; lb., \$1.00, postpaid.

COLUMBIAN MAMMOTH WHITE. The best white sort; mammoth in size. Pkt., 5c; oz., 15c; $\frac{1}{4}$ lb., 40c; lb., \$1.25, postpaid.

Prices of Asparagus Plants

Prices Postpaid on Asparagus Plants

GIANT WASHINGTON. 1-year plants, Washington Rust Resistant: Doz., 40c; 25, 60c; 100, \$2.00; 200, \$3.75; 300, \$5.00; 500, \$7.50; 1000, \$13.50. 2-year plants, Washington Rust Resistant: Doz., 60c; 25, 85c; 100, \$2.75; 200, \$5.00; 300, \$6.75; 500, \$10.00; 1000, \$18.00.

New Golden Evergreen Sweet Corn

This new variety is the result of a cross between Evergreen and Golden Bantam. The ears are 6 to 8 inches long, well filled with deep kernels of rich yellow color. Has true Evergreen habit, remaining equally as long a time in good cooking condition. Has all the delicious quality of the Golden Bantam, with an added sweetness and superior flavor. For the home garden and fancy market trade this Corn has no equal. Plant both Golden Evergreen and Bantam and have a supply of the very best Sweet Corn during the entire season. Pkt., 10c; $\frac{1}{4}$ lb., 15c; lb., 40c.

Golden Evergreen

Giant Washington Asparagus.

Notice to Our Customers

You may take out 5 per cent on order amounting to \$5.00 or over, sent in before 15th day of March, on anything in this catalog.

"Model Garden Club" Earliest and Best Tomato

The earliest and best Tomato grown. The "wonder tomato"—earlier than "Earliana" and better than "Stone," and the best shipper ever grown. Most perfect fruit of all. No scalds, blight or cripples. Produces enormous crop of beautiful, solid, meaty, smooth, unscarred, even, and almost seedless fruit of very finest flavor.

Not only is it the most beautiful Tomato you ever saw, but it also has the finest flavor you ever tasted.

It is almost seedless. A marvelous stem setter; often ten fruits in first cluster, and all solid and meaty.

It has just enough foliage—will stand plenty of manuring without going to vine.

It is the most perfect shipping Tomato ever grown.

It is such a tremendous yielder and fruits are so clustered that it can be gathered in about half the time required for other varieties. Peelers can handle three bushels of this Tomato to one of any other. We recommend the "Earliest and Best." Try it. You will make no mistake. Pkt., 10c; oz., 50c; $\frac{1}{4}$ lb., \$1.50; lb., \$5.00.

Earliest and Best Tomato.

Winter Rhubarb

\$100 to \$200 Worth Can Be Grown in an Ordinary Cellar During the Coldest Winter Weather

You can have Rhubarb any time in the Winter and market same at high prices. The profit in growing Rhubarb is enormous, and the culture for open field, or as a forcing crop for Winter is very simple. Plant a quantity of our Early Giant Rhubarb roots this Spring; cultivate well to secure large clumps of roots by Fall. In the late Fall take these clumps up and allow them to freeze for a few days and nights; then set them in barrels or boxes and put them in a cellar or any place where the temperature can be kept from 50 to 70 degrees. Keep the soil moist—not wet—and in 4 or 5 weeks you will have Rhubarb large enough to use or sell on the market. You can get about three cuttings during the Winter, when prices are high and from \$100.00 to \$200.00 worth can be grown in an ordinary cellar during the Winter.

Early Giant Rhubarb is also especially adapted for forcing in greenhouses, hot-beds and cold frames. If grown in the open field it is the first vegetable from the ground in the Spring and the easiest of all perennial plants to grow. A half dozen plants will supply a large family during the season, and plants well established will last for years. There always is a big demand and as a money maker with very little work and expense, we recommend Rhubarb.

We offer a fine stock of roots this Spring, every one of which should make a good clump for either Winter forcing or ordinary field culture.

Prices: 35c each; 3 for 90c; 12 for \$3.00, postpaid. By express, not prepaid, \$9.00 per 100; \$20.00 per 250; \$35.00 per 500; \$65.00 per 1,000.

We always recommend the planting of Rhubarb roots instead of seed, but if seed is wanted, we can supply same at 10c per packet; 30c per oz.; 90c per ¼ lb.; or \$3.00 per lb., postpaid.

Early Giant Rhubarb.

Jumbo Pumpkin

The Largest Pumpkin Grown

Here is the big Pumpkin. Often weighs 100 to 300 lbs. Always a prize winner at exhibitions. Although large it is of good quality, a good pie Pumpkin, a splendid keeper, and valuable for feeding purposes. Boys, you should grow this one. Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., \$1.75.

Jumbo Pumpkin.

Japanese Radish

"Nerima Long"

An introduction from Japan. The roots grow to enormous length, often growing three feet long. The white flesh is crisp, tender and sweet. Can be eaten like other radishes or cooked like turnips, or pickled. One of the leading vegetables in Japan. You will want to try it. Pkt., 10c; oz., 35c.

Okra

CULTURE. Very easy to grow; a plant that insects and pests do not bother much. Okra is a very profitable market crop, always being in good demand, bringing good returns for the time and money invested. So if you are looking for a good money truck crop, we urge you to plant an acre or two of Okra and you will be surprised at the returns. One ounce of seed will sow 50 feet of drill; six pounds to the acre.

A fashionable southern vegetable. Served like asparagus when stewed, or in soup. Also pickled. Why not try them. Pkt., 5c; oz., 10c; ¼ lb., 20c, postpaid.

Kohl Rabi

(Turnip Rooted Cabbage)

CULTURE. A peculiar vegetable belonging to the cabbage family and forming a turnip-shaped bulb above the ground, which is used in the same manner as turnips. Cultivate the same as cabbage; should be used when young and tender. One packet to 400 feet of row; 4 pounds per acre.

EARLY WHITE VIENNA is a very select, extra early strain. The flavor of the young roots when they are 2 to 3 inches in diameter is distinctly sweet. The flesh is firm but cooks very tender, retaining a desirable amount of crispness. This variety is considered the finest of all, resembling cauliflower in flavor. For a continuous supply sow every 2 weeks up to the middle of July; may be grown between the rows of late cabbage. Pkt., 10c; oz., 20c; ¼ lb., 60c, postpaid.

If you want larger crops, use WIZARD Sheep Manure. 50 lbs., \$1.50; 100 lbs., \$2.50, not prepaid.

Early White Vienna Kohl Rabi.

SPECIALTIES OF UNUSUAL MERIT

Drought Proof Bush Lima Bean.

Model Golden Salad Cucumber

The flesh of this new variety of Cucumber is a rich golden yellow and is unexcelled for use as a salad. It is a strong grower and very prolific and will be a welcome addition to every garden. We have but a limited supply of seed which we offer while it lasts at, pkt., 10c; 3 pkts., 25c, postpaid.

Model Long Form Tomato

The greatest novelty ever offered. A Tomato that grows from 4 to 5 inches long and about 2 to 2½ inches thick. The color is a bright scarlet when the fruit is ripe and a plant full of fruit presents a wonderful appearance. It is early and very prolific, sometimes yielding as many as twenty fruits in a bunch. Superior quality and solid fleshed and will keep for a month or two after ripening. A variety that's different and of unusual merit. Be sure to include at least a packet in your order. Pkt., 20c; 3 pkts., 50c, postpaid.

Dry Weather Cauliflowe.

This is the variety of Cauliflower that you have always been looking for. It will grow anywhere and is especially adapted to hot, dry districts where it is difficult to grow other varieties. It does equally well either early or late and if the weather is not right it will wait until it is. You cannot fail with dry weather Cauliflower, it won't let you.

Plant in the open during the Fall months or in hotbeds in the early Spring; transplant to the open when plants are 4 or 5 inches high. Pkt., 15c; oz., \$2.25; ¼ lb., \$7.50; 1b., \$24.00, postpaid.

NOTICE

We are acquainted with the Health Institute Laboratories advertising on page 42 of this catalog. Their treatment will do all that they claim. They are honorable and reliable and it is a pleasure to recommend them to our friends and customers.

MODEL GARDEN CLUB.

Drought Proof Bush Lima Bean

A distinct new variety which is drought resistant and hardy. It is not easily injured by frost and is well adapted to long periods of hot, dry weather. It is very prolific and easy to grow. It can be grown successfully in any part of the United States and is especially desirable where long, hot Summers are common. It ripens early and the pods are large and well filled. It is worth while and deserves a place in every garden. Be sure it is in yours. Pkt., 15c; 3 pkts., 40c, postpaid.

Mammoth Spanish Onion

The largest, most productive, mild flavored, yellow, Spanish Onion for market and home garden in the world. The kind you see at all good fruit stands and so sweet and mild flavored that it fairly melts in your mouth and may be eaten like an apple. It is a fine shipper and the size is very uniform. Our seed is an extra select strain and you can easily grow these large, mild, sweet, juicy Onions if you plant the seed early. Pkt., 10c; oz., 30c; ¼ lb., 90c, postpaid. Prices on pound lots sent on request.

Prizetaker Onion.

Delicious Squash

The Finest Squash Grown

Delicious Squash.

No other Squash can compare with the Delicious for home garden use and it also is becoming a leading market variety. Its sweetness and richness of flavor distinguish it from all other varieties and for pies it has no equal. Excellent for Fall and Winter use and will keep until late in the Spring. The rind is a very dark green with mottled effect, of gray-green spots, while the flesh is a rich orange-yellow of very fine grain. Grows 6 to 10 pounds. We do not hesitate to call it the finest and best Squash grown. Pkt., 5c; oz., 15c, postpaid.

Chinese Giant Pepper

Culture. Plant seed ½ inch deep in early Spring or in boxes in the house; when all danger of frost is over, transplant out in the garden in rows 2 to 3 feet apart and 18 inches apart in the rows.

Thousands of market gardeners plant this wonderful Pepper because of its ready sale. Besides being the largest Sweet Pepper grown it is popular for its magnificent appearance and wonderful flavor. The flesh is very tender and thick and it is without a doubt the best for home use as it slices fine and is so mild that it may be eaten raw like tomatoes. They grow to 4 and 5 inches in length and are as thick through and the well-branched plants are loaded with fruits. It ripens a little later than some of the medium and small sorts. Pkt., 10c; oz., 50c; ¼ lb., \$1.50, postpaid.

Notice to Our Customers

If you wish grapes next fall to make jelly, juices or wine: write us September first for quotations, as we will sell to you wholesale from our large vineyards by the basket or the ton as you wish, which will be a big saving to you.

MODEL GARDEN CLUB.

Chinese Giant Pepper.

Dry Weather Cauliflower.

New Zealand Spinach

Spinach is greatly appreciated by those who like greens and more of it should be eaten. It is served by all first-class hotels and dining cars and is to be found on every well-planned menu. Do you eat Spinach? The New Zealand Spinach is a distinct variety, especially adapted to hot weather, and will do well in arid or dry regions. Bears heavily all Summer, forming large spreading plants which often cover as much as five feet of space. The tips of the branches are always brittle, tender and appetizing and make one of the health dishes of the nation. Pkt., 10c; oz., 20c; ¼ lb., 40c, postpaid.

New Zealand Spinach.

White Icicle Radish

This Radish contains some of the precious vitamin B, which is so necessary to health and you can easily grow them in your garden. Light sandy soil which has been moderately fertilized is the best and if you have trouble growing them because of worms a little common salt sprinkled in the row at the time of planing will allow you to grow smooth, crisp Radishes without a blemish. The White Icicle Radish is the finest and best of the early long white Radishes and grows rapidly. It is a popular variety for the early market and is considered by many to be the finest Radish grown, and resembles nothing so much as the Icicle after which it is named, in form. Ready in 25 to 30 days after planting. Pkt., 5c; oz., 10c; ¼ lb., 30c, postpaid.

White Icicle Radishes.

Mammoth Sandwich Island Salsify or Vegetable Oyster

A wholesome nutritious vegetable, which, when cooking, one cannot tell from real oysters. The soup smells the same, looks the same and tastes the same and is the same all except the oyster. In common with the oyster it may be breaded or boiled and fried in butter or for soup and is delicious either way. May be left in the ground over Winter like parsnips and used in the early Spring when fresh vegetables are hard to obtain. Roots are long and smooth, white in color and excellent in quality. Pkt., 10c; oz., 30c; ¼ lb., 90c, postpaid.

Glory of Enkhuizen Cabbage The Wonder Cabbage

A new Cabbage of great merit, resembling the Danish Ballhead in appearance. It is without a doubt the finest early Cabbage grown. It makes a solid head that is tender and of excellent flavor and weighs about 8 pounds trimmed. A fine keeper and a sure header. It has been said there is a Cabbage in every seed and we consider it the best Cabbage we have ever offered. It is rich in vitamins B and C and has a goodly supply of the vitamin A. Eat more Cabbage and eat for health. This variety is destined to become the leader of the market garden sorts as the heads are always solid, the first thing a Cabbage buyer looks for, and they are just the right size. We invite market garden and commercial growers to write for prices. Pkt., 10c.

Glory of Enkhuizen Cabbage.

Celeriac or Turnip Rooted Celery

This popular European vegetable deserves a much wider cultivation and should be in every garden. Used in salads, soups, stews or boiled like parsnips it makes a delicious dish. Sow the seed as soon as the ground is in good workable condition in the Spring and when the plants are about three inches high transplant them to set six inches in the row. Only the roots are used, and when they are about two inches in diameter they are ready to serve. They can be kept in excellent condition for Winter use by packing them in damp sand in the cellar. Once you have planted this wonderful vegetable you will never be without it in your garden. Pkt., 10c; oz., 20c; ¼ lb., 60c, postpaid.

Evergreen Lawn Mixture.

M. G. C. Evergreen Lawn Mixture

Lawn trouble will be ended if you sow our Evergreen Lawn Mixture. If you want a beautiful lawn that will at all times be green and velvety, don't waste time and money sowing cheap grass seed. Our Evergreen Lawn Mixture is composed of the finest varieties of grasses, each of which has its season of beauty, with the result that a sod is produced that is always green. It will produce a rich and enduring turf in the shortest possible time without the use of cheap "quick growing" grasses. Prices: ½ lb., 40c; lb., 70c; 3 lbs., \$2.00; 5 lbs., \$3.25, postpaid.

M. G. C. Shady Nook Lawn Mixture

On nearly every lawn there are unsightly spots caused by the fact that ordinary varieties of grasses used for lawns do not do well in the shade. Our Shady Nook Mixture is made up of the most expensive fancy grasses which naturally grow in shady spots. Prices: ½ lb., 50c; lb., 90c; 3 lbs., \$2.50; 5 lbs., \$4.00, postpaid.

White Clover for Lawns

We have an Extra Fancy Dwarf White Clover that is especially fine for sowing with lawn grass mixtures. Pkt. (about one ounce), 10c; ¼ lb., 25c; ½ lb., 45c; lb., 85c, postpaid.

Chinese Prolific Bean

This wonderful Bean is the only rival of the famous Yard Long Bean. The pods are dark green and very prolific; each plant being literally covered with pods about 30 inches long. Used as a Snap Bean it is delicious when cooked and can be boiled or used for soup when ripe. It is a distinct variety and is sure to become the most popular of all. Be the first to introduce it into your neighborhood. Pkt., 10c; 3 pkts., 25c, postpaid.

Cos or Celery Lettuce

This is an entirely distinct type of Lettuce that is very popular in Europe, and is rapidly coming into favor in this country. The plants are of erect growth, forming tall, slightly oblong bunches of crisp leaves. Mild in flavor, crisp and tender and of best quality even when grown during the hot Summer months. The outside leaves should be loosely gathered and tied at the top several days before using as this will blanch the inner leaves to almost pure white and gives them a delicious crispness. Favorite for salad. Pkt., 10c; oz., 25c; $\frac{1}{4}$ lb., 70c, postpaid.

Snake Cucumber

Like its name, this curious Cucumber resembles nothing so much as a long green snake. It grows three feet long and more and is a distinct, novel variety. Plant a few of them and take home the prize from your County Fair this year. Seed should be planted early to obtain best results. Pkt., 10c; 3 pkts., 25c, postpaid.

Chinese Prolific Bean.

Cos Lettuce.

Snake Cucumber.

Self-Blanching Endive

One of the best salads for Fall and Winter use; also desirable for greens and as a flavoring for soups and stews. For early Spring crop sow as early as the ground can be well worked, and in drills $1\frac{1}{2}$ feet apart. When the plants are 3 inches high transplant to one foot apart in the rows. For Fall and Winter use sow seed from June to August and plants will be ready in about 70 days. Endive contains some of the precious vitamins A. and C. and more of them should be eaten. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 60c, postpaid.

Self Blanching Endive.

Cocozelle or Italian Vegetable Marrow

This wonderful new vegetable belongs to the squash family but it is so different that you will marvel at it. The flesh is very tender, and it has a delightful piquant flavor all its own. It is easy to grow and should be in every garden because of its real merit. This plant does not make a vine, but grows in bush form and it is so prolific that 5 or 6 hills will supply a large family and take up a minimum of garden space. The oblong green fruits should be picked when not more than 4 to 6 inches long as they lose their delicate flavor when they grow larger. Pkt., 10c; oz., 20c; $\frac{1}{4}$ lb., 60c, postpaid.

Directions for Cooking Cocozelle

An Italian chef in one of the largest and most fashionable restaurants in the country, furnishes the following recipes for preparing Cocozelle: **FLORENTINE**—Raw, cut in dice, about $\frac{1}{4}$ inch. Season with salt and pepper. Dip in flour and then raw egg. Fry in skillet with olive oil and serve with drawn butter. **MORNAY**—Cut in small squares about one inch. Boil for about one minute in salted water. Drain in a colander. Put in baking dish, cover with cream sauce and a little Parmesan cheese and butter, and bake in oven until done. **JULIENNE**—Cut in Julienne like French fried potatoes; dip in milk, and then flour. Fry in a very hot grease. Season and serve. Can also be cooked like Asparagus or Squash.

The bugs will be dead when you come back, if you use TOBACCO DUST. 2-lb. box, 50c.

Cocozelle.

Give the DASHEEN a Trial

We call the Dasheen a new vegetable because it is new in this country, but in fact it has been grown for years in China, and is known in various parts of Europe, Asia and South America.

The Dasheen is grown principally as a root crop, the tubers being used the same as Irish Potatoes. The tubers sometimes reach a weight of more than 6 pounds each. One hill will produce on good rich soil 6 to 8 pounds or more of tubers, and in rare instances 20 to 26 pounds of Dasheens have been taken from a single hill. Crops of 600 to 900 bushels per acre have been produced.

From the interest that has already developed among southern farmers who have become even slightly acquainted with the Dasheen, it surely looks as though this crop is destined to be of great importance to that section of the country. It can be grown as a Summer crop in a region where the potato must be grown almost entirely as a Spring crop, for it ripens its tubers in the early Fall and furnishes them for the table at a season when northern grown potatoes have to be shipped in.

PRICE OF SELECTED SEED TUBERS: 3 for 40c; 6 for 75c; 12 for \$1.25; 25 for \$2.00; 50 for \$3.75; 100 for \$7.00, delivered to you prepaid. Pamphlet giving cultural directions and recipes for preparing and cooking the Dasheens, free with each order.

Dasheen.

MAKES EVERYTHING GROW!

Wizard is a natural, weedless, concentrated manure that gives life and fertility to worn out soils. No matter what you grow you need Wizard for best results. Wizard is far superior to chemical stimulants or stable manure. It makes all plants grow to perfection. Wizard produces better lawns, better gardens and bigger crops. Wizard is the best for fruit and vegetable gardens insuring big crops of crisp, tender vegetables. Apply 10 lbs. to 100 square feet of garden and drill or broadcast 1,000 to 1,500 lbs. per acre.

Prices, not prepaid: 50 lbs., \$1.50; 100 lbs., \$2.50; 500 lbs., \$10.00; 1,000 lbs., \$19.00; ton, \$36.00.

STIM-U-PLANT Makes a Wonder Garden

wonders as it is very powerful. Keep Stim-U-Plant on hand to use when wanted. It is Clean—Odorless—Handy to Use and always ready. Full directions with every package.

Price: Small size, 30 tablets, 25c; 100 tablets, 75c; 1,000 tablets, \$3.50, postpaid.

Stim-U-Plant is the best plant food known, put up in tablet form. The tablets may be placed in the ground near the roots where they will dissolve and feed the roots or used as a liquid fertilizer by dissolving in water. Stim-U-Plant is economical to use and one little tablet will do.

GOLD LEAF TOBACCO DUST

Kills the Bugs

Destroys aphids and soft-bodied sucking insects. Particularly useful in gardens, and for vines, roses, etc., and for keeping all kinds of house plants free from insects and disease. It may be used for dusting and can be mixed with water and used as a spray.

Directions with Each Package

By having these materials on hand when you need them you will save enough on your crop to buy dust or spray materials to last for years. The cost is very small compared to the value of your crop.

The Gold Leaf controls round worms in poultry.

Method of Gold Leaf: Mix 2 lbs. Gold Leaf tobacco powder in 150 lbs. of your customary mash. Feed the mixture regularly for 2 or 3 weeks and then discontinue for same period. Cleanse and disinfect thoroughly.

Gold Leaf for Poultry Lice

The use of Gold Leaf tobacco dust bath is suggested as a deterrent against Poultry Lice. Simply sprinkle a quantity of Gold Leaf Powder in the dust bath.

Prices: 2 lbs., 50c; 100 lbs., \$4.50, not prepaid.

Lake Champlain Muskmelon

LAKE CHAMPLAIN is a medium sized melon, nicely netted, flesh deep, sweet and melting, of golden yellow color. The plant is very vigorous and healthy, setting and ripening melons even under adverse conditions, which would totally destroy other varieties. There have been other early melons, and other varieties that are hardy and vigorous but there is none beside **Lake Champlain** that combines those characteristics with the quality of

Lake Champlain Makes a Splendid Appearance on the Market.

Ox Horn Onion.

Pear Form Onion.

the late maturing sorts. The flesh is deep, very sweet and melting. The customers who try this melon want it again. The flesh is the golden yellow so attractive to buyers. "57 days from seed to market."

NETTED \$2,000 Per Acre.

From a half acre patch 986 half-bushel baskets were sold at \$1.00 per basket. This makes a gross profit of \$2,000 per acre.

Price, pkt., 10c; oz., 25c; 1/4 lb., 75c; lb., \$2.50, postpaid.

Model Ox Horn Onion

This is without a doubt the greatest novelty ever offered. Grows to six inches in length and about an inch in diameter. Used as a green Onion for the table it has no equal and the flavor is unsurpassed. Can be grown to maturity and stored as other Onions for Winter use. Pkt., 10c; 3 pkts., 25c, postpaid. Write for prices on pound lots.

Pear Form Onion

Distinct shape, sometimes called the Bottle Form Onion, 6 inches long by 4 inches thick and of straw color. The mildest and best flavored Onion grown, very early and productive and can be easily grown anywhere. Be sure to include at least a packet of this wonderful new Onion in your order. Pkt., 10c; 3 pkts., 25c, postpaid.

Asparagus Bean.

Long Titanic Asparagus Bean

Asparagus Beans are a species of the *Vigna* genera, botanically known as *Vigna Sesquipedalis* and while little known in his country they have been cultivated in the Orient for centuries. A meritorious garden vegetable, forage plant and soil renovator; being a legume it draws nitrogen from the air and adds this valuable fertilizer to the soil. The pods are 30 inches long, tender, stringless and palatable as a snap Bean or they may be shelled and cooked by boiling, baking or used for soup. For garden culture the vines should be given support, but can be grown without it. Very drought resistant. Pkt., 15c; 2 pkts., 25c; 5 pkts., 50c, postpaid.

Corn Salad

This is a hardy Winter Salad, the small leaves being served like lettuce during the cool Fall and early Winter months. It is used also for garnishing meat dishes in the same manner as parsley and cress. It does not succeed in warm weather and seed should be sown in September, to supply fresh leaves during the Fall and Winter months. It is quite hardy and may be protected with a thin mulch of soft straw or hay after cool weather sets in. Pkt., 10c; 3 pkts., 25c, postpaid.

Model Pimento Pepper

The great thick meated canning Pepper. Excellent for the home garden. It is as sweet as sugar and very early. It is noted for its fine flavor and is an unequalled sandwich filler. If you grow it once you will never be without it in your garden again. Be sure to include at least a packet in your order. Pkt., 10c; 3 pkts., 25c, postpaid.

Pimento Pepper.

Try These Three Hardy Chinese Fruits

There are three hardy, vigorous fruit trees that can be easily grown from seed. Natives of Northern China, they are inured to cold weather, and can be grown and fruited anywhere in the United States. The fruits are good, and have been in common use in North China for generations. Grow a few in your garden.

Chinese Date

Chinese Date.

The Chinese Date is a hardy fruit tree of rapid growth, which comes true to variety from seed planted in the open ground. The leaves are smooth, shiny, long pointed. The tree blossoms early in the Spring, sending out masses of golden yellow fragrant flowers in profusion.

The fruit is about an inch in length, of the true Date shape, about half the size of the Date of the tropics. Dark red in color, it turns

almost black, when fully ripe. The "dates," while sweet, when fully ripe have a full flavor, preferred by many to the insipid sweetness of the tropical or true date.

The Chinese Date is becoming a favorite in this country, wherever it has been planted. The fruit makes a welcome addition to our standard fruits, and is being more generally planted every season.

A packet contains seed sufficient to produce from six to ten trees. The seed may be planted in a row in the garden, with some vegetable seed in the same row to mark it, as the Date seed sometimes takes a month or more to germinate.

In addition to the valuable fruit, the Chinese Date is without a peer as an ornament. Its beautiful clusters of golden yellow flowers vie with most of the ornamental shrubs in loveliness. Be sure to include the Chinese Date in your order.

PACKET 20 CENTS, POSTPAID
3 for 50 cents 7 for \$1.00

Manchu Cherry-Plum

Grows to a dwarf bush-like tree that fruits the second year and each year after, bearing a small, deliciously flavoured Plum about the size of a cherry.

It succeeds in all parts of the United States, and is especially valuable for planting in the Dakotas, where it withstands the very severest Winters.

Seed planted in the Spring germinates in three to five weeks, after which the growth of the tree is rapid. The first blossoms appear the second year, and some fruit usually sets. After the second year the tree is literally covered with dark red "cherry-plums," very similar to the Damson in flavor, though perfectly round in shape.

"Manchu Cherry-Plum."

The fruit is equally valuable for eating from the hand, and for cooking, for preserves, pies, etc. Prof. L. H. Bailey says of this fruit: "It is hardy even in the Dakotas, and improved fruit-bearing trees of importance are likely to arise."

Plant a row of these hardy Chinese "Manchu" Cherry-Plums in your garden, and be the first in your locality to have this delicious fruit from your own trees.

PACKET 20 CENTS, POSTPAID
3 for 50 cents 7 for \$1.00

"Yogi" Persimmon

One of the most valuable of the Oriental trees, not only as a source of a rare variety of delicious and wholesome food, but the tree itself, which rapidly grows to an immense height, is one of the most valuable woods for the manufacture of fancy articles and high grade furniture.

"Yogi" Persimmon.

The tree is easily grown from seed, planted in the Spring. The tree fruits after the second year, being literally covered with shiny black fruits. The flavor of the Yogi Persimmon is unsurpassed. It is valuable for canning, and makes the finest kind of preserves and jam.

In China and Japan the juice is extracted and made into a beverage that is very popular. The fruits may also be used for sweet pickles.

A few of these trees will supply you with a large crop of choice fruit every year. The fruit finds ready sale everywhere, as a well-defined, active demand exists for Persimmons, and the "Yogi" is well up in the front rank in point of quality.

Our "FROST-PROOF" Plants

Frost-Proof Cabbage Plants

Are grown for us in the South along the sea-coast where the soil and climatic conditions produce tough, hardy plants during the Winter and early Spring. These plants will stand a temperature of 15 degrees above zero without injury, even if they are covered with ice, sleet or snow. They can be planted a month or six weeks ahead of home grown plants and will mature two to four weeks earlier. We can supply the following varieties only: Early Flat Dutch, Charleston Wakefield and Early Jersey Wakefield and we can only supply plants from December 1st to May 1st. Prices: 100, 60c; 200, \$1.10; 300, \$1.50; 400, \$1.80; 500, \$2.10; 1000, \$3.75, all postpaid.

White Bermuda Onion Plants Frost-Proof

Can be planted any time after November and on through to May. Frost and light freezes actually help to make a fine, firm onion. All plants are guaranteed to give satisfaction, for every onion plant makes a good onion. Be sure to order a few of these plants. Complete instructions on "How to Grow Bermuda Onions from Plants" are sent with every order. All plants are packed in bunches of 100.

Prices, 200, 50c; 500, \$1.00; 1000, \$1.90; \$8.00 per crate of 6000 plants, all postpaid.

TRY THESE SEED NOVELTIES

Vine Peach

Ripe Fruit in 80 Days After Seed Is Planted.

This wonderful Vegetable Peach is the most beautiful of all vegetables. They resemble oranges in color, shape and size, and grow on vines like melons. They present a beautiful and tempting appearance when canned; make delicious preserves and sweet pickles; and are fine for pies. There is nothing like them. Extremely early, of the easiest culture and very prolific, covering the ground with golden fruit. They grow from the seed in 80 days. A package of the seed will be sent postpaid for 10c; 3 packages for 25c.

Japanese Giant Radish

This is the great Sakurijima Radish from Japan. The largest Radish grown, often attaining the enormous weight of 15 pounds, and sometimes 20 or 30 pounds.

It is a real "novelty" to most Americans, and the taste will immediately convince anyone of the fact that it is not merely a curiosity but a Radish of extraordinary quality. The flesh is solid, firm and brittle, and of most excellent flavor. It will grow and thrive in any soil or climate.

This is a Radish that can be planted in the Spring and eaten all Summer long, and can also be kept through the Winter if dug in the late Fall and buried in a box of dry sand in the cellar. As a Summer Radish it is a wonder, as it will grow and thrive when it is so hot and dry that common Radishes would be a failure. By all means try the Sakurijima Radish and you will be surprised at the real value of this monstrous variety. Send for package of the seed today, before it is all gone. Pkt., 10c; 3 pkts., 25c, by mail, postpaid.

Lima Peas

This is the most wonderful Pea in the world. The Peas are as large as the largest Lima Bean, and nearly the same shape. This pea is very hardy and can be planted as soon as the ground thaws out in the Spring. We plant them here a month ahead of any other garden. In growth it is unlike other varieties of Peas, for instead of being a vine, it is a bush of upright growth, about 2 feet high, with strong, sturdy stalks. It is wonderfully productive. Botanically it belongs to the horse bean family and has been advertised to some extent as a Giant Butter Bean, but in reality it is more like a pea than a bean. The Lima Pea is a most delicious vegetable, and sure to become as popular as the Lima Bean. We have but a limited amount of the seed, so we are selling it in packets only. Pkt., 10c; 3 pkts., 25c; 7 pkts., 50c; 15 pkts., \$1.00, postpaid.

Yard Long Bean

This is an excellent variety, as well as being an interesting curiosity. The vines are rampant growers and produce an enormous crop of long, slender, round pods, which are of excellent quality for snap beans. The round pods average from 2 to 4 feet in length, having the thickness of a lead pencil. Produce late in the Summer, very productive, tender and of fine flavor. Pkt., 10c; 3 pkts., 25c, postpaid.

Garden Huckleberry

The New Garden Huckleberry grows from seed the first year. A new fruit that cannot be excelled for pies and preserves. It is very prolific, yielding an immense crop of fruit. It is an annual and must be planted each year from seed. Grows and thrives in all climates and on all kinds of soil. The fruits grow larger than the common Huckleberry or Blueberry. If cooked with apples, lemon or anything sour, they make the very finest jelly. You will be delighted and astonished with this easily grown and wonderful novelty. Send your order today. Pkt. of seed, 10c; 3 for 25c, postpaid.

Japanese Climbing Cucumber

A distinct new Cucumber from Japan. The vines are extra strong and vigorous, and great climbers, producing a surprising amount of superior fruit on poles, fences, side of house, etc. Three times the usual crop from a given area can be grown with this variety. They are large size, nice green color, and fine for slicing and pickling. The vines and fruits being elevated do not suffer from wet weather and insects. It sets its fruit constantly throughout the season. You will be pleased with it. Pkt., 10c; 3 pkts., 25c, postpaid.

Banana Muskmelon

This Melon surpasses all others in its delicious fragrance. The flesh (the Melon being nearly solid) is of a rich salmon. The quality is excellent when the Melon is thoroughly ripe. It grows from 18 to 36 inches in length and from 2 to 4 inches thick, and is very prolific. It looks almost like an overgrown banana and smells like one. Has a flavor all its own. Don't fail to try it. Pkt., 10c; 3 pkts., 25c, postpaid.

Ground Almonds

Grow them in your garden. A delicious nut, with a flavor resembling the cocoanut or the almond. The meat is snow white, covered with a thin shell or skin of brown color. It grows close to the surface, is very prolific, a single nut yielding from 200 to 300 nuts in a hill and will do well in any kind of soil. If the nuts are planted in the Spring the same as potatoes a big crop can be expected about potato harvest time. They grow so rapidly and produce such immense crops that you will be surprised. Plant some for the children. Everybody likes them. Send 10c for a package of these nuts, so you can grow some in your garden; or send 25c and get 3 packages.

Northern Grown Peanuts

Just as good Peanuts can be grown in the northern states as in the South, provided you plant improved Early Spanish. Everyone should plant at least a few for the children.

This is the earliest variety grown and very productive. The pods are small, but remarkably solid and well filled with nuts of the very finest quality. Boys, here is a chance for you. Think of growing Peanuts in your own garden and having plenty of them to eat. Shell nuts carefully so as not to break inside skin, and plant as soon as ground becomes warm, about 2 inches deep, in rows 3 feet apart, and from 8 to 10 inches apart in the row. Pkt., 10c; 3 for 25c, postpaid.

Golden Honey Watermelon

A delicious yellow-fleshed Watermelon. Rich golden color, firm, crisp and glistening, sweet as honey, and fairly melts in your mouth. No hard core or stringiness. An early melon, average about 20 lbs. each, and very few seeds. Pkt., 10c; 3 pkts., 25c, postpaid.

The "Chestnut Bean"

This wonderful Bean looks like a gigantic pea. When boiled it has a flavor like boiled chestnuts, and is one of the most delicious Beans grown. Grows in the form of a tall bush, and is completely covered with pods. For soup and turkey stuffing it cannot be surpassed. It is a Spanish Bean, and is known as the "Garbanzo" Bean. After once you grow a few, you will want to plant a lot of them. We have but a limited amount of the seed to offer this season, so are selling same in packets only. Pkt., 10c; 3 pkts., 25c; 7 pkts., 50c; 15 pkts., \$1.00, postpaid.

The Quality
Melon.

Tom Watson

The Best
Shipper

The Most Popular of All Water-
melons.

This new melon, although of recent introduction now occupies a very prominent place in all the markets. It is a long, green variety covered with a fine netting, giving it a most attractive appearance. The rind is thin but hard and tough so that it is unequalled as a market and shipping sort. The flesh is intensely red in color, being of superb quality. It is a great yielder and a money maker for all melon growers. The melons are of large size and heavy, averaging from 18 to 24 inches long by 8 to 12 inches in diameter and weigh from 25 to 60 pounds. I can highly recommend it as a main crop sort. Matures in about 85 days. Pkt., 8c; oz., 12c; ¼ lb., 35c; lb., \$1.00.

Tom Watson
Watermelon.

The "Mojave" Drought-Proof Pea

This variety will do well under a wider range of weather and soil conditions than any other variety. It will grow a crop during the driest, hottest Summer months, at a time any other variety would be a failure. In the hot, dry localities of the West this variety will grow a large crop without irrigation and without a single drop of rain falling upon it from seed time to harvest. For midsummer or late Summer planting this is the variety to plant. If it rains and the soil is kept moist this variety will produce as large a crop as any variety we know of; if it doesn't rain, and it gets hot and dry, you will get a crop anyway. The handsome round pods are well filled with from 7 to 10 peas in a pod; quality excellent, sweet and tender, even when the peas are large. Vines grow 2 feet high, and require no support. This is the pea that will do its best in the North, South, East or West. Don't fail to give it a trial. Pkt., 10c; ¼ lb., 20c; lb., 60c; 3 lbs., \$1.50, postpaid.

The "Mojave" Drought-Proof Pea.

from Japan. It can be grown from seed, and will fruit the third year. In the northern states the tree must be given some Winter protection. Or they may first be planted in pots, resetting in large tubs the second year, and taken into the house, where they will bear beautiful, fragrant flowers and useful fruit all Winter. The fruit is juicy, sour, round in shape, and with a thin, "kid glove" skin, reddish yellow in color. They are real lemons, and have a ready sale in local markets. A packet of seed will produce from six to ten trees. Instructions for planting are included in each packet.

In the southern states the seed may be planted in the open ground, and the little trees set out in the garden or on the lawn in the Fall. The trees are dwarf in growth, and can be set as close as six feet apart, for garden culture.

In locations where the temperature falls below zero any time, the trees, if left in the garden, should be given some straw protection. Try a packet of this useful novelty. Pkt., 20c; 3 for 50c; 7 for \$1.00, postpaid.

The "Frost King" Hardy Lemon

The "Frost King" Hardy Lemon, like so many others of our extremely hardy fruits, comes to us

Honey Dew Melon.

"Honey Dew" The Famous New Melon

The Melon With a Most Appropriate Name

This new fruit is a cross between the Rocky Ford Cantaloupe and a South Sea Island Casaba. It is neither like the Muskmelon nor the Casaba, but it has retained all the best qualities of both and is better than either. The melon is nearly white, and the average size is about that of a cocoon. The flesh is light green, juicy, sweet and most luscious in flavor. The rind is hard. It is good as soon as picked off the vine and will keep good for months if kept in a cool, dry place. It is therefore a good shipper and a most splendid fruit to grow for the market. One prominent shipper is urging melon growers to plant largely of the Honey Dew, saying it would put the Rocky Ford Cantaloupe out of business. In the city markets, last season, the Honey Dew sold at higher prices than any other melon, and there is every reason to believe that as soon as the productiveness, unsurpassed quality and shipping characteristics of Honey Dew become generally known it will become a standard variety and every gardener will grow it. As a local melon, it advertises itself. Our seed is the genuine, and from the choicest fruits only. Pkt., 10c; oz., 20c; ¼ lb., 55c; lb., \$1.75, postpaid.

Chinese Celery Cabbage.

Chinese Celery Cabbage

This wonderful vegetable, although of recent introduction, has attained real popularity in California, Florida, and in many sections East and South. It is indeed a most delicious vegetable which combines the rich celery flavor with that of cabbage. It is a real salad-vegetable, having the tenderness of lettuce and the crispness of celery. Makes as good salad as the finest head lettuce. The firm, crisp heads are easily blanched. May also be cooked as greens, eaten raw like celery, boiled with meat, or for vegetable soups. Ready for table in 125 days. Sow the seed about August 1st, in rows where the plants are to mature, and thin out to about 15 inches. 1 ounce of seed for 300 ft. of drill. Be sure to plant Chinese Celery Cabbage and have this popular vegetable in your garden. Pkt., 10c; oz., 25c; ¼ lb., 75c.

New Guinea Butter Vine

One of the Most Delicious of All Vegetables

We are offering planters another vegetable of real worth and merit. Nearly everyone who has tried it speaks of it very highly. It is now being advertised by a few seedsmen as the New Guinea Butter Bean, which is misleading, as it is not a bean and in no way related to the bean family. The New Guinea Butter Vine is a member of the edible gourd family and in growth is similar to the squash, and can be grown in the same manner or can be trellised up. It is wonderfully prolific, considerably more productive than squash and much easier to grow. The vines are always free from disease and insect pests, and really stand more neglect and abuse than any other vegetable vine we know of.

The fruits of the New Guinea Butter Vine grow to an enormous size, but should be eaten when small, while the fuzzy growth is yet on. They can be cooked like squash, fried like egg plant, or cut up in small pieces and cooked with cream. When cooked with cream or fried it is the most delicious.

The New Guinea Butter Vine is so productive that three plants will supply an ordinary family. If trellised up, the vines take up so little space, no garden is so small but that room can be found somewhere for at least two or three plants. Pkt., 15c; 2 pkts., 25c; 5 pkts., 50c, postpaid.

Herbs

Varieties marked with an asterisk (*) are perennial.

BASIL, Sweet. Leaves used for flavoring soups, stews and highly seasoned dishes. Pkt., 5c.

BORAGE. Leaves used for flavoring. Pkt., 5c.

***CARAWAY**. Seed used for flavoring pastry, meats, etc. Pkt., 5c; oz., 15c; ¼ lb., 40c.

***CATNIP** or **CATMINT**. Leaves and young shoots used for seasoning. Tea made from the dried leaves is good for colds and indigestion. Grown for bee pasture and for cats. Said to be a "cure-all" for cat diseases. Pkt., 10c.

CHERVIL. Hardy annual worthy of more general use for flavoring and garnishing. More beautiful than parsley. Leaves used in soups and salads. Pkt., 5c; oz., 20c.

DILL. Leaves used for flavoring pickles, soups and sauces. Pkt., 5c; oz., 15c; ¼ lb., 40c; lb., \$1.35.

***FENNEL**, Sweet. The leaves, boiled, are used for fish sauces, and are beautiful for garnishing. The seeds are used for flavoring. Pkt., 5c.

***HYSSOP**. The flower summits and leaves are used as a remedy for asthma and catarrh. A stimulant, expectorant and mild tonic. Pkt., 5c.

***LAVENDER**. The leaves are sometimes used for seasoning, but the plant is chiefly grown for its flowers, which are used in the making of perfumes. The dried flowers and leaves are fine for perfuming dresser drawers and linen closets, filling soft cushions, etc. Pkt., 10c.

MARJORAM, Sweet. Leaves and ends of the shoots used for flavoring in Summer, and also dried for Winter use. Pkt., 5c.

***SAGE**. Leaves and tops used for seasoning and dressing. Pkt., 10c.

SUMMER SAVORY. Leaves and young shoots used for flavoring; especially for boiled string beans. Pkt., 5c.

***THYME**. Leaves and young shoots used for seasoning. A tea is also made from the leaves and used as a remedy for headache. Pkt., 10c.

***WORMWOOD**. Leaves used as a tonic and as a dressing for fresh bruises. Also beneficial for poultry. Pkt., 5c.

Dill.

New Guinea Butter Vine.

Alphabetical List of Vegetables

You will find in the following pages, alphabetically arranged, the cream of all the varieties of vegetable and flower seeds which by actual test have proven themselves worthy of a place on our list of **MODEL GARDEN SEEDS**. You should never risk planting an inferior grade of seed, for from good seed only can good crops be grown.

Model Garden and Flower seeds are packed in tough manila envelopes, upon which is printed plainly the simple instructions for planting the seed contained in each packet.

ALL THE SEEDS LISTED ON THESE PAGES ARE SENT POSTPAID.

All our seeds are from the last harvest. They are **FRESH**.

All seeds are rigidly tested, and none but those of the highest germination test are allowed to go out.

You can plant your "Model Vegetable Garden" and a "Model Flower Garden" with these seeds, knowing you are planting the Best, Purest, and Highest Test Seeds that skill can produce or money can buy.

---	-----	-----	------	------

Endive or Winter Lettuce

Self-Blanching. One of the most refreshing of all Autumn and Winter salads. May be grown any season of the year, but is more generally used late in the Fall. Dr. Finck, an authority on foods, recommends it as a food for persons suffering from indigestion.....	.10	.20	.60	2.00
---	-----	-----	-----	------

Kale, or Borecole

Dwarf Scotch. The best variety. Hardier than Cabbage, and excellent for greens for Winter and Spring use.....	.05	.15	.40	1.25
---	-----	-----	-----	------

Kohl Rabi

Early White Vienna. Very select, extra early strain.....	.10	.20	.60	
--	-----	-----	-----	--

Leek

Broad American Flag. The finest variety grown; very hardy. Best for Winter and Spring use. Mild and sweet.....	.10	.20	.60	2.00
--	-----	-----	-----	------

Lettuce

	Pkt.	Oz.	¼Lb.	Lb.
Big Boston. The best head Lettuce for forcing under glass, and one of the best for outdoor planting. Produces large, solid heads, often 10 to 12 inches across. Excellent quality; sure to head.....	\$0.05	\$0.20	\$0.60	\$2.00
Black Seeded Simpson. The most popular curled or loose-leaved sort for early outdoor planting	.15	.15	.45	1.50
Cos or "Celery" Lettuce. (See page 12)	.10	.30	.85	3.00
Grand Rapids Forcing. The best loose-leaved sort for forcing under glass and an excellent variety for outdoor planting	.05	.20	.60	2.00
Improved Hanson. Will stand more hot weather than any other sort, excepting "Celery" Lettuce. Immense solid heads	.05	.20	.50	1.65
Beefsteak. (See page 39)	.10	.25	.75	2.50

Muskmelon

Banana	.10	.20	.55	1.75
Emerald Gem. None better for home use, but is too soft to stand shipping. Salmon fleshed. Extra early	.05	.15	.40	1.25
Fordhook. Equals Emerald Gem in flavor, and will carry to market even better than the famous Rocky Ford. Extra early. Salmon fleshed	.05	.15	.40	1.25
Hearts of Gold or Hoodoo. The best for home and market garden....	.10	.20	.55	1.75
Honey Dew. (See page 13)	.10	.20	.55	1.75
Osage or Miller's Cream. The favorite late variety. Fruits large, salmon flesh, thick, fine grained and highly flavored. A good shipper, and always in demand	.05	.15	.45	1.40
Rocky Ford. The most famous Muskmelon	.05	.15	.40	1.25
Golden Velocity Cantaloupe. (See page 39)	.15			

Watermelon

Alabama Sweet. A popular variety in the South	.05	.12	.35	1.00
Cole's Early. The earliest melon grown. Small in size, but what they lack in size they make up in number	.05	.12	.35	1.00
Golden Honey. Excellent yellow-fleshed variety. Sweet as honey	.10	.15	.45	1.50
Kleckley's Sweet or Monte Cristo. Has the reputation of being the sweetest melon grown. On account of its thin rind it is not recommended for shipping	.05	.12	.35	1.00
Mammoth Prize. Largest Melon grown.....	.10	.20	.65	1.75
Sweet Heart. Large round Melon. Good shipper.....	.05	.10	.35	1.00
Tom Watson. Often weighs 50 to 60 pounds, and averages on good soil over 30 pounds. A melon of superb quality. The rind is not thick, but it is hard and tough, so that it is unsurpassed as a market and shipping sort. (See page 17)	.08	.12	.35	1.00
Winter. Keeps until late in the Winter. (See page 17).....	.10	.25	.70	2.00
Citron. (For Preserves)	.08	.15	.40	1.25
M. G. C. Mammoth Supreme. (See page 39).....	.15			

Mustard

Southern Giant Curled. The true curled leaf variety. Ready for use in six weeks from sowing	.05	.10	.30	.85
White London. Seeds white; preferred by housewives for pickling..	.05	.10	.25	.75

Okra

Improved White Velvet. The best variety. Popular in the South, and can be easily grown in the North. Young seed pods fine for soups, etc.	.05	.10	.25	.75
---	-----	-----	-----	-----

Onion

For Prices on Frost-Proof Onion Plants, see page 15.

Prize Bermuda. Yellow skin, white flesh, very mild	.10	1.00		
Australian Brown. Extremely early; mild flavor; good keeper, having been kept in fine condition for a year after harvest.....	.10	.25	.75	2.50
Large Red Wethersfield. The standard main crop dark red variety...	.08	.30	.80	2.75
Mammoth Silver King. The largest white Onion. Unsurpassed for tenderness and mildness of flavor.....	.10	.35	1.00	3.25
Prizetaker, or Mammoth Spanish. One of the largest, and the most handsome yellow Onion; the mildest of all. (See page 10).....	.10	.25	.70	2.50
Southport Red Globe. The best round red Onion.....	.08	.25	.75	3.00
Southport White Globe. Extra select; the best round white Onion....	.10	.40	1.00	3.50
Southport Yellow Globe. A favorite among Onion growers.....	.08	.25	.75	2.50
White Welsh. Best for early green Onions	.10	.30	.90	3.00
Yellow Globe Danvers. The most popular yellow Onion.....	.08	.25	.70	2.25

Mammoth Sandwich Island. The best variety	.10	.30	.90	3.00
--	-----	-----	-----	------

Spinach

Improved Victoria. Best variety. Remains in prime condition from 2 to 3 weeks after nearly all other sorts have run to seed.....	.05	.10	.20	.60
New Zealand. Especially suited to dry and arid locations where other varieties do not do well, and the only kind that can be successfully grown in hot weather	.05	.12	.35	1.00

The bugs will be dead when you come back if you use TOBACCO DUST. 2-lb. box, 50c.

Squash

	Pkt.	Oz.	¼Lb.	Lb.
Delicious. The sweetest Squash grown.....	\$0.05	\$0.15	\$0.45	\$1.50
Genuine Hubbard. Most popular Winter variety.....	.05	.15	.45	1.50
Golden or Red Hubbard. A week earlier than Genuine Hubbard.....	.05	.15	.45	1.50
Giant Summer Crookneck. Best Summer Squash.....	.05	.15	.45	1.50
Mammoth White Bush Scallop. Best Summer Squash for shipping to distant markets, but not as good eating as Crookneck.....	.05	.15	.45	1.50
Cocozelle Bush or Italian Vegetable Marrow. (See page 12)	.10	.20	.60	1.75

Tobacco

You may or may not have a grudge against the Tobacco Trust, but what's the use of spending your money for Tobacco when you can easily grow your own and be sure of having a good supply of pure unadulterated natural leaf for either smoking or chewing that has not been "roped" or "doctored" up by the manufacturer. A packet or two of seed will grow enough to supply most anyone.

	Pkt.	Oz.	¼Lb.	Lb.
Connecticut Seed Leaf. The best variety to grow in the northern and middle states. Can be successfully grown in the far North.....	\$0.10	\$0.45	\$1.50	\$5.00

Improved White Burley. (Extra select strain.) Popular variety for chewing	.10	.45	1.50	5.00

Tomato

Bonny Best. Very early, vigorous and productive, color scarlet.....	.05	.35	1.00	3.50
Earliest and Best. (See page 8)	.10	.50	1.50	5.00
Chalk's Early Jewel. Large, smooth, extra early bright red Tomato. Considered by many to be the best early sort.....	.05	.35	1.00	5.00
Dwarf Stone. Is the best of the dwarf growing sorts. The fruits, which hang well up off the ground, are nearly as large as those of the original Stone, and excellent in quality, smooth, meaty and solid. Dwarf varieties do not produce as many fruits to the plant as the larger sorts, but owing to their small size and upright growth twice as many plants can be set in the same garden space.....	.10	.60	1.80	6.00
Golden Queen. Large yellow Tomato	.10	.50	1.50	5.00
June Pink. The earliest pink variety. Same season as Sparks' Earliana, but larger; quality excellent.....	.10	.50	1.50	5.00
Livingston's Globe. The most popular variety in the South for shipping to northern markets	.10	.50	1.50	5.00
Ponderosa. Largest Tomato grown; nearest seedless of any variety..	.05	.50	1.10	5.25
Red Cherry. Small fruited sort. Fine for preserves.....	.05	.50	2.10	7.00
Sparks' Earliana. Standard extra early red Tomato.....	.10	.50	1.50	5.00
Stone. The old standby. Large, bright red, perfectly smooth, main crop Tomato. The standard by which all other varieties are judged..	.05	.30	.80	2.75
Yellow Pear. Small yellow fruits; pear-shape; very sweet. Fine for preserves and eating out of hand. Plant a few for the children.....	.10	.60	1.20	6.00
Long Form Tomato. (See page 10)	.20			

Turnip

Amber Globe. The best large yellow late sort.....	.05	.10	.25	.75
Early Purple Top Strap Leaf. The standard early variety.....	.05	.10	.25	.75
Extra Early Purple Top Milan. Earliest Turnip grown.....	.05	.10	.35	1.00
Purple Top White Globe. One of the most popular.....	.05	.10	.25	.75
Shogoin Mammoth. Mammoth variety from Japan.....	.10	.35	1.10	3.75
White Egg. An excellent variety	.05	.10	.25	.75

Rutabagas, or Swedes

Improved Purple Top Yellow. The best yellow variety.....	.05	.10	.25	.75
Monarch, or Elephant. Mammoth size; yields enormous crop.....	.05	.10	.25	.75
Sweet Russia. Excellent keeper; flesh white, very firm and sweet.....	.05	.10	.25	.75

The bugs will be dead when you come back if you use TOBACCO DUST. 2-lb. box, 50c.
Feed Your Plants. Keep lawns fresh and green. Use STIM-U-PLANT. 30 tablets, 25c;
100 tablets, 75c.

If you want larger crops, use WIZARD Sheep Manure. 50 lbs., \$1.50; 100 lbs., \$2.50, not prepaid.

Chinese Giant Pepper.

Early Bird Radish.

Early Giant Rhubarb.

Genuine Hubbard Squash.

Zinnias.

Model Giant Dahlia-Flowered Zinnia

This fine novelty resembles the great show Dahlia in form and is nearly as large. The plant is a strong grower and flower stems are long and stiff. This remarkable variety includes a complete range of bright and rich colors and is a wonderful cut flower. Pkt., 25c, postpaid.

New Curled and Crested Zinnia

The petals are elegantly twisted and curled, giving the flower a most attractive appearance. The plant grows 18 inches high by 2 to 2½ feet in diameter, and blooms freely until killed by severe frost. The colors range from white through many shades of yellow, rose, pink and salmon, to deepest crimson. The new Curled and Crested is a grand cut flower which will last a considerable time in water. Pkt., 10c; 3 pkts., 25c, postpaid.

Umbrella Palm.

Jerusalem Cherry

A very showy pot plant, loaded with "cherries," which turn to glossy scarlet when ripe. Fine for Thanksgiving and Christmas decoration. Plant the seed in pots indoors, transplanting the plants to the garden in Summer. In late Summer they will be loaded with the bright cherries and may be potted and taken in the house. The cherries will hang on the plant all Winter. Foliage is always green and very ornamental. The fruit, however, is not edible. Pkt., 10c; 3 pkts., 25c, postpaid.

Giant Mallow Marvel

Mallow Marvels are a wonderfully improved form of our greatly admired Marsh-mallow or Hibiscus, in which flowers of enormous size, frequently 10 to 12 inches in diameter, have been developed. A robust type of upright habit, growing from four to seven feet high, and producing an abundance of flowers in all the richest shades of crimson, pink, and white. These hardy perennial plants can be highly recommended for all kinds of plantings and appear to be equally at home in all positions, having the same vigor in dry and wet ground and are as hardy as an oak. Bloom continually

Mallow Marvel.

from July until October. Pkt., 10c, postpaid.

Ornamental Cotton

Many people in the North have never seen cotton growing. It is by far a more beautiful plant than many of the ornamentals and can be successfully grown in the North for ornamental purposes. It makes a very desirable addition to any flower garden. This is a great novelty for the northern gardener, and always attracts the attention of both the grown-ups and the children. Start seed early and transplant. Has large, showy flowers, followed by large fluffy balls of white cotton. Pkt., 5c; 3 pkts., 10c, postpaid.

Ornamental Gourds

Rare, useful and ornamental varieties, such as Dipper, Nest Egg, Japanese Bottle, Dish Cloth, Pear-Shape, Pomegranate, Sugar Trough and Calabash Pipe, all varieties, mixed. 5c per pkt.; 3 pkts., 10c.

Zinnia.

Gaillardia.

Gaillardia Grandiflora (Blanket Flower)

Among the most attractive and effective of our hardy perennial plants. Will thrive in almost any position or in any soil. A mass of bloom from June until freezing weather. The gorgeous flowers, 2 to 3 inches in diameter, dark red-brown in center, with bands of crimson-orange and vermillion, are borne on stems 18 to 24 inches long. Excellent for cutting, and when used for filling in front of shrubbery Gaillardia adds a dash of color which is every effective. Pkt., 10c.

Gourds.

Sensitive Plant "Mimosa Pudica"

An interesting and curious plant with globular heads of pink flowers. It affords much amusement by its sensitive character. Even when touched slightly, the leaves instantly close and droop for a short time. Pkt., 5c.

The Great Japanese Umbrella Palm

A graceful and handsome House Plant, easily grown from seed Winter or Summer. The Japanese Umbrella Palm is a semi-aquatic plant. It is easily grown from seed either in a bowl of water or in very damp soil. Probably the most useful, as well as the most interesting method, is to grow the plant in a bowl or jardiniere filled with water, with two or three inches of good garden soil at the bottom. The seeds soon commence to germinate, and the plant shoots up stems two or three feet high, and rapidly assumes a pretty palm-like appearance, as shown in the engraving. The tops of the stems are surmounted by a whorls of umbrella-shaped leaves of a waxy appearance. We will send you a packet of this seed for only 15c, or two packets for 25c, postpaid.

Japanese Giant Chrysanthemum

The Chrysanthemum is the queen of Autumn flowers, nothing is more beautiful as house plants, in the late Fall and early Winter, than these large fluffy Japanese varieties. For massive blooms, grandeur of colors, ease of culture and certainty to flower there is no plant that will surpass them. The endeavor of nearly all growers has been, in late years, to introduce varieties which will produce the largest and finest blossoms for exhibition purposes. It is from these varieties that this seed is saved. These plants are easily raised from seed. Almost all the new and striking varieties are the result of plants grown from seed, and the amateur is as liable to originate new and splendid varieties as is the professional florist. They are of the easiest culture and always give satisfaction as house plants. The blossoms you get will surprise you with the odd and beautiful forms of the flowers and abundance of bloom. If you want a magnificent collection of these gorgeous Chrysanthemums—red, white, yellow and pink—you will make no mistake in getting a packet of our select seed. This seed is not sold in any seed assortment or mixture, and the only way to be sure of getting the genuine is to buy it in our sealed packets.

We sell the seed in sealed packets only, and guarantee it to be from the genuine large-flowering Japanese varieties. Pkt., 25c, postpaid.

Giant Chrysanthemum-Flowered Comet Aster

Our select strain of Giant Chrysanthemum-Flowered Comet Aster is the first of all. Finer and larger than the much advertised Asterum. The plants grow 18 to 24 inches in height, branching freely, each plant bearing from 20 to 30 magnificent flowers from 4 to 6 inches in diameter, with long, curled, twisted petals, forming loose, fluffy, globular heads, and resembling fine Japanese Chrysanthemums. All colors mixed. Pkt., 10c; 3 pkts., 25c, postpaid.

Comet Aster.

Chinese Woolflower

Many beautiful flowers have come to us from China, and among the leaders will be found the Chinese Woolflowers. The plant grows from 2 to 3 ft. high, the blossoms starting early with a central head, branching freely, each shoot bearing beautiful ball-shaped flower heads of purplish crimson resembling a ball of bright colored wool. Plants look like immense bouquets nicely arranged and placed in the ground. Flowers profusely during the Summer and Fall months and makes a gorgeous show. Flowers cut fresh and carefully dried retain their shape and wonderful color. Very easy to grow. You should have Chinese Woolflower in your garden. Pkt., 10c; 3 pkts., 25c, postpaid.

Shirley Poppy The American Legion Flower

The Poppy, the first official flower of the American Legion, has been associated in the minds of men for over 200 years with the battlefields of Flanders. Poppies also deserve a place of prominence because of their beauty, for which they are noted. With their satiny flowers of silk-like texture and many brilliant color combinations and delicately borne flowers, they are indeed, beautiful. You will find in this Shirley Mixture beautiful, large size Poppies of dazzling and brilliant color. They are borne on long stems and will keep a long time when cut in bud. Poppies are easily grown. Nothing could be more beautiful to behold than a bouquet of these beautiful Shirley Poppies. Pkt., 10c; 3 pkts., 25c, postpaid.

Gorgeous Sweet Peas—Spencer's Mixture

The Spencer, or Giant Ruffled, is the finest type of Sweet Pea grown. Beautifully formed flowers, many measuring more than 2 inches across, with petals daintily waved and ruffled. Unsurpassed as cut flowers. This very select mixture is composed of the very finest varieties, and is one of the most gorgeous mixtures of Spencers ever offered. It contains the cream of the very finest named Spencer varieties, including many recent novelties, and superb new seedlings not yet introduced. It is the very best blend possible to produce and will surely delight all who want a grand variety of shades and colors. Pkt., 10c; 3 pkts., 25c, postpaid.

Spencer Sweet Pea.

Giant Flowered Pansy

The flowering marvels of beauty in this special mixture is the finest thing out in Pansies. A wonderful collection of extra flowering Pansies of surpassing beauty in coloring. Plants are hardy and free flowering. Pansies are always a favorite with children. Pkt., 25c; 3 pkts., 60c, postpaid.

Ice Plant

A fine plant for sunny borders and also for dry sunny situations on banks, rock-work, old walls, etc. Foliage is very beautiful, being covered with ice-like globules. Useful for garnishing. Tender annual, growing about 6 inches high. Pkt., 10c; 3 pkts., 25c, postpaid.

Chrysanthemum.

Chinese Woolflower.

Giant Flowered Pansy.

Giant Cyclamen

Cyclamens are, without question, one of the best and most beautiful house plants. Our Cyclamen seed is grown for us by a specialist, seed being selected only from plants of superior bloom and foliage. The flowers are unsurpassed for size, color and substance. The seed we offer is a mixture of bright red, dark red, light pink, deep pink, salmon, white, white with carmine eye, etc. In fact, the colors range from white to darkest crimson, with all intermediate shades. Seed should be sown in shallow pans containing a mixture of finely sifted soil and leaf-mold. Keep warm and moist until the seeds sprout, which usually takes four weeks. When the plants are large enough to handle, they should be transplanted into small pots to be repotted into larger ones as the plants increase in size. Pkt. (15 seeds), 25c.

Blue Lace Flower

This is a beautiful Australian annual which is becoming very popular on account of its soft blue color, graceful form and beautiful lace-like flowers. The Blue Lace Flower grows into an upright, very much branched plant of about 2 feet in height. Each branch ends in an umbel of light sky-blue flowers which spread out in an umbrella-like fashion, crowning each shoot with a beautiful and delicate head of flowers. The name Blue Lace Flower is most appropriate since the blossoms resemble the most delicate and dainty lace. The many large flower clusters are composed of a great mass of florets on long graceful stems, are unsurpassed for cut flowers and last unusually long in water. It is very easily grown, blooms freely in the garden from July to October, or until the first hard frost. Pkt., 10c; 3 pkts., 25c, postpaid.

Eschscholtzia or California Poppy

Carmine King

California's state flower. Dwarf plants about 1 foot high, with spreading, silvery, fine cut foliage; furnishing a liberal quantity of poppy-like flowers from Spring until late Fall. In addition to the original yellow, the class is now enriched by various color shades. Produce beautiful effects either as border plants or in masses. Hardy annual. Pkt., 10c, postpaid.

Hyacinth Bean (Dolichos)

A rapid growing annual climber, making about 10 feet. They bloom freely in large, upright racemes of pea-like flowers, either white or purple; followed by ornamental purple seed pods. Sow seed in April or May. Mixed. Pkt., 5c, postpaid.

Eschscholtzia or California Poppy.

Cyclamen.

New Pres. Harding Sweet Pea

The outstanding value of this wonderful introduction is apparent from the many first-class awards given to it. The President Harding has been accepted both in America and England for its superiority and popularity. The American Sweet Pea Society gave it the only SILVER MEDAL for the finest new Sweet Pea. The National Sweet Pea Society of Great Britain awarded it the only CERTIFICATE OF MERIT for two years. It is the first American Sweet Pea that has received an Award of Merit from the English Sweet Pea Society.

The President Harding represents a nearly perfect Sweet Pea. The flowers are of immense size, bold and impressive, yet of excellent proportion and exquisite texture.

The President Harding is an entirely new color of Sweet Peas. The flowers are peach red or salmon-cerise suffused orange. Although a rich color, it is soft and pleasing, standing up well under strong sunlight. The bunch effect is lovely whether displayed during the day or under artificial light.

The President Harding is a foremost exhibition variety. The plants make a strong and sturdy growth and produce an abundance of long flower-stems. Each stem displays four exquisite flowers in an artistic arrangement. Pkt., 20c; 3 pkts., 50c, postpaid.

Snow-on-the-Mountain

One of the very finest of all outdoor foliage plants and easy to grow. The leaves are a rich pale green with a deep edging of white and will add to the beauty of any flower bed. Pkt., 5c, postpaid.

Phlox, Bridesmaid.

Hardy Phlox Plants

The Phlox is one of the most beautiful, most useful and most lasting of hardy perennials. The newer varieties are a great improvement over the old ones. Bear immense trusses of flowers of every shade but yellow, passing from pure white to dark red and purple. Their blooming season is in July and August.

R. P. Struthers. Deep carmine-pink with darker center, a very popular color. In fact, we sell more Struthers than any other variety.

Rijnstroom. Beautiful rosy-pink color not unlike that of Paul Neyron Rose. A good strong grower and very free flowering.

Frau Anton Buchner. Pure white. Has a strong habit and produces flowers of an enormous size and perfect form.

Bridesmaid. White with a red center; low growing but free blooming.

Eclairer. Brilliant rosy magenta with large, lighter halo.

Special Offer: One each of 5 varieties above, all distinctly labeled, for \$1.25, prepaid.

Price, named Phlox, all varieties, 30c each; 4 for \$1.00; \$2.75 per doz., either all alike or assorted. All postpaid.

Selected Hardy Perennial Flower Seed

There is nothing which gives more satisfaction than a well arranged Perennial Flower Garden. While natural and restful in effect, their beauty is ever-changing and varying in its range of color, for you can find flowers there all the season long. Perfectly hardy in the open ground; they die down in the Winter and begin growth naturally each Spring. Failure with them is practically impossible. See page 31 for other Perennials.

Delphinium.

Dianthus

Hardy Garden Pinks

The old favorite Clove or Hardy Garden Pinks with double and semi-double carnation-like flowers. They are very sweet scented, early blooming and free flowering. Unequalled for borders of beds, drives and the old-fashioned garden, and should be planted generously in any rich garden soil where they can get the full benefit of the sun. Pkt., 10c, postpaid. Plants, 30c each; 4, \$1.00; dozen, \$2.75.

Double Hollyhocks.

Alyssum

Deep, pure yellow flowers, of surpassing beauty. Begins to bloom early in the Spring and is very select for front borders and edgings. Seed may be sown very early in the Spring and up to June 15th, also for early Spring flowers. Will resist the most severe weather. Pkt., 5c, postpaid. Plants, each, 30c; 4, \$1.00; dozen, \$2.75.

Anemone - Windflower

A very beautiful poppy-like flower of the Fall blooming class. It blooms alone on a long stem, but the flowers are numerous and large. It is ideal for bouquets in vases. Will bloom the first year if the seed is planted early and kept shaded until the plants appear, but Fall plantings appear to succeed the best. All colors mixed. Pkt., 10c, postpaid. Plants, each, 30c; 4, \$1.00; dozen, \$2.75.

Hardy Pinks.

Bellis

Double Daisy

Grows two feet high and blooms from June to October or until frost kills it. Their long flowering period, long stems and bright colors make them one of the most valuable perennials and they are easily grown in any ordinary garden soil. Pkt., 10c, postpaid.

Double Hollyhocks

There is nothing finer nor more easily grown than the Hollyhocks. Tall spikes of bloom, some of them growing over five feet and in a wide range of color, blooming all through the season. Will bloom the first season if planted early or they may be planted in the Fall. Pkt., 10c, postpaid. Plants, colors are white, pink, yellow and salmon. 30c each; 4, \$1.00; dozen, \$2.75.

Anemone.

Delphinium - Larkspur

The Perennial Delphinium or Larkspurs are among the most useful and prolific of all flowering plants for the garden. Blooms all Summer and is unsurpassed for its display of the various shades of blue. Easily grown from seed. Pkt., 10c, postpaid. Plants, each, 30c; 4, \$1.00; dozen, \$2.75. All colors.

Perennial Sweet Peas

A superfine mixture of all colors of Sweet Peas and there is nothing which rivals them in their generous supply of cut flowers. They will grow anywhere you can raise the common garden pea and will bloom all Summer. For larger blooms of greater beauty, fertilize liberally with manure or any good fertilizer. Pkt., 10c, postpaid.

Platycodon - Bellflower

A hardy perennial that blooms the first year. Large blue and white bell-shaped flowers on well-branched bushes two to three feet high. A welcome addition to any garden and a very hardy, free bloomer. Pkt., 10c, postpaid. Plants, 30c each; 4, \$1.00; dozen, \$2.75.

Platycodon.

Selected Hardy Perennials

A Perennial Garden.

DAISY (Shasta). 2 ft. Wonderful show of large white flowers. Fine for cutting. Blooms all Summer. Seeds, 10c per pkt.

HIBISCUS (Rose Mallow). 3 to 5 feet. Noble, shrub-like plants, with handsome green foliage, bearing throughout Summer large, bright flowers, from 3 to 5 inches in diameter. August-September. Very hardy. Suitable for garden and indoor use when cut. White, pink and crimson eye.

GAILLARDIA (Blanket Flower). June to October. 2 ft. Their long-flowering period, long stems and bright colors make these one of the most valuable of perennials, being easily grown in beds or borders in ordinary garden soil.

Unless otherwise specified, all perennials are 30c each, or four for \$1.00, or \$2.75 per dozen.

ACHILLEA, The Pearl. Clusters of sturdy little pure white blossoms blooming through the hottest parts of the Summer. Wonderful for borders and for cutting. Multiplies rapidly. 10 inches. Sun. July-August.

AQUILEGIA (Columbine). The Columbine is one of the most beautiful hardy perennials, producing graceful spurred flowers on 2-ft. stems. They are much prized for cut flower purposes, making dainty decorations. They are one of the most important of our early hardy flowers and should be grown in quantity, being easy to establish and thriving in almost any situation, best if sheltered but exposed to full sun. Varieties—yellow, white, rose and dark yellow.

ASTER. Now fill a most important place in all hardy flower gardens, lighting up the borders and shrubberies with their masses and clouds of dainty and brightly colored blossoms throughout the Autumn months up to November, when other flowers are scarce. Blue, pink and white.

CARNATION. After a few years' trials, we have proved these to be quite hardy, with ordinary protection. Large double flowers, produced in succession all Summer. Make excellent beds and are valuable cut flowers. Colors—red, pink, yellow and white.

CENTAUREA (Hardheads, Knapweed). Good plants for the flower border or wild garden, with thistle-like flowers. Blossom in July-August. Blue and white.

COREOPSIS (Tickseed). One of the most popular hardy plants, the flowers are a rich golden yellow of a beautiful, graceful form and bloom June to October.

HOSTA (Funkia or Day Lily). Very attractive plants with broad overlapping leaves of various markings; very ornamental, surmounted by dainty lily-like flowers in terminal racemes. 1½-2 ft. July-August. Effective in front of shrubbery under trees, or any shady position where they thrive best.

M. G. C. GREENHOUSE PLANTS

Beefsteak Begonia.

BEEFSTEAK BEGONIA. (Feast). Circular leaves, of heavy texture, dark, glossy green above, red beneath. 35c; 3 for \$1.00.

Rex Begonia.

GIANT PAINTED LEAF BEGONIA. King of Rex. Beautiful foliage. Mammoth, bright green leaves. 45c.

Red Ger., Fireball.

SINGLE PETUNIAS. Exceptionally fine; mixed colors. Very popular; easy culture. Rich in coloring. 25c each; 3 for 65c.

Double Petunia.

DOUBLE PETUNIA. Beautiful, double fringed blooms. Colors white, pink, purple and variegated. 30c each; any 3 for 80c.

Weeping Lantana.

WEeping LANTANA. Flowers violet-pink. Blooms Winter and Summer. 30c; 3 for 80c.

Tub Hydrangea.

PORCH HYDRANGEAS. Deep rosy amber-red, 35c. Delicate rose colored flowers, 35c. Pure white, carmine eye, 35c. All 3 above for \$1.00.

Tiger Lily.

Japanese Lilies

(Delivery Early in Spring)

AURATUM LILY. This is the famous Gold-Banded Lily of Japan. Has from 3 to 12 enormous blooms on a stalk from 2 to 3 feet high. Perfectly hardy, gets better every year. Blooming size bulbs, 50c each.

REGAL LILY. This striking new hardy Lily is by far the most outstanding introduction in the past twenty years. It was discovered growing wild in Western China, in a climate much more rigorous than our own, and therefore is perfectly hardy here. The blooms are quite large, trumpet-shaped, pure waxy white, shading to a delicate pink. 50c each.

TIGER LILY (*Lilium tigrinum*). A deep orange-red with black spots. Very showy and hardy. Single or double. 50c each.

SPECIOSUM RUBRUM or **ROSEUM**. A white Lily very thickly dotted with rich crimson spots, has six petals that curve back like the Tiger Lily and is a beautiful Lily, and very hardy. Blooming size bulbs, 50c each.

3 of any variety, named, postpaid. \$1.38

Model Oriental Flower Garden

This is a special collection of Japanese and Chinese flower seeds; rare, curious, showy, and most handsome varieties, entirely adapted to our climate. It is from Japan that we obtain many of our most beautiful flowers, such as Chrysanthemums, Irises, Lilies, Peonies, Oriental Poppies, etc., and many of our rarest, most curious, effective and showy varieties come from China. This Oriental Flower Garden contains a large assortment of varieties, all put up in one package. It would be expensive to buy them all in separate packets, as many of the varieties are very scarce and not even offered by us in separate packets. Full directions for planting are sent with each package. This fine Oriental seed assortment will please you. Complete assortment (one package) 10c; 3 for 25c, postpaid.

Model Perennial Flower Garden

Every garden should contain a good assortment of perennial plants, as they remain in the ground year after year and require very little care. An easy and inexpensive way of obtaining them is to send for our Perennial Flower Seeds Package of 25 varieties. Package, 10c; 3 for 25c; 7 for 50c, postpaid.

Model Wild Flower Garden

Hundreds of Varieties of Pretty Flowers. At practically no cost the Children's Garden can be transformed into a delightfully attractive spot, overflowing with charm and fascination in its quaint, exquisite beauty, and forming the most instructive of schoolrooms and the happiest of playgrounds. IRIS - Flower-de-luce

(Greek Word for Rainbow)

The "Fleur de Lis" of France, and well-beloved favorite in every old-time garden. It is capable of establishment in almost every kind of soil. Their exquisite colorings and the artistic growth of both plant and flower make them desirable in every garden. In groups along paths and walks, or as a border they are excellent, and their delightful fragrance adds even more to their charm. The lily-like flowers rise gracefully on rather long stems from the center of a mass of sword-like green leaves. They speak for themselves, for almost everyone knows and loves the Iris. It is no longer the old-fashioned flags we used to know but the improved varieties, as beautiful as orchids. Every blend of the rainbow is combined, from clear blue to yellow. It is hard to describe the color of the Iris.

Some have suggested that the Iris should be our National flower, as it is probably the only flower that can be grown in every part of the United States.

Iris, Gertrude May.

ORNAMENTAL SHADE TREES

You will Have Bountiful Shade and a Luxuriant Background in a Few Years' Time If You Plant "Model Garden Club" Trees

Catalpa

BUNGEI. Our finest variety. Called by many "Umbrella Tree." Has dome-shaped head. Large, soft leaves. Fine for lawns, parks and cemeteries. 2-yr. heads, \$2.50.

SPECIOSA. The most valuable tree known when planted for commercial purposes. A thick, rough-barked tree of soft, white wood; leaves large and dark green; beautiful white flowers in July. The wood is extensively used for fence posts, railroad ties and telegraph poles. We have an extra fine lot of these trees suitable for shade trees, parks and wooded lots. 4 ft. and up, each, 50c; 10 for \$4.00.

Maple

SOFT. Very rapid grower and called by many Silver Maple. Good for quick shade. 6 to 8 ft. each, \$1.50; 10 for \$12.50; 100 for \$100.00.

WEIR'S CUT-LEAF. One of the most remarkable and beautiful trees, with deeply cut foliage. Rapid grower, shoots slender and drooping, almost as graceful as the Weeping Birch. 6 to 8 feet, \$2.00 each.

Elm

The noble, spreading, drooping tree of our woods. One of the grandest park or shade trees. A magnificent, stately tree, easily distinguished by the wide, weeping top and pendulous branchlets. One of the most noble and graceful trees where a tall, spreading tree is desired, and a favorite the country over. 6 to 8 ft., each, \$1.50; 10 for \$12.50; 100 for \$100.00.

All trees f. o. b. Paw Paw.

Catalpa Bungei.

PLANT APPLES FOR BIG PROFIT

Use Our Hardy Northern Grown Stock

Our Prices Are Right And Quality the Best

In offering you our northern grown fruit trees we have endeavored to list only the finest and best varieties and those that are suited to all conditions throughout the United States.

Our trees are all propagated from bearing orchards that we personally know, and we fully guarantee every tree shipped by us to be just as represented. This should mean a lot to the careful buyer, as stock which is not true to name is a loss to the planter.

Good Trees At Honest Prices

"Grow the best trees that can be grown, sell them at an honest price and satisfy every customer"—that's the one policy of the Model Garden Club, the foundation on which our success is built.

We have a nice lot of 2 to 3 ft. apple trees this year. These are young trees of the size used by commercial planters. One-year top and two-year root. Postpaid anywhere in the United States, well packed and safe arrival guaranteed. 2 to 3 ft., 4, \$1.20; 10, \$2.85; 25, \$6.75; 100, \$25.00. Large sizes, add 5c a tree for postage. 2-year, 3 to 4 ft., 4, \$1.80; 10, \$4.50; 25, \$8.85; 100, \$30.00. 2-year, 4 to 6 ft., each, 60c; 4, \$2.20; 10, \$5.00; 25, \$11.25; 100, \$40.00.

Yellow Transparent.

Summer Apples

YELLOW TRANSPARENT. The very earliest Apple to bear and the earliest to reach maturity. It frequently sets blossoms the first year, in the nursery row. The skin is a pale yellow. The flesh white, crisp, juicy, mildly sub-acid. Bears profusely, late June to August.

RED ASTRACHAN. Another hardy Russian variety. Yellow, overcast and streaked with red. Flesh sweet, juicy, and of remarkably attractive flavor. Begins to bear when the tree is very small. July to early September.

EARLY HARVEST. Pale yellow skin. A larger Apple than Yellow Transparent, and of better quality. Flesh is sweet and juicy. Makes a favorite cooking variety if not allowed to fully ripen. August to September.

Genuine Delicious.

Fall Apples

FAMEUSE (Snow). The most desirable of the Fall varieties. Deep red skin, pure white flesh, crisp, sweet, juicy, and with a peculiar winey flavor. The tree is a rapid grower. Probably one of the most profitable Apples grown. Medium size, smooth, round, of fine quality and a splendid keeper. Tree matures early; bears a large crop every year.

MAIDEN BLUSH. A beautiful Apple of desirable quality. Light yellow with a red "blush." The flesh is crisp, juicy, and of sprightly flavor. Ready demand in all markets.

DUCHESS OF OLDENBURG. A large yellow Apple, prettily streaked with crimson, and borne in abundance throughout the Fall. The flesh is crisp, juicy, sub-acid. Fair keeper; a general favorite everywhere.

WEALTHY. Best known of all Fall Apples. Extensively grown East, West, North and South. Free from disease and long lived. Fruit bright red; quality excellent. Its planting increases every year because it pays. It fills the gap of ripening between Maiden Blush and Jonathan.

Jonathan.

"An Apple a Day Keeps the Doctor Away"

Here in America the Apple needs no introduction. We all like it, from the lowest to the highest. Beneath its rosy and golden skin lies a wealth of flavor that appeals to the taste; it is rich in vitamins, therefore one of the most healthful foods produced. Few meals are planned without the Apple in some form. It is a good fireside companion for a Winter evening and for the growing boy or girl there is no better or more trusty friend.

The alarming part is that the planting of Apple trees has decreased in the past ten years. If all of us would plant our back yards (and 99 times out of 100 they need some shade in the first place) to Apple trees—if we would only clear up that waste patch of ground that has never paid for itself and plant it to Apple trees, we would soon have the decrease on the wane and the future well cared for. And, for fear you don't know it, where it has been thoroughly tried out, the Apple, if given the same care and attention as other farm crops, yields far greater returns per acre.

Is it not worth while?

McIntosh Apple.

Winter Apples

GENUINE DELICIOUS. The handsomest Apple grown. Inverted pear-shape. Deep red, shading to golden yellow. The flesh is fine grained, melting, and of wonderful flavor and aroma. The tree matures early and yields a fair crop of the very finest Apples.

JONATHAN. Medium size, bright red Apple that succeeds and is a favorite wherever Apples can be grown. Flesh is firm, tender, juicy, and of delightful flavor. A standard Winter Apple.

BALDWIN. Large, bright red, with crisp, juicy flesh, this grand old variety is one of the most dependable varieties that can be grown.

GRIMES GOLDEN. A very hardy variety. Rich, golden yellow skin, flesh sweet, tender and juicy.

STAYMAN WINESAP. Large, prolific; deep red skin, flesh of excellent quality. A decided improvement over the old Wine sap in every respect.

McINTOSH. Large, deep crimson, and beautiful. Tree is hardy and vigorous. Flesh pure white, crisp and very tender. A good regular bearer. Has justly proved itself a favorite in the Apple belt, and a good market variety. November to January.

NORTHWESTERN GREENING. The best Greening ever produced and the hardiest. An ideal Winter Apple for northern climates. Fruit large, greenish yellow, firm and fine grained. Tree a thrifty, upright grower; an early and productive bearer. Keeps late into the Winter. One of the best for cooking.

Young Apple Trees Growing in Nursery Row.

Our Trees are Carefully Graded

We take great pride in the fact that our trees are carefully covered and all possible means taken to protect them from the time they are dug from the field until they reach our grading sheds.

Our Trees Are Graded 100 Per Cent Perfect

Our trees are graded very closely and the purchaser of any trees from us will be more than satisfied, for we have made proper grading a lifetime study and any stock shipped you will be just as described.

Wealthy Apples.

M. G. C. Hardy Cherries

Few fruits offer larger or better returns, and for either home use or commercial purposes the Cherry is without a rival. No fruit outside of apples generally does so well. Sandy or gravelly soil is best, but trees will thrive in any situation except a wet one. Trees are clean growers and steady bearers, coming into bearing when very young, and yielding most satisfactory financial returns.

The sour varieties are hardy and will grow wherever the apple succeeds. The fruit is always in demand for preserves and pies.

Trees of the sweet varieties are beautiful as well as useful, make excellent ornamental shade trees for the lawn or garden.

2-yr. stock, strong, hardy, mailing size, 2½ ft. and up, each, 70c; 10 for \$6.50; 25 for \$14.00. Quotations on larger quantities and larger stock. Trees well packed and boxed free. Send 5c extra each tree for postage.

BLACK TARTARIAN (Sweet). Very large, bright purplish-black; half-tender, juicy, rich and flavor excellent; vigorous grower and producer. June.

SCHMIDT'S BIGARREAU (Sweet). Heavily clustered fruits of largest size, deep crimson-black; tender, juicy, well-flavored. A splendid market Cherry because of its attractiveness and general good qualities. July.

WINDSOR (Sweet). A splendid large, liver-colored Cherry that hangs on a long time and rots but little. The flesh is remarkably firm and good, the tree very hardy and fruitful. Exceedingly valuable for late market and home use. July.

EARLY RICHMOND. Medium size, dark red, melting and juicy; acid flavor; one of the most valuable and popular of the acid Cherries, and is unsurpassed for cooking; tree slender grower, exceedingly productive and very hardy; will stand the most severe weather without injury. Middle of June.

LARGE MONTMORENCY. Large, roundish, red; flesh tender, mildly acid, good quality. Fruit larger and firmer than Early Richmond and about ten days later; late June.

Black Tartarian Cherries.

Plums

By all means there should be a few Plum trees included in every home orchard. The fruit while fresh is delicious and we know of but few people who do not like Damson and Plum preserves. Plum trees do best when planted sixteen feet apart each way.

BURBANK. Large, nearly round; clear cherry-red with thin lilac bloom. Flesh deep yellow, rich, very sweet, and with a peculiar and agreeable flavor.

RED JUNE. The earliest Plum in cultivation, and usually a profitable variety in local markets. Bright red with light bloom; flesh light yellow, sweet and juicy. Of thoroughly good quality.

ABUNDANCE. Rich cherry color with heavy white bloom. Large and showy. Small pit; light yellow flesh and of most delicious sweetness. Early and heavy cropper.

WICKSON. Deep red, with yellow, sugary sweet flesh. Handsome in appearance and delicious in quality. The tree is of rapid growth and can be planted close together on account of its upright growth.

SHROPSHIRE DAMSON. One of the finest purple Plums grown; productive, hardy, and excellent for preserves.

AMERICA. Large, glossy coral red, very beautiful; firm, sweet and juicy. Blooms late and scarcely ever gets killed by frost. Bears enormous crops every year. Tree very hardy and thrifty grower.

Select Hardy Plum Trees

Two-Year Stock

3½ feet and up, each, 70c; 10 for \$6.50; 25 for \$14.00. Quotations on larger quantities and larger stock. Send 5c a tree for postage.

Burbank
Plums.

Peaches

A good Peach orchard, well handled, is a regular gold mine, and hundreds of growers have made fortunes on their Peach orchards, within a very few years.

New plantings of Peaches should be along the line of the new varieties of the better quality. Keep abreast of the times and plant the new Peaches for profit. They are the varieties in greatest demand, they command the best prices and mean larger profits to the grower.

Our Peach trees are all budded on seedlings grown from natural Peach seeds, collected in districts free from yellows. They are perfectly healthy, free from insects or disease of any kind, vigorous and long-lived, have splendid roots, and are budded from selected bearing trees.

ELBERTA. Freestone. By this Peach all others are judged. Large, yellow with red cheek. Very prolific. Hardy. Ripens August 15th to 20th. The fruit of Elberta can be gathered when hard and ripens up evenly without rotting.

J. H. HALE. Combines all qualities most desired, either for home or market. Brilliantly colored, deep golden yellow with carmine blush. Skin thick, without fuzz, smooth as an apricot. Flesh deep yellow, firm, fine grained, tender, melting, luscious flavor. Very solid and heavy Peach of immense size, fully one-half larger and harder than Elberta; enormously productive. Perfect freestone. Wonderful keeper and shipper. Sells for one-third more than ordinary sorts.

BELLE OF GEORGIA. Uniformly large and showy, skin white with red cheek; flesh firm, white, excellent flavor. Very prolific bearer; fine shipper, a most profitable commercial variety in the North as well as the South. Ripens with Crawford's Early.

KALAMAZOO. A big money-maker. Midseason; yellow; heavy bearer.

ROCHESTER. The first large, yellow freestone Peach to ripen. One of the finest flavored Peaches, and a good shipper.

CARMAN. Probably the handsomest Peach grown. A red cheeked, golden yellow freestone of fine flavor and very juicy. An excellent shipper, ripening a good crop medium early.

J. H. Hale, King of All Peaches.

Ferns, Postpaid

Decorative Ferns

OSTRICH PLUME FERN. Feathery foliage. A healthy and vigorous grower. 35c; larger plants, 75c.

ROOSEVELT FERN. Fronds broad and heavy and of a rich, dark green. 30c each; larger plants, 75c.

FLUFFY RUFFLES. Dark, feathery foliage. Growth dense and compact. 35c each; larger plants, 75c.

MAIDENHAIR FERN. An exceedingly beautiful and healthy plant. 30c each.

FEATHER FERN (*Asparagus Sprengeri*). Gracefully drooping sprays 3 to 4 ft. in length. Makes one of

Ostrich Plume Fern.

the prettiest plants for the house or porch. 30c and 60c.

LACE FERN (*Plumosis*). Leaves are bright green, gracefully arched, and as finely woven as the finest silken mesh. 30c and 60c.

BOSTON. Long drooping fronds. A Fern that looks well anywhere. 30c and 75c.

TEDDY JUNIOR. A superb dwarf form of the Roosevelt Fern. Very popular. 35c and 75c.

Hardy Garden Chrysanthemums

AUTUMN GLOW. Rosy crimson.

INDIAN. Red.

OLD HOMESTEAD. Pink.

WHITE DOTY. White.

EXCELSA. Bronze.

TINTS OF GOLD. Yellow.

Fine young plants of any of the above varieties, 25c each; one each of the above, \$1.25, postpaid.

Mexican Fire Bush.

Mexican Fire Plant

This beautiful ornamental bush is also known as Kochia, Burning Bush and Summer Cypress. It grows 2 to 2½ feet high and resembles a close-clipped ornamental evergreen. May be grown singly or in the form of a hedge or background. In early Fall the whole bush turns to bright scarlet. It is very quick growing, and may be sown when the trees are coming out in leaf. Pkt., 10c; 3 pkts., 25c.

Everlasting or Strawflower

Beautiful Aster-like flowers that, when dried, retain much of their original shape and are popular for Winter decorations. We can supply seed in the following separate colors: Crimson, purple, rose, golden yellow. All colors mixed. Pkt., 10c; 3 pkts., 25c.

Pears

Unexcelled for Canning or Table Use

The cultivation of this fruit is rapidly extending as its value is appreciated and the demand is increasing every year, making it one of the most profitable to plant. The range of varieties is such that, like apples, they can be had in good eating condition from August until early Spring. One of the most important points about the management of Pears is the gathering at the proper time. Summer Pears should be gathered at least ten days before they are ripe, and Autumn Pears at least two weeks. Winter varieties may hang until leaves begin to fall, then place in a cool, dry cellar, wrapping in paper.

BARTLETT. By this Pear all others are judged. Bears early and abundantly. Waxy yellow when ripe. Juicy and melting flavor. Bartlett is our choice for high quality.

KIEFFER. The well known canning Pear. Noted for its hardness and bearing qualities. Ripens October and November.

CLAPP'S FAVORITE. This is without doubt the most productive Pear in cultivation. It is of very large size; pale yellow color with a crimson blush. The flesh is finely grained, juicy, melting and buttery. Very desirable in all sections, and especially so where all other varieties fail.

PEARS, STANDARD.

	Size	Each	Per 10

Selected Apricots

Apricots are believed to have been a cross between the peach and the plum, having the shape and color of the peach, but in texture and smoothness of skin they resemble the plum.

SUPERB. A splendid hardy variety of the best flavor. One of the best producers. Fruit medium size, color pinkish yellow. You can grow this Apricot almost anywhere.

MOORPARK. One of the largest and finest Apricots, yellow with a red cheek; flesh orange, sweet, juicy, and rich, parts from the stone. Very productive.

Superb Apricots.

Bartlett Pear.

Price, each 60c; 10 for \$4.50. Mailing size, add 5c a tree, postage.

Orange Quince.

Selected Quinces

The Quince is the ideal fruit for flavoring, preserves, jellies, marmalade and cooked fruit, being a great favorite of the housewife for this purpose. Every home should contain several trees; especially suited for yards and gardens.

CHAMPION. Very large and handsome; flesh cooks as tender as an apple, without hard spots; flavor delicate; trees very handsome and bears abundantly; one of the most valuable sorts; color greenish yellow.

ORANGE. Large, roundish, somewhat irregular with a small short neck at the base; fine, golden yellow flesh and of excellent flavor. October. This is unquestionably the best variety.

Watermelon

A NEW VARIETY

The Mammoth Supreme Watermelon

Is new, the largest melon grown, from 50 to 100 pounds, round, dark green, striped, good quality. Keeps two months in field after ripening, does not sun burn, rind very thin, but tough. Drought resistant, hardy, easily grown and unusually productive. The best all purpose Watermelon known.

Tom Watson

The Most Popular of All Watermelons

Although of recent introduction, it already occupies a very prominent place in all markets and is everywhere called for. We look for this new variety to surpass all varieties, because of its size and drought resistant quality. We have only a limited amount of the seed and therefore we can only offer them to our customers in packets at 15c, postpaid.

Model Garden Club Mammoth Supreme Watermelon.

Golden Velocity Cantaloupe

An improved selection from Golden Champlain. The earliest variety grown, fruit round, 2 to 3 pounds, netted, golden yellow color, salmon flesh, good quality. The melon that commands the market. Earliness—57 days from seed to market. Quality—flesh very sweet and melting. Productiveness—netted \$2,000 per acre. Hardiness—exceeded 31 other varieties. We have only a limited supply of seed we can offer to our customers. Pkt., 15c, postpaid.

Golden Velocity Cantaloupe.

M. G. C. Everbearing Bean

Model Garden Everbearing Kentucky Wonder is without exception the finest flavored snap Bean grown. The green pods, seven to ten inches long, are so fleshy they are often greater in width than breadth. They are solid, meaty, and very crisp. They commence bearing exceedingly early for a pole or climbing sort, and if pods are gathered as they mature the vines will continue to bear until killed by the Fall frosts. This is one of the few pole Beans that will bear a satisfactory crop without being poled. It will not produce as large a crop if grown without poles but will be more productive than any of the dwarf sorts. By planting a few hills in your corn, the corn stalks will act as a support for the vines, and you will get a good crop of both corn and Beans. Pkt., 10c; 1/4 lb., 15c; lb., 45c; 3 lbs., \$1.25, postpaid.

M. G. C. Everbearing Kentucky Wonder.

Mushrooms

The Mushroom, as a table delicacy, is rapidly becoming extremely popular, and it will certainly continue to increase in favor as fast as people discover how easily it can be grown. With all orders we give our free pamphlet, "How to Grow Mushrooms," and anyone who will carefully follow its simple directions can have no difficulty in producing a crop.

A cellar or any room where the temperature does not fall below 40 degrees while the Mushrooms are growing may be made to produce a good crop. In the country small beds may be made in the corner of the stable, or in the city, boxes may be prepared and set in the cellar.

Spore Culture Spawn. Is far superior to the old style varieties and much better results can be obtained from its use. Bricks weigh from 18 to 24 ounces. A brick will spawn ten square feet of bed. Price, per brick, 50c, postpaid. By express or freight, 5 bricks, \$1.75; 10 bricks, \$3.25.

Eat More Mushrooms. Yield 204 calories per pound and contain protein.

Mushroom Grown From Pure Culture Mushroom Spawn.

There Are Big Profits In Growing Grapes

WE HAVE WONDERFUL NEWS FOR YOU.

We are fortunate in having a nice lot of Concord Grape vines, and we are going to pass them along to you at a great saving in price, as long as they last at wholesale. You can always find a place for a few vines. Plant large acreage of Grape vines if you have the land. We are located in the very heart of the Michigan Grape Belt, a Concord Grape district, and we know that Concord Grapes are

A Profit Paying Crop

We advise setting Concord for main crop. They are an excellent Grape and will please you. They will outbear any other variety, and when ripe are of best flavor; stand shipping to long distances, and many carloads from here go to Oklahoma, Kansas, Missouri, Minnesota, and other states. The Concord Grape is the most popular Grape grown today. Succeeds everywhere. Is the hardiest and most prolific of

**Our Pedigreed
Concord Grapes.**

bearers; bunches are compact and extra large. The berries are large, round, almost black with a beautiful blue bloom; juicy and very sweet. Nine-tenths of all commercial plantings are of Concord.

For centuries the vine covered hills of France, Germany and Spain have been famous for their soil fertility and special adaptability to Grape growing. In recent years it has been demonstrated that many sections of the United States have all the advantages of European countries for vine culture plus a few of their own.

Wholesale prices on Concord: 2-yr.-old, No. 1, 1000 for \$45.00. 2-yr.-old, No. 2, 1000 for \$35.00. 1-yr.-old, No. 1, 1000 at \$30.00. 1-yr.-old, No. 2, 1000 at \$20.00. 500 at 1000 rates. Prices f. o. b. Paw Paw, Mich. Packing and boxing free. These are the finest vines we have ever grown.

Satisfactory**

Remember, our Grape plants are sold to you subject to their being satisfactory in every way. If they are not better or as good as any that you have ever bought, regardless of price; they are subject to our money-back guarantee.

One of Our Concord Vineyards.

Hardy Well-Rooted Plants

The plants are fine with splendid roots. We dig them with tractor power which goes deep into the ground and gets all the roots intact. In propagating Grape plants we grow the hardy varieties, those vines that do not Winter-kill under ordinary circumstances.

Everyone Should Have a Few Grape Vines In the Home Garden

White Grapes

NIAGARA. We have an exceptionally fine stand of this famous White Grape grown right in the heart of the Michigan Grape Belt and from the world's finest vineyards, will grow in almost any garden, and is especially adapted to light soil. One of the leading white sorts. Vine remarkably hardy, strong grower; bunch large, compact, shouldered, berry large, yellowish white, juicy, melting and sweet to the center; best quality; skin thin but tough, and does not crack, making it a good shipping and market berry.

The White Concord (Niagara) is the finest wine Grape grown and always commands the highest market price. Plant a vineyard of this wonderful white Grape and get started on the road to success.

Concord
Grapes.

Delaware
Grapes.

Concord

THE STANDARD COMMERCIAL GRAPE

Produces large, blue-black Grapes, very juicy and sweet. Ripens in the northern states about the middle of September. Very hardy and productive. Concord Grapes will grow anywhere, rock, sand or clay, and in a few years will be in full bearing, and will thrive an ordinary man's life. A strong, healthy grower, makes plenty of vine, foliage tough and leathery, resistant to diseases and insects. We recommend Concord to our most exacting customers. Concord prices, postpaid: 2-yr., No. 1, each, 15c; 10 for \$1.20; 50 for \$5.00; 100 for \$9.00. 2-yr. No. 2, each, 12c; 10 for \$1.00; 50 for \$4.00; 100 for \$7.00. 1-yr., No. 1, each, 10c; 10 for 90c; 50 for \$3.50; 100 for \$5.50

Niagara Grapes.

DELAWARE. A delicious little red table Grape of highest quality. Bunches small and compact. Berries small, light red, with a violet bloom, beautiful; sweet, sugary, with musky aroma. Valuable for its hardiness and early ripening qualities. One of the finest of our native Grapes.

CATAWBA. This is a very fine table and wine Grape. When fully ripe is a dark copper color. Has a sweet, rich, musky flavor.

MOORE'S EARLY. Comes into market 10 days before Concord, consequently brings highest prices. Vines extremely hardy, berries large, purplish black, sweet and good. Particularly valuable in the North.

WORDEN. One of the black Grapes. Has the wonderful dependability and productivity of Concord, but ripens 10 days earlier, larger size, finer in appearance and very much better in quality. We recommend Worden for home use or commercial vineyard.

Raspberries For Quick Profits Easy to Grow

Michigan Raspberries are Healthy and Productive.

Recognized among the best grown in the United States and much superior in many respects to those produced in some states; this statement made by Mr. Taft, State Horticultural College.

Red Raspberry

We have a large stock of thrifty plants for shipment.

EARLY KING. A perfect beauty when picked, coming early and fruiting long; an immense cropper. The bright red berries, as large as a copper penny, very firm and fine flavored, pick nicely and do not crumble. Becoming too ripe does not affect the color at all. They are indeed a showy fruit, perfectly hardy and healthy in every way. The successful grower of Red Raspberries is growing the "King" for big, paying crops. Prices: 10 for 80c; 25 for \$1.35; 50 for \$2.50; 100 for \$4.50, postpaid. 1000 for \$25.00, not prepaid. 500 at 1000 rates.

King.
Raspberry

Black Raspberries

CUMBERLAND. Largest of all the Blackcaps. The most profitable variety for main crop. A healthy, vigorous grower, throwing up stout, stocky, well branched canes that produce immense crops of magnificent berries. Fruit very large, firm, quality about the same as Gregg; keeps and ships as well as any of the blacks. The most profitable market variety. Cumberland is very hardy and will stand many degrees below zero without injury. We have fruited all of the other varieties, but they all fall away behind the Cumberland. If you trim them back so the stalk will not be more than 2½ feet high and cut the laterals off to six inches in length, you will get fruit that will surprise you and give you the largest picking season of any black Raspberry. Cumberland sets so many berries that it is absolutely necessary to give it a severe trimming. It could not hold up the immense load. Prices: 12 for 80c; 25 for \$1.35; 50 for \$2.50; 100 for \$4.50, postpaid. 1000 for \$25.00, not prepaid. 500 at 1000 rates.

Cumberland Black Raspberries.

St. Regis Everbearing Red Raspberry

A fairly new variety that has proven itself to be one of the best everbearing Red Raspberries ever pro-

St. Regis, the Earliest Red Raspberry and the Best Everbearing Ki

duced. The value of the St. Regis lies in the fact that it will produce a full crop of fruit in the Spring and then will commence bearing on the new canes, producing ripe berries all through the Summer and Fall until frost comes. For the market garden it is unrivalled and will produce large clusters of ripe berries as late as September which find a ready sale for \$7.00 or more for a 24-pint crate. Be sure to plant at least a few of these bushes and keep your table supplied with berries all Summer. Prices: 12 for 80c; 25 for \$1.35; 50 for \$2.50; 100 for \$4.50, postpaid. 1000 for \$25.00, not postpaid. 500 at 1000 rates.

Grow Dewberries For Profit

Considering the enormous yields and big profits realized by growers of Dewberries it is surprising that they are not more generally and extensively grown. Many growers in this county have planted large fields of Dewberries during the past few seasons and are now reaping big profits. This is because Dewberries ripen two weeks earlier than blackberries. They are on the market when fruit is scarce and consequently command big prices. Dewberries are twice as productive as blackberries, the fruit is larger, sweeter, quality of the best making them equally desirable for home use or market. Dewberries are free from rust and other fungous diseases and a field of them will produce big paying crops for years.

CULTURAL DIRECTIONS. For field culture we recommend planting Dewberries five feet apart in rows six feet apart. For ease in gathering the fruit-Dewberries should be trellised. This is done by setting posts three feet high and using one wire. The new canes should be tied to this wire in the Spring. Dewberries are not sufficiently hardy to withstand northern Winters; cover with straw or dirt in the Fall.

Lucretia, The Big Money-Making Dewberry

We recommend the Lucretia as the most productive and most profitable Dewberry. It is a strong, vigorous grower, and produces an enormous amount of fine fruit regularly. The berries are large, long, jet black, flavor and quality of the very best. You can plant Lucretia with full assurance that it is the very best of the Dewberry family. Prices: 10 for 50c; 25 for \$1.00; 100 for \$3.00, postpaid. 500 for \$13.50; 1000 for \$22.50, not prepaid.

Lucretia
Dewberries.

Eldorado Blackberry

The Handy Berry That Withstands the Most Severe Cold Weather

Eldorado is without exception the most profitable Blackberry under cultivation. It is perfectly hardy and never has been known to Winter-kill. The canes are stocky, free from disease and extremely productive of large, jet black berries. Flavor excellent, making it very desirable for home use. Eldorado is a fine commercial variety as it is a fine looking berry and holds its color well. Whether berries are wanted for home use or market you will make no mistake in planting Eldorado.

Each plant in our fine lot of root-cutting Blackberry plants has a well-developed root system of its own. You are certain to get a liberal picking from them the first season after planting. The culture of Blackberries is a very simple matter. It is important that they be placed in the ground, at just the depth at which they were grown, preferably in light soil. Trim to a height of two or three feet the following season. It is well to pick out the centers of the plants while they are growing to increase the number of branches. The root-cutting Blackberry will cost a little more than the ordinary Blackberry, but will more than repay you for the added expense. We have a limited supply of these plants, so advise you to place your orders early. Prices: 10 for 75c; 25 for \$1.50; 100 for \$5.00, postpaid. 500 for \$26.00; 1000 for \$35.00, net prepaid.

Eldorado Blackberries.

New Champion Everbearing Strawberry

Successfully Grown Everywhere

Champion is one of the few everbearing varieties that has successfully passed the experimental stage. It is a distinct success and has won the enthusiastic praise of home and commercial growers wherever it has been introduced. Its vigor and hardiness are truly remarkable—the quantity and quality of fruit unexcelled. The Champion is a late and heavy bearer of good size and shape berries, dark red and fine flavor. It is especially valuable for home use and canning. Holds its own as a late market berry, too, and always commands a good price. Extensively grown everywhere.

Champion.

A Full Crop Guaranteed This Summer

Set out Champion in good fertile soil and see what a heavy crop you'll have the latter part of June! And from then on till late in the Fall the vines will be loaded with big, delicious red berries for table or market.

TAKE ADVANTAGE OF OUR REDUCED PRICES.

25 at 90c; 50 at \$1.50; 100 at \$2.50; 200 at \$4.50; 300 at \$6.25; 500 at \$10.00, postpaid. 1000 at \$16.00, not prepaid. 500 to 1000 at 1000 rates.

Mastodon Everbearing

A REAL WONDER

Mastodon is a scientific cross between several of the best producers.

Mastodon.

Mastodon Means Extra Large and Big Profits for You

Our advice to you as one of our customers is to get started with this berry. Look at the big profits that people made with the Premier when first introduced, simply because they were willing to pay a little for something which they had not had before. This all applies to Mastodon for the grower who gets started early is certainly going to make the most money. Don't think that this berry will be common for years, because it won't. Mastodon plants begin to ripen their big, wonderful berries within 90 days after plants are set and continue until cold Fall freezing weather. The following Spring they bear as much as any Spring variety. The plants then take a six weeks' rest and commence fruiting again and bear big, juicy berries all that Summer and Fall. Can you beat it? Three crops in 18 months. Plants are big, vigorous and make a good wide picking row where other varieties fail.

Buy your Mastodon of Model Garden Club and be sure you are getting the original strain.

Mastodon Plant.

Prices of Mastodon: 12 plants, \$1.25; 25 plants, \$2.00; 50 plants, \$3.50; 100 plants, \$6.00. Quotation on 500 at 1000 lots. (See page 44.)

Peonies

These gorgeous, beautiful flowers surpass the finest of roses in size, form and color, and are produced in great abundance. Peonies are perfectly hardy and can be grown everywhere with success. A planting of Peonies will greatly improve the appearance of your home.

Peonies should be planted as early in the spring as possible. Plant them 5 inches deep and about 2 feet apart. Press the dirt firmly around the roots, being careful not to break the crown.

REMEMBER THAT
OUR PRICES ARE
FOR STRONG
DIVISIONS.

A Border of the Festiva Maxima.

WHITE

FESTIVA MAXIMA. The finest White Peony and the most popular of all. Flower is extra large and full, rose type; fragrant, well nigh perfect. Blossoms very early and freely on long stems. For garden display as well as cut flowers Festiva Maxima is hard to beat. Each, 75c; 3 for \$2.00; doz., \$7.00, postpaid.

CROWN OF GOLD (Couronne D'Or). Very full ball-shaped flower; white with yellowish center. One that never fails to succeed. Blooms quite late. Each, \$1.00; 3 for \$2.50; doz., \$9.00, postpaid.

PINK

EDULIS SUPERBA. The earliest in our collection. Large flower of brilliant rose-pink. Best for cut flowers; very fragrant. Each, 70c; 3 for \$2.00; doz., \$7.00, postpaid.

MONSIEUR JULES ELIE. This variety is mammoth in size, very double, and the king of all Peonies. Color an ideal glossy lilac-pink, shading to deeper rose at the base of the entire flower, overlaid with a sheen of silvery-rose that fairly dances and shimmers in the sunlight. When cut in the bud it is a good keeper, thus is fine for cut flowers. Blooms a few days later than Edulis Superba. \$1.25 each; 3 for \$3.00; doz., \$10.00, postpaid.

Mariana Chrysanthemums.

RED

FELIX CROUSSE. Brilliant dazzling red; very bright and effective. It blooms in midseason and is very dependable. Delightfully fragrant. Each, \$1.00; 3 for \$2.50; doz., \$9.00, postpaid.

RUBRA SUPERBA. Rating 7.2. Red, very late. Tall stems, fine, graceful. A large, full double. Fragrant. One of the best keepers of the late varieties. A beautiful, rich crimson-red. Everyone should have Rubra Superba. Each, 75c; 3 for \$2.00; doz., \$7.00, postpaid.

UNNAMED PEONIES. Double White, Double Pink and Double Red. Your choice of colors. Each, 35c; 3 for \$1.00; doz., \$3.50, postpaid.

Chrysanthemums

Many are the lovely flowers that give a succession of beauty throughout the Summer day, but when Fall comes we have still the best in reserve, notably old-fashioned and really hardy Chrysanthemums. Dependable. Late Fall blooming. Must be protected during Winter.

WHITE WINGS. Earliest of all, October 10th. Better than Elva. Flowers beautifully formed, snow-white on a long stem. A nice easy grower, producing full branches. Each, 20c; per doz., \$2.00, postpaid.

LELIAH PINK. In full bloom by October 15th. A beautiful and extremely free flowering variety; receives a warm welcome among the earliest. An exquisite shade of rose pink and makes full bunches. Each, 20c; doz., \$2.00, postpaid.

IDA YELLOW. October 15th; by far the best true yellow of its date, fine producer with good stems. Each, 20c; doz., \$2.00, postpaid.

CLARA JAMESON. Bronze. Lovely combination of bronze and scarlet; very showy, the tones of color always in demand in Pompons. Immense producer, early, about October 10th, precedes Bronze Queen. Each, 20c; doz., \$2.00, postpaid.

ADRIAN'S PRIDE. Very brilliant golden yellow. The intense shade that everybody enjoys. Four feet high from June 20th planting, strong stem, beautiful foliage. The finest late yellow, an easy doer, a perfect commercial plant, blooming late November. Each, 20c; doz., \$2.00, postpaid.

ANGELO. Is in a class by itself, intermediate between the larger type and the Pompons. Light pink, very full and round, perfectly erect, disbud to one flower to the branch. Set plants in bench about May 15th. As prolific as a pompon, bringing 10 to 15 perfect blooms on long stems. Very profitable to grow, blooming late October. Each, 20c; doz., \$2.00, postpaid.

MARIANA. Large flowered and snow white, on long stiff stem, when grown to a single stem is absolutely perfect, can also be disbudded to 5 or 6 flowers to a plant. Each, 20c; doz., \$2.00, postpaid.

FLORA. Bright Crimson with scarlet shading; much the color of Jules La Gavere, and a free easy grower with good stems and full sprays. Mid-season; the very best of reds. Each, 25c; doz., \$2.25, postpaid.

COLLECTION of one of each of the above eight varieties would cost \$1.65 BUT we will send this collection postpaid for ONLY \$1.25.

CELTONA

ACID-EAZ

The famous "Health Institute Treatment" will bring Health to you, if acid poisons are responsible for your condition. CELTONA and ACID-EAZ have the widest range of usefulness of any known remedies. CELTONA supplies the important mineral elements required by the body, but which are too often lost by our modern methods of preparing food. ACID-EAZ overcomes and expels the acid poisons created by digestive troubles. **MAKE THE ACID TEST! WE WILL send you Blue Litmus Paper on request. If the Blue Litmus Paper turns Pink when moistened in your mouth, you can be certain that acid poisons are at the bottom of your trouble.**

DISEASE USUALLY STARTS IN THE STOMACH

Nearly all diseases and troubles of the internal organs start in the stomach. This is also true of Rheumatism, Neuritis, and other Nerve and Muscular disorders.

When the Stomach and Bowels are in a condition of health, the food is easily and quickly digested, and the body is supplied and nourished by an abundant supply of rich, pure blood.

When pure blood is supplied to the muscles, organs, nerves and brain, disease finds it difficult to enter the body, as pure blood is sure death to disease germs. But when the stomach gets "out of order," and cannot properly digest the food, the blood becomes impoverished, and trouble finds easy entrance.

ACID POISONS CAUSE SERIOUS TROUBLES

Food that remains in the stomach undigested starts to ferment and to form poisonous acids. These acids give rise to gas, causing bloating and belching. The acid or "sour stomach," is the first symptom of "Indigestion." It causes intense distress, a foul breath, and a sick-to-the-stomach feeling.

These poisonous acids in the stomach are absorbed into the blood, and are carried all over the body, causing trouble to other organs and to the nerves. The nerves become irritated and "unstrung," the liver torpid, the bowels clogged, and the whole body is "sick." As the entire system becomes "rundown," disease germs find easy entrance.

ACID-EAZ KILLS THE ACIDS

The acid poisons caused by undigested food in the stomach must be eliminated, and for this purpose ACID-EAZ is unexcelled.

Taken in water, as directed, ACID-EAZ searches out, destroys and expels the acid poisons, and hastens the recovery to health.

ACID-EAZ goes to the source of the trouble and effects permanent relief by removing the cause of the trouble.

ACID-EAZ is composed of the most easily assimilable forms of Magnesium, Sodium and Calcium, in the correct proportions. All three elements are "antacids," or enemies of acid. Calcium is an absorbent of gases, and Magnesium is a gentle laxative. The three, in their proper proportions form a scientific remedy for all troubles arising from an acid condition of the body,—called "Acidosis," or "Hyperacidity."

CELTONA and ACID-EAZ are put up in One Dollar sizes, one each for only \$1.75, all charges prepaid.

CELTONA BUILDS AND REPAIRS

A scientific combination of Nutritive Elements. CELTONA builds and repairs. Its daily use means Steady Nerves, Pure Blood, Good Digestion, and a Strong, Healthy Constitution.

This wonderful preparation contains all the elementary mineral "Cell Salts" that each cell of the human body requires.

One-third teaspoonful, four times daily, supplies the system with all the mineral requirements of the bone and sinew, nerves and brain.

The Chlorates, Phosphates and Carbonates of Sodium, Potassium, Magnesium and Calcium represent the twelve "Salts of Life" that nearly all the tissue cells require, in order that they may remain healthy, and be able to do the work required of them.

CELTONA contains all the other minerals. In addition to these main elements of life such as Iron, in its various forms, Silicon, Iodine, etc., that are used in lesser quantities, Nervous Diseases are usually due to an insufficiency of Calcium, Phosphorus and Iron. Digestive disorders quickly yield to CELTONA, and an "easy digestion" soon results.

Impoverished blood cannot sustain the bone and sinew, nerves, brain, blood-vessels and organs. CELTONA supplies the blood with the proper amount of each kind of "Cell Food," and the purified, enriched blood carries the nutritive elements to every part of the body.

CELTONA can be profitably used by young and old. It is perfectly harmless in any quantity. It is not a "Patent Medicine" but a concentrated Tonic Food. It can be used, with good results in infant feeding, by substituting for salt, in the preparation of its food.

MASTODON

Our Plants Guaranteed to be the Genuine Heavy Yielding Strain from the Originator, G. W. Voer of Indiana

**FOUR ACRES PRODUCE 1,386 CRATES;
22,176 QUARTS IN JUST 28 WEEKS.**

Thousands of dollars have been wasted on worthless Fall-bearing Strawberry plants. Perhaps you are one of the many who have been victimized. So, if you have never seen Mastodon—it will be hard for you to understand how any Everbearing Strawberry can produce at the rate of nearly 350 crates or 5600 quarts per acre.

A four-acre field of Mastodon on one farm produced the enormous yield of 1386 crates last Summer and Fall, and during August, September, October and November, sold readily at 35c to 50c per quart! In size, quality, flavor and appearance, Mastodon heads the list.

Unlike other Everbearers, the plants of Mastodon are large, vigorous, heavily crowned and deep rooted. This explains their ability to produce enormous loads of fine fruit, even under adverse conditions.

Regardless of your past experience with Everbearing Strawberries, for your own good, we urge you to plant this wonderful NEW, different Everbearer this Spring. It will amaze you with the tremendous load of extra fine fruit produced by every plant.

Hence, when you plant our stock, you are planting the same strain and type that produced the record yield of nearly 6,000 quarts per acre.

**MASTODON,
The Eagle of
the Strawberry
Family.**

MASTODON

Last year plants were limited and sold for \$12.00 per 100. Having considerably more plants this Spring we are able to give you the opportunity to plant a few plants of the **EAGLE OF THE STRAWBERRY KINGDOM** by quoting you this low price.

12 plants, \$1.25; 25 plants, \$2.00; 50 plants, \$3.50; 100 plants, \$6.00. Quotation on 500 at 1000 lots. (See description on page 44).

The Three Best Grapes

Concord The leading purple Grape and the favorite everywhere and for every purpose. Hardy, prolific, dependable. 2-yr. No. 1, 15c each; \$1.00 per 10; \$8.00 per 100.

Niagara A greenish white Grape similar in quality, size and flavor to Concord, and called "White Concord." Yields heavily and ripens with Concord, and makes wonderful wine. 2-yr. No. 1, 25c each; \$2.00 per 10; \$15.00 per 100.

Delaware A favorite red Grape, having a delicious, spicy, sweet flavor. Medium size clusters and very prolific. Ripens early. Excellent for jelly and grape juice. 2-yr. No. 1, 25c each; \$2.00 per 10; \$15.00 per 100.
