Why Bulb Stocks are in greater demand

A CONSTANT expansion of demand is apparent throughout the whole bulb line and flower growers everywhere and in ever-increasing numbers are becoming aware that more dependable results can be expected with bulb stocks than with any other form of flower production. Not only can the times of flowering be regulated for any given period, but a succession can be planted to maintain a regular supply throughout the whole season. Bulb stocks are less susceptible to the ravages of insects and other pests and are the least affected by adverse weather conditions.

Some Stocks are in short supply this season

As this catalogue goes to press, it is evident that the supply of Spring bulbs is much below normal, and we foresee an early clean-up of many of the popular varieties. In *Gladiolus* particularly an extreme shortage exists and higher prices will rule as the season progresses.

Happily, our supply is not dependent upon general crop conditions prevailing throughout the country, for we are actual growers of most of the stocks we offer and a supply is thereby assured for our customers. We do, however, urge early ordering.

In Appreciation

We are showing a fine yearly increase in both number of customers and volume of sales, and these obvious endorsements of our policies encourage us to continue our efforts along the same lines we have pursued in the past. We thank those who have contributed to our success.

Our Terms are Well Known to Our Regular Trade

We repeat them for new customers

All items offered in this catalogue are f. o. b. New York, packing extra. We sell six bulbs or more at dozen rate, 25 at 100 rate and 250 at 1000 rate. Payment, unless specially arranged for, 2% in 10 days, net 60 days, or less 5% for cash with order. Deliveries subject to prior sale, crop conditions and/or other causes beyond our control. While we exercise the greatest care and precaution to supply only such stocks as will, in our opinion, produce the finest results and give entire satisfaction, we give no warranty, expressed or implied, as to the quality or productiveness of any bulbs, seeds or plants we send out and will in no instance become responsible for the crop. No complaints entertained unless made within five days after receipt of goods. This catalogue cancels all former quotations.

OUR NARCISSUS CROPS

While it is too early for us to report on the outcome of our tremendous plantings of Paper Whites in Florida, we have every confidence of repeating (perhaps surpassing) our record for "quantity" and "quality" as delivered in 1926. We have evidence from several large growers of the exceptionally fine forcing qualities of the bulbs we delivered, and the 1927 crop is progressing to our entire satisfaction.

Gladiolus From Our Long Island Farm

NEW GLADIOLUS "FORTUNA"

While a demand lingers for some of the older varieties, they are being rapidly displaced by the newer and better kinds. Progressive growers have been quick to recognize the added qualities, either in earliness, size, color or productiveness, which more than justify the additional cost.

We do not boost novelties because we happen to grow a large stock, but rather seek to offer our customers a concise list of the better kinds after thorough trials and many eliminations on our own farms.

Prices quoted are for first size bulbs measuring 1½ in. and over.
Second size bulbs can be supplied at a 20% discount from these prices.

Primulinus Varieties of Exceptional Merit

In analyzing the value of Gladiolus from a commercial cut flower standpoint, more factors than the net return per dozen flowers must be considered. With Primulinus the yield per hundred bulbs is much greater than with the large types, the space occupied is much smaller and the flowering period is shorter. We believe that an equal investment in an equal space will show upon favor of the Primulinus.

ALICE TIPLADY. Beautiful saffron color and one of the best known and finest of the Primulinus types. Its attractive color is not approached in any other variety. For forcing or outside

SOUVENIR

Another Primulinus of the Grandiflora type that has been highly praised by all who have seen or grown it. Flowers are pure canary yellow and the spikes are tall and graceful with the flowers well spaced. As a forcing yellow it is without an equal and for outdoors it is also very valuable.

It is the only real yellow Gladiolus today available at a reasonable price and the flowers, which are very early, invariably bring good returns.

Glorious Cannas

*Most Popular and brilliant of all
Summer Bedding Plants*

An extra demand for Canna roots developed last season and we were unable to supply many late orders. We anticipate a similar condition this year for the crop is apparently no larger. We are growing nice blocks of the most popular varieties on our own farms, and with our contract stocks, can supply fresh cut roots in good two and three-eye divisions.

ARUM CORNUTUM

(Monarch of the East)

THIS unique bulb was becoming very popular when the embargo went into effect. In a dry state it will, in any ordinary living room temperature, throw up an odd growth of mottled gray foliage and stalk with a semblance of flower. This is accomplished without planting. The same bulb can then be put outdoors when the weather warms up and will produce a beautiful green foliage plant.

WATSONIA ARDERNEI ALBA

This is the large, snow-white South African "Bugle Flower," and a most lovely plant for pots and pans in the cool greenhouse. Seedsmen should list and recommend this for conservatory and sun parlor. The graceful branches grow from 2 to 3 feet high, covered with elegant, glistening, snow-white blossoms. Remove the top flowers when fading, and lower spikes rapidly develop, thus maintaining a long flowering season.

Price per 100, \$6.00; per 1,000, \$50.00

MRS. I. de Ver WARNER (Dec.). Deep shade of orchid lavender. Vigorous grower on splendid stems. Extra fine.. \$6.00 \$40.00

PATRICK O'MARA (Dec.). Bronze and orange in a popular shade. Beautifully waved petals 4.00 2.50

RED CROSS (Hybrid Cactus). Scarlet and gold. Fine stiff stems. Has won several awards 5.00 30.00

TRENTONIAN (Dec.). A giant decorative dahlia that has been a winner all over the U. S. and in Edinburgh, Scotland. The color is that of an "Indian's skin," a wonderful blending of old gold, amber and coppery bronze, the whole forming a flower of marvelous brilliancy, with a central zone of reddish bronze. The petals are broad and well placed with the appearance of velvet and constitution of leather, making a flower of great lasting qualities. This flower is highly recommended for florist's work. Each \$1.50 18.00 140.00

ZONSONDERGANG (Dec.). Golden bronze suffused with orange. One of the best of the new European kinds.... 6.00 40.00

General List of Moderately Priced Dahlias

MRS. I. de VER WARNER

The value of Dahlias from a commercial cut flower view is not determined by the price of the tubers, for many of the leading growers for the large Eastern markets maintain that a greater dollar yield is obtained from a planting of these older free flowering varieties than from the larger and newer kinds.

The short list offered on this page comprises the best cut flower kinds.

We have been paying special attention to these beautiful bulbous plants and have now developed nice stocks in several fine varieties covering the usual range of colors. The flowers attracted much favorable comment wherever shown by us last summer and we are sure that florists will not go wrong in making a planting, for their gracefulness permits of lighter decorations than possible with *Gladolus*. Many of the varieties produce three and four flowers to each bulb, thus reducing the cost per flower to a nominal sum. We are considered as American headquarters for Montbretias.

GERMAN IRIS

We Have Provided an Extra Supply of the Beautiful Regale Lilies

HARDY LILIES

In possibly no class of bulbs is as much interest being shown as in the beautiful hardy lilies, and real efforts are being made in the various producing centers to develop stocks that have been available heretofore only in limited quantities. We are offering some of the most popular kinds and our large volume of trade enables us to make very reasonable prices.

LILIUM REGALE (Myriophyllum)

The beauty of this fine Lily is well known and it stands unequalled among those which will thrive in this country. The trade has long awaited a supply of these bulbs at reasonable prices, and we are now glad to have a stock sufficiently large to enable us to make a general offer.

In this latitude the **Regale Lilies** bloom in early June and about the same time as **Lilium Candidum**. They have white trumpet flowers with slight pink and other colored stripes on the lower petals and are very fragrant. The bulbs we offer are good flowering size and we suggest that they be left undisturbed for several years as they will then enlarge annually and throw much larger flower spikes.

Trade visitors who have seen our bulbs growing in the Northwest tell us that it is without a doubt the finest lot of **Lilium Regale** ever assembled in one spot.

Per doz., \$6.00; per 100, \$40.00; per 1,000, \$375.00

GIANT HYBRID AMARYLLIS (Hippeastrum)

A re-selected strain of the very largest flowered sorts, ranging in color from almost pure white, through various shades of pink, to the deepest scarlet, some with beautiful markings and mottled throats.

An easily-grown plant of wondrous beauty; a quick seller to those who love an unusual and attractive pot plant for the living room or sun parlor. Makes a charming and lasting cut flower.

Large Bulbs: Doz. \$4.00; 100 \$30.00; 1,000 \$250.00

AMARYLLIS EQUESTRE (Hippeastrum)

A free flowering flame red variety that is much admired by all. Makes a fine pot plant and is very valuable for outside planting in the South, where it propagates freely.

We Have a Good Supply of Begonias and Gloxinias for This Season

FANCY LEAVED CALADIUMS

Florida has made wonderful progress in the production of these beautiful foliage plants, and the availability of the bulbs in substantial quantities at most reasonable prices is appreciated by the trade, for it is aware of the many valuable uses to which the plants can be put. While the former scarceness of the stock limited its use practically to conservatory and florist summer window decoration, it can now be used extensively for bedding and window boxes, and there is not a more worthy subject for the purpose. In addition to our own stock in Florida, we are offering the product of several of the leading specialists.

FANCY LEAVED CALADIUMS IN CHOICEST NAMED VARIETIES

A collection of the finest varieties combining only the most desirable shades. We know that there is no better assortment in the country. Bulbs range from 1" to 1½", depending upon variety. Names and descriptions of varieties upon request.

(ELEPHANT'S EARS)

There is always a popular demand for these highly decorative tropical plants, and florists should arrange to have a good supply already started in pots for summer bedding. These bulbs also are quick sellers for store trade. Our stock is clean, healthy and carefully graded. It is well to order early as the larger sizes are usually exhausted early in the planting season.

DOUBLE BEGONIA

Tuberous Rooted Begonias

With a dependable supply of satisfactory stock now being produced in California, these bulbs are once again assuming their old popularity. In location to making a very fine pot plant, they are most beautiful for outdoor bedding especially in semi-shaded locations. For an early showing it is desirable to start the bulbs under glass before planting, but they will come along nicely a little later in the season if planted in a dormant state. We offer large first-size bulbs as under glass.

LILY OF THE VALLEY

For Florists' Forcing

LILY OF THE VALLEY—"NEWPORT" BRAND

We are aware that the only basis for the building up of a volume business in Lily of the Valley is the supplying of the finest pips obtainable and with this thought ever in mind we have consistently instructed our European office to pack nothing but the best. When the shipping of the present crop was completed they wrote us as follows: "You will find none better and few as good arriving in your country as what we are shipping to you."

For forcing during the different seasons, we have selected the types best adapted and will make shipment accordingly unless otherwise specified.
