EXCELLENT SERVICE

HIGHEST QUALITY

To My Customers and Friends—

I take the pleasure again in presenting to dealers and florists my Wholesale Price List for Fall, 1927, and hope that they will find it interesting and helpful.

I will endeavor to supply the commercial growers and dealers with bulbs, roots and seeds of the highest quality and varieties most suitable for market purposes and general gardening. To avoid unnecessary delays, overcharges and other disagreeable factors, all goods are offered f.o.b. San Francisco and quantities sufficient to supply any reasonable demand are kept on hand during the different seasons.

My thorough knowledge of the goods I am offering I have acquired during twenty years of practical work both in Holland and in this country, and is a valuable asset as a guarantee to my customers of receiving the best obtainable and by which they may profit.

In consideration of the above stated facts I trust that I may have the preference of your most valued orders throughout this season and for many seasons to come. I am,

Yours faithfully,

ADRIAN J. SCHOORL.

Conditions of Sale

ORDER EARLY. Send in your orders as soon as possible after receiving catalog to insure prompt delivery. All orders are filled the same day they are received, as far as practicable.

BULBS. At prices quoted, 25 or more of one variety are supplied at the 100 rate, while 250 or more will be supplied at 1000 rate. Less than 25 of one variety will be supplied only at an increased price of 10% over 100 rates. The extra cost of labor in filling small orders is considerable, hence the increase in price necessary.

ERRORS. We exercise the utmost care in filling orders, striving to do a little more than we offer; yet, in the press of business, errors sometimes occur in which event I wish to be promptly notified of the fact, and I will make such corrections as will be satisfactory. Please keep copies of all your orders for comparison.

ALL ACCOUNTS are strictly due thirty days from date of invoice; 2 per cent for cash is allowed for payments within ten days: 5 per cent if cash accompanies order.

COMPLAINTS AND CLAIMS about the quality of the goods cannot be entertained unless made *immediately upon receipt of same*.

I GIVE NO WARRANTY, express or implied, and will not be in any way responsible for the results of planting or forcing of any bulbs and roots I send out. I guarantee, however, all varieties to be true to name and description.

RETAIL OR PRIVATE ORDERS are not accepted. Orders for growing crops accepted subject to crop failure, shortage or other causes beyond my control.

ALL OFFERS are made subject to being unsold upon receipt of orders.

No CHARGE is made for packing.

ADRIAN J. SCHOORL.

Hyacinths

Under this heading I offer only the best and leading commercial varieties of Hyacinths, of which I have grown large quantities in Holland by one of the best growers with whom I have a standing agreement whereby he is to supply the best obtainable, and at growers' prices.

ANEMONES AND RANUNCULUS

A profitable crop from a florist standpoint and can be grown successfully either from seed or bulbs. On the Pacific Coast not only the flowers are used extensively, but the bulbs can also be sold at good prices and are much in demand. For prices see pages 7, 12, 13 and 22.

Darwin Tulips

Not too much can be said in praise of this class of Tulips and now that the prices have become moderate, they should be planted more extensively. They excel in brilliancy of colors, perfect form of flowers and very tall, strong stems. For splendid effect in borders and planted in small groups amongst shrubs they are unsurpassed. As a cut-flower they are of great value and may be had in bloom from the first of February in the greenhouses. The following varieties I consider the best and most profitable for florists' use:
