CERTIFIED DAHLIAS

1927

WAITE'S GARDENS, INC.
EATONTOWN, N. J.

Certified Dahlias

INTRODUCTION

*I*T is with great pleasure that we once more send you our annual list of Dahlias and other flowers, and take this means of expressing to you our thanks for your liberal support.

Not only have we been again successful at the flower shows, but many of our friends in all parts of the country have told us of their success in the growing and exhibiting of varieties of our own originations, and also of other varieties supplied by us.

My list of varieties is not so large and comprehensive as many others, but it embraces what I consider to be some of the very best varieties that are in existence today.

I discard many varieties each year, no matter how much money they may have cost me. If I do not consider them worthy, I do not try to pass them on to my customers.

All of my own introductions have been certified by the American Dahlia Society, as I have made it a rule not to introduce any variety that fails to win a certificate.

All varieties from other raisers I have carefully tested, and if I list them I can honestly recommend them.

My business has been increasing so rapidly that I have found it necessary to have more room, so I recently acquired a tract of land and have established the WAITE'S GARDENS, INC., at Eatontown, N. J.

These gardens are conveniently located near the highway which connects New York with the shore resorts and all who may be in this vicinity are cordially invited to visit our gardens where will be found in season the best in Dahlias, Iris, Gladiolus, Delphiniums and other Hardy Plants.

Again thanking you for past favors, and assuring you that I will take every care of your future business, no matter how small your order may be.

W. H. WAITE

General Information

ORDER EARLY

STOCK of some of the varieties is limited, so to avoid disappointment please order early. All orders will be filled strictly in rotation, stock will be reserved, as the orders are received, and shipped at the time desired.

TUBERS

All orders for tubers will be filled with strong divisions of field-grown tubers. We do not as yet carry any pot tubers.

GUARANTEE

While we exercise every care in the filling of orders for tubers and only send out what we honestly think will grow, we do not guarantee any tuber that is shipped before March 15th. After that date tubers will be guaranteed, and will be replaced free of charge if they should prove blind. Many of the failures with plants and tubers are due to causes entirely beyond our control, such as weather, or soil conditions, bad planting, etc., and while we take the greatest care to send out only stock which will produce satisfactory results, we cannot be held responsible for failure.

We also exercise the greatest care to have all stock true to name, but should any of them prove otherwise, it is mutually agreed between the purchaser and ourselves, that we shall not be held liable for a greater amount than the original purchase price of the stock.

TERMS

To keep down office expenses, I have no charge accounts, and will allow a discount of 5 per cent when cash accompanies order. All other orders sent C. O. D., unless by a special agreement.

POSTAGE

All retail orders amounting to \$1.00 or over will be delivered prepaid, on orders for less than \$1.00, 25 cents should be added to cover postage.

Wholesale orders, packing charges, and postage at cost.

GREEN PLANTS

I have made a specialty of green plants for several years, know how to grow them and how to pack them, and will guarantee safe delivery to any destination within three days' journey from here.

Should they not arrive in good condition, I will either replace them or cheerfully refund the money.

TIME FOR PLANTS

I will ship plants any time desired after May 15th, but recommend from May 20th to June 20th as being the best.

Inspector's certificate accompanies each shipment.

Cultivation of Dahlias

DAHLIAS are easily grown, requiring no special soil or treatment to bring them to perfection. They love an open, sunny situation, but also succeed in partial shade.

Prepare the soil thoroughly by digging 12 to 18 inches deep in the Fall, and then again in the Spring before planting.

If the soil is poor, work in some well-rotted manure in the Fall and apply artificial fertilizer in the Spring—100 pounds to 1000 square feet.

Dig holes 3 or even 4 feet apart and about 6 inches deep; drive a stout stake in each hole and lay the tuber down flat with the crown toward the stake and cover with 2 or 3 inches of soil, leaving the balance of the hole to be filled up later, after the plant comes up.

Plant any time between April 15th and June 15th, the latter date being the best for exhibition flowers.

When the plants have made their third set of leaves, the top should be pinched out, to make them branch. Allow only one plant to each stake.

The most important thing from now on is hoeing and cultivating until the buds appear; this should be done at least every week and after every rain. After the buds appear the ground should be mulched with rotted manure if possible, and a thorough watering should be given whenever the plants require it.

Disbudding the side buds, leaving only the terminal bud to develop, will bring larger blossoms.

After the plants have been blackened with the first frost they should be carefully dug, allowed to dry for a few hours, and stored in a dry cellar or basement and covered with dry sand or soil to keep them from shriveling.

Divide the tubers in the Spring, after the eyes show plainly, being careful that each tuber has a piece of the crown attached with an eye, cover them again and keep dry and cool until planted.

GREEN PLANTS

As there has heretofore been some objection to green plants, I will say that I guarantee my plants to be strong, healthy, and to get to the customer in good condition.

I, and many other growers of fine Dahlias, find from experience that green plants are better than tubers, as they are less liable to become diseased than roots, and they will produce as good, if not better flowers, and also will produce nice healthy roots for the next year.

Dip the root of the plant in water before planting, plant at least 6 inches deep, filling the hole up gradually as the plant grows; it is best to set out the plants late in the afternoon or on a cloudy day, water them well when planting, and if the weather be hot and sunny, shade for a few days with twigs with leaves on them.

The after-cultivation and care of the plants should be the same as for tubers.

W. H. Waite's Introductions for 1927

JERSEY'S ELEGANS. *Decorative*

Spinel pink, medium size flowers produced very freely on good stems. The foliage is finely cut and rough in texture and is not much affected by the leaf hopper.

Tubers \$10.00, plants \$5.00

JERSEY'S FIANCEE. *Decorative*

Rose pink, with the point of each floret slightly tipped gold. The flowers can be grown to a good size, and the stems are always good; the foliage is inclined to be pale and should be kept sprayed to offset the ravages of insects.

Tubers \$10.00, plants \$5.00

JERSEY'S SUNSHINE. *Decorative*

Light greenish yellow, sometimes slightly streaked amaranth pink; flowering habit profuse; flowers are large and the stems are very stiff and erect.

Tubers \$10.00, plants \$5.00

JERSEY'S SWEETHEART. *Decorative*

While this is not one of the very large varieties, the daintiness of its flowers make it very desirable and attractive. It is a delicate pink, shading to white in the center; a splendid cut flower variety; the stems are slender and stiff and the flowers are produced in great numbers.

Tubers \$5.00, plants \$2.50

JERSEY'S WONDER. *Decorative to Peony*

This flower is a mixture of apricot yellow and pinard yellow with a pink suffusion on the reverse. The first flowers are Decorative in type, and very large, sometimes over 12 inches, and borne on good stems. The later flowers are inclined to be Peony, with slightly pendulous stems; a vigorous grower and profuse bloomer.

Tubers \$10.00, plants \$5.00

W. H. Waite's Previous Introductions

JERSEY'S BEACON. *Decorative*

This Dahlia has become a universal favorite. Some splendid blooms of the variety have been shown the past season. As an exhibition flower it has few equals in its color, but as a garden variety, it is even more spectacular. The color is Chinese scarlet, with a paler reverse, giving it a two-toned effect. The flowers are large and globular in shape; it is a vigorous grower and has splendid insect resisting foliage.

Tubers \$5.00, plants \$2.50

JERSEY'S BEAUTY. *Decorative*

Eosine pink. This Dahlia is now so well known that it scarcely needs any description. It has become the standard and has by many been called the 100 per cent Dahlia. It has now been introduced four years and is an outstanding variety at the principal Eastern shows. It has also become one of the leading varieties in England and Holland. No Dahlia of recent years has in such a short time become such a favorite. As a cut flower it is unexcelled and has brought the highest prices in the leading cut flower markets. I have reduced the price to the minimum so that all who have a garden may have it and in quantity.

Tubers \$2.00, plants \$1.00

JERSEY'S CAPRICE. *Decorative*

One of the Autumn shades that is hard to describe; flowers large and of good form and substance, stems rigid, holding the blooms erect. Splendid variety for exhibition or for cut flowers.

Plants only \$5.00

JERSEY'S BEAUTY

The finest pink Dahlia in existence

**JERSEY'S
DELIGHT**

Decorative

The color of this variety is a beautiful old rose pink; flowers are large and borne on good stems; foliage leathery in texture and a good insect repeller.

Plants only \$5.00

**JERSEY'S
EMPRESS**

Decorative

Anthracene violet. The flowers, which are very large, have a very pleasing formation. The petals are narrow and wavy. The flowers have great depth and good substance, and it has no tendency to burn or fade with the sun. The stems, which are somewhat fleshy, hold the flowers well up. The foliage is very leathery and very resistant to the attacks of the leaf hopper.

**Tubers \$10.00,
plants \$5.00**

JERSEY'S GEM

Decorative

Lavender pink. Flowers large, produced on perfect stiff stems. It is very prolific and is a splendid cut flower.

**Tubers \$2.50,
plants \$1.25**

JERSEY'S IDEAL. *Decorative*

This variety, introduced by me in a limited way last year, has made hosts of friends. The flowers are very large and of great depth. Best described as a lavender-pink in color, although it varies to Phlox pink. It is a vigorous grower, with large, leathery leaves, almost insect proof. The large flowers are produced very freely. Stock is still very limited.

Tubers \$10.00, plants \$5.00

JERSEY'S JEWEL. *Decorative*

This variety, introduced by me in 1923, is still one of the finest exhibition Dahlias. The color is a soft mallow pink; the flowers are large and long-petaled. The stems are perfect in every way. At many of the eastern shows this variety consistently won for the best bloom in the show. The foliage is inclined to be soft and should be kept sprayed to keep down the ravages of the leaf hopper.

Tubers \$5.00, plants \$2.50

JERSEY'S KING. *Decorative*

Begonia rose; large, broad-petaled flowers on splendid stems; a favorite with all who have grown it.

Tubers \$2.00, plants \$1.00

JERSEY'S MAMMOTH. *Hybrid Cactus*

Truly a monster; in color a rich golden mahogany. This variety is not a good cut flower and is recommended only to those who want the very largest blooms—having frequently reached 14 inches. It often captures the prize in the largest bloom class. It is a vigorous grower and not very subject to the ravages of insects, but should be watched arefully in the early stages of its growth.

Tubers \$5.00, plants \$2.50

JERSEY'S RADIANT. *Hybrid Cactus*

Bittersweet-orange large flowers, produced on long, stiff stems; a very attractive and very much admired variety. This variety is inclined to be susceptible to the ravages of the leaf hopper and should be dusted or sprayed frequently.

Tubers \$3.00, plants \$1.50

JERSEY'S ROSE. *Decorative*

This variety has large flowers of the Paul Neyron Rose shade; fine, stiff stems and insect-resistant foliage.

Tubers \$3.00, plants \$1.50

JERSEY'S SOVEREIGN. *Decorative*

A shade of color that few can describe. According to Ridgeway's chart it is a salmon-orange. A very vigorous grower with dark foliage which is very resistant to the ravages of the leaf hopper; a splendid cut flower and useful for basket work.

Tubers \$3.00, plants \$1.50

E. D. ADAMS. *Decorative*

Large flowers of a golden bronze color. The stems are very stiff, holding the large flowers well above the foliage. This variety has leathery foliage, and is not very subject to the attacks of the leaf hopper.

Tubers \$3.00, plants \$1.50

FRANCIS LOBDELL

FRANCIS LOBDELL. *Hybrid Cactus*

This variety is now well known and is a favorite with many. One of the most profuse bloomers; the color is mallow pink, shading to white in the center; dwarf grower, with the stiffest of stems. Should be dusted or sprayed for the leaf hopper.

Tubers \$2.00, plants \$1.00

Select Varieties from Other Sources

ALICE WHITTIER (Reed). *Hybrid Cactus*

This splendid variety from Massachusetts is indeed an acquisition. The color is a very delicate shade of primrose-yellow. The flowers are immense in size for a Cactus, and the stems are good. This variety had the honor to win for the best bloom in the show at San Francisco, a distinction that few, if any, eastern varieties have heretofore won.

Tubers \$7.00, plants \$4.00

AMBASSADOR (Broomall). *Cactus*

Soft yellow buff, shaded pink; still one of the very best; the foliage is pale yellowish and particularly subject to the ravages of thrips and leaf hopper, so that dusting or spraying should be carefully attended to.

Tubers \$2.00, plants \$1.00

AMARILLO GRANDE (Broomall). *Decorative*

This is a splendid new variety from California. The flowers are very large, of a light yellow color, produced in quantity on good stems.

Plants only \$4.00

CALIZONA (Broomall). *Decorative*

This is a deep rich yellow, a beautiful formation, the large flowers standing out boldly on splendid stems.

Plants only \$4.00

CHAMPAGNE (Bessie Boston). *Decorative*

Chamois with a pink suffusion; a very large handsome flower on splendid stems.

Tubers \$2.50, plants \$1.25

CORAL GEM (Broomall). *Hybrid Cactus*

A very beautiful flower in a most attractive shade of soft coral pink. The flowers are medium in size, and are borne on stiff stems, holding the flowers well above the foliage.

Plants only \$3.00

EAGLE ROCK BEAUTY (Broomall). *Decorative*

This splendid new variety is a beautiful combination of pink and cream. The flowers are large, and attract immediate attention. It is a free and vigorous grower, and the flowers are produced quite freely.

Plants only \$15.00

EAGLE ROCK SUNSHINE (Broomall). *Cactus*

We believe that this is the greatest Cactus variety that has been introduced since Ambassador, and we think it even more beautiful. It is a pure deep shade of yellow. The flowers are large and are on perfect stems. The foliage is more resistant to insects than that of Ambassador.

Plants only \$5.00

EASTERN STAR (Dahliadel). *Decorative*

This is a splendid variety. The flowers are large and deep and of fine form; the stem is perfect. In color it is a saffron yellow, shaded with old gold.

Tubers \$5.00, plants \$2.50

ELDORADO (Bessie Boston). *Decorative*

A pure gold with large and handsome flowers on splendid stems. This variety is very subject to the attacks of thrips and leaf hopper, and is best planted very late.

Tubers \$5.00, plants \$2.50

ELKRIDGE (Griffiths). *Decorative*

This is a splendid new white variety for which a great future is predicted. The flowers are of good size, borne on splendid stems, the petals are very firm in texture and it is a splendid keeper and shipper. It is a vigorous grower and the flowers are produced in great freedom. This variety had the distinction of winning the medal for the best new variety at the A. D. S. Show in New York the past season.

Plants only \$5.00

ELITE GLORY (Kennedy). *Decorative*

This giant red, introduced last season, is still one of the most spectacular varieties we have. The flowers are immense in size and breadth of petal; in growth it is entirely distinct from any other variety, the whole plant being gigantic in size, yet only of moderate height. The foliage is leathery in texture and practically immune from the ravages of insects.

Tubers \$10.00, plants \$5.00

ELLINOR VANDEVEER (Seal). *Decorative*

This is a beautiful variety and has every good quality. The flowers are large and of a glowing satiny rose pink, produced very freely on ideal stems. It is a splendid and thrifty grower and is not much subject to the attacks of insects.

Tubers \$5.00, plants \$2.50

ELIZA CLARKE BULL (Boston). *Decorative*

When well grown, this is a splendid white variety, with the most beautifully formed flowers. It is somewhat capricious in its demands, not doing very well in very rich soil, nor in soil that is too wet. It is particularly subject to the attacks of leaf hopper, but if a little care be given, you will be amply repaid by its beautiful flowers.

Plants only \$4.00

EMMA MARIE (Dahliadel). *Hybrid Cactus*

This is one of the best all-round varieties as an exhibition or as a cut flower. It is a fine combination of bright pink and white.

Tubers \$3.50, plants \$1.75

EVA WILLIAMS (F. & M.) *Decorative*

This is a splendid exhibition variety. It is amethyst in color, with a slight silvery shading. It has strong, upright stems with the best of foliage, which is very resistant to insects.

Tubers \$3.00, plants \$1.50

GOLDEN EMBLEM (White). *Decorative*

This is a splendid new yellow from Oregon. The flowers, which have a fine formation, are a deep rich golden yellow. The stems are of the very best and the foliage is strong and healthy.

Plants only \$5.00

IAN (Boston). *Cactus*

This is a splendid new Cactus from Bessie Boston. It is large in size and of perfect Cactus type. The color is clear yellow, gradually shading pink on the outer row of florets. Toward the end of the season it is almost clear yellow. The stems are unusually stiff and upright for a Cactus. The flowers are produced very freely and a vase can frequently be filled from one plant. It is an ideal type, as it is equally good as a cut flower, or as an exhibition variety.

Plants only \$5.00

ISOLINE (Kahle). *Peony*

This is a charming variety, in color ivory white, with a faint pink and yellow suffusion. The flowers are large and of good formation.

Tubers \$3.00, plants \$1.50

KING SOLOMON (Andrews). *Hybrid Cactus*

Orange buff in color with an iridescent sheen on its twirled petals. It is a compact, low grower, and the stems are very stiff. A free bloomer and makes a good bedder, as it does not require staking.

Tubers \$5.00, plants \$2.50

MARGARET MASSON (F. & M.) *Decorative*

A splendid variety of recent introduction that has made good. The flowers are very large, stems perfect, and the color a beautiful silvery rose pink. The leaves have a good texture and are resistant to the attacks of insects.

Tubers \$4.00, plants \$2.00

MARGARET WOODROW WILSON (F. & M.) *Decorative*

This is a splendid exhibition type of Decorative. The flowers are large, of an opalescent pink, with a Phlox reverse. The petals are broad and the flower has a fine formation. The stems are strong and upright and the flowers are produced in profusion. The growth is medium in height the foliage dark green and very resistant to the ravages of insects.

Tubers \$7.50, plants \$4.00

MARIAN BROOMALL (Broomall). *Hybrid Cactus*

This is a very large pink and white Hybrid Cactus. It has good stems and splendid habit of growth.

Plants only \$5.00

MARMION (Mastick). *Decorative*

This is one of the very largest Decoratives, and as an exhibition Dahlia it has few equals. The flowers are massive and have a great depth. It is a pure golden yellow with a bronze suffusion on the reverse of the petals. The form enhances the beauty of the flowers as the florets are long and wavy, and are produced very freely on long, cane-like stems. The foliage is thick in texture, tending to make it resistant to the attacks of the insects.

Plants only \$5.00

MORDELLA (King). *Decorative*

This is an outstanding Dahlia of great merit. The color is apricot buff with a pink suffusion. The flowers are large and produced very freely on splendid stems.

Tubers \$3.50, plants \$1.75

MRS. CARL SALBACH (Salbach). *Decorative*

This lavender-pink is a great favorite as a cut flower variety, as the flowers are produced in profusion on ideal stems.

Tubers only 75c.

MRS. FRANCIS E. BULLARD (Broomall). *Decorative to P. Fl.*

This is an immense flower of a beautiful light pink, shading to white; splendid stems.

Plants only \$2.50

MRS. I. DE VER WARNER (Marean)

One of the best of the Marean varieties. Cattleya color large and very fine.

Tubers \$1.00, plants 50c.

MRS. ELEONAR MARTIN (Pellicano)

This is a California variety of exceptional merit. The color is described as mulberry, but we think it is more of a dark rose shade, with a violet reverse. The flowers are large, and produced on good stems. The foliage is very resistant to the attacks of insects.

Tubers \$4.00, plants \$2.00

NANCY SUE LANG (Broomall). *Decorative*

This is a very large-flowered variety. The color is bright red, tipped with gold. A very conspicuous and attractive variety. The habit of the plant is inclined to be dwarf, but the stems are stiff.

Plants only \$7.50

NICHU (Boston). *Hybrid Cactus*

This is a splendid variety either for the exhibition table or for the garden. The flowers are large, of a good clear yellow, and on fine, stiff stems.

Tubers \$5.00, plants \$2.50

OLIVE REED (Seal). *Decorative*

The blooms of this variety are an ideal shade of clear yellow. It is a splendid form of Decorative and the flowers are large and on good stems.

Tubers \$7.50, plants \$4.00

PAPILLON (Boston). *Hybrid Cactus*

In color this variety is a beautiful shade of old rose with golden highlights. Very profuse bloomer, with fine stiff stems. The foliage is exceptionally resistant to the attacks of the leaf hopper.

Tubers \$2.50, plants \$1.25

PRIMULA REX (Broomall). *Decorative*

Very well named King of the Primroses. This is probably the very best new variety introduced last year. The flowers are massive in form and a light cream or English Primrose color. The flowers are large and produced quite freely on splendid stems. An exhibition variety of exceptional merit.

Plants only \$5.00

ROBERT TREAT (Mueller). *Decorative*

The flowers of this variety are large and perfect in form. The color is rose, almost the same shade as the American Beauty Rose. Stems are upright and stiff.

Tubers \$2.50, plants \$1.25

ROLLO BOY (Pellicano). *Hybrid Cactus*

This is a splendid Hybrid Cactus of good form and strong stems. The color is delicate amber to old gold.

Tubers \$2.50, plants \$1.25

ROMAN EAGLE (F. & M.) *Decorative*

This is a good exhibition and cut flower variety. The color is flaming copper. The growth of the plant is medium in height with strong, stiff stems. The foliage is exceptionally resistant to the effects of the leaf hopper.

Tubers \$4.00, plants \$2.00

SANHICAN'S BLUEBIRD (F. & M.)

While this variety is not blue, as its name would indicate, yet in certain lights, especially in the evening, it has a decidedly blue appearance. The flowers are large and of good form, produced very freely on splendid stems.

Tubers \$3.50, plants \$1.50

SANHICAN'S GEM (F. & M.) *Decorative*

The color of this variety is a shade of old rose, suffused with amber, fading to a clear old rose. The florets twist at the points, giving some growers the belief that it is a Hybrid Cactus, but as the petals do not flute towards the center, it is best described as a Decorative. The flowers are medium in size on splendid stems.

Tubers \$3.00, plants \$1.50

SANHICAN'S MAGNATE (F. & M.) *Decorative*

This is a large variety of exceptional merit. It is one of the freest blooming large varieties. The plants, of only medium height, are covered with large flowers. The color is amaranth pink, reverse of the florets being heavily veined and suffused claret.

Tubers \$6.00, plants \$3.00

SANHICAN'S MONARCH (F. & M.) *Decorative*

This is a large flower of splendid type. The color is a deep tyrian rose at center of the flower, shading to a lighter tone at the tips of the florets. A flower of great depth and substance; a profuse bloomer on splendid stems and with leathery foliage that well resists the ravages of the leaf hopper.

Tubers \$7.50, plants \$4.00

SANHICAN'S ROSE (F. & M.) *Decorative*

A medium-sized flower of a clear deep rose pink. Splendid cut flower, a profuse bloomer and the flowers are borne on ideal stems.

Tubers \$5.00, plants \$2.50

THE SEAL OF CONNECTICUT (Alling). *Decorative*

A splendid new yellow variety of exceptional color. The large flowers are a fine type and of great depth. A free bloomer and a vigorous grower.

Plants only \$4.00

TRENTONIAN (F. & M.) *Decorative*

Large, perfect Decorative. The color is in brown tones. The flowers are of good formation. A splendid grower and a free bloomer. The foliage is especially resistant to the ravages of the leaf hopper.

Tubers \$3.50, plants \$2.00

WAPITI (Boston). *Cactus*

A splendid new Cactus from Bessie Boston. The color is soft rose. The flower is of good form, produced very freely on good stems. The flowers, made up of long rolled florets, keep their centers right up to frost.

Plants only \$5.00

ZANTE (Boston). *Hybrid Cactus*

Rich gold, suffused apricot pink, is the color the introducer gives this variety. It is a beautiful combination, the flowers are large, of splendid form and produced very freely. This is a splendid all-round variety. Good either for the garden or exhibition hall.

Tubers \$5.00, plants \$2.50

The Pompon or Bouquet Dahlia

This splendid class of Dahlias is much in favor, as they are so well suited for all kinds of decorative work.

They are exceedingly floriferous and make fine border plants. In the following list will be found the very best, both for exhibition and garden work.

We only offer tubers of these as we do not propagate green plants of this section.

	Each
Aimee. Very small and perfect flower, bronze in color.....	\$0.50
Arthur. Brilliant scarlet, flowers small and perfect in form.....	1.00
Admiral Dot. Tinged lavender and white.....	.50
Belle of Springfield. This is an old favorite, described as crushed strawberry in color.....	.50
Bobby. Very attractive shade of plum color.....	.50
Bronze Beauty. Golden apricot, small and a free bloomer.....	.50
Candy Kid. One of the best coral pink, shading to lavender; small and perfect in form.....	.50
Dainty. Tiny pointed petals of white, shading to pink.....	.75
Dee Dee. Lavender. A very dainty little flower.....	.50
Doris. Cream colored, very small and well formed.....	.50
Elaine. Pure white, very fine.....	.25
Golden Gem. Pure yellow, small and perfect form.....	.75
Goldie. A tiny flower of pure gold.....	.75
Hazel. Buff, deepening to brown.....	.75
Helen Cottrell. A perfectly formed flower of baby pink.....	.50
Highland Mary. Pink and white.....	.25
Joe Fette. One of the smallest and best of the whites.....	.50
Kim. Very fine orange; good form.....	.50
Lassie. Yellow base, old rose shadings.....	.50
Little Beauty. Very fine shrimp-pink.....	.25
Little Beeswing. Golden yellow, tipped cherry-red.....	.50
San Toy. White, tipped with carmine.....	.35
Tiny Tim. Soft peach pink.....	1.00
Zoe. Clear yellow, sometimes tipped white.....	.35

Choice Gladiolus

No flower is more valuable in the garden than the Gladiolus, their uses being unlimited. If the planting is done at intervals they may be had in bloom from the middle of June until frost. We are listing only a few of the very best standard varieties and at a price within the reach of all. The bulbs will all be first size, thoroughly ripened and guaranteed to bloom.

ALBANIA

Large flowers of the purest glistening white, with faint pink markings.

25c. each, \$2.50 per doz., \$20.00 per 100

ALICE TIPLADY (*Primulinus Hybrid*)

Rich orange-saffron, slightly ruffled. One of the very best of the *Primulinus* hybrids.

5c. each, 50c. per doz., \$4.00 per 100

E. J. SHAYLOR

A beautiful, deep rose pink ruffled variety, vigorous grower; flowers large.

10c. each, \$1.00 per doz., \$7.50 per 100

EVELYN KIRTLAND

A beautiful shade of rose-pink, darker at the edges, shading to shell-pink in the throat, with brilliant scarlet blotches on the lower petals. The flowers are large, well placed on the spike, and many open at one time.

10c. each, \$1.00 per doz., \$7.50 per 100

FLORA

Fine canary yellow self color, large, wide open flowers.

10c. each, \$1.00 per doz., \$7.50 per 100

GOLDEN MEASURE

The largest and best true golden yellow, very large spike carrying enormous, wide open flowers of excellent form.

25c. each, \$2.50 per doz., \$20.00 per 100

HALLEY

Salmon-pink; one of the very earliest varieties; large, well opened flowers nicely placed on the spike.

5c. each, 50c. per doz., \$3.00 per 100

LE MARECHAL FOCH

Extra large flowers of a light rose-pink, well placed on the spike and many open at one time.

5c. each, 50c. per doz., \$3.00 per 100

E. J. SHAYLOR

LILY WHITE

Splendid new white variety; one of the very best for commercial purposes.

10c. each, \$1.00 per doz., \$7.50 per 100

MAIDENS BLUSH (*Primulinus Hybrid*)

This is a favorite in the cut flower market; the color is a delicate pink; very early and free.

5c. each, 50c. per doz., \$3.00 per 100

MRS. F. PENDLETON, JR.

One of the very best *Gladiolus* in existence. Salmon pink, heavily blotched.

5c. each, 50c. per doz., \$3.00 per 100

MRS. F. C. PETERS

This is a beautiful new variety, the color is a rosy lilac, with a soft crimson blotch. The flowers are slightly ruffled; the blooms are large, well placed on the stem and many open at one time.

25c. each, \$2.50 per doz., \$20.00 per 100

ORANGE BRILLIANT (*Primulinus Hybrid*)

The flowers of this variety are small, yet it is a splendid cut flower. The flowers are a brilliant orange on very stiff stems.

5c. each, 50c. per doz., \$2.50 per 100

ROSE LUISANTE (*Primulinus Hybrid*)

This splendid new variety is one of the very best of the *Primulinus* hybrids. The color is rose-pink with a creamy throat; the stems are long and graceful. A very early variety, and one of the best for forcing.

25c. each, \$2.50 per doz., \$18.00 per 100

SOUVENIR (*Primulinus Hybrid*)

Pure golden yellow, one of the best yellow varieties we have.

10c. each, \$1.00 per doz., \$7.50 per 100

SCHWABEN

Very large flowers of pure canary-yellow, shading to soft sulphur-yellow, with a deep red blotch on the lower petal.

5c. each, 50c. per doz., \$2.50 per 100

Extra choice mixture, all named varieties that have become mixed in harvesting

25c. per doz., \$1.50 per 100

MRS. F. C. PETERS

Hybrid Delphinium. *Perennial Larkspur*

There are few hardy perennials that have the charm of the Delphinium, varying in color from the palest sky-blue to the deepest indigo and in height from 3 to 8 feet.

They are not fastidious in their culture, succeeding in most well-tilled soils.

To obtain the best results, plant them in well enriched soil and give plenty of water during the growing season.

To get immediate results, strong, one-year-old field grown plants should be used, as they possess all of their initial vigor. They should be planted in the Fall or very early Spring, just as soon as the frost is out of the ground.

We have been collecting Delphiniums for a number of years, having purchased stock from all of the specialists, both at home and abroad, and from all of the various strains we have selected the very best, and we now have to offer a fine lot of specially selected, field grown plants that are sure to satisfy all lovers of this fine hardy flower.

Strong plants, 75c. each, \$8.00 per doz., \$50.00 per 100

**We have also a limited amount of selected seed, 1926
crop, at \$1.00 per pkt. of 100 seeds**

Viola Cornuta, Jersey's Gem

This is a splendid new hardy plant that should be in every garden; it is perfectly hardy and is covered with deep rich violet flowers all season. It is especially suitable for borders or for rock gardens, and will thrive in almost any situation or soil.

It forms quite a mat in one season and may be readily increased by division.

**We offer strong plants of this charming flower out of
2½ in. pots at 50c. each, \$5.00 per doz., \$35.00 per 100**

New Hardy Pink (*Annie Laurie*)

This new hardy Pink, introduced last year, is a real acquisition; it is perfectly hardy, the flowers are larger than any border Pink we have ever grown and are single. In color it is clear Orchid pink, with a wine-red circle or eye in the center of the flower. It is very well adapted for the border and quickly forms a cushion and is literally covered with lovely flowers.

Strong plants out of 2½ in. pots, 50c. each, \$5.00 per doz., \$35.00 per 100

NEW BOOK *on* DAHLIA CULTURE

By W. H. WAITE

A book full of practical information, suitable for the amateur
as well as the professional

PRICE \$1.60 PREPAID

The Florists Exchange and Horticultural Trade World gives it the following
review:

THE LITTLE BOOK OF MODERN DAHLIA CULTURE

This is unquestionably one of the best and most original of "The Little Book Series." Written by W. H. Waite, one of the most successful of Dahlia raisers in the East, it is notable for its straightforwardness and readable style. Beyond utilizing some previously published information on the chemistry of soils, which is acknowledged, this little volume is the result of Mr. Waite's practical experience. Moreover, while disclaiming any ability as a penman, he demonstrates that he can write entertainingly on an old subject and, at the same time, hand out information that is not generally known. Mr. Waite follows nothing and nobody; he expounds his views clearly and emphatically, not hesitating to directly oppose statements made by others. It is particularly refreshing to read his views regarding propagation from cuttings; incidentally, we have never seen the advocates of split roots come out with such a clear cut exposition of facts as does Mr. Waite for green plants.

The little book under notice, like all others of "The Little Book Series," is well bound in green cloth; it contains 126 pages including the pages at the back for record keeping, and is freely illustrated with splendid halftones, all from photographs taken by Mr. Waite.

Waite's Dahlia Food

This is the fertilizer we have been using for the past few years. It is a specially prepared and blended food, to give maximum results in the production of fine flowers and good tubers.

Directions for Use

Spread broadcast when preparing the ground in the Spring at the rate of 100 lbs. to 1000 square feet and cultivate in.

When plants are about 1 foot high, broadcast at the rate of 50 lbs. to 1000 square feet and cultivate in.

When plants are coming into bud, broadcast at the rate of 50 lbs. to 1000 square feet, rake and water it in.

Price: \$6.00 per 100-lb. bag, \$55.00 per ½ ton, \$100.00 per ton.

F. O. B. factory at Long Branch, N. J.
