LILIUM HARRISI

"A. B. C. Blue Ribbon Brand"

THESE plants were grown at C. H. McCormick Estate, Lake Forest, Illinois, from the American Bulb Company bulbs, supplied by Kuehn & Rinehardt, Glen View, Illinois.

Awarded Blue Ribbon at Chicago Garden and Flower Show, March 26, 1928.

We are again fortunate in connecting with and securing the stock of this special selected type of Lilium Harrisii, direct from a grower who is generally conceded as having an Improved Type of Lilium Harrisii. It is a vigorous grower, producing an abundance of flowers, all of which the accompanying photograph indicates. In addition to these all-important features, his stock is absolutely free from disease.

We offer same in the following sizes:

6-7, packed 335 bulbs to the case	{ <i>Write for</i> }	9-11, packed 100 bulbs to the case
7-9, packed 200 bulbs to the case		{ <i>Prices</i> }
