Evergreen Trees.

—:6:—

Our Evergreens have been transplanted frequently, given ample room for development, sheared into symmetrical shape, root pruned to develop a good fibre root system which is most important for ornamental evergreens.

All stock listed herein is grown on our nursery under personal supervision. Balled and burlaped at price quoted, delivery not included.

Selected specimens will be priced according to individual quality, plants tagged for future delivery 10 % additional to prices here given.

The figures in bold type following each variety indicate in feet approximate height when mature. (Brackets) indicate where native.
