Bulbs To Bloom In The Spring Must Be Planted In The Fall. During October Is Best.

Plan Now To Bring Tulip Time To Your Garden Next Spring.

Time of Delivery

Practically all Dutch and French Bulbs will be ready this year during September and early in October.

WHEN TO ORDER. It is best to order promptly on receipt of this list, but they may be planted outside any time up to freezing weather. Practically all the bulbs in this list are ready in October, some of them before.

QUALITY OF OUR BULBS. Our bulbs are the best we can buy—the same as we use ourselves for forcing and must not be compared with stock bought to sell cheap.

OUR PRICES are as low as this grade of bulbs can be sold. Labor conditions in Europe are such that our bulbs cost us more than they did several years ago. All Bulb prices in this catalog are prepaid.

BULBS FOR NATURAL EFFECTS

NARCISSI, CROCUS and TULIPS are especially suitable for planting in clumps along streams and in fence corners. If planted in clumps in a sheltered spot, they will produce a mass of color in the spring. We put up the following collections for this purpose:

NARCISSI—Hardy varieties, in assortment, our selection, 65c per dozen, \$4.00 per 100.

TULIPS—Late flowering Darwin, special mixture varieties, \$3.00 per 100.

HYACINTHS—Assorted colors, \$1.00 per dozen; \$8 per 100.

LILY—(L. Candidum)—30c each; \$3.00 per dozen.

BREEDER TULIPS—Especially suited for out-door permanent planting. 60c a dozen, \$4.50 per 100.

TULIPS—Early Flowering varieties, assorted colors, \$3.00 per 100.

HYACINTHS

Planted in a bed outside in a protected place will give you satisfaction. Assorted colors for outside planting. **Important:** For indoor culture plant one bulb in 4-inch or 3 or 4 in a 6-inch pot. Use light, rich soil. Follow directions given elsewhere.

Use Dutch Roman and Named Dutch Hyacinths for Indoor Planting

DUTCH ROMAN OR MINIATURE

(These are especially suitable for pot culture inside.
Plant 3 bulbs in 5-inch pot.)

LADY DERBY. Blush pink.
GRAND MAITRE. Deep blue.
GERTRUDE. Clear pink.
QUEEN OF BLUES. Light blue.
L'INNOCENCE. Pure white.

Price—11c. each; \$1.20 per dozen.

UNNAMED HYACINTHS

Especially suitable for outdoor culture.

Colors Separate

SINGLE—Light Blue, Dark Blue, Red, Rose, White.
We do not carry the cheaper double varieties as they do not give satisfaction.

FOR GARDEN CULTURE—Plant 4 inches deep and protect with mulch. Do not uncover too early in Spring. 10c each, \$1.00 per dozen.

NAMED DUTCH HYACINTHS

(These are best for pot culture indoors)

Our list contains only the best varieties for general use and is the pick of all the named varieties.

SINGLE VARIETIES

GERTRUDE. Medium early, rose pink.
LA VICTORIA. Brilliant dark pink.
LADY DERBY. Early blush pink.
MAD VANDERHOOP. Best medium white.
QUEEN OF BLUES. Early, light blue.
KING OF BLUES. Dark blue, medium.
GARIBALDI. Brilliant red.
KING OF YELLOW. Large and early.
LA INOCENCE. Pure white, compact, truss early.
(Note. The single varieties are best for pot culture.)

DOUBLE VARIETIES

GROOTVORST, Double pink. BLOCKSBURG, Early Porcelain. PRINCESS LOUISE, Deep red. GARRICK, Deep blue, early. SUNFLOWER, Buff, good spike. ISABELLA, Pure white.

Price of named Dutch Hyacinths, single and double, 18c each, \$2 dozen.

We consider it advisable when the ground is thoroughly moist after you have placed your mulch on the same to cover the entire bed up with boards or roofing paper, so as to prevent it from getting very wet in the Winter and then freezing and thawing.

For inside use, plant your bulbs in light sandy soil, firming them well in the soil with crown of bulb below the surface. Give them thorough watering; then plunge the pots in the cellar to a depth of 3 or 4 in. above the pot and again water thoroughly. Examine them occasionally and if they become dry give them a thoro watering, keeping them buried from 4 to 6 weeks till they are started. Then remove them to the light and grow cool. Do not bring them to the light until they are thoroughly rooted and started and do not put them in a hot, sunny place, as this will have a tendency to make short, inferior blooming stalks. A light, cool, sunny window is best for the growing of all bulbs in the home. Hyacinths will have longer spikes if grown in the shade.

How to Plant Your Bulbs

A careful study of the engraving will show you the exact depth and distance to plant your bulbs outside. Spade your ground up well—good and deep—well pulverized and rich. Then smooth off the soil and firm with brick or board. By using a round stick a little larger than the bulb you are planting, you can easily make holes the right size and depth. Drop your bulb in right side up, fill the hole and again pack solid firm and give thorough watering when the ground is dry outside.

When the ground freezes in the Fall give a thorough mulch, leaving same on all Winter and gradually remove in the Spring.

GIANT DARWIN LATE TULIPS

Truly the Tulip Aristocrat

This section of the Tulip family deserves more attention. Being of great beauty and coming into bloom in May, a splendid success of bloom can be had when planted along with the early tulips. They are extremely hardy and particularly fine for planting in clumps among shrubbery or in the herbaceous border. The flowers being borne on extra long stems make them invaluable as cut flowers and they have the added value of lasting a long time when cut and placed in water.

A SELECTION OF THE BEST VARIETIES OF DARWIN TULIPS

PAINTED LADY. Creamy white
BARTIGON. Crimson scarlet.
SULTAN. Maroon black,
PRIDE OF HAARLEM. Glossy pink,
