GLADIOLUS

Alice Tiplady. Grenadine orange, self-color, except that lower petals are lighter.

America. Pale laelia pink with rose colored blotch.

Baron Jos. Hulot. Catinga purple (dark pansy violet). Shading to purplish white throat.

Empress of India. Deep burnt lake, shading to a Bordeaux. Lower petals are Bordeaux red and have a white stripe in center and a white carmine throat.

Halley. Light geranium pink, nearly a strawberry pink.

Le Marshal Foch. Very pale pink, self-color except for small old rose stripe on lower petals.

Mrs. Francis King. Jasper red, lower petals splashed deeper red, throat lighted. Tall straight spikes.

Niagara. Marguerite yellow, self-color except that lower petals are deeper yellow with carmine featherings. Petals are somewhat ruffled.

Peace. A late white. Pure white with tyrian rose blotch on lower petals.

Schwaben. Marguerite yellow with small amaranthe purple blotch on lower petals.

Independence. Salmon shading to yellow.

Dark Red. Deep Dark Red.

SELECT ROSES

Strong Two-Year-Old Stock

MONTHLY OR EVERBLOOMING ROSES VARIETIES

Columbia. Lively bright pink.
Crimson Queen. Velvet red.
Duchess of Wellington. Saffron yellow.
Etoile de France. Crimson Red.
Francis Scot Key. Deep even Red.
George C. Waud. Orange red Vermillion.
Lady Alice Stanley. Carol Pale Flesh Pink.
Los Angeles. Luminous Flame Yellow Pink.
Marie Adelaide. Copper Yellow.

Miss Lolita Armour. Chrome Yellow Shading to Orange.
Madam Butterfly. Yellow Pink.
Madam Jules Bouche. Pearly White.
Radiance. Light Silvery Flesh Pink.
Red Radiance. Bright Red.
Souvenir de Claudius Pernet. Sunflower Yellow.

We Carry Many Other Varieties Not Mentioned Here

Glorious Cannas

**Most Popular and
Brilliant of All
Summer
Bedding Plants**

Red Shades with Green Foliage

THE PRESIDENT. The finest red Canna, enormous individual flowers.

MADAM CROZY. Vermillion scarlet with narrow edge of bright yellow, 3½ feet.

Yellow Shades with Green Foliage

HUNGARIA. Most popular pink variety, large flowers of deep rose borne on enormous trusses, height 3½ feet.

ORANGE BEDDER. Beautiful bright orange, suffused with scarlet, very attractive.
Pink Shades with Green Foliage

MRS. ALFRED CONARD. Very fine salmon pink. Well formed truss, 4 feet.
Bronze Leaved Varieties

BRONZE FOLIAGE YELLOW KING HUMBERT. Another beautiful sport of King Humbert with all of its fine qualities. Light bronze foliage with large orange flowers, height 4 feet.

KING HUMBERT. The most popular Canna of all. Orange scarlet flowers with purple foliage, 4 feet.

WYOMING. Fine orchid flowering variety, large orange colored flowers with purple foliage, height 3 feet.

White and Cream With Green Foliage

MONT BLANC IMPROVED. Almost white, large flowers, 3½ feet.

Tuberoses

Dwarf Double Pearl. 6-8 inch.
Dwarf Double Pearl. 4-6 inch.

BULBS HARDY LILLIES

**LILIUM
TIGRINUM**

Tiger Lily

**LILIUM
RUBRUM**

Pink Spotted, with white margin.

**LILIUM

DAHLIAS

JERSEY'S BEAUTY. The sensational dahlia of a decade. A grand color, a beauty for cutting. It is a large, perfectly formed flower, of a clear erosine pink, held upright on a long wiry stem over a well-branched bushy plant.

MRS. I. DE VER WARNER. This exquisitely beautiful blossom of soft orchid, or rich rosy mauve, is one of the most admired and best of all cut-flower dahlias that we have grown.

JACK ROSE. The best crimson for garden or cutting; that brilliant crimson red that made the "Jack" Rose popular and suggested the name.

YELLOW DUKE. Canary yellow, quilled petals; on long stems.

ZULU. This is the old Black Dahlia of the book of that name. We have had so many calls for this from sentiment, that we again list it.

QUEEN MARY. A grand decorative that has proven its worth as the best deep pink for all purposes. The size is large, full high center, even up to November, when killed by frost. Color clear silvery cerise pink.

ALBERT MANDA. Very large, white, suffused primrose and rose. A late bloomer.

CLARIBEL. Brilliant crimson purple; a strong grower, early and free bloomer on long erect stems.

YELLOW COLOSSE. Clear canary yellow of fine form and produced freely on long stems. The plant is a strong, vigorous grower with luxurious lace like foliage.

SYLVIA. Deep pink, tinting to light pink at the center. den yellow suffused orange.

CITIZEN. Fine rich dark red.
GOLDEN GATE. Large; golden yellow suffused orange.

QUEEN OF HEARTS. A beautiful pure white with yellow at base of petals, making it a most lovely and effective flower.

WE CARRY HYACINTHS, TULIPS, DAFFODILS, PAPER WHITE NARCISSUS, AND MANY OTHER BULBS IN SEASON.

SPECIALTIES FOR 1928

TOMATO

MARGLOBE. This new main-crop or midseason tomato is a wilt-resistant variety bred for use in disease infected districts. In addition to being wilt-resistant, it is a handsome deep red globe shaped tomato of great merit. The plants are vigorous and productive and the fruits are quite large. In our trials they averaged $7\frac{1}{2}$ ounces in weight. The flavor seems to be a happy medium between the acid and non-acid sorts. The shape and size of the fruits makes this a very desirable salad or slicing tomato and the color and quality seem ideally fitted for canning. 1 oz. \$1.00; $\frac{1}{4}$ lb. \$3.00.

LETTUCE

NEW YORK or LOS ANGELES. (Known as California Dark Iceberg by some market gardeners and shippers.) This is the variety used almost exclusively in our markets and is grown on an immense scale. The variety is deep green, but when prepared for the table the head is almost white and very crisp. It thrives in cool weather and is not recommended for the house garden in mid-summer. The proper name for the variety is **NEW YORK**, under which name it was introduced into America years ago, and in ordering, customers should use this name to get the true variety. We have an excellent and highly developed strain of it which is used in large quantities by the big shippers. For garden culture, sow the seed thinly and thin the plants when in the fourth leaf to at least twelve inches apart. This will seem like a wide distance, but to make solid heads, the plants need plenty of room. The soil should be well fertilized and irrigated. 1 oz. 45c; $\frac{1}{4}$ lb. \$1.25.

BEETS

EARLY WONDER. Roots are of globe shape with small top and the color of the flesh is deep blood red slightly zoned. Quality is excellent. May be used for both early and late plantings. 1 oz. 15c; $\frac{1}{4}$ lb. 65c; 1 lb. \$1.75.

WHITE BIG BOSTON (Special). It resembles the Big Boston in appearance, with leaves a trifle smoother than most varieties of White Boston and which do not turn red in cool or cold weather. The head and frame is just as large as is possible to produce; it will cut as many crates per acre as the regular Big Boston. The fact that it does not turn red in cool weather makes it a most valuable shipper for it often brings 50 cents per crate more than the Big Boston. The commission men are always anxious to get hold of a good stock of well grown White Boston. This is the type to grow to please them. It is an exceptionally fine variety for growing under cold-frames or for the first planting outside in the spring. 1 oz. 60c; $\frac{1}{4}$ lb. 2.00.

CAULIFLOWER

DRY WEATHER. Very similar to Danish Giant, and as its name implies is especially adapted to those sections which experience long seasons of hot, dry weather. 1 oz. 3.50.

SPINACH

VIRGINIA SAVOY—The Blight or Yellows Resistant Savoy Spinach. For many years growers of spinach around Norfolk have lost considerable money each season because of a disease in spinach commonly called "Spinach Blight," which often destroys whole crops. Several years ago the Virginia Truck Experiment Station at Norfolk began experiments to get rid of this disease, and after six years of hard work succeeded, by hybridization, in breeding a spinach that was practically "Blight Resistant," and which we have named Virginia Savoy. This variety should be used in preference to ordinary Bloomsdale Savoy in sections where "blight" is prevalent. Oz. 15c; $\frac{1}{4}$ lb. 30c; 1 lb. 75c.

PRINCESS JULIANA. This improved late seeding spinach is one of the best varieties for spring sowing, as it is of splendid quality, very productive and slower to shoot to seed. The leaves are savoyed and quite dark in color. 1 oz. 15c; $\frac{1}{4}$ lb. 30c; 1 lb. 75c.

SWEET PEAS—EARLY FLOWERING SPENCERS

Sweet Peas are annually becoming more popular with Florists, both for growing under glass and outdoors. In some localities these Early Flowering Spencers have displaced the original or later flowering type for outdoor planting. Reports from those in the Seed Trade who supply the most critical Florists with their planting stock speak most enthusiastically as to the pureness and quality of our stocks

Novelties

Pedigreed Mary Washington

THE BEST HIGH PRODUCING, TENDER,
GREEN ASPARAGUS FOR MARKET
AND HOME USE

There is no variety of asparagus as good as the Washington and no strain of the Washington near as good as the "Mary."

The Washington stock is all descended from the male Washington and most of the seeds and roots of this variety now available commercially are descended from the female Martha and other unnamed females. The female "Mary," however, like the male Washington, is the greatest find in the history of asparagus breeding. There is no other progeny descended from the male plant Washington that compares with the "Mary."

It is earlier, produces more, has larger stalks, possesses highest rust resistance and will net a great deal more money per acre.

"Mary" is recognized as the best and we are pleased to announce that we can now offer you selected roots grown from the seed of this superior asparagus, produced from a fine field of second generation Mary Washington.

The very recent descent from the Washington male and "Mary" female places and extremely high value upon our stock of roots, the importance of which should not be overlooked by any one desiring the best.

"'Mary' is so much better you can see the difference."

ANNUAL

Seed Catalogue

FOR 1928

Prices Subject to Change.

It is our endeavor to maintain the prices quoted in this Catalogue throughout the season, but owing to the present very unsettled conditions they are subject to change without notice.

Wilson S. Brower Co., Inc., give no warranty, expressed or implied, as to the description, quality, productiveness or any other matter of any seeds, bulbs or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned, not tested seed so marked to comply with Chapter 228, Laws of N. J., 1916.

ARTICHOKE

German, Artichocke; French, Artichaut; Spanish, Albachofa.

	Pkt.	Oz.
French Globe	\$0.10	\$1.25

The Seeds should be sown early in the spring, in drills an inch and a half deep, and one foot apart. The next spring transplant to permanent beds, in rows or hills three feet apart and two feet between the plants. Plant in a deep rich, moist loam, and the plants should be protected in winter by a covering of leaves or coarse manure. A bed will continue bearing for several years.

Jerusalem Artichoke, Tubers	25 cents each
-----------------------------------	---------------

ASPARAGUS

German, Spargel; French, Asperge; Spanish, Esparrago.

Pkt. 5 cents

	Per oz.	¼ lb.	Per lb.
Conover's Colossal	.15	.40	1.00
Palmetto, a light green variety	.15	.45	1.25

	Per 50	Per 100	Per 1000
ROOTS			
Roots Palmetto, 2 years	1.00	1.50	12.50
Roots Mary Washington, 2 years	1.75	3.00	23.00

Sow the seeds early in spring, in drills 15 inches apart, and about a dozen to the foot in the drill; keep the soil mellow and free from weeds during the summer, and in the succeeding spring transplant to permanent beds which should be done in the following manner as described by a cultivator of Oyster Bay Asparagus.

Plant on sandy soil. To grow Asparagus in perfection, the soil need not necessarily be richer than it must be to produce a good crop of corn. Some experiments have shown that by heavily manuring the crop cannot be made permanently greater than by moderate dressings. It is not desirable to plant them out very early; more plants will fail to grow than when the planting is deferred until the soil is dry and warm.

In planting for private use; set out in rows two feet apart, and allow twelve inches in the row. Set the plants at least six inches below the surface. For market on a large scale set four feet apart one way and two the other, which will allow the use of a horse and cultivator to keep the weeds under.

BEANS

10 cents Pkt.

German, Gartenbohne; French, Fève de Marais; Spanish, Hava.
English or Broad.

	1 lb.	2 lb.
Broad Windsor	\$0.50	\$0.95

This class is very hardy and should be planted as soon as the soil is in good state in the spring. Plant four inches apart, and two inches deep in drills four feet apart. To insure well filled pods, pinch off the tops as the lower pods begin to set.

Bountiful, Extra Early. Very prolific and long bearing. Flat green pods, tender and stringless, 1 lb., 45c; 2 lb., 80c; 10 lb., 3.50.

Valentine Black, long round, green, solid pod, very early.

Valentine, Giant Stringless, about seven days later than extra Early Valentine. Slightly curved pod, brittle and stringless; a strong grower and good yielder. 1 lb. 40c; 2 lb. 70c; 10 lb. 3.00.

Valentine, Early. Productive, tender and of excellent flavor. 1 lb. 40c; 2 lb. 70c; 10 lb. 3.00.

Beans, French's Horticultural. These are a late sort, usually listed under the Dwarf, Green Podded variety, but they are between a bush and a pole bean, having some runners but do not require poling. Pods are 7 to 8 inches long, and in the green stage can be used for a snap bean, and later as a shell bean. The pod is splashed with red. 1 lb. 50c; 2 lb. 90c; 10 lb. 4.00.

Burpee's Stringless Green Pod, the best stringless bean grown. Ten days to two weeks earlier than the valentine; pods full and fleshy, extremely crisp and absolutely stringless. Very productive. 1 lb. 40c; 2 lb. 70c; 10 lb. 3.00.

Improved Kidney Wax Beans. Semi-round-pod. Very prolific and stringless. Far superior to Golden Wax. 1 lb. 45c; 2 lb. 80c; 10 lb. 3.50.

Refugee or Thousand to One. (Late variety.) The pods are round and full, stringless and of fine quality. 1 lb. 35c; 2 lb. 65c; 10 lb. \$2.25.

DWARF LIMA AND DWARF WHITE BEANS

Burpee's Improved Bush Lima. Beans are large as Large Lima, stout growth, branches vigorously, bearing 50 to 200 large pods well filled with very large beans. 1 lb. 45c; 2 lb. 85c; 10 lb. 3.50.

Fordhook Bush Beans. 1 lb., 60c; 2 lb. 1.00; 10 lb. 4.00.

White Marrowfat, grown for sale in the dry state. 1 lb. 30c; 2 lb. 50c; 10 lb. 2.50.

DWARF WAX VARIETIES

Sure Crop Stringless Wax. 1 lb., 40c; 2 lb., 75c; 10 lb., 3.00.

Round Pod Kidney Wax, same as Wardell's, only round pods. 1 lb. 40c; 2 lb. 70c; 10 lb. 3.00.

Wardell's Kidney Wax, extra early, long flat pods, very productive. 1 lb. 40c; 2 lb. 70c; 10 lb. 3.00.

THERE IS A SHORTAGE ON BEANS THIS SEASON DUE TO A FAILURE IN THE CROP

BEANS—Dwarf Wax Varieties, Continued

	1 lb.	2 lb.	10 lb.
Curries Rust Proof , very early and prolific. The pods are long, full, stringless; of very fine quality	.40	.70	\$2.75
Davis' White Wax , beans pure white; pods yellow, flat, tender, rich	.40	.70	\$2.50
Golden Wax . This valuable variety is about ten days earlier than the black wax pods, large, long semi-round, brittle, stringless	.40	.70	\$3.00
Blossoming time sends up a tendril a foot longer than vein which drops off.			
Hodson Wax , very large, tender, pods stringless, very productive ...	.40	.70	\$2.75

BEANS, Pole or Running Varieties

Challenger Lima . Potato variety, five and six in a pod	.45	.80	\$3.25
King of Garden Lima . Vigorous in growth and immensely productive, pods large, numerous and well filled and beans of an enormous size. Generally grown for main crop	.45	.80	\$3.25
Large White Lima . A greatly esteemed variety	.40	.75	\$3.00
Kentucky Wonder, or Homestead Extra Early . Pods long, tender and good flavor, very productive	.40	.75	\$3.25
Dutch Case Knife . The vines of this well known green podded kidney bean for green shell use are of good climbing habit, but rather loosely and may be used for a corn hill sort of medium season. It is used for snaps when quite young. The leaves are large and crumpled. The pods are very long, seven to eight inches, flat, irregular, medium green, becoming lighter as they mature. Seed broad, kidney shaped, flat, clear white and of excellent quality whether used green or dry	.40	.70	2.75
Scarlet Runner . Beautiful scarlet flowers; for ornamental and table use	.45	.80	\$3.50
Beans, London Horticultural, Pole . This is a late green shell bean. The leaves are light colored, pods are about 5 inches long and are light green when young but take on a more yellowish appearance spotted with red as they grow older	.45	.80	3.50
Early Golden Cluster . Bright yellow pods, stringless, in clusters..	.40	.70	\$3.00
Yard Long, French . Pods sometimes grow from 2 to 3 ft. long, are very slender like a pipe stem; should be grown on pea bush	1.25		

Sow Bush sorts in drills about two feet apart, and drop the beans about three inches apart in the drill, cover two inches or less for a succession, sow at intervals of two weeks. Lima beans should not be planted until settled weather; make rich hills, four feet apart each way set a pole eight or ten feet high in each; press the beans into the soil eye down, six or eight to each pole, and when they are well up, thin out to four.

A quart of Limas is sufficient for 75 to 80 hills, and a quart of Bush Beans will sow a row 100 feet long.

BEETS

Pkt. 5 cents

German, Runkelrub; French, Bourrache;
Spanish, Remolacha.

Detroit Dark Red (Special). A splendid beet for market or home use, of a deep color, tender and of delicate flavor.

Oz., 15c; $\frac{1}{4}$ lb., 40c; 1 lb., \$1.00

Dark Red Egyptian Crosby's (Special). The earliest beet in cultivation, color deep crimson; of excellent quality.

Oz., 15c; $\frac{1}{4}$ lb., 40c; 1 lb., \$1.00

DETROIT DARK RED BEET

MANGEL-WURZEL AND SUGAR

Varieties used for feeding stock. Sow 6 lbs. per acre.

Special Price in Quantities

	1 oz.	$\frac{1}{4}$ lb.	1 lb.
Mammoth Red Mangel-Wurzel. Producing roots of mammoth size, very regular, and with a small top.....	.10	.25	.75
Long Yellow Mangel-Wurzel. Good for general crop	.10	.20	.65
Giant White $\frac{1}{2}$ Sugar Beet. Extensively grown for feeding stock and manufacture of sugar	.10	.25	.75
Lane's Improved Sugar Beet. Improved variety of the French Sugar Beet, obtained by careful selection in this country	.10	.25	.75

A rich, deep open soil is the best suited to the culture of Beets. Fresh manure is undesirable, but land that has been well manured the previous year is highly suitable. For an early supply sow in the spring as soon as the ground becomes fit to work, in drills about one foot apart and two inches deep. For main crop sow the first week in May, and for winter use sow in June. When the plants have obtained three or four leaves, thin out, so that they may stand eight or nine inches apart. Keep free from weeds by hand weeding and hoeing. Those intended for winter use may be taken up in October, and stored in dry sand in the cellar or outhouse. Before storing, leaves and fibers must be cut off, but care must be taken not to bruise the main root.

BORAGE

10 cents Pkt.

German, Borritsch; French, Bourrache; Spanish, Berraja.

	Per oz.	$\frac{1}{4}$ lb.	lb.
Borage, used as a pot herb; also as a salad, or can be boiled, and also for garnishing, but chiefly required for claret cups and other cool- ing drinks. Bees are very partial to the flower	.30	.80	\$3.00

BROCCOLI

10 cents. Pkt.

German, Spragel Kohl; French, Chou Brocoli; Spanish, Broculi.

	Per oz.	$\frac{1}{4}$ lb.
Calabrese (Imported Italia)	3.00	
Purple Cape, differing from the preceding color, greenish purple	\$0.50	\$1.50
White Cape	\$0.50	\$1.50

A favorite European vegetable, nearly allied to the Cauliflower, but more hardy and surer to head; the seeds should be sown in this district in the early part of May and transplanted in June; farther south the sowing should be delayed until June or July; and the transplanting accordingly from August to October. In parts of the country where the thermometer does not fall below 20 or 30 degrees, Broccoli may be had in perfection from November until March. It succeeds best in a moist and rather cool atmosphere.

BRUSSELS SPROUTS

10 cents Pkt.

German, Sprossen-Kohl; French, Chou de Bruxelles; Spanish, Breza de Brussels.

Dalkeith Dwarf Improved, a variety producing compact sprouts of excellent quality. Pkt. 10c; Oz., 50c; $\frac{1}{4}$ lb., 1.50.

A tender, delicious vegetable. The plant grows two or three feet high, and produces from the sides of the stalks numerous little sprouts, one or two inches in diameter, resembling cabbage. The leaves which look like a Savoy should be broken down in the fall, to give the little cabbages room to grow. They are very tender and sweet after early frosts. Sow early in hot-beds, or in seed-beds in May transplant and cultivate the cabbage.

CABBAGE

10 cents Package, except quoted otherwise.

German, Kopfkohl; French, Chou; Spanish, Berza de Pepollo.

1 oz. $\frac{1}{4}$ lb. 1 lb **COPENHAGEN MARKET**

Early Flat Dutch. This is one of the best early cabbages in cultivation	.25	.75	2.50
Henderson's Succession. A second early or late variety, a sure header; seeds sown in March produce large heads in June.....	.40	1.10	3.50
Danish Round Head Short Stem. Large, round, solid, sweet and crisp, sure header	.40	1.10	3.50
Large Late Drumhead. An excellent fall and winter variety, grows to a large size	.25	.85	3.00
Larfie Late Flat Dutch. The most popular variety for late cultivation	.35	1.00	3.25
Mammoth Red Rock. Used almost exclusively for pickling	.40	1.25	4.00
Drumhead Savoy (American). The largest heading sort, of excellent flavor ...	.40	1.25	4.00
Golden Acre. An early variety which closely resembles Copenhagen Market in type. As its name implies, it is a money-maker. It is 8 to 10 days earlier than Copenhagen Market but is smaller and can be planted closer. Because of its earliness and fine quality it commands a higher price than any round-headed Cabbage	.90	3.40	12.00
Chinese (Pe Tsai)	.25	.85	3.00
L. I. or Hudson Red	.35	1.25	4.25
Earliest R. I. Red	.45	1.50	4.75

For very early use plant in the autumn from 10th to 25th September, in a seed bed, and protect in cold frames during the winter, being careful to set them down to the first leaf. Transplant in the following spring, as the soil will admit. For autumn and winter use, plant in seed-bed in May and early part of June, and when six inches high transplant into rich soil, two feet apart each way for the early varieties, and three by two and a half feet for the large winter varieties. To secure the best results, the soil should not be too dry, but should be thoroughly enriched, and the crop should be hoed at least once in ten days. Sow in hot bed early in spring, seed of the early kind for a second crop; also the late varieties for winter use.

CARROT

All 5 cents Package

Except Quoted Otherwise.

German, Mochern; French, Carotte.

The Carrot, like other root crops, delights in a sandy loam, deeply tilled. It should never be sown on newly manured ground as forked roots are sure to be the result. It is best to sow on ground that has been well manured the previous year for some other crop such as Celery, Potatoes, Onions or Peas, but avoid such crop as Cabbage and Turnips, or any of the tap rooted sections. For early or main crops sow the latter part of April; for later crops, they may be sown any time until the beginning of June. Sow in rows about 15 inches apart and half an inch deep, thinning out to three or four inches between the plants.

Early Scarlet Horn. Old and favorite sort, much esteemed for early summer, oz., 15c; $\frac{1}{4}$ lb., 35c; 1 lb., \$1.25.

Half Long Danvers (Special). A variety intermediate in size and period of maturity between the preceeding and the Long Orange, oz., 15c; $\frac{1}{4}$ lb., 35c; 1 lb., \$1.10.

Half Long Chantenay (Special). Like Nantes, broader shoulder, oz., 15c; $\frac{1}{4}$ lb., 35c; 1 lb., \$1.25.

Half Long Rubicon. Finest Carrot in existence. Oz. 25c; $\frac{1}{4}$ lb. 50c; 1 lb. \$1.25.

Half Long Stump Guarande or Oxheart.....

Half Long Stump Nantes

Long Orange Improved. Roots of large size, equally adapted for garden or farm culture

	Per oz.	$\frac{1}{4}$ lb.	lb.
Half Long Stump Guarande or Oxheart	.15	.35	1.10
Half Long Stump Nantes	.15	.35	1.25
Long Orange Improved	.15	.30	1.00

DANVERS CARROT

EARLY SNOW BALL CAULIFLOWER

CAULIFLOWER

German, Blumen-Kohl; French, Chou-fleur; Spanish, Coliflor.

Extra Early Paris. This is one of the earliest and best varieties, heads large, white and compact, of fine quality. Pkg 10c; oz., \$1.00; $\frac{1}{4}$ lb., \$3.00.

Large Early Snowball. Best for forcing under glass or open ground. Pkg. 25c; $\frac{1}{4}$ -oz., 75c; $\frac{1}{2}$ -oz., \$1.35; 1-oz., \$2.50; $\frac{1}{4}$ lb., \$8.50.

Early Dwarf Erfurt. Best for forcing. Pkt., 25c; $\frac{1}{4}$ -oz., 70c; $\frac{1}{2}$ -oz., \$1.25; 1 oz., \$2.25.

Early London. Pkt., 15c; 1-oz., \$1.00; $\frac{1}{4}$ lb., \$3.00.

Denmark, Special Large Late. Very fine variety, large white, compact heads, the space necessary between plants is greater than other varieties. Pkt. 25c; $\frac{1}{4}$ oz. 1.25; $\frac{1}{2}$ oz. 2.00; 1 oz. 3.75.

Danish Giant or Dry Weather. 1 oz. 3.50; $\frac{1}{4}$ lb. \$10.00.

CAULIFLOWER—Continued

Cauliflower delights in rich, moist soil and in dry seasons should be abundantly watered. The seeds may be sown in September and wintered over in the same manner as described for early cabbage. Where this is not practicable, it may be had nearly as well by sowing the seed in the hot-bed in January or February and transplanting the plants at two or three inches apart in boxes, or in the soil of another hot-bed, until such time as they are safe to be planted in the open ground, which in this latitude, is usually from the 15th of March to the 10th of April. If properly hardened off, they are seldom injured by being planted out too early.

CELERY

10 cents Package, except quoted otherwise.

German, Celeri; French, Celeri; Spanish, Apih.

Celery Seed for Flavoring.	.10	.20	.65

CELERIAC

10 cents Pkt.

TURNIP ROOTED CELERY

German, Knob-Celeri;
French, Celeri Rave.

Giant Prague. For soups, etc. When sliced and cooked makes good winter salad. Oz., 50c; ¼ lb., 1.25; 1 lb., 3.00.

The seeds may be sown in the open ground in April, as soon as the ground can be nicely worked. Sow about half an inch deep, and be careful to firmly press the soil over the seed; this should be done by treading over the rows with the feet after sowing; this prevents the air drying up the seed, which thereby loses its vitality and fails to germinate. Many valuable crops are annually lost by inattention to this important particular. After the seed is up, keep carefully clear of weeds until the time of planting June and July; the crops may be shorn off once or twice before planting; this makes them "stocky" and they suffer less in being transplanted. After the ground has been well prepared, plant in rows from three to four feet apart, according to the variety, setting the plants about six inches apart and pressing the soil firmly about the roots.

CHERVIL

Package 10 Cents

German, Bisenlauch; French, Cerfeuil;
Spanish, Cerafolio.

Curled Per. oz., .25

The young leaves are used in soups and salads. Sow thinly in May, in drills of an inch deep, one foot apart.

Long Green. A very excellent variety; a good bearer; about a foot in length, rather pointed at both ends; dark green, firm and crisp	.15	.40	1.25
Green Prolific Pickling. Very prolific; and said by those who have tested it equally desirable as a market Cucumber.. . . .	.15	.40	1.25
West Indian Gherkin or Burr. A very small oval shaped prickly variety It is grown exclusively for pickling, and should always be picked when young and tender	.15	.40	1.25
Clark's Special (Long Green). Very productive,disease resistant	.25	1.00	1.75

Cucumbers succeed best in warm, moist, rich loamy ground. They should not be planted in the open air until there is a prospect of settled warm weather. Plant in hills about four feet apart each way. The hills should be previously prepared by mixing thoroughly with the soil in each a shovelful of well rotted manure. When all danger from insects is past, thin out the plants, leaving three or four of the strongest to each hill.

DANDELION

15 Cents Pkt.

German, Pardelblume; French, Pissenlit; Spanish Armagon.

ENDIVE.

EGG PLANT

All 10 Cents Pkt.

German, Eier Pflanz; French, Aubergine; Spanish, Bereinfena.
1 oz. ¼ lb.

New York Improved. Superior market variety of large size and fine variety.....	.65	1.75
Black Beauty Tendage. Earlier than New York. Improved and as large; purplish black.....	.65	1.75

The Egg Plant is a tender vegetable, and must not be planted out until the weather is warm and settled. Sow early in spring in hot-beds, or if they are not convenient, sufficient plants may be raised for a small garden by sowing a few seeds in common flower pots or in boxes in the house. Plant out early in June from two to three feet apart.

Witloff or French

Endive. 1 oz., 20c; ¼ lb., 60c; 1 lb. \$2

Endive is one of the best salads for fall and winter use. Sow for an early supply about the middle of April. As it is used mostly in the fall months, the main sowings are made in June and July, from which plantations are formed at one foot apart each way in August and September. It requires no special soil or manure, and after planting, is kept clear of weeds until the plant has attained its full size, when the process of blanching begins. This is affected by covering up the plants as they grow, with slats or boards, which serves the purpose of excluding the air and light.

NEW YORK EGG PLANT.

KALE

Pkt. 5 Cents, except where noted.

German, Blatter-Kohl; French, Chou Vert; Spanish, Breton.

Oz. $\frac{1}{4}$ lb. lb.

Siberian German Green or "Sproute." This variety is extensively used for early greens for which it is sown in the fall in rows one foot apart and treated in the same manner as Spinach; it is ready for use in early spring. Sowing can also be made in spring15 .35 1.00

Dwarf Green Curled Scotch. Beautifully fringed dwarf growing kind, with bright green leaves, 10c pkt... .20 .50 1.50

Tall Green Curled Scotch. Tall growing, very hardy variety, leaves a bright green, beautiful curled. 10c pkt.20 .50 1.50

Kale may be grown in almost any soil. but the richer it is the more abundant the product. Sow early in the spring, in prepared beds, covering the seeds thinly and evenly; transplant in June and treat in the same manner as for cabbage. Of all the cabbage tribe this is the most tender and delicate and would be much more extensively grown than it is, if its excellent qualities were generally known. The varieties are all extremely hardy, and are best when touched by frost.

KALE

KOHL-RABI

KOHL-RABI

Pkt. 10 Cents.

German, Kohl-Rabi; French, Chou Rave; Spanish, Colinabo.

Per oz. $\frac{1}{4}$ lb. lb.

Early White Vienna. Flesh white and tender; best market sort; good for table use25 .75 2.25

Early Purple Vienna. Differing from the above in color, which is of a bluish purple25 .75 2.50

Kohl-Rabi or Turnip stemmed cabbage, is a vegetable that is not so much cultivated as it deserves to be. The stem above the ground swells into a bulb, somewhat resembling a turnip: this again is covered with leaves. The edible part is the bulb, which is dressed and served like turnip, is very delicate and tender when young. It is very hardy, withstands severe drought, and is a good keeper. Cultivate the same as cabbage, but in hoeing be careful not to throw dirt into the heart of the plant, or the bulb cannot form.

LEEK

Pkt. 5 Cents.

German, Lauch; French, Poireau;
Spanish, Puerro.

Large American Flag.	oz.	¼ lb.	lb.
The kind mostly grown for market	.25	.75	2.50

Giant Musselburg	.30	1.00	3.00
-------------------------------	-----	------	------

Large Rouen. Very large and fine	.25	.75	2.50
--	-----	-----	------

The Leek is very hardy and easily cultivated; it succeeds best in a light, but well enriched soil. Sow as early in the spring as practical, in drills one inch deep and one foot apart. When six or eight inches high they may be transplanted in rows ten inches apart each way, as deep as possible; that the neck, being covered, may be blanched. If fine leeks are desired, the ground can hardly be made too rich.

LEEK.

LETTUCE

Pkt. 5 Cents.

German, Laitick; French, Laitue; Spanish, Lechuga.

For early crop, the seed may be sown in the open ground in September, and transplanted to coldframes as soon as large enough to handle. In dry, sheltered spots, by covering up with leaves late in the season. Lettuce plants may be saved over Winter without glass covering. The plants for setting out in Spring are also sown in coldframes in February, and in hotbeds in March, and by careful covering up at night make plants to set out in April.

ROMAINE OR COS VARIETIES

Bath Cos. Pale green tinged with brown. Early.	.25	.75	2.00
Trianon Cos. The best of the Cos variety.....	.25	.75	2.00
White Paris Cos (Romaine). Sow early; tie up to blanch	.25	.75	2.00

Lettuce is the most popular of all salads. Boiled, is quite equal to Spinach; and it is also sometimes used in soups. It is easy of cultivation, but likes a good rich soil. For early use, sow Simpson and Tennis Ball under glass in February and March and transplant as soon as the ground can be worked. Later sowings may be made in the open ground for successions as long as the weather permits; thin out well or the plants will be weak, and set in rows two feet apart and eight inches between the plants. The best early plants are obtained by sowing in the open ground in September, and transplanting to cold frames the latter part of October, being wintered over in the same manner as early Cabbage. Lettuce requires good ground and abundant moisture.

MAY KING LETTUCE

LETTUCE—Continued

German, Laitick; French, Laitue; Spanish, Lechuga.

	Per oz.	¼-lb.	lb.
Special Big Boston W. S. (See Specialties)	.60	2.00	6.00
New York or Wonderful—Round Solid Head. Heat resisting. Grows larger than Iceberg and matures 10 days earlier	\$0.30	\$1.00	\$3.00
May King Lettuce. Very early, sure header, solid, good flavor.....	.20	.50	1.75
Big Boston. Similar to Boston Market, double this size. Selected	.25	.65	2.00
Early Curled Simpson. Very early and an excellent sort for forcing; is largely grown by the market gardeners.....	.20	.50	1.75
Salamander Head. Fine compact head, resists heat	.20	.50	1.75
Black-Seeded Butter. Fine market strain	.20	.50	1.75
Large White Cabbage. Excellent for summer; heads of good size	.20	.50	1.75
Black Seeded Simpson. Stands the summer well	.20	.50	1.75
Shotwell's Brown Head. Large and handsome; heads hardy; standing summer heat without injury	.20	.50	1.75
Boston Market. Large solid heads, very fine for forcing, and of fine flavor.	.20	.50	1.75
Iceberg Favorite Summer Lettuce. Heat resisting. Very crisp, strong center ribs which bend toward center of plant, keeping it thoroughly blanched	.25	.65	2.50
Unrivalled. An improvement on the White-seeded Big Boston, forming very solid, large, pale green heads without the reddish brown tinge, and of excellent quality. Forms a head in six weeks; at least ten days earlier than the regular Big Boston. May be sown all through the year and stands heat remarkably well. Is crisp, tender, and solid	.25	.90	3.00

MELON, MUSK

Package 5 Cents

German, Melone; French, Melon; Spanish, Melon Muscatel.

	Per oz.	¼-lb.	lb.
Hearts of Gold. A selection from Hoo Doo, this melon runs very uniform in size. It is a splendid shipping variety and is increasing in use. While originally it was identical with Hoo Doo	.20	.60	1.75
Tip Top. This kind cannot be excelled for its eating qualities. The flesh is a bright salmon color, remarkably thick, sweet and spicy. It varies from round to slightly oblong and with a green skin turning to a lemon color as it approaches maturity	.20	.60	1.75
Honey Dew. Large, round, delicious, rich green flesh	.20	.60	1.75
Paul Rose. Handsome, oval, orange flesh, sweet	.15	.40	1.25
Long Island Beauty. Similar to Hackensack; very early	.15	.40	1.25
Miller's Cream or Osage. Flesh and salmon color and very thick	.15	.45	1.50
Golden Netted Gem. Early, round, small, fine flavor	.15	.40	1.25
Hackensack. Variety of Green Citron, well known among the New York market gardeners, grows to a very large size, productive, exquisite flavor	.15	.40	1.25
Long Yellow Cantaloupe. Yellow flesh, suitable for the market	.15	.40	1.25
Rocky Ford. Very sweet; spicy flavored, small and oblong, most popular sort	.15	.40	1.25
Montreal Market. A very large green "Nutmeg" type, almost round, heavily netted; thick, luscious flesh; late and especially adapted to cooler climates	.15	.45	1.50

Melons thrive best in a moderately enriched live soil; the hills should be six feet apart each way. Previous to planting incorporate well with the soil in each hill a couple of shovelfuls of thoroughly rotted manure; plant twelve or fifteen seeds in each hill in May, and when well up, thin out three or four of the most promising. Pinch off the leading shoots as the growth becomes too luxuriant, and if the fruit sets too numerous thin out when young, which will increase the size of those remaining, and cause them to ripen quicker.

MELON, WATER

Package 5 Cents

German, Wassermelone; French, Melon d'Eau; Spanish, Zaudia.

	Per oz.	¼ lb.	lb.
HONEY DEW MELON.			
Tom Watson. Long and 8 to 10-in. diameter. Thin rind, crisp flesh, fine flavor	.15	.40	1.25
Pride of Georgia. Dark green, oval in shape; crisp and sweet; very large.			
Mountain Sweet. One of the very best for culture; color dark green; and rind thin; flesh scarlet; solid, very sweet and delicious.			
Black Spanish. Shape round, rather small; skin dark green, flesh red, sweet, rich			
Phinney's Early. Flesh deep red, of a very superior quality; a valuable early market variety			
Ice Cream. (White seeded), fruit of medium size, nearly round; skin pale green; rind thin; flesh scarlet, solid crisp, excellent.			
Kleckley's Sweets. Vines vigorous and productive; fruits are medium to large, oblong, tapering slightly toward the stem end; dark green. The flesh is very bright, rich red and exceedingly sweet, crisp, and tender. Combines earliness, size and quality			
Cole's Early. Early variety suitable for home market, but on account of its thin rind is not a good shipping melon. Medium size, skin dark green with light stripes; flesh, rich, dark red; luscious and sweet.			

MELON, WATER—Continued.**Mammoth Iron Clad.** Long and large; thin skin, deep red flesh..... **IRON CLAD**

Citron. (Red seeded), round handsome fruit of small size and used in the making of sweetmeats and preserves

Per oz. ¼-lb. lb.

.15 .40 1.25

Plant in hills directed for Muskmelons, giving them more room, as their vines extend much farther. If they are wanted of a large size, three or four melons to each plant will be sufficient, and when only one is allowed to grow from each plant they will grow to an immense size.

MUSHROOMS

German, Chimpignoubrut; French, Champignon; Spanish, Hongo

American Spawn Bricks Per brick, 35c; 10 bricks, \$2.50; 25 bricks, \$5.50

Mushrooms should be grown either in a building especially erected for the purpose or some shed, stable or cellar, where the temperature of from 40 to 60 degrees can be kept up in winter. To every barrow load of fresh horse droppings add about the same weight of loam or soil of any kind that has not been manured. Turn the heap every day, so that it is not allowed to heat violently, until you have quantity enough to form a bed of dimensions required. Be careful that your heap is under cover, so that it cannot possibly get wet. The most convenient size is from three to four feet long and eight inches deep.

MUSHROOMS.

Prepare the mixture of loam and manure, making the bed in layers and pounding down each with the back of a spade. Leave this to heat through for a few days, and as soon as the heat subsides to 90 degrees, make holes in the bed about a foot apart each way into which put pieces of spawn two or three inches in diameter; fill up the holes with the compact and at the expiration of a week or ten days the spawn will have thoroughly diffused itself through the bed. Now spread a layer of fresh soil

over the heap to the depth of two inches, firm it down moderately and cover with three or four inches of hay or straw. Examine the bed often to see that it does not get dry. When water is given it should be at a temperature of about 100 degrees. One brick to each 10 square feet.

MUSTARD

5 Cents Pkt.

German, Senf; French, Moutarde; Spanish, Mostaga.

White London. Best for saladsPer oz. ¼-lb. lb.
\$.010 \$.025 \$.075

Mustard in the green state is a refreshing salad, mixed with Cress, Lettuce, or other salad plants. It is necessary to make frequent sowing of it, as it should be cut and used in a very young state, even before the first rough leaf appears. The seed should be sown thickly in light soil the surface of which should be made very smooth. The seed should be pressed into the soil with the back of a clean spade.

ONION

Package 10 Cents

German, Zweibel; French, Oignon; Spanish, Cebolia.

Per oz. ¼ lb. 1 lb.

Early Red Flat. About ten days earlier than the Large Red, and not quite so large..... .35 1.00 3.00

Large Red Wethersfield. The staple variety of the Eastern onion growers; of large size, deep in color, a good keeper..... .30 .85 2.75

Southport Red Globe. Similar to the large Red in flavor and color, but quite distinct in form, being nearly globular30 .85 2.75

Yellow Globe Danvers. An excellent variety, mild and very productive; ripens early and a good keeper30 .85 2.75

White Portugal or Silver Skin. A handsome onion of mild flavor; extensively grown for pickling.. .35 1.00 3.50

Southport White Globe. Form nearly ovoid symmetrical, keeps well, is an excellent variety..... .35 1.00 3.50

Southport Yellow Globe. As above except color25 .75 2.50

Yellow Globe Prize Taker, 90 days.

White Queen. The earliest variety, very mild, pure white skin and flesh Does not grow to a large size, usually about 1½ inches in diameter, and slightly flattened shape45 1.25 4.00

Prizetaker. Grows uniform in shape; is of immense size, measuring from 12 to 16 inches in circumference, while under special cultivation specimen bulbs have been raised to weigh from 2 to 3 pounds each; its pure white flesh is fine-grained, mild and delicate in flavor30 .85 2.75

The onion thrives best in a rather strong, deep, rich loamy soil, and unlike most vegetables succeeds well when cultivated on the same ground for successive years. The ground should be deeply trenched and manured the previous autumn, and laid up in ridges during the winter to soften. As early in the spring as the ground is in working order, commence operations by leveling the ground with a rake, and tread firmly; sow thinly in drills about a quarter of an inch deep and one foot apart; cover with fine soil and press down with the back of a spade or a light roller. When the young plants are strong enough, thin gradually so that they stand three or four inches apart.

OKRA OR GUMBO

Package 5 Cents

German, Essbarer Safran; French, Gomo; Spanish, Quibombo.

Per oz. ¼ lb. 1 lb.

Long Green. Fine long pods,
very good15 .35 1.00

The pods in a young state are used in soups, sauces and stews, and are very wholesome and nutritious. It is the easiest culture and grows freely, bearing abundantly when grown in ordinary garden soil. It is sown at the usual time of all tender vegetables in drills two inches deep, setting the plants from two to three feet apart.

PARSNIPS

Package 5 Cents

German, Pastinake; French, Panais; Spanish, Chirivia

Per oz. ¼ lb. 1 lb.

Long Smooth or Hollow Crown.
Long roots15 .40 1.25

They succeed best in a deep rich soil that has been well manured the previous season, as manure freshly applied tends to the production of forked and ill-shaped roots. Sow the seed early in spring in drills eighteen inches apart in the garden, and three feet apart in the field, thin the plants to six inches in the drill.

PARSLEY

Package 5 Cents

LONG GREEN OKRA

German, Petersilie; French, Persil; Spanish, Perjil.

Per oz. ¼ lb. 1 lb.

Extra Double Curled. A fine dwarf variety excellent for garnishing \$0.15 \$0.40 \$1.25
Plain Leaves. Hardier than the curled variety..... .15 .40 1.25
Hamburg, or Rooted. Edible roots..... .15 .40 1.25

Should be sown very early in the spring in beds or in lines, and the seeds which are somewhat slow to vegetate should be previously soaked 24 hours in warm water. The soil should be kept free from weeds, which should be extracted by the hand, so as to avoid disturbance of the seed when about to germinate. As soon as the plants are large enough they should be thinned out so as to stand five or six inches apart.

Extra Early Varieties

1 lb. 2 lb. 10 lb.

*World's Record. Among early main-crop Peas of medium height, Gradus, or Prosperity, takes first place; happily named, indeed, on account of its high yield and superb flavor. In World's Record these points are more than maintained; the yield is as high and the quality, if anything, is enhanced. The great point in favor of the new sort is its earliness, the period from seed to maturity being less by a week than the standard Gradus35 .65 2.75
Laxtonian. Dwarf early wrinkled. Very prolific, large pods, height 1½ ft40 .75 3.25
Gradus or Prosperity. Earliest wrinkled Pea grown. Can be sown early as the round sorts. Large peas and pods, splendid flavor. Requires no sticks, reaching only 36 inches in ordinary good soil. Height, 3 feet... .40 .75 2.75
Thomas Laxton. A cross between Gradus and one of the extra early sorts Ripens within a day or two of the earliest round varieties; very productive. The pods are large and contain 7 or 8 large, wrinkled Peas of the finest flavor45 .85 2.75

PEAS—Continued.

	1 lb.	2 lb.	10 lb
Nott's Excelsior. Extra dwarf wrinkled, pods larger than American Wonder, 1 foot....	\$0.30	\$0.55	\$2.50
Alaska. Earliest of all	.35	.65	2.50
First and Best. One of the best extra early Peas. An improved strain of the Extra Early Market, height 2½ feet.....	.35	.65	2.50
Little Gem. A dwarf green wrinkled Market, very prolific, of superior flavor, and a first early, 1½ feet	.35	.65	2.50

SECOND EARLY VARIETIES.

Everbearing. Good size pea, long pods, height 2½ feet....	.40	.75	2.75
McLean's Advancer... Early green wrinkled varieties, delicious flavor, height 2½ feet..	.35	.65	2.50
Pride of the Market. Very large pods, green peas, sow thin, height 2 feet	.30	.50	2.00
Dwarf Telephone. Same quality and productiveness as Telephone excepting the vines grow 2 feet high, pods are large and filled with immense peas of excellent flavor and sweet	.40	.75	2.75

GENERAL CROP.

Champion of England. A popular wrinkled variety of delicious flavor, profuse bearer. Peas are very large, tender, height 5 feet	.35	.65	2.50
Telephone. This is the best pea for general crop, both for home and market use. Immediately productive and of finest quality. Vines very strong, averaging 18 to 20 large pods per stalk, 4 feet.	.40	.75	2.75
Dwarf, Sugar. Edible pods.....	.40	.75	2.75

Peas come earlier to maturity in light soil. For general crop a deep rich loam, or strong loam inclining to clay is best. For early crops decomposed leaves or leaf mould should be used, or if the soil is very poor, strong manure may be employed. For general crop a good dressing should be applied, and for the dwarf growing kinds the soil can hardly be too rich. When grown as a market crop, peas are not staked, but sown in single rows, two or three inches deep, two or three feet apart according to the variety. When grown in small quantities for private use

PEAS—Continued.

they are sown in double rows six or eight inches apart, and the rows three feet apart, the tall varieties staked up by brush. For an early crop, sow as soon as the ground can be worked, and make repeated sowings every two weeks for succession. A quart is sufficient for a row of about eighty feet.

PEPPER

Package 10 Cents

German, Pfeffer; French. Piment; Spanish, Pimento.

PEPPERS.

H-Hot—S-Sweet

	Per oz	¼ lb.
Ruby King. S. Very large; bright red	\$0.50	\$1.50
Large Bell or Bull Nose. H. An early variety of mild flavor	.60	1.75
Sweet Mountain or Mammoth. S. Of large size, best for mangoes	.50	1.50
Chinese Giant. S. Double the size of Ruby King. This is the largest and finest mild Red Pepper. Flesh is thick and unusually mild. Productive bearer	.75	2.50
Long Red Cayenne. H. Used for Pepper sauces; very pungent	.50	1.50
Chili. H. Very piquant and prolific, fruit conical, bright scarlet	.60	1.75
Hot Mango Pepper. H. Very Hot, best for Pepper Sauce and Pickling	.50	1.75
Neapolitan. S. Early	.50	1.50

The Pepper or Capsicum is valuable for its seasoning qualities, as well as for pickling. Sow early in heat and transplant when the weather is warm and settled, or sow in warm situation in the garden about the middle of May. Plants should be set a foot and a half apart.

POTATOES

German, Kartoffel; French, Pomme de Terre; Spanish, Petata.

Houlton Rose. The standard variety. Early	Prices on application.
Houlton Green Mountain. Late variety, good keeper, white and mealy	
Houlton Irish Cobbler. Very early, round white; good winter keeper	

NOTICE

(JUST AROUND THE CORNER)

SEMESAN, the NEW Du Pont Mercuric Disinfectant

Prevents and Controls Fungous Diseases, Quickens Seed Germination, Invigorates Seedling Growth, Produces Sturdier Plants, Increases Crop Yield.

Semesan. Quickens germination and increases the percentage of germination in seeds; produces stronger and more vigorous plants that will produce better crops; arrests or destroys most of the fungus and bacterial diseases carried on the surface of seeds and plants as well as some that infest the soil. Use it to destroy smut in grains, angular leaf spot in cotton, wild fire in tobacco, potato scab and black rot, blights, anthranose and black leg in many garden vegetables. 2 to 3 ounces will treat a bushel of grain; 1 ounce treats 15 pounds of tobacco and vegetable seeds.

**2 Oz. Pkge. 60c; 8 Oz. Pkge. \$1.60;
1 Lb. Pkge. \$2.75; 5 Lb. Pkge,
\$13.00. Cannot Be Mailed**

Lime, Hydrated

Finely Pulverized

The value of lime as a soil improver is so well known that little need be said about it here. Although it possesses little fertilizing value in itself, it is indispensable for correcting acid soils, improving the mechanical condition of the soil, for grass, farm crops. Acting very quickly.

50 Lbs. 90c; Ton \$20.00

PUMPKIN

Package 5 Cents

German, Kuerbis; French, Cource;
Spanish, Calabaz a Tetanera.

CHEESE PUMPKIN.

	Per oz.	¼-lb.	lb.
Calhoun. Flesh wonderfully thick, fine grained.....	\$0.15	\$0.45	\$1.50
Large Cheese. The best variety, hard and productive	.15	.40	1.25
Connecticut Field. Very productive, largely grown for feeding stock	.15	.40	1.25
Mammoth Tours. Grows to an immense size	.15	.45	1.50
Early Sugar. Fruits medium size, of excellent keeping quality. Flesh very sweet	.15	.35	1.25

These are usually in fields of Corn or Potatoes, but may be profitably raised in fields by themselves. Sow in May; in hills eight feet apart.

RHUBARB

Package 5 Cents

German, Rabarber; French, Rhubarbe; Spanish, Ruibarbo.

We would like to have you inspect our large clumps of Rhubarb which we receive daily from our local grower. Spec. price 15c per clump.

Victoria. Very large, later than Linnaeus..... .20 .50

Sow early in spring, in drills a foot apart, thinning out to about the same distance apart in the rows when a few inches high. In fall or following Spring, transplant into deep, rich soil, about three feet apart each way.

RADISH**5 Cents Package**

German, Retting; French, Radis; Spanish, Robanitos.

Special price to Market Gardeners in quantity lots. Get our Market Gardeners Price List

	Per oz.	¼-lb.	lb.
Early Scarlet Globe. The standard market radish. Our strain is unsurpassed for earliness; rich color and uniform shape	.15	.40	1.25
Early Scarlet Turnip. The standard variety, of quick growth, mild and crisp when young	\$0.15	\$0.40	\$1.25
Early Scarlet Turnip. (Forcing) variety, maturing in three weeks	.15	.40	1.25
Early Scarlet Turnip, White tipped. A beautiful new early kind, round in shape; color scarlet, tipped with white, a favorite for market gardeners .	.15	.40	1.25
Olive Shape Deep Scarlet	.15	.40	1.25
French Breakfast. Of quick growth, very mild and tender, of oval form; color scarlet, tipped with white	.15	.40	1.25
Long Scarlet. One of the leading market kinds.	.15	.40	1.25
Rose China Winter. Flesh firm and piquant; excellent for winter use	.15	.40	1.25
White Summer Turnip. A summer variety of mild flavor	.15	.45	1.25
Black Spanish Winter. Long, one of the hardiest and best for winter use	.15	.40	1.25
Half Long Black Spanish	.15	.40	1.25
Black Spanish. Round	.15	.40	1.25
White Strasburg. Very large German sort	.15	.35	1.00
White Vienna or Lady Finger. Crisp and tender in summer	.15	.35	1.00
Icicle. Long, pure white, suitable for forcing	.15	.40	1.25
Sparkler. Standard variety, with round roots, top half of which are deep scarlet and lower half pure white. Solid and crisp, very attractive	.15	.40	1.25

There are two classes of Radishes, those for Spring and Summer use, which are small and arrive quickly at maturity, and with proper care can be kept all winter. The summer radishes should be used while young and tender; if allowed to grow too long they become tough and stringy; they thrive best in high rich soil. For a successful supply, sow from the middle of March until September, at intervals of two or three weeks. For an early supply they may be sown on a mild hotbed in February. The winter varieties may be sown from the latter part of July to the middle of September.

RAPE

Italia Broccoli Rape	4.00
-----------------------------------	------

SORREL**10 Cents Package**

Used for Salad—Has an acid flavor—or it may be cooked same as spinach	oz.	¼-lb.
Large French	.25	.75

SPINACH**5 Cents Package**

German, Spinat; French, Epinard; Spanish, Espinaca

Special price on lots of 5, 10 and 25 lbs.

	Oz.	¼-lb.	1-lb.
Long Standing, Round Leaved	\$0.15	\$0.20	\$0.40
Large Viroflay. A new variety, with leaves much larger and thicker than the old variety	.15	.20	.40

SPINACH—Continued

	Per oz.	¼-lb.	lb.
Imperator. Our Imperator Spinach is of the long standing without going to seed type, very dark green leaved, growing close to the ground, rather later in growing than Savoy but very attractive having a very heavily crumpled leaf and standing for a very long period without going to seed	.10	.25	.50
Bloodsdales Savoy Leaved. A large, curled, thick leaved variety, the market gardener's favorite.....	.10	.20	.40
Virginia Savoy Yellows or Mosaic Disease Resistant. A variety originated by the Virginia Truck Experiment Station, a cross between Resistant Bloodsdales Savoy and Manchurian. This is a cool weather variety, for winter in the South and fall in the North. The leaves have markedly the Savoy characteristics	.15	.35	.75
New Zealand. Produces leaves in great abundance throughout the summer, should be raised in heat and transplanted three feet apart each way into light rich soil	.10	.25	.75
King of Denmark Spinach. Large flat tufts. Early. Good keeper. Will stand 2 to 3 weeks longer than the very best long standing variety	.10	.20	.50
New Spinach (Princess Juliana). This is a new type of "Long Season" Spinach. The leaves are of good size, very dark green, well crumpled and thick. The first plants of Spinach to bolt to seed are the male plants. (Spinach is generally dioecious, i. e.; these are male and female plants.) This first bolting seed has been eliminated in this new race by the production of hermaphrodite plants, these plants seeding much later than male plants	.15	.35	.75

Sow in fall for spring use, in drills a foot apart, thinning out the plants to three inches apart in the rows. Spinach is very hardy and does not require protection except in very exposed places, where a covering of straw or leaves is useful. For summer use sow as early as possible in spring, and at frequent intervals, during the season for succession.

SALSIFY, OR OYSTER PLANT

Package 10 Cents

German, Bocksbart; French, Salsifis; Spanish, Salsifi.

Mammoth Sandwich

Island \$0.30 \$0.85 \$2.75

This very nutritious vegetable requires the same cultivation as Carrots or Parsnips. It is quite hardy and the roots may remain in the ground all winter; a quantity can be taken up and packed in earth or sand, and stored away for use when needed. It makes a fine soup, like the oyster. It is also half-boiled, grated fine, made into small balls, dipped into butter, and fried.

SQUASH—Package 5 Cents

Mammoth Summer Crookneck. Twice size of Summer Crookneck	\$0.20	\$0.50	\$1.50
Early Golden Bush Scalloped. True bush growth producing fruit ready for use early in the summer	.15	.45	1.50
Early White Bush Scalloped. A white variety of the above	.15	.45	1.50
Summer Crookneck. Early, productive and of good quality.....	.20	.45	1.40
Boston Marrow. A very valuable medium early variety, an excellent keeper and of superior quality.....	.15	.45	1.50
Golden Hubbard. The best Winter Squash, fine grained, dry, keeps well and is of excellent flavor	.20	.50	1.50

Mammoth Chili. Grows to a large size, often weighing two hundred pounds. Excellent for stock	.25	.50	1.75
Vegetable Marrow. A favorite English sort, skin greenish yellow, flesh white, soft and rich flavor	.20	.50	1.75
Italian (Cocozella di Napoli) grows 20 inches long with diameter of 3 or 4 in. Green or Marbled Yellow.	.25	.50	1.75

SQUASH—Continued.

Squashes are divided into two classes, Summer and Winter. The Summer varieties come into use about midsummer, and are eaten when the rind and flesh are young and tender. The Winter varieties are left on the vines until they are thoroughly ripe, gathered in the Fall, and stored away for Winter use. If well ripened and kept in a good cellar, they can be preserved until May. Prepare hill for the seeds by incorporating two or three shovelfuls of well rotted manure with the soil for each hill. For the bush varieties, from three to four feet each way, and for the running sorts from six to eight feet. Eight or ten seeds should be sown to each hill, thinning out after they have attained their rough leaves, leaving three or four of the strongest plants.

SWISS CHARD OR SILVER BEET

5 Cents Package

SWISS CHARD.

Silver Leaf. This is a Beet producing leaves only of a quality superior to those of the ordinary Beet, and excellent greens. Cultivate about the same as spinach, by sowing in early spring in drills about a foot apart. Oz., 15c; $\frac{1}{4}$ lb. 35c; 1 lb. \$1.25.

Giant Lucullus. Large, crinkled leaves; tender and of fine flavor; dark green; pure white ribs. Oz., 15c; $\frac{1}{4}$ lb., 35c; 1 lb., \$1.25.

TOBACCO

Package 10 Cents

Connecticut Seed Leaf. This variety is best adapted to the climate of the Northern and Middle States. Oz., 50c; $\frac{1}{4}$ lb., \$1.75.

Havana. Imported Seed, Vuelto de Abbajo. Per oz. 75c; $\frac{1}{4}$ -lb. \$2.75.

TOMATO

10 Cents Package

German, Liebesapfel; French, Tomato; Spanish Tomata.

	Per oz.	$\frac{1}{4}$ -lb.

.15	.35	.85
-----	-----	-----

White or Sweet German. A large solid variety.

.15	.25	.85
-----	-----	-----

Laing's Improved, Globe-Shaped, with small top and tap root.

.15	.25	.85
-----	-----	-----

For spring crop commence sowing early varieties as soon as the ground can be worked, in drills fourteen inches apart; thin out the plants to five or six inches apart. Keep clear from weeds, and when the bottoms begin to enlarge, brush away the earth from about the roots the depth of an inch or more and give them a light dressing, of wood ashes. This is the surest mode of obtaining fair and smooth Spring Turnips in old gardens where they are almost certain to grow wormy if the earth is allowed to remain in contact with the roots. It is important to get them started very early so that they may have time to grow a sufficient size before very hot weather, when they will soon become tough and strong. For the Fall and main crops, sow from the middle of July to the last of August in drills as directed for the Spring sowing. In the field, Turnips are more generally sown broadcast though much larger crops are obtained by drill culture.

SWEET POT AND MEDICAL HERB SEEDS

Herbs are valuable for culinary and medicinal purposes, but they do not always receive the attention which they deserve. They are easily grown, and when preserved by drying are ready for use at any season of the year. Sow in Spring as soon as the weather is warm, and thin out as the plants grow up.

	Pkg.	Oz.
Anise (<i>Pimpinella anisum</i>), an annual, cultivated for its seeds and its leaves, which are used for garnishing and for seasoning.....	\$0.10	\$0.25
Balm (<i>Melissa officinalis</i>), a hardy perennial, used for making balm tea and balm wine	.10	.35
Basil, Sweet (<i>Ocimum basilicum</i>). This is a tender annual, cultivated for its leaves, which are much used for flavoring soups and sauces	.10	.30
Borage (<i>Borago officinalis</i>), hardy annual, sometimes used as a pot herb, and also for garnishing, but chiefly for claret cup and other cooling drinks. Bees are very partial to the flowers	.10	.35
Caraway (<i>Carum cauri</i>), hardy biennial, cultivated for its seeds, which are largely used in various kinds of confectionery and for giving flavor to liquors.....	.10	.20
Coriander (<i>Coraindrum salivum</i>), an annual, raised for its seeds, which are used by confectioners, and sometimes to disguise the taste of medicine	.10	.25
Dill (<i>Anethum graveolens</i>), annual, the leaves are used in soups and sauces, and the seeds are sometimes added to pickle cucumbers to heighten their flavor. Medicinally they are good for flatulence and colic in infants, ¼-lb., .50; 1 lb., 1.25	.10	.20
Sweet Fennel (<i>Anethum foeniculum</i>), hardy perennial, leaves used for garnishing, and in the preparation of various fish sauces.....	.10	.25
Florence Fennel. An excellent salad plant and is also boiled. The flavor is somewhat spicy. ¼-lb., .60; 1 lb., 1.75	.10	.30
Horehound (<i>Marribium vulgare</i>), hardy perennial	.10	.40

SWEET POT AND MEDICINAL HERB SEEDS—Continued

	Pkg.	Oz.
Lavender (<i>Lavandula spica</i>), a popular aromatic herb	\$0.10	\$0.30
Marjorum, Sweet (<i>Origanum Majorana</i>), for seasoning	.10	.50
Rosemary (<i>Rosmarinus officinalis</i>), an aromatic herb	.10	.50
Rue (<i>Ruta graveolens</i>), used for medicinal purposes, also frequently given to fowls for the roup	.10	.60
Sage (<i>Salvia officinalis</i>), much used for flavoring articles of cookery. It is also possessed of medicinal virtues. Tea made from its leaves is a soporific; causing profuse perspiration,.....	.10	.50
Summer Savory (<i>Satureia hortensis</i>), annual. It has medicinal and culinary uses. Its aromatic leaves are much esteemed in salads and soups	.10	.30
Thyme, Broad Leaved English , hardy perennial. Thyme is used in various ways for soups, sauce and dressings, and a tea is made of the leaves which is a great remedy for nervous headaches	.10	.50
Wormwood (<i>Antemisia abietnum</i>), used for medicinal purposes; it is also beneficial to poultry and should be planted in poultry grounds	.10	.35

Our Celebrated Lawn Grass Seeds

Lawns like this can be produced by sowing Lawn Grass Seed.

NOTICE

On and after September 1st we will be at our new location, at 89 Van Houten Street.

(JUST AROUND THE CORNER)

ABOUT LAWNS AND LAWN GRASS SEED

FORMATION OF LAWNS FROM SEED.

There is nothing more attractive than a well kept lawn.

Many things are to be considered in connection with the making and proper care of lawns. A good lawn cannot be made in one season, success coming only through intelligent care for a period of years.

The ground should be thoroughly drained and well prepared. The soil ought not to be too rich, as a rapid growth is not wanted in the grasses of a lawn; but the surface should be as much alike in quality as possible and thoroughly pulverized. After sowing, the ground should be rolled and cross-rolled in order to press the seed firmly into the soil, and ten days or so thereafter a light application of Muzzy's Lawn Fertilizer mixed with an equal quantity of good loam or sand, will serve to stimulate the growth of the young grasses. The proper time to sow grass seed depends, of course, upon the latitude. In the central and eastern states from March 15 to the middle of May is the best time; but in favorable seasons the sowing may be done up to July 1. Seed may also be sown in the Fall, from the latter part of August to the end of September. The sowing should be done when the ground is moist, or before an expected rain, and a subsequent rolling is always advisable. As to weeds in newly-made lawns, it may be generally known that many weed seeds actually lie dormant in the ground for six or seven years and will germinate and make their appearance when the soil is turned up. The annual wild grasses, such as crab grass or Summer grass, must be pulled up by the roots before they ripen their seed in the Fall.

Rolling.—As soon as the frost is out of the ground in the Spring, the land should be gone over with a heavy roller. Winter frosts loosen the soil, and rolling is necessary to compress it again. Roll frequently.

Mowing.—All turf-forming grasses are improved, both in vigor of root-growth and in fineness of texture, by frequent mowings. It is impossible to say just how often the grass should be mown, as that depends upon the rate at which it grows. Too close cutting should be guarded against, however, especially during the hot Summer months, when the roots require some top-growth to protect them from the burning sun. A good top growth is also necessary to protect the roots from severe Winter frosts.

It is a good plan to sow on good land, in any out-of-the-way place, strips for sod to be used for patching poor parts of the lawn, or for grass borders, etc. The best mixture of seed for this purpose is *Cynosurus cristatus* (Crested Dog's-tail). Kentucky Blue Grass and Fancy Red Top.

OUR CELEBRATED LAWN GRASS

	½lb.	1lb.	2lb.	5lb.	20lb.
Standard Lawn Grass. Composed of a mixture of the finest grasses; sow three bushels per acre	\$0.30	\$0.50	\$1.00	\$2.25	\$8.00
Velvet Lawn Mixture. This extra choice mixture contains a large proportion of the finer and more expensive special of grasses, in extra heavy samples, producing a turf of the closest and finest texture possible	.35	.65	1.20	3.00	11.00
Shady Lawn Mixture. A mixture of grasses that thrive in shady situations, under trees, or close to walls where there is little sun	.35	.65	1.20	3.00	11.00
Special Lawn Mixture. Adapted specially for new ground; that is, when no lawn existed. It grows quick and abundantly. It has the finest grass	.35	.65	1.20	3.00	10.00

QUANTITIES TO BE USED

Plot 20 feet by 20 feet, sow 1 pound.

Plot 25 feet by 100 feet, sow 6 pounds.

Plot 25 feet by 50 feet, sow 3 pounds.

Plot one acre, sow 80 pounds.

For large lawns, where turf has become bare through constant use, it is only necessary to sow fresh seed at the rate of one to two bushels to an acre.

Grassland

If the story of Grassland could ever be fully told, a wonder of nature would develop before your eyes that would surpass any imaginative fiction.

It's a wonderful place—Grassland—endowed with beauty of character and grace which only a God could give it. We sweep a handful of tiny brown specks over an ugly bare spot—and lo—it begins to live. It soothes and calms weary eyes from its first tiny sprout. Ultimately it charms and captivates all men. Developed into a rich carpet of softest velvet, we find it everywhere.

However, this heritage, rich though it is, is sometimes wantonly wasted and often the most elementary principles regarding its care are disregarded.

Yet its care is so easy and simple.

Take your own lawn as an example.

Look at it just as it is today! There are brown spots here and there; bare spots; even little places where moss has gained a foothold; and weeds.

Then compare it with some of those wonderful places you pass along the road where the lawn always seems bright, clean and crisp; and is always the freshest looking green spot in all the land.

That good looking lawn is alive. Your lawn where the brown spots are, is dead; where the weeds are, it's dying; where the moss is, it's ruined—and all for the lack of a little care. (G.)

Our Celebrated Lawn Grass Mixtures have a sustained reputation, covering many years. With our long experience and carefulness we are in a position to give our customers the right seed for the condition that exists in their particular case.

What About Your Lawn?

Your Flowers Need Food

Flowers are delicate, tender, living plants that need food as well as water. Like you and me, they eat, drink and breathe. Water them well, **FEED** them properly, and they will flourish with increased health and beauty.

Bowker's Lawn and Garden Dressing, manufactured by The American Agricultural Chemical Company especially for use with flowers, shrubs, and bushes, is a complete plant food, containing all the essential elements, good health, and beauty of blossom and foliage. Bowker's Lawn and Garden Dressing is put up in 10, 25, 50 and 100 lb. bags. As easy to handle as sugar and salt. Use Bowker's Lawn and Garden Dressing Liberally and make sure your flowers get all the food necessary to develop the fullest, fairest life. It is cheaper than manure, cleaner, and more effective. Directions with each package.

10 lbs. 90c; 25 lbs. 1.50

SOLD BY WILSON S. BROWER CO., Inc.

HOW TO APPLY BOWKER'S LAWN AND GARDEN DRESSING

For annual flowering plants Bowker's Lawn and Garden Dressing should be broadcasted after spading the soil at the rate of 10 to 20 pounds per thousand square feet. Rake thoroughly in such a manner as to mix it well with the upper two to five inches of soil. Wait for a rainfall before planting. For perennials, roses, and shrubs, scatter three or four handfuls over the root area of each plant, keeping it away from the stalks or butts. If not on a lawn, the fertilizer should be worked into the soil to a depth of two or three inches.

50 lbs. 2.50; 100 lbs. 4.50

What a difference a few of these magic tablets make!

Picture a plant—struggling gallantly but vainly—in a feeble, fruitless search to find food in soil that contains none. Faded, drooping, flowerless, **you** call it a failure. But is it?

A few of the magic plant food tablets called Plantabbs would have made this pathetic little plant a big success!

We now sell and recommend Plantabbs. Odorless, clean, easy to use, they're Trojans for work. A forkful of stable manure won't do as much for your plants and flowers as one of these concentrated, odorless white tablets! As they dissolve in water almost instantly, they make a wonderful liquid fertilizer, and when used in this way make the most wornout soil rich and fertile **overnight**.

Plantabbs are so perfectly balanced, so **chuck full** of growth producing, health giving, energizing plant food, that many florists and professional growers purchase them in quantities for their own use.

To raise potted plants of amazing beauty, to enjoy a gorgeous garden with a profusion of brilliantly colored blooms, to raise tender succulent vegetables, use Plantabbs! Leading horticulturists and State Agricultural Departments approve them—and **we guarantee** to refund your money if they fail to benefit your plants when used according to the instructions which come with each package.

A season's supply for your garden costs only \$3.50; other sizes sufficient for potted plants, sell for \$1.00, 50c. and 25c per package. Include in your next order.

Turn Garden Refuse Into Rich Manure

Do not destroy garden refuse. It represents more than half the yield of the soil. By the simple ADCO process it can be converted into manure and turned back to nourish that same soil.

Anybody can use ADCO, and every good gardener should use ADCO. Nothing takes the place of manure, and with ADCO you can make quantities of it, rich, odorless and clean.

25 Lb. Bags \$2.00
100 Lb. Bags \$7.00

GRASS SEEDS

Per 10 lbs. 1 lb.

Hard Fescue (<i>Festuca duriuscula</i>), admirable pasture grass of fine quality, thrives well in dry situations. 30 lbs. to the acre	Market Price
Meadow Fescue (<i>Festuca pratensis</i>), this is excellent for hay when sown with other grasses, such as Orchard Grass and Timothy, and is also considered one of the greatest grasses for permanent pasture on a great variety of soils. 40 lbs. to the acre.....	Market Price
Sheep's Fescue (<i>Festuca ovina</i>), does well in high, dry and open pastures, is of short, dense growth, and valuable in lawn mixtures, 30 lbs to the acre.	Market Price
Orchard Grass (<i>Dactylis glomerata</i>), is one of the most desirable of all pasture grasses, coming early in the Spring and remaining later in the Autumn than any other. 3 bu. to the acre. 14 lb. bu.	Market Price
Fancy Red Top Grass , cleaned like Timothy; free from chaff	Market Price
Rhode Island Bent Grass (<i>Agrotis Tennis</i>), best of all grasses for lawn where only one variety is used.....	Market Price
Rye Grass English (<i>Lolium perenne</i>). Probably one of the most important and valuable of the cultivated grasses; is naturally adapted to almost any soil; matures early, and is very productive, but contains less nutrition than Orchard Grass.....	Market Price
Rye Grass Italian (<i>Lolium Italicum</i>). This ripens much sooner than the English Rye Grass, and is greatly preferred by cattle and greedily eaten by them, either in a green or dry state.....	
Tall Meadow Oat Grass (<i>Avena Elatior</i>). As a crop to cut for hay, this is very desirable because of its early and luxuriant growth. It shoots up very quickly after being cut, and produces a thick crop of aftermath, which also makes it valuable as a soiling crop. It has been lately in demand and is much valued in the South.....	Market Price
Timothy, Herd's Grass (<i>Phleum pratense</i>). As a crop to cut for hay, this is probably unsurpassed. It thrives best on moist, peaty or loamy soils, and is not suited to light or sandy soils, although on such it can with care, be made to produce fair crops. Price according to market, 45 lbs. to bu..	Market Price.
Wood Meadow Grass (<i>Poa nemoralis</i>). This grass grows well both on shady and exposed situations. 30 lbs. to the acre	Market Price
Tall Oat Grass (<i>Avena Edatior</i>), good for dry pastures and meadows. Is much relished by sheep.....	Market Price
Golden or German Millet . This variety is a heavier cropper than the Hungarian Grass, and needs a longer season and stiffer soil. Grows from three to five feet high, stands up well, is easily cured; gives general satisfaction. Three pecks to the acre. Per bushel of 48 lbs.	Market Price
Japanese Millet . This wonderful Millet yields possibly more fodder than any other forage plant that requires so little to sow an acre. Frequently as high as 12 tons of green food have been obtained from an acre. It is somewhat coarse in texture, growing sometimes as high as 8 feet; it is, however, ideal for silo or hay purposes. If sown early in May, it may be cut twice in one season. It branches out at the roots, and more than 12 lbs. per acre broadcast cannot be sown to advantage. Sow any time from May 1 to June 15.	Market Price
Hungarian Grass . A valuable forage plant, succeeds well on dry, light soil; withstands the drought remarkably, remaining green when all other vegetation is parched up, and if its development is arrested by dry weather, the least rain will restore it to vigor. Sow broadcast. Three pks. to the acre Per bushel of 48 lbs.	Market Price

Prices on above subject to market fluctuations without notice.

GRASS SEED—Continued.

These Prices are Subject to Variation.

	Per 10 lbs.	Per lb.
Blue Grass Kentucky (<i>Poa pratensis</i>), extra clean; does well on light dry soils; recommended for permanent pasture; it requires two or three years to form a good sod, and does not arrive at its perfection as a pasture grass until it is much older; valuable in mixtures for lawn. 14 lb. bushel.....	Market Price	
Blue Grass Canada. Little coarser than Kentucky	Market Price	
Creeping Bent Grass, Florin (<i>Agrotis stolonifera</i>), used for lawns, well adapted to most places	Market Price	
Crested Dogtail (<i>Cynosurus cristatus</i>), good for permanent pasture for sheep, is productive and early, suffers but little from dry weather, and is one of the best grasses for lawns, 25 lbs. to the acre	Market Price	

CLOVERS

(Subject to Variation in Price).

Red Clover. Medium (<i>Trifolium pratense</i>). Price variable, 60 lbs. to bushel.	Market Price
Red Clover, Large or Pea Vine. Price variable	
White Clover. (<i>Trifolium repens</i>)	
Alfalfa or Lucerne. Requires a deep rich soil, and in such will produce several crops every season. Fifteen pounds to the acre.....	
Alsike or Swedish (<i>Trifolium hybridum</i>). Ten pounds to the acre.....	
Crimson or Italian (<i>Trifolium incarnatum</i>), sown in Autumn, it furnishes an early fodder and is excellent for soiling. Twenty pounds to the acre. Price variable.....	

MEADOW AND PASTURE MIXTURES

The formation of permanent and productive meadows and pastures is of great value to farmers, and has been given thorough study by numerous experts, resulting in formulas that will give good results under the varying conditions of our climate.

It is a well known fact that a heavier and more prolonged growth is produced by a mixture of many sorts of grasses than by only one or two. Some sorts do best on high, dry soil, while others prefer plenty of moisture. Some mature so early and others so late that there is no time in the season when one sort or another is not at its best. Grass seed may be sown either early in spring or fall, from September to the middle of October in this latitude. Below we give mixtures that we are confident will give good results.

MEADOW MIXTURE FOR ONE ACRE

No. 1. On Good Land,
Neither Too Dry nor Too Wet

Price 15.00 for 40 lbs. Sow 40 lbs. to the acre

No. 2. For High and Dry Land.

Price 15.00 for 40 lbs. Sow 40 lbs. to the acre

No. 3. On Wet Land

Price 15.00 for 40 lbs. Sow 40 lbs. to the acre

PASTURE MIXTURE FOR ONE ACRE

No. 4. On Good Land.
Neither Too Wet nor Too Dry.

Price 15.00 for 40 lbs. Sow 40 lbs. to the acre

No. 5. On Dry Land

Price 15.00 for 40 lbs. Sow 40 lbs. to the acre

No. 6. On Wet Land

Price 15.00 for 40 lbs. Sow 40 lbs. to the acre

GRAINS

All grains are selected expressly for seed, and are strictly pure and true to name.

Sold at Market Prices and Subject to Change.

SPRING WHEAT, 60 lb. Bushel.

Marquis Spring. This variety has been grown with great success for a number of years in Canada, and is very highly recommended, is bearded, yields well and the kernels are larger than those of other Spring varietiesMarket Price.

White Russian. This variety, recently introduced, has proved very valuable in many localities in the Northwestern States. Straw of good length, strong, does not lodge. It is not inclined to rust. Heads of large size and well filled with plump kernels weighing 60 to 63 lbs. to the bushel. Has produced 40 to 50 bushels to the acre..... Market Price.

WINTER WHEAT, 60 lb. bushel.

Red Man. Also known as the Seneca. This is a beardless white wheat. It proves early and hardy, has a stiff straw, yields larger crops than any otherMarket Price

Fultz. A beardless amber variety, grown largely in some sections of Pennsylvania and with very satisfactory results. It is very hardy and productive, and the straw is of medium length and very strong; makes excellent flourMarket Price

Red Mediterranean. (American). This is the imported variety fully acclimated and is a standard wheat. The heads are bearded and well filled. It succeeds well in nearly all localities and ripens earlyMarket Price

OATS, 32 lb. bushel.

SWEDISH. Very popular and standing well until fully ripe

Spring and Winter Rye, 56 lbs. to Bushel

SPRING BARLEY, 48 lb. Bushel

Vermont Champion (two rowed)

BUCKWHEAT, 48 lb. Bushel.

Silver Hull. This variety is a great improvement on the common Buckwheat. Sown at the same time it will continue to bloom longer, matures a few days sooner, and yields nearly or quite double under the same conditions.

JAPANESE BUCKWHEAT.

Yields twice or three times as much as Silver Hull and ripens a week earlier

General List of Flower Seeds

CULTIVATION OF FLOWER SEEDS

HARDY ANNUALS

Successive sowing may be made from March to the end of September; March, April and May are the best months for general Summer display; June and July for Autumn blooming, and August and September for Spring flowering. The soil should be carefully prepared by being finely pulverized and made light and rich.

Sow thinly; cover with a very thin coat of fine dry earth—the smallest seeds needing but a mere dusting to cover them—and from the first keep the plants thinned sufficiently to prevent overcrowding, which weakens them and produces poor blooms.

HALF HARDY AND TENDER ANNUALS.

These include some of the most beautiful and varied of our Summer flowers, among which may be mentioned Asters, Balsam, Ten Weeks Stocks, Phlox, Drummondii and Double Zinnia, which in form, size and brilliancy of flowers, and their great diversity of color, are now brought to a high state of perfection.

Sow from the beginning of March to June; when sown in March and early part of April, sow thinly in well-drained pots, pans or boxes; place in the greenhouse or a frame where there is a mild heat, or in the absence of these a sunny window in the house will do; cover the seeds lightly, press down the soil firmly and give a gentle watering with a fine rose watering pot.

Separate the plants when large enough to handle, and firmly plant out in May, as soon as the weather is sufficiently warm where intended to flower. The seed can be sown in the open ground in May and June.

HARDY BIENNIALS AND PERENNIALS.

These can be grown at all seasons of the year in the open garden without protection, and may therefore be placed among the most useful of our flowering plants their variety is almost endless, producing almost every form of flower and shade of color.

The seeds may be sown from May to October, but the best time is in May and June. Select for sowing a shady, moist situation, and in order to secure fine, strong plants, sow thinly, and as soon as large enough transplant in showery weather to nursery beds, and finally plant out in October and November, those sown in Autumn are best planted out in March or April, where intended to flower. Many Perennials, if sown early and treated as Annuals will flower the first season. The Pansy, Petunia, China Pink and its several splendid varieties, and many others do better as Annuals than Perennials.

ANNUALS FOR WINTER BLOOMING

Many Annuals are very desirable for the greenhouse for Winter blooming; these should be sown in July or August. The most important are Browallia, Candytuft, German Stocks, Lobelia, Mignonette, Schizanthus, Sweet Alyssum and Dwarf Nasturtiums. Many varieties as well as the above may be sown in the Fall and Winter for blooming early in the Spring, such as *Acroclinium*, *Ageratum*, *Antirrhinum*, Apple-scented Geranium, China Pinks, *Dianthus*, *Mimulus*, *Myosotis*, Pansy, Petunias, Phlox Drummondii, *Salpiglossis*, *Salvia*, *Verbena*, *Vinca* and others.

Abbreviations and Signs used in the following list

A. Annual, refers to those plants that last but one season and must be raised annually. B. Biennial, raised one year, bloom and die the next. P. Perennial, lasts two or more seasons. h. Hardy, as those that may be grown at all seasons in open air, without protection. hh. Half hardy, require the protection of a frame pit; or handlight till May, when they may be transferred to the open garden.	t. Tender, require to be raised and grown under glass, and will only do in the open air in July, August and September. cl. Climbing, as Cypress Vine, Morning Glory, etc. spr. Spreading or trailing as Verbena. g. Greenhouse, those plants which require to be grown under glass. s. Shrubs, plants of a shrubby or bushy habit.

Those Biennials, and Perennials marked with an (*) will bloom the first year if sown early.

Early Flowering Spencers—Sweet Peas are annually becoming more popular with Florists, both for growing under glass and outdoors. In some localities these Early Flowering Spencers have displaced the original or later flowering type for outdoor planting. Reports from those in the Seed Trade who supply the most critical Florists with their planting stock speak most enthusiastically as to the pureness and quality of our stocks.

TOYS

We carry in stock a full line of children's toys which we do not list in our catalogue.

On or after September 1st we will be at our new location at 89 Van Houten St. (Just Around the Corner).

HIGH GRADE FERTILIZERS

POINTER POTATO MANURE

The great satisfaction this Fertilizer has given our customers, being so universal, enables us to recommend it as the Leading Artificial Manure in the Market.

GUARANTEED ANALYSIS

Ammonia	4 per cent.	
Available Phos. Acid	8 per cent.	Ton (12 bags) \$52.00; per bag, (167 lbs.), \$5.00
Potash	7 per cent.	

Muriate Potash, 50 lbs. \$2.25; 100 lbs. \$4.00; Ton \$65.00

BLACK HAWK MANURE

High grade general Fertilizer for all Crops.

GUARANTEED ANALYSIS

Ammonia	4 per cent.	
Available Phos. Acid.....	8 per cent.	Ton (12 bags), \$48.00; per bag, (167 lbs.), \$5.00
Potash	4 per cent.	

UNEXCELLED SPECIAL FERTILIZER

We recommend this fertilizer for a general line of crops, and consequently the trucker and market gardener is interested in buying that fertilizer which for the least cash outlay, will bring him the best returns; as it is no longer a question, but an actual fact, that from first class material, like our special Fertilizer, the purchaser will get the best results.

Equal to Ammonia	2 per cent.	
Available Phos. Acid	8 per cent.	Ton (12 bags), \$40.00; per bag (167 lbs.), \$4.00
Potash	5 per cent.	

FINE GROUND BONE

AN EFFICIENT AND PERMANENT DRESSING FOR LAWNS; ODORLESS

(JUST AROUND THE CORNER)

HIGH GRADE FERTILIZERS—Continued.

HYPER HUMUS

Decayed vegetable matter for lawn, Rhododendron, bulbs, flowers, etc. Good top dressing for the spring.

Price, per ton.....\$25.00 Per 100 lb. Bag \$2.00

Springfield Rose Food

AN organic fertilizer, containing the vital elements of plant life in scientifically correct proportions to make it an ideal food for roses. Will keep your bushes in splendid condition and produce an abundant crop of perfect blooms.

Enthusiastically acclaimed by leading commercial growers and by members of the American Rose Society in all sections of the country.

10 lbs.	\$1.00
25 lbs.	2.50
100 lbs.	5.50

NITRATE OF SODA

A fertilizer for all crops. It is very quick in action, and hastens maturity of crops fully two weeks. Being extremely soluble, it should not be applied until the crops are above the ground when 100 pounds per acre should be sown mixed with wood ashes. Does not exhaust the land.

1 lb. bag	\$0.12	25 lb. bag	\$1.75
5 lb. bag	.50	50 lb. bag	3.00
10 lb. bag	.90	100 lb. bag	5.00
167 lb. bag, \$7.00		1 Ton. \$78.00	

ACID PROSPHATE

14 to 16 per cent. Available Phosphoric Acid.

This is one of our Fertilizers which is used in the largest quantity in most of our mixtures as a base.

Per ton\$30.00 Per 167 lbs. \$3.00

Pulverized Limestone

These are high calcium limes and are adapted for use on all soils that require sweetening. Most lawns and gardens require an application of lime in some form.

The Ground Limestone is recommended for top dressing lawns and for all farm crops.

Leguminous crops such as Alfalfa, Clover, Peas and Beans in particular require applications of lime.

Ground Limestone packed in 80 lb. sacks, price \$1.00; \$15.00 per ton.

American Ready-Lite Lamp and Lanterns

Light With Matches—No Alcohol Torch Necessary

“The Sunshine of the Night”

Ready-Lite With Special Design
OPAL SHADE

Gives a brilliant white light of 300 candle power, softened and diffused by the opal shade, making it restful and pleasing to the eyes. The best lamp to read, study or work by and an ornament in any room. Height 20 inches, diameter of fount $8\frac{1}{2}$ inches; capacity 3 pints; burns 18 to 20 hours on one filling. Packed in corrugated box with pump, wrench, tip cleaner, mantles and one extra generator. Each\$8.50

Ready-Lite Lantern With Mica
Chimney and Reflector

The New Ready-Lite marks a great improvement in gasoline lanterns, especially in the construction of the generator. This new match-lighting generator has no coils to obstruct and hold impurities in the gasoline and will give unusually long service. It is very inexpensive and may be replaced quickly without breaking the mantle. The New Ready-Lite is more substantially built, better finished than similar lanterns. Price\$6.98

READY-LITE ADVANTAGES

BRILLIANT—300 Candle Power, strong pure, white light. Brighter than 20 old style lamps or lanterns.

SAFE—Can't spill fuel or explode even if tipped over. Can't be filled while lighted.

CLEAN—No greasy wick to trim. No dirty chimney to wash. No smoke. No soot. No odor.

ECONOMICAL—Cost to use less than half a cent per hour.

CONVENIENT—Make and burn their own gas—light with matches. Lamp holds 3 pints—burns 18 hours on one filling. Lantern holds quart—good for 12 hours per filling.

DURABLE—Made of brass, heavily nickel plated, and highly polished.

The Meeker Smoothing Harrow

"Helps Good Seeds Grow"

Prepares Any Soil for Planting

THE MEEKER HARROW is a perfect pulverizing and smoothing harrow and land roller combined.

As the illustration shows, it has four sets of rollers, equipped with 46, 58 or 82 discs, depending upon the size. These discs are set in alternating rows so that the entire surface is thoroughly worked. They grind up all lumps, leaving the soil fine and smooth. Even in damp soil, the alternating arrangement of the discs prevents clogging.

The board in the center serves as a leveler. It is set at an angle and can be adjusted up and down. It smooths down ridges and fills up the hollows.

Price 6 ft., 8 in. x 6 ft., with 8 discs, \$36.00
Price 4 ft., 6 in. x 4 ft., with 8 discs, 32.00

THE BOSS PLOW

This is the best one horse convertible Plow ever sold for the use of market gardeners and farmers generally. By changing the Moldboards and Shares that come with the Plow, the purchaser actually has four plows in one. Price complete \$12.48

No. 1½ Moldboard and Share makes a large one horse Plow.

No. 2½ Moldboard and Share making a medium sized one horse Plow, a cabbage Moldboard and Share making a complete Cabbage Plow, and by using the Plow without the moldboard with the small Share bolted to the standard, makes a superior Plow for working among cabbage, strawberries, etc.

Mitchell Potato Digger and Shovel Plow Combined, \$14.00

Price with wings only \$9.98
Potato Digger \$4.50

This implement should be in the hands of every practical farmer, doing its work easily and in the most perfect manner. By the changing of one bolt it may be converted into a Shovel Plow or Potato Digger. The fingers are adjustable, being held in position by the plow point. Thus in case of breakage, a new part may be inserted without the expense of a whole new head. The fingers, points and wings are of steel, rendering it light, strong and durable.

CEMETERY FURNITURE

"Home Gardens—How to
Grow What You Eat."

- No. 3 Hill and Drill Seeder—This has for many years been a favorite with market gardeners, truckers and nurserymen everywhere. Capacity three quarts. Price **\$17.50**
- No. 4 Hill and Drill Seeder and Single Wheel Hoe—Here is a wonderful combination for the home gardener or the small market gardener. Price **\$18.00**
- No. 4-D—Hill and Drill Seeder only. Price **\$14.25**
- No. 25 Hill and Drill Seeder, Double and Single Wheel Hoe Combined. Here is "The complete gardener." Price **\$21.50**
- No. 220 will distribute fertilizer in the middles of three rows 12 to 14 ins. apart; it will side-dress 1 side each of 2 rows up to 36 ins. apart **27.00**
- No. 13—A Double and Single Wheel Hoe combined with a pair of 6-inch hoes only. The hoes are sure death to weeds. Price **\$8.00**
- No. 12 Double and Single Wheel Hoe Combined—The No. 12 is a great favorite with home gardeners and market gardeners. Used as a Double Wheel Hoe it straddles the row until plants are 20 inches high, cultivating both sides at the time and cutting in half time required for this work. Price **\$10.75**
- No. 11—Same as No. 12 with a pair of 4½ inch hoes and two pairs of rakes added to the above equipment. Price **\$13.75**
- No. 16 Single Wheel Hoe—Here is a very complete, light running cultivating tool suitable for either the home or market garden **\$9.00**
- Fire Fly Garden Plow—Very useful for plowing up the home garden or plowing up poultry yards. Price **\$4.25**
- No. 119 Garden Plow and Cultivator—For those who prefer a high wheel garden cultivator. Price **\$4.75**
- No. 7 Horse Hoe—Designed to do a great variety and better work than any other Horse Hoe available for your use. Price **\$15.75**
- No. 9 Horse Hoe—The No. 9 is a valuable, practical tool; identical with No. 7 except that it has a plain wheel instead of a lever wheel. Popular because of its strength, lightness, easy change of width and perfection of work. Price **\$14.25**
- No. 82 Seven-Tooth Horse Hoe and Cultivator Combined. Price **\$15.75**
- No. 90 Twelve-Tooth Harrow, Cultivator and Pulverizer—A harrow that has proved its time and labor saving value to commercial growers of strawberries, vegetables and to the market gardener, trucker and nurseryman. Price **\$17.00**
- No. 90B—Same as the No. 90, less the pulverizer. Price **\$13.75**
- No. 90D—Same as the No. 90, less pulverizer and steel wheel. Price **\$10.75**
- No. 101 Plain Cultivator—The No. 101 is simple, strong and easily handled. Light so that the operator can lift the cultivator and work the side of the ridge, close under the leaves. Price **\$11.00**

OHIO SPIKE TOOTH HARROW - 60 Teeth

The U-bars, channels, oscillating bars and teeth, are made of high carbon steel, precluding all possibility of bending. The channels, being placed at the ends of the U-bars, prevent them from catching on obstructions as is frequently the case with the open end harrow. Strong and well made but carrying no superfluous weight. Corner braces, oscillating castings and lever castings of malleable iron. Made in one 30 tooth section, and with $\frac{5}{8}$ teeth, \$13.98, or in Two 30 tooth sections with $\frac{5}{8}$ teeth, \$26.00.

ACME PULVERIZING HARROW

Flexible - but doesn't crack or break

CEL-O-GLASS is also ideal for greenhouse and hotbed sash. Its extremely light weight and the fact that it is unbreakable permits of lighter construction and resulting economies

heretofore impossible with ordinary glass.

CEL-O-GLASS IS NOT A FABRIC. It has a tough wire mesh base which gives it almost unbelievable strength. It is unbreakable, hail-proof, snowproof, rainproof and heatproof. Thousands of florists and growers have proved the durability of CEL-O-GLASS in actual use. It is easy to apply and presents a very neat and attractive appearance. An ordinary hammer, a few tacks and a pair of scissors are all the tools you need. No glazing, no expensive labor. No breakage.

CEL-O-GLASS comes in rolls 3 feet wide, in any length desired. Include a trial roll of CEL-O-GLASS in your next order. Price, 17c sq. ft.; roll, 15c sq. ft.

MAKE YOUR FLOWERS AND VEGETABLES GROW FASTER

STIM-U-PLANT

THE MAGIC FERTILIZER IN TABLET FORM

STIM-U-PLANT is the only complete plant-food in tablet form. The three mineral plants (flower and vegetable) are nitrogen, phosphoric acid, and potash. Because of this fact, STIM-U-PLANT tablets are made up of these three in a balanced ration of 11 per cent. Nitrogen, 12 per cent. Phosphoric Acid, 15 per cent. Potash—all of which elements are water-soluble and immediately available to the feeding root-hairs of the plant.

Small size, 30 tablets\$0.25 Medium size, 100 tablets\$0.75
Large size (pail), 1,000 tablets, (enough for season's supply for medium-sized garden) \$3.50.

Insecticides and Remedies for Plant Diseases

Volek. The Scientific Insecticide for nursery, greenhouse and garden. Controls scale insects, mealy bug, white flies, red spiders, rust mites, aphids and thrips. $\frac{1}{2}$ pint, 50c; pint, 75c; qt., \$1.00; gal., \$3.00; 5 gal., \$12.00.

White Hellebore. An excellent remedy against currant worms, rose slugs, caterpillar, etc. Can be used either dry or in water; $\frac{1}{4}$ lb., 18c; $\frac{1}{2}$ lb., 25c; 1 lb., 45c.

Lime and Sulphur Solution. For San Jose scale, 1 gal. makes 15 by adding water. 1 qt., 50c; 1 gal. \$1.00; 5 gal. 3.75; $\frac{1}{2}$ bbl. (30 gal.) 30c; 1 bbl. (50 gal.) 22c gal. Dry—lb. 35c; 5 lbs. 1.50; 10 lb. 2.50; 25 lb. \$4.50.

Fish Oil Soap. One of the most effective agents used for destroying scale bug, plant lice and all other insects injurious to vegetation.

Price, 1-lb. box, 30c

ARSENATE OF LEAD

Its great advantages are that it adheres well to the foliage and spraying does not have to be repeated, as it does not readily wash off by rain.

Dry

1 lb. lots, 30c; 4 lb. lots, 28c; 10 lb. lots, 25c

PEACH TREE BORER—(para—Pichlorobenzine)
—A successful remedy for Peach Tree Borer. Recommended by U. S. Department of Agriculture and the State Experimental Station—Price, 1 lb., 50c.

MELROSINE

The One Universal Contract Insecticide offering all the convenience and economy of having on hand one preparation to combat various sucking insects. It is effective for most species of Plant Lice, Black Flies, Green Flies, Soft Scale Insects, Rose Leaf Hoppers, Saw Flies, Japanese Beetles, Thrips, Red Spiders, Aster Bugs, Mealy Bugs, etc.

Price List of Melrosine

Gallon Can ..\$6.00 Quart Can ..\$1.75

Half-Gallon Can \$3.25 Pint Can \$1.00

Trial Size50c

BLACK-LEAF 40. A concentrated solution of nicotine sulphate; an excellent spray for black aphides and sucking insects of all kinds. Dilute one part to 900 or 1,000 parts of water, according to treatment. Full directions on each package, 1-oz. bottle 35c; $\frac{1}{2}$ -lb. tin \$1.25; 2 lbs., \$3.25; 10 lbs., \$11.85.

BORDEAUX-ARSENATE OF LEAD. A combination in proper proportions of the standard insecticide and fungicide remedies, thus killing insects and eliminating fungus plant diseases at one spraying and accomplishing the objects in half the time required to spray on separately. Dry, 1 lb., 35c; 5 lb., 30c; 10 lb., 28c.

BORDEAUX MIXTURE OR FUNGIROID—For all fungous diseases, such as mildew and the various rots of the grade. Full directions on label. Dry, 1 lb., 25c; 5 lbs., 22c; 10 lbs., 20c; 25 lbs., 18c; 50 lbs., 16c; 100 lbs., 15c.

PYROX. The best and safest all-round spray for all insects, blights and fungus troubles. Kills Potato bugs. Sticks like paint. 1 lb., 50c; 5 lbs., \$1.75; 10 lbs., \$3.00; 25 lbs., \$6.25; 50 lbs., \$10.75; 100 lbs., \$16.50.

CUT WORM FOOD—It is simple and easy to use. It consists of a material that is more delicious and is much more preferred by the CUTWORM than the plants themselves. It is sprinkled on the ground around the plant just as it found in package. Price 45c.

TREE TANGLEFOOT. A paste preparation for painting around the trunk of trees, in the form of a band. Caterpillars and other crawling pests cannot go over it. Lb., 60c; 3 lb. can, \$1.65.

WEEDICIDE—Kills grass and weeds of every kind on roadways, gutters, tennis courts, etc., by one application. Price 60c qt.; \$1.50 gal.; \$5.50 five gallons.

Per 100 lb. bag, \$1.50—Ton \$25.00.

BROWN'S AUTO-SPRAY 30D

Realizing the demand which exists for an inexpensive wheelbarrow sprayer, we have designed the Auto-Spray No. 30. Never before has a sprayer of this construction been offered at a price so low. Price \$14.00.

BROWN'S AUTO-SPRAY NO. 9

A PATENTED SCREW LOCK MACHINE UNIVERSALLY POPULAR. Pump plunger locked into pump cylinder permitting entire pump to be lifted from tank without trouble when refilling. Handle and plunger cannot come out of pump unless purposely removed.

Auto-Spray No. 9-B, Brass Tank with Auto-Pop—\$8.98

Auto-Spray No. 9-D, Galv. Tank with Auto-Pop—\$5.98

DUSTER BROWN NO. 2

New type direct compression in mixing chamber, ejects large volume of dust with each stroke.

Duster Brown No. 2-B, one pint, 75c

Duster Brown No. 2-C, one quart, 98c

THE DOUBLE ACTION HIGH-PRESSURE SPRAYER

Use with any pail or bucket

AUTO-SPRAY NO. 5 is generally acknowledged to be the most powerful pump of this type manufactured, generates a pressure of 200 lbs. with remarkable ease. Throws continuous. Specifications. Solid brass throughout. Price 4.50

BROWN'S AUTO-SPRAY NO. 8**Pump and Tank Combination**

A high pressure pump capable of generating 200 pounds of pressure. We believe there is no other sprayer manufactured of this type that will create, with the same ease, as high a pressure as this pump.

This sprayer is double acting and works with both up and down strokes, hence produces a continuous spray.

Auto-Spray No. 8, \$6.98

BROWN'S AUTO-SPRAY NO. 23

A NEW CONTINUOUS ATOMIZER that will perform satisfactorily under all conditions. Designed to handle cattle fly spray, floor oils and other liquids not easily applied with ordinary sprayers.

Auto-Spray No. 23-C, All Brass, \$2.48

BROWN'S AUTO SPRAY NO. 26 Continuous Atomizer

This Atomizer will spray insecticide in a continuous fog of such great volume that it will fill an ordinary room full of vapor in one minute. **Auto-Spray No. 26-C, All Brass, 1 qt., with legs, \$1.25.**

Lowell Fountain Compressed Air Sprayer

Special Features: Capacity 3 gallons, can be carried by the handle (see cut), or a shoulder strap. The automatic controlling valve under the handle gives instant and perfect control of the spray and don't waste any. The air pressure pump is outside where you can get at it, the filler plug is well made and fits tight. The tank after being seamed and riveted is dipped into molten solder, making it absolutely air tight and the strongest Air Pressure Sprayer made, standing five times the air pressure necessary to operate.

No. 110 Galv., Price\$6.48
No. 111 Brass, Price\$9.48

Lowell Continuous Sprayer

Improved style. Highest quality metal throughout, strong and durable. Has 2 spray caps, one for spraying up, the other for straight ahead or at any angle. So constructed that it not only sprays on the downward stroke of plunger, but also when it is drawn back, thus causing a continuous mist-like spray, enabling one to spray three times as fast and with one-third the labor. Length, 20 inches. Capacity, one quart. (P. P. weight, 2 lbs.)

Each, **TIN**, 90c; **GALVANIZED**, \$1.15; **BRASS**, \$1.25.

Baby Midget Lowell Tin Sprayer

Tank: 3 inches diameter, 3 3-16 inches long. **Pump tube,** 1 1/4 inches diameter, 10 inches long, 3-4-inch can screw for filling. **3-16-inch plunger rod.** Length over all, 15 1/2 inches. **Capacity,** about 1/2 pint. **Made of 107-lb. tin plate.**

No. 122—Baby Midget—Price 35c

Lowell Glass Tank Sprayer

This Sprayer will spray approximately one-third more liquid with each stroke of the plunger than any sprayer that sprays from the end of the pump barrel, due to its double system of air chambers and short spray tubes. It is a Lowell Feature that is exclusive. It also makes it impossible to draw any liquid into the pump cylinder. The leather valves are always soft and pliable.

No. 101, Price 98c

Bucket Pump Lowell

Applying fly oils and dips to animals and poultry.

Equipped with nozzles for throwing solid stream spray. The most useful sprayer for Farm and Home for: Spraying trees and shrubs. White-washing stables and chicken-houses. Washing windows and automobiles. No. 109, Price \$4.98.

Jumbo Midget Lowell Tin Sprayer

Specifications—Tank: 3 inches diameter, 4 inches long. **Pump tube,** 1 1/2 inches diameter, 13 3-4 inches long. 3-4-inch can screw for filling. **3-16-inch plunger rod.** Length over all, 17 1/4 inches. **Capacity,** about 1 pint. **Made of 107-lb. tin plate.** Equipped with Drip Cup.

No. 118—Jumbo Midget—Price 40c

Lowell Grand Sprayer

A sprayer made with a tapering tank running lengthwise with the pump. The tank is extra large. The spray tubes are exceedingly short.

SPECIFICATIONS—Tank: Tapering small end, 3 inches diameter; large end, 4 inches diameter, 5 3-4 inches long. **Pump tube,** 1 1/2 inches diameter, 19 1/2 inches long. 3-4-inch can screw for filling. 1/4-inch plunger rod. Length over all, 22 1/2 inches. **Capacity,** one quart. No. 105 Grand—Gal.—Price 65c.

NO. 25 RADIO BARREL PUMP

Made with brass nozzles, brass cylinder, brass ball valves and valve seats. Double acting barrel spray pump. Requires no priming. The pump barrel is made of heavy brass, as are all valves and valve seats, ground together, making all parts airtight. These parts will not rust or corrode, nor is any part of the pump affected by strong mixtures.

The plunger packing is a specially treated canvas, unaffected by the strong mixtures which would destroy a leather packing. The pump is easily and quickly attached to any barrel by setting casting over upper end of staves and tightening lock screw.

Price \$12.00

U. T. K. CONTINUOUS SPRAYER

Double seamed tank, strong and durable. Adjustable brass nozzle, which throws either coarse or fine continuous spray. Brass discharge tube and check valve. Brass ball check valve checks the air in the canical air chamber and permits the complete filling of reservoir with liquid. Used for spraying disinfectants and for farm and garden use.

Price 98c

SAVAGE JUNIOR DUSTER

For handling all insecticides in powder form. Dusts straight ahead. Extension tube has brass nozzle for dusting underside of leaves. Large air chamber and powder chamber. Easily filled. Nicely finished in enameled red paint.

Price \$1.48

NO. 50 WHEELBARROW SPRAYER

12 gallon heavy galvanized tank, all brass pump, agitator, 8 ft. heavy hose, brass nozzle for two different sprays. Steel frame made in one piece, strong and rigid. A high grade, well built Wheelbarrow Sprayer for small orchards and general spraying. Easily wheeled about. **Price \$19.50.**

NO. 22 BANNER COMPRESSED AIR SPRAYER

Smith Famous Banner Compressed Air Sprayer for all general spraying, whitewash and disinfectants. Capacity 4 gallons. Complete as shown. Large 2 inch brass pump tank in galvanized, steel or all brass, as ordered. The best Compressed Air Sprayer made.

**Price, Brass, \$9.48
Galvanized \$6.48**

**NO. 45 STURDY SPRAY PUMP
Continuous Unbroken Spray
Made Entirely of Brass**

Used with any pail, bucket, can, barrel or tank by placing bucket strainer in such vessel. Works with ease on the up and down stroke, producing a continuous, unbroken spray. One brass tube works inside of the other, has brass ball valves, which will not corrode or rust. It does not require extension rods for elevating the spray, for it will spray the tallest tree from the ground. **Price \$4.50.**

No. 28 Whitewash Sprayer

For general spraying including whitewashing. Galvanized steel, nicely painted brass pot bottom, extension pipe and nozzle. Continuous spray. Fits any pail. Sprays whitewash rapidly in crevices and rough places. Easily operated. **Price \$2.75.**

Dairy and Milkmen's Supplies

HOUSE LETTER BOXES

The strongest and best finished Letter Boxes made. Constructed of heavy Sheet Metal. Firmly Riveted. Secure Lever Lock. Two Keys Each. Glass Panel in door with name clip for owner's card. Spring attachment for holding papers.

In Many Different Styles
Price 69c, 98c, \$1.39 and \$1.48

R. & A. Unbound Sanitary Delivery Cases

Patented Nov. 7, 1905

The weight of unbound cases is about three pounds less than bound cases, and for this reason they are preferred by many dealers. This style is made with or without bottom corner irons. Pressed galvanized steel stacking corner irons are always included.

A—Heavy stacking corner iron.
C—Bottom corner iron.
D—Galvanized steel support.

The bottles are always held in correct position to be filled and capped, as the galvanized steel support "D" keeps the long wires from sagging.

1 qt. size (12 bottles), \$1.60—doz. \$1.50.

1 qt. size (Iron striped), \$1.75—doz. \$1.70.

1 pt. size (20 bottles), \$1.60—doz. \$1.50.

1 pt. size (Iron striped), \$2.00—doz. \$1.85.

Galvanized Wire Netting

Poultry Netting

Our Poultry Netting is woven from the best quality of steel wire of full standard gauge. It is heavily galvanized after weaving, thus insuring the greatest durability.

Wire 2 inch Mesh, 1 ft., 2 ft., 2½ ft., 3 ft., 4 ft., 5 ft., 6 ft. No. 20 Wire 1 inch Mesh, 1 ft., 2 ft., 2½ ft., 3 ft., 4 ft., 5 ft. and 6 ft.

Market Prices.

Ornamental Fences and Gates

Our Ornamental Fences are exclusive in design, and embody many highly meritorious features not to be found in those of any other manufacture.

Our fabrics are made by cabling horizontal wires and inserting, at regular spaces, heavy upright or picket-wires which are corrugated either at intervals or continuously to engage the cabled line-wires, reversing the twist of the cable on each picket—thereby causing the cables to become firmly seated in the corrugations of the uprights, thus forming an immovable joint, and providing for contraction and expansion. Will not unravel when cut.

Have a Conkey Corner in Your Poultry House

Raising poultry is pleasant and profitable when "good luck" is with you. Good luck, however, is not merely a matter of chance, but of BEING PREPARED. For more than twenty-five years Conkey has been THE POULTRY DOCTOR. Take his advice. Install a Conkey Corner of remedies in your poultry house as insurance against disease, trouble, loss and disappointment. We sell Conkey's Poultry and Stock Remedies because we know they are reliable and we can guarantee them as follows:

Your money refunded cheerfully if any Conkey Remedy does not satisfy.

Conkey's Roup Remedy

When Roup breaks out there's no time to experiment—start treatment at once—the disease is very contagious. Cold, rainy weather and changeable conditions intensify Roup. When birds sneeze, froth in eyes, or run at nose put Conkey's Roup Remedy in the drinking water. Sick birds doctor themselves and others are protected from catching the disease. Better still, always at the first sign of "roupy weather," place Conkey's Roup Remedy in fountains—it's a great preventive.

Pkgs. 30c, 60c, \$1.20; or 35c, 65c, \$1.30 postpaid; 1½ lb. can \$2.50 postpaid; breeder size (5 lb. can) \$5.75 postpaid.

When ordering any remedy by mail always send *postpaid* price.

Conkey's White Diarrhea Remedy

Once you have used this old reliable preparation, you will never be without it. As a preventive of bowel troubles, White Diarrhea and other digestive complaints, it has given great satisfaction for many years. Once started diarrhetic conditions often sweep away the whole hatch—hundreds of chicks. Play safe—keep this remedy in the drinking water until the danger period is past. This remedy is also recommended as a preventive measure and for treatment of coccidiosis.

NOTICE

On and after September 1st we will be at our new location, at 89 Van Houten Street.

(JUST AROUND THE CORNER)

Is a light, natural, imported Peat Moss—different from any domestic material—no other product similar.

Its Use

ASSURES WARM FLOORS

PREVENTS DAMPNES

DECREASES MORTALITY

INCREASES EGG PRODUCTION

DEODORIZES THE DROPPINGS

When removed from the houses or borders it is easily sold at a profit as a FERTILIZER HUMUS. FLORISTS, NURSE- RYMEN and GARDNERS use PEAT MOSS in quantity.

Reliable Standard Coal Burning Colony Brooder

IT GIVES STEADY HEAT
IT IS SAFE AND DURABLE
IT IS EASY TO CLEAN

Filled

Chestnut hard coal is recommended for use in this Brooder, but soft coal may be satisfactorily used with our Four-inch Flue.

Here is another Colony Brooder improvement. A Screw Plate Draft is placed on the ash pit door, which permits draft to be opened as much as necessary for the proper combustion of soft coal. This draft is also helpful in starting a hard coal fire.

Another big feature on this brooder is that the regulators are equipped with two double disc thermostat wafers which are very durable and sensitive. This of course insures positive regulation of the check draft.

No. 9—Size of canopy, 42 inches; capacity 500 or less; height, 22 inches; diameter of cylinder, 10 inches; diameter of grate, 9 inches; price \$16.50.

No. 10.—Size of canopy, 52 inches; capacity 1,000 or less; height, 26 inches, diameter of cylinder, 13 inches; diameter of grate 11 inches, price \$21.50.

No. 11.—Size of canopy, 60 inches; capacity 1,200 or less. Price \$26.50.

ALL COAL BROODERS SHIPPED COMPLETE READY TO SET UP AND OPERATE

For MARVELEX ELECTRIC BROODER

Operate on 110 volt alternating current

Simply connect the plug to any lamp socket and the heat is on. The thermostat regulates the heat. Close all openings until warmed up before placing chicks in the hover. When thoroughly warmed open one or more of the gates for ventilation. In mild weather or when hover is placed in warm room, raise canopy on adjustable legs as per illustration.

The MARVELEX has more heating power than any other electric brooder but users make the error of raising it on the legs expecting the heater to warm up space. It compares with trying to heat a room with a 300 watt heater. The hover should be all closed up until the inside is thoroughly warmed.

Three Stages of Ventilation

It is not intended for use where it will be subject to rain or snow, as no hover will operate successfully during such conditions. You should prepare the floor for your hovers with about an inch of gravel or sand, and on top of this one or two inches of litter. For the benefit of the chicks it is necessary that the floor be dry as they will not thrive on a wet or damp floor.

For Health, Eggs and Profit Use

Pratts

POULTRY REGULATORS REMEDIES, LICE KILLERS AND BABY CHICK FOOD

Pratts

POULTRY REGULATORS

The original and leading poultry regulator. Added to any mash it makes more eggs and better health. Not a dope or stimulant. Use it the year round to supply minor food necessities, tone up system, aid digestion, regulate bowels, ward off disease, increase vitality and make greater profits. Satisfaction or your money back. 25c, 50c and \$1.10 pkgs. 12 lb pail \$1.65, 25 lb pail \$3.00, 50 lb drum \$5.50 and 100 lb drum \$10.00.

Pratts

BUTTERMILK BABY CHICK FOOD

Start your chicks right on the original "baby food for baby chicks." Pays for itself in the extra chicks you save and raise. Made of finest, clean, pure, selected ingredients, mechanically predigested. Leg weakness, diarrhea and other chick troubles are avoided. Absolutely guaranteed. In packages and 10, 14, 25, 50 and 100 lb bags.

Pratts White Diarrhea Tablets

Use them in the drinking water for the first ten days and avoid losses. They are cheap "life insurance for baby chicks." A wise investment for every chick raiser. 25c and 50c pkgs.

Pratts Powdered Lice Killer

A powerful, safe, non-poisonous powder for use on fowls, in nests and dust baths. Also rid horses, cows, sheep, dogs, cats, etc., of lice, fleas and other vermin. Easy and cheap to use. 25c and 50c sifter top cans.

Pratts Roup Remedy (Tablets or Powder)

Made in powder and tablet form for flock or individual treatment. Very effective in treating or preventing colds, roup, catarrh, diphtheria, etc. Keep a box on hand for emergencies. 25c, 50c and \$1.00 pkgs.

Pratts Poultry Disinfectant

Cheap, powerful, safe disinfectant. A gallon makes a barrel. Acts as a disinfectant, deodorizer, germicide and liquid lice killer. Use it to prevent spread of contagious diseases. 1 qt. 55c, 2 qts. 90c, 1 gallon \$1.50.

Pratts Poultry Worm Powder

A safe, sure and easy way to rid flocks of round, tape and other common intestinal worms. Costs only about half a cent per bird. Fully guaranteed. 50c pkg.; 25 lb \$3.00; 100 lb \$9.00.

Other **Pratts** Remedies

Condition Tablets—To relieve colds, catarrh, mild cases of roup; for tuning up system after attack of colds, bronchitis, liver or bowel trouble. $\frac{1}{4}$ oz. 25c; 5-8 oz. 50c.

Sore Head Chicken Pox Remedy— $2\frac{1}{2}$ oz. 30c, 7 oz. 60c.

Scaly Leg Ointment, 25c.

Fly Chaser—1 qt. 50c, 2 qts. 85c, 1 gal. \$1.35.

High Grade Tested Thermometers

The best incubator or brooder manufactured is worthless unless the thermometer used therein is accurate. Hundreds of hatches in incubators fail because of inferior thermometers, and large numbers of chickens are killed in brooders owing to defective or worthless thermometers.

The thermometers here listed are thoroughly tested before they are shipped.

Incubator Thermometer, each	.50
Brooder Thermometer, each	.50

Incubator Hygrometer

These Hygrometers should be used by every one who runs an incubator. They regulate the moisture as accurately as the heat which overcomes the trouble so many people have of chicks "dead in the shell."

FOODS FOR DOGS AND CAGE BIRDS

Spratt's Song Restorer

An invigorating tonic and treat for Canaries, Linnets, Gold-finches and Seed-eating birds.

Spratt's Fibo

A unique granulated food, containing a large percentage of Spratt's world-famous Meat Fibrine. It is very appetizing and highly recommended for shy and dainty feeders, as a change of diet or as a suitable food for any dog at any time. Can be given either dry or soaked.

Spratt's 'Sing-Song'

An appetizing food and pick-me-up for all songsters.

Meat Fibrine Dog Cakes
For sixty years the standard dog food, used by the leading breeders and fed at the principal dog shows throughout the world. The best results are obtained by giving the biscuits dry, not soaked, thereby compelling the dog to gnaw the food and thus producing a copious flow of saliva which materially aids digestion.

VIGORO

Specially prepared plant food

100-lb. bag	\$5.00
50-lb. bag	3.00
25-lb. bag	1.75
5-lb. Pkg.	.50

Enjoy Better Lawns, Flowers, and Gardens by Using VIGORO

VIGORO provides an economical, practical, and effective way to secure finest results. Economical because the cost is only 10c to 20c for every 100 square feet. Practical because it is clean, odorless, easy to apply—can be sown by hand like grass seed or applied with an ordinary kitchen colander. Effective because it contains all of the elements of plantfood required to produce early, vigorous growth, and bring fruit, flowers, and foliage to full development.

Complete directions in every bag.

Something New for the Chickens

FELKER'S HANDY ATTACHMENT

To be used with any make of Fruit Jar
A PERFECT FEEDER

For Sour Milk, Water, Hard Grain or Grit

The Container is made of aluminum, the only metal in which sour milk can be fed with safety. It is rust-proof and non-corroding. The HANDY is adjustable, simple to operate and durable. Every one has some kind of a quart fruit jar--the HANDY fits them all. Price 25c.

Star Jar Fountain and Feeder

Star Jar Fountain

The most simple, practicable and durable Mason Jar found on the market.

Will fit pint, quart or one-half gallon Mason jar.

THE NORWICH AUTOMATIC AIR-LOCK FOUNTAIN

SANITARY NON-FREEZING

One filling of the oil tank will keep the apparatus burning day and night for two weeks, and it is but necessary to trim the wick occasionally, for the blaze is so small the wick crusting is a very slight matter. To accomplish the cleaning of the wick, the base is fitted with a slide, through which it may be attended without removing the reservoir, while the regulation for a high or low flame is accomplished from the outside of the burner by means of the wheel as shown.

Made in one size only—5 gallons capacity.

Price—Complete with Burner Base\$6.00
Without Burner Base\$4.00

Chip Paper Egg Boxes

Just the thing for your family egg trade, they ship knocked down can easily be set up.

Extra heavy, 1 doz. size, 15c dozen.

90c per 100; \$7.00 per 1,000

20 oz. Manilla Board, 20c doz., \$1.25 per 100;
\$8.75 per 1,000

Long style 2x6 25c doz., \$1.25 per 100;
\$11.00 per 1,000.

Surety Egg Carrier

Is made of wood for parcel post. There is no more durable or better carrier made. A necessity to all poultrymen. Prices are as follows:

2 doz. size	\$1.45	8 doz.	\$2.35
4 doz. size	\$1.90	10 doz.	\$2.60
6 doz. size	\$2.10	12 doz.	\$2.85
16 doz. size			\$3.50

Aluminized Metal Egg Crates

For Parcel Post

Metal Edge Filler

Indestructible; made for interchangeable shipments; lasts for years; pays for itself in a few shipments. Buy yours now and realize more money for your Eggs. Your friends want them. Thousands now in daily use.

The Metal Edge Filler is a wonder. A new invention and cannot be beat for safely carrying Eggs by mail. Light in weight and very strong.

Price of Eggs in the city is about double the price obtained by the farmer at a local store for selected Eggs. You might as well be receiving this added profit by shipping your Eggs direct.

Butter and Eggs safely carried by mail in same crate. Can also be used in sending other products. Write us about different sizes and prices.
