ADVANCE IRIS LIST

1928

The Bonnewitz Wholesale Gardens

VAN WERT, OHIO

THIS advance list does not contain all the Irises we would like to feature to the trade, or all of the varieties we will be able to offer a little later when our complete wholesale list of both Peonies and Irises is issued. However, it does represent the varieties which came through the past winter in good condition for us, and we are in position to offer them for July delivery.

The particular purpose of this advance list is to offer these varieties to growers, who like us, may have sustained a complete loss on varieties which they had expected to list in their catalogs and to provide growers, dealers and nurserymen a source of supply of additional varieties for enlarging their offers this season.

These varieties are priced sufficiently low to provide a good margin of profit on retail sales. After each variety we have shown the retail price at which they were offered in several growers' catalogs last year.

We are always glad to help any firm in making up a list of Irises, Peonies, or Poppies which they may wish to offer either as an insert in their present catalog or as an addition to any new catalog they may be issuing.

BONNEWITZ WHOLESALE GARDENS

This is the smallest of the three cuts of this fine Iris now available for catalog and circular use. Read the enclosed Co-Operator for the details of our co-operative advertising plan, and the reason for our enthusiasm about the sales value of pictures in color.
