All of our seeds are grown entirely on contracts made with our growers before the season for planting has expired. We plant a sufficient quantity of stockseed to cover all orders booked with a fair average crop. In event of shortage of crop, all contracts are filled pro rata. The quality and appearance of our seed is best known by those who have used them for the past thirty years. Our average deliveries, covering a long period of years, have been generally satisfactory to our customers. We are continually trying to improve our stocks and are always glad to grow special stocks from buyer's own stockseed when desired.

Due to limited stockseed and orders already booked we can accept orders only so long as our stockseed will permit.

We offer following, 1927 crop, handpicked surplus SEEDS for prompt shipment. Terms net cash, subject to advance and if unsold:

Price
