Read Before Ordering

Terms of Sale

All prices in this circular are cash with order, except in quantity orders where satisfactory references are given.

No orders sent out for less than \$1.00. There will be a charge of 15c extra for packing orders less than \$1.50. For orders \$1.50 to \$5.00 or more there will be an extra charge of 30c for packing. So please include this amount when ordering.

Parcel Post or Express

Please state explicit shipping directions, whether you prefer flowers to be sent by parcel post or express.

If you desire shipment to be made by parcel post, please add 10% of the value of the order for postage, otherwise shipments will be sent by express.

Large orders will go forward by express at customer's expense unless special mention is made in the order how it is to be shipped.

Where samples are desired, please send \$1.00 to cover cost and mailing charges of same.

STRAW FLOWERS

Add Beauty to Your Home

We offer below a line of very attractive Everlasting flowers, and Ornamental grasses, which are now found so popular everywhere. All these flowers we offer are grown and dried at our Nurseries. They are all tied in neat bunches and carefully packed before shipping.

Varieties Listed as Follows:

NO. 1—HELICHRYSUMS, are mounted on 9 inch green covered wire stems. These flowers are much more substantial on wire stems than on natural stems and the trade calls for them mounted in this manner. These are graded as shown below. However we prepare these flowers on natural stems also, having 12 to 18 inch stems.

Helichrysums, rose, pink, yellow, orange and red.

GRADE A—Flowers mounted on 9 inch green covered wire, put up in bunches of 16 flowers each, flowers in this grade are all large and evenly graded. Price 25c per bunch. In lots of 1000 flowers, 25 flowers in each bunch, \$10.00 per 1000. These bunches are put up in solid and mixed colors, both on natural and wire stems.

GRADE B—Flowers mounted on 9 inch green covered wire. They are field run and put up 25 flowers per bunch and in solid and mixed colors. Price 25c per bunch. In 1000 lots, price \$7.50 per M. Also have this grade on natural stems from 15 to 18 inches, solid or mixed colors. In larger quantities we will quote prices.

NO. 2 ANNUAL STATICE. This is a very popular and beautiful flower, coming in blue, rose, yellow and white. This variety is put up in nice neat bunches of mixed colors, also solid colors. Price per bunch 25c. When 15 or more bunches are taken in one order 20c per bunch.

NO. 3 ACROLINIUM ROSEUM. This is a pink Daisy like flower with yellow centers. These are packed in neat bunches, 35 flowers in each bunch. Price per bunch 25c. When 35 or more bunches ordered, 35 bunches \$6.00. Also in mixed white and pink bunches.

NO. 4 RHODANTE PINK. This is a very delicate silky like flower, carrying many buds, with some open flowers with deep brown centers. These packed 20 stocks, per bunch 25c. If 30 bunches or more ordered 30 bunches \$6.00.

- NO. 5 GOMPHRENA OR GLOBE AMARANTH.** This is clover like flower in orange and deep purple colors. We mount these on 9 inch wire stems also will have them on natural stems. 20 flowers in each bunch—price 25c per bunch. In 1000 lots, \$10.00 per M.
- NO. 6 ECHINOPS RITRO.** This is a round thistle like flower, deep blue in color. It is the bud of the perennial which is dried for Strawflower use. These are packed 10 in a bunch, price 25c per bunch. In lots of 1000 heads our price is \$12.00.
- NO. 7 PHYSALIS FRANCHETI OR CHINESE LANTERNS.** This is a wonderful dried specimen for winter bouquets and decorations. These produce fine large husks turning a bright orange color (as you may see in bouquet on cover page). They produce from 2 to 6 husks on each stem.
Stems with 3 or more husks—3 stems for 25c.
Stems with one and two husks—5 stems for 25c.
100 Lanterns on all length stems—\$4.00.
- NO. 8 HELIPTRUM.** This variety is a very deep yellow on 16 inch stems, flowers an inch in diameter. This is different from all other everlasting and is worthy of a place in your winter bouquet. 30 flowers in each bunch—price 25c. When 30 bunches or more are ordered, 30 bunches \$6.00.
- NO. 9 GYPSOPHILIA OR BABY BREATH.** This is the white misty like flower, which is so beautiful when used in flower bouquets. The fine white variety which we have dried and no strawflower bouquet is complete without the Baby Breath. Price 25c per bunch. When ordering 50 bunches or more, price 20c per bunch.
- NO. 10 DRIED ORNAMENTAL GRASSES.** Will have to offer three varieties of dried ornamental grasses put up in neat bunches. Price 15c per bunch.

SPECIAL OFFER

A very attractive box of Strawflowers, containing some of all varieties will be sent you for \$3.00, postage paid. Containing the beautiful colors shown in the basket on the cover page of this circular.

Special Offer on Basket Made Up

We will mail you a Basket of Strawflowers same size as on the cover page of this circular giving a fine assortment of Strawflowers for \$3.80, postage paid. Size of this basket is 13 inches high and 12 inches across. We have many other styles of baskets we can use if customers desire.

Write name and address complete and distinctly. We kindly ask all customers to write their names and addresses very plainly so no error will be made in shipping.

If you are pleased with your flowers when received, tell your friends, if not satisfied, please write us.

Strawflowers ship better packed closely, and on receiving box before arranging steam them over hot water and thus flowers are not apt to break, and if they appear crushed they will freshen up.

LUPINES

The above illustration gives one the true story of the great scope of use of these wonderful Perennials which can be used in all types of planting.

PLEASE READ THIS PAGE CAREFULLY BEFORE ORDERING

Shipping Seasons

FALL SHIPPING.—Most perennials are ready for shipment from September 1st to September 10th and running to November 15th. However we are now in a position to ship most all varieties of plants any time during winter and early spring, as we have equipped our nurseries with large storage houses to carry our plants successfully for winter shipping for customers in southern states. Oriental Poppies may be shipped August 1st.

Guarantee

Our plants are all packed carefully and should reach our customers in good, live condition if handled properly and promptly by transportation agencies. Their future success depends on weather, soil, insect and diseases which of course are not in our control after reaching their destination. Therefore we ask our customers to give strict attention to soil condition and cultivation. We will be glad to give any information if asked for, regarding their care and cultivation, etc. All our stock is limited subject to being sold out, and any previous prices quoted are cancelled subject to prices given in this catalogue.

Complaints

In our rush seasons of shipping plants errors are apt to occur occasionally. Therefore any complaints our customers may have must be reported immediately on receipt of shipment. If this is not done we will not replace or make good any orders or parts of orders. Complaints coming to us two or three months later will not be considered.

Shipping Methods

Shipments can be made by Express, Parcel Post or Freight. In all cases, express shipment is the surest and safest. Frequently express rates are lower, seldom higher. When shipments are lost, damaged, or stolen, the express company will make good, but not so with Parcel Post.

If Parcel Post shipment is desired, please add 25 cents additional to cover special packing and handling, plus 10% for postage.

Order Early

Orders sent to us are always taken care of accordingly and shipped as they are received. We are always glad to receive large orders long in advance of shipping and will always make special quotation on such orders given in advance.

Quantity Rates

When customers order in dozen lots we sell three plants of one variety at dozen rate. If one plant of any variety is desired our price is 25 cents per plant. This is necessary due to extra cost in digging and packing. We give the 100 rate for 25 plants of one variety and thousand rate on 500 plants of one variety.

Terms

CASH WITH ORDER, or 30 days net, providing satisfactory business references are given. Sixty days net on orders amounting to \$50 or more or 2% discount for cash on orders of \$50 or more. Please do not remit in stamps.

Contract Orders

When Landscape Architects or Nurseries wish to have us grow certain varieties of perennials for them on contract and their orders are given one year or six months in advance, we make special quotations per 1000 on this particular variety.

Garden Club Offers

We realize the great value of Garden Club work in promoting the beautifying of both cities, streets, road-sides, etc., and are pleased to work in co-operation with such organizations.

DISCOUNTS.—When any official Garden Club writes to us the names of it's members desiring plants and pools their order, we are pleased to grant liberal discount to such clubs.

PRIZES.—We are also glad to offer choice perennials for garden club members on prizes at Flower Shows, etc.

We will appreciate receiving lists of Garden Clubs and will gladly mail our catalogue to them.

Landscape Department

We are now in a position to do Landscape work. If any of our customers wish their grounds about their home planned for them, we will gladly make them a reasonable charge for this work.

The real enjoyment of flowers and shrubs comes from having them properly arranged in order of their color, time of blooming and height of growth.

Our Location

Possibly many of our customers wonder why we chose a location so far north for our Nurseries and Gardens. We wish to say that the soil and climatic conditions near the great body of water, "Lake Superior" afford a most advantageous location for perennials.

NORTHERN GROWN seed and plants are always good and of strong vitality. Our plants are all field grown which produces strong root system and may be shipped long distances successfully.

New and Special Varieties to Offer

LUPINES (Hardy). Lupines are one of the most popular perennials for the herbaceous border. Last year we grew over 100,000 of these plants. We wish to call your attention to the color Lupine picture which illustrates the natural size and color of these beautiful spikes. We are now in a position to offer some exceptionally fine separated strains of the **Regal Lupines**. We have been carefully selecting these for a number of years. We offer the following named varieties of the Regals, single plants only, at 50 cents each. The colors range from a deep apricot combined with blue and pink shades to deep yellows, blues, pinks and bronze. These are also sweet scented.

Delphiniums

We also have some one year plants grown from the following and choicest strains in the world. Flower lovers never tire of Delphiniums and with great range of colors, length of spikes and size of flowers from these wonderful plants we have to offer, every one should have them in their gardens. These we have at 35c each.

These plants are Wrexhams, Vanderbilt, Hewitts, Pudors and others.

Rock Plants and Wild Flowers

We wish to call your attention to all plants prefixed with a star. These are all plants used for low borders, rockeries and rock walls.

We also offer a large list of native wild flowers which grow in Northern Wisconsin. We can make delivery of all these plants in proper season as our wild flower specialist collects them.

	Doz.	100	1000
