Lily of the Valley

Roots ready in November
75c dozen, \$5.50 per 100

Beautify Your Garden with Permanent Shrubs

Fall Planting Recommended.

Fall planting has numerous advantages over late Spring and Summer resetting, as in nearly all instances plant and root growth is greatly stimulated by our mild early winter rains and the numerous sunny days of our California Fall and early Spring. Among the many shrubs offered by us and ready to set out now are the handsome *Pyracanthas* and *Cotoneasters*, which produce the highly colored and ornamental berries during the Fall and Winter. They are particularly satisfactory and highly recommended by us.

Shrubs Completed the Picture.

Pyracanthas, commonly known as "Burning Bush"

These comprise the larger and most showy of the beautiful berry shrubs. All are extra strong, healthy growers and should have a place in every garden.

PYRACANTHA CRENULATA—10 feet. Of very dense habit and one of the best. Berries are deep scarlet produced during August in large clusters.

PYRACANTHA AUGUSTIFOLIA—8 to 10 feet. Covered with large clusters of flattened orange-yellow berries through the winter. Leaves are long and narrow, deep green with gray undersides. Be sure to include one in your garden.

COCCINEA—A thick, thorny evergreen shrub. Leaves are small and glossy green. Covered during the Fall and Winter months with a profusion of orange-red berries. 15 feet tall.

COCCINEA LALANDI—Same as the preceding variety except in color of the berries which are orange-yellow.

Cotoneasters—Fine Berry Producing Shrubs

Highly ornamental shrubs with orange or red berries decorating its artistic foliage for many months. By all means consider this valuable group for your planting scheme.

FRANCHETI—Any location; 8 feet. A graceful type of upright growth with shapely overhanging or arching branches. Reverse of leaves are downy. Flowers pink, followed by yellowish-red berries.

PANNOSA—Any location; 10 feet. A fine shrub of upright growth. Long slender arching branches covered with scarlet berries in the fall. Deep green leaves, reverse silver colored.

MICROPHILLA—Any location; 6 to 8 inches. Splendid for low walls, rock work, terraces, etc. Foliage is small, of a deep green and in fall is covered with bright red berries that remain for a long period extra strong plants.

ACUMINATA (C. Nepalensis)—Erect growth, 6 feet tall; flowers slightly pinkish, followed by large oblong deep red berries.

California Christmas Red Berry Shrub

Photinia Arbutifolia or *Toyan Berry*, the well-known red berries of the holidays, are exceptionally fine decorative evergreen garden shrubs. They can be easily cultivated under practically all local conditions and are well worth a conspicuous place in your garden. They are classed as a strong growing shrub, from 6 to 8 feet, or can be trained as a small tree.

Heathers—Splendid Evergreen Garden Shrubs

Heathers, an evergreen shrub of dwarf, and quite compact growth, doing exceedingly well in the bay district. All have beautiful feathery foliage and produce a profusion of small, wax-like flowers late in the Fall until early Spring. We are offering a very fine collection, containing a number of kinds not found in the usual nursery lists.

MEDITERRANEAN—(Bright Pink)—3 to 4 feet. Very compact and regular growth, producing deep bright lavender pink flowers in the early and late spring.

MELANTHERA—(Delicate Light Pink)—3 to 4 feet. Of more graceful and airy effect, yet compact in growth. Flowers are a very delicate lavender pink produced on long handsome sprays. Splendid for cutting.

VILMORIANA—New and rare Heather, with two-inch long tubular, wax-like flowers, creamy, soft pink at base, shading gradually to deep rose and then to a bright red at the flower tips. Very striking. Nice compact growth to a height of 3 feet.

REGGERMINANS—(Rosy Red)—A new and fine variety with rosy colored flowers, borne in great profusion throughout the Fall and Winter.

CODONOIDES VEITCHII (White Flowering Heath)—Of graceful habit with fine feathery foliage, producing long panicles of pure white flowers in Spring.

DWARF MEDITERRANEAN—(Bright Pink)—Exactly like its taller namesake, except that it makes a dense, carpet-like growth from 6 to 10 inches in height and 3 feet in diameter. Just the thing for covered that bare embankment with an unusual shrub.

We have an exceptionally fine lot of the above plants from 5-inch pots, ready to set out at once. Priced right for immediate sale.

The Famous and Incomparable Garden Rose Los Angeles

Favorite Climbing Roses

CLIMBING GENERAL McARTHUR—Fine large buds and flowers in great abundance. Finest bright red climber in existence. Special, 50c each.

CLIMBING SUNBURST—Very large cadmium yellow flowers, beautiful either in bud or open flower. Special, 75c each.

CLIMBING HOOSIER BEAUTY—Handsome, rich crimson flowers shaded to black. Special, 75c each.

BELLE OF PORTUGAL—A beautiful new climber, producing extremely large flowers of a delicate soft pink color, tinged with salmon. The long, well-shaped buds are often 3 inches and more in length. Special 75c each.

SILVER MOON—Different from all other roses, with beautiful semi-double flowers four and a half inches and over in diameter; pure white in color, petals of great substance, beautifully cupped, forming a Clematis-like flower. The large bunch of yellow stamens in the center adds to its attractiveness. Special, 50c each.

CLIMBING CAROLINE TESTOUT--(H. T.)—Vigorous climber. Clear pink. Price, 50c each.

CLIMBING AMERICAN BEAUTY—Exceedingly fragrant. The color is a rich, rosy crimson of dazzling brilliancy. Price, 50c each.

CLIMBING Mlle. CECILE BRUNNER—(Poly.)—Baby rose. Flowers perfectly double, rosy pink, petals in bud daintily reflexed. A vigorous climber. Price, 50c each.

3 Best Singles for \$2.00, or 75c ea.

IRISH ELEGANCE—A single rose, beautiful in bud; color, apricot and pink shading to bronze at base of petals.

IRISH FIREFLAME—A beautiful single rose, bearing its flowers in clusters of five or more; buds are a rich deep orange flushed with crimson, opening to a large, single flower of an old gold color.

ISOBEL—(H. T.)—This is a remarkable new break in single roses. Intensely brilliant shining carmine red, shaded orange scarlet.

Two New Roses

OF UNUSUAL BEAUTY AND VALUE

GOLDEN EMBLEM—The new golden yellow ever-blooming rose; vigorous grower, free flowering, large, perfectly formed, bright yellow flowers of marvellous beauty. Price, \$1.00 each.

CLIMBING MRS. AARON WARD—(H. T.)—A true climbing sport of the popular Mrs. Aaron Ward. In color, a deep Italian yellow, shading lighter at edges and suffused towards center with salmon. The beautiful long pointed buds are produced very freely all through the year. Growth is very vigorous and healthy. Strong two year olds, 75c each.

Set of 5 for \$2.75, or 50c each

CECILE BRUNNER—(Poly.)—Popular baby rose. Salmon-pink with deep salmon center, borne in clusters, very small, full and delicately scented.

MRS. CHARLES RUSSELL—Beautiful shade of deep rosy pink. A splendid variety for garden planting.

PAPA GONTIER—(T.)—Brilliant carmine, changing to rose and lilac; delightfully fragrant and is the most popular rose of its color.

RADIANCE—(H. T.)—Beautiful blending of shades of carmine rose with opal and carmine reflected, and is very fragrant.

SUNBURST—(H. T.)—Long pointed, yellow buds, becoming deeper towards the center, carried on long, stiff stems.

Spring and Summer Flowering Bulbs and Roots

Among the first and most welcome signs of Spring are the beautiful and often fragrant flowers produced from Dutch Bulbs. The season is at hand for their planting, and we heartily recommend that your garden should find a generous space for their culture.

A perfect spike from one
of our Holland-grown
Giant Fragrant Hyacinths
"Matchless Grade"

We import and offer for sale only the best obtainable.
Order now before stocks are broken.

WE PAY THE POSTAGE—ALL FIRST QUALITY BULBS HOW TO GROW OUR BULBS SUCCESSFULLY

Bulbs are offered during the Fall months, and planting should be done early to insure the finest long-stemmed sturdy flowers. However, very good results and successive blooms can be had by later planting.

Plant bulbs, as a rule, so that there is earth over them to their own depth. Small bulbs, such as Freesias, Crocus, Ranunculus, Spanish Iris, etc., should be set about 3 to 4 inches apart. Tulips, Anemones, Jonquils, from 6 to 7 inches apart. Hyacinths, Daffodils and Narcissus about 7 to 9 inches apart.

Prepare your soil by forking deep and thoroughly using manure as a mulch only after the bulbs are planted. A top dressing of our Gromore Fertilizer or our specially ground Bone Meal, using 3 pounds to 10x10, will place your soil in the best of condition for growing bulbs or plants.

Our Matchless Sweet Scented **Imported Dutch Hyacinths**

For Potting, Borders, Bedding and Water Culture

Matchless Bedding Grade

OUR MATCHLESS BEDDING GRADE.—Many of our customers can use dozens and even hundreds of bulbs for a massive effect or perhaps a long border, so we have imported this especially-priced grade. The flowers are very fine, perhaps a little shorter-stemmed but just as effective for general display.

SELECTED MATCHLESS HYACINTHS

OUR MATCHLESS GRADE.—For those of our customers who want to produce Hyacinths of the grandest size and finest quality, we recommend our "Matchless" grade. These are extra choice, large, round, solid bulbs, selected especially for our best trade by our Holland growers. They will produce those handsome mammoth flowers so highly prized, and are excellent for forcing and pot culture.

Our Matchless Named Dutch Hyacinths are extra fine

25c each—6 for \$1.30—12 for \$2.50—50 for \$9.50—100 for \$18.50

CARDINAL WISEMAN—Beautiful dark silky rose pink.

GARIBALDI—Very early bright carmine.

GERTRUDE—Very popular bright dark pink.

GRANDE MAITRE—True shade of porcelain blue.

LA GRANDESSE—Beautiful pure white.

LA VICTOIRE—Brilliant orange scarlet.

LADY DERBY—Splendid spike of soft rose pink.

L'INNOCENCE—Glistening white.

MARCONI—Very brightest clear pink.

JACQUES—Gigantic spike of soft clear pink.

ROI DES BELGES (The King of Belgians)—Bright scarlet

QUEEN OF THE BLUES—Extra fine light, clear blue.

Special Instructions on Culture of our Hyacinths

Our hyacinths are easily grown in the open ground for garden decoration and in jardinières and bowls or pots for house culture, using our **Specially prepared bulb fibre**. (See Inside Front Cover.) For outdoor planting, select a well-drained location and fork thoroughly, planting the bulbs from 4 to 5 inches deep and 7 to 9 inches apart. Mulch with leaves or manure. For pot culture one bulb in a 5 or 6-inch pot; three bulbs in a 7-inch pot. Barely cover bulb and set in a ventilated, dark closet for six weeks to get the bulbs well rooted before the top growth starts. Be sure to moisten regularly. Hyacinths can also be grown in water, using our **Special Hyacinths Glass**, 50c each; postage 10c extra, delivered at owner's risk.

Daffodils, Narcissus and Jonquils

We consider this group of Spring flowering bulbs to be the most satisfactory and valuable of all flowering bulbs; their exquisite perfume, earliness, free blooming and keeping qualities, endear them to all who have grown them.

Once planted in the field or garden, they need no further attention, but will thrive and perpetuate themselves, increasing in beauty for years.

Culture of Daffodils, Narcissus and Jonquils

OUTDOOR CULTURE—Plant in early fall if possible, but plantings as late as Christmas will give excellent results. The depth to plant is one and one-half the depth of the bulb. This gives a covering of two to three inches of soil. Any good garden soil which has not been recently manured will give satisfactory flowers, but a deep, moist loam is best. If the ground is dry or sandy it should be dug deeply, well manured and an annual, such as potatoes, grown the year previous. If your soil is light and you do not want to take off a crop before planting, give a light dressing of lime to the surface and work in a layer of well-rotted manure a foot below, so as to be out of reach of the bulbs; this layer is to hold the moisture, not as a fertilizer. The best fertilizer is ground bone. This can be used with safety on poor sandy soil.

All First Size Bulbs—We Pay the Postage.

Trumpet Daffodils

This is the grand old-fashioned type of Daffodil. They are always popular and always sure to give the best results. Multiplying freely and flowering under all conditions. Some folks incorrectly call them "Jonquils," which you find listed a little further on.

EMPEROR—Most popular grown. Deep yellow, large flowers on long stiff stems, fine for cutting. Large bulbs. Each, 15c; doz., \$1.50; 100 for \$10.00.

EMPRESS—Companion to Emperor. White wings and deep yellow trumpet. Each 15c; doz., \$1.50; 100 for \$10.00.

PRINCESS MAXIMUS—Very popular bedding yellow daffodils, with a drooping trumpet. Fine for all purposes. Each, 10c; doz., \$1.00; 100 for \$7.50.

GOLDEN SPUR—This is the finest very early yellow daffodil. The trumpet and wings are very deep golden yellow. Splendid for bedding, window boxes and pot culture. Each, 9c; doz., \$1.50; 100 for \$10.00.

TRUMPET MAJOR—Very popular deep yellow, with an upright trumpet. Good flower for all purposes. Fine for massing. Each, 10c; doz., \$1.00; 100 for \$7.50.

VON SION—Beautiful pure yellow double trumpet. Each, 15c; doz., \$1.50; 100 for \$10.00.

Crown Daffodils

Chalice Cup Type

Everyone should include this interesting and satisfactory type of Daffodils in their collection, distinguished by their short crowns or chalices that are usually brightly set off by a rim of orange scarlet. Some of the cups are quite deep and at times could be classed as half trumpets. All are easily grown to perfection. Try a few by all means.

BARRII CONSPICUUS—Graceful bright yellow wings, with small yellow cup, edged with orange-scarlet. Each, 10c; doz., \$1.00; 100 for \$7.50.

SIR WATKINS—Very large yellow wings, with a large deeper yellow cup or half-trumpet. This is a very fine popular flower. Each, 15c; doz., \$1.50; 100 for \$10.00.

Poeticus Narcissus

POETICUS ORNATUS is the beautiful and well-known type, with large single glistening white flowers, set off with a small orange and red cup. Have a most pleasing, delicate fragrance. Splendid for cutting and naturalization. Each, 8c; doz., 75c; 100 for \$5.00.

Trumpet Daffodils are the "Queens of Spring"

Jonquils (Miniature Daffodils)

CAMPERNELLE—Very small yellow daffodil-like flowers in a cluster of three or four flowers on slender stems. Sweet scented. Doz. 75c; 100 for \$5.00.

DOUBLE SWEET SCENTED—Similar to above, with very double yellow blossoms. Doz., 75c; 100 for \$5.00.

Polyanthus Narcissus

These compose the sweet-scented cluster type that are so easily grown outdoors in pots, or in water with gravel or small stones. Each stem carries from 15 to 20 blossoms.

PAPER WHITE GRANDIFLORA—Large clusters of silvery white flowers. Very free flowering. Multiplies well. Each, 8c; doz., 80c; 100 for \$5.50.

SOLEIL D'OR—Deep yellow flowers in cluster, with deep orange cups. Very distinct and becoming very popular. Each, 15c; doz., \$1.50; 100 for \$10.00.

Chinese Sacred Lily

The Chinese Lily bulbs offered by us are large, solid and well matured. They can be relied upon to be the true Chinese, which are superior to those grown elsewhere.

Price, 15c each; 6 for 75c; 12 for \$1.50.

For the Brightest Spot in Your Garden Our Beautiful Brilliant Tulips

It is difficult to conceive of anything more brilliant in color than a bed of good tulips. Their great variety of color, intense brilliancy and beautiful shading make them universal favorites. Another consideration in their favor is the ease with which they can be cultivated, only requiring good common garden soil to grow them to perfection. There are no other bulbs which make such a rich and gorgeous display of blossom with so little care and cultivation.

Tulip Culture

The culture of tulips out of doors is the same as that of hyacinths, except that the bulbs should be planted about three inches deep and three to six inches apart. Tulips are perfectly hardy, so that only a slight protection is required from extremely cold and sharp winds.

Many of the single varieties force readily and have become great favorites for house culture. If potted in September and treated as directed for hyacinths they may be had in bloom in December. Two bulbs in a four-inch pot have been found desirable. When they show a tendency to bloom just above the bulbs they must be kept longer in the dark to draw out the flower stems. A splendid effect is obtained by planting from three to a dozen bulbs in a medium-sized pot.

DOUBLE, EARLY FLOWERING TULIPS

Splendid mixture of
all colors
80c doz., \$5.50 per 100

BUTTERFLY TULIPS

Glowing mixture of all
colors of fantastic
flowers

Selected May Flowering Tulips *Holland Grown*

MAY-FLOWERING or Cottage Tulips, Darwin, Rembrandt and Breeder types, all blossom at about the same time and may be planted harmoniously together.

This class of beautiful Tulips contains certain shades, particularly the yellows, and others have pointed bases and petals not found among the Darwins and Breeders. They can be grown with these sorts, as they all have fine long stems. We recommend them particularly for bedding, especially the Gesnerianas.

	Doz.	100
CALEDONIA —Bright orange scarlet, globe-shaped.....	\$0.65	\$4.50
GESNERIANA MAJOR —Brilliant scarlet, blue base, pointed base and petals.....	.65	4.50

Special Mixtures of Mayflowering or Cottage Tulips

An excellent collection giving a dazzling display in mass. Splendid for cutting. Per doz., **60c**; 100, **\$4.00**; 1000, **\$37.50**.

REGULAR MIXED. Per doz., **50c**; 100, **\$3.50**; 1000, **\$32.50**.

Parrot Tulips

Brilliantly splashed and striped in reds, green, black and yellows. The large petals are fantastically cut or serrated as neatly as if accomplished artificially with scissors. Try a few in pots or make a border for a novelty. Mixed colors, **60c** per dozen; **\$4.00** for 100.

Tulips for Pots and Borders

Very early and short stemmed. Our mixture contains the brightest colors found in tulips.

KEISERKROON—Very large crimson, scarlet edged, bright yellow. Doz., **\$1.00**; 100 for **\$7.00**.

SUPREME MIXTURE of bright colors. Fine for potting in fibre or soil. Doz., **90c**; **\$6.50** per 100.

Plant a shallow rooting annual in your Tulip bed and you will not have a bare spot when the bulbs are gone. It also keeps the weeds down. Forget-me-nots, Petunias, Pinks, Poppies, Verbenas, Candytuft are a few of the best. Low-growing perennials are also good, as they need not be disturbed. It is best not to lift Tulips each year. Leave them in the ground. They bloom better.

Spring and Summer-Blooming Garden Iris

HARDY IRIS OR FLAGS

This type has beautiful orchid-like flowers and broad foliage which is evergreen. Very suitable for planting in borders in light shade or sunny places. Plant 2 inches deep and 15 inches apart.

25c Strong 3 for 70c
Root 6 for \$1.30
12 for 2.50

Blue Jay: Standards bright clear blue; falls intense dark blue.
Caterina: Standards clear light blue; falls soft lilac blue, deliciously fragrant.

Dr. Bernice: Standards coppery bronze; falls velvety crimson; very large and beautiful.

Her Majesty: Standards soft rose; falls deeper rose, heavily veined.

Isolene: A new variety; standards pale lavender; falls light purple overlaid with brown, beard yellow.

King of Iris (new): Standards lemon yellow, falls deep brown and yellow; one of the most beautiful sorts.

Lohengrin: Flowers of gigantic size, with petals two inches wide of a silvery mauve.

Madam Chereau: White, elegantly frilled, azure blue at the edges.

Nibelungen: Standards fawn yellow; falls deep purple, edged creamy white; new sort.

Nuee d'Orange: Standards slaty gray; falls bronze and purple; very large.

Oriflamme: Standards light blue; falls rich violet-purple. Immense, handsome flowers.

Rhein Nixe (new): Standards pure white, falls deep violet-blue with white margin.

Rembrandt Tulips

Late Flowering for the Open Ground

These late tulips are much like the Darwins but are striped and feathered, in this respect resembling the Byblooms formerly so much used. They are of fine form and substance, lasting after cutting.

Rembrandt Mixed—Darwin tulips with striped or feathered flowers. Many pleasing shades and colors. **75c** per 12; **\$5.00** per 100

Japanese Iris (Iris Kaempferi)

Entirely distinct from all other Iris and originally from the Orient, where it has been improved and cultivated with almost divine attention for many centuries. The blossoms have from three to six flat petals, often eight to ten inches across and three very short, narrow standards in center. Come on two to three feet stems. They come in a most wonderful array of colors, running through blues, purples, grays, lavenders, white rose and crimsons. Plant them in a very moist location, almost wet; however, they are grown to advantage in any good soil with regular garden watering. Barely cover crown and plant twelve inches apart. **Special rainbow mixture** of all colors, **35c** each; 3 for **\$1.00**; 12 for **\$3.50**.

Spanish Iris

SPANISH IRIS have been very popular as a florists' cut flower. However, anyone can easily grow them in a well drained location. The flowers are about one-half the size of the Fleur des Lys and borne on very slender stems about two feet long. Falls and standards are very narrow and exceedingly graceful. Plant the bulbs about two inches deep and three or four inches apart in rows or groups. **Our special mixture** of all the colors—blues, whites, yellows and bronze—**75c** per dozen and **\$5.00** per 100 bulbs. Postpaid.

Mourning Iris (Susiana)

This is a very beautiful and very distinct variety, growing one foot tall and blooming in May. The large flowers are silvery gray veined with dark chocolate and covered with a network of fine lines. Set the bulbs three inches deep and twelve inches apart.

After the foliage has turned yellow in the summer the bulbs should be dug up and stored away in dry soil until the fall. **75c** each, 3 for **\$1.75**; 12 for **\$7.50**.

Some Old Fashioned Favorites and Novelties are Offered Here as Popular Spring and Summer Flowering Bulbs

Alstromeria

Spike of Alstromeria

(Peruvian Golden Lily)
Peruvian lilies are becoming very popular, and justly so, because of their wonderful keeping qualities, lasting a week or more in water. On two and a half feet lily stems they produce large clusters of bell-shaped orange yellow flowers, spotted red. Price 25c each, \$2.50 per doz.

Amaryllis

Belladonna Major is the beautiful bright, soft rose-pink trumpet-shaped lily blooming on long thick stems without foliage during August and September, the leaves appearing later on. Do not disturb the roots after planting, as it usually keeps them from blooming freely. Barely cover the crowns. Price 15c each, \$1.50 per doz.; postage extra; 8 lbs. to 12 bulbs.

Anemones

Anemones are among the most beautiful flowers grown from bulbs. Large single poppy-like blooms three to four inches across, in a wonderful array of colors running through the blues, scarlets, pinks, splashed and white. Soak the bulbs in water over night. Plant six to seven inches apart and one inch deep. Must be well drained and covered with a mulch. We offer the finest type, the giant French De Caen Anemones, at 60c per doz.; \$4.00 per 100.

YELLOW CALLA LILY

Same habit of growth as the white calla lily. Color of flower is a rich golden yellow, foliage dark green with creamy white spots. Large bulbs, 25c each; \$2.50 dozen.

MUSCARIAS (GRAPE HYACINTHS)

Beautiful little blue flowers, fine for planting in masses for naturalizing or for planting in pots or window boxes; plant 5 bulbs to a six-inch pot. 50c dozen; \$3.50 per 100.

SCILLA SIBERICA BLUE SCILLA SIBERICA WHITE (WOOD HYACINTHS)

A valuable flower for massing in shady beds and borders, will brighten up the dark corners of the garden. 50c dozen; \$3.75 per 100.

Begonias (Tuberous Rooted)

These are the Giant Flowering Begonias with flowers often five to six inches across. Make very fine indoor pot plants and very suitable for bedding purposes in a sheltered, partially shady location. We offer the following colors: Pink, copper, red, yellow and white.

SINGLE VARIETIES—Any color or mixed. Price 25c each, 12 for \$2.50.

FRILLED VARIETIES—Any color or mixed. Price 30c each, 12 for \$3.00.

DOUBLE VARIETIES—Mixed colors only. Price 35c each, 12 for \$3.50.

Bleeding Heart

DICENTRA SPECTABILIS is the Bleeding Heart of old gardens and a very handsome plant. It grows one to two feet in height, with graceful branches, fern-like foliage and a long raceme of heart-shaped, rosy pink flowers, pendant below. It is an excellent plant for Winter forcing. It thrives in a shaded position. Strong roots, \$1.00 each; 3 roots for \$2.75.

Caladiums (or Elephant's Ears)

Caladiums produce magnificent leaves of a deep green color almost as large as an elephant's ear and which they curiously resemble. They have a wonderful tropical effect that few plants possess. Very easily grown, doing particularly well in moist to very wet locations. Price 30c each; \$3.00 per doz.

Cannas

Are best planted when the ground warms up in the Spring. A complete list of this brilliant flower is contained in our General Garden Guide, ready January 1st.

Crocus

Crocus are the earliest bulb to flower, often called the "Harbingers of Spring." Bright flowers the size and shape of a pear. Plant in rows two or three deep for borders or naturalize in the lawn and under shrubs. Fine for potting in bulb fibre. Blue, White striped, Yellow and mixed colors. 35c for 12; \$2.50 for 100.

Popular Spring and Summer-Flowering Bulbs

Freesias

These hardy and easily grown bulbs are found in nearly every garden, coming up year after year. Until a few years ago we could only offer the white form. They are now to be had in a rainbow of colors: lavenders, creams, orange and pinks in our special.

Rainbow Mixture of Colored Freesias, 65c per doz.; \$4.50 per 100.

Improved Purity—Giant pure white. Large bulbs, 25c per doz.; \$1.75 per 100.

Ixias (African Corn Lilies)

One of the prettiest bulbous flowers growing to a height of 15 inches and producing quantities of fine cut flowers. The spikes carry a number of star-shaped blossoms, which are beautifully set off with a clean-cut eye of color on a base of many colors, including yellows, crimson, pinks, white and even a bright pea green. They increase rapidly in sunny, well-drained location. Our beautiful mixture of all colors is 50c per doz.; \$3.50 per 100.

Montbretias

Are of the very easiest culture, establishing themselves under any conditions anywhere. A spike flower resembling a small flowered Bride Gladiolus with a very thin stem. We offer a specially fine mixture of yellows, orange and orange-scarlets at 40c per doz. and \$2.50 per 100.

Oxalis

Beautiful little half-trailing or bushy plants. Fine for pot, hanging baskets and borders. Flowers all spring and summer. The Grand Duchess variety comes in Pink, White, Lavender and Yellow. Price 30c per doz.; \$2.00 per 100. Postpaid. The Bermuda Buttercup variety is so well known it needs no description. At same price.

Peonies

Plant them in deep rich soil, setting the roots so that the crowns are covered with two inches of earth. If planted too deep they are not likely to bloom freely.

Strong Clumps, in separate colors or assorted, 75c each; \$7.75 per dozen.

Snowflakes (*Leucojum Vernum*)

Small, white, bell-shaped flowers that have a very unique green tip on each petal. Require a partial shade and plenty of moisture to multiply freely. Very early to bloom and splendid for cutting. Price 50c per doz.; \$3.50 per 100.

Snowdrops

One of the very first Spring flowers to bloom. Modest little three-petaled, half-opened flowers that droop their snowy white blossoms on graceful stems. Fine for cutting and shady locations.

Double Imported, doz., 75c; 100 for \$5.00.

Single Imported (doz. 50c; 100 for \$3.50.

Sparaxis

Very unusual and brilliant colors are found in this beautiful bright flower. Particularly the red and yellow shades being found tigered and blotched in the same flower. Good, long stems. Doz., 50c; 100 for \$3.50.

Watsonias

A tall spike flower similar to the late Gladiolus, blossoms slightly hooded and set apart on the spike. Very easily raised.

Pure White, 50c per doz.; \$3.50 per 100.

Mixed Pink, Lavender and Cerise, \$1.00 per doz.; \$7.00 per 100.

Tuberose

An old-fashioned eastern favorite that must be grown in a warm, sheltered location. The flowers are pure white, wax-like and have a very agreeable fragrance. Send your order in now for February delivery. 10c each; \$1.00 per doz.

Ranunculus

Everyone admires these cheerful, rose-shaped blooms in the early Spring. The flowers are several inches across, in many Oriental colors. They bloom very freely for several months and are specially offered to you for bedding, massing, potting or borders. We have some especially fine bulbs at 50c per doz. and \$3.50 per 100.

Tested Lawn Grasses—For Lawns, Playgrounds, Golf Links, etc.

There is no more important feature of a garden than the lawn. Good, well-kept lawns are admired by all and reflect to an extent an owner's pride in his community.

How to Make a New Lawn—

Always recall that all soil grows and contains many weeds before it is touched by you. Hoe the surface clear of weeds and roots. Spade your soil carefully, commencing at one end with a trench the depth of your spade. As you progress, take the surface crust off the ground being spaded and bury at the base of the trench. In this manner you kill many (nearly all) of the obnoxious weeds. Break up the surface clods, raking, leveling and grading the lawn carefully. The next step is seed. You must use plenty for the best results. We recommend one pound of seed to 10 by 15 or 150 square feet. Scatter the seed as your eye directs, saving a little out to finish the misses and edges. Rake the seed in lightly, or if a clover lawn, do not rake, but chop it with the rake. After this is done, use the back of your spade or a long heavy board to firm the surface well. Then keep the surface well moistened morning and evening, if necessary, until all the seed is up, which may be three or four weeks.

Our Special Recleaned Kentucky Blue

Makes the finest deep green grass known, but rather hard to start. Much care, warmth and proper moisture will insure you fine results. Very long lived. Price, 60c; 10 lbs. for \$5.75.

Chewing's Fescue

Forms a close, lasting turf, succeeding well even under poor conditions. It is used extensively in lawn and putting green mixtures. Per lb., \$1.00; 10 lbs., \$9.00.

HOW TO IMPROVE AN OLD LAWN—With a sharp tooth rake break into surface and pull through the old sod severely. One pound of seed mixed with a pailful of soil and scattered evenly over 10x25, or 250 square feet. Take a broom and sweep the seed into the crevices made by the rake in the old sod firming well with back of spade. In a few weeks your lawn will be greatly improved.

Standard Golden Gate Park Mixture

This mixture is very popular where quick results and a strong turf can stand abuse if desired. Contains a trace of white Dutch clover also. Price, 40c per lb.; 10 lbs., \$3.70.

Neutraumont's Shady Spot Mixture

Adapted for partial and shady lawns, especially under trees and locations where you cannot grow other grasses. Price, \$1.00 per lb.; 10 lbs. for \$9.00.

White Dutch Lawn Clover

The dwarf small leaved white clover, especially cleaned and free of weeds. Makes a wonderful drought resistant lawn. Price 75c per lb.; 10 lbs. for \$6.50.

Pacific Rye Grass

Much finer leaved than the common Australian Rye, and therefore more suitable for a bright green straight grass lawn. Any soil gives good results, even our San Francisco sand when fertilized with "Groz-It." Price, 35c per lb., 10 lbs. for \$3.00.

Australian Rye Grass

Quickest growing grass sold, but rather coarse and tough. Fine for backyard lawns and playgrounds. Price, 30c per lb.; 10 lbs. for \$2.50.

Red Top Grass

Gives a quick effect and succeeds on all soils, though doing best on moist soils. Should be in all lawn mixtures. Per lb., 45c; 10 lbs., \$4.00.

NEVRAUMONT'S VELVET LAWN MIXTURE

We Recommend This Lawn Grass Above All Others. Grows under All Conditions Everywhere. Composed of the very finest lawn grasses we can obtain, properly balanced by us to make the most durable, smooth, velvety, deep green lawn possible. A sprinkle of white Dutch clover is in this superb mixture to keep the grasses fed with nitrogen and to have the lawn looking bright and green in the summer and dry periods. This is the lawn for everyone everywhere. One pound covers 10x15 or 150 square feet well. Always use plenty of seed for the best lawns.

Price 60c per pound; 5 pounds for \$2.80; 10 pounds for \$5.50—Postpaid

FERTILIZERS TO IMPROVE YOUR SOIL

"GROZ-IT" (Pulverized Sheep Manure)

A complete, safe, concentrated natural fertilizer that is light, dry, odorless, free of weeds and trash, with a plant-food value many times that of barnyard manure. Safe to use.

For Lawns—After being sprayed on the grass and watered the manure disappears, so that, while undergoing fertilization, the beauty of the lawn is not impaired.

For all kinds of flower beds, especially tubers and bulbs, which require a large amount of potash.

For window boxes and house plants.

For fertilizing your trees.

10 lbs. for 65c, delivered; 25 lbs. for \$1.30, delivered; 100 lbs. for \$2.50, delivered.

SUPERPHOSPHATE FERTILIZER

Contains 18% superphosphate, an organic element which is often missing in our California Soils. Not only a very good fertilizer, but a neutralizer, breaking up and releasing insoluble plant foods present in nearly all soils. We can strongly recommend this fertilizer, guaranteed by Government analysis, to be a good value at the following prices. 4 lbs., 25c; 10 lbs., 50c; 25 lbs., \$1.00; 50 lbs., \$1.75; 100 lbs., \$3.00.

GROMORE COMPLETE FERTILIZER (Concentrated)

Just the right size for window boxes and house plants. Clean, odorless, complete plant food in a handy 2-lb. carton for 50c; 5 lbs., \$1.00.

(If small quantities are wanted by parcel post, add postage.)
Pure Ground Blood and Bone Meal—Fine pulverized; excellent for rose-culture. It decomposes very rapidly and is more quickly effective than the coarser grades. It is excellent for mixing with the soil for potting. 3 lbs., 25c; 10 lbs., 75c; 25 lbs., \$1.50; 50 lbs., \$2.75; 100 lbs., \$5.00.

Bone Meal—5 lbs., 35c; 10 lbs., 60c; 25 lbs., \$1.25; 50 lbs., \$2.00; 100 lbs., \$3.50.

Stim-n-plant—A concentrated fertilizer in tablet form. Guaranteed analysis of 11% nitrogen, 12% phosphoric acid and 15% potash. Full directions with each package. 30 tablets, 25c; 100 tablets, 75c; postage, 5c extra.

Vitamite—This wonderful Bacteria is applicable to all plant life directly without the use of legumes. Mix with soil at per acre. 1 lb., 60c; 5 lbs. \$2.75.

Nitrate of Soda—Chiefly a stimulant; 10c per lb.; 10 lbs., 75c; the rate of 1 part Vitamite to 25 parts of soil. Use 5 lbs. 2 lbs., \$1.50; 100 lbs., \$5.00.

BERRIES

Berries demand little room, and a small plot in the garden on the ranch or city lot will yield abundance of delicious fruit for the table and preserving. Near to markets under favorable conditions, growing berries on a small acreage is exceedingly profitable. We list the varieties that have proven best adapted to California conditions.

GOOSEBERRIES

Oregon Champion. This new variety originated in the state from whence it takes its name. The fruit is large and round; bush is a prolific bearer and free from mildew. 25c each; \$2.00 per 10.

CURRENTS

Cherry. Vigorous and productive when grown on good soil and properly cultivated; berries large and deep red; rather mild. 25c each; \$2.00 per 10.

STRAWBERRIES

Banner. (New) Conceded the queen of the Strawberry family for the Pacific Coast. Stock of the original strain has been practically unobtainable until this season. A firm berry, deep red color, having an attractive appearance; sweet in flavor, and a fine keeper; a heavy bearer and a long-lived plant. 35c per 10; \$2.50 per 100.

Himalaya Blackberry. A rampant grower, the canes often growing to 40 feet in one season; a prolific bearer, the fruit having but few seeds. 25 each; \$2.00 per 10.

MAMMOTH BLACKBERRY

Supposed to be a cross between the wild blackberry of California and the Crandall's Early. Deep red; enormously productive and exceedingly early; fruit enormous size. Strong one year old roots, 25c each; \$2.00 per 10.

LOGANBERRY

Fruit is $1\frac{1}{4}$ inch long, dark red; as large as the largest blackberry and partakes of the flavor of both the blackberry and raspberry; excellent for table, eaten raw or stewed; makes a fine jelly or jam. Ripe in May. Strong one year old roots, 25c each; \$2.00 per 10.

RASPBERRY

Cuthbert. Standard. Large; rich crimson; good shipper. 15c each; \$1.00 per 10.

Golden Queen. Large; golden yellow; fine quality. 25c each; \$2.00 per 10.

Gregg. Standard blackcap; productive and hardy; seeds large; best shipper. 25c each; \$2.00 per 10.

St. Regis. Raspberries 4 months after planting. Bright crimson fruit of good size and quality. From June until frost. 20c each; \$1.50 per 10; \$12.50 per 100.
