Bulk's **Nurseries**

1928

BABYLON
Long Island, New York

Planting Seasons

Evergreens may be planted from the time the frost leaves the ground until the latter part of June, though early planting is much preferred. Some varieties of evergreens, however, can be moved more or less satisfactorily all during the summer months. August, September and October are also excellent months for moving evergreens.

Plant shrubs, trees, and fruit trees from the latter part of March till June, and in the fall from the middle of October until the ground freezes.

General Directions for Ordering and Our Terms

In ordering, always give explicit directions as to address and desired time of delivery. Otherwise, we will use our best judgment and forward by most economical route. Practically all our deliveries will be made by our trucks. Delivery is free of charge within a 5-mile radius of our office—beyond 5 miles a small charge will be made for delivery, to cover cost, unless otherwise arranged for at time of sale.

Guarantee

It being impossible for us to control the after-care and weather conditions which may affect newly planted trees, Bulk's Nurseries agrees to resupply, at one-half the original price paid, any plants sold at the within published prices, that may die within one year from date of invoice, from causes other than abuse or neglect, making the following reservations:

1. The account to be paid within 30 days from date of invoice.

2. That in the event we shall not have in stock, at the time for replacement, plants like those originally supplied, or are prevented by strikes or other conditions beyond our control from making shipment of plants needed for replacement, then we are to apply the amount of credit to which the customer is entitled toward the purchase of other plants that he may at the time select and which we can supply.

We guarantee our stock to be true to name and will replace any that may prove otherwise or refund the purchase price. We guarantee our stock to be in good condition when shipped.

BULK'S NURSERIES

Babylon, Long Island

New York

Telephone: Babylon 444

A Cordial Welcome Awaits You

TO ALL interested we extend a cordial invitation to visit our Nurseries and make a personal selection of trees and shrubs. The office and Nurseries are on the Merrick Road, one mile west of the village of Babylon, L. I.

During spring and fall our office and Nurseries are open to visitors on Sundays. Appointments, at your home, for any day in the week, including Sundays, will be made and kept.

*It's not a Home
'Till it's planted*

Entrance to office and show grounds of our Nurseries. Drive in. You are always welcome

We have 40 acres devoted to growing hardy plants of all kinds and sizes, and here, almost at your door, you will find a large assortment to select from—the varieties best suited to our Long Island climate and soil and grown under exactly the same conditions as those which they encounter when planted at your home.

BULK'S NURSERIES, BABYLON, LONG ISLAND, N. Y.

Landscape Service

We consider it a pleasure to offer, without charge, suggestions in regard to planting problems to those who have time and do not wish to employ experienced help. Where special visits, plans, specifications, etc., are necessary, a moderate charge will be made for that service.

Landscape work attempted without the most careful consideration of all details is never satisfactory and usually entails large additional expenditures for omissions and revisions. For good results, one has to know what varieties of shrubs attain certain heights and which varieties do well in the shade, or which are suitable for sandy soil or seashore planting.

We have men who are technically trained in the designing and the execution of landscape problems, and have also the practical experience absolutely necessary in this kind of work. We have available at the proper seasons of the year, gardeners for general overhaul, summer and winter pruning, spraying, hedge-trimming, and winter mulching. Such work is important, if satisfactory results are to be secured, and should be entrusted only to thoroughly trained men.

Retinospora (Chamaecyparis) pisifera plumosa. See page 6

Evergreens

In this group are contained some of the most valued plants for landscape effects. The diversity of color and habit of growth in this class provides truly "a plant for every place and purpose," some for limited areas of foundation plantings or for bed and border uses, others for screens, hedges, windbreaks, and for group and specimen plantings. They are always desirable for any landscape plantings for both summer and winter effects.

Tsuga canadensis

Rhododendron catawbiense

Evergreen Shrubs

With few exceptions, no grounds, either small or extensive, should be without some representative of this rich and interesting group of plants. They endure shade and their rich blossom and foliage effect makes them almost indispensable. Certain varieties of this class, such as Rhododendrons, Azaleas, and Laurel ordinarily grow more satisfactorily and show to better advantage when planted in rather heavy masses. A deep, cool, moist subsoil, with proper drainage, is ideal.

The following list comprises the most popular varieties.

AZALEA amœna. <i>Pink Japanese Azalea.</i>		Each
10 to 12 in.		\$2 00
12 to 15 in.		2 50
15 to 18 in.		3 00

See the front pages of this booklet about our Landscape Service, planting season, and our Guarantee

Ornamental Trees

In addition to the trees which are valued for their shade, there are flowering trees which, at different times during the spring and summer, shower the lawn with their bloom. Do not forget that while shade trees add materially to the property value and landscape charm of your home, the initial cost is very small as compared with the enjoyment that you receive. The average shade tree is a long investment and returns your money manifold throughout the years of its usefulness.

	Each
ACER dasycarpum. <i>Silver Maple.</i> 6 to 8 ft. . .	\$1 50
8 to 10 ft.	2 50

Flowering Shrubs

Whether planted individually or collectively, shrubs are an important feature in the adornment of any grounds. In groups they can be made to emphasize some feature of the lawn, to screen the garage, the laundry yard, or some unsightly view. Among borders of the lawn, along walks and drives and in corners, collections of shrubs may be gathered that will give a succession of bloom from early spring until fall. In the list that follows will be found shrubs for all such purposes.

AMYGDALUS communis. <i>Double Pink-flowering</i>	Each
<i>Almond.</i> 2 to 3 ft.	\$1 25
3 to 4 ft.	1 50
4 to 5 ft.	2 50
AZALEA calendulacea. <i>Flame Azalea.</i> Bright orange-red blossoms in June. 1½ to 2 ft. .	2 50
2 to 3 ft.	3 00
3 to 4 ft.	4 00
A. kaempferi. <i>Torch Azalea.</i> Orange-red to pink flowers in May. 12 to 15 in.	2 00
15 to 18 in.	2 50
1½ to 2 ft.	3 50
A. viscosa. <i>Swamp Azalea.</i> Fragrant white flowers in June. 1½ to 2 ft.	1 50
2 to 3 ft.	2 00
3 to 4 ft.	3 00
4 to 5 ft.	4 00
5 to 6 ft.	7 00
BERBERIS thunbergi. <i>Japanese Barberry.</i> See also Hedge Plants, page 31. 12 to 15 in. . .	25
15 to 18 in.	30
1½ to 2 ft.	35
2 to 2½ ft.	50
2½ to 3 ft.	75

FLOWERING SHRUBS, continued

Berberis Thunbergi atropurpurea. <i>New Red-leaved Japanese Barberry.</i> Foliage is rich, lustrous bronzy red all through the summer; in the fall it changes to vivid orange and is followed by brilliant scarlet berries which remain on the plant the entire winter. 1 to 1½ ft.		Each
1½ to 2 ft.	\$1 00	
2 to 2½ ft.	1 50	
	2 00	
BUDDLEIA davidi veitchiana. <i>Veitch Butterfly Bush.</i> 2 to 3 ft.		75

5 to 6 ft.	1 50
6 to 7 ft.	2 50

Berberis thunbergi

Hedge Plants

Hedge plants have their most practical value for marking boundaries and screening unsightly objects from view, but they become very ornamental as well if a little attention is given at the right time.

California Privet is most generally used for hedges, being a fast grower, very hardy, and adaptable to shearing.

Japanese Barberry is best used where the location is sandy or shady. Its red berries in the fall add to its value as an ornamental hedge plant.

BERBERIS thunbergi. <i>Japanese Bar-</i>	10	100
berry. Attractive shaped plant;		
yellow flowers in early spring;		
bright red fruit persisting all winter.		
12 to 15 in.	\$1 80	\$15 00

2½ to 3 ft.	8 00	75 00

Souv. de Claudius Pernet Roses

Hardy Roses

Roses—the mere name is an inspiration to garden-lovers. Nothing can take the place of the rose. Almost every home has room for at least a few.

Roses will grow in any fertile soil, but are much improved in bloom, fragrance, and beauty by rich soil, liberal fertilizing, and good cultivation.

Branches should be well cut back early each spring.

Hybrid Tea and Perpetual Blooming Roses

Strong 2-year-old, field-grown plants, \$1 each, \$9 for 10

- Columbia. Lively pink.
- Duchess of Wellington. Saffron-yellow, stained crimson.
- General MacArthur. Velvety scarlet.
- General-Superior Arnold Janssen. Glowing carmine.
- George Dickson. Velvety red.
- Gruss an Teplitz. Fiery crimson; very free.
- Kaiserin Auguste Viktoria. Creamy white.
- Killarney Brilliant. Improved Killarney. Brilliant pink.
- Killarney Queen. Cerise-pink.
- La Tosca. Silvery pink.
- Lady Ursula. Smooth flesh-pink.
- Mme. Butterfly. An intensified Ophelia.
- Mrs. Aaron Ward. Deep Indian-yellow.
- Mrs. Franklin Dennison. Very large, full, well-formed flowers of porcelain-white.
- Ophelia. Light salmon-pink-flesh, yellow base.
- Red Radiance. Bright carmine-salmon, shaded red.
- Rev. F. Page-Roberts. Large; yellow; sweet-scented.
- Souv. de Claudius Pernet. Lovely sunflower-yellow, deepening in the center.
- Souv. de Georges Pernet. Large; oriental red.

Hybrid Perpetual Roses

Strong 2-year-old, field-grown plants, \$1 each, \$9 for 10

- Fisher Holmes. Bright velvety crimson.
- Frau Karl Druschki. Large white blooms.
- Gen. Jacqueminot. Scarlet-crimson.
- Magna Charta. Rosy pinkish carmine.

Rambler and Climbing Roses

Two-year-old plants, \$1 each, \$9 for 10;
extra-strong, \$1.50 each

American Beauty, Climbing. Large, double, rich carmine blooms.

Baby Rambler Roses

2 years	1 00
3 and 4 years	\$1.50 to 2 50

Ideal. Brilliant scarlet, shaded crimson.

Greta Kluis. Soft carmine-pink.

Katharina Zeimet. Pure white.

Baby Rambler Roses

Vines and Climbers

For quick results in covering the bare sides and softening the sharp angles of buildings, hiding unsightly fences, beautifying and shading porches, bowers, and summer-houses, vines and climbers are indispensable. The sweeping vines about a porch appeal to everyone.

Aristolochia sipho

Achillea, The Pearl

Hardy Perennials

It is no wonder that these old-fashioned hardy garden flowers continue to increase in popularity, for there is not a time during the whole flowering season when some hardy perennial is not in bloom, and when, during the late summer, few shrubs are in blossom, these little plants may be depended upon for attractive display.

Plant perennials this year in the flower-bed where you have been using annuals. Every year you have to replace annuals, whereas the perennials come up each season with very little work or expense.

You do not need a large estate to have an old-fashioned garden or border from which you can pick flowers from early spring until late fall. Let us help plan your garden.

The size mentioned in the description indicates the height the plants may be expected to attain at maturity; the month represents the season of bloom.

Prices for Perennials, except where otherwise noted, 25 cts. each, \$2.50 per doz., \$20 per 100; extra large, 35 cts. each, \$3.50 per doz., \$25 per 100.

ACHILLEA, *The Pearl*. 2 ft. Small, double, white flowers from June to October.

ALTHEA. *Hollyhock*. 5 to 8 ft. All shades of red, white, pink, and yellow; double and single.

ANCHUSA *italica*, *Dropmore*. 4 ft. Intense blue flowers, on branched stems. May to July.

AQUILEGIA. *Columbine*. 2 to 2½ ft. Pink, red, blue, and lavender. May to July.

ASTILBE *japonica*, *Queen Alexandra*. 1 to 2 ft. June. 35 cts. each.

BELLIS *perennis*. *English Daisy*. 6 in. Improved double-flowering; various colors.

CAMPANULA *medium*. *Canterbury Bell*. 2 ft. Mixed colors. June.

HARDY PERENNIALS, continued

- CENTAUREA montana.** *Mountain Bluet.* 1½ ft. Violet-blue thistle-like flowers from June until September.
- CHRYSANTHEMUM, Hardy.** Flowers that last until frost. Pink, red and yellow.
- C. coccineum (Pyrethrum hybridum).** *Painted Lady.* 2 ft. A most attractive garden variety with red, pink, and white daisy-like blooms, single or double. May to July.
- C. maximum.** *Shasta Daisy.* 1 to 2 ft. Large daisy-like white flowers with yellow center. June to September.
- CONVALLARIA majalis.** *Lily-of-the-Valley.* 6 in. Loves moist and shady places. May. 35 cts. each, \$3 for 10.
- COREOPSIS grandiflora.** 2 to 3 ft. Bright yellow flowers. Blooms from June to frost if flowers are cut as they fade.
- DELPHINIUM belladonna.** *Larkspur.* 2½ to 3 ft. Tall spikes of beautiful light blue flowers in June and July.
- D., Gold Medal Hybrids.** *Improved Larkspur.* The flowers are large, in all shades of blue, and are carried on 2-foot spikes. 35 cts. each, \$3 for 10.
- DIANTHUS barbatus.** *Sweet William.* 1 to 1½ ft. Very showy flower-clusters of red, pink, and white. May, June.
- D. latifolius atrococcineus.** An all-summer blooming Sweet William. Brilliant, fiery crimson flowers.
- D. plumarius.** *Garden Pink.* 1 ft. Great masses of pink, white and magenta blooms all summer. Fine for cut-flowers.
- DIELYTRA spectabilis.** *Bleeding-heart.* 1 to 2 ft. Its arching stems bear drooping, heart-shaped flowers of white and rose. Valuable for planting in the shade. May to July. 60 cts. each, \$5 for 10.
- DIGITALIS, Giant Shirley.** *Improved Foxglove.* Spikes 3 to 5 feet long, of enormous blooms, in various colors. June, July.
- FUNKIA.** See *Hosta*.
- GAILLARDIA aristata (grandiflora).** *Perennial Gaillardia.* 2 ft. Daisy-like blossoms of orange-yellow, banded with red. All summer.
- GYPSOPHILA paniculata.** *Baby's Breath.* 3 to 4 ft. Very minute delicate white flowers. Ideal for trimming bouquets. June to August.
- HIBISCUS.** *Marsh Mallow.* 5 to 6 ft. A large-leaved plant, producing large showy flowers throughout the summer. Fine for massing in moist places. Red, Pink, and White.
- HOSTA lancifolia undulata (Funkia).** *Wavyleaf Plantain Lily.* Long, narrow, wavy-edged leaves, with margins; pale lilac flowers. 35 cts. each.
- H. plantaginea (subcordata).** *White Plantain Lily.* White, trumpet-shaped flowers. 35 cts. each.
- HOLLYHOCKS.** See *Althea*, page 35.
- IBERIS gibraltarica.** *Evergreen Candytuft.* White shading to lilac. April, May.
- IRIS germanica.** *German Iris.* They vary in height from 2 to 3 feet, blooming in June in shades of purple, lavender blue, yellow, and white.
- I. Kaempferi.** *Japanese Iris.* 2 to 3 ft. Large, flat flowers in many colors. Last of June.
- I. sibirica.** *Siberian Iris.* 2 to 3 ft. Grass-like foliage with clusters of blue flowers. Adapted for mass and water-side planting. May, June.
- KNIPHOFIA uvaria (Tritoma uvaria).** *Torch Lily.* Rich orange blooms in tall spikes in fall. 35c. each, \$3 for 10.

Planting of Peonies

HARDY PERENNIALS, continued

LUPINUS polyphyllus. *Washington Lupine.* 3 ft. Large spikes of flowers in various colors. Prefer semi-shady location. May, June.

LYCHNIS chalcedonica. *Maltese Cross.* 2 to 3 ft. Flat heads of bright scarlet blooms, borne on stout, leafy stems. July, August.

PACHYSANDRA terminalis. *Japanese Spurge.* An evergreen ground-cover with attractive dark green leaves and white flowers. Valuable for planting in shady places where grass will not grow.

Pæonia • Peony

One of the most satisfactory of the perennials. Immense, double flowers in all colors. Those listed here are choice varieties recently imported from Holland. June.

Aurora. Attractive salmon-white.

Gloire de Charles Gombault. Outer petals flesh-pink with clear salmon center.

Linne. Very large bright deep pink flowers.

Mme. Emil Lemoine. Among the finest of all whites.

Monsieur Krelage. Large, full flower of deep wine-red; very fragrant.

Pomponette. Very fine; lilac-rose. Each

Medium sized plants \$1 00

Large sized plants 1 50

Mixed colors 75

PAPAVER orientale. *Oriental Poppy.* 3 ft. Mixed colors. June.

Phlox

During the dry, hot summer weather, when vegetation looks its worst, these plants can be depended upon to brighten the garden with their brilliant colors, ranging from white to rich crimson.

35 cts. each, \$3 for 10; larger size, 50 cts. each, \$4 for 10

Cocoquelicot. A fine scarlet.

General van Heutz. Bright salmon-red.

Miss Lingard. Early; everblooming; white.

Mrs. Milly van Hoboken. Large, soft pink flowers.

Rheinlander. Large, salmon-pink flowers in immense trusses. One of the best.

Thor. Rich salmon-pink.

HARDY PERENNIALS, continued

- Phlox subulata rosea.** *Moss Pink.* A creeping variety with moss-like, evergreen foliage, covered with pink flowers in spring. Splendid for ground-cover, for edging, and for rockeries.
- PHYSALIS francheti.** *Chinese Lantern Plant.* 2 ft. Enormous orange-colored fruit. Fine for cutting. May till frost.
- PHYSOSTEGIA virginiana speciosa.** *False Dragonhead.* Tall spikes of pink flowers all summer.
- PLATYCODON grandiflorum.** *Balloon Flower.* 2 ft. Large balloon-shaped, violet-blue blooms. July to September.
- PYRETHRUM.** See *Chrysanthemum coccineum*, page 36.
- RUDBECKIA hirta.** *Black-eyed Susan.* 5 to 7 ft. Yellow flowers with dark centers. July to September.
- SCABIOSA caucasica.** *Blue Bonnet.* 3 ft. Valuable for cutting, the blooms lasting a long time in water. Color, soft lavender-blue.
- SEDUM spectabile.** *Showy Sedum.* 1 ft. Large, flat heads of pink flowers. August, September.
- SHASTA DAISY.** See *Chrysanthemum*, page 36.
- STATICE latifolia.** *Great Sea Lavender.* Immense, candelabra-like heads of minute, purplish blue flowers in July and August.
- VINCA minor.** *Myrtle.* A familiar evergreen creeper with small blue flowers. Splendid ground-cover.

Fruits for the Home Garden

In the extremities of the lawn or upon the adjoining lot, plant fruit trees. They will bountifully reward you in the fruit they yield and which you will enjoy eating right from the trees or in winter as preserves and jam. The fruit-garden can easily be made a part of the scheme for beautifying your property. Flowers along the walk to the orchard will brighten the way and provide flowers for cutting.

The following is a limited selection of varieties that we know will do best on Long Island.

Apples

Early Varieties.

Red Astrachan. Red. July, August.

Yellow Transparent. Yellow. July, August.

Autumn Varieties.

Fameuse. Deep red skin.

McIntosh. Red. November to February.

Winter Varieties.

Baldwin. Red. January to April.

Delicious. Yellow and red. November to January.

Rhode Island Greening. Greenish yellow. December to April.

Crab-apple, Hyslop. Large; dark crimson.

5 to 6 ft., selected, 2 and 3 yrs. old \$1 50
6 to 10 ft., selected, 4 to 6 yrs. old \$2 to 5 00

Cherries

Black Tartarian. Sweet. 5 to 6 ft. \$1.75 each.
Early Richmond. Sour. 5 to 6 ft. \$1.75 each.

Pears

Bartlett. Early.
Clapp's Favorite. Early.
Kieffer. Late.
Seckel. Late.

	Each
4 to 6 ft., selected, 2 and 3 yrs.	\$1 50
6 to 10 ft., selected, 4 to 6 yrs.	\$2 to 5 00

Peaches

Belle of Georgia. Early; white; freestone.
Crawford Late. Late; yellow; freestone.
Elberta. Early; yellow. A very popular freestone.

Any one of the above varieties.	
3 to 4 ft.	75
4 to 6 ft., extra strong	1 25

Plums

Burbank. 5 to 6 ft. Large; cherry-red. \$1.75 each.

Quinces

Champion and Orange. 3 to 4 ft., \$1.50 each; 4 to 5 ft., \$2 each.

Plant a few fruit trees anyway. They are ornamental; and then no matter how plentiful fruit may be on the market, there's a flavor to one's own productions in the orchard and garden that just can't be found elsewhere.

Grapes

Catawba. Fine red Grape.
Concord. Blue; early; fine flavor. Most popular standard Grape grown today.
Niagara. The best standard white.
Worden. Black; large berries.

	Each	10
Strong 2-year-old plants	\$0 50	\$4 50
Strong 3-year-old plants	75	7 00

Currants

Red and White. 35 cts. each, \$3 for 10; extra-large, 75 cts. each.

Gooseberries

	Each	10
Downing. Green	\$0 35	\$3 00
Houghton. Red	35	3 00

These two varieties are recognized as the standards.

Raspberries

Everbearing. They require very little attention and supply plenty of delicious berries. 15 cts. each, \$1.25 for 10; extra-strong, 25 cts. each.

Blackberries

Eldorado. One of the best early to midseason sorts. 15 cts. each, \$1.25 for 10; extra-strong, 25 cts. each.

Rhubarb

Linnaeus. 30 cts. each, \$2.50 for 10.

Garden Furniture and Trellises

Entrance Arbor with Gates. Cypress, white, \$35

Arbor Seat. Cypress, white, \$45

Also Pergola Seats, Bird Baths, Benches, etc.
Prices on application

SPRAYING OF FRUIT TREES

For best results we recommend three sprayings: First, during the winter; second, after the blossoms fall; and, third, about two weeks later. This will control the most prevalent insects and fungous diseases attacking fruit trees on Long Island.

We have men experienced in this kind of work, who are available at a moderate cost.

LAWN SEED AND FERTILIZERS

Lawn Seed. Best mixture for Long Island. Lb. 50 cts., 5 lbs. \$2.25, 10 lbs. \$4, 100 lbs. \$35.

Bone-meal (Armour's). 100 lbs. \$4.

Sheep Manure (Armour's). 100 lbs. \$4.

Plantspur Sheep Manure. 10 lbs. \$1.

Irregular Flagstones for walks, in colors. 40c. per square foot.
