Wholesale Price List
FALL - - 1928

HARMEL PEONY COMPANY

ESTABLISHED 1911

WHOLESALE GROWERS PEONIES EXCLUSIVELY

BERLIN, MARYLAND

Please Read Before Ordering

SMALL ORDERS: Our prices are very low and at such prices, we cannot fill orders for less than twenty-five of one variety of the lower priced sorts, or five of one variety of the higher priced sorts, except as otherwise quoted.

SIZE OF ROOTS: Our prices are based on liberal, well balanced, three to five eye divisions, cut from three year roots and which should not be confused with divisions cut from old commercial cut-flower clumps that may have lost much of their vitality. The three to five eye divisions, through years of thorough testing, have proven to be the most satisfactory and economical size to buy and we recommend them to our customers.

GIVE US SHIPPING INSTRUCTIONS: When ordering, please give full shipping address when different from postoffice, and state whether you desire shipment via express or freight.

WHEN WE SHIP: We begin shipping as soon after September first as conditions will permit, and we continue shipping throughout the months of September, October and November, all of which months are equally suitable for successful planting of Peonies. Our Peonies are packed in tight, paper-lined boxes with old, damp sawdust and will carry to destination and keep in good condition for an indefinite period when stored in a cold, dry place.

TERMS: Cash with order, less three per cent from individuals or companies not satisfactorily rated. Otherwise, two per cent ten days, net thirty days. Special terms by agreement. All quotations subject to stock being unsold upon receipt of order. All contracts and agreements are made subject to flood, drouth, fire, frost, crop failure or other causes beyond our control. Prices are f. o. b. Berlin, Maryland.

NON-WARRANTY: We give no warranty expressed or implied, the purchaser assuming all risk and responsibility of transportation, planting, growth, life of stock or any other matter on any stock we sell. We exercise the greatest care to keep our plants true to name and are willing at any time to replace from our own stock, on proper proof, all stock that may prove otherwise, or refund the amount paid, but it is mutually agreed that we shall not at any time be liable for a greater amount than the original cost.

COMPLAINTS: Complaints covering packing, quality or count must be made to us within five days after receipt of stock.

HARMEL PEONY COMPANY.

PLACE ORDERS EARLY: We do not substitute unless instructed by customer to do so. Money promptly returned for any varieties we are sold out of.

PEONIES LEAD

With many lines of nursery stock in slow demand, Peonies, during the entire season of 1927, were in constant and heavy demand, in fact, the supply of many of the more popular varieties was exhausted before the season had hardly begun. Many growers are now complaining that they "sold short" on several kinds of which they will not again have sufficient to offer for three years. Orders have come from all sections where Peonies are known, and not only from the small buyers, but from those who are planting acres of the commercial cut-flower varieties.

The demand, through the florists, for cut-flowers, increases amazingly each year, indicating that the general public is more and more becoming convinced that the Peony stands supreme as the cut-flower of its season, and with millions of people in our country who do not yet know the beauty and satisfaction of the modern Peony, this demand will be sure to continue to increase for many years to come.

**"THE LIBERAL SIZE AND FINE QUALITY OF OUR
WELL BALANCED DIVISIONS, WILL PLEASE YOU."**

We are most fortunate, in the fact that we can offer this season, to our trade, a reasonable supply of high grade Peonies, grown under our personal supervision, on our own eighty acre farm, purchased and maintained solely for the production of fine Peonies on a large scale.

We sell large orders each year to some of the heaviest buyers of Peonies and we feel that our Peonies will also please you.

LARGE ORDERS: Please submit your "want list." On certain items, in quantity, it is often possible for us to quote lower than printed prices.

PEONIES ONLY

The World's Finest Varieties

— GROWN BY —

HARMEL PEONY COMPANY

BERLIN, :-- MARYLAND

PROFITABLE CUT-FLOWER and other commercial kinds which are especially popular and useful, and which can be offered at a low price, are "underscored" as **FESTIVA MAXIMA**. While all do not carry the highest ratings (too many ratings are established purely or mostly by judging the individual flower, and performance is lost sight of) most of them are cut-flower market varieties which have withstood the acid test of commercial growing, where none but the most reliable and prolific bloomers are tolerated. Such varieties, we endeavor to produce in quantity, in order to fill the larger orders of 1,000, 5,000 and 10,000 or more.

General List

All priced to interest the large buyer.

			1 to 4	5 to 24	25 to 100	Divi- sions

Satisfied Customers

Our First Consideration

As many as four hundred and twenty-five varieties of Peonies have been growing in our nurseries at one time but our policy is to reduce the number of varieties rather than to increase them. We are constantly discarding varieties which have proven unworthy of the high standard we wish to maintain and just as constantly trying out new varieties which seem to show promise. Our customers, in buying Peonies from us, may do so with the definite assurance that our list of varieties will constantly improve. **"When Better Peonies are Originated, we will Grow Them."** For various reasons, however, it will be impossible for us to offer each year all of the varieties we are growing but we hope to always offer a list containing some of the finest new varieties, as well as the commercial kinds.

A few of the lower rated kinds are maintained because of certain characteristics, making such varieties particularly adaptable to producing profitable crops of commercial cut-flowers. A variety to be a success as a commercial cut-flower variety, must be a reliable, every year bloomer and reasonably attractive in bud as well as flower. It must have, at least a fair color, and be an easy and perfect opener. Stems must be reasonably long, and it is desirable that the variety be a good shipper and hold well in storage.

A Few 1927 Compliments

"Your stock was the best packed and in the best condition of any stock of the kind we have ever received."

Roanoke, Virginia.

"Peonies were very fine."

Scranton, Pa.

"The Peonies arrived as promised, and I want to thank you for your attention to this shipment. The eyes are the fattest I ever received, each a guarantee of fine blooms, and your packing unbeatable."

East Moriches, Long Island, N. Y.

"Goods just arrived and must say the stock is fine."

Kutztown, Pa.

"Since asking you to trace, shipment has come in and stock looks good."

Clifton, N. Y.

"The roots as to size and cutting up for planting out, were just fine."

Rosendale, Wisc.

"The Peonies shipped us some time ago were grand."

Ravenna, Ohio.

"While I have not opened all the boxes, I can say they are the finest lot of Peonies I have ever received from a wholesale firm. You can look for me to come back for more next fall."

Ripley, N. Y.

"The ten boxes of Peony Roots arrived in fine condition after two weeks enroute. Thanks for careful packing."

Vincennes, Indiana.

"I was pleased with the way you filled an order for me last fall and if I need any Peonies this fall, I will remember you."

Perry, Ohio.

MEMORANDUM

EXCELLENT PROFITS

...FROM....

Commercial Cut-Flower Plantings

About 3,600 to 5,000 plants required to set an acre.

We often sell from \$1,000 to \$1,500 worth of cut-flowers in one season, from an acre of Peonies. Sometimes, the returns are very much greater. Plant an acre. It should prove to be the most profitable acre you own.

Suggestions For Planting

Peonies should be planted in the fall, and are equally successful when planted at any time from September first until the ground freezes too deep to allow planting. They succeed best in good quality, well drained garden soil, such as would produce a good crop of Irish Potatoes. Do not plant Peonies in very sandy soil—they are not likely to succeed.

Place roots in their natural position, two to four feet apart (for permanent cut-flower planting, rows may be four feet apart, plants three feet apart in the row, or $3\frac{1}{2}$ x $3\frac{1}{2}$ feet will be preferred by some) with new eyes two inches below the surface of the ground. Many growers plant as close as 3 x 3 feet.

An application of pure raw ground bone (bone meal) thoroughly mixed with the soil will supply sufficient plant food for a year or two. A top dressing of hardwood ashes would assist in quick root development.

Soil should be well prepared by plowing or spading and cultivating to a depth of eight inches or more and allowed to settle for a few days prior to setting the roots.

On some types of soil (usually not necessary), a light covering of straw or leaves for the first winter will prevent the newly set roots from heaving out because of alternate freezing and thawing.

Remove covering from directly over the plants, in early spring, before Peonies come through the ground. When Peonies are up a few inches, cultivate thoroughly and often throughout the growing season.

For All Who Grow Flowers

We recommend THE FLOWER GROWER. Published monthly. "The Magazine with a Mission." Edited, published and owned by Madison Cooper. A publication that is all that its name implies. But it is also much more.

Those who are interested in outdoor activities and who aspire to better living conditions; more beautiful surroundings; and a better outlook on life; will find many useful hints, suggestions, facts and information. Subscription price: \$2.00 per year; 3 years, \$4.50; 5 years, \$6.00; one copy 20c.
