PRICE-LIST FOR 1928

Prices effective February 1, 1928, and supersede all previous lists

No Catalog Issued

We have discontinued publishing an annual catalog, because our new State Highway location has become the focus point of thousands of visitors. Local sales have become a major item, and many crops which would otherwise be offered in a catalog for the period of a year are sold out as they mature.

Instead of catalogs, you will receive frequent and periodical bulletins concerning new crops, and new prices made possible by our new "low overhead" location.

In short, the use of bulletins, instead of catalogs, permits more timely circulation of our offers, and prevents disappointment arising from sold items which remain listed in catalogs long after stocks are sold out.

TERMS. Cash with order, excepting to previous customers who have established credit and who order in excess of \$10. Orders for less than \$10 must be accompanied by cash in all cases.

GUARANTEE. Plants are guaranteed true to name and to arrive in satisfactory condition. Their subsequent success, however, depends upon culture, soil, insects, and climate beyond our control. Reports of damaged or imperfect plants must be made within 24 hours after shipment is received. Adjustment will be equally prompt.

PRICES are F. O. B. our station, and do not include transportation or delivery. Express is preferable to parcel-post shipment. Parcel-post shipment will be made at cost, plus 8 cents to cover extra detail and service involved. In case of local deliveries the minimum delivery charge is \$1 per order.

The packing and boxing of bulky material, which requires a proportionately larger amount of labor and materials, will be charged for at cost. Purchaser will be informed as to amount of charge before shipment is made.

FARR NURSERY COMPANY, WEISER PARK, PA.

WEISER PARK IRISES

B. H. FARR'S IRIS SEEDLINGS

Characteristic for their range of color, type, height, and adaptability as cut-flowers.

Farr Nursery Company Office on the William Penn Highway, west of Reading

A part of our display garden near our offices

Perennials for the Hardy Garden

Perennials are a Farr specialty and it is our intention to add new strains and new varieties only after careful tests and comparisons. We shall be glad to help you in your selection of hardy perennials and to make suggestions for proper grouping and planting. Hardy flowers can be planted almost anywhere and require little care. Give them good garden soil, ordinary weather conditions, and they will grow and increase in numbers from year to year.

6 to 8 ft.	9 00

Japanese Cherry

The Farr Landscape Department is maintained for the service of our customers. Write us for planting suggestions

French Hybrid Lilacs

The Farr collection of more than 180 varieties has been thoroughly studied, and propagation has now been concentrated to the "best fifty." By lessening the number of varieties we are able to produce better quality, to furnish better service, and to reduce prices.

No French Hybrid Lilacs are poor Lilacs, and your selection from what we are able to offer of the "best fifty" will certainly result in something unusually desirable.

The plants are guaranteed true to name. Propagated on privet stock, they have now started their own roots, and should any privet suckers appear, they may be readily distinguished and easily removed. Plant deeply when received.

Important. Prices are F. O. B. our station and do not include transportation. Lilacs should be shipped by express. Parcel post will be charged at the actual rate, plus an additional 8 cts. to partly cover extra details and service involved.

Size of plants is not the criterion of value—rather, scarcity and general excellence.

	Size Furnished	Each

Charles X. Single. Dark red.....	2 to 3 ft.,	2 50
Congo. Single. Ashy red.....	18 to 24 in.,	2 50
De Mirabel. Single. Dark bluish lilac.....	18 to 24 in.,	3 00
Decaisne. (Decorative.) Single. Azure-blue.....	18 to 24 in.,	4 00
Diderot. Single. Rich claret-red.....	18 to 24 in.,	3 00
Edith Cavell. Double. Pure white.....	18 to 24 in.,	3 50
* Edmond Boissier. Single. Dark metallic violet.....	12 to 15 in.,	1 75
Ellen Willmott. Double. Pure white.....	18 to 24 in.,	5 00
Emile Gentil. Double. Bright cobalt-blue.....	18 to 24 in.,	2 75
* Emodi. Late pink Himalayan species.....	12 to 15 in.,	1 75
General Pershing. Semi-double; deep blue.....	18 to 24 in.,	3 50
Hippolyte Maringer. Large; compact; purplish mauve.....	2 to 3 ft.,	3 50
* Hugo Koster. Single. Early; large; full; lilac.....	12 to 15 in.,	1 75
* Jan Von Tol. New giant single; white.....	12 to 15 in.,	2 50
* Japonica. Very late white Japanese species.....	12 to 15 in.,	2 00
Josikæa. Late violet Asiatic species. Specimens.....	3 to 4 ft.,	3 25
Lamartine. Single. Mauve-pink.....	18 to 24 in.,	2 75
Leon Gambetta. Double. Giant lilac-rose.....	18 to 24 in.,	5 00
L'Oncle Tom. Single. Intense dark red.....	18 to 24 in.,	2 75
Ludwig Spaeth. Single. Crimson-purple.....	18 to 24 in.,	2 75
Mirabeau. Single. Rosy lavender. Early species.....	18 to 24 in.,	3 00
Mme. Casimir-Perier. Double. Large; milk-white.....	18 to 24 in.,	2 75
Mont Blanc. Single. Large; white.....	18 to 24 in.,	3 00
Persica rubra. Red Persian Lilac.....	18 to 24 in.,	2 00
President Grevy. Double. Soft blue.....	18 to 24 in.,	2 75
President Loubet. Double. Crimson-purple.....	18 to 24 in.,	2 75

	Size Furnished	Each
President Viger. Double; bluish lilac.....	18 to 24 in.,	\$2 50
Reamur. Single. Dark carmine.....	18 to 24 in.,	2 75
Rene Jarry-Desloges. Giant; blue-mauve.....	3 to 4 ft.,	4 00
Vauban. Double. Tender pink.....	18 to 24 in.,	2 75
Vestale. Single; pure white.....	18 to 24 in.,	2 75
Volcan. Very large; ruby-red.....	18 to 24 in.,	3 00
Waldeck-Rousseau. Double. Lilac-rose.....	18 to 24 in.,	2 75

*Very small. Should not be purchased unless willing to wait for bloom

WEISER PARK LILAC COLLECTION

Including high-grade varieties which exist in good quantity. Can therefore be furnished at lower prices and afford an economical opportunity to the beginner or to anyone who does not yet have these varieties. All 18 to 24-inch bushy plants.

Berryer. Semi-double. Clear mauve.....	\$2 75
Charles X. Single. Dark red.....	3 00
Diderot. Single. Claret-red.....	3 00
Ludwig Spaeth. Single. Crimson-purple.....	2 75
Mirabeau. Earliest; rosy pink.....	3 00
Mme. Casimir-Perier. Double. Large; white.....	2 75
Mont Blanc. Single. Large; white.....	3 00
President Grevy. Double. Soft blue.....	2 75
Vauban. Double. Tender pink.....	2 75

This Collection, amounting to \$25.75, for \$20 complete

Any 5 or more, your selection from this group, at \$2.50 each

SHADE AND FLOWERING TREES

No landscape is complete without trees to frame the picture. They are always welcome for their shade, and the flowering sorts present a profuse and beautiful mass of color when in bloom. We particularly recommend the Chinese Crab-apples and Japanese Cherries for this purpose. All stock freshly dug and carefully graded.

Norway Maple

Acer platanoides (Norway Maple).	Each	10	
8 to 10 ft., 1 1/2 to 1 3/4-in. cal.	\$5	50

Planting suggestions, designs and estimates as prepared by our Landscape Department. Consult us concerning this service.

Packing and boxing bulky material, which requires a proportionately larger amount of labor and materials, will be charged for at cost. Purchaser will be informed as to amount of charge before shipment is made

GENERAL LIST OF PEONIES

HOW TO GROW PEONIES

When to Plant. Peonies may be planted in early spring before the sprouts appear, or in fall, from the middle of August until the ground freezes. Fall is, in general, the better time, because bloom usually will follow the next spring, while spring-planted roots usually will not bloom until a year later.

Where to Plant. Given average garden soil, abundant sunshine, and good drainage, Peonies may be planted in any location and for any purpose. Shady, wet, and over-fertilized locations are not favorable.

How to Plant. Dig holes or furrows to a depth and diameter of about 15 inches. Fill in the bottom with enough loose ground, so that the eyes of the Peony will be 2 inches below the surface after the hole is filled in and mounded for drainage, the roots, of course, projecting downward and the eyes upward. Pack the ground firmly while planting. Plant from 3 to 4 feet apart. Do not use manure. Vigoro is an ideal fertilizer.

After Planting. Water during dry spells and cover with leaves or straw after the ground is frozen in winter. In spring most of this top-dressing should be worked into the soil, and cultivation

should be frequent and regular. After the blooming season, three or four cultivations will be sufficient until the following spring. Vigoro, sprinkled around the plants before rains or waterings, is a safe and most convenient fertilizer during the blooming season and in late August when new root-growth is forming. When cutting Peonies, allow at least two leaves to remain on each stem—the roots will need these “lungs” when they make their fall growth. Do not remove the foliage in fall before November, or at least not until it is thoroughly dead.

Merit of Varieties. More than 500 varieties of Peonies, once included in the Farr collection, are not in this list because they have been discarded. There are no poor Peonies, but it can be realized that, after such discarding, every Peony offered in this issue of Better Plants is a “best” variety.

Size of Divisions. Prices as specified apply to standard divisions bearing from 2 to 5 eyes, the size which, under normal conditions, will bloom next spring.

Abbreviations: E, early; M, midseason; EM, early midseason; LM, late midseason; L, late. 7.7, 9.7, etc., indicate grade of merit awarded by American Peony Society.

Raueenthal. Silvery pink and white. LM.	5 00		

SINGLE AND JAPANESE PEONIES

Single Peonies have solid center mass of fine golden stamens. In the Japanese varieties the stamens are enlarged into petaloids or staminodes, usually filling the center of the flower and usually tipped attractively.

Varieties marked (*) are Japanese. The others are singles with golden yellow stamens and resemble large wild roses.

	Each
Albiflora. Like a white water-lily. E.	\$2 50
*Ama-no-Sode. Large, perfect-shaped rose-pink blooms, with globular center of yellow staminodes.	10 00
*Attraction. Deep Tyrian-rose. M.	3 00
Camille. One of the latest red singles.	2 00
*Cathedral. Pink, with full, white, red-tipped center.	7 50
Clairette. Flesh-white. M.	2 00
*Dai-fo-Kuhan. Red with pink reflex. M.	2 50
Duchess of Portland. Pink, frilled white.	3 00
Emma. White, tinted rose. M.	1 50
*Fujimine. Pure white. M.	2 50
*Fusjyama. Large; flesh-pink. M.	2 00
*Fuyajo. Intense red, staminodes tipped chamois.	10 00
Geraldine. Bright rose, white-tipped staminodes.	2 00
Gisele. White. LM.	2 50
*Gypsy. Lively red, staminodes glowing red.	3 00
Hesperus. Silvery pink. M.	2 00
Jaqueline. Glistening pure white. M.	2 00
Jupiter. Vivid red. E.	2 00
L'Étincelante. Carmine, edged silver.	2 00
La Fiancee. Similar to Albiflora. M.	4 00
La raicheur. Rose, fading white. EM.	2 50
*Lemon Queen. White, with yellow center.	3 00
Major Loder. Pink, edged flesh.	2 00
Margaret Atwood. Very large; white. M.	10 00
*Mikado. Crimson, with gold center.	3 00
*Mountebank. White, with yellow center.	2 00
*Mutsu Hito. Dark pink. M.	3 00
Nulli Secundus. Deep crimson-scarlet. M.	3 00
Nympe. Medium-sized; flesh-pink.	2 00
*Ohirama. Bright red. M.	4 00
*Oitatsu. Flesh-white. M.	2 00

SUPERFINE MIXED PEONIES

This mixture caused by moving, discarding, and transplanting, includes all types of colors of Peonies. An excellent opportunity for cut-flower investment.

PRICES: 3 or more roots at 50 cts. each; 10 or more at 40 cts. each; 25 or more at 35 cts. each; 50 or more at 30 cts. each; 100 or more at 25 cts. each. All shipments by express or freight, charges collect.

Parcel-post shipment will be made at cost, plus 8 cents to cover extra detail and service involved. In case of local deliveries the minimum delivery charge is \$1 per order

Farr's Special Peony Collections

The collections here offered include only standard rated varieties and the best low-priced Peonies. They are prepared for those who are buying Peonies for the first time, or for those who do not yet possess any of the varieties included. Peony fans will note that here is an exceptional opportunity to obtain a fine collection of Peonies. Why not send a collection to a friend as a gift? Peonies are known to thrive and bloom freely for a hundred years. Could there be a more lasting gift?

TREE PEONIES

BANKSI. Large; semi-double; pale lilac-rose. Free bloomer. Divisions from 8-year plants, 2 to 4 feet high, at \$6 each; 5 or more at \$5 each. Entire plants 8 to 10 years old, containing from 5 to 6 divisions, for \$18 each. All shipments by express.

CULTURE.—Once established, Tree Peonies are almost as hardy as lilacs. For the first winter they should be mulched heavily. South and east exposures are the best locations and none except mature, established plants should be exposed to the north and west winter winds. Feed with bone-meal. Keep watered and cultivated. Plant deeply. Double varieties frequently bloom single and semi-double until thoroughly established. Tips of branches die back during winter, but plants gradually grow into bushes from 3 to 5 feet in height and spread, bearing, in many cases, more than a hundred blooms. Tree Peonies bloom from two to three weeks earlier than herbaceous varieties, with larger and more beautiful blooms, the petals of which, in most cases, resemble crêpe paper, and the colors are clear and intense.

The Peony Blooms Are Lovely

I cannot resist the temptation to tell you how nicely the Peonies I purchased of you last fall are doing. The blooms are lovely and I'm so pleased with the addition to my family. Thanking you and congratulating you on the fine showing your Peonies are making.—
MRS. E. O. HOLT, LaGrange, Ill., June 18, 1927.
